SUPPLEMENTARY INFORMATION: The BLM prepared a DEIS on the proposed Clear Creek Shale Oil Project in northwest Colorado. The project would produce 100,000 barrels per day (bpd) of shale oil. The DEIS analyzes the proposal,

three major project configurations, a 50,000 bpd production rate alternative, and various alternative configurations of discrete actions as part of the overall proposal. The DEIS analyzes the environmental and socioeconomic impacts of the proposal and alternatives.

AVAILABILITY: Single copies of the Draft EIS may be obtained at the above address: Public reading copies are also available at the following locations:

Mesa County Public Library, Grand Junction, CO 81501
Mesa College Library, Grand Junction, CO 81501
Conservation Library, Denver Public Library, 1537 Broadway, Denver, CO 80203
Garfield County Public Library, Glenwood Springs, CO 81601

Public meetings to receive oral and/or written comments on the proposed project will be held at 7:30 P.M. at the following locations.

April 4, 1983

Grand Junction—BLM Office, 764 Horizon Drive

April 5, 1983

DeBeque—DeBeque School, Minter Ave.

April 6, 1983

Rifle—Rifle High School Auditorium, 1353 Prefontaine

April 7, 1983

Denver—Ramada Inn Foothills, Winchester Room, 11595 W. 6th Ave

Oral comments will be limited to 10 minutes and should be accompanied with a written synopsis of the comments.

Dated: February 24, 1983.

George C. Francio,

Bureau of Land Management, State Director.

BILLING CODE 4310-84-M

1982 Amendments to the California Desert Plan and Eastern San Diego County Management Framework Plan; Availability of Final Environmental Impact Statement

Pursuant to Section 102(2)(c), of the National Environmental Policy Act of 1969, the Bureau of Land Management has prepared a Final Environmental Impact Statement (FEIS) concerning the 1982 Amendment review of the California Desert Plan and the Eastern San Diego County Management Framework Plan (MFP). Forty-nine amendments were accepted for consideration. The amendments propose changes in both general plan guidelines and in site-specific measures. The latter include changes in vehicle access restrictions, Areas of Critical Environmental Concern (ACECs), grazing allotments, wilderness suitability recommendations, and multiple-use class designations. Under the preferred alternative, 28 amendments would be accepted as proposed, nine amendments would be accepted with modifications, and 12 would be rejected.

Comments on the FEIS are being solicited from public agencies and interested individuals and organizations. The Bureau invites written comments on the statement to be submitted by May 10, 1983, to the following address. Use of any other address may result in comments not being processed. 1982 Plan Amendments, Bureau of Land Management, California Desert District, 1695 Spruce Street, Riverside, CA 92507, Telephone (714) 351-6386

A limited number of copies of the Final Environmental Impact Statement are available upon request at the address listed above. Copies are also available for review at two other locations:

USDI—Bureau of Land Management, 2800 Cottage Way, Rm. E-2841, Sacramento, CA 95825
USDI—Bureau of Land Management, 1725 Eye Street, NW., Suite 906, Washington, D.C. 20240

For any further information contact Gerald E. Hillier, District Manager, (714) 351-6394.

Dated: February 24, 1983.

Ed Hastey,

State Director.

BILLING CODE 4310-84-M

[Public Lands Exchange I-17821]

Public Lands Exchange; Idaho.

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of Realty Action, I-17821—Exchange, Public Lands in Cassia County, Idaho.

SUMMARY: The following described lands have been examined and identified as suitable for disposal by exchange under Section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716:

Boise Meridian, Idaho

Legal Description

T. 13 S., R. 25 E.
Sec. 28: SE¼SW¼

T. 16 S., R. 25 E.
Sec. 11: S½SE¼SW¼NE¼NE¼, S½S½SE¼NE¼NE¼, N½SE¼, NE¼SW¼
Sec. 12: S½SW¼SW¼NW¼NW¼, SE¼SW¼NW¼NW¼, SW¼SE¼NW¼NW¼
T. 16 S., R. 26 E.
Sec. 1: SE¼
Sec. 14: W½SW¼
Sec. 15: SW¼

Totaling 570.00 acres of public land.

In exchange for these lands the Federal Government will acquire the following described lands from Roscoe Ward:

Boise Meridian, Idaho

Legal Description

T. 15 S., R. 26 E.
Sec. 4: SE¼SW¼, S½SE¼
Sec. 9: NE¼NE¼
Sec. 10: N½NW¼, SE¼NW¼, SW¼NE¼
T. 16 S., R. 26 E.
Sec. 15: W½NE¼
Sec. 23: NE¼NE¼

Totaling 440 acres of private land.

The purpose of this exchange is to acquire privately-owned lands which are chiefly valuable for wildlife habitat, livestock grazing, and access. The public interest will be well served by making the exchange which is consistent with local govermental planning and zoning regulations and with Federal programs and planning. The values of the lands to be exchanged are approximately equal. If necessary, the acreage will be adjusted, or money will be paid, not to exceed 25% of the total value of the public lands, to equalize the values upon completion of the final appraisal of the lands.

The terms and conditions applicable to the public lands are:

1. A reservation to the United States for rights-of-way for ditches and canals pursuant to the Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. Reserving to the United States a right-of-way over and across a strip of land 66 feet in width along the west boundary of the SE¼SW¼ Sec. 28, T. 13 S., R. 25 E. for the full use as a road by the United States of America, its licensees and permittees, including the right of access and use for and by the people of the United States generally, to lands owned, administered, or controlled by the United States.

3. The patent will be issued recognizing that they lie within a floodplain and as such the patentees or their successors will be limited by section 3(d) of Executive Order 11988 of May 24, 1977 from seeking compensation from the United States or its agencies in

the event existing or future facilities on the patents are damaged by floods.

4. All minerals are reserved to the United States.

5. The lands are subject to valid existing rights.

No reservations or conditions exist on the private lands to be conveyed to the United States.

The publication of this notice in the **Federal Register** will segregate the public lands described above to the extent that they will not be subject to appropriation under the public land laws, including the mining laws. As provided by the regulations of 43 CFR 2201.1(b), any subsequently tendered application, allowance of which is discretionary, shall not be accepted, shall not be considered as filed and shall be returned to the applicant. The segregation will terminate as provided by the above cited regulation.

Detailed information concerning the exchange, including the environmental analysis and the record of public discussions, is available for review at the Burley District Office, 200 S. Oakley Highway, Burley, Idaho 83318.

For a period of 45 days interested parties may submit comments to the Burley District Office, Bureau of Land Management, Route 3, Box 1, Burley, Idaho 83318.

Dated: February 22, 1983.

Nick James Cozakos,

District Manager.

BILLING CODE 4310-84-M

Management Framework Plan; Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Planning Activity.

SUMMARY: The Management Framework Plan for the South Bearpaw Management Unit, southern Blaine County in Montana, will be amended during 1983. The purpose of the amendment is to determine the future management for the Ervin Ridge Wild Free Roaming Horse Herd. Alternatives to be considered will include no action, management at some population level, or removal of the wild horses. No preferred alternative has been identified at this time. Public participation will be sought throughout the development of an Environmental Analysis. Meetings will be held with interested parties at their request and mailings will solicit public comment during February, March and August, 1983. Issues expected to be considered include: management feasibility, potential for conflict with livestock grazing, potential for conflict with wildlife habitat requirements, and economic factors.

FOR FURTHER INFORMATION CONTACT: Donald F. Ryan, Area Manager, Bureau of Land Management, Havre Resource Area, Drawer 911, Havre, Montana 59501, 406-265-5891.

Dated: February 22, 1983.

Donald F. Ryan,

Area Manager.

New Mexico, Albuquerque District, New Mexico; District Advisory Council Meeting

The second meeting of the re-chartered Albuquerque District Advisory Council will be held April 26-27, 1983, starting in Farmington and ending in Albuquerque with attendance at the San Juan River Regional Coal Team meeting April 27. The Advisory Council meeting on April 26 will consist of a briefing-tour of public resources in the Bisti Coal region, departing the Holiday Inn, Farmington, 600 East Broadway, at 8:30 a.m. The tour will also include an explanation of the Rio Puerco Resource Area's water supply system, and will end in Albuquerque around 5 p.m. On April 27, the Advisory Council will attend the San Juan River Regional Coal Team meeting at the Albuquerque Convention Center, Ballroom A, starting at 9 a.m.

This council is managed in accordance with the Federal Advisory Committee Act of 1972, the Federal Land Policy and Management Act of 1976 and the Rangelands Improvement Act of 1976.

The public is welcome to attend all portions of this meeting, although transportation for the tour is arranged only for District Advisory Council members. Statements by the public may be made to the Advisory Council at 8:30 a.m. April 27 in Ballroom A, Albuquerque Convention Center.

Minutes of the meeting will be prepared and made available for review within 30 days following the meeting.

L. Paul Applegate,

District Manager.

Cedar City District Grazing Advisory Board Meeting

Notice is hereby given in accordance with Public Law 92-463 that a meeting of the Cedar City District Grazing Advisory Board will be held on Wednesday, March 30, 1983. The meeting will begin at 9:30 a.m. in the Bureau of Land Management Cedar City District Office located at 1579 North Main Street, Cedar City, Utah.

The agenda is as follows: (1) Review of Proposed Allotment Management Plans, (2) Rangeland Planning Proposals, (3) Rangeland Betterment Projects, (4) General Board Business.

Grazing Advisory Board meetings are open to the public. Interested persons may make oral statements or file written statements for the Board's consideration. Oral statements will be received at 9:30 a.m. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, 1579 North Main Street, Cedar City, Utah 84720, phone 801-586-2401, by March 25, 1983. Depending on the number of persons wishing to make statements, a per person time limit may be established by the District Manager.

Summary minutes of the Board meeting will be maintained in the District Office and be available for public inspection and reproduction (during regular business hours) within 30 days following the meeting.

Dated: February 25, 1983.

[M-55661]

Notice of Realty Action—Exchange of Public and Private Lands in Custer County, Montana

February 25, 1983.

AGENCY: Bureau of Land Management, Miles City District Office, Interior.

ACTION: Notice of Realty Action M–55061, Exchange of Public and Private Lands in Custer County.

SUMMARY: The following described public lands have been determined to be suitable for disposal by exchange under Section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716.

Montana Principal Meridian

T. 9 N., R. 53 E.,
Sec. 29: NE¼
T. 8 N., R. 54 E.,
Sec. 8: NW¼NE¼, S½NE¼, SE¼

Aggregating 440 acres of public lands.

In exchange for these lands, the United States will acquire the following described lands:

Montana Principal Meridan

T. 9 N., R. 52 E.,
Sec. 14: S½NW¼, SW¼, W½SE¼

Aggregating 320 acres of private lands and a Public Access Easement across other private lands allowing legal access to the above described lands. This Easement contains 20.66 acres of private lands.

DATES: For a period of 45 days from the date of this notice, interested parties may submit comments to the Bureau of Land Management, District Manager,P. O. Box 940, Miles City, Montana 59301. Any comments will be evaluated by the BLM, Montana State Director, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of Interior.

FOR FURTHER INFORMATION CONTACT: Information related to this exchange, including the environmental assessment and land report, is available for review at the Miles City District Office, West of Miles City, Montana.

SUPPLEMENTARY INFORMATION: The publication of this notice segregates the public lands described above from settlement, sale, location and entry under the public land laws, including the mining laws, but not from exchange pursuant to Section 206 of the Federal Land Policy and Management Act of 1976.

The exchange will be made subject to:

1. A reservation to the United States of a right-of-way for ditches or canals in accordance with 43 U.S.C. 945.
2. All mineral ownerships under the public and private lands involved will remain with the present owners.
3. All valid existing rights (e.g., rights-of-way, easements and leases of record).
4. The exchange is based on appraised fair market values on the public and private lands and the access easement involved in this action.

This exchange is consistent with Bureau of Land Management policies; planning and state and local officials have been contacted. The public interest will be served by completion of this exchange.

Ray Brubaker,
District Manager.

Sec. 28: SE¼NE¼, E½SE¼
Sec. 33: NE¼SE¼, S½SE¼
Sec. 34: All
Sec. 35: All

Containing 14,533.12 acres.

All of the coal in the above lands consists of unleased Federal coal.

The purpose of the exploration program is to obtain information about the coal resources and to gather environmental data within the boundaries of the aboved described area.

A detailed description of the proposed drilling program is available for review during normal business hours in the following offices (under serial number W–84029): Bureau of Land Management, 2515 Warren Avenue, P.O. Box 1828, Cheyenne, Wyoming 82001, and the Bureau of Land Management, Highway 187 North, P.O. Box 1869, Rock Springs, Wyoming 82901.

This notice of invitation will be published in this newspaper once each week for two consecutive weeks beginning the week of March 14, 1983, and in the **Federal Register**. Any party electing to participate in this exploration program must send written notice to both the Bureau of Land Management and Ark Land Company, no later than 30 days after publication of this invitation in the **Federal Register**. The written notice should be sent to the following addresses: Ark Land Company, Attn: Mr. Jack Cully, Manager Western Exploration Division, P.O. Box 340, Hanna, Wyoming 82327, and the Bureau of Land Management, Wyoming State Office, Branch of Energy Minerals, P.O. Box 1828, Cheyenne, Wyoming 82001.

The foregoing notice is published in the **Federal Register** pursuant to Title 43

Code of Federal Regulations, § 3410.2–1(c)(1).

J. Stan McKee,

Acting Chief, Branch of Energy Minerals.

BILLING CODE 4310-84-M

Fish and Wildlife Service

Conference of the Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora; Fourth Regular Meeting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: By this notice, the Service extends the comment period of its **Federal Register** notice of February 7, 1983, (48 FR 5603). That notice requested information and comments on the Service's proposed negotiating positions for the fourth regular meeting of the Conference of the Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora.

ADDRESSES: Information and comments on proposed negotiating positions should be sent to the Associate Director, Federal Assistance, U.S. Fish and Wildlife Service, (WPO), Washington, D.C. 20240. Written information and comments received by the Service will be open to the public inspection during normal business hours at the Federal Wildlife Permit Office, Room 620, 1000 N. Glebe Road, Arlington, Virginia.

DATE: The Service will consider information and comments (in reponse to its February 7, 1983, **Federal Register** notice) received by March 15, 1983.

FOR FURTHER INFORMATION CONTACT: Richard M. Parsons, Chief, Federal Wildlife Permit Office, U.S. Fish and Wildlife Service, Washington, D.C. 20240, Telephone: 703/235–2418.

SUPPLEMENTARY INFORMATION: On February 15, 1983, the Service held a public meeting to receive information and comments on its proposed negotiating positions for the fourth regular meeting of the Conference of the Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora to be held in Gaborone, Botswana, April 19–30, 1983. At that meeting, several persons requested that the Service's notice, which announced the meeting and published the proposed negotiating positions (48 FR 5603), be amended to extend the comment period to March 15, 1983, in order to allow the public sufficient time to adequately respond to the request for information and comments.

The Service believes the request for an extension of the comment period to March 15, 1983, to be reasonable. Therefore, the Service hereby extends the comment period of its **Federal Register** notice of February 7, 1983, to March 15, 1983.

This notice was prepared by Arthur Lazarowitz, Federal Wildlife Permit Office.

Dated: February 25, 1983.

Robert A. Jantzen,

Director, U.S. Fish and Wildlife Service.

ACTION: Notice of the Receipt of a Proposed Development and Production Plan.

SUMMARY: Notice is hereby given that Gulf Oil Exploration and Production Company has submitted a Development and Production Plan describing the activities if proposes to conduct on Lease OCS–G 1119, Block 52, Vermilion Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the Plan and that it is available for public review at the Office of the Regional Manager, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: Minerals Management Service, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837–46720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: February 23, 1983.

John L. Rankin,

Acting Regional Manager, Gulf of Mexico OCS Region.

BILLING CODE 4310-MR-M

INTERSTATE COMMERCE COMMISSION

[Volume No. OP1-FC-73]

Motor Carriers; Decision Notice; Finance Applications

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1161.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 20 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board No. 3, Members Krock, Joyce and Dowell.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 1, (202) 275-7992.

MC-FC-81251. By decision of February 24, 1983, issued under 49 U.S.C. 10321, the property brokers regulations at 49 CFR 1045, and the transfer rules at 49 CFR Part 1161, Board Number 3 approved the acquisition of control of EMPLOYEE TRANSFER CORPORATION (ETC), of Chicago, IL, a property broker operating pursuant to License No. MC-159301 and Sub-No. 1 thereunder by THE EQUITABLE LIFE HOLDING CORPORATION (EQUITABLE), of New York, NY, a non-carrier. ETC is a wholly-owned subsidiary of LINCOLN NATIONAL CORPORATION, also a non-carrier. ETC is authorized to engage in operations, in interstate or foreign commerce as a broker of (1) general commodities (except household goods) between points in the United States and (2) household goods, between points in the coterminous United States. Representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Ave., NW., Washington, DC 20036.

[FR Doc. 83-5300 Filed 3-2-83; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods). The following applications for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For compliance procedures, see 49 CFR 1160.86. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E.

These applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perfrom the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's

other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service in for a named shipper "under contract."

Please direct status inquiries to Team 1, (202) 275–7992.

Volume No. OP1–69

Decided: February 18, 1983.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

MC 108570 (Sub-7), filed February 1, 1983. Applicant: L & L COACH LINES, INC., 519 Maryland Ave., Hagerstown, MD 21740. Representative: Edward N. Button, 635 Oak Hill Ave., Hagerstown, MD 21740, (301) 739–4660. Transporting *passengers*, in charter and special operations, between points in the U.S.

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 115660 (Sub-7), filed February 2, 1983. Applicant: BROOKFIELD BUS SERVICE, INC., 3 Railroad Place, Maspeth, NY 11378. Representative: Arthur Wagner 342 Madison Ave., New York, NY 10137 (212) 366–0300. Transporting *passengers*, in charter and special operations, between points in the U.S.

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 159661, filed February 7, 1983. Applicant: ANCHOR TOURS, INCORPORATED, 3473 Johnson Drive, Lithonia, GA 30058. Representative: Stephen Monroe, (same address as applicant) (404) 979–2100. Transporting *passengers*, in charter and special operations, beginning and ending at points in GA, and extending to points in the U.S. (except AK and HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 165770, filed January 17, 1983. Applicant: ECOLE TRANSPORTATION CORP., 231 West Lincoln Ave., Mount Vernon, NY 10550. Representative: Norman Turk, 225 Broadway, New York, NY 10007, (212) 619–1540. Transporting *passengers*, in charter and special operation, between points in Westchester County, NY, on the one hand, and, on the other points in the U.S. (except HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 165801, filed January 20, 1983. Applicant: RACINE BROKERAGE SERVICES, INC., 952 Brookstown Ave., P.O. Box 5127, Wionston-Salem, NC 27113. Representative: W. L. Trull (same address as applicant) (919) 727–0516. As a *broker* of *general commodities* (except household goods), between points in the U.S. (except AK and HI).

MC 165951, filed February 7, 1983. Applicant: ATLANTIC COACH LINES, INC., 2519 Gresham Rd., SE., Atlanta, GA 30316. Representative: Mark S. Gray, 1006 South Tower, 225 Peachtree St., NE., Atlanta, GA 30303, (404) 523–1717. Transporting *passengers*, in charter and special operations, between points in the U.S. (except AK and HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 165961, filed January 28, 1983. Applicant: ROBERT R. BOCKERT, 6317 N.E. 30th Ave., Vancouver, WA 98665. Representative: Robert R. Bockert (same address as applicant), (206) 573–0401. As a *broker* of *general commodities* (except household goods), between points in the U.S.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water Carriers; Household Goods Brokers. The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982 at 47 FR 53271. For compliance procedures, see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922(c)(2)(E). Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the Exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: common carrier of property-that the service proposed will serve a useful public purpose, responsive to a public demand or need; water common carrier-that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract carrier of property, freight forwarder, and household goods broker-that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich
Secretary.

Please direct status inquiries to Team one at (202) 275–7992.

Note—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly.

Volume No. OP1–70

Decided: February 16, 1983.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

MC 2060 (Sub-18), filed February 3, 1983. Applicant: PINE HILL-KINGSTON BUS CORP., P.O. Box 1758, Kingston, NY 12401. Representative: Lawrence E. Lindeman, 4660 Kenmore Ave., Suite 1203, Alexandria, VA 22304, (703) 751–2441. *Over regular routes*, transporting *passengers*, (1) between Rome and New York, NY, from Rome over NY Hwy 49 to Utica, then over Interstate Hwy 90 to NY Hwy 28, then over NY Hwy 28 to Interstate Hwy 87, then over Interstate Hwy 87 to NY Hwy 17, then over NY Hwy 17 to the NY–NJ State line, then over NJ Hwy 17 to NJ Hwy 3, then over NJ Hwy 3 to Interstate Hwy 495, then over Interstate Hwy 495 to New York, and return over the same route, serving the off-route point of Herkimer, NY, (2) between Mt. Tremper, NY, and junction NY Hwys 375 and 28, from Mt. Tremper over NY Hwy 212 to Woodstock, NY, then over NY Hwy 375 to NY Hwy 28, and return over the same route, (3)

between Oneonta and Kingston, NY, from Oneonta over NY Hwy 28 to NY Hwy 296, then over NY Hwy 296 to NY Hwy 23A, then over NY Hwy 23A to NY Hwy 32, then over NY Hwy 32 to Interstate Hwy 87, then over Interstate Hwy 87 to Kingston, and return over the same route, (4) between Kingston, NY, and junction NY Hwys 32 and 17, from Kingston over U.S. Hwy 9W to NY Hwy 32, then over NY Hwy 32 to NY Hwy 17, and return over the same route, (5) between Kingston, NY, and junction NY Hwy 299 and Interstate Hwy 87, from Kingston over NY Hwy 32 to New Paltz, NY, then over NY Hwy 299 to Interstate Hwy 87, and return over the same route, (6) between junction NY Hwy 17 and Interstate Hwy 287 and Freeport, NY from junction NY Hwy 17 and Interstate Hwy 287 over Interstate Hwy 287 to Interstate Hwy 95, then over Interstate Hwy 95 to Interstate Hwy 295 then over Interstate Hwy 295 to NY Hwy 25, then over NY Hwy 25 to NY Hwy 25B, then over NY Hwy 25B, to Mineola, then over Mineola Blvd, Franklin Ave., Henry St., Greenwich St., Nassau Rd., and Main St. to Freeport, and return over the same route serving the off-route points of Nanuet, White Plains, New Rochelle, Queens Village, Mineola, and Hempstead, NY, (7) between junction Interstate Hwy 287 and Garden State Parkway and junction Interstate Hwys 287 and 295, from junction Interstate Hwy 287 and Garden State Parkway over Garden State Parkway to Interstate Hwy 80 then over Interstate Hwy 80 to Interstate Hwy 95, then over Interstate Hwy 95 to junction Interstate Hwys 95 and 295, and return over the same route, (8) between junction NY Hwys 23 and 23A and Shandaken, NY, from junction NY Hwys 23 and 23A over NY Hwy 23A to Lexington, NY then over NY Hwy 42 to Shandaken, and return over the same route, and (9) between New York, NY, and junction Interstate Hwys 87 and 287 near Elmsford, NY, from New York over city streets to Interstate Hwy 87, then over Interstate Hwys 87 to Interstate Hwy 287, and return over the same route, serving all intermediate points in connection with routes (1) to (9) above.

Note.— Applicant intends to tack the sought rights to its existing authority. Applicant seeks to provide regular-route service in interstate or foreign commerce and in intrastate commerce under 49 U.S.C. 10922(c)(2)(B) over the same route.

MC 154648 (Sub-2), filed February 8, 1983. Applicant: WAYNE PHILLIPS, INC., P.O. Box 648, Pharr, TX 78577. Representative: Wayne Phillips (same address as applicant), 512–787–0071. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the U.S. (except AK and HI).

MC 161678 (Sub-3), filed February 3, 1983. Applicant: CAPE TRANSIT CORP., 5501 Ocean Ave., Wildwood Crest, NJ 08260. Representative: Elliott Bunce, 1600 Wilson Blvd., Suite 1301, Arlington, VA 22209, (703) 522–0900. Applicant seeks authority in intrastate commerce to conduct service at all intermediate points on the route in No. MC 161678 (Sub-No. 1), in part, as follows: To operate over the route between Ocean City, MD and Atlantic City, NJ to provide intrastate service at all intermediate points between North Cape May, NJ and Atlantic City, NJ.

Note.—Applicant seeks to provide regular-route service in intrastate commerce under 49 U.S.C. 10922(c)(2)(B).

MC 163899 (Sub-1), filed February 8, 1983. Applicant: L & M TRANSPORTATION, INC., 2 Inverness Circle, Fairport, NY 14450. Representative: Harold O. Orlofske, P.O. Box 368, Neenah, WI 54956, (414) 722–2848. Transporting *rubber and plastic products* between points in Middlesex County, NJ, on the one hand, and, on the other, points in the U.S. (except AK and HI).

MC 166099, filed February 3, 1983. Applicant: HARRY L. REEVES & JAMES T. REEVES, d.b.a., REEVES MOBILE HOME TOWING, 2141 Washington Way, Longview, WA 98632. Representative: Harry L. Reeves, (same address as applicant), (206) 636–4460. Transporting *mobile homes and modular buildings*, between points in OR and WA.

MC 166168, filed February 8, 1983. Applicant: JERRY CLARK, INC., d.b.a., INDUSTRY MOTOR XPRESS, 18145 E. Valley, La Puente, CA 91744. Representative: Earl N. Miles, 3704 Candlewood Dr., Bakersfield, CA 93306, (805) 872–1106. Transporting *such commodities* as are dealt in or used by manufacturers and distributors of food and related products, between points in AZ, CA, CO, ID, MT, NV, NM, OK, OR, TX, UT, WA, and WY.

MC 166169, filed February 8, 1983. Applicant: SUNDANCE TRANSPORTATION, 1357 Milne Lane, Midvale, UT 84047. Representative: Gordon Jensen (same address as applicant), (801) 942–4340. Transporting (1) *ores*, (2) *minerals*, and (3) *such commodities* as are dealt in by mining, milling, and energy exploration industries, between points in the U.S. (except AK and HI), under continuing contract(s) with All-Minerals Corporation, of Murray, UT.

MC 166199, filed February 9, 1983. Applicant: SIOUX TANK LINE, INC., Highway 10 West, P.O. Box 130, Orange City, IA 51041. Representative: George L. Hirschbach, 920 West 21 St., P.O. Box 155, South Sioux City, NE 68776. (402) 494–5466. Transporting *commodities in bulk*, between points in IL, IA, KS, MN, MO, ND, and SD.

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: February 24, 1983.

The following restriction removal applications, are governed by 49 CFR Part 1165. Part 1165 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747 and redesignated at 47 FR 49590, November 1, 1982.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1165.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with the criteria set forth in 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Review Board No. 2, Members Carleton, Williams, and Ewing.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 3, at (202) 275–5223.

MC 116314 (Sub-34)X, filed February 9, 1983. Applicant: MAX BINSWANGER TRUCKING, P.O. Box 3284, Santa Fe Springs, CA 90670. Representative: John C. Russell, 1545 Wilshire Blvd., Suite 606, Los Angeles, CA 90017, (213) 483–4700. Lead certificate and Subs 6, 10, 11, 13, 14, 15, 17, 20, 21, 23, 24, 26, 28, 29, 32, and 33: (1) broaden cement, empty cement containers, cement, in bulk, in hopper-type vehicles, cement, in bags, pozzolan, in bulk, fly ash and bottom ash, in bulk, to "building materials and commodities in bulk"; (2) broaden parts of counties, cities and/or facilities as follows: Creal, Colton, and Victorville, CA (San Bernardino and Kern Counties); Gabbs, Hawthorne, and Yerington, NV (Nye, Mineral and Lyon Counties); Mohave County, AZ north of the Colorado River (Mohave County); Yuma and Mohave Counties, AZ on and north of Interstate Hwy 10 and south of the Colorado River (Yuma and Mohave Counties); plantsite at Gorman, CA (Los Angeles County); Monolith, CA (Kern County); Panaca, NV (Lincoln County); Creal, CA (Kern County); Yuma County, AZ, located south of Interstate Hwy 10 (Yuma County); Colton, CA (San Bernardino and Kern Counties); Victorville, CA (San Bernardino County); Crestmore and Oro Grande, CA (Riverside and San Bernardino Counties); ports of entry at or near Calexico, Tecate, and San Ysidro, CA (Imperial and San Diego Counties); points in Los Angeles Harbor Commercial Zone, CA (Ventura and Los Angeles Counties); plantsite at Moapa, NV (Clark County); Port Huenome, CA (Ventura County); (3)(a) in Subs 14, 23, and 24, delete the exception of Gabbs, Hawthorne and Yerington, NV; (b) in Sub 23 delete the exception of that part of Yuma County, AZ, on and north of Interstate Hwy 10; and (c) in Sub 24 delete the exception of Yuma, AZ and those parts of Yuma and Mohave Counties, AZ on and north of Interstate Hwy 10; (4) delete the restriction in Sub 17 having a prior movement by rail; and (5) broaden one-way movement to radial authority in the lead and all Subs.

BILLING CODE 7035–01–M

[Ex Parte No. 357]

Exemptions for Contract Tariffs

AGENCY: Interstate Commerce Commission.

ACTION: Notices of Provisional Exemptions.

SUMMARY: Provisional exemptions are granted under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e), and the below-listed contract tariffs may become effective on one day's notice. These exemptions may be revoked if protests are filed.

DATES: Protests are due within 15 days of publication in the **Federal Register.**

ADDRESS: An original and 6 copies should be mailed to: Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT:

Douglas Galloway, (202) 275-7278

or

Tom Smerdon, (202) 275-7277.

SUPPLEMENTARY INFORMATION: The 30-day notice requirement is not necessary in these instances to carry out the transportation policy of 49 U.S.C. 10101a or to protect shippers from abuse of market power; moreover, the transaction is of limited scope. Therefore, we find that the exemption requests meet the requirements of 49 U.S.C. 10505(a) and are granted subject to the following conditions:

These grants neither shall be construed to mean that the Commission has approved the contracts for purposes of 49 U.S.C. 10713(e) not that the Commission is deprived of jurisdiction to institute a proceeding on its own initiative or on complaint, to review these contracts and,to determine their lawfullness.

BILLING CODE 7035-01-M

[Finance Docket No. 30109]

Illinois Central Gulf Railroad Company—Merger Exemption—New Orleans Great Northern Railway Company; Exemption

February 24, 1983.

Illinois Central Gulf Railroad Company (ICG) and its subsidiary New Orleans Great Northern Railway Company (NOGN) jointly filed a notice of exemption of the proposed merger of NOGN into ICG. The Railway Labor Executives' Association (RLEA) filed a protest in opposition which also requests that should the exemption be granted, labor conditions be imposed.

ICG owns more than 98 percent of NOGN's stock and has oprated NOGN as a leased line since 1933. NOGN uses the rental fee, its only income, to pay the interest on its Income Debentures. After the merger, ICG will, in lieu of paying the rental fee, assume NOGN's interest expense and pay interest directly to the holders of the Debentures, and will assume payment of the principal due in 2032. ICG now holds over 50 percent ($2,123,500) of that debt. (In Finance Docket No. 30110 ICG has filed an application to assume liability for these Debentures.)

ICG also will surrender for cancellation NOGN First Mortgage Bonds it owns in the total principal amount of $6,077,000, which constitutes the entire amount outstanding. These bonds, due July 1, 1983, are secured by a lien on all of NOGN's property. They are pledged as collateral under another mortgage, and their cancellation would be effected by substituting NOGN's property as direct collateral; this would eliminate the need for refinancing.

On the merger date, the separate corporate existence of NOGN shall cease and all shares of its stock owned by ICG shall be canceled. ICG will satisfy the claim of each remaining shareholder by a cash payment in an amount equal to the appraised fair market value as determined by an independent appraisal, less any indebtedness.

This is a transaction within a corporate family and will not result in adverse changes in service levels, significant operational changes, or a change in the competitive balance with carriers outside the corporate family. Therefore, the proposed transaction is the type specifically exempted from the necessity for prior review and approval by 49 CFR 1180.2(d)(3).

The parties indicate that NOGN has no employees other than its officers and directors, who are also officers of ICG. However, as a condition to use of the exemption any employee of ICG or NOGN affected by this transction shall be protected pursuant to *New York Dock Ry.-Control-Brooklyn Eastern Dist.*, 360 I.C.C. 60 (1979).

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Agatha L. Mergenovich,

Secretary.

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731–TA–125 and 126; Preliminary]

Potassium Permanganate From the People's Republic of China and Spain

AGENCY: International Trade Commission.

ACTION: Institution of preliminary antidumping investigations and scheduling of a conference to be held in connection with the investigations.

EFFECTIVE DATE: February 22, 1983.

SUMMARY: The United States International Trade Commission hereby gives notice of the institution of preliminary antidumping investigations under section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from the People's Republic of China and Spain of potassium permanganate, provided for in item 420.28 of the Tariff Schedules of the United States, which are alleged to be sold in the United States at less than fair value.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Carpenter, Office of Investigations, U.S. International Trade Commission, 701 E Street, NW., Washington, D.C. 20436, telephone 202–523–0399.

SUPPLEMENTARY INFORMATION:

Background

These investigations are being instituted in response to a petition filed on February 22, 1983, on behalf of the Carus Chemical Co., a U.S. producer of potassium permanganate. The Commission must make its determination in the investigations within 45 days after the date of the filing of the petition, or by April 8, 1983 (19 CFR 207.17).

Participation

Persons wishing to participate in these investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided for in § 201.11 of the Commission's Rules of Practice and Procedure (19 CFR 201.11), not later than seven (7) days after the publication of this notice in the **Federal Register**. Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the notice.

Service of Documents

The Secretary will compile a service list from the entries of appearance filed in the investigations. Any party submitting a document in connection with the investigations shall, in addition to complying with § 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 13791, Apr. 1, 1982), serve a copy of the nonconfidential version of each such document on all other parties to the investigations. Such service shall conform with the requirements set forth in § 201.16(b) of the rules (19 CFR § 201.16(b)), as amended by 47 FR 33682, Aug. 4, 1982).

In addition to the foregoing, each document filed with the Commission in the course of these investigations must include a certificate of service setting forth the manner and date of such service. This certificate will be deemed proof of service of the document. Documents not accompanied by a certification of service will not be accepted by the Secretary.

Written Submission

Any person may submit to the Commission on or before March 23, 1983, a written statement of information pertinent to the subject matter of these

investigations (19 CFR 207.15). A signed original and fourteen (14) copies of such statements must be submitted (19 CFR 201.8, as amended by 47 FR 13791, Apr. 1, 1982).

Any business information which a submitter desires the Commission to treat as confidential shall be submitted separately, and each sheet must be clearly marked at the top "Confidential Business Data." Confidential submissions must conform with the requirements of § 201.6 of the Commission's rules (19 CFR 201.6). All written submissions, except for confidential business data, will be available for public inspection.

Conference

The Director of Operations of the Commission has scheduled a conference in connection with these investigations for 9:30 a.m., on March 21, 1983, at the U.S. International Trade Commission Building, 701 E Street, NW., Washington, D.C. Parties wishing to participate in the conference should contact the staff investigator, Mr. Robert Carpenter (202–523–0399), not later than March 17, 1983, to arrange for their appearance. Parties in support of the imposition of antidumping duties in the investigations and parties in opposition to the imposition of such duties will each be collectively allocated one hour within which to make an oral presentation at the conference.

Public Inspection

A copy of the petition and all written submissions, except for confidential business data, will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street, NW., Washington, D.C.

For further information concerning the conduct of these investigations and rules of general application, consult the Commission's Rules of Practice and Procedure, part 207, subparts A and B (19 CFR 207, as amended by 47 FR 33682, Aug. 4, 1982), and part 201, subparts A through E (19 CFR Part 201, as amended by 47 FR 13791, Apr. 1, 1982, and 47 FR 33682, Aug. 4, 1982). Further information concerning the conduct of the conference will be provided by Mr. Carpenter.

This notice is published pursuant to section 207.12 of the Commission's rules (19 CFR 207.12).

Issued: February 25, 1983.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

DEPARTMENT OF JUSTICE

Correction to Notice of a Consent Decree in an Action Under the Clean Water Act; Bethlehem Mines Corp.

In accordance with Departmental Policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that on December 28, 1982, a consent decree in *United States v. Bethlehem Mines Corporation,* Civil Action No. 82–5724 was lodged in the United States District Court for the Eastern District of Pennsylvania.

A previous Federal Register notice, 48 FR 4080 (January 28, 1983) regarding this decree contained several inaccuracies due to clerical error. This notice corrects those inaccuracies.

The consent decree concerns the discharge of pollutants, primarily total suspended solids, in violation of the Clean Water Act at four outfalls or streams of water in the vicinity of the Panther Valley Division strip mines of Bethlehem Mines Corporation (a division of Bethlehem Steel Corporation) located in Carbon and Schuylkill Counties in Eastern Pennsylvania. The consent decree requires that Bethlehem commence and complete construction of a water treatment facility to treat discharges from Outfalls 001 and to monitor discharges from Outfalls 003, the Lausanne Tunnel.

The decree may be examined at the Office of the United States Attorney, 3310 United States Courthouse, 601 Market Street, Philadelphia, Pennsylvania 19106, at the Region III office of the Environmental Protection Agency, 6th and Walnut Streets, Philadelphia, Pennsylvania, 19106, and at the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice, Room 1515, 10th and Pennsylvania Avenue, NW., Washington, D.C. 20530. A copy of the decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice. In requesting a copy, please enclose a check in the amount of $1.70 (10 cents per page reproduction charge) payable to the Treasurer of the United States.

The Department of Justice will receive written comments relating to the consent decree for a period of thirty (30) days from the date of this notice. Comments should be directed to the Assistant Attorney General of the Land and Natural Resources Division of the Department of Justice, 9th and Pennsylvania Avenue, NW., Washington, D.C. 20530, and should refer to *United States v. Bethlehem Mines Corporation,* Department of Justice Reference No. 90–5–1–1–1653.

Sincerely,

Carol E. Dinkins,

Assistant Attorney General, Land and Natural Resources Division.

[FR Doc. 83–5335 Filed 3–3–83; 8:45 am]

BILLING CODE 4410–01–M

Drug Enforcement Administration

Hoskins Drug Co.; Revocation of Registration

On November 24, 1982, the Deputy Assistant Administrator, Office of Drug Control Drug Enforcement Administration, directed an Order to Show Cause to Hoskins Drug Company, 4130 Rozells Ferry Road, Charlotte, North Carolina 28216, seeking to revoke DEA Certificate of Registration A93193517 previously issued to Hoskins Drug Company. The statutory predicate for the order under 21 U.S.C. 824(a)(2) was the conviction on June 9, 1982, in the United States District Court for the Western District of North Carolina of Ralph Clayton Robinson, the owner of Hoskins Drug Company, of felony offenses relating to controlled substances. Thirty days have elapsed since the receipt of the order and no offense has been received. Therefore, the Acting Administrator finds under 21 CFR 1301.54(d) that Hoskins Drug Company has waived its right to a hearing in this matter and enters his final order under 21 CFR 1301.57.

The Acting Administrator finds tht Ralph Clayton Robinson was convicted of one count of conspiracy to distribute Schedule IV controlled substances in violation of 21 U.S.C. 846; two counts of possession with intent to distribute Schedule IV controlled substances in violation of 21 U.S.C. 841(a)(1); two counts of distribution of Schedule IV controlled substances in violation of 21 U.S.C. 841(a)(1); and one count of intentionally, knowingly and unlawfully omitting material information from records required to be made, kept and filed under 21 U.S.C. 827(a)(3) and 21 CFR 1304.24, in violation of 21 U.S.C. 843(a)(4)(A). The Acting Administrator, upon examination of the investigative file in this matter, finds that Robinson

and Jimmy Wayne Bryant, the pharmacist at Hoskins Drug Company, supplied quantities of controlled substances to George Gaddy, Jumenia Watts, and Johnnie Mae Dunlap Gaddy. These people in turn shipped the controlled substances via air freight to Indianapolis, Indiana where they were sold by a local drug dealer. In October 1981, two shipments were seized in Indianapolis containing a total of approximately 1,000 dosage units of Talwin (gluthetimide), a Schedule IV controlled substance. Agents of the North Carolina State Bureau of Investigation (SBI) Diversion Investigation Unit (DIU) conducted an audit of Hoskins Drug Company in November 1981. That audit revealed shortages of approximately 4,500 dosage units of Talwin, 4,200 dosage units of Valium (diazepam), a Schedule IV controlled substance and approximately 325 dosage units of Dilaudid (hydromorphone), a Schedule II narcotic.

The investigation revealed diversion of controlled substances from Hoskins Drug Company since November, 1980. On April 5, 1982, a grand jury sitting in the Western District of North Carolina handed up a six count indictment against Robinson. Following a jury trial, Robinson was convicted on all six counts. On June 9, 1982, the Honorable Robert D. Potter, U.S.D.J., sentenced Robinson to two years incarceration on count one, and one year incarceration on count six to run consecutively with the sentence imposed in count one for a total of three years incarceration plus a mandatory one year special parole term.

The Acting Administrator finds that revocation of the Certificate of Registration issued to Hoskins Drug Company is the appropriate action in this matter. In *Big T Pharmacy, Inc.*, Docket No. 80-34, 47 FR 51830 (1982), the Acting Administrator stated that pharmacies must operate through the agency of natural persons owners, stockholders, pharmacists or other key employees. When such persons misuse the pharmacy's registration by diverting controlled substances obtained thereunder, and when those individuals are convicted as a result of that diversion, the pharmacy's registration becomes subject to revocation under 21 U.S.C. 824, just as if the pharmacy itself had been convicted. That logic is compelling in this case. Ralph Clayton Robinson and Jimmy Wayne Bryant diverted Talwin from Hoskins Pharmacy at a time when abuse of Talwin and pyribenzamine was widespread in the Midwest. See *Odie Pharmacy*, 48 FR 356 (1983). The Acting Administrator concludes that the sale of highly abused controlled substances by the owner of a DEA registered pharmacy is not consistent with the high degree of trust which DEA must expect of pharmacies registered under the Controlled Substances Act.

The Acting Administrator notes that Robinson has sold his interest in Hoskins Drug Company to Yates Palmer, a Registered Pharmacist, who was not involved in the diversion of controlled substances from the pharmacy. DEA has granted Hoskins Drug Company's application for registration with Mr. Palmer as owner upon the understanding that Ralph Clayton Robinson will exercise no control or influence on the operation of Hoskins Drug Company or any successor.

It is the decision of the Acting Administrator to revoke the Certificate of Registration previously issued to Hoskins Drug Company. Accordingly, under the authority vested in the Attorney General by Section 304 of the Controlled Substances Act, as redelegated to the Acting Administrator of the Drug Enforcement Administration, the Acting Administrator hereby orders that DEA Certificate of Registration A93193517 previously issued to Hoskins Drug Company be and is hereby revoked.

Dated: February 18, 1983.

Francis M. Mullen, Jr.,

Acting Administrator.

BILLING CODE 4410-09-M

Manufacturer of Controlled Substance; Registration

By Notice dated November 17, 1982, and published in the **Federal Register** on November 24, 1982 (47 FR 53155), Norac Company, Inc., 405 South Motor Avenue, Azusa, California 91702, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of Tetrahydrocannabinols (7370), a basic class of controlled substance listed in Schedule I.

No comments or objections have been received. Therefore, pursuant to Section 303 of the Comprehensive Drug Abuse Prevention amd Control Act of 1970 and Title 21, Code of Federal Regulations, § 1301.54(e), the Deputy Assistant Administrator hereby orders that the application submitted by the above firm for registration as a bulk manufacturer of the basic class of controlled substance listed above is granted.

Dated: February 22, 1983.

Gene R. Haislip,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 83-21]

Intent to Grant an Exclusive Patent License; Energy Transport

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Intent to Grant an Exclusive Patent License.

SUMMARY: NASA hereby gives notice of intent to grant to Energy Transport, of LaJolla, California, a limited, exclusive, royalty-bearing, revocable license to practice the invention described in U.S. Patent No. 4,343,772 for a "Thermal Reactor" which was issued on August 10, 1982, to the Administrator of the National Aeronautics and Space Administration on behalf of the United States of America. The proposed exclusive license will be for a limited number of years and will contain appropriate terms and conditions to be negotiated in accordance with the

NASA Patent Licensing Regulations, 14 CFR Part 1425, Subpart 2. NASA will negotiate the final terms and conditions and grant the exclusive license unless, within 60 days of the date of this Notice, the Director of Patent Licensing receives written objections to the grant, together with supporting documentations. The Director of Patent Licensing will review all written responses to the Notice and then recommend to the Assistant General Counsel for Patent Matters whether to grant the exclusive license.

DATE: Comments to this notice must be received by March 2, 1983.

ADDRESS: National Aeronautics and Space Administration, Code GP–4, Washington, D.C. 20546.

FOR FURTHER INFORMATION CONTACT: Mr. John G. Mannix, Director of Patent Licensing, (202) 755–3954.

Dated: February 23, 1983.

John E. O'Brian,

Deputy General Counsel.

[Notice 83-20]

Intent To Grant an Exclusive Patent License; Li-Cor, Inc.

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Intent to Grant an Exclusive Patent License.

SUMMARY: NASA hereby gives notice of intent to grant to Li-Cor, Incorporated of Lincoln, Nebraska, a limited, exclusive, royalty-bearing, revocable license to practice the invention described in U.S. Patent No. 4,011,854 for a "Mount for Continuously Orienting a Collector Dish in a System Adapted to Perform Both Diurnal and Seasonal Solar Tracking" which was issued on March 15, 1977, to the Administrator of the National Aeronautics and Space Administration on behalf of the United States of America. The proposed exclusive license will be for a limited number of years and will contain appropriate terms and conditions to be negotiated in accordance with the NASA Patent Licensing Regulations, 14 CFR Part 1245, Subpart 2. NASA will negotiate the final terms and conditions and grant the exclusive license unless, within 60 days of the date of this Notice, the Director of Patent Licensing receives written objections to the grant, together with supporting documentations. The Director of Patent Licensing will review all written responses to the Notice and then recommend to the Assistant General Counsel for Patent Matters whether to grant the exclusive license.

DATE: Comments to this notice must be received by May 2, 1983.

ADDRESS: National Aeronautics and Space Administration, Code GP–4, Washington, D.C. 20546.

[Notice 83-22]

Intent To Grant an Exclusive Patent License; Solar Electric Systems, Inc.

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Intent to Grant an Exclusive Patent License.

SUMMARY: NASA hereby gives notice of intent to grant to Solar Electric Systems, Incorporated, of San Diego California, a limited, exclusive, royalty-bearing, revocable license to practice the following inventions:

U.S. Patent No. 4,217,633: Solar Cell System Having Alternating Current Output; issued August 12, 1980

U.S. Patent No. 4,335,503: Method of Making a High Voltage V-Groove Solar Cell; issued June 22, 1982

U.S. Patent No. 4,341,918: High Voltage Planar Multi Junction Solar Cell; issued July 27, 1982

U.S. Patent No. 4,360,701: Heat Transparent High Intensity, High Efficiency Solar Cell; issued November 23, 1982.

The proposed exclusive license will be for a limited number of years and will contain appropriate terms and conditions to be negotiated in accordance with the NASA Patent Licensing Regulations, 14 CFR Part 1245, Subpart 2. NASA will negotiate the final terms and conditions and grant the exclusive license unless, within 60 days of the date of this Notice, the Director of Patent Licensing receives written objections to the grant, together with supporting documentation. The Director of Patent Licensing will review all written responses to the Notice and then recommend to the Assistant General Counsel for Patent Matters whether to grant the exclusive license.

BILLING CODE 7510-01-M

NATIONAL CAPITAL PLANNING COMMISSION

Revised Procedures for Public Participation

AGENCY: National Capital Planning Commission.

ACTION: Notice of adopted procedures.

SUMMARY: The Commission's Revised Procedures for Citizen Participation were published in the **Federal Register** on September 3, 1980 (45 FR 58450). These procedures are being revised again as part of the Commission's on-going effort to facilitate public input into its deliberations. By substituting "public" for "citizen," these revisions reflect a shift from a more narrow focus on citizen groups to a broader effort on the part of the Commission to solicit views and comments on proposed plans it is considering from a wide range of public and private entities. Aside from editorial changes and reorganization of the material, the only substantive change in these revised procedures is in the section dealing with Federal elements of the Comprehensive Plan. The Commission's current procedures refer to preliminary staff reports and background studies developed prior to the draft of a proposed element and solicit public comments on those early reports and studies. These revisions omit a specific reference to the material developed at the pre-draft stage. The revisions represent the Commission's current practice in considering Federal elements of the Comprehensive Plan, but do not preclude public input in the pre-draft stage.

EFFECTIVE DATE: March 3, 1983.

FOR FURTHER INFORMATION CONTACT: Samuel K. Frazier, Jr., Public Affairs Officer, National Capital Planning Commission, 1325 G Street NW., Washington, D.C. 20576, telephone 202/724–0174.

SUPPLEMENTARY INFORMATION: The proposed procedures were published for comment in the **Federal Register** on October 22, 1982 (47 FR 46910) with a deadline for comment of November 22, 1982. No comments were received.

Revised Procedures for Public Participation

The following procedures are designed to help members of the public make their views known to the National Capital Planning Commission on planning and related matters which come before it.

With what matters does the Commission deal?

The Commission is the central planning agency for the Federal Government in the National Capital Region, which includes the District of Columbia; Montgomery and Prince George's Counties in Maryland; Arlington, Fairfax, Loudoun, and Prince William Counties in Virginia; and all cities within the geographic area bounded by such counties. It reviews and acts upon development plans and programs submitted by Federal agencies, the District of Columbia Government and, in some cases, regional agencies and local governments in the Washington suburbs. It also acts on plans and programs prepared by its staff. For the sake of simplicity, these procedures use the word "plan" to cover all matters reviewed and acted upon by the Commission.

How would you know when the Commission will consider a plan in which you are interested?

The Secretary to the Commission (telephone: 202/724–0206) provides scheduling information regarding items on the Commission's agenda. The office of the Secretary can tell you when a particular plan will be considered by the Commission and, upon request, will provide an annual schedule of Commission meeting dates. Each month, approximately three weeks before a Commission meeting, the Secretary issues a notice called "Tentative Agenda Items" (TAI). It lists items the Commission is tentatively scheduled to act upon at one of its next several meetings. There is no charge for the TAI. Those wishing to be placed on the mailing list should contact the Public Affairs Officer (telephone: 202/724–0174).

What documents are available?

Many plans are accompanied by supporting documents, including environmental information in the form of an assessment or impact statement. An environmental assessment contains a brief discussion of the plan, of alternatives, and of the environmental impacts of the proposed plan and alternatives. An environmental impact statement covers in more detail the items specified for an environmental assessment. The public may review these documents at the Commission's offices and may obtain copies in accordance with its Freedom of Information Act regulations. Each agenda item before the Commission for action is accompanied by a written recommendation by the Commission's Executive Director. The document, called an Executive Director's Recommendation or EDR, includes the rationale for the recommendation, a description of the plan, and a summary of environmental information. The EDR is ordinarily available from the Public Affairs Officer on the Monday before each Commission meeting.

Other helpful documents are located in the Commission's Central Files. They may be obtained from the Commission's Records Management Officer by requesting materials by file number as shown on the TAI.

How do you express your views to the Commission?

Approximately two weeks after the TAI is published, the Executive Director's Recommendations (EDR) is prepared for each item scheduled for action at the next Commission meeting. All written comments received in a timely fashion will be considered by the Executive Director in the preparation of the EDR.

Anyone who wishes to speak at a Commission meeting must notify the Public Affairs Officer prior to the date specified in the TAI. Agenda items on which no member of the public has asked to speak and the Executive Director has recommended Commission approval may be placed on the "Consent Calendar" and acted upon without presentation or discussion at the Commission meeting. Registering to speak prior to the deadline in the TAI insures that the Commission will hear oral presentations and that registrants will be notified if an item has been removed from the agenda for a particular meeting.

What if you wish to express your views on an item but cannot attend the meeting at which it will be discussed?

Submission of written views on any item is welcomed up to the time of its consideration by the Commission. However, the Secretary to the Commission can insure that copies of written statements will be reproduced and distributed to each member of the Commission only if such statements are received by noon of the day preceding the day of the meeting.

What should your statement contain?

A wide variety of plans come before the Commission. Members of the public can effectively make their views known to the Commission if they understand the scope of the Commission's authority and direct their comments accordingly. Therefore, the following is a brief description of the Commission's major functions and, for each function, the type of review the Commission will give the item.

(a) Comprehensive Plan for the National Capital

The Comprehensive Plan for the National Capital consists of: (1) "Federal elements" prepared and adopted by the Commission, and (2) "District elements"

prepared by the Mayor, adopted by the Council of the District of Columbia, and reviewed by the Commission.

(1) *Federal Elements and Amendments Thereto.* Federal elements deal with Federal activities and interests in the development of the National Capital. When a proposed element or amendment is prepared, the Commission authorizes its circulation for review and comment to Federal, District, regional, and local agencies and those organizations and individuals who have expressed an interest in the element. Public comments, written and oral, are welcome at this stage.

(2) *District Elements and Amendments Thereto.* District elements deal with land use, transportation, public works, and other issues related to the development of the District of Columbia. Following adoption by the Council of the District of Columbia, District elements are reviewed by the Commission to determine their effect on Federal activities and interests in the National Capital Region.

The Commission will entertain comments from the public only on the impact a District element or amendment would have on Federal interests or functions. Comments on other aspects of such elements or amendments should be presented to the Mayor and/or the Council during the District's preparation and adoption of such elements or amendments.

(b) Federal Capital Improvements Program

Each year the Commission prepares and adopts a Federal Capital Improvements Program which contains the Commission's recommended capital program for Federal agencies in the National Capital Region over the next five years. Members of the public are invited to make planning-related comments, either orally or in writing, during the circulation and adoption stages.

(c) Federal and District of Columbia and Other Local Plans

(1) *Federal Plans.* Federal agenices are urged to develop a process for public participation where there is a potential for the Federal plans to have an impact on adjacent communities. Where appropriate and as requested by the sponsoring agency, Commission staff may be involved in such a process. In addition, members of the public may express their views before the Commission when it reviews the agency submission.

(2) *District Plans.* Various plans are submitted by the District to the Commission for recommendation or approval. Consistent with the objectives of the District of Columbia Self-Government and Governmental Reorganization Act (the "Home Rule" Act), the Commission limits its review of most District plans to a "Federal interest" review. Accordingly, public comments on such plans should be correspondingly limited. There is, however, no such limitation on plans for District public buildings in the central area of the District of Columbia.

The Commission may participate in zoning cases either at the Zoning Commission's prehearing or public hearing stage or after the hearing, when proposed Zoning Commission action has been referred to the Commission as required by law. The Commission may also participate in cases before the Board of Zoning Adjustment. Commission review of zoning matters is limited to: (1) The effect of the proposed zoning on Federal activities and interests in the National Capital and (2) the consistency of the proposed zoning with adopted elements of the Comprehensive Plan for the National Capital. Written or oral comments within these limits are welcomed.

(3) *Other Local Plans in the Maryland and Virginia Portions of the Region.* On occasion the Commission reviews plans prepared by local jurisdictions in the Region and proposed zoning actions where there may be an impact on Federal facilities or interests. Its role is to make recommendations only. Comments by members of the public should be limited to the effect on the plan or proposed zoning on the Federal Establishment or other Federal interests in the National Capital Region. The Commission has approval powers over plans for certain parklands purchased with Federal grant-in-aid funds. If such a plan is before the Commisison for approval, comments from members of the public are not so limited.

Daniel H. Shear,

Secretary to the Commission.

Humanities Panel Meeting

AGENCY: National Endowment for the Humanities, NFAH.

ACTION: Notice of meeting.

SUMMARY: Pursuant to the Provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that the following meeting of the Humanities Panel will be held at 806 15th Street, N.W., Washington, D.C. 20506.

DATE: March 23, 1983.

TIME: 9:00 a.m. to 5:00 p.m.

ROOM: 1023.

PROGRAM: This meeting will review the applications submitted for the Planning and Assessment Studies Program, Office of Planning and Policy Assessment, for projects beginning after July 1, 1983.

The proposed meeting is for the purpose of Panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. Because the proposed meeting will consider information that is likely to disclose: (1) Trade secrets and commercial and financial information obtained from a person and privileged or confidential; (2) information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and (3) information the disclosure of which would significantly frustrate the implementation of proposed agency action; pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that this meeting will be closed to the public pursuant to subsection (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Further information about this meeting can be obtained from Mr. Stephen J. McCleary, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, D.C. 20506, or call (202) 724-0367.

Stephen J. McCleary,

Advisory Committee, Management Officer.

BILLING CODE 7536-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-265]

Commonwealth Edison Co. and Iowa-Illinois Gas & Electric Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 78 to Facility Operating License No. DPR-30 issued to Commonwealth Edison Company and Iowa-Illinois Gas and Electric Company, which revised the Technical Specifications for operation of the Quad Cities Nuclear Power Station, Unit 2, located in Rock Island County, Illinois. The amendment is effective as of the date of issuance.

The amendment changes provisions of the Technical Specifications pertaining to the reactor protection system delay and response times, and the average power range monitor gain adjustment.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact

statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

For further details with respect to this action, see (1) the application for amendment dated May 12, 1981 (2) Amendment No. 78 to License No. DPR-30, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Moline Public Library, 504-17th Street, Moline, Illinois. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 17th day of February 1983.

For the Nuclear Regulatory Commission.

Domenic B. Vassallo,

Chief, Operating Reactors Branch No. 2, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-387]

Pennsylvania Power & Light Co.; Allegheny Electric Cooperative, Inc.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. NPF-14, issued to Pennsylvania Power & Light Company and Allegheny Electric Cooperative, Inc., for Susquehanna Steam Electric Station, Unit 1 (the facility) located in Luzerne County, Pennsylvania. This amendment grants changes to Technical Specifications 6.5.2.8.e and 6.5.2.8.f to conform with requirements in Title 10 of the Code of Federal Regulations, to correct the NRC addressee for submittal of monthly operating reports in Technical Specification 6.9.1.6, and to correct a typographical error in Technical Specification Table 3.3.3-1. This amendment is effective as of the date of issuance.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commissions' regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) and environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for the amendment dated December 10, 1982 and February 8, 1983; (2) Amendment No. 11 to License NPF-14 dated February 24, 1983; and (3) the Commission's evaluation dated February 24, 1983. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555, and at the Osterhout Free Library, Reference Department, 71 South Franklin Street, Wilkes-Barre, Pennsylvania 18701. A copy of items (1), (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 24th day of February 1983.

For the Nuclear Regulatory Commission.

A. Schwencer,

Chief, Licensing Branch No. 2, Division of Licensing.

BILLING CODE 7590-01-M

[Docket Nos. 50-277 and 50-278]

Philadelphia Electric Co., et al.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 87 and 87 to Facility Operating Licenses Nos. DPR-44 and DPR-56, issued to Philadelphia Electric Company, Public Service Electric and Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company, which revised Technical Specifications (TSs) for operation of the Peach Bottom Atomic Power Station, Units Nos. 2 and 3 (the facility) located in York County, Pennsylvania. The amendments are effective as of the date of issuance.

The revised TSs permit changes to the surveillance requirements allowing an alternate method of performing the core spray loop flow rate test.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issance of these amendments.

For further details with respect to this action, see (1) the application for amendment dated December 1, 1982, (2) Amendment No. 87 to License No. DPR-44 and Amendment No. 87 to License No. DPR-56, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room 1717 H Street, N.W., Washington, D.C., and at the Government Publications Section, State Library of Pennsylvania, Education Building, Commonwealth and Walnut Streets, Harrisburg, Pennsylvania. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 18th day of February 1983.

For the Nuclear Regulatory Commission.

John F. Stolz,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

[Docket Nos. 50-443-OL; 50-444-OL; ASLBP 82-471-02-OL]

Public Service Co. of New Hampshire, et al. (Seabrook Station, Units 1 and 2); Order Scheduling Prehearing Conference

February 24, 1983.

Pursuant to 10 CFR 2.752, the Board hereby schedules a prehearing conference to commence on Thursday, March 17, 1983, at 1:30 p.m. and terminate no later than 6:00 p.m., Friday, March 18, 1983. This conference will be held at the McCormick Federal Building, Post Office Square, Room 208, Boston, Massachusetts. Representatives of all parties, interested States, and interested municipalities are directed to attend.

At the prehearing conference, each representative must be familiar with all details of the case and possess complete authority to enter into any necessary agreements, including settlement agreements and stipulations. The parties shall be prepared to discuss the pending motions for summary disposition, as well as other matters specified in 10 CFR 2.752(a)(1)–(6) and pertaining to admitted contentions.[1] In particular, the intervenors representing States and municipalities involved in formulating emergency plans shall be prepared to state and discuss their authority to make commitments with respect to those plans. In addition, the Board requests that the NRC Staff arrange for the presence of a FEMA representative at this prehearing conference.

It is so ordered.

For the Atomic Safety and Licensing Board.

Helen F. Hoyt,

Chairperson, Administrative Judge.

Bethesda, Maryland.

BILLING CODE 7590-01-M

---

[1] The matters for consideration specified in 10 CFR 2.752 are:

(1) Simplification, clarification, and specification of the issues;

(2) The necessity or desirability of amending the pleadings;

(3) The obtaining of stipulations and admissions of fact and of the contents and authenticity of documents to avoid unnecessary proof;

(4) Identification of witnesses and the limitation of the number of expert witnesses, and other steps to expedite the presentation of evidence;

(5) The setting of a hearing schedule; and

(6) Such other matters as may aid in the orderly disposition of the proceeding.

[Docket No. 50-395]

Virgil C. Summer Nuclear Station, Unit No. 1; Issuance of Amendment to Facility Operating License No. NPF-12

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. NPF-12, issued to South Carolina Electric & Gas Company and South Carolina Public Service Authority (the licensees) for the Virgil C. Summer Nuclear Station, Unit No. 1 (the facility) located in Fairfield County, South Carolina. The amendment provides for extended operation of the plant up to 3,000 hours within specified power levels. The amendment is effective as of its date of issuance.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) South Carolina Electric & Gas Company letter, dated January 31, 1983, (2) Amendment No. 11 to Facility Operating License No. NPF-12, and (3) the Commission's related Safety Evaluation.

All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555 and the Fairfield County Library, Garden and Washington Streets, Winnsboro, South Carolina 29180. A copy of Amendment No. 11 may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 22nd day of February 1983.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

[Docket Nos. 50-361 and 50-362]

Southern California Edison Co., et al.; Notice of Issuance of Amendments; Facility Operating License Nos. NPF-10 and NPF-15

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 14 to Facility Operating License No. NPF-10, and Amendment No. 3 to Facility Operating License NPF-15 to Southern California Edison Company (SCE), San Diego Gas and Electric Company, The City of Riverside, California and The City of Anaheim, California (licensees) for the San Onofre Nuclear Generating Station, Units 2 and 3 (the facility) located in San Diego County, California. These amendments are effective February 18, 1983.

The amendments modify the Technical Specifications to change the flow rate of the control room emergency air cleanup system from 1500 cfm±+10% to 2050±+150 cfm. These amendments were requested by the SCE letters of February 11 and 16, 1983.

Issuance of these amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license amendments.

Prior public notice of these amendments is not required because the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

For further details with respect to this action, see (1) Southern California Edison Company's letters dated February 11 and 16, 1983, (2) Amendment No. 14 to Facility Operating License No. NPF-10, (3) Amendment No. 3 to Facility Operating License NPF-15,

and (4) the Commissioner's related Safety Evaluation.

These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., an the San Clemente Library, 242 Avenida Del Mar, San Clemente, California 92672. A copy of items (2), (3) and (4) may be obtained upon request address to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 18th day of February, 1983.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

[Docket No. 50-345]

The Toledo Edison Co. and the Cleveland Electric Illuminating Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 52 to Facility Operating License No. NPF-3, issued to The Toledo Edison Company and The Cleveland Electric Illuminating Company (the licensees), which revised Technical Specifications (TSs) for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

This amendment modifies TS Table 3.3-3 to permit defeat of the essential bus feeder breaker undervoltage trips for up to one minute when starting a reactor coolant pump or circulating water pump. The defeat will be accomplished through the use of a push button activated bypass circuit.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 23, 1979, as supplemented August 31, 1981, and March 19, 1982, (2) Amendment No. 52 to License No. NPF-3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, DC, and at the University of Toledo Library, Documents Department, 2801 West Bancroft Avenue, Toledo, Ohio. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 17th day of February 1983.

[Docket No. 50-346]

The Toledo Edison Co. and the Cleveland Electric Illuminating Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 53 to Facility Operating License No. NPF-3, issued to The Toledo Edison Company and The Cleveland Electric Illuminating Company (the licensees), which revised Technical Specifications for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

This amendment modifies Table 3.7-3 to delete safety related snubber 33A-GCB-4-H5 which has been replaced by a sway strut.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rule and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For futher details with respect to this action, see (1) the application for amendment dated January 18, 1982, as supplemented Octover 28, 1982, (2) Amendment No. 53 to License No. NPF-3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the University of Toledo Library, Documents Department, 2801 West Bancroft Avenue, Toledo, Ohio. BILLING CODE 7590-01-M

[Docket No. 50-346]

The Toledo Edison Co. and The Cleveland Electric Illuminating Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 54 to Facility Operating License No. NPF-3, issued to The Toledo Edison Company and The Cleveland Electric Illuminating Company (the licensees), which revised Technical Specifications (TSs) for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

This amendment modifies the TSs to eliminate the requirement for Thirty Day Written Reports under certain conditions. This change is consistent with applicable portions of Regulatory Guide 1.16. The amendment also clarifies the surveillance requirement applicable to the reactor coolant system pressure isolation valves by indicating that leak testing can be accomplished in

combination with a closed containment isolation valve.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amemdment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 25, 1981, (2) Amendment No. 54 to License No. NPF–3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the University of Toledo Library, Documents Department, 2801 West Bancroft Avenue, Toledo, Ohio 43606. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 17th day of February 1983.

For the Nuclear Regulatory Commission.

BILLING CODE 7590–01–M

[Docket No. 50–271]

Vermont Yankee Nuclear Power Corporation; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 75 to Facility Operating License No. DPR–28, issued to Vermont Yankee Nuclear Power Corporation which revised Technical Specifications for operation of the Vermont Yankee Nuclear Power Station (the facility) located near Vernon, Vermont. The amendment is effective as of its date of issuance.

The amendment modifies the Technical Specifications with respect to limiting conditions of operation for the standby liquid control system and administrative controls related to organizational structure.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated July 22, September 27, and December 7, 1982 (2) Amendment No. 75 to License No. DPR–28, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Brooks Memorial Library, 224 Main Street, Brattleboro, Vermont 05301. A copy of item (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 17th day of February 1983.

For the Nuclear Regulatory Commission.

Domenic B. Vassallo,

Chief, Operating Reactors Branch No. 2, Division of Licensing.

BILLING CODE 7590–01–M

[Docket No. 50–029]

Yankee Atomic Electric Company; Systematic Evaluation Program; Availability of Draft Integrated Plant Safety Assessment Report for the Yankee Nuclear Power Station

The Nuclear Regulatory Commission's (NRC) Office of Nuclear Reactor Regulation (NRR) has published its Draft Integrated Plant Safety Assessment Report related to Yankee Nuclear Power Station, which is operated by Yankee Atomic Electric Company in Framingham, Massachusetts.

The report documents the review completed under the Systematic Evaluation Program (SEP). The SEP was initiated by the NRC to review the design of older operating nuclear reactor plants to reconfirm and document their safety. The review has provided for (1) an assessment of the significance of differences between current technical positions on selected safety issues and those that existed when the Yankee plant was licensed, (2) a basis for deciding on how these differences should be resolved in an integrated plant review, and (3) a documented evaluation of plant safety. Equipment and procedural changes have been identified as a result of the review.

The report is being referred to the Advisory Committee on Reactor Safeguards and is being made available at the NRC's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the Greenfield Community College, 1 College Drive, Greenfield, Massachusetts 01301 for inspection and copying. Single copies of this report (Document No. NUREG–0825) may be requested from the U.S. Nuclear Regulatory Commission, Director, Division of Technical Information and Document Control, Washington, D.C. 20555, Attention: Publications Unit.

Dated at Bethesda, Maryland, this 10th day of February 1983.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Chief, Operating Reactors Branch No. 5, Division of Licensing.

[FR Doc. 83–5374 Filed 3–2–83; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 50–29]

Yankee Atomic Electric Company; Yankee Nuclear Power Station; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 80 to Facility Operating License No. DPR–3, issued to Yankee Atomic Electric Company (the licensee), which revised the Technical Specifications for operation of the Yankee Nuclear Power Station (Yankee) (the facility) located in Franklin County, Massachusetts. The amendment is effective as of its date of issuance. However, the Technical Specification provisions approved by the amendment, except Specification 3/4 12–1, are to become effective October 1, 1983.

Specification 3/4 12-1 is effective immediately.

The amendment approves Technical Specification provisions which have been developed for the purpose of keeping releases of radioactive material to unrestricted areas during normal operations, including expected operational occurrences, as low as reasonably achievable.

The application for amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated January 16, 1979, and supplements thereto dated July 30, 1982, September 30, 1982, November 8, 1982 and December 6, 1982, (2) Amendment No. 80 to License No. DPR-3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Greenfield Community College, 1 College Drive, Greenfield, Massachusetts 01301. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 16th day of February, 1983.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Chief, Operating Reactors Branch No. 5, Division of Licensing.

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards; Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards will hold a meeting on March 10-12, 1983, in Room 1046, 1717 H Street NW., Washington, DC. Notice of this meeting was published in the **Federal Register** on March 3, 1983.

The agenda for the subject meeting will be as follows:

Thursday, March 10, 1983

8:30 A.M.-8:45 A.M.: Opening Remarks (Open)—The ACRS Chairman will report briefly on matters of current interest regarding ACRS activities.

8:45 A.M.-12:30 P.M. and 1:30 P.M.-6:00 P.M.: Clinch River Breeder Reactor (Open)—The members will hear and discuss the report of the ACRS project subcommittee and consultants who may be present regarding the request for a Construction Permit for this facility.

Members of the NRC Staff and representatives of the Applicant will make presentations and respond to questions regarding this matter.

Portions of this session will be closed as necessary to discuss Proprietary Information related to this project.

Friday, March 11, 1983

8:30 A.M.-9:30 A.M.: Regionalization of NRC Activities (Open)—Members of the Committee will meet with representatives of the NRC and discuss proposed regionalization of NRC Staff activities.

Portions of this session will be closed as necessary to discuss information that relates solely to the internal personnel rules and practices of the agency.

9:30 A.M.-12:00 Noon: Clinch River Breeder Reactor (Open)—The Members will hear and discuss the report of the ACRS project subcommittee and consultants who may be present regarding the request for a Construction Permit for this facility.

Members of the NRC Staff and representatives of the Applicant will make presentations and respond to questions regarding this matter.

Portions of this session will be closed as necessary to discuss Proprietary Information related to this project.

1:00 P.M.-1:30 P.M. Future ACRS Activities (Open)—The Members will discuss anticipated subcommittee and full Committee activities.

1:30 P.M.-5:30 P.M. Catawba Nuclear Power Station Units 1 and 2 (Open)—The Members of the Committee will hear and discuss the report of the ACRS Subcommittee and consultants who may be present regarding the request for an operating license for this facility.

Members of the NRC Staff and representatives of the Applicant will also make presentations and respond to questions regarding this matter.

Portions of this session will be closed as necessary to discuss Proprietary Information applicable to this session.

Saturday, March 12, 1983

8:30 A.M.-12:30 P.M. Preparation of ACRS Reports to NRC (Open/Closed)—The Committee Members will discuss proposed ACRS reports and recommendations regarding matters considered during this meeting. In addition, the Members will discuss proposed ACRS comments regarding proposed changes in the NRC regulatory process as well as concerns regarding the impact of LOCA's on hydraulic control unit line integrity.

Portions of this session will be closed as necessary to discuss information that will be involved in an adjudicatory proceeding.

1:30 P.M.-3:30 P.M. ACRS Subcommittee Activity (Open)—Recent/ongoing activities of ACRS Subcommittees will be discussed, including those related to decay heat removal from nuclear systems, consideration of Class 9 accidents in the regulatory process, steam generator tube repairs and restart of the TMI-1 nuclear station and the NRC Systematic Evaluation Program.

3:30 P.M.-4:00 P.M. Concluding Session (Open)—Complete discussion of miscellaneous items considered during this meeting.

Procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 1, 1982 (47 FR 43474). In accordance with these procedures, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Committee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS Executive Director as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture and television cameras during this meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by a telephone call to the ACRS Executive Director (R. F. Fraley) prior to the meeting. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the

ACRS Executive Director if such rescheduling would result in major inconvenience.

I have determined in accordance with Subsection 10(d) Pub. L. 92–463 that it is necessary to close portions of this meeting as noted above to discuss Proprietary Information [5 U.S.C. 552b(c)(4)], and information which will be involved in an adjudicatory proceeding [5 U.S.C. 552 b(c)(10)] and information that relates solely to the internal personnel rules and practices of the agency [5 U.S.C. 552 b(c)(2)].

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted can be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley (telephone 202/634–3265), between 8:15 A.M. and 5:00 p.m. EST.

Dated: February 25, 1983.

John C. Hoyle,

Advisory Committee Management officer.

[FR Doc. 83–5376 Filed 3–2–83; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards; Meeting with the Groupe Permanent (France)

Representatives of the Groupe Permanent and the Advisory Committee on Reactor Safeguards (ACRS) will meet March 24, and 25, 1983, Room 1046, at 1717 H Street, NW, Washington, DC. The Groupe Permanent and the ACRS will exchange views regarding existing and proposed regulatory policies, practices and criteria for the regulation of nuclear facilities.

The meeting will be closed to public attendance to ensure the security of information identified and supplied by a foreign government in confidence (Sunshine Act Exemption 4). In order to receive and consider this information, the ACRS must be able to engage in frank discussion with representatives of the Groupe Permanent (France) and its advisory body on reactor safety. For the reason just stated, such a discussion would not be possible if held in public session.

I have determined, therefore, that it is necessary to close this meeing to permit the ACRS to obtain information necessary in carrying out its statutory responsibilities. The authority for such closure is Exemption (4) of the Sunshine Act, 5 U.S.C. 552b(c)(4).

Further information can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Raymond F. Fraley (telephone 202/634-3265) between 8:15 a.m. and 5:00 p.m., EST.

Dated: February 24, 1983

John C. Hoyle,

Advisory Committee Management Officer

[FR Doc. 83–5370 Filed 3–2–83; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards; Subcommittee on Qualification Program for Safety-Related Equipment; Reschedule

The ACRS Subcommittee on Qualification Program for Safety-Related Equipment scheduled for March 8, 1983 has been rescheduled for March 15, 1983, Room 1046, 1717 H Street, NW, Washington, DC.

All other items regarding this meeting remain the same as announced in the **Federal Register** published Wednesday, February 23, 1983 (48 FR 7661).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Anthony Cappucci (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., EST.

Dated: February 24, 1983.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 83–5377 Filed 3–2–83; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards; Subcommittee on Regulatory Policy and Procedures; Meeting

The ACRS Subcommittee on Regulatory Policy and Procedures will hold a meeting on March 16, 1983, Room 1167, 1717 H Street, NW, Washington, DC. The Subcommittee will continue its review of matters related to nuclear regulatory reform.

In accordance with the procedures outlined in the **Federal Register** on October 1, 1982 (47 FR 43474), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee and its Staff. Persons desiring to make oral statements should notify the cognizant Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance.

The agenda for subject meeting will be as follows:

Wednesday, March 16, 1983—8:30 a.m. Until the Conclusion of Business

During the initial portion of the meeting, the Subcommittee members may exchange preliminary views regarding matters to be considered during the balance of the meeting. The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff and others regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Marvin C. Gaske (telephone 202/634–3265) between 8:15 a.m. and 5:00 p.m., EST.

Dated: February 25, 1983.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 83–5380 Filed 3–2–83; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards; Subcommittee on Waste Management; Meeting

The ACRS Subcommittee on Waste Management will hold a meeting on March 18 and 19, 1983, Room 1046, 1717 H Street, NW., Washington, D.C. The Subcommttee will review the Department of Energy's proposed general guidelines for recommendation of high-level waste (HLW) repository sites. Notice of this meeting was published February 23, 1983.

In accordance with the procedures outlined in the **Federal Register** on October 1, 1982 (47 FR 43474), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Friday, March 18, 1983–8:30 a.m. Until the Conclusion of Business

Saturday, March 19, 1983–8:30 a.m. Until the Conclusion of Business

Discussion of the topics noted above.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and other interested persons regarding this review.

For further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Ms. R. C. Tang (telephone 202/634–1414) between 8:15 a.m. and 5:00 p.m., EST.

Dated: February 25, 1983.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590-01-M

Request for Public Comment on Planned Studies of Quality Assurance Programs for Construction of Nuclear Power Plants Required by Pub. L. 97–415, NRC Authorization Act

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for public comment.

SUMMARY: The NRC invites public comment on methods of improving the quality of nuclear power plant construction. The NRC Authorization Act, Section 13, Quality Assurance, for fiscal years 1982 and 1983, directs the NRC to conduct a study of existing and alternative programs for improving quality assurance and quality control in the construction of commercial nuclear power plants, and to undertake a pilot program to review and evaluate certain alternative concepts. The Act directs the NRC to obtain the comments of the public in conducting the study. The NRC is to provide a report to Congress on the results of the study and pilot program and on the recommendations and/or actions taken to improve quality assurance and quality control programs for nuclear power plants under construction. Sections 13(b), 13(c), and 13(d) of the NRC Authorization Act are reproduced under Supplementary Information below.

The NRC will consider public comments provided in response to this **Federal Register** Notice as input into the quality assurance studies required by the NRC Authorization Act.

DATES: Submit comments by May 1, 1983. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except to comments received on or before this date.

ADDRESS: Send comments to: Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attn: Docketing and Service Branch.

Hand deliver comments to Room 1121, 1717 H Street NW., Washington, D.C. between 8:15 a.m. and 5:00 p.m.

Examine comments received at: The NRC Public Document Room, 1717 H Street NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Mr. Terry L. Harpster, Chief, Quality Assurance Branch, Division of Quality Assurance, Safeguards, and Inspection Programs, Office of Inspection and Enforcement, (301) 492–4774.

SUPPLEMENTARY INFORMATION: The following paragraphs have been reproduced from the NRC Authorization Act, Sections 13(b), 13(c), and 13(d):

BILLING CODE 7590-01-M

"13(b) The Commission shall conduct a study of existing and alternative programs for improving quality assurance and quality control

(4) improvement of the Commission's organization, methods, and programs for quality assurance development, review, and

"13(b) The Commission shall conduct a study of existing and alternative programs for improving quality assurance and quality control in the construction of commercial nuclear powerplants. In conducting the study, the Commission shall obtain the comments of the public, licensees of nuclear powerplants, the Advisory Committee on Reactor Safeguards, and organizations comprised of professionals having expertise in appropriate fields. The study shall include an analysis of the following:

(1) providing a basis for quality assurance and quality control, inspection, and enforcement actions through the adoption of an approach which is more prescriptive than that currently in practice for defining principal architectural and engineering criteria for the construction of commercial nuclear powerplants;

(2) conditioning the issuance of construction permits for commercial nuclear powerplants on a demonstration by the licensee that the licensee is capable of independently managing the effective performance of all quality assurance and quality control responsibilities for the powerplant;

(3) evaluations, inspections, or audits of commercial nuclear powerplant construction by organizations comprised of professionals having expertise in appropriate fields which evaluations, inspections, or audits are more effective than those under current practice;

(4) improvement of the Commission's organization, methods, and programs for quality assurance development, review, and inspection; and

(5) conditioning the issuance of construction permits for commercial nuclear powerplants on the permittee entering into contracts or other arrangements with an independent inspector to audit the quality assurance program to verify quality assurance performance.

For purposes of paragraph (5), the term 'independent inspector' means a person or other entity having no responsibility for the design or construction of the plant involved. The study shall also include an analysis of quality assurance and quality control programs at representative sites at which such programs are operating satisfactorily and an assessment of the reasons therefor.

13(c) For purposes of -

(1) determining the best means of assuring that commercial nuclear powerplants are constructed in accordance with the applicable safety requirements in effect pursuant to the Atomic Energy Act of 1954; and

(2) assessing the feasibility and benefits of the various means listed in subsection (b);

UMI
1983
MR
1
3
ISS
43
VOL
48

the Commission shall undertake a pilot program to review and evaluate programs that include one or more of the alternative concepts identified in subsection (b) for the purposes of assessing the feasibility and benefits of their implementation. The pilot program shall include programs that use independent inspectors for auditing quality assurance responsibilities of the licensee for the construction of commercial nuclear powerplants, as described in paragraph (5) of subsection (B). The pilot program shall include at least three sites at which commercial nuclear powerplants are under construction. The Commission shall select at least one site at which quality assurance and quality control programs have operated satisfactorily, and at least two sites with remedial programs underway at which major construction, quality assurance, or quality control deficiencies (or any combination thereof) have been identified in the past. The Commission may require any changes in existing quality assurance and quality control organizations and relationships that may be necessary at the selected sites to implement the pilot program.

13(d) Not later than fifteen months after the date of the enactment of this Act, the Commission shall complete the study required under subsection (b) and submit to the United States Senate and House of Representatives a report setting forth the results of the study. The report shall include a brief summary of the information received from the public and from other persons referred to in subsection (b) and a statement of the Commission's response to the significant comments received. The report shall also set forth an analysis of the results of the pilot program required under subsection (c). The report shall be accompanied by the recommendations of the Commission, including any legislative recommendations, and a description of any administrative actions that the Commission has undertaken or intends to undertake, for improving quality assurance and quality control programs that are applicable during the construction of nuclear powerplants."

BILLING CODE 7590-01-C

Dated at Washington, D.C., this 24th day of February 1983.

BILLING CODE 7590-01-M

Document Drafting Handbook; Recordkeeping Requirements; Office of Management and Budget

AGENCY: Commission.

ACTION: Notice.

SUMMARY: The Commission has received from the Office of Management and Budget (OMB) the following proposal for collection of information under the Paperwork Reduction Act of 1980.

1. Type of submission: Revision
2. The title of the information collection: Document Drafting Handbook
3. The form number if applicable: None
4. How often the collection is required: Periodically
5. Who will be required or asked to report: NRC licensees
6. An estimate of the number of responses: 1,000
7. An estimate of the total number of hours needed to complete the requirement or request: 160,000
8. An indication whether section 3504(h), Public Law 96-511 applicable: Not applicable
9. Abstract: The Handbook will reduce the burden for NRC licensees distributed with NRC regulations containing recordkeeping requirements extending the time period for the number of annual reports required.

Copies of the proposed revision can be inspected or obtained for the asking at the NRC Public Document Room, 1717 H Street N.W., Washington, D.C. Comments may be submitted to the OMB Desk Officer, Mr. Jefferson B. Hill, (202) 395-3084, Office of Information and Regulatory Affairs, Room 8585.

Dated at Washington, D.C., this 24th day of February 1983.

Dated at Bethesda, Maryland, this 18th day of February 1983.

For the Nuclear Regulatory Commission.

James M. Taylor,

Director, Division of Quality Assurance, Safeguards, and Inspection Programs, Office of Inspection and Enforcement.

[FR Doc. 83-5375 Filed 3-2-83; 8:45 am]

BILLING CODE 7590-01-M

Documents Containing Reporting or Recordkeeping Requirements; Office of Management and Budget Review

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the Office of Management and Budget review of information collection.

SUMMARY: The Nuclear Regulatory Commission has recently submitted to the Office of Management and Budget (OMB) the following information collection requirements for reclearance under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

1. Type of submission: Revision and reduction.

2. The title of the information collection: 10 CFR Part 32 "Transfers of Radioactive Consumer Products."

3. The form number if applicable: Not applicable.

4. How often the collection is required: On occasion.

5. Who will be required or asked to report: NRC Licensees.

6. An estimate of the number of responses: 200.

7. An estimate of the total number of hours needed annually to complete the requirement or request: A reduction of 160 hours.

8. An indication of whether Section 3504(h), Pub. L. 96-511 applies: Not applicable.

9. Abstract: The final rule would reduce the reporting burden on licensed distributors of consumer products containing byproduct materials by extending the reporting period, on the number of products distributed, from an annual report to a report every 5 years.

Copies of the submittal may be inspected or obtained for a fee from the NRC Public Document Room, 1717 H Street NW., Washington, D.C. 20555. Comments and questions should be directed to the OMB reviewer Jefferson B. Hill, (202) 395-7340. NRC Clearance Officer is R. Stephen Scott, (301) 492-8585.

Dated at Bethesda, Maryland, this 24th day of February 1983.

For the Nuclear Regulatory Commission.

Patricia G. Norry,

Director, Office of Administration.

BILLING CODE 7590-01-M

Ad Hoc Committee for Review of Nuclear Reactor Licensing Reform Proposals; Meeting

Notice is hereby given in accordance with Section 10 of the Federal Advisory Committee Act that NRC's Ad Hoc Committee for Review of Nuclear Reactor Licensing Reform Proposals will hold its next meeting at 9:30 a.m., March 17, 1983. This meeting will take place at the office of Shaw, Pittman, Potts and Trowbridge, South Building, 9th Floor Lobby, 1800 M Street, NW, Washington, D.C. and will be open for public observation. The Committee established this meeting date at its last meeting which was held on February 25, 1983, in public session. Advance notice is also given that the Committee has tentatively set March 24, 1983 as an additional meeting date. The need for this meeting will be determined at the March 17 session.

At these meetings, the committee will continue its review of administrative proposals for reforming the NRC's licensing process for nuclear plants. Transcripts of all meetings are made available for public inspection and copying at NRC's Public Document Room, 1717 H Street, NW, Washington, D.C.

Further information on the meetings may be obtained from Mr. Rothschild, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. (Telephone 202/634-1465).

Dated at Washington, D.C., this 28th day of February, 1983.

John C. Hoyle,

Advisory Committee Management Officer.

US Ecology, Inc.; Special Nuclear Material License Amendment

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of issuance of special nuclear material disposal license amendment.

SUMMARY: On January 28, 1983 the U.S. Nuclear Regulatory Commission (NRC) issued Amendment 3 to NRC License No. 16-19204-01 to US Ecology, Inc. (previously Nuclear Engineering Co.) The license allows for the receipt and disposal of special nuclear material (SNM) at US Ecology's low level waste disposal facility located on the Hanford Reservation near Richland, Washington. The amendment was developed primarily to provide increased compatibility with the State of Washington license for disposal of by-product and source material, to clarify licensee responsibilities with regard to site closure and decommissioning, and to define procedures for license termination following cessation of burial operations.

NRC has determined that the amended license will not result in any significant impact on the environment and therefore does not require preparation of an environmental impact statement. An environmental impact appraisal was prepared upon issuance of the license in 1979 and is available for public inspection.

ADDRESSES: The amended license and environmental impact appraisal are available for public inspection at the Commission's Public Document Room located at 1717 H Street, NW., Washington, D.C. 20555, and at the Richland Public Library Reference Department, Swift and Northgate Streets, Richland, Washington 99352.

FOR FURTHER INFORMATION CONTACT: Mr. Edward F. Hawkins, Acting Chief, Low-Level Waste Licensing Branch, Division of Waste Management, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone (301) 427-4433.

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission, on January 28, 1983, issued to US Ecology, Inc., (formerly Nuclear Engineering Co.) an amendment to its license to receive and dispose by burial, special nuclear material at its commercial low level waste disposal facility located in the Hanford Reservation near Richland, Washington. (US Ecology's corporate headquarters are located at 9200 Shelbyville Road, Louisville, Kentucky 40207). The recently issued amendment amends License No. 16-19204-01 in its entirety. All information concerning this license can be located in NRC Docket No. 27-48.

NRC has determined that issuance of the amended license will result in no significant environmental impact and therefore does not require the preparation of an environmental impact statement (EIS). The SNM license, as amended, authorizes disposal of waste containing small amounts of uranium-233 and Uranium-235. Wastes containing plutonium in concentrations

greater than 100 nanocuries per gram are prohibited from the site.

Disposal of by-product and source material at the site is licensed by the State of Washington Department of Social and Health Services. That agency is also the site landlord. Preparation of this amendment has been coordinated with Washington State officials and is consistent with conditions of the state by-product and source material license, which was renewed October 11, 1982.

Conditions of this amendment clearly specify license obligations with regard to closure and decommissioning of the Hanford low level waste disposal facility and further specify licensee obligations beyond the license expiration date pending formal NRC licensing action.

The Commission finds that issuance of the amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the requirements of Title 10, Chapter 1, Code of Federal Regulations.

Dated at Washington, D.C. this 23rd day of February 1983.

For the Nuclear Regulatory Commission.

Edward F. Hawkins,

Acting Branch Chief, Low-Level Waste Licensing Branch, Division of Waste Management.

BILLING CODE 7590-01-M

OVERSEAS PRIVATE INVESTMENT CORPORATION

Agency Report Forms Under OMB Review

AGENCY: Overseas Private Investment Corporation.

ACTION: Request for comments.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35), agencies are required to submit information collection requests to OMB for review and approval, and to publish a notice in the **Federal Register** notifying the public that the Agency has made such a submission. The proposed form under review is summarized below.

DATE: Comments must be received within 14 calendar days of this notice. If you anticipate commenting on the form but find that time to prepare will prevent you from submitting comments promptly, you should advise the OMB Reviewer and the Agency Submitting Officer of your intent as early as possible.

ADDRESS: Copies of the subject form and the request for review submitted to OMB may be obtained from the Agency Submitting Officer. Comments on the form should be submitted to the Agency Submitting Officer and the OMB Reviewer.

FOR FURTHER INFORMATION CONTACT:

OPIC Agency Submitting Officer: L. Jacqueline Brent, Office of Personnel and Administration, Overseas Private Investment Corporation, Room 405, 1129 Twentieth Street, NW., Washington, D.C. 20527; Telephone (202) 653-2818, or

OMB Reviewer: Francine Picoult, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503; Telephone (202) 395-7231.

SUMMARY OF FORM UNDER REVIEW:

Type of Request: New.

Title: OPIC Opportunity Bank Company Profile.

Form Number: OPIC-82.

Frequency of Use: Other—once per investor.

Type of Respondent: Business or other institutions (except farms).

Standard Industrial Classification Codes: All.

Description of Affected Public: U.S. Companies.

Number of Responses: 500.

Reporting Hours: ¼ hour per response.

Federal Cost: $2,647.50.

Authority for Information Collection: Section 234(d) of the Foreign Assistance Act of 1961, as amended.

Abstract (Needs and Uses): OPIC-82 will provide the OPIC Opportunity Bank with detailed and current data on U.S. companies seeking investment opportunities overseas. It will be made available in an effort to promote and encourage U.S. investment overseas.

Dated: February 16, 1983.

Leo H. Phillips, Jr.,

Office of the General Counsel.

BILLING CODE 7715-01-M

[Docket No. A83-16; Order No. 486]

Cantil, Calif., Filing of Appeal

February 24, 1983.

In the matter of Cantil, California 93519, Ross R. Rogers, Petitioner; Docket No. A83-16; Notice and Order of Filing of Appeal.

On February 10, 1983, the Commission received an appeal letter from Mr. Ross R. Rogers ("Petitioner") concerning the United States Postal Service's decision to consolidate the Cantil, California, post office. Mr. Rogers' letter effectively requests the review provided by section 404(b) of the Postal Reorganziation Act (39 U.S.C. 404(b)).[1]

The petition sets out the Postal Service action complained of in sufficient detail to warrant further inquiry to determine whether the Postal Service complied with the applicable law and its regulations for the consolidation of post office.[2]

Upon preliminary inspection, the Petitioner's letter appears to present the following issues of law:

1. The effect of such consolidation on the community served by such post office (39 U.S.C. 404(b)(2)(A)); the Petitioner states that: "[t]he United States Post Office, is important for the survival of this Cantil area farming community."

2. Whether such consolidation is consistent with the policy of the Government, as stated in section 101(b) of this title, that the Postal Service shall provide a maximum degree of effective and regular postal services to rural areas, communities, and small towns where post offices are not self-sustaining (39 U.S.C. 404(b)(2)(C))]; the Petitioner questions the qualifications of candidates being considered to operate the planned community post office (CPO).

Other issues of law may become apparent when the Commission has had

[1] 39 U.S.C. 404(b) was added to title 39 by Pub. L. 94-421 (September 24, 1976), 90 Stat. 1310-11. Our rules of practice governing these cases appear at 39 CFR 3001.110 *et seq.*

[2] 42 FR 59079-86 (November 17, 1977). The Commission's standard of review is set forth at 39 U.S.C. 404(b)(5).

the opportunity to examine the record made by the Postal Service. The record may be found to resolve adequately one or more of the issues presented by the Petitioner's letter.

In view of the above, and in the interest of expediting this proceeding under the 120-day decisional deadline imposed by section 404(b)(5), the Postal Service is advised that the Commission reserves the right to request a legal memorandum from the Service on the issues described above and/or any further issues of law disclosed by the record in this case. In the event that the Commission finds such a memorandum necessary to explain or clarify the Service's legal position or interpretation on any such issue, it will make the request therefor by order, specifying the issues to be addressed.

When such a request is issued, the memorandum shall be filed within 20 days of the issuance, and a copy of the memorandum shall be served on the Petitioner by the Service.

In briefing the case or in filing any motion to dismiss for want of prosecution, in appropriate circumstances the Service may incorporate by reference all or any portion of a legal memorandum filed pursuant to such an order.

The Commission orders that:

(A) The appeal letter from Mr. Ross R. Rogers be accepted as a petition for review pursuant to secton 404(b) of the Act (39 U.S.C. 404(b)).

(B) The Secretary of the Commission shall publish this Notice and Order in the **Federal Register**.

By the Commission.

David F. Harris,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-19529]

Advisory Committee on Tender Offers; Establishment and Meeting

AGENCY: Securities and Exchange Commission.

ACTION: Notice of establishment of the Securities and Exchange Commission Advisory Committee on Tender Offers.

SUMMARY: The Chairman of the Commission, with the concurrence of the other members of the Commission, has established the Securities and Exchange Commission Advisory Committee on Tender Offers, which is to conduct an examination of tender offers and other related regulations and practices and to recommend to the Commission any legislative and/or regulatory changes the Committee may consider to be in the best interest of all shareholders (i.e., shareholders of all corporations, whether potential bidders, target companies or by-standers).

DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Linda C. Quinn, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549; (202) 272-2579.

SUPPLEMENTARY INFORMATION: In accordance with the requirements of the Federal Advisory Committee Act, 5 U.S.C. App. I, and the regulations thereunder, the Commission has ordered publication of this notice that Chairman John S. R. Shad, with the concurrence of the other members of the Commission, has established an advisory committee, under the Federal Advisory Committee Act, which is designated the Securities and Exchange Commission Advisory Committee on Tender Offers. Chairman Shad certifies that he has considered carefully the establishment of this Committee and, with the concurrence of the other members of the Commission, has found the creation of this Committee to be in the public interest in that it will assist the Commission in the performance of its responsibilities under the federal securities laws.

The Advisory Committee is authorized to examine tender offer and other regulations and practices. Issues that may be considered by the Advisory Committee include: (1) The economic implications of tender offers and other acquisition techniques on the economy in general and specifically with respect to bidders, subject companies, investors and the securities markets; (2) the need for, and the nature and objectives of, regulation of such activities; (3) the regulatory means to accomplish these objectives, weighing the costs against the benefits of such a regulatory response; and (4) possible recommendations to the Commission with respect to legislative and/or regulatory amendments to the current laws to effect such regulatory response.

The Advisory Committee shall conduct its operations in accordance with the provisions of the Federal Advisory Committee Act.

The duties of the Committee shall be solely advisory and shall extend to submitting reports and recommendations to the Commission.

The Securities and Exchange Commission shall provide any necessary support services required by the Advisory Committee.

The Advisory Committee shall meet at such intervals as are necessary to carry out its functions. It is estimated that the meetings of the full committee generally will occur no more frequently than at four week intervals.

The Advisory Committee shall terminate at the end of ten months from the date of its establishment unless, prior to such time, its charter is renewed in accordance with the Federal Advisory Committee Act, or unless the Chairman, with the concurrence of the other members of the Commission, determines that continuance of the Advisory Committee no longer is in the public interest.

A copy of the Charter of the Committee has been filed with the Chairman of the Commission, the Senate Committee on Banking, Housing, and Urban Affairs, and the House of Representatives Committee on Energy and Commerce. A copy of the Charter also has been furnished to the Library of Congress and placed in the Commission's Public Reference Room for public inspection.

By the Commission.

Dated: February 24, 1983.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

Advisory Committee on Tender Offers; Meeting

This is to give public notice, pursuant to Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I, 10(a), that the Securities and Exchange Commission Advisory Committee on Tender Offers will conduct a meeting on March 18, 1983, at the Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C., beginning at

10:00 a.m. This meeting will be open to the public.

This will be the first meeting of the Advisory Committee. The purpose of the meeting is to review the objectives and responsibilities of the Advisory Committee and to establish plans for the orderly progression of the Committee's work.

Further information on this matter may be obtained by writing: Mr. George A. Fitzsimmons, Secretary, Securities and Exchange Commission, United States Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549.

Dated: February 25, 1983.

George A. Fitzsimmons,

Advisory Committee, Management Officer.

BILLING CODE 8010-01-M

[Release No. 22960; 70-6944]

New England Electric System et al.; Short-Term Notes

February 23, 1983.

In the matter of: New England Electric System, Granite State Electric Company, Manchester Electric Company, Massachusetts Electric Company, The Narragansett Electric Company, New England Power Company, New England Power Service Company, 25 Research Drive, Westborough, Massachusetts 01581; Notice of proposed issuance and sale of short-term notes to banks and commercial paper, open account advances from the system money pool, and exception from competitive bidding.

New England Electric System ("NEES"), a registered holding company, and six of its subsidiaries, Granite State Electric Company ("Granite"), Manchester Electric Company ("Manchester"), Massachusetts Electric Company ("Mass Electric"), The Narragansett Electric Company ("Narragansett"), New England Power Company ("NEP"), and New England Power Service Company ("NEPSCO"), have filed an application-declaration with this Commission pursuant to Sections 6(a), 7, 9(a), 10, and 12(b) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 45 and 50(a)(5) thereunder.

The above-named subsidiaries propose, through March 31, 1984, to borrow from the system money pool and/or the banks listed below, and/or, in the case of Mass Electric and NEP, to issue commercial paper up to the following maximum outstanding amounts: Granite—$6,000,000; Manchester—$300,000; Mass Electric $18,500,000; Narragansett—$20,000,000; NEP—$195,000,000; and NEPSCO—$5,000,000. The authorization limit for NEP includes outstanding short-term bonds issued to finance pollution control facilities (HCAR No. 22775 (December 14, 1982)). The proceeds of the proposed borrowings are to be used: (i) To pay then outstanding notes initially issued to banks, NEES, and/or dealers in commercial paper and/or borrowings from the money pool; (ii) to provide new money for capitalizable expenditures (or to reimburse the treasury therefor); (iii) to refund bonds, pending permanent refinancing, and (iv) other corporate purposes.

Although the borrowing companies have no formal credit agreements with banks, they have made informal arrangements for lines of credit for various purposes, including support of commercial paper. The bank borrowings will be from a group of 48 banks, evidenced by notes maturing in less than one year from the date of issuance. The effective interest cost of such borrowings will be not greater than the effective interest cost of borrowings at the bank's base or prime lending rate with compensating balance requirements of 10% of the line of credit and 10% of the borrowings thereunder. It is stated that based on compensating balance requirements of about 10% to 20%, or fees equivalent thereto, the effective interest cost of bank borrowing would be approximately 12.2% to 13.8% per annum, assuming a base lending rate of 11%.

Mass Electric and NEP propose to issue and sell commercial paper during the period through March 31, 1984, directly to one or two dealers in commercial paper. The dealers, as principals, will reoffer such commercial paper to not more than 100 of their respective customers. The commercial paper issued and sold will be in the form of unsecured promissory notes having varying maturities of not in excess of 270 days. Actual maturities will be determined by market conditions, the effective interest cost to the issuer, and the issuer's cash requirements at the time of issuance. The terms of the commercial paper will not provide for prepayment prior to maturity. The commercial paper will be purchased by the dealer from the issuer at a discount which will not be in excess of the discount then prevailing for commercial paper of comparable quality and maturity. The dealer will initially reoffer the commercial paper at a discount rate of not more than ⅛ of 1% per annum less than the prevailing discount rate to the issuer.

The borrowing companies propose to reduce their need for outside borrowing through the continued use of the system money pool. Under the money pool, surplus funds that may be available from day to day in the treasuries of certain of the NEES System subsidiaries are used to make loans to subsidiaries in need of short-term funds. Each member determines each day, on the basis of cash flow projections, the amount of surplus funds it has available for contribution to the pool. The surplus funds are transferred to NEPSCO which administers the pool as agent for the member companies. Loans from the pool are made pursuant to open account advances. Borrowing companies pay a monthly rate based upon the rate the borrower would otherwise have to pay an outside lender. Those companies able to issue commercial paper will pay the weighted monthly average of the rates on outstanding commercial paper of all subsidiaries. During any month when no such commercial paper is outstanding, the rate is the monthly average of the rate for high grade 30-day commercial paper sold through dealers by major corporations as published in the *Wall Street Journal*. Borrowing members without the ability to issue commercial paper will pay interest at a rate of 125 basis points above the rate paid by members who do have the ability to issue commercial paper but in no event greater than the monthly average of the base lending rate of the First National Bank of Boston. The terms of the money pool are being amended to add Manchester, a new subsidiary, to permit NEES to lend to the pool, and to increase the investments currently permitted for excess funds.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by March 21, 1983, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicants-declarants at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[File No. 22-12280]

Pan American World Airways, Inc.; Application and Opportunity for Hearing

February 25, 1983.

Notice is hereby given that Pan American World Airways, Inc. (the "Applicant") has filed an application under clause (ii) of Section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding by the Commission that the trusteeship of NCNB National Bank of North Carolina ("NCNB") under a proposed indenture which is to be qualified under the Act is not so likely to involve a material conflict of interest with the trusteeships of NCNB under two indentures previously qualified under the Act as to make it necessary in the public interest or for the protection of investors to disqualify NCNB from acting as trustee under any one or more of the three indentures.

Section 310(b) of the Act provides, *inter alia*, that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined in the Section) it shall within ninety days after ascertaining that it has such conflicting interest, either eliminate such conflicting interest or resign. Subsection (1) of Section 310(b) provides, with certain exceptions, that a trustee is deemed to have a conflicting interest if it is acting as trustee under another indenture of the same obligor. However, pursuant to clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture or other indentures under which other securities of such obligor are outstanding if the issuer shall have sustained the burden of proving, on application to the Commission, and after opportunity for hearing thereon, that trusteeship under the qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under any of such indentures.

The Applicant alleges that:

1. A single Registration Statement was filed on February 28, 1977 (Registration No. 2-58297) covering $26,500,000 principal amount of 11½% Secured Equipment Certificates, Series A, due May 15, 1994 and $26,500,000 principal amount of 11½% Secured Equipment Certificates, Series B, due May 15, 1994 (collectively, the "Series A and Series B Secured Equipment Certificates").

2. A Registration Statement was filed on January 25, 1983 (Registration No. 2-81488), covering $100,000,000 principal amount of % Convertible Secured Trust Notes Due 1998 (the "Trust Notes").

3. The Series A and Series B Secured Equipment Certificates were issued pursuant to two separate trust indentures qualified under the Act between the Applicant and NCNB as Trustee.

4. The Trust Notes will be issued pursuant to a trust indenture to be qualified under the Act between the Applicant and an indenture trustee. The Applicant desires to appoint NCNB as Trustee under such proposed indenture (the "Trust Notes Indenture").

5. The proceeds from the sale of the Series A and Series B Secured Equipment Certificates were used to provide long-term financing for approximately 70% of the purchase price of two Boeing 747SP aircraft—one aircraft in each of the two trusts. The balance of the purchase price was provided by independent equity investors pursuant to leveraged lease arrangements. The indentures under which the Series A and Series B Secured Equipment Certificates were issued were each amended to reflect the leveraged lease arrangements (the indentures so amended being collectively, the "Previous Indentures"). The principal and interest on the Series A and Series B Secured Equipment Certificates is payable out of rentals owed by the Applicant on the related aircraft. With respect to the Trust Notes, the proceeds will be used to finance the purchase by the Trustee from the Applicant of aircraft now owned by the Applicant, following which the Trustee will lease such aircraft back to the Applicant. The indenture trustee will retain legal title to the aircraft until such time as all principal and interest due on the Trust Notes has been paid or duly provided for, at which time title to the aircraft shall vest in the Applicant.

6. With respect to the aircraft financed through the proceeds of the Series A and Series B Secured Equipment Certificates, pending delivery of each aircraft, NCNB held the proceeds in segregated accounts as security for the Series A and Series B Secured Equipment Certificates issued with respect to such aircraft. The Series A and Series B Secured Equipment Certificates are secured by a security interest in the related aircraft and the right of NCNB to receive rentals on the aircraft payable by the Applicant.

Since the aircraft securing the Series A and Series B Secured Equipment Certificates are not owned by the Applicant, they are not among the aircraft that will be purchased by the Trustee from the Applicant under the Trust Notes Indenture, nor could such aircraft be substituted therefor. Should NCNB have occasion to proceed against the security under one of the three indentures (assuming it is appointed Trustee under the Trust Notes), such action would not affect the security, or the use of any security, under either of the other two indentures.

7. The difference in the provisions of the Previous Indentures and the Trust Notes Indenture are not likely to involve NCNB in a material conflict of interest so as to make it necessary in the public interest or for the protection of investors to disqualify NCNB from acting as trustee under one or more of the three indentures.

The Applicant waives notice of hearing and waives hearing and waives any and all rights to specify procedures under Rule 8(b) of the Commission's Rules or Practice with respect to the application.

For a more detailed account of the matters of fact and law asserted, all persons are referred to said application which is a public document on file in the offices of the Commission at the Public Reference Room, 450 Fifth Street, NW., Washington, D.C.

Notice is further given that any interested person may, not later than March 22, 1983, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of law or fact raised by such application which he desires to controvert or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest, or in the interest of investors, unless a hearing is ordered by the Commission.

For the Commission by the Division of Corporation Finance, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 34-19544; File No. SR-CBOE-83-1]

Self-Regulatory Organizations; Proposed Rule Change By Chicago Board Options Exchange, Inc.; Relating to Position and Exercise Limits

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 10, 1983, the Chicago Board Options Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Text of the Proposed Rule Change

Additions are italicized; deletions are bracketed.

Position Limits

Rule 4.11. Except with the prior written permission of the President or his designee, no member shall make, for any account in which it has an interest or for the account of any customer, an opening transaction on any exchange in any option contract dealt in on the Exchange if the member has reason to believe that as a result of such transaction the member or its customer would, acting alone or in concert with others, directly or indirectly, hold or control or be obligated in respect of an aggregate position in excess of 2,[0]*500 or 4,000* option contracts (whether long or short) of the put class and the call class on the same side of the market [covering] *respecting* the same underlying security, combining for purposes of this position limit long position in put options with short positions in call options, and short positions in put options with long positions in call options, or such other number of option contracts as may be fixed from time to time by the Board as the position limit for one or more classes or series of options. Reasonable notice shall be given of each new position limit fixed by the Board, by posting notice thereof on the bulletin board of the Exchange. *Whether a limit is 2500 or 4000 option contracts shall be determined in the manner described in Interpretation .02 below.*

* * * Interpretations and Policies:

.01 The following examples illustrate the operation of position limits established by Rule 4.11:

(a) Customer A, who is long [2]*4,000* XYZ calls, may at the same time be short [2]*4,000* XYZ calls, since long and short positions in the same class of options (i.e., in calls only, or in puts only) are on opposite sides of the market and are not aggregated for purposes of Rule 4.11.

(b) Customer B, who is long [2]*4,000* XYZ calls, may at the same time be long [2]*4,000* XYZ puts. Rule 4.11 does not require the aggregration of long call and long put (or short call and short put) positions, since they are on opposite sides of the market.

(c) Customer C, who is long [1]*3,500* XYZ calls, may not at the same time be short more than 500 XYZ puts, since the [2]*4,000* contract limit applies to the aggregation of long call and short put positions in options covering the same underlying security. Similarly, if Customer C is also short [1]*3,200* XYZ calls, he may not at the same time be long more than 800 puts, since the [2]*4,000* contract limit applies separately to the aggregation of short call and long put positions in options covering the same underlying security.

.02 The 2500 option contract limit applies to those options having an underlying security that does not meet the requirement for the 4000 option contract limit. To be eligible for the 4000-contract limit, either the most recent six-month trading volume of the underlying security must have totalled at least 20,000,000 shares; or the most recent six-month trading volume of the underlying security must have totalled at least 15,000,000 shares and the underlying security must have at least 60,000,000 shares currently outstanding. Every six months, the Exchange will review the status of underlying securities to determine which limit should apply. The 4000 limit will be effective on the date set by the Exchange, while any change from a 4000 to a 2500 limit will take effect after the last expiration then trading, unless the requirement for a 4000 limit is met at the time of the intervening six-month review.

Exercise Limits

Rule 4.12. Except with the prior written permission of the President or his designee, no member shall exercise, for any account in which it has an interest or for the account of any customer, a long position in any option contract of a class of options dealt in on the Exchange where such member or customer, acting alone or in concert with others, directly or indirectly, has or will have exercised within any five consecutive business days aggregate long positions in excess of 2,[0]*500 or 4,000* option contracts of that class of options or such other number of option contracts as may be fixed from time to time by the Board as the exercise limit for that class of options. Reasonable notice shall be given of each new exercise limit fixed by the Board by posting notice thereof on the bulletin board of the Exchange. *Whether a limit is 2500 or 4000 option contracts shall be determined in the manner described in Interpretation .02 to Rule 4.11.*

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in sections (A), (B), and (C) below.

(A) Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to expand position and exercise limits in order to add to market depth and liquidity.

In 1978 the Special Study of the Options Markets recommended that existing Exchange rules, which limited the size of options positions held by market participants, be reviewed and that their relaxation or elimination be considered. As a result of re-examination of position limits, as suggested in that Study, the Exchange proposed rule changes which were adopted in October of 1980 to raise position and exercise limits from 1,000 to 2,000 contracts. In view of the increased use of the options markets and the experience gained during the two years since the position limits were increased in 1980, the Exchange believes that it is appropriate at this time to increase the position and exercise limits.

The Commission made the following statements in its release approving the position and exercise limit increase in 1980. (Release No. 34-17237) The Exchange believes that these statements also apply to this proposed increase.

* * * there is substantial reason to believe that the current ceiling serves to constrict significantly the options activities of certain market professionals and institutions, possibly to the detriment of market depth and liquidity. In addition, the Commission believes that the surveillance capabilities of the options exchanges with respect to large options positions should minimize the possibility of manipulation. Finally, the Commission believes that the information and experience gained from approval of the proposed modification will enhance the ability of the options exchanges and the Commission to responsibly propose and effectively evaluate possible further modifications * * *.

It should be noted that position limits cannot be justified as a protection against financial exposure. While unhedged larger positions do entail larger financial risks, position limits are cumbersome and ineffective mechanisms for limiting those risks. Rather, those rules which have been designed specifically to limit risk exposure should be used for this purpose, namely, suitability, margin, and net capital rules.

The change from 2000 to 2500 option contracts is minimal, especially in view of the Exchange's experience to date with the 2000-contract limit. The change from 2000 to 4000 option contracts involves standards that are a protection against possible manipulation. These standards insure that only option contracts having an underlying security that has either very high trading volume or high trading volume and a high number of shares outstanding will receive the higher limit. The standards mean that the options and stocks involved are significantly less susceptible to manipulation. To be eligible for the 4000-contract limit, either the most recent six-month trading volume of the underlying security must have totalled at least 20,000,000 shares; or the most recent six-month trading volume of the underlying security must have totalled at least 15,000,000 shares and the underlying security must have at least 60,000,000 shares currently outstanding.

Every six months, the Exchange will review the status of underlying securities to determine which limit should apply. Two new lists shall be published in the Exchange Bulletin. The 4000 limit will be effective on the date set by the Exchange, which date will allow time for appropriate notice to be given. Any change from a 4000 to a 2500 limit will take effect after the last expiration then trading, unless the requirement for a 4000 limit is met at the time of the intervening six-month review.

The basis for this proposed rule change in section 6(b)(5), in that the change would increase market depth and liquidity, which is in the public interest, while continuing to protect investors from manipulative activity.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose a burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period: (i) As the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: February 25, 1983.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 34-19536; File No. SR-MSE-83-2]

Self-Regulatory Organizations; Proposed Rule Change by Midwest Stock Exchange, Inc.; Relating to a Change in MSE's Transaction Fee Schedule

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 15, 1983, the Midwest Stock Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Attached as Exhibit A is the proposed revision to the transaction fee schedule.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B), and (C) below of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

MSE's trading floor support systems that have been developed and installed on Midwest have dramatically increased MSE's capacity and efficiency. The new fee schedule reflects the diminished incremental cost to MSE as volume increases in processing trades. The new price schedule will provide price

incentives to firms encouraging an increase in order flow to the Midwest in all trade size categories.

The proposed fee revision, effective March 1, 1983, affects only agency transactions. The range for both item charges and value charges have been greatly expanded. The previous item charge rate for round lots which started at $0.45 has been reduced. The new rates start at $0.25 and as daily trade volume increases the charge per trade decreases.

The proposed change in fees is consistent with Section 6(b)(4) of the Securities Exchange Act of 1934, in that it provides for the equitable allocation of reasonable dues, fees and other charges among MSE's members.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Midwest Stock Exchange, Incorporated does not believe that any burdens will be placed on competition as a result of the proposed rule change.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments have neither been solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of Securities Exchange Act Rule 19b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: February 24, 1983.

George A. Fitzsimmons,

Secretary.

[Release No. 34–19537; File No. SR–MSE–83–1]

Self-Regulatory Organizations; Proposed Rule Change by Midwest Stock Exchange, Inc.; Relating to Claims for Reports.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 7, 1983, the Midwest Stock Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Article XXX, Rule 15 of the Rules of the Midwest Stock Exchange, Incorporated is hereby amended as follows:

Additions italicized—[Deletions Bracketed]

Article XXX

Claims for Reports

Rule 15. All claims for reports must be made timely as follows:

(a) All claims which involve erroneous comparisons must be made within [10] *five* business days of the original trade date.

(b) All claims relative to the omission of a report which was properly due must be made within [10] *five* business days of the date the order should have been executed.

(c) No change in text.

(d) No change in text.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B), and (C) below of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Satement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The proposed five day limit on making claims regarding comparisons is in accordance with all other principal exchanges and the NASD. The proposed change will help resolve uncompared trades on a more timely basis.

The proposed rule change is consistent with Section 6(b)(5) of the Securities Exchange Act of 1934 in that it is designed to facilitate the settlement of securities transactions.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Midwest Stock Exchange, Incorporated does not believe that any burdens will be placed on competition as a result of the proposed rule change.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments have neither been solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period: (i) As the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: February 24, 1983.

George A. Fitzsimmons,

Secretary.

DEPARTMENT OF STATE

[Public Notice CM-8/507]

Study Group A of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT); Meeting

The Department of State announces that Study Group A of the U.S. Orgainzation for the International Telegraph and Telephone Consultative Committee (CCITT) will meet on March 18, 1983, 10:00 a.m. in Room 856 of the Federal Communications Commission, 1919 M Street, NW., Washington, D.C. This Study Group deals with U.S. Government aspects of international telegram and telephone operations and tariffs.

The Study Group will discuss international telecommunications questions relating to telegraph, telex, new record services, maritime, and leased channel services in order to develop U.S. positions to be taken at upcoming international Study Groups I, III, and SMM (Mobile Maritime Service) meetings.

Members of the general public may attend the meeting subject to the instruction of the Chairman. Admittance of public members will be limited to the seating available. Requests for further information should be directed to Earl S. Barbely, Conference Staff, Federal Communications Commission, Washington, D.C. 20554, telephone (202) 632-3214.

Dated: February 24, 1983.

William J. Lowell,

Chairman, International Telegraph and Telephone Consultative Committee.

BILLING CODE 4710-07-M

TENNESSEE VALLEY AUTHORITY

Tennessee Valley Authority Act of 1933 and Public Utility Regulatory Policies Act of 1978; Proposed Modification of Guidlines on Dispersed Power Production

AGENCY: Tennessee Valley Authority TVA).

ACTION: Notice of proposed modification of TVA's guidelines on dispersed power production.

SUMMARY: On April 20, 1981 TVA adopted a policy to encourage dispersed power production in the Tennessee Valley region and an interim program and guidlines to assist TVA and the distributors of TVA power in implementation of the policy. The policy, program, and guidelines encompass congeneration and small power production facilities included under sections 201 and 210 of the Public Utility Regulatory Policies Act of 1978 (Pub. L. No., 95-617) (PURPA). On September 22, 1982 TVA approved a revised purchase price schedule to be available until October 1, 1983, and extended its Experimental Cogeneration Program until October 1, 1983. TVA is now considering a modification in the guidelines.

DATE: Comments in writing must be received by 5 p.m., March 21, 1983, to be assured of being considered.

ADDRESS: Written comments should be sent to R. C. Crawford, Director, Division of Energy Use and Distributor Relations, Tennessee Valley Authority, 840 Power Building, Market Street, Chattanooga, Tennessee 37401.

FOR FURTHER INFORMATION CONTACT: Dawn S. Ford, Tennessee Valley Authority, 400 West Summit Hill Drive, EPB5, Knoxville, Tennessee 37902, (615) 632-44402.

SUPPLEMENTARY INFORMATION: TVA's current guidelines on dispered power production were printed in the **Federal Register** on October 25, 1982 (47 FR. 47355).

TVA is considering a proposed modification of these guidelines with regard to purchases of power from qualifiying facilities located outside the area in which TVA or its distributors are a source of power supply under provisions of the TVA Act. The proposed modification provides for (1) Negotiated prices for energy purchases from these facilities with such prices not to exceed TVA's costs that would be avoided by such purchases and (2) metering costs for these qualified facilities to be the responsibility of the owners of the facilities.

The proposed modification to the guidelines is shown below.

Dated: February 23, 1983.

W. F. Willis,

General Manager.

Proposed Modification to Guidelines

A.3.a. Until October 1, 1983, qualified producers, with facilities located within the area in which TVA or the distributors of TVA power are a source of power supply under provisions of the TVA Act, will have the option of (1) Receiving payments for the output of their facilities billed under the experimental pricing schedule (see Experimental Price Schedule DPP-XR) or (2) any alternative pricing schedule that TVA may publish for use by itself and the distributors of TVA power prior to that date.

Qualified producers, with facilities located outside the area in which TVA or the distributors of TVA power are a source of power supply and that are able to make arrangements with connecting utility systems to supply their output to TVA's power system, will receive payments for energy based upon a negotiated price. The price agreed upon is not to exceed the avoided cost of energy to the TVA system. The amount of capacity payments will be based upon a negotiated price with the price agreed upon not to exceed the value of such capacity in offsetting TVA's capacity needs over the term of the contract.

A.6.a. Owners of qualified facilities will be required to pay for any additional transmission or distribution costs (including the costs of metering, system protection and safety equipment) to the extent that such costs are in excess of those that the distributors of TVA power and TVA would have incurred if the qualified producers' output had not been purchased. Until October 1, 1983, under the provisions of the Experimental Cogeneration Program, TVA will continue to pay the cost of cogeneration metering installations for facilities qualifying thereunder that are located within the area in which TVA or its distributors are a source of power supply. Owners of qualified cogeneration facilities located outside this area will be wholly responsible for metering installations, including costs.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Automotive Gasoline (AUTOGAS) in General Aviation Aircraft; Meeting

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Public Meeting.

SUMMARY: This notice announces the schedule, location procedures, and dates of a public meeting to solicit and review information on the use of automotive gasoline (AUTOGAS) in general aviation aircraft.

DATE: The meeting will be held on April 5 and 6, 1983, beginning at 8:00 a.m. and planned adjournment of 5:00 p.m.

ADDRESS: The meeting will be held at the Federal Aviation Administration, National Headquarters, Auditorium third floor, 800 Independence Ave, S.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: The FAA, Aircraft Certification Division, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone: (617) 273-7330.

SUPPLEMENTARY INFORMATION: Since the recent Supplemental Type Certificate (STC) approval was granted to the Experimental Aircraft Association (EAA) for use of AUTOGAS (to ASTM Specification D-439) to the Cessna 150 aircraft, additional applications have been received for use of AUTOGAS in other aircraft.

The objective of the meeting is:

1. To advise the public on criteria used for the initial AUTOGAS approval, and explore if there are means of simplifying future approvals.

2. Solicit discussions on the distribution system of AUTOGAS versus aviation gasoline, and how this impacts the current requirement that the pilot-in-command insure use of fuel to ASTM Specification D-439.

3. The potential impact of future change to ASTM Specification D-439 on current approval or subsequent approvals.

4. Gather input on concerns related to potential use in aircraft systems more complex than the Cessna 150.

The above agenda items should not be construed as a limitation on what may be discussed at the meeting. Participants are free to propose any other items of concern to the subject. A copy of the finalized agenda will be available at the registration desk. Additional agenda items should be presented at the registration desk. If approved, they will be added to the agenda as time permits.

Request To Make Presentation

Persons planning to present data and/or position papers at the meeting are requested to provide the FAA New England Region, ANE-100, Burlington, Massachusetts 01803, an outline of the presentation by March 25, 1983. The outline should contain an estimate of the time needed to make the presentation and any audio visual equipment required. Presentations will be scheduled on a first-come first-served basis as time permits within the meeting schedule.

Meeting Procedures:

Persons planning to attend the conference should be aware of the following procedures which are established to facilitate the workings of the meeting:

1. As space is limited, advance reservations are suggested. Please contact Mr. George Mulcahy at (617) 273-7351 to indicate your intent to attend the meeting.

2. Sessions will begin at 8:00 a.m. (local time) on both Tuesday and Wednesday. All meetings will be open to all persons on a space available basis. If necessary to complete the agenda, sessions may be extended to evenings. If practicable, the meeting may be accelerated to enable adjournment in less than the time scheduled.

3. Statements made by the FAA participants at the meeting will be made to facilitate discussion and should not be taken as expressing a final FAA position.

Issued in Burlington, Massachusetts, on February 18, 1983.

Robert E. Whittington,

Director, New England Region.

[FR Doc. 83-5289 Filed 3-3-83; 8:45 am]
BILLING CODE 4910-13-M

[Summary Notice No. PE-83-5]

Petitions for Exemption; Summary of Petitions Received Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I), dispositions of certain petitions previously received and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice not the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before March 23, 1983.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Petition Docket No.———, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-204), Room 916,

FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426–3644.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, D.C., on February 25, 1983.

John H. Cassady,

Assistant Chief Counsel, Regulations and Enforcement Division.

PETITIONS FOR EXEMPTION

Docket No.	Petitioner	Regulations affected	Description of relief sought
23548	Owensboro Aviation	14 CFR 93.113	To permit petitioner to conduct fixed wing Special VFR within the Louisville (Standiford) Airport Traffic Control Zone. Petitioner's operations are pipeline patrol.
19113	Capitol Air, Inc. formerly Capitol Int'l. Airways, Inc.	14 CFR portions of Part 121	To extend Exemption 2746 to permit petitioner to continue to conduct scheduled passenger service over routes authorized by the Civil Aeronautics Board (CAB) utilizing the flight control dispatch procedures and communication procedures of Part 121 that are applicable to supplemental air carriers.
19259I	Kenmore Air Harbor, Inc.	14 CFR 141.37(e), and para. 3(b)(4) of Appendix D of Part 141.	To extend Exemption 2376B which permits petitioner to use a seadrome without permanent runway lights for night training flights involving seaplanes. In addition, it permits credit toward flight instruction for cross-country night flights in seaplanes with a landing in a body of water less than 100 miles from the point of departure, provided that those flights include a landing at a point other than the point of departure and the flights are round-trip cross-country flights to a point more than 100 miles from the point of departure.
21350	The Coastal Corp.	14 CFR 61.58(c)	Extension and amendment to Exemption 3249 to permit the petitioner's flightcrews to complete their entire 24-month pilot-in-command check in an FAA-approved simulator, subject to certain conditions and limitations. The amendment would delete the B–707 aircraft from the exemption because it is currently operating under a Part 121 certificate.
23436	AirLifeLine of Texas, Inc	14 CFR 61.118(a)	To amend Exemption 3678 which permits petitioner's volunteer pilots who hold private pilot certificates to be reimbursed for fuel, oil, and maintenance expenses while serving on petitioner's official missions. The amendment would also allow instrument flight rule (IFR) and visual flight rule (VFR) operations at night provided the aircraft are properly equipped and the pilots meet current requirements. The amendment would also permit operation of the aircraft in accordance with inspection requirements of § 91.169(a) (1) and (2).
18238	Flying Tiger Line, Inc. (FT)	14 CFR Parts 21, 43, 61, 63, 91 and 121	To extend Exemption 2602 to permit petitioner to temporarily substitute DC–8–63F aircraft under lease with Flugleider H.F. (FHF), and to permit FT to use the DC–8 aircraft even though it does not have exclusive use of such aircraft.
15194	Compania Mexicana de Aviacion, S.A.	14 CFR Parts 61 and 63	To extend Exemption 2195, as amended to permit petitioner, to operate four leased U.S.-registered aircraft using an FAA-approved continuous airworthiness maintenance program and the B–727 master minimum equipment list.
22561	Alaska Int'l. Air	14 CFR 121.211(e)(2)	To permit petitioner to operate its five L–382 aircraft without each flight deck station being equipped with a combined safety belt and shoulder harness that meets the applicable requirements of § 25.785.
20048	Chalk Int'l. Airlines	14 CFR 135.175(a)	To renew Exemption 3007A to permit petitioner to operate its Grumman Mallard G–73 aircraft in direct day visual flight rule (VFR) flights in large multiengine aircraft between certain points, without having approved airborne weather radar equipment installed in the aircraft.
23481	San Juan Airlines	14 CFR 135.261	To permit petitioner to conduct medical evacuation flights from the islands to an appropriate medical facility without complying with the flight and duty time requirements of § 135.261.
23521	Singapore Airlines (SIA)	14 CFR portions of Part 21	To permit petitioner, a foreign air carrier which holds operations specification under Part 129, to operate and maintain two U.S.-registered Boeing 747–300 aircraft using an FAA-approved minimum equipment list (MEL).

DISPOSITIONS OF PETITIONS FOR EXEMPTION

Docket No.	Petitioner	Regulations affected	Description of relief sought disposition
23389	American Int'l. Airways	14 CFR portions of Part 121	To permit petitioner to engage in scheduled domestic or flag air carrier operations utilizing flight release authority in lieu of dispatching authority. *Withdrawn 12/28/82.*
23342	Israel Aircraft Industries, Ltd	14 CFR 25.832	To permit petitioner to operate the Westwind Model 1125 above flight level 180 for nonrevenue operations without complying with the cabin ozone concentration requirements. *Denied 2/9/83.*
23362	Arabian American Oil Company	14 CFR 91.200(b)	To permit petitioner to operate its F–27 airplanes for an indefinite period without a combined safety belt and shoulder harness at the flight-deck station that would normally accommodate an observer. *Granted 2/18/83.*
23443	Royale Airlines	14 CFR 43.3 and 43.7	To permit petitioner to acquire aircraft parts which were overhauled in Canada. *Granted 2/10/83.*
23502	Air One, Inc.	§ 121.311(f)	To permit petitioner to operate its B–727–100 aircraft during takeoff and landing without each flight attendant having a seat in the passenger compartment that meets the seat standard requirements. *Granted 2/10/83.*
23293	Air National, Inc.	14 CFR 121.311(F)	To permit petitioner to operate its DC–9 aircraft without each flight attendant having a seat for takeoff and landing that meets the requirements of § 25.785. *Granted 2/17/83.*
23394	Ports of Call Travel Club	14 CFR 91.303	To allow petitioner to operate up to nine noncomplying Boeing 707 aircraft from 1/1/85 until 1/1/88 without meeting the noise compliance requirements. *Denied 1/4/83.*
23452	Douglas Aircraft Co. obo Alitalia Airlines (Alitalia)	14 CFR 11.53 and 603 of the Act	To amend Exemption 3675 to include two additional subsidiary carriers of Alitalia under that exemption which allows the operation of 9 leased, U.S.-registered Douglas DC–9–30 aircraft, utilizing FAA-approved minimum equipment list (MEL). *Granted 2/24/83.*
23507	Peachtree Dekalb Flight Academy, Inc.	14 CFR 61.109 and 61.129	To allow aviation students, of Peachtree Dekalb Flight Academy, Inc., to use certain private or commercial cross-country experience gained prior to 7/1/83, under the old rules, to meet the current requirements. *Granted 2/23/83.*

BILLING CODE 4910–13–M

National Airspace Review Advisory Committee; Meeting

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. 1) notice is hereby given of a meeting of Task Group 1–7 of the Federal Aviation Administration (FAA) National Airspace Review Advisory Committee. The agenda for this meeting is as follows: develop and review a base for application of proposed U.S. Airspace Classification.

DATE: Beginning March 21, 1983, at 11 a.m., continuing daily, except Saturdays, Sundays, and holidays, not to exceed three weeks.

ADDRESS: The meeting will be held at the Federal Aviation Administration, conference room 7 A/B, 800 Independence Avenue, SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: National Airspace Review Program Management Staff, room 1005, Federal Aviation administration, 800 Independence Avenue, SW., Washington, D.C. 20591, (202) 426–3560. Attendance is open to the interested public, but limited to the space available. To insure consideration, persons desiring to make statements at the meeting should submit them in writing to the Executive Director, National Airspace Review Advisory Committee, Air Traffic Service, AAT–1, 800 Independence Avenue, SW., Washington, D.C. 20591. By March 18, 1983, Time permitting and subject to the approval of the chairman, these individuals may make oral presentations of their previously submitted statements.

Issued in Washington, D.C. on February 24, 1983.

Anthony Borden,

Acting Manager, Special Projects Staff.

[FR Doc. 83–5126 Filed 3–2–83; 8:45 am]

BILLING CODE 4910–13–M

Federal Highway Administration

National Motor Carrier Advisory Committee; Meeting

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of public meeting.

SUMMARY: The FHWA announces that the National Motor Carrier Advisory Committee will hold a meeting on March 17 and 18, 1983, beginning at 9:00 a.m. both days, in Washington, D.C., at the Department of Transportation's Headquarters Building, 400 Seventh Street, SW., Washington, D.C., Room 2230. The meeting is open to the public.

The first day of this meeting, March 17, will be devoted to a discussion of the statement of FHWA interpretation and policy published in the **Federal Register** February 3, 1983 (48 FR 5210), addressing truck size and weight provisions contained in the Surface Transportation Assistance Act of 1982 and the DOT Appropriations Act of 1982.

The agenda for March 18 will include: Standardization of the heavy duty vehicle inspection process for issuance of safety inspection stickers; presentation by the Dump Transport Industries Association on special bridge formula weight problems of end dump semi-trailer combinations; discussion of the future role of the Advisory Committee with regard to achieving uniformity in State motor carrier regulations; and briefings on the study of alternatives to tax on use of heavy trucks, and the study regarding longer combination vehicles. A meeting of the Subcommittee on the Heavy Truck Accident Causation and Safety Study is also scheduled for March 18.

FOR FURTHER INFORMATION CONTACT: Mr. James J. Stapleton, Acting Executive Director, National Motor Carrier Advisory Committee, Federal Highway Administration, HCC–20, Room 4224, 400 Seventh Street, SW., Washington, D.C. 20590, (202) 426–0634. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

Issued on: February 23, 1983.

L. P. Lamm,

Deputy Administrator, Federal Highway Administration.

[FR Doc. 83–5192 Filed 3–2–83; 8:45 am]

BILLING CODE 4910–22–M

Federal Railroad Administration

[FRA Waiver Petition Docket Nos. LI–82–3, LI–82–5, LI–82–9]

Petitions for Exemptions; Southern Pacific Transportation Co., et al.

Notice is hereby given that six petitioners have submitted requests for temporary or permanent waivers of compliance with the Locomotive Safety Standards (49 CFR Part 229).

The individual petitions for waiver of compliance with these standards are described below. The description of each petition indicates the nature and extent of the relief requested as well as the information that has been submitted in support of that petition.

Interested persons are invited to participate in these proceedings by submitting written data, views, or comments. FRA does not anticipate scheduling an opportunity for oral comment since the facts do not appear to warrant it. All communications concerning these petitions must identify the appropriate Docket Number (e.g. FRA Waiver Petition Docket Number LI–82–3) and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Communications received before March 31, 1983, will be considered before final action is taken. All comments will be available both before and after the closing date for comments, during regular business hours (8:30 a.m.–5:00 p.m.), in room 7321A, Nassif Building, 400 Seventh Street, SW., Washington, D.C. 20590.

Southern Pacific Transportation Company

[FRA Waiver Petition Docket No. LI–82–3]

The Southern Pacific Transportation Company (SP) seeks a permanent waiver of compliance for 119 of its locomotives with the requirement in § 229.55(c) of the Locomotive Safety Standards (49 CFR 229.55(c) that the minimum brake cylinder pressure shall be 30 pounds per square inch. To forestall thermal damage to wheels on eleven locomotives used in commuter service, SP has reduced the brake cylinder pressure produced by the automatic brake valve to 28 pounds. To obtain the proper braking ratios and permit retention of the clasp brake shoe arrangement on approximately 100 road locomotives that have been converted from cast iron brake shoes to composition brake shoes, SP has installed a J–84–B relay valve; as a result, the automatic brake valve on these locomotives produces only 28 pounds of brake cylinder pressure. To make the braking force on four slug locomotives used in hump yard service compatible with the braking force of their MP 15 control locomotives and

prevent slid flat wheels on the slug locomotives, SP has equipped four MP 15 AC control locomotives with 6–N–6 distributing valves, which produce 27 pounds of brake cylinder pressure. SP contends that none of these reductions in brake cylinder pressure have created a hazard or resulted in a decrease in safety and that adjustment of the brake cylinder pressures to 30 pounds or higher would result in exceeding the recommended braking ratios for these locomotives.

Chevron U.S.A. Inc.

[FRA Waiver Petition Docket No. LI–82–5]

Chevron U.S.A. seeks a permanent waiver of compliance with the requirement in § 229.23(a) of the Locomotive Safety Standards that its locomotive, as part of each periodic inspection, be positioned so that its entire underneath portion may be safely inspected. The locomotive operates on track within and near its refinery at Pascagoula, Mississippi. Inspections of the traction motors and undercarriage of its single locomotive have been safely performed at the refinery by the Railway Supply Company since 1974. In view of the safe, frequent and thorough inspections that have been performed using existing facilities, Chevron believes that the cost of building an inspection pit is not justified.

The Mary Lee Railroad

[FRA Waiver Petition Docket No. LI–82–6]

The Mary Lee Railroad, operated by Jim Walter Resources, Inc. of Birmingham, Alabama, seeks a permanent waiver of compliance with the requirement in § 229.117 of the Locomotive Safety Standards that its four locomotives be equipped with speed indicators. These locomotives operate primarily on track within a Jim Walter Resources installation but also operate over 13 miles of L & N Railroad track. Although the maximum authorized speed on the L & N track is 25 mph, the average speed of these locomotives is less than 15 mph during Mary Lee operations

The Massena Terminal Railroad Company

[FRA Waiver Petition Docket No. LI–82–7]

The Massena Terminal Railroad Company of Massena, New York, seeks a permanent waiver of compliance with the requirement of § 229.123 of the Locomotive Safety Standards that locomotives be equipped with an end plate, a pilot or a snowplow. Its two locomotives are operated primarily in switching service within an Aluminum Company of America installation and also on 2.5 miles of mainline track. It believes that bringing its locomotives into compliance with this requirement would serve no safety purpose.

Indiana & Ohio Railroad

[FRA Waiver Petition Docket No. LI–82–8]

The Indiana & Ohio Railroad Company seek a permanent waiver of compliance with the requirement of § 229.123 that its one locomotive be equipped with an end plate, a pilot or a snowplow. It has experienced no acts of vandalism involving the placing of objects on track since it began operations in June 1979. Moreover, since its trains do not exceed a speed of 10 mph, they would have sufficient time to stop if such an incident should occur. Accordingly, it believes that complying with this requirement would be an unwarranted expense and would not improve safety.

Roblin Steel Company

[FRA Waiver Petition Docket No. LI–82–9]

The Roblin Steel Company of North Tonawanda, New York, seeks a permanent waiver of compliance with the requirement of § 229.123 that its two locomotives be equipped with an end plate, a pilot or a snow plow. Except for weekly switching on about one-quarter of a mile of Conrail track, these locomotives are used exclusively in a Roblin facility that is completely fenced and patrolled by a security force. Since it has not experienced any pertinent incidents or accidents in its operations, Roblin believes that modifying its locomotives to comply with this requirement is economically infeasible and would not enhance the safety of its operation.

(Secs. 1, 2, 5, 9, 36 Stat. 913, 914, 45 U.S.C. 22, 23, 28, 34; sec. 6 (e) and (f), 80 Stat. 939, 940, 49 U.S.C. 1655 (e) and (f); § 1.49(c) of the regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(c))

Issued in Washington, D.C., February 17, 1983.

Joseph W. Walsh,

Associate Administrator for Safety.

BILLING CODE 4910–06–M

Maritime Administration

Approval of Applicant as Trustee

Notice is hereby given that The Connecticut Bank and Trust Company, N.A., with offices at One Connecticut Plaza, Hartford, Connecticut 06115, has been approved as Trustee pursuant to Pub. L. 89–346 and 46 CFR 221.21–221.30.

Dated: February 23, 1983.

By Order of the Maritime Administrator.

Georgia P. Stamas,

Assistant Secretary.

[FR Doc. 83–5143 Filed 3–2–83; 8:45 am]
BILLING CODE 4910–81–M

Removal From Roster of Approved Trustees

Notice is hereby given that the Connecticut Bank and Trust Company, with offices at Hartford, Connecticut, an approved Trustee, was merged into The State National Bank of Connecticut as of December 31, 1982. The surviving bank continues under the charter of The State National Bank of Connecticut and has been renamed The Connecticut Bank and Trust Company, N.A.

The Connecticut Bank and Trust Company, N.A. is an approved Trustee pursuant to Pub. L. 89–346 and 46 CFR 221.21–221.30, and has assumed all of the Vessel or Shipyard Financing Trusts of the Connecticut Bank and Trust Company.

Therefore, pursuant to Pub. L. 89–346 and 46 CFR 221.21–221.30 The Connecticut Bank and Trust Company is removed from the Roster of Approved Trustees.

This notice is effective as of December 31, 1982.

Dated: February 23, 1983.

By Order of the Maritime Administrator.

Georgia P. Stamas,

Assistant Secretary.

Southern Pacific Transportation Company

[FRA Waiver Petition Docket No. LI–82–3]

The Southern Pacific Transportation Company (SP) seeks a permanent waiver of compliance for 119 of its locomotives with the requirement in § 229.55(c) of the Locomotive Safety Standards (49 CFR 229.55(c) that the minimum brake cylinder pressure shall be 30 pounds per square inch. To forestall thermal damage to wheels on eleven locomotives used in commuter service, SP has reduced the brake cylinder pressure produced by the automatic brake valve to 28 pounds. To obtain the proper braking ratios and permit retention of the clasp brake shoe arrangement on approximately 100 road locomotives that have been converted from cast iron brake shoes to composition brake shoes, SP has installed a J–84–B relay valve; as a result, the automatic brake valve on these locomotives produces only 28 pounds of brake cylinder pressure. To make the braking force on four slug locomotives used in hump yard service compatible with the braking force of their MP 15 control locomotives and

prevent slid flat wheels on the slug locomotives, SP has equipped four MP 15 AC control locomotives with 6–N–6 distributing valves, which produce 27 pounds of brake cylinder pressure. SP contends that none of these reductions in brake cylinder pressure have created a hazard or resulted in a decrease in safety and that adjustment of the brake cylinder pressures to 30 pounds or higher would result in exceeding the recommended braking ratios for these locomotives.

Chevron U.S.A. Inc.

[FRA Waiver Petition Docket No. LI–82–5]

Chevron U.S.A. seeks a permanent waiver of compliance with the requirement in § 229.23(a) of the Locomotive Safety Standards that its locomotive, as part of each periodic inspection, be positioned so that its entire underneath portion may be safely inspected. The locomotive operates on track within and near its refinery at Pascagoula, Mississippi. Inspections of the traction motors and undercarriage of its single locomotive have been safely performed at the refinery by the Railway Supply Company since 1974. In view of the safe, frequent and thorough inspections that have been performed using existing facilities, Chevron believes that the cost of building an inspection pit is not justified.

The Mary Lee Railroad

[FRA Waiver Petition Docket No. LI–82–6]

The Mary Lee Railroad, operated by Jim Walter Resources, Inc. of Birmingham, Alabama, seeks a permanent waiver of compliance with the requirement in § 229.117 of the Locomotive Safety Standards that its four locomotives be equipped with speed indicators. These locomotives operate primarily on track within a Jim Walter Resources installation but also operate over 13 miles of L & N Railroad track. Although the maximum authorized speed on the L & N track is 25 mph, the average speed of these locomotives is less than 15 mph during Mary Lee operations

The Massena Terminal Railroad Company

[FRA Waiver Petition Docket No. LI–82–7]

The Massena Terminal Railroad Company of Massena, New York, seeks a permanent waiver of compliance with the requirement of § 229.123 of the Locomotive Safety Standards that locomotives be equipped with an end plate, a pilot or a snowplow. Its two locomotives are operated primarily in switching service within an Aluminum Company of America installation and also on 2.5 miles of mainline track. It believes that bringing its locomotives into compliance with this requirement would serve no safety purpose.

Indiana & Ohio Railroad

[FRA Waiver Petition Docket No. LI–82–8]

The Indiana & Ohio Railroad Company seek a permanent waiver of compliance with the requirement of § 229.123 that its one locomotive be equipped with an end plate, a pilot or a snowplow. It has experienced no acts of vandalism involving the placing of objects on track since it began operations in June 1979. Moreover, since its trains do not exceed a speed of 10 mph, they would have sufficient time to stop if such an incident should occur. Accordingly, it believes that complying with this requirement would be an unwarranted expense and would not improve safety.

Roblin Steel Company

[FRA Waiver Petition Docket No. LI–82–9]

The Roblin Steel Company of North Tonawanda, New York, seeks a permanent waiver of compliance with the requirement of § 229.123 that its two locomotives be equipped with an end plate, a pilot or a snow plow. Except for weekly switching on about one-quarter of a mile of Conrail track, these locomotives are used exclusively in a Roblin facility that is completely fenced and patrolled by a security force. Since it has not experienced any pertinent incidents or accidents in its operations, Roblin believes that modifying its locomotives to comply with this requirement is economically infeasible and would not enhance the safety of its operation.

BILLING CODE 4910–81–M

[Docket No. S–734]

Participation By Vessels Built With Construction-Differential Subsidy In the Carriage of Crude Oil in the Domestic Trade; Application; Archon Shipping, Inc.

Notice is hereby given that by application of February 25, 1983, Archon Shipping, Inc. (Archon) requested permission under section 506 of the Merchant Marine Act, 1936, as amended, and Part 250 of Title 46 of the Code of Federal Regulations, for its bareboat chartered vessel, TT *Brooklyn* to operate for six months in the Alaskan oil trade. The 225,000 deadweight ton *Brooklyn*, which was built with construction-differential subsidy (CDS), would carry crude oil from Valdez, Alaska, to Panama. The vessel would operate under sub-time charter from American Petrofina, Incorporated to Exxon Shipping Company (Exxon)

during the six-month period and would commence Alaskan service on or about May 27 to June 5, 1983.

Archon advised that, to its knowledge, no suitable Jones Act tonnage is available which can provide the full shipping capacity requested by Exxon in the Alaskan oil trade.

Interested parties may inspect the application in the Office of the Secretary, Maritime Administration Room 7300A, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

Any person, firm, or corporation who is a "competitor," as defined in § 250.2 of the regulations as set forth in 46 CFR Part 250, published in the **Federal Register** issue of June 29, 1977 (42 FR 33035), and desires to protest such application as it pertains to the carriage of oil in the domestic trade from Alaska to Panama should submit such protest in writing, in triplicate, to the Secretary, Martitime Administration, Washington, D.C. 20590.

Protests must be received within five working days after the date of publication of this Notice in the **Federal Register**. If a protest is received, the applicant will be advised of such protest by telephone or telegram and will be allowed three working days to respond in a manner acceptable to the Maritime Administrator. Within five working days after the due date for the applicant's response, the Maritime Administrator will advise the applicant, as well as those submitting protests, of the action taken, with a concise written explanation of such action. If no protest is received concerning the application, the Maritime Administrator will take such action as may be deemed appropriate.

BILLING CODE 4910-81-M

[Docket No. S-733]

Participation By Vessels Built With Construction-Differential Subsidy in the Carriage of Crude Oil in the Domestic Trade; Application—New York Tankers, Inc.

Notice is hereby given that by application of February 18, 1983, New York Tankers, Inc. requested permission under section 506 of the Merchant Marine Act, 1936, as amended, and Part 250 of Title 46 of the Code of Federal Regulations, for its chartered vessel, *New York*, to operate for six months in the Alaskan oil trade. The 284,100 deadweight ton *New York*, which was built with construction-differential subsidy (CDS), would carry crude oil from Valdez, Alaska, to Panama and/or the U.S. Gulf/Caribbean for oncarriage only to a U.S. port. The vessel would be under time charter to Pierce Tanker Corporation which would charter the vessel to SPC Shipping, Inc., a subsidiary of SOHIO, during the six-month period and would commence Alaskan service on or about May 9, 1983.

The applicant advised that it has been informed that no other suitable vessels are available to fill the transportation requirements to be met by the *New York*.

Interested parties may inspect the application in the Office of the Secretary, Maritime Administration, Room 7300A, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

Any person, firm, or corporation who is a "competitor," as defined in § 250.2 of the regulations as set forth in 46 CFR Part 250, published in the **Federal Register** issue of June 29, 1977 (42 FR 33035), and desires to protest such application as it pertains to the carriage of oil in the domestic trade from Alaska to Panama, should submit such protest in writing, in triplicate, to the Secretary, Maritime Administration, Washington, D.C. 20590.

Any person, firm, or corporation who desires to protest the application as it pertains to the carriage of oil in the domestic trade from Alaska directly to the U.S. Gulf/Caribbean should submit the protest in writing, in triplicate, to the Secretary, Maritime Administration, Washington, D.C. 20590.

Protests must be received within five working days after the date of publication of this Notice in the **Federal Register**. If a protest is received, the applicant will be advised of such protest by telephone or telegram and will be allowed three working days to respond in a manner acceptable to the Maritime Administrator. Within five working days after the due date for the applicant's response, the Maritime Administrator will advise the applicant, as well as those submitting protests, of the action taken, with a concise written explanation of such action. If no protest is received concerning the application, the Maritime Administrator will take such action as may be deemed appropriate.

BILLING CODE 4910-81-M

[Docket No. S-732]

United States, Lines, Inc. and Farrell Lines Inc.; Application

Notice is hereby given that, by application dated January 26, 1983, United States Lines, Inc. (USL) and Farrell Lines Incorporated (Farrell) have jointly requested the necessary Maritime Administration approvals for USL or its designee to acquire four 1712 TEU C8 container vessels from Farrell, together with Farrell's service rights on Trade Route (TR) 16 (U.S. Atlantic and Gulf/Australia and New Zealand) and that portion of Farrell's Operating-Differential Subsidy Agreement, Contract No. MA/MSB-352, relating to TR 16. The four vessels to be acquired by USL are the *Austral Pioneer, Austral Puritan, Austral Envoy, and Austral Entente.*

USL intends to transfer the four container vessels acquired from Farrell to TR 5-7-8-9/11 (U.S. Atlantic/Western Europe), substituting them for eight C6 Leader class vessels of approximately 1013 TEU now employed on the transatlantic route. The C8 vessels are expected to be modified and will have a TEU capacity of approximately 2200 TEU after modification. USL is currently authorized to provide a minimum of 52 and a maximum of 105 subsidized sailings per year on the TR 5-7-8-9/11 service. USL is also authorized to provide a maximum of 110 non-subsidized sailings per year on TR 5-7-8-9/11 (minus the number of subsidized sailings actually made). The minimum and maximum sailing limitations on the route will remain the same after deployment of the four C8 vessels. However, due to the significantly greater TEU capacity of these vessels, each complete voyage of a C8 vessel will count as two voyages toward the minimum and maximum sailing limitations, both subsidized and non-subsidized.

With regard to TR 16, any service provided by USL on the route during the first 12 months after the close of the transaction will be on an unsubsidized basis. Thereafter, USL will be entitled to subsidy for such service on TR 16. Any service provided by USL on TR 16,

whether subsidized or unsubsidized, will not exceed Farrell's present maximum sailing limitation on the route.

Interested parties may inspect the foregoing application during normal business hours in the Office of the Secretary, Maritime Subsidy Board, Room 7300–B, Department of Transportation, 400 7th Street, S.W., Washington, D.C. 20590. Interested parties who desire to comment on the application may submit their views to the Secretary, Maritime Subsidy Board, in triplicate, on or before 5:00 p.m. on March 11, 1983.

(Catalog of Domestic Assistance Program No. 11.504, Operating-Differential Subsidy (ODS))

Dated: February 28, 1983.

By order of the Maritime Subsidy Board.

Georgia P. Stamas,

Acting Secretary.

Office of the Secretary

Minority Business Resource Center Advisory Committee; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. 1), notice is hereby given of a meeting of the Minority Business Resource Center Advisory Committee to be held March 21, 1983, at 10:00 a.m. until 1:00 p.m. in Room 2230–32 at the Department of Transportation, 400 7th Street, SW, Washington, D.C. 20590. The agenda for the meeting is as follows:

—Report on Program Management Center program
—MBE objectives

Attendance is open to the interested public but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify the Minority Business Resource Center not later than the day before the meeting. Information pertaining to the meeting may be obtained from Ms. Betty Chandler, Minority Business Resource Center, 400 7th Street, SW, Washington, D.C. 20590, telephone (202) 426–2852. Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C. on February 22, 1983.

Melvin Humphrey,

Director, Office of Small and Disadvantaged Business Utilization.

1

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 10:20 p.m. on Friday, February 25, 1983, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to consider the application of ComBank/Apopka, Apopka, Florida; ComBank/Fairvilla, Fairvilla, Florida; ComBank/Pine Castle, Pine Castle, Florida; ComBank/Union Park, Union Park, Florida; ComBank/Winter Park, Winter Park, Florida; and ComBank/Seminole County, Casselberry, Florida, insured State nonmember banks for consent to merge with Freedom Savings and Loan Association, Tampa, Florida, a State chartered stock savings and loan association, under the charter and title of Freedom Savings and Loan Association.

At that same meeting, the Board of Directors considered a recommendation with respect to the initiation and conduct of cease-and-desist proceedings against insured banks (names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)); and discussed the potential for arranging a purchase of certain assets of and an assumption of the liability to pay deposits made in American City Bank, Los Angeles, California, which was closed by the Acting Superintendent of Banks for the State of California on February 25, 1983.

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (appointive), concurred in by Director C. T. Conover (Comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: February 28, 1983.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714–01–M

2

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 8:45 p.m. on Sunday, February 27, 1983, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to: (1) Receive bids for the purchase of certain assets of and the assumption of the liability to pay deposits made in American City Bank, Los Angeles, California, which was closed by the Acting Superintendent of Banks for the State of California on February 25, 1983; (2) accept the bid for the transaction submitted by Central Bank, Oakland, California; (3) approve the application of Cental Bank, Oakland, California, for consent to purchase the assets of and assume the liability to pay deposits made in American City Bank, Los Angeles, California, and to establish the seven offices of American City Bank as branches of Central Bank; (4) provide such financial assistance, pursuant to section 13(c)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1823(c)(2)), as was necessary to effect the purchase and assumption transaction; (5) approve the application of American Asian Bank, San Francisco, California, for consent to purchase the assets of and to assume the liability to pay deposits made in the South Bay office of Central Bank, Oakland, California, and to establish that office as a branch; (6) approve the application of Valley State Bank, Los Angeles (Van Nuys), California, for consent to purchase the assets of and assume the liability to pay deposits made in the San Fernando Valley office of Central Bank, Oakland, California, and to establish that office as a branch; (7) approve the application of Bank of San Pedro, Los Angeles (San Pedro), California, for consent to purchase the assets of and assume the liability to pay deposits made in the Long Beach office of Central Bank, Oakland, California, and to establish that office as a branch; and (8) approve the application of Bank of Los Angeles, Los Angeles, California, for consent to purchase the assets of and assume the liability to pay deposits made in the Beverly Hills office of Central bank, Oakland, California, and to establish that office as a branch.

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: February 28, 1983.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2 p.m. on Monday, February 28, 1983, the Corporation's Board of Directors determined, on motion of Chairman William M. Isaac, seconded by Director C. T. Conover (Comptroller of the Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matters:

Applications of Arlington Five Cents Savings Bank, Arlington, Massachusetts, for Federal deposit insurance, and for consent to purchase the assets of and assume the liability to pay deposits made in Tanners National Bank of Woburn, Woburn, Massachusetts, and to establish the three offices of Tanners National Bank of Woburn as branches of Arlington Five Cents Savings Bank.

Application of The Savings & Trust Company of Pennsylvania, Indiana, Pennsylvania, for consent to merge, under its charter and title, with UniBank, Brookville, Pennsylvania, and to establish the four offices of UniBank as branches of the resultant bank.

Recommendation with respect to payment for legal services rendered and expenses incurred in connection with receivership and liquidation activities: Edwards, Roberts & Winterstein, Oklahoma City, Oklahoma, in connection with the receivership of Penn Square Bank, National Association, Oklahoma City, Oklahoma.

By the same majority vote, the Board further determined that no earlier notice of these changes in the subject matter of the meeting was practicable.

Dated: February 28, 1983.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

Change in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its closed meeting held at 2:30 p.m. on Monday, February 28, 1983, the Corporation's Board of Directors determined, on motion of Chairman William M. Isaac, seconded by Director C. T. Conover (Comptroller of the Currency), that Corporation business required the withdrawal from the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matter:

Notice of Acquisition of Control:
Southeast Mississippi Bank, Quitman, Mississippi.

By the same majority vote, the Board further determined that no earlier notice of the change in the subject matter of the meeting was practicable.

Dated: February 28, 1983.

Federal Deposit Insurance Corporation.

Part II

Department of Defense

Defense Acquisition Regulation

DEPARTMENT OF DEFENSE

32 CFR Parts 1-39

[DAC 76-41]

Defense Acquisition Regulation

AGENCY: Defense Department.

ACTION: Final rule.

SUMMARY: This document publishes changes to the Defense Acquisition Regulation contained in the Code of Federal Regulations. The changes are the same as those in Defense Acquisition Circular 76-41. Some of the changes include ratification of irregular procurements; debarment and suspension; deletion of DAR 3-709, Lobbying Costs; increased thresholds for cost or pricing data; reimbursement of fees paid to the SBA under the Surety Bond Guarantee Program; facilities; compensation for personal services; ports of embarkation used in bid evaluations; distribution of contract modifications, change in payment office; reporting of sales of industrial plant equipment to small business; and editorial corrections. Also included in this document are certain blanket deviations, approved by the Military Services and appropriate Defense agencies, covering nonprofit organizations and the Canadian Commercial Corporation with respect to cost and pricing data and certification thereof.

EFFECTIVE DATE: December 27, 1982.

FOR FURTHER INFORMATION CONTACT: J. Brannan, Director, Defense Acquisition Regulatory Council, Room 3C257, Pentagon, Washington, D.C. 20301, telephone (202) 697-7266.

SUPPLEMENTARY INFORMATION:

Background

The Defense Acquisition Regulation (DAR) is codified in Title 32, Parts 1-39, Volumes I, II, and III, of the Code of Federal Regulations (CFR). The August 1, 1981 revision of the CFR is the most recent edition of that title. It reflects amendments to the 1976 edition of the DAR made by Defense Acquisition Circulars 76-1 through 76-27.

The Department of Defense announced the promulgation of the 1979 CFR edition in the **Federal Register** of December 31, 1979 (44 FR 77158), and also announced at that time that subsequent amendments to the DAR would be published in the **Federal Register.**

Defense Acquisition Circular 76-41

This document contains amendments to the Defense Acquisition Regulation in the form of replacement pages which were included in DAC 76-41, issued December 27, 1982. The following is a summary of the amendments:

Ratification of Irregular Procurements. The DAR Council has developed coverage which establishes procedures on ratification of unauthorized commitments.

Debarment and Suspension. DAR Section I, Part 6, has been revised to implement Section 914, Pub. L. 97-86 in consonance with OFPP Policy Letter 82-1. This change completes the revision announced by Item III of DAC 76-36. Essentially, Section 914 prohibits a Military Department from soliciting offers from, awarding contracts to, extending an existing contract with, or approving a subcontract award under the consent-to-subcontract provisions of a prime contract for, any concern or individual known to have been debarred or suspended by another Federal agency, unless a compelling reason exists for such action. The policy letter applies similar restrictions to other executive branch agencies, tasks the General Services Administration with establishing a Government-wide consolidated list of debarred, suspended and ineligible contractors, and prescribes policies and procedures for imposing debarment and suspension. Among other things, the revision specifically defines "contractor," "conviction," and "legal proceedings," broadens the causes for which debarment or suspension may be imposed by an official below the Secretarial level, provides procedural guidance on imposing debarment and suspension, and expressly states that DOD actions will be effective throughout the executive branch.

Deletion of DAR 3-709, Lobbying Costs. In light of recent changes to DAR 15-205.51, Lobbying Costs, it has been determined that coverage in DAR 3-709 is not required; therefore, 3-709 is deleted.

Increased Thresholds for Cost or Pricing Data, Pub. L. 97-86. When Pub. L. 97-86 raised the threshold for cost or pricing data, various sections of the DAR were revised by Departmental instructions. Because of the urgency to effect those changes which had the most immediate impact on Department of Defense procurement, the changes published by Departmental instructions did not represent a complete list of every citation where the threshold figure should be increased. With this DAC, changes are made in Sections III, VII, VIII, and XXIII, consistent with Pub. L. 97-86. It should be noted that those portions of the above-referenced Departmental instructions which deal with the threshold increase are superseded by the replacement pages furnished with this DAC.

Reimbursement of Fees Paid to the SBA Under the Surety Bond Guarantee Program. DAR 7-602.7(e) is modified to provide for reimbursement to small business contractors for guarantee fees paid to the SBA under its Bond Guarantee Assistance Program.

Facilities. DAR 7-1601.8 is revised to include in the Facilities clause the requirement for a fire detection and reporting system, to comply with policy as stated in the Personal Property Traffic Management Regulation (PPTMR), DOD 4500.34R.

Compensation for Personal Services. DAR 15-205.6(f), Deferred Compensation, has been revised to include coverage for Employee Stock Option Plans (ESOPs). Subject to certain conditions, contributions to ESOPs are allowable, except that amounts contributed to an ESOP arising from either: (i) An additional investment tax credit (see 1975 Tax Reduction Act—TRASOPs); or (ii) a payroll based tax credit (see Economic Recovery Act of 1981—PAYSOPs) are unallowable.

Ports of Embarkation Used in Bid Evaluations. DAR 19-213.1(b) is revised to grant authority to the contracting officer to limit ports in connection with shipments of less than 10,000 pounds.

Distribution of Contract Modifications, Change in Payment Office. DAR 20-401(e) is revised to provide that contract modifications be furnished the original or losing payment office as well as the added/new payment office.

Reporting of Sales of Industrial Plant Equipment (IPE) to Small Business. It has been determined that the requirement of reporting of small business data shown in DAR 24-206.1(k) is no longer necessary. As a result, the coverage cited above is deleted.

Editorial Corrections. Corrections are made to Annex II to DAR (ASPR) Supplement No. 3. Corrections to typographical errors, administrative oversight, or other editorial changes are included. (It is noted that Supplements are not included in the CFR.)

Because the Defense Acquisition Regulation concerns agency management, public property, and contracts, it is not necessary to issue proposed rules for public comment. Neither is it necessary to delay the effective date until 30 days after the date of publication of these rules, 5 U.S.C. 533 (a) and (d). The amendments became effective on December 27, 1982.

How to Use Replacement Pages

Reproduced at the end of this document are replacement pages from DAC 76–41. The number at the top of each page (for example, 1:82–A) identifies the page from the Regulation which is being replaced. The number at the bottom of the page is a reference to the last appearing numbered paragraph on that page, or if none shows, on a preceding page. The vertical line in the right margin indicates where the amendment is located.

List of Subjects in 32 CFR Parts 1 Through 39

Government procurement.

Adoption of Amendments

Therefore, the Defense Acquisition Regulation contained in the August 1, 1981 edition of 32 CFR Parts 1–39, Volumes I, II, and III, is amended in the DAR paragraphs indicated by substitution of the replacement pages listed in the table.

BILLING CODE 3810-01-M

(xlvii) perform quality assurance;
(xlviii) maintain surveillance of flight operations;
(xlix) assure contractor compliance with applicable safety requirements;
(l) Reserved;
(li) in connection with classified contracts, administer those portions of the Industrial Security Program designated as ACO responsibilities in the ISR and ISM (See Appendix C, Industrial Security Regulation, DoD 5220.22-R, for partial listing of primary responsibilities (also see 1-320).);
(lii) make payments on assigned contracts (but see 20-706);
(liii) assign and perform supporting administration;
(liv) assure timely submission of required reports;
(lv) will advise and assist defense contractors regarding their priorities and allocations responsibilities and assist defense purchasing activities in processing requests for special assistance and for priority ratings for privately-owned capital equipment;
(lvi) process and execute novation and change of name agreements in accordance with Section XXVI, Part 4;
(lvii) when authorized by the purchasing office, negotiate or negotiate and execute supplemental agreements accelerating or decelerating contract delivery schedules;
(lviii) when authorized by the purchasing office, negotiate or negotiate and execute supplemental agreements providing for the de-obligation of unexpended dollar balances considered excess to known contract requirements;
(lix) determine adequacy of prime contractor's Disclosure Statements;
(lx) determine whether prime contractor's Disclosure Statements are in compliance with Section XV and Cost Accounting Standards; except that the Tri-Service Contracting Officer shall have full authority for determinations related to CAS 420 for those contractors with which the Tri-Service Contracting Officer negotiates advance agreements pursuant to 15-205.3 and 15-205.35.
(lxi) determine contractor compliance with Cost Accounting Standards and Disclosure Statements, if applicable; except that the Tri-Service Contracting Officer shall have full authority for determinations related to CAS 420 for those contractors with which the Tri-Service Contracting Officer negotiates advance agreements pursuant to 15-205.3 and 15-205.35.
(lxii) negotiate price adjustments and execute supplemental agreements pursuant to the Cost Accounting Standards clauses in 7-104.83;
(lxiii) perform post award surveillance of contractor progress toward demonstration of Cost/Schedule Control Systems to meet the Cost/Schedule Control Systems Criteria (see 7-104.87), provide assistance in the review and acceptance of contractors' Cost/Schedule Control Systems, and perform post acceptance surveillance to insure continuing operation of contractors' accepted systems;

(lxiv) when authorized by the purchasing office, issue amended shipping instructions and, when necessary, negotiate and execute supplemental agreements incorporating contractor proposals resulting from the amended shipping instructions;
(lxv) when authorized by the purchasing office, issue change orders and negotiate and execute resultant supplemental agreements under contracts for ship construction, conversion and repair;
(lxvi) issue contract modifications requiring the contractor to provide packing, crating and handling services on excess Government property. When the ACO determines it to be in the Government's best interests, he may secure such services from other than the contractor in possession of the property;
(lxvii) approve contractor acquisition/fabrication of special test equipment as provided in paragraph (b) of the clause in 7-104.26;
(lxviii) negotiate and execute contractual documents for settlement of cancellation charges under multi-year contracts;
(lxix) evaluate and monitor contractor's procedures for complying with the Restrictive Markings on Technical Data clause in 7-104.9(p);
(lxx) monitor the contractor's costs as set forth in 20-1000;
(lxxi) issue Notice of Intent to Disallow or Not Recognize Costs (see 15-206);
(lxxii) negotiate forward pricing rate agreements;
(lxxiii) analyze quarterly limitation on payments statements and recover overpayments from the contractor;
(lxxiv) when authorized by the contracting office, negotiate changes to interim billing prices;
(lxxv) when authorized by the contracting office, negotiate and definitize adjustments to contract prices resulting from exercise of an Economic Price Adjustment clause; and
(lxxvi) with the exception of changes in accounting and appropriation data which must be issued by the procuring activity, issue administrative changes (DAR 26-101(a)(i)).

Contracting functions not designated as contract administration functions shall remain the responsibility of the contracting office.

1-407 Ratification of Unauthorized Commitments.

(a) *Authority.* Only contracting officers acting within the scope of their authority (see 1-402) may enter into contracts on behalf of the Government. Subject to the limitations in (d) below, the Head of the Contracting Activity may ratify an unauthorized commitment, *Provided*:
(i) the Government has obtained a benefit resulting from

the Chief of the Purchasing Office shall take one or more of the follow-

systems;

the unauthorized commitment; (ii) the Head of the Contracting Activity could have granted authority to enter into the commitment at the time it was made and still has the power to do so; and (iii) the resulting contract would otherwise have been proper if made by an authorized contracting officer.

(b) *Policy.*

(1) The authority of (a) above may be delegated in accordance with Departmental procedures, *Provided*, that in no case shall this authority be delegated below the Chief of the Contracting Office.

(2) DoD components shall process unauthorized commitments using the ratification authority set forth herein in lieu of referral of such actions to the General Accounting Office for resolution as *quantum meruit/quantum valebat* claims.

(c) *Definitions.*

(1) *Ratification*, as used in this paragraph 1-407, means the act of approving an unauthorized commitment, by an official who has the authority to do so, for the purpose of paying for supplies or services provided to the Government as a result of the unauthorized commitment.

(2) *Unauthorized commitment*, as used in this paragraph 1-407, means an agreement that is not binding solely because the Government representative who made it lacked the authority to enter into a contract on behalf of the Government.

(d) *Limitations Upon Exercise of Authority.* The authority in (a) above may be exercised only where—

(1) supplies or services have been provided to and accepted by the Government;

(2) the contracting officer determines the price to be fair and reasonable;

(3) the contracting officer recommends payment and legal counsel concurs in the recommendation;

(4) funds are available and were available at the time the unauthorized commitment was made;

(5) administrative settlement of the unauthorized commitment would not involve a claim subject to resolution under the Contract Disputes Act of 1978.

(e) Cases that are not ratifiable under this paragraph 1-407 may be subject to resolution as recommended by the General Accounting Office under its claim procedure (4 GAO 5.1), or as authorized by DAR Section XVII. Legal advice should be obtained in these cases.

propriety, the Chief of the Purchasing Office shall take one or more of the following actions, or other action, as may be appropriate:

(i) if an award has not been made or bid or offer has not been accepted, determine whether the bid or offer should be rejected;

(ii) if an award has been made or bid or offer has been accepted, take action to enforce the covenant in accordance with its terms; i.e., as the best interest of the Government may appear, annul the contract without liability or recover the amount of the fee involved;

(iii) consider the bidder's or offeror's future eligibility as a contractor; or

(iv) consider referring the case to the Department of Justice.

1-508.4 *Reports.* A report shall be made in accordance with 1-608 when the Chief of the Purchasing Office recommends referral to the Department of Justice under 1-508.3(iv).

1-509 Preservation of Records.

(a) Each Department shall preserve as a permanent record for enforcement or report purposes, the original executed copy of any representation and completed Standard Form 119, or statement in lieu of form, together with a record of any other pertinent data, including data as to action taken. There shall be no regular retirement of any Standard Form 119 maintained in this record by any procuring activity. However, in any case where the receipt of a new Standard Form 119 makes previously received information obsolete, the obsolete information may be destroyed.

(b) The second copy of Standard Form 119, or statement in lieu of form, shall be filed with and shall remain a part of the contract file.

Part 6—Debarment, Suspension, and Ineligibility

1-600 Scope of Part.

(a) This Part:

(1) prescribes policies and procedures governing the debarment and suspension of contractors for the causes given in 1-605 and 1-606;

(2) provides for the listing of debarred and suspended contractors, and of contractors declared ineligible (see the definition of "ineligible" in 1-602(j)); and

(3) sets forth the treatment to be accorded to contractors listed as debarred or suspended, as well as those listed as having been declared ineligible.

(b) This Part does not govern or otherwise apply to the exclusion of contractors from Federal grant or assistance programs, or prescribe policies or procedures governing declarations of ineligibility.

(c) For the purpose of this Part, the authorized representatives of the Secretaries are:

(1) in the Army, an Assistant Judge Advocate General;

(2) in the Navy, the Chief of Naval Material;

(3) in the Air Force, the Deputy Chief of Staff, Research, Development and Acquisition;

(4) in the Defense Logistics Agency, the General Counsel;

(5) in the National Security Agency, The Director;

(6) in the Defense Communications Agency, the General Counsel;

(7) in the Defense Nuclear Agency, the Director; and

(8) in the Defense Mapping Agency, the General Counsel.

1-601 Policy.

(a) Departments shall solicit bids and proposals from, award contracts to, renew or otherwise extend the duration of an existing contract, and approve or consent to subcontracts, with responsible contractors only. Debarment and suspension are discretionary actions which, taken in accordance with this Part, are appropriate means to effectuate this policy.

(b) The serious nature of debarment and suspension requires that they be imposed only in the public interest, for the Government's protection and not for purposes of punishment. Debarment and suspension shall be imposed to protect the Government's interest, and only for the causes and in accordance with the procedures set forth in this Part.

1-602 Definitions.

(a) *Adequate evidence* means information sufficient to support the reasonable belief that a particular act or omission has occurred.

(b) *Affiliates.* Business concerns or individuals are affiliates if, directly or indirectly, (1) either one controls or can control the other; or (2) a third controls or can control both.

(c) *Authorized representative* means an official who has been designated by and authorized to act on behalf of the Secretary concerned for the purposes of this Part (see 1-600(c)), including, but not limited to, acting as a debarring or suspending official.

(d) *Consolidated List of Debarred, Suspended and Ineligible Contractors* means a list compiled, maintained and distributed by the General Services Administration, containing the names of contractors that have been debarred or suspended by a department or agency of the Government, as well as contractors that have been declared ineligible pursuant to other regulatory, or statutory, authority.

(e) *Contractor* means any individual or other legal entity that: (1) submits bids or proposals for or is awarded, or reasonably may be expected to submit bids or proposals for or be awarded, a Government contract or a subcontract under a Government contract; or (2) conducts business with the Government as an agent or representative of another contractor.

(f) *Conviction* means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or plea, and includes a conviction entered upon a plea of nolo contendere.

(g) *Debarment* means action taken by a debarring official under 1-605 to exclude a contractor from Government contracting and Government-approved subcontracting for a reasonable, specified period; a contractor so excluded is *debarred*.

(h) *Debarring Official* means the Secretary concerned or an official authorized to impose debarment.

(i) *Indictment* means indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense shall be given the same effect as an indictment.

(j) *Ineligible*, as used in this Part, means excluded from Government contracting (and subcontracting, if appropriate) pursuant to statutory, Executive Order, or regulatory authority other than this Part or Subpart 1-1.6 of the Federal Procurement Regulations. For example, contractors excluded pursuant to the Davis-Bacon Act and its related statutes and implementing regulations, the

9150 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

1-602

ARMED SERVICES PROCUREMENT REGULATION

Service Contract Act, the Equal Employment Opportunity Acts and Executive Orders, the Walsh-Healey Public Contracts Act, the Buy American Act, and the Environmental Protection Acts and Executive Orders are *ineligible*.

(k) *Legal proceedings* mean any civil judicial proceeding to which the Government is a party or any criminal proceeding. The term also includes appeals from such proceedings.

(l) *Preponderance of the evidence* means proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

(m) *Suspending Official* means the Secretary concerned or an official authorized to impose suspension.

(n) *Suspension* means action taken by a suspending official under 1-605 to disqualify a contractor temporarily from Government contracting and Government-approved subcontracting; a contractor so disqualified is *suspended*.

1-603 Establishment and Maintenance of Records and Lists of Debarred, Suspended and Ineligible Contractors.

1-603.1 *Consolidated List of Debarred, Suspended and Ineligible Contractors.*

(a) The General Services Administration (GSA) is responsible for—

(1) compiling and maintaining a current, consolidated list of contractors debarred, suspended or declared ineligible by Federal agencies or by the General Accounting Office;

(2) revising and distributing the list quarterly and issuing monthly supplements to Federal agencies and the General Accounting Office; and

(3) providing in the list the name and telephone number of the official responsible for maintenance and distribution of the list.

(b) Each Department shall—

(1) notify GSA, within 5 working days after debarring or suspending a contractor or modifying or rescinding such an action, of the information set forth in 1-603.2;

(2) notify GSA of the names and addressees of the organizations within the Department that are to receive the consolidated list and the number of copies to be furnished to each; and

(3) direct inquiries concerning listed contractors to the agency or other Governmental authority that took the action.

1-603.2 *Departmental Records.* At a minimum, each Department shall maintain records relating to each contractor it has debarred or suspended that contain the following information:

(a) the contractor's name and address;

(b) the cause for the action (see 1-605 and 1-606);

(c) the effective date of the action and, in the case of debarments, the termination date for each listing; and

(d) the name and telephone number of the Department's point of contact for the action.

1-604 Effect of Listing.

1-604.1 *General.*

(a) Departments shall not solicit bids or proposals from, award contracts to, renew or otherwise extend the duration of an existing contract with, or approve or consent to subcontracts (when such approval or consent is required) with a contractor known to have been debarred or suspended by any Military Department or Federal agency, unless the Secretary concerned or his authorized representative grants an exception pursuant to (1) and (2) below. For the purpose of this Part, knowledge of the debarment or suspension of a contractor exists if there is actual knowledge of such status, as for example when such status is ascertained from the consolidated list.

(1) Prior to initiating a pre-award survey or any of the procurement actions set forth in (a) above, the consolidated list shall be reviewed. Bids received from any listed contractor in response to an Invitation for Bids shall be opened (see DAR 2-402), entered on the Abstract of Bids (see DAR 2-403), and rejected (see DAR 2-404) unless the Secretary concerned or his authorized representative determines in writing that there is a compelling reason to make an exception. Proposals, quotations or offers received from any listed contractor shall not be evaluated for award or included in the competitive range, and discussions shall not be conducted with such offeror, unless the Secretary concerned or his authorized representative determines in writing that there is a compelling reason to make an exception.

(2) When a Department makes an exception, a notice describing the exception shall be forwarded to the GSA Office of Acquisition Policy. Some examples of circumstances that may constitute a compelling reason include: (i) the property or services to be acquired are available only from the listed contractor; (ii) the urgency of the requirement dictates that the Department deal with the

Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations 9151

UMI 1983 MAR 3 ISS 43 VOL 48

contractor; (iii) the contractor and the Department have entered an agreement covering the same events which resulted in the listing and the agreement includes a decision by the Department not to debar or suspend the contractor; and (iv) for such other reasons related to the national defense which require continued business dealings with the listed contractor.

(b) Ineligible contractors are excluded from receiving contracts and, if applicable, subcontracts, under the conditions and for the period set forth in the applicable statute, Executive Order, or regulation. Departments shall not solicit bids or proposals from, award contracts to, renew or otherwise extend an existing contract with, or approve or consent to subcontracts (when such approval or consent is required) with a contractor known to be ineligible, for the period of the ineligibility, to the extent the particular procurement action is prohibited by the terms of the declaration.

1-604.2 *Continuation of Current Contracts.* Notwithstanding the listing of a contractor for the causes set forth in this Part, Departments may continue contracts or subcontracts in existence at the time the contractor was debarred or suspended, unless the Secretary concerned or his authorized representative directs otherwise. A decision as to the type of termination action, if any, to be taken should be made only after review by Departmental contracting and technical personnel and by counsel to assure the propriety of the proposed action.

1-604.3 *Restrictions on Subcontracting.* When a debarred or suspended contractor is proposed as a subcontractor for any subcontract subject to Government consent (see 7-104.23 and 7-203.8), consent shall not be given unless the Secretary concerned or his authorized representative states in writing the compelling reasons for the consent.

1-605 Debarment.

1-605.1 *General.*

(a) The debarring official may, in the public interest, debar a contractor for any of the causes contained in 1-605.2, using the procedures in 1-605.3. The existence of a cause for debarment under 1-605.2, however, does not necessarily require that the contractor be debarred; the seriousness of the contractor's acts or omissions and any mitigating factors should be considered in making any debarment decision.

(b) Debarment of a contractor constitutes debarment of all divisions or other organizational elements of the

contractor, unless the debarment decision is limited by its terms to specific divisions, organizational elements, or commodities. Debarment extends to affiliates of the contractor, only if they are (1) specifically named and (2) given written notice of the proposed debarment and an opportunity to respond (see 1-605.3(c)).

(c) A contractor's debarment shall be effective throughout the executive branch of the Government, unless the Secretary of the Military Department or other Federal agency taking the procurement action, or his authorized representative, states in writing the compelling reason for continued business dealings between that Department or agency and the contractor.

(d) If no suspension is in effect under 1-606 at the time debarment is proposed by a Department, bids or proposals shall not be solicited from, contracts shall not be awarded to, existing contracts shall not be renewed or otherwise extended with, and subcontracts shall not be consented to or approved for the contractor by any DoD component pending a debarment decision unless the Secretary concerned or his authorized representative states in writing the compelling reason to do so.

1-605.2 *Causes for Debarment.* The debarring official may debar a contractor for any of the causes listed in (a) through (c) following:

(a) conviction of or civil judgment for—

(1) commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public contract or subcontract;

(2) violation of Federal or State antitrust statutes relating to the submission of bids or proposals; or

(3) commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; or

(4) commission of any other offense indicating a lack of business integrity or business honesty which seriously and directly affects the present responsibility of a Government contractor or subcontractor.

(b) violation of the terms of a Government contract or subcontract so serious as to justify debarment, such as—

(1) willful failure to perform in accordance with the terms of one or more contracts; or

(2) a history of failure to perform, or of unsatisfactory performance of, one or more contracts.

(c) Any other cause of so serious or compelling a nature that it affects the present responsibility of a Government contractor or subcontractor.

1-605.3 *Procedures.*

(a) *Investigation and Referral.* Matters appropriate for the debarring official's consideration shall be reported promptly to that official in accordance with the provisions of 1-608.

(b) *Decisionmaking Process.*

(1) Any Departmental procedures that may be established to implement the debarment decisionmaking process of this Part shall be as informal as practicable.

(2) The contractor (and any specifically named affiliates) shall be given an opportunity to submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment.

(3) In actions not based upon a conviction or judgment, if it is found that the contractor's submission in opposition raises a genuine dispute over facts material to the proposed debarment, factfinding shall be conducted. The official conducting the factfinding shall—

(i) afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the Department presents; and

(ii) ensure that a record of the factfinding is transcribed and made available at cost to the contractor upon request, unless the contractor and the Department, by mutual agreement, waive the requirement for a transcript.

(c) *Notice of Proposal to Debar.* The contractor and any specifically named affiliates shall be advised, by certified mail, return receipt requested—

(1) that debarment is being considered;

(2) of the reasons for the proposed debarment in terms sufficient to put the contractor on notice of the conduct or transaction(s) upon which it is based;

(3) of the cause(s) relied upon under 1-605.2 for proposing debarment;

(4) that, within 30 days after the receipt of the notice, the contractor may submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment, including any additional specific information that raises a genuine dispute over the material facts;

(5) that the Department's procedures governing debarment decisionmaking are contained in Section I, Part 6 of the Defense Acquisition Regulation;

(6) of the potential effect of the proposed debarment; and

(7) if no suspension is in effect under 1-606, that bids or proposals shall not be solicited from, contracts shall not be awarded to, existing contracts shall not be renewed or otherwise extended, and subcontracts shall not be consented to or approved for the contractor by any Department pending a debarment decision unless the Secretary concerned or his authorized representative states in writing the compelling reason to do so.

(d) *Debarring Official's Decision.*

(1) In actions based upon a conviction or judgment, or in which there is no genuine dispute over material facts, the debarring official shall make a decision on the basis of all the information in the administrative record, including any submission made by the contractor. If no suspension is in effect under 1-606, the decision shall be made within 30 working days after receipt of any information and argument submitted by the contractor, unless the debarring official extends this period for good cause.

(2) In actions in which factfinding is conducted as to disputed material facts, written findings of fact shall be prepared. The debarring official shall base the decision on the facts as found, together with any information and argument submitted by the contractor and any other information in the administrative record.

(i) The debarring official may refer matters involving disputed material facts to another official for findings of fact. The debarring official shall accept any such findings unless he specifically determines them to be arbitrary and capricious or clearly erroneous.

(ii) The debarring official's decision shall be made after the conclusion of factfinding with respect to disputed facts.

(3) In any action in which the proposed debarment is not based upon a conviction or civil judgment, the facts establishing the cause for debarment must be proved by a preponderance of the evidence.

(e) *Notice of Debarring Official's Decision.*

(1) If the debarring official decides to impose debarment, the contractor and any affiliates involved shall be given prompt notice by certified mail, return receipt requested—

(i) referring to the notice of proposed debarment;

(ii) specifying the reasons for debarment;

(iii) stating the period of debarment, including effective dates (see 1-605.4); and

Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations 9153

(iv) advising that the debarment is effective throughout the executive branch of the Government unless the Secretary of the Military Department or other Federal agency taking the procurement action, or his authorized representative, states in writing the compelling reason for continued business dealings between that Department or agency and the contractor.

(2) If debarment is not imposed, the debarring official shall promptly notify the contractor and any affiliates involved of that decision, by certified mail, return receipt requested.

1-605.4 *Period of Debarment.*

(a) Debarments shall be for a period sufficient to protect the Government's interest. Generally, a debarment should not exceed 3 years. If suspension precedes a debarment, the suspension period shall be considered in determining the debarment period.

(b) The debarring official may extend the debarment for an additional period, if that official determines that an extension is necessary to protect the Government's interest. However, a debarment may not be extended solely on the basis of the facts and circumstances upon which the initial debarment action was based. If debarment for an additional period is determined to be necessary, the procedures of 1-605.3 above shall be followed to extend the debarment.

(c) The debarring official may reduce the period or extent of debarment, upon the contractor's request, supported by documentation, for reasons such as—

(1) newly discovered material evidence;

(2) reversal of the conviction or judgment upon which the debarment was based;

(3) bona fide change in ownership or management; or

(4) elimination of other causes for which the debarment was imposed.

1-605.5 *Scope of Debarment.*

(a) The fraudulent, criminal, or other seriously improper conduct of any officer, director, shareholder, partner, employee, or other individual associated with a contractor may be imputed to the contractor when the conduct occurred in connection with the individual's performance of duties for or on behalf of the contractor, or with the contractor's knowledge, approval, or acquiescence. The contractor's acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

(b) The fraudulent, criminal, or other seriously improper conduct of a contractor may be imputed to any officer, director, shareholder, partner, employee, or other individual associated with the contractor who participated in, knew of, or had reason to know of, the contractor's conduct.

(c) The fraudulent, criminal, or other seriously improper conduct of one contractor participating in a joint venture or similar arrangement may be imputed to other participating contractors if the conduct occurred for or on behalf of the joint venture or similar arrangement or with the knowledge, approval, or acquiescence of these contractors. Acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

1-606 Suspension.

1-606.1 *General.*

(a) The suspending official may, in the public interest, suspend a contractor for any of the causes in 1-606.2, using the procedures in 1-606.3.

(b) Suspension is a serious action to be imposed on the basis of adequate evidence, pending the completion of an investigation or legal proceedings, when it has been determined that immediate action is necessary to protect the Government's interest. In assessing the adequacy of the evidence, consideration should be given to how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as contracts, inspection reports, and correspondence.

(c) Suspension constitutes suspension of all divisions or other organizational elements of the contractor, unless the suspension decision is limited by its terms to specific divisions, organizational elements, or commodities. The suspending official may extend the suspension decision to include any affiliates of the contractor if they are (1) specifically named and (2) given written notice of the suspension and an opportunity to respond (see 1-606.3(c)).

(d) A contractor's suspension shall be effective throughout the Executive branch of the Government, unless the Secretary of the Military Department or other Federal agency taking the procurement action, or his authorized representative, states in writing the compelling reason for continued business dealings between that Department or agency and the contractor.

9154 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

1-606.2 *Causes for Suspension.*

(a) The suspending official may suspend a contractor suspected, upon adequate evidence, of—

(1) commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public contract or subcontract;

(2) violation of Federal or State antitrust statutes relating to the submission of bids or proposals;

(3) commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; or

(4) commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of a Government contractor or subcontractor.

(b) Indictment for any of the causes in paragraph (a) above constitutes adequate evidence for suspension.

(c) The suspending official may upon adequate evidence also suspend a contractor for any other cause of so serious or compelling a nature that it affects the present responsibility of a Government contractor or subcontractor.

1-606.3 *Procedures.*

(a) *Investigation and Referral.* Matters appropriate for the suspending official's consideration shall be reported promptly to that official in accordance with the provisions of 1-608.

(b) *Decisionmaking Process.*

(1) Any Departmental procedures that may be established to implement the suspension decisionmaking process shall be as informal as practicable. These procedures shall afford the contractor (and any specifically named affiliates) an opportunity, following the imposition of suspension, to submit, in person, in writing or through a representative, information and argument in opposition to the suspension.

(2) In actions not based on an indictment, if it is found that the contractor's submission in opposition raises a genuine dispute over facts material to the suspension and if no determination has been made, on the basis of Department of Justice advice, that substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced, factfinding shall be conducted. The official conducting factfinding shall—

(i) afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses and confront any person the Department presents; and

(ii) ensure that a record of the factfinding is transcribed and made available at cost to the contractor upon request, unless the contractor and the Department, by mutual agreement, waive the requirement for a transcript.

(c) *Notice of Suspension.* When a contractor and any specifically named affiliates are suspended, they shall be immediately advised by certified mail, return receipt requested—

(1) that they have been suspended and that the suspension is based on an indictment or other adequate evidence that the contractor has committed irregularities (i) of a serious nature in business dealings with the Government, or (ii) seriously reflecting on the propriety of further Government dealings with the contractor; any such irregularities shall be described in terms sufficient to place the contractor on notice without disclosing the Government's evidence;

(2) that the suspension is for a temporary period pending the completion of an investigation and such legal proceedings as may ensue;

(3) of the cause(s) relied upon under 1-606.2 for imposing suspension;

(4) of the effect of the suspension (see 1-606.1(d));

(5) that, within 30 days after receipt of the notice, the contractor may submit, in person, in writing or through a representative, information and argument in opposition to the suspension, including any additional specific information that raises a genuine dispute over material facts; and

(6) that factfindings to determine disputed material facts will be conducted unless (i) the action is based on an indictment or (ii) a determination is made, on the basis of Department of Justice advice, that the substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.

(d) *Suspending Official's Decision.*

(1) In actions (i) based on an indictment, (ii) in which the contractor's submission does not raise a genuine dispute over material facts; or (iii) in which factfinding to determine disputed material facts has been denied on the basis of Department of Justice advice, the suspending official's decision shall be based on all the information in the administrative record, including any submission made by the contractor.

UMI
1983
MR
3
ISS
43
VOL
48

(2) In actions in which factfinding is conducted as to disputed material facts, written findings of fact shall be prepared. The suspending official shall base the decision on the facts as found, together with any information and argument submitted by the contractor and any other information in the administrative record.

(i) The suspending official may refer matters involving disputed material facts to another official for findings of fact. The suspending official shall accept any such findings, unless he specifically determines them to be arbitrary and capricious or clearly erroneous.

(ii) The suspending official's decision shall be made after the conclusion of factfinding with respect to disputed facts.

(3) The suspending official may modify or terminate the suspension or leave it in force (for sample reasons, see 1-605.4(c)). However, a decision to modify or terminate the suspension shall be without prejudice to the subsequent imposition of suspension by any other Department or the imposition of debarment by any Department.

(4) Prompt written notice of the suspending official's decision shall be sent to the contractor by certified mail, return receipt requested.

1-606.4 *Period of Suspension.*

(a) Suspension shall be for a temporary period pending the completion of investigation and any ensuing legal proceedings, unless sooner terminated by the suspending official or as provided in this paragraph 1-606.4.

(b) If legal proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated unless an Assistant Attorney General requests its extension, in which case it may be extended for an additional 6 months. In no event may a suspension extend beyond 18 months, unless legal proceedings have been initiated within that period.

(c) The suspending official shall notify the Department of Justice of the proposed termination of the suspension at least 30 days before the 12-month period expires to give it an opportunity to request an extension.

1-606.5 *Scope of Suspension.*

The scope of suspension shall be the same as that for debarment (see 1-605.5), except that the procedures of 1-606.3 shall be used in imposing the suspension.

1-607 Interchange of Information. Debarment or suspension of a contractor by one Department can have an adverse impact on the missions of other Departments with which the contractor does business. Accordingly, if it appears that there is the potential for such an adverse impact, the cognizant debarring or suspending official should solicit the comments of those Departments that he believes could be affected before taking action. A Department that believes it could be affected by the proposed action should comment directly to the cognizant debarring or suspending official. If several Departments independently are contemplating a debarment or suspension action against the same contractor, consideration should be given to designating one Department as the lead agency for making the decision.

1-608 Reporting.

1-608.1 *Situations Where Reports Are Required.* A report incorporating the information required by 1-608.2 shall be prepared by the contracting officer when:

(i) a contractor has committed, or is suspected of having committed, any of the acts described in 1-605.2 and 1-606.2;

(ii) a report is required by 1-111.1 (this does not concern reports required to be submitted to the Department of Justice on identical bids under Executive Order 10936, dated 24 April 1961 (see 1-114));

(iii) a report is required by 1-508.4 (contingent fees);

(iv) a report is required by 8-207 (termination settlements);

(v) Buy American Act violations are suspected (see 18-510); or

(vi) a contractor is suspected of attempting to evade the prohibitions or debarments or suspensions imposed under this Regulation by changes of address, multiple addresses, formation of new companies, or by other devices.

1-608.2 *Contents of Reports.* Each report prepared pursuant to 1-608 shall contain the name and telephone number of the individual assigned to the case as the point of contact for the activity making the report, and shall include substantially the following information, where available:

(i) name and address of the contractor;

(ii) names of the principal officers, partners, owners, or managers;

(iii) all known affiliates, subsidiaries, or parent firms, and the nature of the affiliation;

(iv) description of the contract or contracts concerned, including the contract number, and all office identifying numbers or symbols, the amount of each contract, the degree of completion, the amount paid the contractor and the amount still due, and the percentage of work to be completed;

(v) the status of vouchers;

(vi) whether the contract has been assigned pursuant to the Assignment of Claims Act, and if so assigned, the name and address of the assignee and a copy of the assignment;

(vii) whether any other contracts are outstanding with the contractor or any of his affiliates, and if so, the amount of such contracts, whether they are assigned pursuant to the Assignment of Claims Act, and the amounts paid or due on such contracts;

(viii) a complete summary of all pertinent evidence;

(ix) a recommendation as to the continuation of all current contracts with a full explanation of the reason for such recommendation, or if no recommendation is made, the reason therefor;

(x) an estimate of damages, if any, sustained by the Government as a result of the action of the contractor, including an explanation of the method used in making the estimate;

(xi) the comments and recommendations of the contracting officer and of each successive echelon as to (A) whether the contractor should be suspended or debarred, (B) whether any limitations should be applied to such action, and (C) the period of any debarment; and

(xii) as an inclosure, a copy of the contract (or contracts) or pertinent excerpts therefrom, appropriate exhibits, testimony or statements of witnesses, copies of assignments, and other relevant documentation, such as affidavits, copies of investigative reports and certified copies of indictments and judgments.

1-608.3 *Addresses and Copies of Reports.* Reports shall be submitted in three complete copies, including inclosures, to the authorized representatives of the Secretaries concerned (see 1-600(c)), unless otherwise provided by Departmental procedures. Additional copies without inclosures may be required by Departmental procedures for other addressees.

1-609 Procurement Outside United States.

1-609.1 *General.* The foregoing provisions of this Part shall be applied by overseas commanders to procurement outside the United States and its possessions, whenever possible, and as modified by the following provisions, with due consideration to laws or customs of the foreign countries concerned.

1-609.2 *Responsibilities and Area Coverage.* The Commander in Chief, United States European Command (CINCEUR), the Commander in Chief, Pacific (CINCPAC) and the Commander in Chief, Southern Command (USCINCSO), or the Commanders of a component command which each of these unified commanders may designate, shall establish and maintain a consolidated list of offshore suppliers to whom contracts will not be awarded and from whom bids or proposals will not be solicited. The CINCEUR consolidated list will include names in the North Atlantic and Mediterranean areas, including all of Europe, North Africa, and the Middle East. The CINCPAC consolidated list

will include names in the Far East and Pacific Ocean areas, excluding the United States and its possessions. The USCINCSO consolidated list will include names in Central and South America, excluding possessions. All other overseas commanders shall utilize and contribute to such lists as appropriate to their geographical location or areas in which they award contracts. Lists shall not be established or maintained except as provided above.

1-609.3 *Information Contained on Overseas Lists.* The list shall show as a minimum the following information:

(i) names and addresses of those contractors to whom contracts shall not be awarded and from whom bids or proposals shall not be solicited (Names will be set forth alphabetically with appropriate cross reference where more than one name is involved in a single action or where a parent contractor in one country is known to control subsidiaries, branches, or agencies in the same or other countries.);

(ii) basis or authority for each action;

(iii) extent of restrictions imposed;

(iv) termination date for each debarred listing; and

(v) originating activity, component, or agency.

1-609.4 *Maintenance and Distribution of Lists.* The lists shall be kept current by issuance of notices of additions or deletions and by periodic reprinting. Copies of the lists shall be distributed to contracting officers as the unified commanders and their component commanders direct. CINCEUR, CINCPAC, and CINCSOUTH shall exchange lists directly. Copies shall also be furnished the Deputy Under Secretary of Defense (Acquisition Management), OUSD(R&E), the Assistant Secretary of Defense (International Security Affairs), and the authorized representative of the Secretaries (see 1-600(c)).

1-609.5 *Basis of Addition of Contractors to Lists.* In addition to the names of offshore contractors which may be included on the lists as falling into the categories outlined in 1-604, the names of contractors abroad shall be included on the list in the following additional categories:

(i) those who are "designated nationals" under the Foreign Assets Control Regulations;

(ii) those found by the Assistant Secretary of Defense (International Security Affairs) or his authorized representative to have engaged in improper East-West trade activity;

(iii) those found by the Assistant Secretary of Defense (International Security Affairs) or his authorized representative to be ineligible because they do not meet the political or security criteria;

(iv) those found by the United States Diplomatic Mission or a Country Team (consisting of members of the United States Diplomatic Mission in the country or countries in which the contractors are located) to be ineligible because they do not meet the labor-political criteria; and

(v) those who for other causes of a serious and compelling nature are so designated by the unified commander.

1–609.6 *Treatment To Be Accorded Contractors in Debarred or Ineligible Status.* The provisions of 1–604 shall be complied with, if applicable. In addition, contracts shall not be awarded to, nor shall bids or proposals be solicited from or furnished to contractors abroad which come within the categories in 1–609.5. With respect to 1–609.5(i), an exception may be made only by the Secretary of the Treasury. With respect to 1–609.5 (ii), (iii), and (iv), an exception may be made by the Assistant Secretary of Defense (International Security Affairs) or his authorized representative.

1–609.7 *Causes and Conditions For Which Unified Commanders May Place Names on the Consolidated List.* CINCEUR, CINCPAC, and CINCSOUTH, or their designated component commanders are authorized to place on the list names of contractors doing business within the areas for which they are responsible, for any of the causes and under the conditions set forth in 1–609.5 and 1–609.6. Overseas commanders or unified commanders overseas other than CINCEUR, CINCPAC, and CINCSOUTH, are similarly authorized to designate contractors in their command areas and shall promptly notify CINCEUR, CINCPAC, or CINCSOUTH, as appropriate, of such action, furnishing the information required by 1–609.3. CINCEUR, CINCPAC, or CINCSOUTH shall add the names to his consolidated list. The listing shall operate to deny contracts and subcontracts (when Government approval is required) to such contractors throughout the Department of Defense. Unified commanders shall be notified of the action based on causes and under conditions set forth in 1–609.5 and 1–609.6 through the "Economic Defense List," transmitted by the Department of Commerce through State Department channels, which contains the names of contractors affected or by direct communication from the Office of the Assistant Secretary of Defense (International Security Affairs).

1–609.8 *Liaison With United States Diplomatic Missions.* The Chief of the United States Diplomatic Mission, or such attache or other officer as he directs, in the country where the contractor concerned is located, shall be notified of actions contemplated under the foregoing paragraphs which may have important political significance. In cases of contemplated action against a branch or subsidiary in one or more countries, the Chief of the United States Diplomatic Mission in each country, including that in which the parent or principal is located, will be notified.

1–610 Use of Lists.

(a) Due to the length of the lists, the numerous revisions, and the distances involved, as well as the infrequent contracting by offices with suppliers outside their respective areas, the United States, CINCEUR, CINCPAC, and CINCSOUTH consolidated lists shall not be distributed to contracting officers outside the area covered by the respective lists. However, no contracts shall be awarded by contracting officers to suppliers without ascertaining that the names of the contractors involved do not appear on the consolidated list for the geographical area in which the contractor is located. All lists shall be held for reference in each of the Departments, and in offices designated by CINCEUR, CINCPAC, and CINCSOUTH, and shall be utilized in accordance with procedures established by them.

(b) When a contracting officer becomes aware that a prospective contractor proposes to furnish products of a concern that has been placed on an overseas list in accordance with 1–609.5(i), (iii), or (v), the matter shall be referred to the authorized representatives of the Secretaries concerned.

9158 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

UMI 1983 MR 3 ISS 43 VOL 48

1-903.4 *Ability to Meet Certain Minimum Standards.* Except to the extent that a prospective contractor proposes to perform the contract by subcontracting (see 1-906), acceptable evidence of his "ability to obtain" such things as resources, equipment, facilities, and personnel (see 1-903.1(i) and 1-903.2) shall normally be a commitment or explicit arrangement, which will be in existence at the time the contract is to be awarded, for the rental, purchase or other acquisition of such resources, equipment, facilities, or personnel.

1-904 Determinations of Responsibility and Nonresponsibility.

1-904.1 *Requirement.* No purchase shall be made from, and no contract shall be awarded to, any person or firm unless the contracting officer first makes an affirmative determination that the prospective contractor is responsible within the meaning of 1-902. The signing of the contract by the contracting officer constitutes such a determination; therefore, he must assure himself that the applicable requirements of 1-903 are met before signing the contract or order. When a certificate of competency has been issued, the factors covered by the certificate of competency may be accepted by the contracting officer without further inquiry. When a bid or offer on which an award would otherwise be made is rejected because the prospective contractor is found to be nonresponsible, a determination of nonresponsibility shall be made, signed, and placed in the file. The determination of nonresponsibility shall set forth the basis of the determination. In making a determination of responsibility or nonresponsibility for purchase or contract awards of $100,000 and over, performance data should be acquired and considered when the contracting officer deems it necessary. Supporting documents or reports, including any pre-award survey reports (see 1-905.4) and SBA certificate of competency (see 1-705.4), shall be included in the contract file.

1-904.2 *Affiliated Concerns.*

(a) Affiliated concerns (see 2-201(a)B(ii) and (b)(xvii) shall be considered as separate entities in determining whether the one of them which is to perform the contract meets the applicable standards for a responsible prospective contractor (but see 1-701.1 with respect to status as a small business concern).

(b) Notwithstanding the above, the record of performance and integrity of affiliated concern which may adversely affect the responsibility of the prospective contractor shall be considered by the contracting officer when making a determination of responsibility.

1-904.3 *Acquisitions From Concerns in Qualifying Countries.* Awards to concerns in qualifying countries are subject to this Part 9 (see 6-1403.1(b)). A Canadian firm proposed by the Canadian Commercial Corporation (CCC) as its subcontractor generally shall be accepted by the contracting officer under the provisions of 1-906 as the basis for his determination under 1-904.1. In cases where the firm proposed by CCC is so accepted, pre-award survey forms need not be completed. When the CCC proposal is not consistent with other information which may be available to the contracting officer, he shall request from CCC and any other sources whatever additional information or plant surveys he may deem necessary to make the determination of responsibility of sources proposed by CCC. Such additional data may be requested on the pre-award survey forms or on any other forms. Upon request, CCC shall be furnished an explanation of the reasons for rejection of its proposed firm.

1-905 Procedures for Determining Responsibility of Prospective Contractors.

1-905.1 *General.*

(a) Before making a determination of responsibility (see 1-904), the contracting officer shall have in his possession or obtain information sufficient to satisfy himself that a prospective contractor currently meets the minimum standards set forth in 1-903, to the extent that such standards are applicable to a specific procurement.

(b) Maximum practicable use shall be made of currently valid information on file or within the knowledge of personnel in the Department of Defense. Each Department, shall at such level and manner as it deems appropriate, maintain useful records and experience data for the guidance of contracting officers in the placement of new procurement, and shall inform its contracting officers and the other Departments of the means of access thereto. Notwithstanding this direction contract administration offices shall maintain files of information reflecting upon the ability of contractors to perform Government contracts successfully.

(c) Any purchasing office becoming aware of circumstances which, for any reason, casts doubt upon the ability of a contractor to perform contracts successfully, shall immediately advise the cognizant contract administration office. A contract administration office, upon being notified by a purchasing office of unfavorable information affecting a contractor under its cognizance, or upon developing unfavorable information during the course of contract administration activities, shall advise the purchasing offices of the other Departments. When a contract administration office is requested to perform a pre-award survey and it has been notified of the existence of unfavorable information relative to the contractor, it shall obtain the details including full supporting information. Careful and full consideration shall be given such information. If a contract administration office becomes aware of a prospective contract award to a contractor about whom unfavorable information exists and no pre-award survey has been requested, it shall (i) immediately notify the purchasing office concerned, and (ii) secure the details of such unfavorable information as if it were performing a pre-award survey and advise the purchasing office concerned. The purchasing office shall give full consideration to such advice in determining whether an award should be made.

(d) Generally, information necessary to make determinations of responsibility shall be obtained only concerning prospective contractors within range for an award.

1-905.2 *When Information Will Be Obtained.* Generally, information regarding the responsibility of a prospective contractor (including pre-award surveys (see 1-905.4) when deemed necessary) shall be obtained promptly after bid opening or receipt of proposals. However, in negotiated procurements, especially those involving research and development, such information may be obtained before the issuance of requests for proposals. Notwithstanding the foregoing, information regarding financial resources (see 1-903.1(i)) and performance capability (see 1-903.1 (ii)) shall be obtained on as current a basis as feasible with relation to the date of contract award.

1-905.3 *Sources of Information.* Information regarding the responsibility of prospective contractors shall be sought among the following sources:

(i) The Consolidated List of Debarred, Suspended and Ineligible Contractors (see 1-604.1(a)).

GENERAL PROVISIONS

1-906 Subcontractor Responsibility.

(a) To the extent that a prospective contractor proposes to perform the contract by subcontracting, determinations of prospective subcontractors' responsibility may be necessary in order to determine the responsibility of the prospective prime contractor. Determinations concerning prospective subcontractor's responsibility shall generally be a function performed by the prospective prime contractor. (But see 1-604.3.) A prospective prime contractor may be required to (i) indicate, in writing, the responsibility of proposed subcontractors, or (ii) show evidence of an acceptable and effective purchasing and subcontracting system which encompasses a method for determining subcontractor capability.

(b) Notwithstanding the general responsibility of a prospective contractor to demonstrate the responsibility of his prospective subcontractors, it may be in the Government's best interest to make a direct determination of the responsibility of one or more prospective subcontractors prior to award of the prime contract. Examples of when this may be particularly suitable are the procurements of (i) medical items, (ii) supplies or services which are so urgently needed that it is necessary for the Government to go beyond the normal process in determining contractor responsibility, and (iii) supplies or services, a substantial portion of which will be subcontracted. The determination of responsibility of a proposed subcontractor by the Government shall be based on the same factors as are applicable in a determination of responsibility of a prospective prime contractor.

1-907 Disclosure of Pre-Award Data. Except as provided in 1-329, data including information obtained from a pre-award survey, accumulated for purposes of determining the responsibility of a prospective contractor shall not be released outside the Government and shall not be made available for inspection by individuals, firms, or trade organizations (see 1-329.3(c)(5)). Such data may be disclosed to, or summarized for, other elements within the Government on their request, and shall be made available to Department of Defense procurement personnel upon request in accordance with 1-905.1. Prior to making a determination of responsibility, such data may be discussed with the prospective contractor as determined necessary by the purchasing office. After an award, the findings of the pre-award survey may be discussed by the contracting officer with the company surveyed as provided in 2-408 and 3-508, or if appropriate, by the head of the contract administration office or his designee.

GENERAL PROVISIONS

Part 10—Publicizing Procurement Actions

1-1001 General Policy. It is Department of Defense policy to increase competition by publicizing procurements which offer competitive opportunities for prospective prime contractors or subcontractors, thus assisting small business and labor surplus area concerns and broadening industry participation in Defense procurement programs.

1-1002 Dissemination of Information Relating to Invitations for Bids and Requests for Proposals.

1-1002.1 *Availability of Invitations for Bids and Requests for Proposals at the Contracting Office.* A reasonable number of copies of invitations for bids and requests for proposals, which are required to be publicized in the *Commerce Business Daily*, including specifications and other pertinent information, shall be maintained at the contracting office. Upon request, prospective contractors not initially solicited may be mailed or otherwise provided copies of such invitations for bids or requests for proposals to the extent they are available. However, for any contract to be let by any department, it shall provide to any small business concern upon its request: (i) a copy of bid sets and specifications with respect to such contract; (ii) the name and telephone number of an employee of such department to answer questions with respect to such contract; and (iii) adequate citations to each major Federal law or departmental rule with which such business concern must comply in performing such contract. When a solicitation for proposals has been limited as a result of a determination that only a specified firm or firms possess the capability to meet the requirements of an acquisition, requests for proposals shall be mailed or otherwise provided upon request for firms not solicited, but only after advice has been given to the firm making the request as to the reasons for the limited solicitation and the unlikelihood of any other firm being able to qualify for a contract award under the circumstances; but see 4-106.2. In addition, to the extent that invitations for bids or requests for proposals are available, they shall be provided on a "first-come-first-served" basis, for pick up at the contracting office, to publishers, trade associations, contracting information services, and other members of the public having a legitimate interest therein (for construction, see 18-205(c)); otherwise the contracting office will make copies available to members of the public pursuant to Appendix L. In determining the "reasonable number" of copies to be maintained, the contracting officer shall consider, among other things, the extent of initial solicitation, reproduction costs, the nature of the acquisition, whether access to classified matter is involved, the anticipated requests for copies based upon responses to synopses and other means of publication in previous similar situations, and the fact that publishers and others who disseminate information regarding proposed acquisitions normally

PROCUREMENT BY NEGOTIATION

UMI

1983

MR - 3

ISS 43

VOL 48 43

SECTION III

PROCUREMENT BY NEGOTIATION

Part 1—Use of Negotiation

3-100 Scope of Part. This Part deals with the nature and use of negotiation as distinguished from formal advertising, and with limitations upon that use.

3-101 General.

(a) Pursuant to the authority of 10 U.S.C. 2304(a), procurement may be effected by negotiation under any one of the exceptions (1) through (17) set forth in Part 2 of this Section. However, procurement shall be made by formal advertising when such method is feasible and practicable, even though existing conditions and circumstances would otherwise satisfy the requirements of Part 2 of this Section.

(b) When supplies or services are to be procured by negotiation, offers shall be solicited from the maximum number of qualified sources consistent with the nature and requirements of the supplies or services to be procured.

(c) No contract shall be entered into as a result of negotiation unless a business clearance or approval as is prescribed by applicable Departmental procedures has been obtained.

(d) Negotiated procurements shall be on a competitive basis to the maximum practical extent. When a proposed procurement appears to be necessarily noncompetitive, the contracting officer is responsible not only for assuring that competitive procurement is not feasible, but also for acting whenever possible to avoid the need for subsequent noncompetitive procurements. This action should include both examination of the reasons for the procurement being noncompetitive and steps to foster competitive conditions for subsequent procurements, particularly as to the availability of complete and accurate data, reasonableness of delivery requirements (1-305.2(a)), and possible breakout of components for competitive procurement. Except for procurement of electric power or energy, gas (natural or manufactured), water, or other utility services, and procurement of educational services from nonprofit institutions, contracts in excess of $25,000 shall not be negotiated on a noncompetitive basis without prior review at a level higher than the contracting officer to assure compliance with this subparagraph.

3-102 Reserved.

3-103 Records and Reports of Negotiated Contracts. In addition to the records and reports described in 1-308, 3-211.4, and 3-216.4, each Department is required to maintain a record of the total value of all contracts negotiated by it during each fiscal year under each of the circumstances permitting negotiation enumerated in Section III, Part 2. These records, and reports based thereon, are maintained through the Department of Defense Procurement reporting system described in 1-110 and Section XXI, Part 1.

3-104 Aid to Small Business and Minority Concerns in Negotiated Procurements. When negotiation is conducted, consideration shall be given to the size

and minority status of the business concerns, and when subcontracting is consistent with the best interests of the Government, the extensive use of subcontractors shall be a favorable factor. See Section I, Part 7, and 1-322.

3-105 Aid to Labor Surplus Area Concerns in Negotiated Procurements. When negotiation is conducted, consideration shall be given as to whether the prospective supplier is a labor surplus area concern. See Section I, Part 8.

3-106 Presolicitation Notices and Conferences.

3-106.1 *General.* This Part describes a procedure which may be used as a preliminary step to negotiated procurements where the cost of preparing a formal solicitation and response would be substantial for both the Government and industry. This procedure is designed to develop sources for procurement; permit the Government to solicit for preliminary information based on a general description of the supplies or services involved; permit prospective offerors to submit proposals without undue expenditure of effort, time, and money; and to explain complicated specifications and requirements to interested firms. The presolicitation conference shall not be used as a method for prequalification of offerors, and may be used only when approved at a level higher than the contracting officer.

3-106.2 *Presolicitation Procedure.*

(a) When a presolicitation notice is used it shall be prepared by the contracting officer and forwarded to all known potential offerors. It shall at least request an expression of interest in the contemplated procurement and shall designate a time for submission of responses. In cases of complex procurement, it may also request information pertaining to management, engineering, and production capabilities. Each notice shall define as explicitly as possible the information to be furnished by the offeror and shall indicate whether it is contemplated that the presolicitation notice will be followed by a conference and a formal solicitation. Detailed drawings, specifications, or plans shall not normally be included in a presolicitation notice. The presolicitation notice shall be synopsized in accordance with 1-1003. See 1-309 for solicitations for informational or planning purposes; 2-205.6 for pre-invitation notices in formally advertised procurements; and 2-207 and 3-504 for pre-bid and pre-proposal conferences, respectively.

(b) All of those responding to the presolicitation notice shall be advised of the details of any pending presolicitation conference. The presolicitation conference shall be conducted by procurement personnel, and attended by technical and legal personnel as appropriate. All prospective offerors attending the conference shall be furnished copies of the solicitation, unless they decline to participate in the procurement. If it is determined to proceed with the procurement without a conference, those responding to the presolicitation notice shall be furnished a formal solicitation, except those who decline to participate. In addition, a copy of the solicitation shall be furnished to any prospective offeror who requests one (but see 1-604 and 1-609.6).

(c) All prospective contractors shall be furnished identical information in connection with the proposed procurement. Care shall be taken to safeguard any information received in confidence. (See 1-1004.)

3-107 Offeror Response Time. The guidance in 2-202.1 shall be applied to negotiated procurements.

Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations 9161

sidered final for the affected contract closed prior to the final overhead settlement. No adjustment shall be made against, or the affect of any quick closeout allowed to impact, other contracts for any over or under recovery disclosed at the time of final overhead rate determination.

Part 8—Price Negotiation Policies and Techniques

3-800 Scope of Part. This Part sets forth the price negotiation policies and techniques applicable to negotiated prime contracts and those subcontracts which are subject to consent by the Government. The principles in this Part apply to negotiation of prices on all types of contracts and to revised prices as well as initial prices.

3-801 Basic Policy.

3-801.1 *General.* It is the policy of the Department of Defense to procure supplies and services from responsible sources at fair and reasonable prices calculated to result in the lowest ultimate overall cost to the Government. Good pricing depends primarily upon the exercise of sound judgment by all personnel concerned with the procurement.

3-801.2 *Responsibility of Contracting Officers.*

(a) Contracting officers, or their authorized representatives acting within the scope of their authority, are the exclusive agents of their respective Departments to enter into and administer contracts on behalf of the Government in accordance with ASPR and Departmental procedures. Each contracting officer is responsible for performing or having performed all administrative actions necessary for effective contracting. The contracting officer shall avail himself of all appropriate organizational tools such as the advice of specialists in the fields of contracting, finance, law, contract audit, packaging, engineering, traffic management, and price analysis.

(b) To the extent services of specialists are utilized in the negotiation of contracts, the contracting officer must coordinate a team of experts, requesting advice from them, evaluating their counsel, and availing himself of their skills. He shall not, however, transfer his own responsibilities to them. Thus, determination of the suitability of the contract price to the Government always remains the responsibility of the contracting officer. For certain acquisitions, it may be necessary to convene a formal "Should Cost" (see 1-337) team of specialists to evaluate the contractor's cost projections, supporting standards, and other in-plant management, operational, and performance practices, on which cost projections are based.

(c) When the contractor insists on a price or demands a profit or fee which the contracting officer considers unreasonable, the contracting officer shall (i) determine the feasibility of developing an alternate source of supply, or (ii) take any other action within his authority. If, after exhausting the above course of action, a satisfactory solution has not been obtained, the contracting officer shall refer the prospective procurement to higher authority. Such referral shall include a complete statement of the attempt made to resolve the matter. With regard to a contractor's refusal to provide cost or pricing data, see 3-807.5.

(d) Pricing based on cost analysis involves, among other things, an appraisal of estimates of costs expected to be incurred in the future. The accounting projection of trends based on cost or pricing data, together with any known changes therein, is only one method of conducting this appraisal, others being:

(i) an engineering appraisal of the need for the estimated labor and material costs and of tooling and facilities, and the reasonableness of scrap and spoilage factors, and

8162 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

UMI

(ii) the preparation of independent estimates by competent technical personnel.

Occasionally, differences of opinion will exist not only on the reasonableness of cost projections but also on the accounting techniques on which they are based. In addition, it is normally not possible to negotiate a pricing result which is in strict accord with all of the opinions of all of the specialists, or even with the Government's pricing objective. Reasonable compromises are normally necessary and this fact must be understood by all members of the team. For all of these reasons audit reports or pricing recommendations by others must be considered to be advisory only. The contracting officer is responsible for the exercise of the requisite judgments and is solely responsible for the final pricing decision. When the contracting officer does not adopt audit or other specialist recommendations that have particular significance on the contract price, comments should be included in the record of the negotiation.

(e) Whenever it becomes apparent to the contracting officer that the negotiations will require the resolution of complex problems which involve items significant in amount, he shall request attendance by audit or other representatives at the negotiation meeting.

(f) Contracting offices shall cover the disposition of each audit report as follows:

(i) For the audit report where the procurement action was finalized, the cognizant auditor shall be notified in accordance with the requirement of 3-811.

(ii) For those situations where the audit report is related to a cancelled or unsuccessful procurement action, the cognizant auditor shall be notified in writing.

3-801.3 *Responsibility of Requirements and Other Logistics Personnel in Purchasing Offices.* Personnel other than the contracting officer, who determine type, quality, quantity, and delivery requirements for items to be purchased, can influence the degree of competition obtainable and exert a material effect upon prices. Failure to determine requirements in sufficient time to allow:

(i) a reasonable period for preparation of requests for proposals;

(ii) preparation of quotations by offerors;

(iii) contract negotiation and preparation; or

(iv) adequate manufacturing lead time,

causes delays in deliveries and uneconomical prices. Requirements issued on an urgent basis or with unrealistic delivery schedules should be avoided since they generally increase prices or restrict desired competition.

3-801.4 *Responsibility of Pricing Personnel in Purchasing Office.*

(a) The contract pricing team available to support the PCO in the review and analysis of pricing proposals includes the price analyst, negotiator, buyer, project engineer, and liaison auditor at the purchasing office.

(b) The price analyst or negotiator supporting the contracting officer may be designated to develop a Government pricing objective prior to the negotiation. This includes the responsibility for determining the extent of advice required from other specialists, requesting, obtaining, and considering such advice, and for consolidating pricing data, including cost and price analyses, historical cost or pricing data, independent government cost estimates, economic analyses and the like. The advice and assistance of the price analyst/negotiator should always be obtained when complex pricing techniques are indicated, including the use of con-

tract types involving the skillful balancing of price, cost and performance incentive arrangements. In many instances, he will be in the best position to conduct the price negotiation.

3-801.5 *Responsibility of Field Pricing Support Personnel.*

(a) *Field Pricing Support.* Field pricing support involves analysis of the contractor's price proposal by any or all of the field technical and professional specialists including, but not limited to, the Plant Rep/ACO; contract auditor; price analyst; quality assurance personnel, engineers; and legal and small business specialists. The Plant Rep/ACO is the team manager for all PCO requests for field pricing support. Therefore the PCO shall send all requests for field pricing support to the cognizant field contract administration activity; generally, the Plant Representative (Plant Rep) for the Services and the Administrative Contracting Officer (ACO) for DCAS(DLA). However, there shall be no constraints on the lines of communication with the PCO/ACO and contract auditor interface.

(b) *Field Pricing Reports on Contract Price Proposals.*

(i) Prior to negotiation of a contract or modification resulting from a proposal in excess of $500,000, when the price is based on cost or pricing data (3-807.3) submitted by the contractor, the contracting officer (PCO or ACO) or authorized representative shall request a field pricing report (which usually includes an audit review by the contract audit activity), unless information available to the contracting officer is considered adequate to determine the reasonableness of the proposed cost or price. Whenever available data is considered adequate for a reasonableness determination, the contracting officer shall document the contract file to reflect the basis of the determination. Information of the type described in (i) through (vi) below, which is often available to the contracting officer from the Plant Rep/ACO or from the Procurement Liaison Auditor (PLA), should be useful in determining the extent of any field pricing support that is needed.

(i) In-house engineering determination of level of effort required in connection with research and development or study contracts.

(ii) Audited cost information from contract awards in process, or recently negotiated contracts.

(iii) Adequately reviewed data on proposed subcontracts items which constitute the major portion of the prime contract price proposal.

(iv) Prices of standard commercial items which constitute the major portion of the prime contract price proposal.

(v) Special forward pricing formulas or rates such as for support items, or forecast overhead rates, prescribed in an existing advance agreement.

UMI
1983
MR
1
3
ISS
43
48
VOL

(i) actual costs previously incurred by the contractor or offeror;
(ii) either his last prior cost estimate or a series of prior estimates for the same or similar items;
(iii) current cost estimates from other possible sources;
(iv) prior estimates or historical costs of other contractors manufacturing the same or similar items; and
(v) forecasts or planned expenditures.

(4) Forecasting future trends in costs from historical cost experience is of importance, but care must be taken to assure that the effect of past inefficient or uneconomical practices are not projected into the future. An adequate cost analysis must include an evaluation of trends and changes in circumstances, if any, and their effect on future costs.

3-807.3 *Requirement for Cost or Pricing Data.*

(a) When appropriate, the contracting officer shall require the contractor to submit, either actually or by specific identification in writing, cost or pricing data in support of his proposal. The contracting officer also shall require the contractor, in circumstances specified in (b) below, to certify, using the certificate set forth in 3-807.6, that the cost or pricing data submitted are accurate, complete, and current. Cost or pricing data shall not be required merely in anticipation of post-award review of the contract.

(b) Cost or pricing data are required as part of a proposal leading to, and certification is required prior to:

(i) the award of any negotiated contract (except for unpriced actions such as letter contracts) expected to exceed $500,000 in amount;
(ii) the pricing of any modification to any formally advertised or negotiated contract whether or not cost or pricing data were required in connection with the initial pricing of the contract when the modification involves aggregate increases and/or decreases in costs plus applicable profits expected to exceed $500,000. (For example, the requirement applies to a $150,000 modification resulting from a reduction of $350,000 and an increase of $200,000, or as another example, when the modification results in no change in contract price because there is an increase of $1 million and a reduction of $1 million. However, this requirement shall not apply when unrelated and separately priced changes for which cost or pricing data would not be required are included in the same modification for administrative convenience.);
(iii) the award of any negotiated contract not expected to exceed $500,000 in amount, or any contract modification not expected to exceed $500,000 in amount to any contract whether or not cost or pricing data were required in connection with the initial pricing of the contract, provided the contracting officer considers that the circumstances warrant such action;

unless the price negotiated is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. The requirements under (i) and (ii) above may be waived in exceptional cases when the Secretary (or, in the case

of a contract with a foreign government or agency thereof, the Head of a Contracting Activity) authorizes such waiver and states in writing his reasons for such determination. A copy of each waiver shall be sent to the Assistant Deputy Under Secretary of Defense for Acquisition (ADUSD(A)), OUSD(R&E).

(c) Unless required to be submitted on one of the termination forms set forth in 16-700, data will be submitted on the DD Form 633. The requirement for submission of cost or pricing data is met when all cost or pricing data reasonably available to the contractor have been submitted or identified in writing at the time of agreement on price. The data shall be submitted to the contracting officer or his representative. There is a clear distinction to be made between "submitting" cost or pricing data and merely "making available" books, records and other documents without identification. The latter does not constitute submission of cost or pricing data.

(d) Certified cost or pricing data shall not be requested prior to the award of any contract anticipated to be for $25,000 or less (but see 22-1007) and generally should not be requested for modifications in those amounts. There should be relatively few instances where certified cost or pricing data and the inclusion of defective pricing clauses would be justified in awards between $25,000 and $500,000. In most such awards, the administrative costs will outweigh the benefits which might otherwise accrue from receipt of certified cost or pricing data; hence all other means of determining reasonableness of price should be utilized. When less than complete cost analysis (*e.g.*, analysis of only specific factors) will provide a reasonable pricing result on awards under $500,000 without the submission of complete cost or pricing data, the contracting officer shall request only that data which he considers adequate to support the limited extent of the cost analysis required and he will not require certification.

(e) When it is anticipated from the outset that there will be adequate price competition, cost or pricing data shall not be requested regardless of the dollar amount involved. If, after cost or pricing data were initially requested and received, it is determined that adequate price competition does exist, the data need not be certified. As a general rule, cost or pricing data should not be requested when it has been determined that proposed prices are, or are based on, established catalog or market prices of commercial items sold in substantial quantities to the general public or are prices set by law or regulation. When, however, despite the existence of an established catalog or market price of commercial items sold in substantial quantities to the general public, the contracting officer finds that the price is not reasonable and supports such finding by an enumeration of the facts upon which it is based, cost or pricing data may be requested if necessary to establish a reasonable price; *provided*, that such finding is approved by the Chief of the Purchasing Office.

(f) When economic price adjustment provisions are included in competitive procurements, see 3-404.3(e).

3-807.4 *Subcontractor Cost or Pricing Data.*

(a) Any contractor who is required to submit and certify cost or pricing data shall be required to submit accurate, complete and current cost or pricing data from prospective subcontractors in support of each subcontract cost estimate included in the contractor's submission. This submission shall be required whenever the contracting officer considers such subcontractor data necessary for pricing the prime contract, or, in any event, whenever such subcontractor cost estimate is either (i) $1,000,000 or more, or (ii) both more than $500,000 and more than 10 percent of the prime contractor's proposed contract price. This submission is not required if the contractor demonstrates to the satisfaction of the contracting officer that a prospective subcontract will be based on adequate price competition, or that a prospective subcontract estimate is based on an established catalog or market price of a commercial item sold in substantial quantities to the general public, or a price set by law or regulation. Except for subcontracts within (i) or (ii) above, any such requirement for subcontractor cost or pricing data may be limited by the contracting officer to particular subcontract items or classes of items. However, in the case of subcontracts of $500,000 or less, any such requirement shall be subject to the limitations for contracts of $500,000 or less as set forth in 3-807.3(d). Submission of subcontractor cost or pricing data from more than one subcontractor for each subcontract item shall not ordinarily be required, provided that the contractor's subcontract cost estimate is based upon the cost or pricing data of the subcontractor who is most likely to get the subcontract. Notwithstanding the foregoing, the contractor shall submit other data pertaining to subcontract costs, including other subcontractor quotations.

(b) Prospective subcontractor cost or pricing data shall be accurate, complete and current as of the same date specified in the contractor's certificate. The contractor shall be responsible for updating a prospective subcontractor's data to the above date from the time of original submission by the subcontractor. Failure by the contractor to submit subcontract cost or pricing data may be cause for disqualification of the contractor from further consideration for award of the proposed contract. When the contractor has generally complied with such subcontract cost or pricing data requirements, his failure to do so for particular subcontracts in exceptional cases may be excused by the contracting officer. Such excuse, except when limited to an allowance of additional time, shall be approved by the Chief of the Purchasing Office. For each prospective subcontract so excused, the contracting officer shall either (i) allow additional time for submission of subcontract cost or pricing data up to the date of agreement upon the prime contract price; (ii) withdraw the requirement for subcontract cost or pricing data if he deems that cost or pricing data submitted by the contractor is adequate to support the subcontract estimate; (iii) reserve such subcontract item for future pricing; (iv) consider another contract type; or (v) make other arrangements to provide an adequate basis for agreement upon contract price. Also, for each subcontract so excused, the contractor shall remain obligated to obtain subcontractor cost or pricing data.

(c) These requirements, modified as appropriate to relate to a higher tier subcontractor rather than the prime contractor, shall apply to lower tier subcontracts under subcontracts for which subcontractor cost or pricing data are required.

(d) The contractor shall be required to support subcontract cost estimates below the minimum set forth in (a)(i) and (ii) above, by any data or information needed to establish a reasonable contract price.

(e) Any contractor who has been required to submit and certify cost or pricing data also shall be required to obtain cost or pricing data from his subcontractors under the circumstances set forth in the appropriate clause in 7-104.42, notwithstanding any prior submission from subcontractors. The requirements for submission of subcontractor cost or pricing data for subcontracts may be waived in exceptional cases when the Secretary (or his designee in cases when the subcontract is with a foreign government or agency thereof or is for less than $1 million) authorizes such waiver and states in writing his reasons for such determinations. A copy of each waiver shall be sent to the Assistant Deputy Under Secretary of Defense for Acquisition, Office of the Under Secretary of Defense, Research and Engineering.

(f) Cost or pricing data furnished by a subcontractor or a prospective subcontractor must be submitted to the prime contractor or higher-tier subcontractor. It is the responsibility of the prime contractor and higher-tier subcontractor to review and evaluate the subcontract proposal and supporting cost or pricing data and furnish the results of such review and evaluation to the Government as part of their cost or pricing data submission.

3-807.5 *Refusal to Provide Cost or Pricing Data.* If cost or pricing data from the contractor are required to permit adequate analysis of the contractor's proposal and the contractor has refused to provide such data, the contracting officer shall use those means available to him in attempting to secure such data. If the contractor persists in his refusal to provide necessary data, the contracting officer shall withhold making the award or price adjustment. In such event, he shall refer the procurement action to higher echelons of the Department. Such referral shall include a complete statement of the attempts made to resolve the matter, including (i) steps taken to secure essential cost or pricing data, (ii) efforts to secure the contractor's cooperation in the establishment of a satisfactory business relationship, (iii) any assurances offered, such as agreements to adequately safeguard information furnished, and (iv) a statement concerning the practicability of obtaining the supplies or services from another source.

3-807.6 *Certificate of Current Cost or Pricing Data.*

(a) When a Certificate of Current Cost or Pricing Data is required, the certificate set forth below shall be included in the contract file along with the memorandum of the negotiation, see 3-811. The contractor shall be required to submit only one certificate which shall be submitted as soon as practicable after agreement is reached on the contract or modification price.

CERTIFICATE OF CURRENT COST OR PRICING DATA

This is to certify that, to the best of my knowledge and belief, cost or pricing data as defined in ASPR 3-807.1(a)(1) submitted, either actually or by specific identification in writing (see ASPR 3-807.3(a)) to the Contracting Officer or his representative in support of . * are accurate, complete, and current as of (day) (month) (year) **

This certification includes the cost or pricing data supporting any advance agreement(s) and forward pricing rate agreements between

UMI
1983
MR - 3
ISS 43
VOL 48
4 8

the offeror and the Government which are part of the proposal.

Firm .....
Name .....
Title .....
Date of Execution ..... ***

(End of certificate)

* Describe the proposal, quotation, request for price adjustment or other submission involved, giving appropriate identifying number (*e.g.*, RFP No. . . . . .)

** The effective date shall be the date when price negotiations were concluded and the contract price was agreed to. The responsibility of the contractor is not limited by the personal knowledge of the contractor's negotiator if the contractor had information reasonably available at the time of agreement, showing that the negotiated price is not based on accurate, complete and current data.

*** This date should be as close as practicable to the date when the price negotiations were concluded and the contract price was agreed to.

(b) Because the certificate pertains to "cost or pricing data," it does not make representations as to the accuracy of the contractor's judgment on the estimated portion of future costs or projections. It does, however, apply to the data upon which the contractor's judgment is based. This distinction between fact and judgment should be clearly understood.

(c) Whenever a Certificate of Current Cost or Pricing Data is required, the applicable clause in 7-104.29 shall be included in the contract.

(d) Although Cost or Pricing Data were requested in the solicitation, a Certificate of Current Cost or Pricing Data shall not be requested in connection with the award of any contract of any dollar value where the price negotiated is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(e) The exercise of an option at the price established in the initial negotiation in which certified cost or pricing data were used, does not require re-certification.

(f) Negotiated final pricing actions such as total final price agreements under fixed price incentive and redeterminable contracts, final overhead rate settlements under cost type contracts, or partial termination settlement agreements under any type of contract are contract modifications for which certified cost or pricing data are required. A certificate shall be submitted as soon as practicable after agreement is reached on the amount of the modification. That certificate is required when the amount of the total final price agreement exceeds $500,000 or partial termination settlement agreement plus the estimate to complete exceeds $500,000.

(g) A Certificate of Current Cost or Pricing Data is not a substitute for examination and analysis of the contractor's proposal.

(h) Data supplied during negotiation of an advance agreement and FPRA's (see 15-107 and 3-807.8) will not be certified at the time of agreement. When an advance agreement is used in partial support of a later contractual action which does require certification, the price proposal certificate will cover both the data

originally supplied to support the advance agreement referenced on the DD Form 633 and all data required to update the specific price proposal data to the time of agreement on the contract price.

3-807.7 ***Adequate Price Competition, Catalog or Market Prices and Prices Set by Law or Regulation.*** For the purpose of paragraphs 3-807 and 15-205.22(e), the terms "adequate price competition", "established catalog or market prices of commercial items sold in substantial quantities to the general public", and "prices set by law or regulations" shall be construed in accordance with the following general guidelines.

(a) ***Adequate Price Competition.***

(1) Price competition exists if offers are solicited and (i) at least two responsible offerors, (ii) who can satisfy the requirements, (iii) independently contend for a contract to be awarded to the responsive and responsible offeror submitting the lowest evaluated price, (iv) by submitting priced offers responsive to the expressed requirements of the solicitation. Whether there is price competition for a given procurement is a matter of judgment to be based on evaluation of whether each of the foregoing conditions is satisfied. Generally, in making this judgment, the smaller the number of offerors, the greater the need for close evaluation.

(2) If the foregoing conditions (i) through (iv) are met, price competition shall be presumed to be "adequate" unless it is determined that:

(i) the solicitation was made under conditions that unreasonably deny to one or more known and qualified offerors an opportunity to compete;

(ii) the low competitor has such a determinative advantage over the other competitors that he is practically immune to the stimulus of competition in proposing a price (*e.g.*, a determinative advantage because substantial costs, such as start up or other nonrecurring expenses, have already been absorbed in connection with previous sales, thus placing the competitor in a preferential position); or

(iii) the lowest final price is not reasonable and this finding is supported by an enumeration of the facts upon which it is based; *provided*, that such finding is approved at a level above the contracting officer.

(3) A price is "based on" adequate price competition if it results directly from such competition or, if price analysis (not cost analysis) shows clearly that the price is reasonable in comparison with current or recent prices for the same or substantially the same items procured in comparable quantities under contracts awarded as a result of adequate price competition (*e.g.*, (i) exercise of an option in a contract for which there was adequate price competition if the option price has been determined to be reasonable in accordance with 1-1505(d) and (ii) an item normally is procured competitively but in a particular situation only one offer is solicited or received, and the price clearly is reasonable in comparison with recent purchases of comparable quantities for which there was adequate price competition).

(4) Prices based on adequate price competition exempt offerors from the requirements for submission and certification of cost or pricing data. (***But see 3-1200 for CAS requirements.***)

9106 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

(i) Architect-engineering contracts;
(ii) Management contracts for operation and/or maintenance of Government facilities;
(iii) Construction contracts;
(iv) Contracts primarily requiring delivery of material supplied by subcontractors;
(v) Termination settlements;
(vi) Cost-plus-award-fee contracts;
(vii) Contracts not expected to exceed $500,000; and
(viii) Unusual pricing situations where the weighted guidelines method has been determined to be unsuitable. Such exceptions shall be justified in writing and shall be authorized by the head of the contracting activity.

(2) If the contracting officer makes a written determination that the pricing situation meets any of the circumstances set forth above and that application of the manufacturing weighted guidelines will result in an inequitable profit objective, other methods for establishing the profit objective may be used. These methods shall be supported in a manner similar to that used in the weighted guidelines (profit factor breakdown and documentation of profit objectives); however, investment or other factors that would not be applicable to the contract shall be excluded from the profit objective determination. It is intended that the methods will result in profit objectives for noncapital intensive contracts that are below those generally developed for capital intensive contracts.

(c) *Application to Subcontracts.* The prime contractor may use the weighted guidelines or a structured approach that discriminates among different levels of investment if the acquisition would be subject to the weighted guidelines under a prime contract. (For applicability see 3-1300.1(c).) If the acquisition falls into one of the exceptions to the weighted guidelines in 3-808.2(b)(1), the prime contractor may use another method to establish profit objectives. In the absence of a structured approach that discriminates among different levels of investment, similar to the weighted guidelines, the profit objective will be reduced by the amount of facilities capital cost of money allowed in accordance with 15-205.50.

(d) *Limitation.* In the event this or any other method would result in establishing a fee objective in violation of limitations established by statute or this regulation, the maximum fee objective shall be the percentage allowed pursuant to such limitations. (See 3-405.) No local administrative ceilings on profit shall be permitted.

3-808.3 *Profit Objective.*

(a) A profit objective is that part of the estimated contract price objective or value which, in the judgment of the contracting officer, is appropriate for the acquisition being considered, covering the profit or fee element of the price objective. This objective should realistically reflect the total overall task to be performed and the requirements placed on the contractor. Prior to the negotiation of a contract, change order, or contract modification where cost analysis is undertaken, the negotiator shall develop a profit objective. The weighted

guidelines method, if applicable, shall be used for developing this profit objective. If a change or modification is of a relatively small dollar amount and is basically the same type of work as required in the basic contract, the application of the weighted guidelines method will generally result in a profit objective similar to the profit objective in the basic contract and, therefore, this basic rate may be applied to the contract change or modification. In cases where the change or modification calls for substantially different work, then the basic contract profit and the contractor's effort may be radically changed and a detailed analysis is necessary. Also, if the dollar amount of the change or contract modification is very significant in comparison to the contract dollar amount, a detailed analysis shall be made.

(b) Development of a profit objective should not begin until after a thorough—

(i) review of proposed contract work;
(ii) review of all available knowledge regarding the contractor, pursuant to Section I, Part 9, including capability reports, audit data, preaward survey reports and financial statements, as appropriate; and
(iii) analysis of the contractor's cost estimate and comparison with the Government's estimate or projection of cost.

3-808.4 *Profit Factors.*

(a) The following factors shall be considered in all cases in which profit is to be specifically negotiated. The weight ranges listed after each factor shall be used in all instances where the weighted guidelines method is used.

UMI 1983 MR - 3 ISS 43 48 VOL

(iii) a contractor's or subcontractor's failure to comply with applicable Cost Accounting Standards or to follow consistently his disclosed cost accounting practices has resulted, or may result in, any increased cost paid by the Government; and

(iv) a contractor's or subcontractor's proposed price changes, submitted as a result of changes made to previously disclosed or established cost accounting practices, are fair and reasonable.

(6) Procedures for Identifying Contractors' Unallowable Costs.

(i) The establishment, maintenance, and consistent use of procedures for identifying and segregating unallowable costs, which will assure compliance with CAS 405 and 15-201.6, will benefit both the Government and contractors. Such procedures may vary between plants or divisions of a contractor due to size, mix of business and complexity of organization. Some of the advantages of sound procedures are that:

(A) a greater degree of confidence can be placed on the accuracy and reliability of contractors' proposals, billings and claims;

(B) they expedite the negotiation process; and

(C) they may reduce the scope of reviews performed by audit and other technical and procurement personnel.

(ii) The responsible Federal Contract Audit organization shall review contractors' procedures and practices in conjunction with other contract audit activities. Deficiencies shall be reported to the cognizant ACO, and, as appropriate, PCOs having substantial business with the contractor. Among the matters to be considered in determining the adequacy of a contractor's procedures are its policy, practices and techniques for:

(A) assignment of responsibilities within the contractor's organization for reviewing and approving claims against the Government;

(B) identification of unallowable costs (expressly unallowable, mutually agreed to be unallowable or specifically designated as unallowable by written decision of the contracting officer) together with the individual employees incurring such costs;

(C) identification and computation of directly associated costs;

(D) assurance that unallowable and directly associated costs are not included in estimated costs proposed, or incurred amounts claimed by the contractor;

(E) coordination and communication between the elements of the contractor's organization that prepare proposals and claims and those responsible for identifying unallowable and directly associated costs; and

(F) assuring the adequacy of the documentation maintained by the contractor identifying the unallowable costs together with directly associated costs.

(iii) Documentation in support of the contractor's procedures shall be made available to authorized Government personnel. (See 3-801.5(b)(7).)

3-810 Exchange of Information. In appropriate cases it is desirable to exchange and coordinate specialized information regarding a contractor between Departments, bureaus, technical services, and other procuring activities since it will provide uniformity of treatment of major issues and it may aid in the resolution of particularly difficult or controversial issues.

3-811 Record of Price Negotiation.

(a) At the conclusion of each negotiation of an initial or a revised price, the contracting officer shall promptly prepare or cause to be prepared, a memorandum, setting forth the principal elements of the price negotiation, for inclusion in the contract file and for the use of any reviewing authorities. The memorandum shall be in sufficient detail to reflect the most significant considerations controlling the establishment of the initial or revised price, including the current status of the contractor's procurement system. The memorandum should include an explanation of why cost or pricing data was, or was not, required (see 3-807) and, if it was not required in the case of any price negotiation in excess of $500,000, a statement of the basis for determining that the price resulted from or was based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. If cost or pricing data was submitted and a certificate of cost or pricing data was required (3-807.6), the memorandum shall reflect the extent to which reliance was not placed upon the factual cost or pricing data submitted and the extent to which this data was not used by the contracting officer in determining his total price objective and in negotiating the final price. The memorandum shall also reflect the extent to which the contracting officer recognized in the negotiation that any cost or pricing data submitted by the contractor was inaccurate, incomplete, or non-current; the action taken by the contracting officer and the contractor as a result; and the effect, if any, of such defective data on the

7-103.2 *Changes.*

CHANGES (1998 JAN)

The Contracting Officer may at any time, by a written order, and without notice to the sureties, make changes, within the general scope of this contract, in any one or more of the following: (i) Drawings, designs, or specifications, where the supplies to be furnished are to be specially manufactured for the Government in accordance therewith; (ii) method of shipment or packing; and (iii) place of delivery. If any such change causes an increase or decrease in the cost of, or the time required for the performance of any part of the work under this contract, whether changed or not changed by any such order, an equitable adjustment shall be made in the contract price or delivery schedule, or both, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within 30 days from the date of receipt by the Contractor of the notification of change, *provided*, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Where the cost of property made obsolete or excess as result of a change is included in the Contractor's claim for adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes". However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(End of clause)

In the foregoing clause, the period of "30 days" within which any claim for adjustment must be asserted may be varied in accordance with Departmental procedures. In accordance with 10 U.S.C. 2306(f), prior to the pricing of any change order that is expected to exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see 3-807.6) and shall assure that the contract includes or is modified to include a defective pricing data clause (see 7-104.29) and the audit clause required by 7-104.41.

7-103.3 *Extras.*

EXTRAS (1949 JUL)

Except as otherwise provided in this contract, no payment for extras shall be made unless such extras and the price therefor have been authorized in writing by the Contracting Officer.

(End of clause)

7-103.4 *Variation in Quantity.*

(a) Insert the following clause.

VARIATION IN QUANTITY (1949 JUL)

No variation in the quantity of any item called for by this contract will be accepted unless such variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified elsewhere in this contract.

(End of clause)

(b) In accordance with 1-325, insert the following clause.

EXTENT OF QUANTITY VARIATION (1965 APR)

The permissible variation under the clause of the General Provisions entitled "Variation in Quantity" shall be limited to:

Increase (Insert:.....% or None)

Decrease (Insert:.....% or None)

This increase or decrease shall apply to.....*

(End of clause)

* Insert in the blank the designation(s) to which the percentages apply, such as: (1) the total contract quantity; (2) item 1 only; (3) each quantity specified in the delivery schedule of the "Time of Delivery" clause; (4) the total item quantity for each destination; (5) the total quantity of each item without regard to destination.

7-103.5 *Inspection.*

(a) The following clause shall be inserted in all fixed-price supply contracts, except as provided in (b) and (c) below.

INSPECTION (1982 NOV)

(a) The Contractor shall provide and maintain an inspection system acceptable to the Government covering the supplies hereunder and shall tender to the Government, for acceptance, only supplies that have been inspected in accordance with said inspection system and have been found by the Contractor to be in conformity with contract requirements. As part of such system, the Contractor shall prepare records evidencing all inspections made pursuant thereto and the outcome thereof. Such records shall be kept complete and available to the Government during the performance of this contract and for such longer period as may be specified elsewhere in this contract. The Government may perform such reviews and evaluations as are reasonably necessary to ascertain compliance with this paragraph. These reviews and evaluations shall be conducted in a manner that will not unduly delay the contract work. The right of review, whether exercised or not, does not relieve the Contractor of the obligations under the contract.

(b) All supplies (which term throughout this clause includes without limitation raw materials, components, intermediate assemblies, and end products) shall be subject to inspection and test by the Government, to the extent practicable at all times and places including the period of manufacture, and in any event prior to acceptance. However, the Government assumes no contract obligation to perform any inspection and test for the benefit of the Contractor unless specifically set forth elsewhere in this contract.

(c) In case any supplies or lots of supplies are defective in material or workmanship or otherwise not in conformity with the requirements of this contract, the Government shall have the right either to reject them (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed or, if permitted or required by the Contracting Officer, corrected in place by and at the expense of the Contractor promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement of correction is disclosed. If the Contractor fails promptly to remove such supplies or lots of supplies which are required to be removed or promptly to replace or correct such supplies or lots of supplies, the Government either (i) may by contract or otherwise replace or correct such supplies and charge to the Contractor the cost occasioned the Government thereby; or (ii) may terminate this contract for default as provided in the clause of this contract entitled "Default." Unless the Contractor corrects or replaces such supplies within the delivery schedule, the Contracting Officer may require the delivery of such supplies at a reduction in price which is equitable under the circumstances. Failure to agree to such reduction of price shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes".

EQUAL OPPORTUNITY PRE-AWARD CLEARANCE OF SUBCONTRACTS (1971 OCT)

Notwithstanding the clause of this contract entitled "Subcontracts," the Contractor shall not enter into a first-tier subcontract for an estimated or actual amount of $1,000,000 or more without obtaining in writing from the Contracting Officer a clearance that the proposed subcontractor is in compliance with equal opportunity requirements and therefore is eligible for award.

(End of clause)

7-104.23 *Subcontracts.*

(a) The following clause shall be inserted in all fixed-price type contracts, in accordance with 23-201.

SUBCONTRACTS (1982 DEC)

(The provisions of this clause do not apply to firm fixed-price contracts and fixed price contracts with economic price adjustment provisions. However, the clause does apply to unpriced modifications under such contracts.)

(a) As used in this clause, the term "subcontract" includes but is not limited to purchase orders, changes and/or modifications thereto.

(b) The Contractor shall notify the Contracting Officer reasonably in advance of entering into any subcontract if the Contractor's procurement system has not been approved by the Contracting Officer and if the subcontract:

(i) is to be a cost-reimbursement, time and materials, or labor-hour contract which it is estimated will involve an amount in excess of twenty-five thousand dollars ($25,000) including any fee;

(ii) is proposed to exceed one hundred thousand dollars ($100,000); or

(iii) is one of a number of subcontracts, under this contract, with a single subcontractor for the same or related supplies or services which, in the aggregate, are expected to exceed one hundred thousand dollars ($100,000).

(c) The advance notification required by paragraph (b) above shall include:

(i) a description of the supplies or services to be called for by the subcontract;

(ii) identification of the proposed subcontractor and an explanation of why and how the proposed subcontractor was selected, including the competition obtained;

(iii) the proposed subcontract price, together with the Contractor's cost or price analysis thereof;

(iv) the subcontractor's current, complete, and accurate cost or pricing data and Certificate of Current Cost or Pricing Data, when such data and certificates are required by other provisions of this contract to be obtained from the subcontractor;

(v) identification of the type of subcontract to be used;

(vi) a memorandum of negotiation which sets forth the principal elements of the subcontract price negotiations. A copy of this memorandum shall be retained in the contractor's file for the use of Government reviewing authorities. The memorandum shall be in sufficient detail to reflect the most significant considerations controlling the establishment of initial or revised prices. The memorandum should include an explanation of why cost or pricing data was, or was not required, and, if it was not required in the case of any price negotiation in excess of $500,000, a statement of the basis for determining that the price resulted from or was based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. If cost or pricing data was submitted and a certificate of cost or pricing data was required, the memorandum shall reflect the extent to which reliance was not placed upon the factual cost or pricing data submitted and the extent to which this data was not used by the contractor in determining the total price objective and in negotiating the final price. The memorandum shall also reflect the extent to which it was recognized in the negotiation that any cost or pricing data submitted by the subcontractor was not accurate, complete, or current; the action taken by the contractor and the subcontractor as a result; and the effect, if any, of such defective data on the total price negotiated. Where the total price negotiated differs significantly from the contractor's total price objective, the memorandum shall explain this difference;

(vii) when incentives are used, the memorandum of negotiation shall contain an explanation of the incentive fee profit plan identifying each critical performance element, management decisions used to quantify each incentive element, reasons for incentives on particular performance characteristics, and a brief summary of trade-off possibilities considered as to cost, performance, and time; and

(viii) the Subcontractor's Disclosure Statement or Certificate relating to Cost Accounting Standards when such data are required by other provisions of this contract to be obtained from the subcontractor.

(d) The Contractor shall not enter into any subcontract for which advance notification to the Contracting Officer is required by this clause, without the prior written consent of the Contracting Officer, *provided* that the Contracting Officer, in his discretion, may ratify in writing any subcontract. Such ratification shall constitute the consent of the Contracting Officer required by this paragraph.

(e) Neither consent by the Contracting Officer to any subcontract or any provisions thereof nor approval of the Contractor's procurement system shall be construed to be a determination; (i) of the acceptability of any subcontract terms or condition, (ii) of the acceptability of any subcontract price or of any amount paid under any subcontract, or (iii) to relieve the Contractor of any responsibility for performing this contract; unless such approval or consent specifically provides otherwise.

(f) The Contractor agrees that no subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis.

(g) The Government reserves the right to perform contractor procurement system reviews as set forth in ASPR Section XXIII.

(End of clause)

(b) Insert the following additional subparagraph to the clause in (a) above in accordance with 23-201.1(b)(iii).

(h) Notwithstanding approval of the Contractor's procurement system, the Contractor shall not enter into certain subcontracts or classes of subcontracts set forth elsewhere in this contract without the prior written consent of the Contracting Officer. With respect to subcontracts so identified, the advance notification requirements of paragraph (b) above shall be fully applicable even though the Contractor's system has been approved and those subcontracts are within the scope of the approval.

7-104.24 *Government Property.*

(a) *Government Property Clause.* Except as provided in (b) through (d) and (f) below, insert the following clause when a Department is to furnish to the contractor, or the contractor is to acquire Government property.

GOVERNMENT PROPERTY (FIXED PRICE) (1968 SEP)

(a) *Government-Furnished Property.* The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property described as Government-furnished property in the Schedule or specifications, together with such related data and information as the Contractor may request and as may reasonably be required for the intended use of

7-104.28 *Civility.*

UMI 1983 MR 3 43 48 VOL ISS

7-104.28 *Quality Program.* In accordance with 14-304, insert the following clause.

QUALITY PROGRAM (1967 AUG)

The Contractor shall provide and maintain a quality program acceptable to the Government for supplies and services covered by this contract. The quality program shall be in accordance with the edition of Military Specification MIL-Q-9858 in effect on the date of this contract.

(End of clause)

7-104.29 *Price Reduction for Defective Cost or Pricing Data.*

(a) The following clause shall be inserted in negotiated contracts which when entered into exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. In addition the contracting officer shall include this clause in other negotiated contracts for which he has obtained a Certificate of Current Cost or Pricing Data in accordance with 3-807.3(b)(iii) in connection with the initial pricing of the contract, or for which he has obtained partial cost or pricing data in accordance with 3-807.3(d).

PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA (1970 JAN)

If any price, including profit or fee, negotiated in connection with this contract or any cost reimbursable under this contract was increased by any significant sums because:

(i) the Contractor furnished cost or pricing data which was not complete, accurate and current as certified in the Contractor's Certificate of Current Cost or Pricing Data;

(ii) a subcontractor, pursuant to the clause of this contract entitled "Subcontractor Cost or Pricing Data" or "Subcontractor Cost or Pricing Data—Price Adjustments" or any subcontract clause therein required, furnished cost or pricing data which was not complete, accurate and current as certified in the subcontractor's Certificate of Current Cost or Pricing Data;

(iii) a subcontractor or prospective subcontractor furnished cost or pricing data which was required to be complete, accurate and current and to be submitted to support a subcontract cost estimate furnished by the Contractor but which was not complete, accurate and current as of the date certified in the Contractor's Certificate of Current Cost or Pricing Data; or

(iv) the Contractor or a subcontractor or prospective subcontractor furnished any data, not within (i), (ii) or (iii) above, which was not accurate as submitted;

the price or cost shall be reduced accordingly and the contract shall be modified in writing as may be necessary to reflect such reduction. However, any reduction in the contract price due to defective subcontract data of a prospective subcontractor when the subcontract was not subsequently awarded to such subcontractor, will be limited to the amount (plus applicable overhead and profit markup) by which the actual subcontract, or actual cost to the Contractor if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor, *provided* the actual subcontract price was not affected by defective cost or pricing data.

Note: Since the contract is subject to reduction under this clause by reason of defective cost or pricing data submitted in connection with certain subcontracts, it is expected that the contractor may wish to include a clause in each such subcontract requiring the subcontractor to appropriately indemnify the contractor. However, the inclusion of such a clause and the terms thereof are matters for negotiation and agreement between the contractor and the subcontractor, *provided* that they are consistent with ASPR 23-203 relating to Disputes provisions in subcontracts. It is also expected that any subcontractor subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by his lower tier subcontractors.

(End of clause)

(b) Insert the following clause in all contracts, both formally advertised and negotiated, which when entered into exceed $500,000 except those containing the clause in (a) above.

PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA—PRICE ADJUSTMENTS (1982 DEC)

(a) This clause shall become operative only with respect to any modification of this contract which involves aggregate increases and/or decreases in costs plus applicable profits in excess of $500,000 unless the modification is priced on the basis of adequate competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. The right to price reduction under this clause is limited to defects in data relating to such modification.

(b) If any price, including profit, or fee, negotiated in connection with any price adjustment under this contract was increased by any significant sums because:

(i) the Contractor furnished cost or pricing data which was not complete, accurate and current as certified in the Contractor's Certificate of Current Cost or Pricing Data;

(ii) a subcontractor, pursuant to the clause of this contract entitled "Subcontractor Cost or Pricing Data" or "Subcontractor Cost or Pricing Data—Price Adjustments" or any subcontract clause therein required, furnished cost or pricing data which was not complete, accurate and current as certified in the subcontractor's Certificate of Current Cost or Pricing Data;

(iii) a subcontractor or prospective subcontractor furnished cost or pricing data which was required to be complete, accurate and current and to be submitted to support a subcontract cost estimate furnished by the Contractor but which was not complete, accurate and current as of the date certified in the Contractor's Certificate of Current Cost or Pricing Data; or

(iv) the Contractor or a subcontractor or prospective subcontractor furnished any data, not within (i), (ii) or (iii) above, which was not accurate, as submitted;

the price shall be reduced accordingly and the contract shall be modified in writing as may be necessary to reflect such reduction. However, any reduction in the contract price due to defective subcontract data of a prospective subcontractor, when the subcontract was not subsequently awarded to such subcontractor, will be limited to the amount (plus applicable overhead and profit markup) by which the actual subcontract, or actual cost to the Contractor if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor, *provided* the actual subcontract price was not affected by defective cost or pricing data.

Note: Since the contract is subject to reduction under this clause by reason of defective cost or pricing data submitted in connection with certain subcontracts, it is expected that the contractor may wish to include a clause in each such subcontract requiring the subcontractor to appropriately indemnify the contractor. However, the inclusion of such a clause and the terms thereof are matters for negotiation and agreement between the contractor and the subcontractor, *provided* that they are consistent with ASPR 23-203 relating to Disputes provisions in subcontracts. It is also expected that any subcontractor subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by his lower tier subcontractors.

(End of clause)

(c) The requirement for inclusion of the above clauses in contracts with foreign governments or agencies thereof may be waived in exceptional cases by the Head of a Procuring Activity, stating in writing his reasons for such determination.

assent with this contract, including demand consequent upon default termination; (iii) the date of transmittal by the Government to the Contractor of a proposed supplemental agreement to confirm completed negotiations fixing the amount; or (iv) if this contract provides for revision of prices, the date of written notice to the Contractor stating the amount of refund payable in connection with a pricing proposal or in connection with a negotiated pricing agreement not confirmed by contract supplement.

(End of clause)

The interest rates established by the Secretary of the Treasury will be published in the Federal Register every six months. The current rate may also be obtained from the Departmental Contract Finance Office representative.

7-104.40 *Competition in Subcontracting.* The following clause shall be included in all negotiated contracts over $10,000, except in firm fixed-price contracts where award is on the basis of effective price competition or where prices are established by law or regulation, and except in small purchases made pursuant to 3-600.

COMPETITION IN SUBCONTRACTING (1963 APR)

The Contractor shall select subcontractors (including suppliers) on a competitive basis to the maximum practical extent consistent with the objectives and requirements of the contract.

(End of clause)

7-104.41 *Audit by Department of Defense.*

(a) Insert the following clause in all contracts (except those entered into by formal advertising which are not expected to exceed $100,000, and except small purchases made pursuant to 3-600).

AUDIT BY DEPARTMENT OF DEFENSE (1982 DEC)

(a) *General.* The Contracting Officer or his representatives shall have the audit and inspection rights described in the applicable paragraphs (b), (c) and (d) below.

(b) *Examination of Costs.* If this is a cost reimbursement type, incentive, time and materials, labor hour, or price redeterminable contract, or any combination thereof, the Contractor shall maintain, and the Contracting Officer or his representatives shall have the right to examine books, records, documents, and other evidence and accounting procedures and practices, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. Such right of examination shall include inspection at all reasonable times of the Contractor's plants, or such parts thereof, as may be engaged in the performance of this contract.

(c) *Cost or Pricing Data.* If the Contractor submitted cost or pricing data in connection with the pricing of this contract or any change or modification thereto, unless such pricing was based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the Contracting Officer or his representatives who are employees of the United States Government shall have the right to examine all books, records, documents and other data of the Contractor related to the negotiation, pricing or performance of such contract, change or modification, for the purpose of evaluating the accuracy, completeness and currency of the cost or pricing data submitted. Additionally, in the case of pricing any change or modification to formally advertised contracts, the Comptroller General of the United States or his representatives who are employees of the United States Government shall have such rights. The right of examination shall extend to all documents necessary to permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(d) *Reports.* If the Contractor is required to furnish Contractor Cost Data Reports (CCDR), Contract Fund Status Reports (CFSR), or Cost Performance Reports (CPR) the Contracting Officer or his representatives shall have the right to examine books, records, other documents, and supporting materials, for the purpose of evaluating (i) the effectiveness of the Contractor's policies and procedures to produce data compatible with the objectives of these reports, and (ii) the data reported.

(e) *Availability.* The materials described in (b), (c) and (d) above shall be made available at the office of the Contractor, at all reasonable times, for inspection, audit, or reproduction, until the expiration of three (3) years from the date of final payment under this contract or such lesser time specified in Appendix M of the Armed Services Procurement Regulation, and for such longer period, if any, as is required by applicable statute, or by other clauses of this contract, or by (1) and (2) below:

(1) If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for a period of three (3) years from the date of any resulting final settlement.

(2) Records which relate to appeals under the "*Disputes*" clause of this contract, or litigation, or the settlement of claims arising out of the performance of this contract, shall be made available until such appeals, litigation, or claims have been disposed of.

(f) The Contractor shall insert a clause containing all the provisions of this clause, including this paragraph (f), in all subcontracts exceeding $10,000 hereunder, except altered as necessary for proper identification of the contracting parties and the Contracting Officer under the Government prime contract.

(End of clause)

(b) In the case of consolidated facilities contracts, facilities acquisition contracts and facilities use contracts, paragraph (b) of the clause should be amended to read:

(b) *Examination of Costs.* The Contractor shall maintain, and the Contracting Officer and his representatives shall have the right to examine, books, records, documents, and other evidence and accounting procedures and practices, sufficient to reflect properly (1) all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract and (2) the use of, and charges for the use of, the facilities. Such right of examination shall include inspection at all reasonable times of the Contractor's plants, or such parts thereof, as may be engaged in the performance of this contract.

7-104.42 *Subcontractor Cost or Pricing Data.*

(a) The following clause shall be inserted in all negotiated contracts expected to exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. The contracting officer may include this clause, with appropriate reduction in the dollar amounts included therein, in other negotiated contracts where a Certificate of Current Cost or Pricing Data is required (see 3-807.3(b)(iii)) in connection with initial pricing of the contract.

SUBCONTRACTOR COST OR PRICING DATA (1982 DEC)

(a) The Contractor shall require subcontractors hereunder to submit, actually or by specific identification in writing, cost or pricing data under the following circumstances: (i) prior to the award of any subcontract the amount of which is expected to exceed $500,000 when entered into; (ii) prior to the pricing of any subcontract modification which involves aggregate increases and/or decreases in costs plus applicable profits expected to exceed $500,000; except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(b) The Contractor shall require subcontractors to certify, in substantially the same form as that used in the certificate by the Prime Contractor to the Government, that to the best of their

knowledge and belief, the cost and pricing data submitted under (a) above is accurate, complete,

(c) The requirement for inclusion of the above clauses in contracts with

UMI 1983 MR 3 ISS 43 VOL 48

knowledge and belief, the cost and pricing data submitted under (a) above is accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract change or modification.

(c) The Contractor shall insert the substance of this clause including this paragraph (c) in each subcontract hereunder which exceeds $500,000 when entered into except where the price thereof is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. In each such excepted subcontract hereunder in excess of $500,000, the Contractor shall insert the substance of the following clause:

SUBCONTRACTOR COST OR PRICING DATA—PRICE ADJUSTMENTS

(a) Paragraphs (b) and (c) of this clause shall become operative only with respect to any modification made pursuant to one or more provisions of this contract which involves aggregate increases and/or decreases in costs plus applicable profits expected to exceed $500,000. The requirements of this clause shall be limited to such contract modifications.

(b) The Contractor shall require subcontractors hereunder to submit, actually or by specific identification in writing, cost or pricing data under the following circumstances: (i) prior to award of any subcontract, the amount of which is expected to exceed $500,000 when entered into; (ii) prior to the pricing of any subcontract modification which involves aggregate increases and/or decreases in costs plus applicable profits expected to exceed $500,000; except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(c) The Contractor shall require subcontractors to certify, in substantially the same form as that used in the certificate by the Prime Contractor to the Government, that to the best of their knowledge and belief the cost and pricing data submitted under (b) above is accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract change or modification.

(d) The Contractor shall insert the substance of this clause including this paragraph (d) in each subcontract hereunder which exceeds $500,000 when entered into.

(End of clause)

(b) Insert the following clause in all contracts, both formally advertised and negotiated, which exceed $500,000 other than those described in (a) above:

SUBCONTRACTOR COST OR PRICING DATA—PRICE ADJUSTMENTS (1982 DEC)

(a) Paragraphs (b) and (c) of this clause shall become operative only with respect to any modification made pursuant to one or more provisions of this contract which involves aggregate increases and/or decreases in costs plus applicable profits expected to exceed $500,000. The requirements of this clause shall be limited to such modifications.

(b) The Contractor shall require subcontractors hereunder to submit cost or pricing data under the following circumstances: (i) prior to the award of any subcontract the amount of which is expected to exceed $500,000 when entered into; (ii) prior to the pricing of any subcontract modification which involves aggregate increases and/or decreases in costs plus applicable profits expected to exceed $500,000; except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(c) The Contractor shall require subcontractors to certify that to the best of their knowledge and belief the cost and pricing data submitted under (b) above is accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract change or modification.

(d) The Contractor shall insert the substance of this clause including this paragraph (d) in each subcontract which exceeds $500,000.

(End of clause)

(c) The requirement for inclusion of the above clauses in contracts with foreign governments or agencies thereof may be waived in exceptional cases by the Head of a Procuring Activity, stating in writing his reasons for such determination.

7-104.43 *Reserved.*

7-104.44 *Value Engineering (VE).*

(a) In accordance with 1-1704, insert the following clause:

VALUE ENGINEERING (1982 OCT)

(a) *Applicability.* This clause applies to any Value Engineering Change Proposal (VECP) developed, prepared, and submitted by the Contractor.

(b) *Definitions.*

(1) "Acquisition savings" means savings resulting from the application of VECPs to contracts awarded by the same contracting office or its successor for essentially the same unit. Acquisition savings include:

(i) instant contract savings, which are the net cost reductions on this, the instant contract, and which are equal to the unit cost reduction multiplied by the number of units affected by the VECP, less the Contractor's allowable development and implementation costs (on service contracts, the unit cost reduction is multiplied by the labor-hour rate agreed upon for the tasks involved; then the Contractor's allowable development and implementation costs are subtracted from the total);

(ii) concurrent contract savings, which are measurable net reductions in the prices of other contracts of the contracting office in existence at the time the VECP was accepted; and

(iii) future contract savings, which are the product of the unit cost reduction under the instant contract, adjusted to consider the effects of learning, quantities, or other similar factors, multiplied by

derstanding, the Contracting Officer may waive all or part of the provisions hereof concerning [illegible]istration and review.

(End of clause)

7-104.88 *Advertising and Coupon Redemption for Military Resale Activities.* To preclude any implied endorsement by military resale activities of commercially advertised products, insert the following clause in all solicitations and resulting contracts for supplies purchased for resale.

ADVERTISING AND COUPON REDEMPTION FOR MILITARY RESALE ACTIVITIES (1974 APR)

The Contractor will not represent in any manner, expressed or implied, that the products purchased hereunder are approved or endorsed by any element of the United States Government. Any advertisement by the Contractor, including price-off coupons, which refers to a military resale activity shall contain the following statement:

"This advertisement is neither paid for nor sponsored, in whole or in part, by any element of the United States Government."

(End of clause)

7-104.89 *Engineering Change Proposals (ECP's).* In accordance with 26-205, the following is a sample clause:

ENGINEERING CHANGE PROPOSALS

(a) The Contracting Officer may at any time, in writing, request the Contractor to prepare and submit an Engineering Change Proposal (ECP) as that term is defined in MIL-STD-480, within the scope of this contract, as hereafter set forth. Upon receipt of such request, the Contractor shall submit to the Contracting Officer the information specified by, and in the format required by paragraph 4 of, MIL-STD-480.

(b) Any Contractor ECP shall set forth a "not to exceed" price* and delivery adjustment or a "not less than" price* and delivery adjustment, acceptable to the Contractor if the Government subsequently orders such ECP. If ordered, the equitable increase shall not exceed, nor shall the equitable decrease be less than, such "not to exceed" or "not less than" amounts.** This paragraph does not preclude any revision(s) or correction(s) of an ECP in accordance with paragraph 4.10 and 4.11 of MIL-STD-480. Concurrently with the submission of any ECP under this contract in which the proposed aggregate cost is $500,000 or greater, the Contractor shall submit to the Contracting Officer a completed DD Form 633 . At the time of agreement upon the price of the ECP, the Contractor shall submit a signed Certificate of Current Cost or Pricing Data.

(End of clause)

The Contracting Officer may include, in the circumstances in 26-205(b), the following paragraph.

(c) If the price * adjustment proposed for any Contractor-originated ECP (excluding any Government-requested ECP or Value Engineering Change Proposal) is *** (percent of the contract price *) (or $ ***) or less, such change shall be made at no adjustment of the contract price * .

* Use term suitable to type of contract.

** In cost-reimbursement type contracts, replace this sentence with the following sentence:

Change orders issued pursuant to the Changes clause of this contract shall not be considered an authorization to the Contractor to ex-

ceed the estimated cost set forth in the Schedule in the absence of a statement in the change order, or other contract modification, increasing the estimated cost.

*** To be negotiated.

7-104.90 *Change Order Accounting.* In accordance with 26-205, the following is a sample clause:

CHANGE ORDER ACCOUNTING

When the Contracting Officer estimates that the cost of a change or series of related changes will exceed $100,000, he may require change order accounting. The Contractor, for each such change or series of related changes, shall maintain separate accounts, by job order or other suitable accounting procedure, of all incurred segregable, direct costs (less allocable credits), of work, both changed and not changed, allocable to the change. Such accounts shall be maintained until the parties agree to an equitable adjustment for the change order.

(End of clause)

7-104.91 *Contracts Conditioned Upon the Availability of Funds.* In accordance with 1-318, insert one of the following clauses:

(a) *Availability of Funds.*

AVAILABILITY OF FUNDS (1962 SEP)

Funds are not presently available for this procurement. The Government's obligation hereunder is contingent upon the availability of appropriated funds from which payment for the contract purposes can be made. No legal liability on the part of the Government for payment of any money shall arise unless and until funds are made available to the Contracting Officer for this procurement and notice of such availability, to be confirmed in writing by the Contracting Officer, is given to the Contractor.

(End of clause)

(b) *Availability of Funds for Next Fiscal Year.*

AVAILABILITY OF FUNDS FOR NEXT FISCAL YEAR (1975 JUN)

Funds are not presently available for performance under this contract beyond .....

The Government's obligation for performance of this contract beyond this date is contingent upon the availability of appropriated funds from which payment for the contract purposes can be made. No legal liability on the part of the Government for payment of any money for performance under this contract beyond ..... shall arise unless and until funds are made available to the Contracting Officer for such performance and notice of such availability, to be confirmed in writing by the Contracting Officer, is given to the Contractor.

(End of clause)

7-104.92 *Time of Delivery.*

(a) Policy and procedures regarding time of delivery are set forth in 1-305. Examples of time of delivery clauses for invitations for bids are set forth below. They may be modified or other clauses may be used to state particular delivery requirements or any special procedures to be used in the evaluation, rejection or award process as regards time of delivery. These clauses also may be suitably modified for use in negotiated procurements when appropriate.

9174 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

In the foregoing clause, the period of "thirty (30) days" within which any claim for adjustment must be asserted may be varied in accordance with Departmental procedures. In accordance with 10 U.S.C. 2306(f), prior to the pricing of any change order that is expected to exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see 3-807.6) and shall assure that the contract includes or is modified to include a defective pricing data clause (see 7-104.29).

7-203.3 *Limitation of Cost or Funds.*

(a) The following clause shall be inserted in all fully funded cost-reimbursement type supply contracts.

LIMITATION OF COST (1966 OCT)

(a) It is estimated that the total cost to the Government for the performance of this contract, exclusive of any fee, will not exceed the estimated cost set forth in the Schedule, and the Contractor agrees to use his best efforts to perform the work specified in the Schedule and all obligations under this contract within such estimated cost. If, at any time, the Contractor has reason to believe that the costs which he expects to incur in the performance of this contract in the next succeeding sixty (60) days, when added to all costs previously incurred, will exceed seventy-five percent (75%) of the estimated cost then set forth in the Schedule, or if, at any time, the Contractor has reason to believe that the total cost to the Government for the performance of this contract, exclusive of any fee, will be greater or substantially less than the then estimated cost hereof, the Contractor shall notify the Contracting Officer in writing to that effect, giving his revised estimate of such total cost for the performance of this contract.

(b) Except as required by other provisions of this contract specifically citing and stated to be an exception from this clause, the Government shall not be obligated to reimburse the Contractor for costs incurred in excess of the estimated cost set forth in the Schedule, and the Contractor shall not be obligated to continue performance under the contract (including actions under the Termination clause) or otherwise to incur costs in excess of the estimated cost set forth in the Schedule, unless and until the Contracting Officer shall have notified the Contractor in writing that such estimated cost has been increased and shall have specified in such notice a revised estimated cost which shall thereupon constitute the estimated cost of performance of this contract. No notice, communication or representation in any other form or from any person other than the Contracting Officer shall affect the estimated cost of this contract. In the absence of the specified notice, the Government shall not be obligated to reimburse the Contractor for any costs in excess of the estimated cost set forth in the Schedule, whether those excess costs were incurred during the course of the contract or as a result of termination. When and to the extent that the estimated cost set forth in the Schedule has been increased, any costs incurred by the Contractor in excess of the estimated cost prior to such increase shall be allowable to the same extent as if such costs had been incurred after the increase; unless the Contracting Officer issues a termination or other notice and directs that the increase is solely for the purpose of covering termination or other specified expenses.

(c) Change orders issued pursuant to the Changes clause of this contract shall not be considered an authorization to the Contractor to exceed the estimated cost set forth in the Schedule in the absence of a statement in the change order, or other contract modification, increasing the estimated cost.

(d) In the event this contract is terminated or the estimated cost not increased, the Government and the Contractor shall negotiate an equitable distribution of all property produced or purchased under the contract based upon the share of costs incurred by each.

(End of clause)

(b) The following clause shall be used in all cost-reimbursement type supply contracts which are to be incrementally funded.

LIMITATION OF FUNDS (1966 OCT)

(a) It is estimated that the cost to the Government for the performance of this contract will not exceed the estimated cost set forth in the Schedule, and the Contractor agrees to use his best efforts to perform the work specified in the Schedule and all obligations under this contract within such estimated cost.

(b) The amount presently available for payment and allotted to this contract, the items covered thereby, and the period of performance which it is estimated the allotted amount will cover, are specified in the Schedule. It is contemplated that from time to time additional funds will be allotted to this contract up to the full estimated cost set forth in the Schedule, exclusive of any fee. The Contractor agrees to perform or have performed work on this contract up to the point at which the total amount paid and payable by the Government pursuant to the terms of this contract approximates but does not exceed the total actually allotted to the contract.

(c) If at any time the Contractor has reason to believe that the costs which he expects to incur in the performance of this contract in the next succeeding sixty (60) days, when added to all costs previously incurred, will exceed seventy-five percent (75%) of the total amount then allotted to the contract, the Contractor shall notify the Contracting Officer in writing to that effect. The notice shall state the estimated amount of additional funds required to continue performance for the period set forth in the Schedule. Sixty (60) days prior to the end of the period specified in the Schedule, the Contractor will advise the Contracting Officer in writing as to the estimated amount of additional funds, if any, that will be required for the timely performance of the work under the contract or for such further period as may be specified in the Schedule or otherwise agreed to by the parties. If, after such notification additional funds are not allotted by the end of the period set forth in the Schedule or an agreed date substituted therefor, the Contracting Officer will, upon written request by the Contractor, terminate this contract pursuant to the provisions of the Termination clause on such date. If the Contractor, in the exercise of his reasonable judgment, estimates that the funds available will allow him to continue to discharge his obligations hereunder for a period extending beyond such date, he shall specify the later date in his request, and the Contracting Officer, in his discretion, may terminate this contract on that later date.

(d) Except as required by other provisions of this contract specifically citing and stated to be an exception from this clause, the Government shall not be obligated to reimburse the Contractor for costs incurred in excess of the total amount from time to time allotted to the contract, and the Contractor shall not be obligated to continue performance under the contract (including actions under the Termination clause) or otherwise to incur costs in excess of the amount allotted to the contract, unless and until the Contracting Officer has notified the Contractor in writing that such allotment amount has been increased and has specified in such notice an increased amount constituting the total amount then allotted to the contract. To the extent the amount allotted exceeds the estimated cost set forth in the Schedule, such estimated cost shall be correspondingly increased. No notice, communication or representation in any other form or from any person other than the Contracting Officer shall affect the amount allotted to this contract. In the absence of the specified notice, the Government shall not be obligated to reimburse the Contractor for any costs in excess of the total amount then allotted to the contract, whether those excess costs were incurred during the course of the contract or as a result of termination. When and to the extent that the amount allotted to the contract has been increased, any costs incurred by the Contractor in excess of the amount previously allotted shall be allowable to the same extent as if such costs had been incurred after such increase in the amount allotted; *unless* the Contracting Officer issues a termination or other notice and directs that the increase is solely for the purpose of covering termination or other specified expenses.

(e) Change orders issued pursuant to the Changes clause of this contract shall not be considered an authorization to the Contractor to exceed the amount allotted in the Schedule in the absence of a statement in the change order, or other contractual modification, increasing the amount allotted.

SUBCONTRACTS (1982 DEC)

(a) The Contractor shall notify the Contracting Officer reasonably in advance of entering into any subcontract (as used in this clause, the term "subcontract" includes, but is not limited to, purchase orders, changes, and/or modifications thereto) which (i) is cost-reimbursement type, time and materials or labor-hour, or (ii) is fixed-price type and exceeds in dollar amount either $25,000 or five percent (5%) of the total estimated cost of this contract, or (iii) provides for the fabrication, purchase, rental, installation, or other acquisition of special test equipment having a value in excess of $10,000 or of any items of industrial facilities.

(b) In the case of a proposed subcontract which (i) is cost-reimbursement type, time and materials, or labor-hour, and would involve an estimated amount in excess of $10,000, including any fee, or (ii) is proposed to exceed $100,000, or (iii) is one of a number of subcontracts under this contract with a single subcontractor for the same or related supplies or services which, in the aggregate are expected to exceed $100,000, the advance notification required by (a) above shall include:

(1) a description of the supplies or services to be called for by the subcontract;
(2) identification of the proposed subcontractor and an explanation of why and how the proposed subcontractor was selected, including the degree of competition obtained;
(3) the proposed subcontract price, together with the Contractor's cost or price analysis thereof;
(4) the subcontractor's current, complete, and accurate cost of pricing data and Certificate of Current Cost or Pricing Data, when such data and certificate are required by other provisions of this contract, to be obtained from the subcontractor;
(5) identification of the type of subcontract to be used;
(6) a memorandum of negotiation which sets forth the principal elements of the subcontract price negotiations. A copy of the memorandum shall be retained in the contractor's file for the use of Government reviewing authorities. The memorandum shall be in sufficient detail to reflect the most significant considerations controlling the establishment of initial or revised prices. The memorandum should include an explanation of why cost or pricing data was, or was not required, and, if it was not required in the case of any price negotiation in excess of $500,000, a statement of the basis for determining that the price resulted from or was based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. If cost or pricing data was submitted and a certificate of cost or pricing data was required, the memorandum shall reflect the extent to which reliance was not placed upon the factual cost or pricing data submitted and the extent to which this data was not used by the Contractor in determining the total price objective and in negotiating the final price. The memorandum shall also reflect the extent to which it was recognized in the negotiation that any cost or pricing data submitted by the subcontractor was not accurate, complete, or current, the action taken by the contractor and the subcontractor as a result, and the effect, if any, of such defective data on the total price negotiated. Where the total price negotiated differs significantly from the Contractor's total price objective, the memorandum shall explain this difference;

Secretary and approved by the Contracting Officer; (iii) its contracts with the Department of the Navy, *The Department*.) When the Government has assumed liability for subcontracts, the term "*Contractor*" in this paragraph (b) shall include subcontractors.

(c) No payment shall be made by the Government under this clause unless the amount thereof shall first have been certified to be just and reasonable by the Secretary or his representative designated for such purpose. The rights and obligations of the parties under this clause shall survive the termination, expiration, or completion of this contract. The Government may discharge its liability under this paragraph by making payments to the Contractor or directly to parties to whom the Contractor may be liable.

(d) With the prior written approval of the Contracting Officer, the Contractor may include in any subcontract under this contract, the same provisions as those in this clause, whereby the Contractor shall indemnify the subcontractor against any risk defined in this contract to be unusually hazardous or nuclear in nature. Such a subcontract shall provide the same rights and duties, and the same provisions for notice, furnishing of evidence or proof, and the like, between the Contractor and the subcontractor as are established by this clause. The Contracting Officer may also approve similar indemnification of subcontractors at any tier upon the same terms and conditions. Subcontracts providing for indemnification within the purview of this clause shall provide for the prompt notification to the Contracting Officer of any claim or action against, or of any loss by, the subcontractor which is covered by this clause, and shall entitle the Government at its election, to control or assist in the settlement or defense of any such claim or action. The Government shall indemnify the Contractor with respect to his obligations in subcontractors under subcontract provisions thus approved by the Contracting Officer. The Government may discharge its obligations under this paragraph by making payments directly to subcontractors or to parties to whom the subcontractor may be liable.

(e) If insurance coverage or other financial protection program approved by the Secretary is reduced, the liability of the Government under this clause shall not be increased by reason of such reduction.

(f) The Contractor shall (i) promptly notify the Contracting Officer of any claim or action against, or of any loss by, the Contractor or any subcontractor which reasonably may be expected to involve indemnification under this clause, (ii) furnish evidence or proof of any claim, loss or damage covered by this clause in the manner and form required by the Government, and (iii) immediately furnish to the Government copies of all pertinent papers received by the Contractor. The Government may direct, control or assist in the settlement or defense of any such claim or action. The Contractor shall comply with the Government's directions, and execute any authorizations required in regard to such settlement or defense.

(End of clause)

7-303.63 *Preference for United States Flag Air Carriers.* In accordance with 1-336.1(b), insert the clause in 7-104.95.

7-303.64 *Privacy Act.* In accordance with 1-327.1, insert the clause in 7-104.96.

7-303.65 *Preference for Domestic Specialty Metals.* In accordance with 7-104.93, insert the applicable clause therein.

7-303.66 *Exclusionary Policies and Practices of Foreign Governments.* In accordance with 6-1312, insert the clause in 7-104.97.

7-303.67 *Hazardous Material Identification and Material Safety Data.* In accordance with 1-323.2(b), insert the clause in 7-104.98.

7-303.68 *Overseas Distribution of Defense Subcontracts.* In accordance with 1-340, insert the clause in 7-104.78.

7-303.69 *Reserved.*

7-303.70 *Limitation on Sales Commissions and Fees for Foreign Governments.* In accordance with 6-1305.6, insert the clause in 7-104.107.

7-304 Additional Clauses. The following clauses shall be inserted in fixed-price research and development contracts in accordance with Departmental procedures when it is desired to cover the subject matter thereof:

9176 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

UMI 1983 MR - 3 ISS 43 VOL 48

7–304.1 *Changes.*

CHANGES (1965 JUN)

The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in any one or more of the following: (i) drawings, designs, or specifications; (ii) method of shipment or packing; and (iii) place of inspection, delivery, or acceptance. If any such change causes an increase or decrease in the cost of, or the time required for performance of, this contract, or otherwise affects any other provisions of this contract, whether changed or not changed by any such order, an equitable adjustment shall be made (i) in the contract price or time of performance, or both, and (ii) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change; *provided*, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes". However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(End of clause)

In the foregoing clause, the period of "thirty (30) days" within which any claim for adjustment must be asserted, may be varied in accordance with Departmental procedures. In accordance with 10 U.S.C. 2306(f), prior to the pricing of any change order that is expected to exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see 3–807.6) and shall assure the contract includes or is modified to include a defective pricing data clause (see 7–104.29).

7–304.2 *Alterations in Contract.* The clause in 7–105.1(a) may be inserted.

7–304.3 *Approval of Contract.* The clause in 7–105.2 may be inserted.

7–304.4 *Bill of Materials.* In accordance with 7–105.6, the clause set forth therein may be inserted.

7–304.5 *Notice of Shipments.* The clause in 7–105.4 may be inserted.

7–304.6 *Reports of Work.* In accordance with 7–404.6, the clause set forth therein may be inserted.

7–304.7 *Liquidated Damages.* In accordance with 1–310, the clause in 7–105.5 may be inserted.

7–304.8 *Reserved.*

7–304.9 *Reserved.*

7–304.10 *Warranties.* In accordance with 1–324, an appropriate warranty may be inserted.

7–304.11 *Stop Work Orders.* In accordance with 7–105.3, the clause set forth therein may be inserted.

7–304.12 *Term of Performance or Delivery Date.* Insert a clause in accordance with 1–305.5. Clauses in 7–104.92 shall be used as a guide.

of time specified in the preceding sentence except as provided in (d) below. Except as provided in paragraph (c) below, the allowability of the cost of any such replacement or correction shall be as provided in the clause of this contract entitled "Allowable Cost and Payment." Corrected articles shall not be tendered again for acceptance unless the former tender and the requirement of correction is disclosed. If the Contractor fails to proceed with reasonable promptness to perform such replacement or correction, the Government (i) may by contract or otherwise perform such replacement or correction and charge to the Contractor any increased cost occasioned the Government thereby, or (ii) in the case of articles not delivered, may require the delivery of such articles, or (iii) may terminate this contract for default. Failure to agree to the amount of any such increased cost to be charged to the Contractor shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(b) The following clause shall be inserted in all contracts subject to this Part when the clause in (a)(1) above is not used.

INSPECTION (1959 FEB)

The Government, through any authorized representatives, has the right at all reasonable times, to inspect, or otherwise evaluate the work performed or being performed hereunder and the premises in which it is being performed. If any inspection, or evaluation is made by the Government on the premises of the Contractor or a subcontractor, the Contractor shall provide and shall require his subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the Government representatives in the performance of their duties. All inspections and evaluations shall be performed in such a manner as will not unduly delay the work.

(End of clause)

(c) When it is desired to require contractors to maintain an inspection system in accordance with Military Specification MIL-I–45208 (see 14–303), the clause set forth in (a) above shall be included in the contract except that the following shall be added as the third sentence of paragraph (a):

The inspection system shall be in accordance with the edition of Military Specification MIL-I–45208 in effect on the date of this contract. (1967 AUG)

7–402.6 *Assignment of Claims.* In accordance with 7–103.8, insert the clause therein.

7–402.7 *Examination of Records.* In accordance with 7–104.15, insert the clause therein. In the case of research and development contracts with nonprofit institutions and subcontracts thereunder, and pursuant to procedures approved by the Comptroller General, original documentary evidence in support of costs of the transportation of things will not be required pursuant to said clause.

7–402.8 *Subcontracts.*

(a) In accordance with the requirements in 23–201.2, and subject to the instructions in (b) and (c) below, insert the following clause.

SUBCONTRACTS (1982 DEC)

(a) The Contractor shall notify the Contracting Officer reasonably in advance of entering into any subcontract (as used in this clause, the term "subcontract" includes, but is not limited to, purchase orders, changes, and/or modifications thereto) which (i) is cost-reimbursement type, time and materials or labor-hour, or (ii) is fixed-price-

type and exceeds in dollar amount either $25,000 or five percent (5%) of the total established cost of this contract, (iii) provides for the fabrication, purchase, rental, installation, or other acquisition of special test equipment having a value in excess of $10,000 or of any items of industrial facilities; or (iv) has experimental, developmental, or research work as one of its purposes.

(b) In the case of a proposed subcontract which (i) is cost-reimbursement, time and materials, or labor-hour which would involve an estimated amount in excess of $25,000, including any fee, (ii) is proposed to exceed $100,000, or (iii) is one of a number of subcontracts under this contract with a single subcontractor for the same or related supplies or services which, in the aggregate are expected to exceed $100,000, the advance notification required by (a) above shall include:

(1) a description of the supplies or services to be called for by the subcontract;
(2) identification of the proposed subcontractor and an explanation of why and how the proposed subcontractor was selected, including the degree of competition obtained;
(3) the proposed subcontract price, together with the Contractor's cost or price analysis thereof;
(4) the subcontractor's current, complete, and accurate cost or pricing data and Certificate of Current Cost or Pricing Data when such data and certificate are required by other provisions of this contract to be obtained from the subcontractor;
(5) identification of the type of subcontract to be used;
(6) a memorandum of negotiation which sets forth the principal elements of the subcontract price negotiations. A copy of this memorandum shall be retained in the Contractor's file for the use of Government reviewing authorities. The memorandum shall be in sufficient detail to reflect the most significant considerations controlling the establishment of initial or revised prices. The memorandum should include an explanation of why cost or pricing data was, or was not required, and, if it was not required in the case of any price negotiation in excess of $ 500 000, a statement of the basis for determining that the price resulted from or was based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. If cost or pricing data was submitted and a certificate of cost or pricing data was required, the memorandum shall reflect the extent to which reliance was not placed upon the factual cost or pricing data submitted and the extent to which this data was not used by the Contractor in determining the total price objective and in negotiating the final price. The memorandum shall also reflect the extent to which it was recognized in the negotiation that any cost or pricing data submitted by the subcontractor was not accurate, complete, or current, the action taken by the Contractor and the subcontractor as a result, and the effect, if any, of such defective data on the total price negotiated. Where the total price negotiated differs significantly from the Contractor's total price objective, the memorandum shall explain this difference;
(7) when incentives are used, the memorandum of negotiation shall contain an explanation of the incentive fee/profit plan identifying each critical performance element, management decisions used to quantify each incentive element, reasons for incentives on particular performance characteristics, and a brief summary of trade-off possibilities considered as to cost, performance, and time, and
(8) the subcontractor's Disclosure Statement or Certificate relating to Cost Accounting Standards when such data are required by other provisions of this contract to be obtained from the subcontractor.

Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change; *provided*, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, except as provided in paragraph (c) below, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(c) Notwithstanding the provisions of paragraphs (a) and (b) above, the estimated cost of this contract and, if this contract is incrementally funded, the funds allotted for the performance thereof, shall not be increased or deemed to be increased except by specific written modification of the contract indicating the new contract estimated cost and, if this contract is incrementally funded, the new amount allotted to the contract. Until such modification is made, the Contractor shall not be obligated to continue performance or incur costs beyond the point established in the clause of this contract entitled "Limitation of Cost" or "Limitation of Funds."

(End of clause)

In the foregoing clause, the period of "thirty (30) days" within which any claim for adjustment must be asserted, may be varied in accordance with Departmental procedures. In accordance with 10 U.S.C. 2306(f), prior to the pricing of any change order that is expected to exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see 3-807.6) and shall assure that the contract includes or is modified to include a defective pricing data clause (see 7-104.29).

7-404.2 *Alterations in Contract.* In accordance with 7-105.1(a), insert the clause therein.

7-404.3 *Approval of Contract.* In accordance with 7-105.2, insert the clause therein.

7-404.4 *Bill of Materials.* In accordance with 7-103.6, insert the clause therein.

7-404.5 *Stop Work Orders.* The clause in 7-105.3, if modified as prescribed in 7-205.6, is authorized for use under the criteria and in accordance with the instructions in 7-105.3.

7-404.6 *Reports of Work.*

REPORTS OF WORK (1966 JUL)

(a) The Contractor shall submit reports making full disclosure of all work done and the results thereof, in the manner, at the times, and to the extent set forth in the Schedule, *provided* that, unless otherwise specified in the Schedule, the Contractor shall submit such reports in triplicate from time to time as requested and upon completion (or earlier termination) of the work. Except as may be otherwise specified in the Schedule, or unless the Contractor is otherwise instructed, the Contractor shall, upon completion (or earlier termination) of the work, deliver any working drawings and specifications of any prototypes as may have been developed.

(b) If the Contractor becomes unable to complete the contract work and to deliver at the time specified in the Schedule because of technical difficulties, notwithstanding the exercise of good faith and diligent efforts in performance of the work, he shall give the Contracting Officer written notice of the anticipated delays with reasons therefor not less than forty-five (45) days before the completion date specified in the Schedule or within such time as the Contracting Officer deems sufficient. When notice is so required, the Contracting Officer may, in his discretion, extend the time specified in the Schedule for such period as he deems advisable.

(End of clause)

9178 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

In the above clause, the words "[ ]" shall be inserted in the blank space provided in paragraph (a) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (b) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (c) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (d) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (e) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (f) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (g) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (h) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (i) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (j) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (k) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (l) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (m) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (n) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (o) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (v) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (w) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (x) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (y) of the clause. The words "[ ]" shall be inserted in the blank space provided in paragraph (z) of the clause.

UMI
1983
MR - 3
ISS 43
VOL 48

In the above clause, the words "Task Order" or other appropriate designation may be substituted for the word "Schedule," as appropriate. Subparagraph (a) may be used without subparagraph (b). The last sentence of subparagraph (b) may be omitted.

7-404.7 *Title and Risk of Loss.* In accordance with 7-103.6, insert the clause therein.

7-404.8 *Term of Performance or Delivery Date.* Insert a clause in accordance with 1-305.5. Clauses in 7-104.92 shall be used as a guide.

7-404.9 *Warranty of Technical Data.* In accordance with 1-324.6, insert the clause in 7-104.9(o).

(i) in the specifications (including drawings and designs);
(ii) in the method or manner of performance of the work;
(iii) in the Government-furnished facilities, equipment, materials, services, or site; or
(iv) directing acceleration in the performance of the work.

(b) Any other written order or an oral order (which terms as used in this paragraph (b) shall include direction, instruction, interpretation or determination) from the Contracting Officer, which causes any such change, shall be treated as a change order under this clause, *provided* that the Contractor gives the Contracting Officer written notice stating the date, circumstances, and source of the order and that the Contractor regards the order as a change order.

(c) Except as herein provided, no order, statement, or conduct of the Contracting Officer shall be treated as a change under this clause or entitle the Contractor to an equitable adjustment hereunder.

(d) If any change under this clause causes an increase or decrease in the Contractor's cost of, or the time required for, the performance of any part of the work under this contract, whether or not changed by any order, an equitable adjustment shall be made and the contract modified in writing accordingly: *Provided, however*, That except for claims based on defective specifications, no claim for any change under (b) above shall be allowed for any costs incurred more than 20 days before the Contractor gives written notice as therein required: *And provided further*, That in the case of defective specifications for which the Government is responsible, the equitable adjustment shall include any increased cost reasonably incurred by the Contractor in attempting to comply with such defective specifications.

(e) If the Contractor intends to assert a claim for an equitable adjustment under this clause, he must, within 30 days after receipt of a written change order under (a) above or the furnishing of a written notice under (b) above, submit to the Contracting Officer a written statement setting forth the general nature and monetary extent of such claim, unless this period is extended by the Government. The statement of claim hereunder may be included in the notice under (b) above.

(f) No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this contract.

(End of clause)

In the foregoing clause, the period of "30 days" within which any claim for adjustment must be asserted may be varied in accordance with Departmental procedures. In accordance with 10 U.S.C. 2306(f), prior to the pricing of any change order that is expected to exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see 3-807.6) and shall assure that the contract includes or is modified to include a defective pricing data clause (see 7-104.29).

7-602.4 *Differing Site Conditions.*

DIFFERING SITE CONDITIONS (1968 FEB)

(a) The Contractor shall promptly, and before such conditions are disturbed, notify the Contracting Officer in writing of: (1) subsurface or latent physical conditions at the site differing materially from those indicated in this contract, or (2) unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inhering in work of the character provided for in this contract. The Contracting Officer shall promptly investigate the conditions, and if he finds that such conditions do materially so differ and cause an increase or decrease in the Contractor's cost of, or the time required for, performance of any part of the work under this contract, whether or not changed as a result of such conditions, an equitable adjustment shall be made and the contract modified in writing accordingly.

(b) No claim of the Contractor under this clause shall be allowed unless the Contractor has given the notice required in (a) above; *provided*, however, the time prescribed therefor may be extended by the Government.

(c) No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this contract.

(End of clause)

In accordance with 10 U.S.C. 2306(f), prior to the pricing of any modification pursuant to the "Differing Site Conditions" clause that is expected to exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see 3-807.6) and shall assure that the contract includes or is modified to include a defective pricing data clause (see 7-104.29).

7-602.5 *Termination for Default—Damages for Delay—Time Extensions.* In accordance with 8-709, insert the following clause.

TERMINATION FOR DEFAULT—DAMAGES FOR DELAY—TIME EXTENSIONS (1969 AUG)

(a) If the Contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will insure its completion within the time specified in this contract, or any extension thereof, or fails to complete said work within such time, the Government may, by written notice to the Contractor, terminate his right to proceed with the work or such part of the work as to which there has been delay. In such event the Government may take over the work and prosecute the same to completion, by contract or otherwise, and may take possession of and utilize in completing the work such materials, appliances, and plant as may be on the site of the work and necessary therefor. Whether or not the Contractor's right to proceed with the work is terminated, he and his sureties shall be liable for any damage to the Government resulting from his refusal or failure to complete the work within the specified time.

(b) If fixed and agreed liquidated damages are provided in the contract and if the Government so terminates the Contractor's right to proceed, the resulting damage will consist of such liquidated damages until such reasonable time as may be required for final completion of the work together with any increased costs occasioned the Government in completing the work.

(c) If fixed and agreed liquidated damages are provided in the contract and if the Government does not so terminate the Contractor's right to proceed, the resulting damage will consist of such liquidated damages until the work is completed or accepted.

(d) The Contractor's right to proceed shall not be so terminated nor the Contractor charged with resulting damage if:

(1) The delay in the completion of the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor, including but not restricted to, acts of God, acts of the public enemy, acts of the Government in either its sovereign or contractual capacity, acts of another Contractor in the performance of a contract with the Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather, or delays of subcontractors or suppliers arising from unforeseeable causes beyond the control and without the fault or negligence of both the Contractor and such subcontractors or suppliers; and

(2) The Contractor, within 10 days from the beginning of any such delay (unless the Contracting Officer grants a further period of time before the date of final payment under the contract), notifies the Contracting Officer in writing of the causes of delay. The Contracting Officer shall ascertain the facts and the extent of the delay and extend the time for completing the work when, in his judgment, the findings of fact justify such an extension, and his findings of fact shall be final and conclusive on the parties, subject only to appeal as provided in the "Disputes" clause of this contract.

(e) If, after notice of termination of the Contractor's right to proceed under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause, or that the delay was excusable under the provisions of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the Government, be the same as if the notice of termination had been issued pursuant to such clause. If, in the foregoing circumstances, this contract does not contain a clause providing for termination for convenience of the Government, the contract shall be equitably adjusted to compensate for such termination and the contract modified accordingly; failure to agree to any such adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes".

(f) The rights and remedies of the Government provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

(g) As used in paragraph (d)(1) of this clause, the term "subcontractors or suppliers" means subcontractors or suppliers at any tier.

(End of clause)

During a period of national emergency, paragraph (d) of the above clause may be changed by deleting the word "unforeseeable" and inserting the phrase "other than normal weather", after the word "causes" wherever it appears. When Standard Form 23A is used, the words "Disputes clause of this contract" in the above clause need not be substituted for "Clause 6 of these General Provisions".

7-602.6 *Disputes.*

(a) Except as provided in (b) below, insert the following clause:

DISPUTES (1964 JUN)

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the head of the agency involved. The decision of the head of the agency or his duly authorized representative for the determination of such appeals shall be final and conclusive. This provision shall not be pleaded in any suit involving a question of fact arising under this contract as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged: *Provided, however*, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for in paragraph (a) above. Nothing in this contract, however, shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

(End of clause)

In accordance with Departmental procedures, the foregoing clause may be modified to provide for intermediate appeal in overseas areas. The decision shall, if mailed, be sent by certified mail, return receipt requested.

(b) In procurements to be performed outside the United States, its possessions and Puerto Rico, when it is anticipated that the contractor will be a foreign firm, one of the clauses provided for in 7-103.12(b) will be inserted in accordance with the instructions therein.

(c) The form in which the contracting officer shall notify the contractor of

8160 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

UMI
1983
MAR 3
ISS 43
VOL 48

(c) The form in which the contracting officer shall notify the contractor of his decision under the Disputes clause is set forth in 1-314.

7-602.7 *Payments to Contractor.* Insert the following clause.

PAYMENTS TO CONTRACTOR (1982 DEC)

(a) The Government will pay the contract price as hereinafter provided.

(b) The Government will make progress payments monthly as the work proceeds, or at more frequent intervals as determined by the Contracting Officer, on estimates approved by the Contracting Officer. If requested by the Contracting Officer, the Contractor shall furnish a breakdown of the total contract price showing the amount included therein for each principal category of the work, in such detail as requested, to provide a basis for determining progress payments. In the preparation of estimates the Contracting Officer, at his discretion, may authorize material delivered on the site and preparatory work done to be taken into consideration. Material delivered to the Contractor at locations other than the site may also be taken into consideration (1) if such consideration is specifically authorized by the contract and (2) if the Contractor furnishes satisfactory evidence that he has acquired title to such material and that it will be utilized on the work covered by this contract.

(c) In making such progress payments, there shall be retained 10 percent (10%) of the estimated amount until final completion and acceptance of the contract work. However, if the Contracting Officer finds that satisfactory progress was achieved during any period for which a progress payment is to be made, he may authorize such payment to be made in full without retention of a percentage. Also, whenever the work is substantially complete, the Contracting Officer shall retain an amount he considers adequate for the protection of the Government and, at his discretion, may release to the Contractor all or a portion of any excess amount. Furthermore, on completion and acceptance of each separate building, public work, or other division of the contract, on which the price is stated separately in the contract, payment may be made therefor without retention of a percentage.

(d) All material and work covered by progress payments made shall thereupon become the sole property of the Government, but this provision shall not be construed as relieving the Contractor from the sole responsibility for all material and work upon which payments have been made or the restoration of any damaged work, or as waiving the right of the Government to require the fulfillment of all of the terms of the contract.

(e) The Contractor shall, upon request, be reimbursed for the entire amount of premiums paid for performance and payment bonds (including coinsurance and reinsurance agreements, when applicable) and for any fees paid to the Small Business Administration under the Surety Bond Guarantee Program, after furnishing evidence of full payment.

(f) Upon completion and acceptance of all work, the amount due the Contractor under this contract shall be paid upon the presentation of a properly executed voucher and after the Contractor shall have furnished the Government with a release of all claims against the Government arising by virtue of this contract, other than claims in stated amounts as may be specifically excepted by the Contractor from the operation of the release. If the Contractor's claim to amounts payable under the contract has been assigned under the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), a release may also be required of the assignee.

(End of clause)

7-602.8 *Assignment of Claims.*

ASSIGNMENT OF CLAIMS (1976 OCT)

(a) Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), if this contract provides for payments aggregating $1,000 or more, claims for moneys due or to become due the Contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing. Unless otherwise provided in this contract, payments to assignees of any moneys due or to become due under this contract shall not, to the extent provided in said

(End of clause)

7-1601.8 *Facilities.*

FACILITIES (1982 DEC)

(a) As the minimum standard for qualifications of a Contractor's warehouse, it must have either (i) an acceptable automatic sprinkler system; or (ii) a supervised fire detection and reporting system. Installed fire protective systems must be accredited by the cognizant fire insurance rating organization for insurance rate credit. Additionally, the facility will be protected by an adequate water supply for fire fighting and a fire department which is responsive 24 hours a day. Statements from the cognizant fire insurance rating organization, municipal fire department, or local authority, having jurisdiction, will be used as a basis for determining the sufficiency or adequacy of a fire fighting water supply and the responsiveness of a fire department to protect a facility.

(b) The following information shall be furnished by the Contractor upon receipt of award:

Evidence of the following kinds and minimum amounts of insurance covering work herein to be performed by the Contractor. The Contractor shall maintain at least the minimum coverage stated below* throughout the contract period. Each policy shall contain an indorsement that cancellation or material change in the policy shall not be effective until after a 30-day written notice is furnished to the Contracting Officer.

(1) Workmen's Compensation Insurance $*.....

(2) Comprehensive General Liability Insurance $*.....

(3) Automobile Liability Insurance $*.....

(End of clause)

*The insurance coverage specified in 10-801 is the minimum insurance required. Additional coverage and higher limits may be required by the Contracting Officer.

7-1601.9 *Performance.*

PERFORMANCE (1977 APR)

(a) The services called for hereunder shall be performed in conformance with the latest issue of MIL-STD 212, "Preparation of Household Goods for Shipment or Storage and Related Services," in effect on date of the solicitation, for Schedules I and II, unless otherwise directed by the Contracting Officer. The following are desired minimum stowage factor standards in stuffing of shipping containers:

(1) For Federal Specification PPP-B-580 containers — 5.7 net lbs. per gross cubic foot of container cube.

(2) For air cargo containers — 8.9 net lbs. per gross cubic foot of container cube.

Failure to meet the above standards may be cause for rejection of the services performed unless the Contractor can demonstrate the standards cannot be met. (The term "stuffing" as related to containers means loading of personal property into shipping containers.)

(b) Labor employed to perform pickup and delivery, inventorying, packing, crating, weighing, marking, loading, drayage, unpacking, blocking, bracing, and other services described herein shall be competent in the performance of such services.

(c) Inventory of shipment shall be accomplished pursuant to provisions of the latest issue of MIL-STD 212 in effect on date of solicitation.

(d) All services shall be performed in accordance with the priority order established by the Contracting Officer.

(e) MIL-STD 212, "Military Standard-Preparation of Household Goods for Shipment and Storage and Related Services," and applicable specifications referred to therein are available for reference in the local procurement or transportation offices.

(f) When pickup of shipments is part of line-haul service, the Contractor shall perform loading on freight carrier's equipment at Contractor's facility.

(End of clause)

7-1601.10 *Time Requirements.*

TIME REQUIREMENTS (1970 MAY)

(a) The Contractor shall commence containerization of household goods or unaccompanied baggage at owner's residence or Contractor's facility on the date specified by the Contracting Officer. If containerization is ordered at Contractor's facility, the household goods or unaccompanied baggage shall be picked up on the date and within the hours specified. Unless a longer period is authorized by the Contracting Officer, the maximum containerization time allowed at the Contractor's facility shall be three (3) working days following specified pickup date for household goods and two (2) working days following specified pickup date for unaccompanied baggage.

(b) The Contracting Officer or his designated representative shall normally give the Contractor notice to commence containerization or to pick up household goods or baggage shipments at least twenty-four (24) hours prior to the date specified.

(c) Delivery or removal of household goods or unaccompanied baggage to or from owner's residence, or containerization of household goods or unaccompanied baggage at owner's residence, shall commence between the hours of 8:00 a.m.-12m. (noon) or 12m. (noon) - 5:00p.m. as specified, Monday through Friday, officially declared National, State or local holidays excluded. The Contracting Officer may authorize performance of services at other times when agreed to by the owner or his authorized agent and the Contractor.

(d) The Contractor shall accept and pick up inbound shipments of household goods, or unaccompanied baggage, effect delivery thereof to the destination, and shall unload and unpack the same on the date and within the hours specified by the Contracting Officer during the working hours set forth above. The Contractor will notify the Contracting Officer upon arrival of a shipment but no later than the morning of the next workday. Delivery shall be effected within two (2) working days following date of receipt or notification of arrival unless otherwise specified.

(End of clause)

7-1601.11 *Demurrage.*

DEMURRAGE (1970 MAY)

The Contractor shall be liable for all demurrage, detention, or other charges accruing as a result of his failure to load or unload trucks, freight cars, freight terminals, vessel piers, or warehouses within the free time allowed under applicable rules and tariffs.

(End of clause)

Part 19—Service Contracts

7-1900 Scope of Part. This Part sets forth uniform contract clauses for service contracts as defined in 7-1901.

7-1901 Applicability.

(a) As used throughout this Part, the term "*service contract*" means any contract entered into either by formal advertising or negotiation which calls directly for a contractor's time and effort rather than for a concrete end product. See 22-101(a).

(b) Service contracts are generally found in areas involving the following:

(i) maintenance, overhaul, repair, servicing, rehabilitation, salvage, and modernization or modification of supplies, systems and equipment;
(ii) maintenance, repair, rehabilitation, and modification of real property;
(iii) installation of equipment obtained under separate contract;
(iv) operation of Government-owned equipment, facilities, and systems;
(v) engineering and technical services;
(vi) housekeeping and base services;
(vii) transportation and related services;
(viii) training and education;
(ix) photographic, printing and publication services;
(x) mortuary services;
(xi) test services;
(xii) data processing;
(xiii) warehousing; and
(xiv) stevedoring.

(c) Clauses applicable to service contracts in general appear in this part. Additional clauses for special types of service contracts appear in other parts of this section. "*Service contracts*," as used herein, does not include purchase orders (but see 7-1903.12 and 7-1903.13), short form negotiated supply and service contracts (see 16-102.2(c)), letter contracts (but see 7-802 and 3-408(a)), notices of award, or supplemental agreements which do not effect new procurement. This term does not include contracts for construction of buildings, bridges, roads, or other kinds of real property, contracts for architect or engineer services, contracts for experimental, developmental or research work, contracts for facilities provided by the Government under facilities contracts as defined in 7-701 and Section XIII, or any other contracts for which these clauses are not appropriate. However, there are service contracts in which performance involves construction, research and development, or other specified factors. In such cases, see the particular parts of this section containing additional applicable clauses. When a contract is partly a firm fixed price contract and partly a fixed price incentive contract, the clauses required for both types of contracts shall be included. When any provision is applicable only to firm fixed price items, or only to items subject to incentive price revision, such provision shall be so labeled.

7-1902 Required Clauses for Fixed Price Service Contracts. The following clauses shall be inserted in all fixed price service contracts, unless otherwise provided elsewhere in this section for specific types of services.

7-1902.1 *Definitions.* In accordance with 7-103.1, insert the clause therein.

9182 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

7-1902.2 *Changes.* Insert the following clause in all fixed price service contracts except stevedoring contracts. (See Part 10.)

CHANGES (1971 NOV)

The Contracting Officer may at any time, by a written order, and without notice to the sureties, make changes, within the general scope of this contract, in the definition of services to be performed, and the time (*i.e.*, hours of the day, days of the week, etc.) and place of performance thereof. If any such change causes an increase or decrease in the cost of, or the time required for the performance of any part of the work under this contract, whether changed or not changed by any such order, an equitable adjustment shall be made in the contract price or delivery schedule, or both, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within 30 days from the date of receipt by the Contractor of the notification of change, *provided*, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Where the cost of property made obsolete or excess as result of a change is included in the Contractor's claim for adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(End of clause)

In the foregoing clause, the period of "30 days" within which any claim for adjustment must be asserted may be varied in accordance with Departmental procedures. In accordance with 10 U.S.C. 2306(f), prior to the pricing of any change order that is expected to exceed $500,000, except where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see 3-807.6) and shall assure that the contract includes or is modified to include a defective pricing data clause (see 7-104.29) and the audit clause required by 7-104.41.

7-1902.3 *Extras.* Insert the clause in 7-103.3.

7-1902.4 *Inspection of Services.*

INSPECTION OF SERVICES (1971 NOV)

(a) All services (which term throughout this clause includes services performed, material furnished or utilized in the performance of services, and workmanship in the performance of services) shall be subject to inspection and test by the Government, to the extent practicable at all times and places during the term of the contract. All inspections by the Government shall be made in such a manner as not to unduly delay the work.

(b) If any services performed hereunder are not in conformity with the requirements of this contract, the Government shall have the right to require the Contractor to perform the services again in conformity with the requirements of the contract, at no additional increase in total contract amount. When the services to be performed are of such a nature that the defect cannot be corrected by reperformance of the services, the Government shall have the right to (i) require the Contractor to immediately take all necessary steps to ensure future performance of the services in conformity with the requirements of the contract; and (ii) reduce the contract price to reflect the reduced value of the services performed. In the event the Contractor fails promptly to perform the services again or to take necessary steps to insure future performance of the services in conformity with the requirements of the contract, the Government shall have the right to either (i) by contract or otherwise have the services performed in conformity with the contract requirements

(c) The Contractor shall notify the Contracting Officer of any increases claimed under this clause within thirty (30) days after the effective date of the wage change, unless this period is extended by the Contracting Officer in writing. In the case of any decrease under this clause, the Contractor shall promptly notify the Contracting Officer of such decrease but nothing herein shall preclude the Government from asserting a claim within the period permitted by law. The notice shall contain a statement of the amount claimed and any other relevant data in support thereof, which may reasonably be required by the Contracting Officer. Upon agreement of the parties, the contract price or contract unit price labor rates shall be modified in writing. Pending agreement on or determination of, any such adjustment and its effective date, the Contractor shall continue performance.

(d) The Contracting Officer or his authorized representative shall, until the expiration of three (3) years after final payment under the contract, have access to and the right to examine any directly pertinent books, documents, papers and records of the Contractor.

(End of clause)

7-1906 Incentive Price Revision Clauses. When it is determined in accordance with Section III, Part 4, to provide for incentive price revision, the applicable clause in 7-108 may be included.

7-1907 Price Redetermination Clauses. When it is determined in accordance with 3-404.5 or 3-404.6 to use a fixed price contract providing for redetermination of price, the applicable clause in 7-109 may be included.

7-1908 Clauses for Contracts Involving Furnishing of Supplies. In service contracts which involve the furnishing of supplies, the following clauses shall be included in addition to those prescribed in 7-1902. In addition, applicable clauses in 7-104, 7-105 and 7-106 shall be included. Any clause applicable only to services or only to supplies shall be so labeled.

Changes clause in 7-103.2;
Variation of Quantity clause in 7-103.4;
Inspection clause in 7-103.5;
Title and Risk of Loss clause in 7-103.6;
Discounts clause in 7-103.14;
Walsh-Healey Public Contracts Act clause in 7-103.17.

7-1909 Required Clauses for Cost Reimbursement Type Service Contracts. The following clauses shall be included in all cost reimbursement type service contracts unless otherwise provided elsewhere in this section for specific types of services.

7-1909.1 *Definitions.* In accordance with 7-103.1, insert the clause therein.

7-1909.2 *Changes.*

CHANGES (1971 NOV)

(a) The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in the definition of services and tasks to be performed, and the time (*i.e.*, hours of the day, days of the week, etc.) and place of performance thereof.

(b) If any such changes cause an increase or decrease in the estimated cost of, or the time required for, the performance of any part of the work under this contract, whether changed or not changed by any such order, or otherwise affects any other provision of this contract, an equitable adjustment shall be made:

(i) in the estimated cost or delivery schedule, or both;
(ii) in the amount of any fixed fee to be paid to the Contractor; and
(iii) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly.

UMI 1983 MR 13 ISS 43 VOL 48

CONTRACT CLAUSES AND SOLICITATION PROVISIONS

Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change; *provided*, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, except as provided in paragraph (c) below, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(c) Notwithstanding the provisions of paragraphs (a) and (b) above, the estimated cost of this contract and, if this contract is incrementally funded, the funds allotted for the performance thereof, shall not be increased or deemed to be increased except by specific written modification of the contract indicating the new contract estimated cost and, if this contract is incrementally funded, the new amount allotted to the contract. Until such modification is made, the Contractor shall not be obligated to continue performance or incur costs beyond the point established in the clause of this contract entitled "Limitation of Cost" or "Limitation of Funds."

(End of clause)

In the foregoing clause, the period of "thirty (30) days" within which any claim for adjustment must be asserted may be varied in accordance with Departmental procedures. In accordance with 10 U.S.C. 2306(f), prior to the pricing of any change order that is expected to exceed $500,000, except when the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation, the contracting officer shall require the contractor to furnish a Certificate of Current Cost or Pricing Data (see 3-807.6) and shall assure that the contract includes or is modified to include a defective pricing data clause (see 7-104.29).

7-1909.3 *Limitation of Cost or Funds.* In accordance with 7-203.3, insert the appropriate clause therein.

7-1909.4 *Allowable Cost, Fee and Payment.*

(a) Except as provided in (b) below, insert the clause in 7-203.4(a). See additional instructions in 7-203.4(c).

(b) When, pursuant to 3-405.4, incentive revision of the fee in a cost reimbursement service contract is to be provided, insert the clause in 7-203.4(b). See additional instructions in 7-203.4(c).

7-1909.5 *Inspection of Services (Cost Reimbursement).*

INSPECTION OF SERVICES—COST REIMBURSEMENT (1971 NOV)

(a) All services (which term throughout this clause includes services performed, material furnished or utilized in the performance of services, and workmanship in the performance of services) shall be subject to inspection and test by the Government, to the extent practicable at all times and places during the term of the contract. All inspections by the Government shall be made in such a manner as not to unduly delay the work.

(b) If any services performed hereunder are not in conformity with the requirements of this contract, the Government shall have the right to require the Contractor to perform the services again, in conformity with the requirements of the contract, without payment of additional fee. When the services to be performed are of such a nature that the defect cannot be corrected by re-performance of the services, the Government shall have the right to (i) require the Contractor to immediately take all necessary steps to ensure future performance of the services in conformity with the requirements of the contract, and (ii) reduce any fee payable under the contract to reflect the reduced value of the services performed. In the event the Contractor fails promptly to perform the services again or to take the necessary steps to ensure future performance of the services in conformity with the requirements of the contract, the Government shall have the right

TERMINATION OF CONTRACTS

(ii) extent of the termination, point at which work is stopped, and status of any plans, drawings, and information which would have been delivered had the contract been completed;
(iii) status of any continuing work;
(iv) obligation of the contractor to terminate subcontracts and general principles to be followed in settlement of subcontractor claims;
(v) names of subcontractors involved and the respective dates termination notices were issued to them;
(vi) contractor personnel handling, and methods for, review and settlement of subcontractor claims;
(vii) arrangements for transfer of title and delivery to the Government of any materials required by the Government;
(viii) general principles and procedures to be followed in the protection, preservation, and disposition of contractor's and subcontractor's termination inventory, including the preparation of termination inventory schedules;
(ix) contractor accounting practices and preparation of DD Form 546 (Schedule of Accounting Information) (8-802.9);
(x) form in which settlement proposals shall be submitted;
(xi) accounting review of settlement proposals;
(xii) any requirement for interim financing in the nature of partial payments;
(xiii) tentative time schedule for negotiation of the settlement, including submission of settlement proposals, termination inventory schedules, and accounting information schedules by the contractor and subcontractors; and
(xiv) actions taken by the contractor to minimize impact upon employees affected adversely by the termination (see paragraph 7 of the letter notice in 8-801.2).
(xv) obligation of the contractor to furnish accurate, complete and current cost or pricing data and to certify to that effect in accordance with 3-807.6(f) prior to execution of the termination settlement agreement in excess of $500,000.

8-206.1 *Termination Status Report.* Upon receipt of the termination notice, it is the responsibility of the contract administration office to prepare DD Form 1598, Contract Termination Status Report, and transmit two copies to the purchasing office and one copy to the headquarters office to which the contract administration office is directly responsible. In addition, these reports shall be furnished on a quarterly basis for the quarters ending March, June, September, and December, within 30 days after the end of the respective quarter, and upon closing of the termination case. This reporting requirement is assigned Report Control Symbol: DD (I&L) (Q&AR) 1411.

8-206.2 *Release of Excess Funds.* An estimate of funds required to settle the termination claim will be made by the TCO at the earliest practicable date. Except in cases where (i) the contract price of items terminated is $1,000 or less, or (ii) the estimated amount of excess funds available is $1,000 or less, funds obligated under the contract in excess of an estimated amount required for settlement will be released to the purchasing office within 30 days after receipt of the

9184 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

TERMINATION OF CONTRACTS

TERMINATION OF CONTRACTS

termination notice by the TCO. Amounts of less than $1,000 shall be released upon request from the purchasing office. Continuous surveillance of required funds will be maintained by the TCO to permit timely release of any additional excess funds. In all cases, funds will be released within 10 days after the amount required for settlement has been determined by the TCO. A recommended format for release of excess funds is in 8–807. If it appears that the previous releases of excess funds have resulted in a shortage of the amount which will be required for settlement, the TCO will inform the purchasing office and request by letter the reinstatement of funds, which will be provided within 30 days thereafter.

8–206.3 *Termination Case File.* A separate termination case file shall be established and maintained for each individual termination by the TCO responsible for negotiating final settlement. Such file shall include records of all actions relative to the settlement. (See 1–308.)

8–207 Fraud or Other Criminal Conduct. Whenever the TCO has reason to suspect fraud or other criminal conduct in connection with the settlement of a terminated contract, he shall discontinue all negotiations with the contractor and shall report the facts in accordance with 1–111.

8–208 Audit of Prime Contract Settlement Proposals and of Subcontract Settlements.

(a) Each settlement proposal of $10,000 or over submitted by a prime contractor shall be referred by the TCO to the Defense Contract Audit Agency for appropriate examination and recommendation. The TCO may, when circumstances indicate the necessity therefor, refer settlement proposals of less than $10,000 to such agency. The TCO's referral shall be in writing, indicate any specific information or data which the TCO desires to have developed, and include any facts or circumstances within the knowledge of the TCO which will assist the Defense Contract Audit Agency in the accomplishment of its function. The auditor shall develop such information and may make such further accounting review as he deems appropriate. The Defense Contract Audit Agency shall submit written comments and recommendations to the TCO. In claims of less than $10,000 where a formal examination of the settlement proposal is not warranted, a desk review will be performed by the TCO or a qualified member of his staff. A written summary of the review will be incorporated in the termination case file.

(b) Subcontract settlements submitted by a contractor to the TCO for approval or ratification in accordance with 8–209 shall be referred to the Defense Contract Audit Agency for review and recommendations if (i) the settlement involves $25,000 or more unless an accounting review of the settlement proposal has been performed by the Defense Contract Audit Agency; or (ii) the TCO considers an accounting review in whole or in part, desirable. The requirement for review under (i) or (ii) does not relieve the prime contractor or higher tier subcontractor of the responsibility for performing an accounting review. The Defense Contract Audit Agency shall submit written comments and recommendations to the TCO.

(c) The responsibility of the contractor set forth in 8–209.1 for settlement of immediate subcontractors' settlement proposals applies equally to prime contractors and subcontractors and includes responsibility for performing accounting

The invoice or voucher, if proper, shall be approved by the TCO by noting thereon the following:

Payment in the amount of $.....approved.

8–213.2 *Final Payment.*

(a) *Negotiated Settlement.* Upon execution of a settlement agreement, a voucher or invoice showing the amount agreed upon, less any portion previously paid, shall be prepared and presented to the disbursing officer for payment. A copy of the settlement agreement shall be attached to the voucher or invoice.

(b) *Settlement by Determination.* In the event of a settlement by determination:

(i) if the contractor has not appealed the determination a voucher or invoice showing the amount so determined to be due, less any portion previously paid, shall be prepared and presented to the disbursing officer for payment; or

(ii) if the contractor has appealed the determination, a voucher or invoice showing the amount finally determined on such appeal to be due, less any portion previously paid, shall be prepared and presented to the disbursing officer for payment. Pending determination of any appeal, an invoice or voucher pursuant to (i) above may be presented to the disbursing officer for payment, without prejudice to the rights of either party on the appeal.

(c) *Interest.* No interest shall be paid by the Government on the amount due under a settlement agreement or a settlement by determination.

8–214 Cost Principles. The cost principles and procedures set forth in the applicable Part of Section XV shall, subject to the general policies set forth in 8–301, (i) be used in claiming, negotiating, or determining costs relevant to termination settlements under fixed price and cost reimbursement type contracts with other than educational institutions; and (ii) be a guide for the negotiation of settlements under fixed price or cost reimbursement type contracts for experimental, developmental or research work with educational institutions (but see 15–103(iii)).

8–215 Settlement of Unadjusted Contract Changes.

(a) Prior to settlement of a completely terminated contract, the TCO shall obtain from the purchasing office a list of all unadjusted contract changes pertaining thereto. The TCO shall settle, as part of final settlement, all unadjusted contract changes after obtaining the recommendations of the purchasing office concerning such changes.

(b) When the contract has been partially terminated, any outstanding unadjusted contract changes will be handled by the purchasing office. However, delegation may be made by the PCO to the TCO.

TERMINATION OF CONTRACTS

8-216 Terminated Contracts With Canadian Commercial Corporation.

(a) The termination and settlement of contracts with the Canadian Commercial Corporation shall be effected in accordance with the provisions of (i) the Letter of Agreement between the Department of Defence Production (Canada) and the United States Department of Defense (6-1401(a)); (ii) policies in Section VI, Part 5, and Section VIII; and (iii) the Manual of Procedure on Termination of Contracts, Department of Defence Production (Canada).

(b) The termination claim of Canadian Commercial Corporation shall be submitted in the form prescribed in 8-802, and shall reflect the amount of settlements with subcontractors. The letter transmitting the claim shall certify that (i) subcontract settlements with Canadian subcontractors have been approved by the Contracts Settlement Committee of the Department of Defence Production (Canada), if required pursuant to the Manual of Procedure on Termination of Contracts, Department of Defence Production (Canada), and (ii) that disposition of inventory has been completed. The TCO shall prepare an appropriate settlement agreement pursuant to the provisions of 8-210 and 8-805.

(c) All Canadian subcontracts shall be settled by the Canadian Commercial Corporation pursuant to 6-504.3. Schedules listing serviceable or usable contractor inventory shall be submitted by the Canadian Commercial Corporation to the TCO for screening in accordance with the provisions of 24-205. Transfer instructions resulting from screening procedures shall be submitted to the Canadian Commercial Corporation for action. At the expiration of the screening period, the TCO shall advise the Canadian Commercial Corporation to proceed with disposition of contractor inventory determined to be surplus to the requirements of the Government. The settlement of Canadian subcontracts shall not be subject to approval or ratification by the TCO, except that in cases that result in a proposed negotiated settlement in excess of the total contract price of the prime contract, ratification of the proposed settlement by the United States PCO, evidenced by a contract modification increasing the contract price and obligating required additional funds shall be obtained by the TCO prior to final settlement.

(d) Termination claims submitted by United States subcontractors and suppliers normally should be referred by the Canadian Commercial Corporation to the TCO (normally DCASR, Cleveland) for settlement in accordance with this Section and Section XXIV. Upon completion of all settlement action, the TCO shall advise the Canadian Commercial Corporation of the amount of the net settlement agreed upon, which shall be included in the termination claim submitted pursuant to (b) above. Execution of a settlement agreement with the subcontractor shall be the responsibility of the Canadian Commercial Corporation.

8-217 Settlement of Terminated Contracts With Incentive Provisions.

(a) *FPI Contracts.* The settlement of terminated contracts containing an incentive clause shall be in accordance with the provisions of paragraph (i) of the clause in 7-108.1.

(1) *Partial Termination.* Under a partial termination of a FPI contract, the TCO shall negotiate a settlement pursuant to the termination for convenience clause, as provided in paragraph (i) of the clause in 7-108.1 and paragraph (k) of the clause in 7-108.2. The application of the incentive price revision provisions to completed items accepted by the Government, including any for which reimbur-

CONTRACT COST PRINCIPLES AND PROCEDURES

(i) valuation placed on the stock transferred shall be the fair market value at the time of transfer, determined upon the most objective basis available; and

(ii) accruals for the cost of stock prior to the issuance of such stock to the employees shall be subject to adjustment according to the possibilities that the employees will not receive such stock and their interest in the accruals will be forfeited.

(e) *Stock Options.* (CWAS-NA) The cost of options to employees to purchase stock of the contractor or of an affiliate is unallowable.

(f) *Deferred Compensation.* (CWAS-NA)

(1) As used herein, deferred compensation includes all remuneration, in whatever form, for which the employee is not paid until after the lapse of a stated period of years or the occurrence of other events as provided in the plans, except that it does not include normal end of accounting period accruals. It includes (i) contributions to pension (including early retirement), annuity, stock bonus, and profit sharing plans, (ii) contributions to disability, withdrawal, insurance, survivorship, and similar benefit plans, and (iii) other deferred compensation, whether paid in cash or in stock.

(2) Deferred compensation is allowable only to the extent that:

(i) it is, together with all other compensation paid to the employee, reasonable in amount; and

(ii) it is paid pursuant to an agreement entered into in good faith between the contractor and employees before the services are rendered, or pursuant to a plan established and consistently applied thereafter by the contractor. Pension plans and other types of deferred compensation not covered by Part 415, Appendix O, are also subject to the provisions of (A), (B), and (C) below. Deferred compensation covered by Part 415, Appendix O, is not subject to the limitations of the Internal Revenue Code and regulations thereunder, but is subject to the provisions of (D) and (E) below. Employee Stock Ownership Plans (ESOP) are considered pension plans and are covered by the funding and forfeiture provisions of (A) below (subparagraphs *a*, *c*, and *d*), and the provisions of (F) below.

(A) it is deductible for the same fiscal year for Federal income tax purposes under Section 404 (excluding subsection (a)(5)) of the Internal Revenue Code of 1954 as amended and the regulations of the Internal Revenue Service, *provided*, that

a. normal costs of pension plans incurred subsequent to the effective date of this paragraph, not funded in the year incurred, and pension costs or adjustments of previous years (past service) allocable to the current accounting period but not funded in such period shall not be allowable in subsequent years (except that a payment made to a fund by the time set for filing of the Federal income tax return for any taxable year shall be deemed to have been made during such taxable year). However, any portion of pension cost computed for a cost accounting period that is deferred pursuant to a waiver granted under the provisions of ERISA as set forth in CAS 412.50(C)(3) will be allowable in the future accounting period(s) in which the funding takes place.

9138 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

CONTRACT COST PRINCIPLES AND PROCEDURES

CONTRACT COST PRINCIPLES AND PROCEDURES

The allowability of such deferred contributions will be limited to the amounts that would have been allowed, had the funding been made in the year the costs were incurred;

b. the determination of allowable costs shall take into consideration the method of valuing pension fund assets as provided for in CAS 413.50(b). Any significant adjustment resulting from the actuarial valuation falling outside of the market value corridors will be amortized (i) in equal amounts over a 15-year period when the immediate gain actuarial cost method is used, or (ii) over the remaining average lives of the workforce if the spread gain actuarial cost method is used;

c. under contracts not subject to Cost Accounting Standards, abnormal forfeitures due to significant reduction in the contractor's level of employment, which are foreseeable and which can be currently evaluated with reasonable accuracy, by actuarial or other sound computation, shall be reflected by an adjustment of costs otherwise allowable; where abnormal forfeitures were not taken into account previously, appropriate credit shall be given to the Government pursuant to 15-201.5;

d. any amount paid or funded and deductible in any year under Section 404 (excluding Section 404(a)(5)) of the Internal Revenue Code of 1954 as amended prior to the time it becomes allowable under this paragraph (A) shall be applied to future years, in order of time, as if actually paid and deductible in such years;

e. increased normal and past service costs caused by delay in funding the actuarial liability beyond 30 days after each quarter of the year to which such costs are assignable, are unallowable. If a composite rate is used to allocate pension liability between the segments of a company and if, because of differences in the timing of the funding by segments, an inequity exists, allowable normal cost and past service costs will be limited to that particular segment's calculation of pension costs as provided in CAS 413.50(c)(5). Determination of unallowable costs shall be made in accordance with the actuarial method used in calculating the normal and past service costs;

f. the allowability of the cost of indemnification of the Pension Benefit Guaranty Corporation (PBGC), pursuant to Section 4062 or 4064 of the Employee Retirement Income Security Act of 1974 (ERISA), because of the termination of an employee deferred compensation plan will be considered on a case-by-case basis; *providing* that if insurance was required by the PBGC pursuant to Section 4023 of ERISA, it was so obtained, and the indemnification payment is not recoverable thereunder. Consideration under the foregoing circumstances will be primarily for the purpose of appraising the extent to which the indemnification payment is allocable to Government work; and if a beneficial or other equitable relationship exists, the Government will participate, provisions of 15-205.16(a)(3) and 15-205.16(b) notwithstanding, in the indemnification payment to the extent of its fair share.

or

(B) It is deductible in the same fiscal year for Federal income tax purposes under Section 404(a)(5) of the Internal Revenue Code of 1954 as amended and the regulations of the Internal Revenue Service, except that the costs of unfunded pension and retirement benefits paid directly to, or on behalf of, former employees shall be allowable only to the extent the contractor demonstrates that such costs, together with any pension and retirement costs allowed pursuant to (A) above, do not exceed the amount that would be allowable under (A) above if the contractor were providing for equivalent benefits on an actuarial basis in the current period. Amounts paid to employees under pay-as-you-go plans as an inducement for early retirement should be treated as supplemental pension plans under this provision. To be allowable, these costs must be incurred under a well defined plan which the contractor consistently follows thereafter. The scale of payments to the retired employees should be reasonable, the costs should be computed in accordance with this provision, and the costs should be allocated according to the contractor's system of accounting for pension costs.

(C) It complies with the provisions of Part 412 and Part 413, Appendix O, which are incorporated here in their entirety; and when any of the contractor's contracts are subject to Cost Accounting Standards, these provisions will apply, commencing with the contractor's fiscal year as prescribed by Part 412.80 and Part 413.80, Appendix O. The amount of deferred compensation costs which may be allowed shall not, however, exceed the amount determined under the provisions of the standard, subject to the cost limitations and exclusions set forth in subparagraphs (A) and (B) above.

(D) It complies with the provisions of Part 415, Appendix O, which are incorporated herein in their entirety; and when any of the contractor's contracts are subject to Cost Accounting Standards Board standards, these provisions will be applicable commencing with the contractor's fiscal year as prescribed by the terms of Part 415.80, Appendix O. The amount of deferred compensation cost which may be allowed shall not, however, exceed the amount determined under the provisions of Part 415, Appendix O, except that the cost of options to employees to purchase stock of the contractor or of an affiliate is unallowable.

(E) Deferred compensation payments to employees under awards made prior to the effective date of Part 415, Appendix O, are allowable to the extent they would have been allowable under 15-205.6, dated 1 July 1976.

(F) An ESOP is an individual stock bonus plan designed specifically to invest in the stock of the employer corporation. The contractor's contributions to an Employee Stock Ownership Trust (ESOT) may be in the form of cash, stock, or property.

a. Costs of an ESOP are allowable subject to the following conditions:

(i) Contributions (by the contractor) in any one year may not exceed 15 percent (25 percent when a money purchase plan is included) of salaries and wages of employees participating in the plan in any particular year.

(ii) The contribution rate (ratio of contribution to salaries and wages of participating employees) may not exceed the last approved contribution rate except when approved by the contracting officer based upon justification provided by the contractor. When no contribution was made in the previous year for an existing ESOP or when a new ESOP is first established, and the contractor proposes to make a contribution in the current year, the contribution shall be subject to the approval of the contracting officer.

(iii) When a plan or agreement exists wherein the liability for the contribution can be compelled for a specific year, the expense associated with such liability is assignable only to that period. Any portion of the contribution not funded by the time set for filing of the Federal income tax return for that year or any extension thereof shall not be allowable in subsequent years.

(iv) When a plan or agreement exists wherein the liability for the contribution cannot be compelled, the amount contributed for any year is assignable to that year, provided the amount is funded by the time set for filing of the Federal income tax return for that year.

(v) When the contribution is in the form of stock, the value of the stock contribution shall be limited to the fair market value of the stock on the date that title is effectively transferred to the trust. Cash contributions shall be allowable only when the contractor furnishes evidence satisfactory to the contracting officer demonstrating that stock purchases by the ESOT are or will be at a fair market price; e.g., makes arrangements with the trust permitting the contracting officer to examine purchases of stock by the trust so he may determine that prices paid are at fair market value. When excessive prices are paid, the amount of the excess will be credited to the same indirect cost pools that were charged for the ESOP contributions in the year in which the stock purchase occurs. However, when the trust purchases the stock with borrowed funds which will be repaid over a period of years by cash contributions from the contractor to the trust, the excess price over fair market value shall be credited to the indirect cost pools pro rata over the period of years during which the contractor contributes the cash used by the trust to repay the loan. When the fair market value of unissued stock or stock of a closely held corporation is not readily determinable, the valuation will be made on a case-by-case basis taking into consideration the guidelines for valuation used by the IRS.

b. Amounts contributed to an ESOP arising from either (i) an additional investment tax credit (see 1975 Tax Reduction Act - TRASOPs); or (ii) a payroll based tax credit (see Economic Recovery Act of 1981 - PAYSOPs) are unallowable.

(g) *Fringe Benefits.* (CWAS) Fringe benefits are allowances and services provided by the contractor to its employees as compensation in addition to regular wages and salaries. The cost of fringe benefits, including, but not limited to, the cost of vacations, sick leave, holidays, military leave, employee insurance, and supplemental unemployment benefit plans; is allowable, if reasonable and consistent with the following.

DAC #76-41 27 DECEMBER 1982

15-205.6
ARMED SERVICES PROCUREMENT REGULATION

DAC #76-41 27 DECEMBER 1982
CONTRACT COST PRINCIPLES AND PROCEDURES

DAC #76-41 27 DECEMBER 1982
CONTRACT COST PRINCIPLES AND PROCEDURES

UMI
1983
MR - 3
ISS 43
VOL 48

15-205.6

ARMED SERVICES PROCUREMENT REGULATION

(1) On contracts subject to CAS, the costs of compensated personal absence must be measured and allocated in accordance with Part 408 of Appendix O (CAS 408, Accounting for the Cost of Compensated Personal Absence). For all fringe benefits not addressed by the provisions of CAS 408, the criteria in (2) below apply.

(2) On contracts not subject to CAS, the cost of all fringe benefits are allowable to the extent that they are required by law, employer-employee agreement, or an established policy of the contractor.

(h) *Severance Pay.* (CWAS) See 15-205.39.

(i) *Training and Education Expenses.* (CWAS) *See 15-205.44.*

(j) Costs which are unallowable under other paragraphs of this Part 2 of Section XV shall not be allowable under 15-205.6 solely on the basis that they constitute personal compensation.

(k) *Backpay Resulting from Violations of Federal Labor Laws.* (CWAS-NA) Backpay may result from a negotiated settlement, order or court decree which resolves a violation of Federal labor laws. Such backpay falls into two categories; one requiring the contractor to pay employees additional compensation for work performed for which they were underpaid, and the other resulting from other violations such as when the employee was improperly discharged, discriminated against or other circumstances for which the backpay was not additional compensation for work performed. Backpay resulting from underpaid work is compensation for the work performed and is allowable. All other backpay is unallowable.

15-205.7 *Contingencies.* (CWAS-NA)

(a) A contingency is a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at a present time.

(b) In historical costing, contingencies are not normally present since such costing deals with costs which have been incurred and recorded on the contractor's books. Accordingly, contingencies are generally unallowable for historical costing purposes. However, in some cases, as for example, terminations, a contingency factor may be recognized which is applicable to a past period to give recognition to minor unsettled factors in the interest of expeditious settlement.

(c) In connection with estimates of future costs, contingencies fall into two categories:

(i) Those which may arise from presently known and existing conditions, the effects of which are foreseeable within reasonable limits of accuracy; *e.g.*, anticipated costs of rejects and defective work; in such situations where they exist, contingencies of this category are to be included in the estimates of future cost so as to provide the best estimate of performance costs; and

(ii) those which may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the contractor and to the Government; *e.g.*, results of pending litigation, and other general business risks. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately, including the basis upon which the contingency is computed in order to facilitate the negotiation of appropriate contractual coverage. (See, for example, 15-205.16, 15-205.20, and 15-205.39.)

15-205.8 *Contributions and Donations.* (CWAS-NA) Contributions and donations are unallowable.

15-205.9 *Depreciation.* (CWAS-NA)

(a) Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life has reference to the prospective period of economic usefulness in the particular contractor's operations as distinguished from physical life and shall be evidenced by the actual or estimated retirement and replacement practice of the contractor.

(b) Contractors having contracts subject to Cost Accounting Standard 409 of Appendix O (CAS 409, Depreciation of Tangible Capital Assets) must adhere to the provisions of that Standard for all CAS covered contracts, and may elect to adopt the Standard for all uncovered contracts. All provisions of CAS 409 are applicable if the election is made. When CAS 409 is applicable, its provisions supersede any conflicting provisions of this cost principle. Once electing to adopt CAS 409 for uncovered contracts, contractors must continue to follow its provisions until notification is received of final acceptance of all deliverable items on all open DoD negotiated contracts. The principles which follow are applicable to those contracts to which CAS 409 is not applied.

(c) Normal depreciation on a contractor's plant, equipment, and other capital facilities is an allowable element of contract cost *provided* the contractor is able to demonstrate that such costs are reasonable and allocable to the contract. Subject to (f) and (g) below:

(i) Depreciation will ordinarily be considered reasonable if the contractor follows depreciation policies and procedures which:

(A) are consistent with the policies and procedures he follows in the same cost center in connection with his business other than Government business;

(B) are reflected in his books of accounts and financial statements; and

(C) are used by him for Federal income tax purposes, and are acceptable for such purposes;

(ii) Where the depreciation reflected on a contractor's books of account and financial statements differs from that used and acceptable for Federal income tax purposes, reimbursement shall be based upon the cost of the asset to the contractor amortized over the estimated useful life of the property using depreciation methods (straight line, sum of the years' digits, etc.) acceptable for income tax purposes. Allowable depreciation shall not exceed the amounts used for book and statement purposes and shall be determined in a manner consistent with the depreciation policies and procedures followed in the same cost center in connection with his business other than Government business.

UMI 1983 MR - 3 ISS 43 43 VOL 48

(iii) Depreciation for reimbursement purposes in the case of tax-exempt organizations shall be determined on the basis outlined in (ii) above.

(d) Special considerations are required for assets acquired prior to the effective date of this principle where, on the effective date of this principle, the undepreciated balance of such assets resulting from depreciation policies and procedures used previously for Government contracts and subcontracts is different from the undepreciated balance of such assets on the books and financial statements. Generally, the undepreciated balance for contract cost purposes shall be depreciated over the remaining life using the methods and lives followed for book purposes. The aggregate depreciation on any asset allowable after the effective date of this 15-205.9 shall not exceed the cost basis of the asset less any depreciation allowed or allowable under prior procurement regulations.

(e) Depreciation should usually be allocated to the contract and other work as an indirect cost. The amount of depreciation allowed in any accounting period may, consistent with the basic objectives set forth in (a) above, vary with volume of production or use of multishift operations.

(f) In the case of emergency facilities covered by certificates of necessity, a contractor may elect to use normal depreciation without requesting a determination of "true depreciation", or may elect to use either normal or "true depreciation" after a determination of "true depreciation" has been made by an Emergency Facilities Depreciation Board. The method elected must be followed consistently throughout the life of the emergency facility. When an election is made to use normal depreciation, the criteria in (c) above shall apply for both the emergency period and the post-emergency period. When an election is made to use "true depreciation", the amount allowable as depreciation:

(i) with respect to the emergency period (five years), shall be computed in accordance with the determination of the Emergency Facilities Depreciation Board and allocated rateably over the full five year emergency period; *provided* no other allowance is made which would duplicate the factors, such as extraordinary obsolescence, covered by the Board's determination; and

(ii) after the end of the emergency period, shall be computed by distributing the remaining undepreciated portion of the cost of the emergency facility over the balance of its useful life *provided* the remaining undepreciated portion of such cost shall not include any amount of unrecovered "true depreciation."

(g) No depreciation, rental, or use charge shall be allowed on property acquired at no cost from the Government by the contractor or by any division, subsidiary or affiliate of the contractor under a common control.

(h) The depreciation on any item which meets the criteria for allowance at a "price" in accordance with 15-205.22(e) may be based on such price, *provided* the same depreciation policies and procedures are used for costing purposes for all business of the using division, subsidiary or organization under common control.

(i) No depreciation or rental shall be allowed on property fully depreciated by the contractor or by any division, subsidiary or affiliate of the contractor under a common control; however, a reasonable charge for the use of fully depreciated

19-208.3 *FOB Destination.*

(a) When the supplies will or may be purchased f.o.b. destination (see 19-104.2(d)), the clause in 7-104.71 shall be included in the contract. When only f.o.b. destination bids or proposals are desired, the solicitation shall specify that bids or offers submitted on a basis other than f.o.b. destination will be rejected as nonresponsive. When the supplies will or may be purchased f.o.b. destination and inspection and acceptance will be at origin, the contract shall also include the clause in 7-104.76.

(b) When procurement is on an f.o.b. destination basis, special care shall be taken to observe the requirements of 14-305.3 as to place of inspection; also see 14-306 and 14-307 as to place of acceptance.

19-208.4 *Destination Unknown.*

(a) When the exact destination of the supplies to be purchased is not known, but the general location of the expected users can be reasonably established, the purchase request shall designate a place or places as the tentative point(s) to which transportation costs will be computed, stating estimated quantities for each tentative destination. The solicitation shall provide that bids or proposals shall be submitted f.o.b. origin only (see 19-104.2(c)(1)(ii)) and that shipment shall be made on Government bills of lading. The clause contained in 7-104.70 and the "*Destination Unknown*" and the "*F.O.B. Origin — Carload and Truckload Shipments*" provisions in 7-2003.24(a) and (b) shall be included to:

(i) establish that destinations are tentative and only for the purpose of evaluating bids or proposals;

(ii) establish that bids (offers) will be solicited on basis of f.o.b. origin only; and

(iii) control subsequent shipping weights.

(b) When the purchasing office and the requesting activity determine that it is impracticable to estimate any tentative or general delivery points for the purpose of evaluating transportation costs, proposals shall be solicited f.o.b. origin only (see 19-104.2(c)(1)(ii)) and evaluation will be made without regard for transportation costs. In such cases, insert the provision in 7-2003.70 in the solicitation.

The contract file shall be documented with justification for such solicitation provision and this paragraph shall be cited. The clauses in 7-104.70 and 7-104.72 shall be included in the contract.

19-209 Required Shipping Weights. Solicitations which may result in f.o.b. origin contracts shall include the "*F.O.B. Origin — Carload and truckload Shipments*" provision in 7-2003.24(b). This will provide agreement as to appropriate freight costs for evaluation of bids or proposals, and assure that contractors produce economical shipments of agreed size (see 19-208.2(a)).

19-210 Guaranteed Shipping Weights and Dimensions. When shipping weights and dimensions are required to evaluate offers as to transportation costs, the "*Guaranteed Maximum Shipping Weights and Dimensions*" provision in 7-2003.16 shall be included in the solicitation.

19-211 Transportation Responsibilities of Contractors.

(a) The clause in 7-104.73 shall be included in contracts for supplies which may be shipped in carload lots by rail. The clause specifies that carload shipments shall be loaded, blocked and braced by the contractor in accordance with standards published by the Association of American Railroads.

(b) If the nature of the supplies or safety, environmental, or transportability factors require special methods for securing the supplies on the carrier's equipment, or only a special mode of transportation or type vehicle is appropriate (see 19-103), the solicitation shall set forth such detailed methods.

19-212 Shipping Point(s) Used in Evaluation of FOB Origin Bids. The "*Shipping Point(s) Used in Evaluation of F.O.B. Origin Bids (Or Proposals)*" provision in 7-2003.24(c) shall be included in solicitations which may result in f.o.b. origin contracts to assure application of appropriate freight costs in evaluating bids or proposals. This provision should be supported by an additional provision as part of the solicitation, to require prospective contractors to specify the location of their actual shipping point(s) (street address, city, state, and zip code) from which supplies will be delivered to the Government in accordance with the contract's f.o.b. origin terms. To assure appropriate rail routing for shipments from or to the contractor's shipping point, each prospective contractor shall also be required to specify whether his shipping point has a private railroad siding and the name of the rail carrier serving it. When the shipping point does not have a private siding, the name and address of the nearest public rail siding and carrier serving it shall be specified.

19-213 Shipments to Ports.

19-213.1 *Solicitation/Contract Provisions.*

(a) When supplies are for known destinations outside the continental United States, the CONUS port of loading or point of exit (aerial or water) and the Water Port of Debarkation which serves the overseas destination shall be listed in the solicitation for transportation evaluation purposes.

(b) When a contract will not generate any shipment for which an Export Release is required (less than 10,000 lbs., etc.; see paragraph 202024 of the Military Traffic Management Regulation (AR 55-355, NAVSUP 4600.70, MCO 4600.14A, AFM 75-2, DLAR 4500.3), only the CONUS ports which serve the overseas destination shall be listed in the solicitation (see DoD Regulation 4500.32-R, Appendix N), except that the responsible contracting officer may limit the water ports listed when such limitation is considered necessary to meet delivery or other requirements.

(c) Except for contracts to which (b) above applies, other CONUS ports which meet the eligibility criteria compatible with the nature and quantity of the supplies, their destination, type of carrier required, and specified overseas delivery dates also may be listed in the solicitation for evaluation purposes. This will permit bidders or offerors, who are geographically remote from the port which normally serves the overseas destination, to be competitive as far as transportation costs are concerned. Ports of loading to be included in the solicitation may be determined through coordination with the headquarters of the Military Traffic Management Command serving the area in which the purchasing office is located.

(d) Unless logistics requirements limit the ports of loading to those ports listed in the solicitation, the solicitation shall provide that the bidder or offeror may nominate additional ports (including ports in Alaska and Hawaii) more favorably located to his shipping point, and that these ports shall be considered in the evaluation of bids or proposals; *provided*, however, that these ports must possess all requisite capabilities of the listed ports in relation to the supplies being procured. Under these circumstances, the "*Evaluation of Export Bids (Or*

20-308.2 *Criteria for Establishing.* This two position alpha/numeric control code is required for Military Standard Contract Administration Procedures (MILSCAP) processing and may also be used in contracts administered by each Service/Agency. Under MILSCAP, the ACRN is required to associate the Accounting Classification Trailer Record, the Supplies Schedules Data Record and the Services Line Item Data Record with the long line accounting classification. The reference number is also used to associate the various record formats of the Contract Payment Notice as described in Chapter 9 of the MILSCAP Manual, DoD 4105.63-M.

20-308.3 *Procedures for Using the Accounting Classification Reference Number (ACRN).*

(a) The ACRN will be any combination of a two position alpha/numeric code assigned discretely to each accounting classification within each contract. The letters "I" and "O" shall not be used.

(b) This code will be shown as a detached prefix to the long line accounting classification number in the Accounting and Appropriation Data block and/or Section K (Contract Administration Data) of the contract, except that accounting classification numbers included in the contract only for the information of the Transportation Officer for citation on Government bills of lading for shipment at Government expense of items on an f.o.b. origin contract need not be prefixed with an ACRN. In the case of modifications to contracts/orders which have been previously assigned a long line accounting classification number(s), only the ACRN(s) assigned to that number(s) need be shown in the Accounting and Appropriations Data block and/or Continuation Sheet(s) of the modification.

(c) If more than one ACRN is assigned in the contract, the ACRN shall also be shown in the contract Schedule as follows:

(i) The ACRN shall be shown adjacent to the identity code of each "Ship To/Mark For," unless the procedure in (ii) or (iii) below is used. Only one ACRN may be assigned to the same "Ship To/Mark For" within the same contract line or subline item number, except in rare cases when multiple accounting classifications apply to a single unit so the quantity cannot be subdivided to relate to a single accounting classification. In such case, the contract shall provide sufficient information under the heading "Payment Instructions for Multiple Fund Accounting Citations" to permit proper payment and fund accounting;

(ii) If only one accounting classification applies to a subline item, the ACRN may be shown in the Supplies/Services column near the subline item description;

(iii) If only one accounting classification applies to a line item, the ACRN may be shown in the Supplies/Services column near the line item description; and

(iv) The ACRN shall be shown in the contract Schedule in the following manner:

ACR:1D

(v) For cost reimbursement type contracts the provisions of this paragraph (c) do not apply.

UMI
1983
MR
3
ISS
43
VOL
48

(d) The purchasing office executing a contract, basic ordering agreement, or blanket purchase agreement is responsible for control of assignment of ACRNs pertaining thereto. Contract or agreement provisions which provide for the issuance of contract modifications (including provisioned item order modifications), calls, orders, or work requests by organizations other than the purchasing office executing the contract or agreement will contain instructions for ACRN assignment. This may be accomplished by individual assignments as funds are cited, by assignment of blocks of ACRNs to offices authorized to issue contract modifications, calls, orders or work requests or by some other appropriate method. In no case, however, will an ACRN apply to more than one long line accounting classification in a contract. The authority to control ACRN assignment shall not be delegated to another office by the purchasing office issuing the contract or agreement.

20–309 Indefinite Delivery Type Contracts.

(a) When an indefinite delivery type contract includes provisions wherein the price of an item is determined at the time a delivery order is issued based on such factors as the quantity to be ordered, (*e.g.*, 10–99 at $1.00, 100–249 at $.98, and 250 or more at $.95), the FOB provision, the destination, or the type pack required in the delivery order, it shall not be necessary to assign a separate line item number in the indefinite delivery type contract to each price for the same item. Each line or subline item in the individual delivery order, however, shall cite only one of the unit prices in the indefinite delivery type contract.

(b) Except as noted in (a) above, criteria for contract line item assignment (see 20–303) shall be applicable to indefinite delivery type contracts.

Part 4—Distribution of Procurement Documents

20–401 Distribution of Procurement Documents.

(a) The basic contract shall be distributed in accordance with (d) below. In the interest of limiting distribution of modifications to only those offices which have an interest therein, the contract distribution list accompanying the contract shall be annotated by the purchasing office to indicate those offices which should receive copies of contract modifications.

(b) The contracting officer executing a contract or modification is responsible for complete distribution of the document within ten working days after execution. The purchasing office shall, upon assignment of the contract, furnish the contract administration office the contract distribution list and shall provide changes to the list as they occur.

(c) Except as provided in this paragraph and in (d)(i)(C) below, the procuring contracting officer shall maintain the original executed procurement document in the official contract file. The original of each modification executed by the ACO or TCO shall be provided to the PCO. Unless otherwise directed by the Department concerned, the original executed copies of orders under Basic Ordering Agreements (3–410.2) and the original executed provisioning orders (4–302.2) shall be maintained by the office issuing the orders.

(d) Copies of contracts (including agreements) shall be distributed as specified below:

(i) one signed copy or one reproduced copy of the signed contract and each modification thereto to:
  (A) the contractor (this copy shall be stamped "Duplicate Original");
  (B) the contract administration office;
  (C) the payment office, except the original executed order and, as required by Departmental regulations, additional copies of a purchase order for open market purchases of $10,000 or less, delivery order(s), and Federal Supply Schedule orders, and each modification thereto shall be distributed to the payment office. For those assigned to DCAS, only the original executed order is required which shall be sent directly to the DCAS payment office (not with the CAO copies);
  (D) each accounting and finance office (funding office) whose funds are cited in the contract;

(ii) in addition to the distribution in (i) above, additional copies shall be distributed as follows:
  (A) four copies to the contract administration office (distribution shall be effected simultaneously with the copy furnished in (d)(i)(B) above;
  (B) one copy to each consignee indicated in the contract (a transshipping terminal is not a consignee);
  (C) one copy to the appropriate transportation office when required by 19–402 and additional copies as required by Departmental regulations;
  (D) ten copies to the MIPR initiating activity in the case of coordinated procurement;

Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations
9122

(E) two copies directly to the contract administration office cognizant of each manufacturing location where contract administration services will be required (see DoD Directory of Contract Administration Services Components 4105.59H), when administration of the contract is performed at other than the place of manufacture;

(F) one copy of each of the following type contracts and of each modification thereto to the appropriate Defense Contract Audit Agency (DCAA) field audit office (listed in the DCAA Directory—Headquarters and Field Offices):

(I) cost reimbursement; time and materials, or labor-hour contract;

(II) fixed price contract with redetermination, incentive, economic price adjustment or cost allowability provisions;

(III) any other contract which requires audit service

(if there is a question as to the appropriate DCAA field audit office, contracting officers may request the assistance of the DCAA procurement liaison auditor or the nearest DCAA field audit office); and

(G) one copy to the CAO ADP point, except when the DODAAD code (see DoD Directory 4105.59H) is the same as that of either the CAO or payment office.

(e) When a payment office is added to, or changed under, an existing contract by modification, a copy of the basic contract and all modifications thereto shall be furnished to the added/new payment office. A copy of the modification affecting such addition or change shall also be furnished to the original or losing payment office. When a contract administration office, an accounting and finance office (funding office), a consignee or other activity is added by a modification, the contracting officer shall determine the extent to which each activity is concerned with the basic contract and modifications and make distribution accordingly.

(f) Distribution of modifications issued pursuant to 20-204.3(a)(ii)(B) and 20-204.4(b)(ii) may be limited to the following:

(i) Contractor;

(ii) Receiving Activity;

(iii) Contract Administration Office;

(iv) Payment Office;

(v) CAO ADP point in accordance with (d)(ii)(G) above.

(g) Distribution of overhead rate agreements issued pursuant to 3-705 may be limited to the contractor and the executing contracting officer.

(h) When the purchasing office retains responsibility for administration of a contract containing the Cost Accounting Standards clause (7-104.83(a)), one copy of the contract shall be forwarded to the Contract Administration Office (Attn: ACO) cognizant of the contractor's facility (see DoD Directory 4105.59H). The following notation will be inserted in bold print on the face of the contract: **"FOR COST ACCOUNTING STANDARDS ADMINISTRATION ONLY".** (See 3-1208(c) for contracts at facilities under the cognizance of a non-DoD organization.)

(i) Distribution of contract modifications generated by mechanical means (computer program) may be limited to the following: (1) Contractor, one copy; (2) CAO, one copy; New Payment Office, one copy; (4) PCO, one copy; (5) Funding Activities, one copy to each.

Part 2—Requirement for Consent to Subcontracts

23-200 Scope of Part. This Part sets forth the requirements for consent to subcontracts which includes but is not limited to purchase orders, changes and/or modifications thereto.

23-201 Subcontract Clauses.

23-201.1 *Clause Entitled "Subcontracts" for Fixed-Price Contracts.*

(a) The clause set forth in 7-104.23 shall be inserted in all fixed-price type contracts.

(b) The clause may be modified to:

(i) lower the $500,000 threshold set forth in (ii) and (iii) of paragraph (b) of the clause when it is determined that closer surveillance of subcontracting is desirable because of such factors as the nature of the industry involved, the criticality of work which will probably be subcontracted, the absence of competition in placing the prime contract, uncertainties as to the adequacy of the contractor's procurement system, or the novelty of the supplies or services being procured;

(ii) delete the requirement for advance notification of, or consent to, any subcontracts which were evaluated during negotiations except in contracts for major system acquisition (as defined in 1-201.41) or subsystems or components thereof;

(iii) require extraordinary Government surveillance in exceptional cases of subcontracts or classes of subcontracts selected during negotiation. In this event, insert as paragraph (h) of the clause in 7-104.23(a), the additional paragraph in 7-104.23(b).

23-201.2 *Clause Entitled "Subcontracts" for Cost-Reimbursement and Letter Contracts.*

(a) The appropriate clause entitled "*Subcontracts*" from either 7-203.8 or 7-402.8 shall be included in all cost-reimbursement and letter contracts.

(b) (1) Under cost-reimbursement and letter contracts, other than facilities contracts, consent is required for:

(i) subcontracts for fabrication, purchase, rental, installation, or other acquisition of special test equipment having a value in excess of $1,000 or of any items of industrial facilities; and

(ii) subcontracts for research and development (where the clause in 7-402.8 is used).

(2) Consent is also required for the following additional subcontracts under cost-reimbursement and letter contracts, unless the contractor's procurement system has been approved except in contracts for major systems acquisition (as defined in 1-201.41) or subsystem or components thereof, notwithstanding procurement system approval, consent will be required:

(i) cost-reimbursement, time and materials or labor-hour subcontracts; and

(ii) fixed-price subcontracts exceeding either $25,000 or 5% of the total estimated prime contract price.

(3) See 7-702.33 or 7-703.25 for requirements for approval of subcontracts under facilities contracts.

Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations 9183

UMI 1983 MR - 3 43 48 VOL ISS

SUBCONTRACTING POLICIES AND PROCEDURES

(e) Purchases by a contractor from General Services Administration supply sources, under a written authorization by the contracting officer (see 5-906), shall be treated as having been made with the consent of the contracting officer as required by the clause set forth in 7-204.28 or 7-403.23.

(d) In exceptional circumstances, certain subcontracts or classes of subcontracts may be selected during negotiation for extraordinary Government surveillance. In such circumstances, insert as subparagraph (k) of the clause in 7-203.8(a), the additional paragraph in 7-203.8(b), or as subparagraph (k) of the clause in 7-402.8(a), the provision set forth under 7-402.8(b).

23-201.3 *Subcontracts Clause for Time and Materials and Labor-Hour Contracts.* See 7-901.10 for requirements for approval of subcontracts under time and materials and labor-hour contracts.

23-201.4 *Clause Entitled "Equal Opportunity Pre-award Clearance of Subcontracts".* The clause in 7-104.22 shall be inserted in all contracts containing any of the "Subcontracts" clauses prescribed by this paragraph 23-201.

23-202 Consent to Subcontracts.

(a) Early surveillance and involvement in the prime contractor's procurement planning process including the development of the technical requirements for the subcontracts, particularly under major system acquisition (as defined in 1-201.41), is essential for more knowledgeable evaluation of proposed subcontracts submitted for consent. The contracting officer shall seek such assistance and advice necessary to fulfill this requirement. He shall consider the following in his review:

(i) the technical justification for selection of the particular supplies, equipment, or services;

(ii) whether the decision to enter into the proposed subcontract is consistent with the contractor's approved "make-or-buy" program, if any (see 3-902);

(iii) whether the proposed subcontract will require the use of Government-furnished facilities and, if so, whether proper consideration has been obtained;

(iv) the responsibility of the proposed subcontractor (see 1-906);

(v) the basis for selecting the proposed contractor, including the price competition obtained;

(vi) any cost or price analysis or price comparisons accomplished, with particular attention to whether cost or pricing data are accurate, complete, and current, and to whether any required certification has been obtained (see 3-807.3 and 7-104.42);

(vii) the effectiveness of subcontract management by the prime contractor;

(viii) the appropriateness of the type of subcontract used (see Section III, Part 4) to include whether and to what extent considerations have been given to provisions for economic price adjustment;

(ix) the estimated total extent of subcontracting, including procurement of parts and materials;

(x) the extent to which the prime contractor obtains assurance of the adequacy of the subcontractors' procurement system;

PERSONAL PROPERTY IN POSSESSION OF CONTRACTORS

of its non-specific meaning to the trade, the term "salvage" risks downgrading of the property in the bidder's viewpoint and shall not be used.

(e) *Lotting* shall be in accordance with the following:

(i) unused items shall be lotted by make or manufacturer, except when quantities or dollar values are small;

(ii) commercially similar items shall be lotted together when practicable;

(iii) used and unused items shall be lotted separately, unless the quantity, value, or nature is such that it is uneconomical to sell separately;

(iv) within the bounds of economical considerations, the size of lots shall be influenced by an effort to encourage bidding by small businesses or individuals;

(v) no lot shall be so small that the administrative cost of selling will be disproportionate to the anticipated proceeds;

(vi) an alternate bid for groups of items or for the entire offering may be solicited by use of an additional item described as follows:

Item ..... (Alternate Bid)
This item consists of all property listed and described in Items ..... to ....., inclusive. Award under this item may be made only if the highest acceptable bid on this item is equal to, or greater than, the total of the highest acceptable bids on Items ..... to ....., inclusive.

(f) *Basis of Sale* shall be:

(i) *Unit Price Basis.* Items offered for sale shall require the bid price to be stated in terms of the quantity or weight generally applied by industry in the commercial sale of such items.

(ii) *Lot Price Basis.* When a sales offering is made on a lot price basis, bids shall be requested only for the entire lot. Use of the lot price basis shall be held to a minimum, since it precludes adjustments. The lot price basis shall be used only when property cannot be sold by unit measure or the potential monetary recovery is small.

(g) *Format of Invitation.* In large sales, a summary list of items offered shall be set forth and used as an item bid sheet, with detailed item descriptions on attached sheets.

(h) *Bidder's Lists.* The plant clearance officer shall assure that commodity bidder's lists sufficient to obtain adequate competition in the sale of contractor inventory are maintained. The plant clearance officer may obtain additional listings, as required, from the Defense Surplus Bidder's Control Office (DSBCO), 50 North Washington Street, Battle Creek, Michigan 49016. Use of listings maintained by DSBCO is encouraged when extremely large quantities of property, special commodities, or unusual geographic location is involved.

(i) *Auction, Spot Bid, and Retail Sales.* Auction, spot bid, and retail sales shall not be utilized for selling contractor inventory, unless approved on an individual case basis by the departmental headquarters of the administering activity.

(j) *Market Impact.* Contracting Officers or plant clearance officers shall submit data to DLSC relative to the proposed sale of machine tools of any one type on hand at any single location in minimum condition N3, E1, or O1 with a total acquisition cost exceeding $250,000. Sales data shall include the Plant Equipment

9154 Federal Register / Vol. 48, No. 43 / Thursday, March 3, 1983 / Rules and Regulations

Code (PEC) number, noun description, quantity, location of property, and the proposed method of sale. DLSC shall advise the contracting officer or plant clearance officer within five working days whether or not sale proposal is approved. Priority for sales approval shall be given in those instances where plant clearance or other expedited actions are involved.

24-206.2 *Competitive Sales.*

(a) *General.* Surplus contractor inventory shall be offered for sale on a competitive basis except as provided in 24-206.3. To the extent feasible, subcontractors and suppliers should be solicited when additional competition is likely to result. The plant clearance officer shall provide the contractor with instructions relative to the method of soliciting bids and the basis for offering the property for sale (*i.e.*, serviceable or scrap). In determining the sales method to be used, the plant clearance officer shall consider the expected sales proceeds (based on previous experience and current market) versus the cost of conducting the sale. When he determines that an individual sale will be uneconomical, the material to be sold shall be (i) combined with other material offered for sale, (ii) disposed of through the contractor's approved production generated scrap disposal procedure (see 24-204.4), or (iii) abandoned. Case files will be documented to show the basis for the decision. The contractor's overall program, including all forms and procedures, shall be evaluated by the plant clearance officer and shall be subject to his surveillance. To the extent necessary, the plant clearance officer may reserve the right to approve individual sales offerings prior to distribution. Pursuant to 24-102(xvi) when the the plant clearance officer determines that sale services are required, such service will be arranged for by the plant clearance officer directly with the organization requested to provide the service. The plant clearance officer will justify and document this need. These documents shall be a part of the plant clearance case file. The agreement reached will provide for the Defense Surplus Sales Office or General Services Administration Regional Office to return total proceeds to the plant clearance officer for crediting in compliance with 24-206.4(c).

(b) *Solicitation of Bids.* Contractors shall solicit bids by formal invitations, unless informal bid procedures have been approved by the plant clearance officer as provided in (2) below:

(1) *Formal Bid Procedures.*

(i) bids shall be solicited a minimum of 15 calendar days in advance of the opening of bids to allow bidders an adequate opportunity to inspect the property and prepare and formally submit bids;

ANNEX II

DOUBLE SAMPLING PLAN

(90% Confidence of rejecting lots having 10% or more defectives)

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 843

Surface Mining and Reclamation Operations; Permanent Regulatory Program; Federal Enforcement During Oversight of Approved State Programs

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Statement of policy.

SUMMARY: Notice is given that the Department of the Interior has determined that the Surface Mining Control and Reclamation Act requires a federal inspector to issue a notice of violation to an operator if the state has been notified of the existence of a violation and has failed to take appropriate action or show good cause for such failure within ten days of notification (ten day notice).

FOR FURTHER INFORMATION CONTACT: William Schmidt, Assistant Director, Inspection and Enforcement, Office of Surface Mining, U.S. Department of the Interior, Washington, D.C. 20240; (202–343–4225).

SUPPLEMENTARY INFORMATION: On March 13, 1979, OSM published regulations (44 FR 14901 *et seq.*) implementing the permanent regulatory program of Title V of the Surface Mining Control and Reclamation Act of 1977 (SMCRA), Pub. L. 95–87, 30 U.S.C. 1251–1279. One subsection of those regulations addressed a federal inspector's authority to issue notices of violation and "failure to abate" cessation orders under Section 521(a)(3) of SMCRA in situations in which the coal mine where the violation existed was located in a state with an approved state program. The relevant provision, 30 CFR 843.12(a)(2), which resolved this question states:

> When, on the basis of any Federal inspection other than one described in paragraph (a)(1) of this section, an authorized representative of the Secretary determines that there exists a violation of the Act, the State program, or any condition of a permit or an exploration approval required by the Act or the State program which does not create an imminent danger or harm for which a cessation order must be issued under 30 CFR 843.11, the authorized representative may give a written report of the violation to the State and the person responsible for the violation, so that appropriate enforcement action can be taken by the States. Where the State fails within ten days after notification to take appropriate action to cause the violation to be corrected, or to show good cause for such failure, the authorized representative may reinspect and, if the violation continues to exist, shall issue a notice of violation or cessation order, as appropriate. No additional notification to the State by the Office is required before the issuance of a notice of violation, if previous notification was given under 30 CFR 842.11(b)(1)(ii)(B).

On December 1, 1981, the Department indicated that it intended to reconsider the issue as part of its new rulemaking to revise the inspection and enforcement regulations for the permanent regulatory program. 46 FR 58464. However, as a result of a settlement agreement in *National Wildlife Federation v. Watt*, Civil Action No. 82–0320 (D.D.C.) the Department agreed to consider the issue in the Environmental Impact Statement (EIS) to be done in connection with the regulatory review currently underway at the Department of the Interior. Consequently, the Department deferred consideration of the issue in the inspection and enforcement final rule published on August 16, 1982. 47 FR 35620. The issue was analyzed in OSM's Final Environmental Impact Statement OSM EIS–1: Supplement. This notice serves as the record of decision based upon the EIS and is consistent with the preferred alternative published in Volume III of the EIS.

Statement of Policy

Upon examination of the issue, the Department has concluded that the regulation contained at 30 CFR 843.12(a)(2) was properly and lawfully promulgated; therefore there is no need to reconsider the issue.

It is the Department's opinion, as set forth in the original preamble to 30 CFR 843.12, that "Congress did (not) intend OSM to sit idly by while . . . violations ripen into imminent hazards." 44 FR 15302, March 13, 1979. Rather as the preamble stated, the legislative history indicates that when "an OSM inspector discovered a violation at the mine, he must report the violation to the operator and the state and give the state 10 days to take appropriate action to require the operator to correct the violation. If the State takes such action, OSM does nothing further." 44 FR 15303. However, if the state fails to take adequate action or show good cause for such failure, OSM under 30 CFR 843.12 shall issue a notice violation. As the preamble further stated, in situations where "the State had already been given an opportunity to take 'appropriate action' and had failed to do so in ten days, the OSM inspector could issue the notice on the spot without re-referring the case to the State." 44 FR 15303.[1]

Dated: February 28, 1983.

William P. Pendley,

Acting Assistant Secretary, Energy and Minerals.

Part IV

Department of Energy

Office of Conservation and Renewable Energy

Energy Conservation Program for Consumer Products Test Procedures for Dishwashers; Final Rule

DEPARTMENT OF ENERGY

Office of Conservation and Renewable Energy

10 CFR Part 430

[Docket No. CE-RM-82-130]

Energy Conservation Program for Consumer Products; Test Procedures for Dishwashers

AGENCY: Office of Conservation and Renewable Energy, DOE.

ACTION: Final rule.

SUMMARY: The Department of Energy hereby amends its test procedures for dishwashers in order to accurately determine the estimated annual operating cost and the energy factor for dishwashers that operate with 120°F inlet water and to revise the representative average-use cycle to reflect current consumer use. These test procedures are a part of the energy conservation program for consumer products established pursuant to the Energy Policy and Conservation Act. Among other program elements, the legislation requires that standard methods of testing be prescribed for covered products.

EFFECTIVE DATE: April 4, 1983.

FOR FURTHER INFORMATION CONTACT:

Michael J. McCabe, U.S. Department of Energy, Office of Conservation and Renewable Energy, Forrestal Building, Mail Station CE-113.1, 1000 Independence Avenue, S.W., Washington, D.C. 20585; (202) 252-9127; or

Eugene Margolis, Esq., U.S. Department of Energy, Office of General Counsel, Forrestal Building, Mail Station GC-33, 1000 Independence Avenue, S.W., Washington, D.C. 20585; (202) 252-9510.

SUPPLEMENTARY INFORMATION:

A. Background

On October 1, 1977, the Department of Energy (DOE) assumed the authority of the Federal Energy Administration (FEA) for the energy conservation program for consumer products, under Section 301 of the Department of Energy Organization Act (DOE Act) (Pub. L. 95-91). The energy conservation program for consumer products was established by FEA pursuant to Title III, Part B of the Energy Policy and Conservation Act (Act) (Pub. L. 94-163). Subsequently, the Act was amended by the National Energy Conservation Policy Act (NECPA) (Pub. L. 95-619). References in this notice to "the Act," or to sections of the Act, refer to the Energy Policy and Conservation Act as amended by NECPA.

Section 323 of the Act requires that standard methods of testing be prescribed for covered products. Test procedures appear at 10 CFR Part 430, Subpart B. Test procedures for dishwashers were prescribed on August 3, 1977 (42 FR 39964, August 8, 1977).

Dishwashers are generally designed to operate with 140°F inlet water. The 140°F inlet water is generally recommended by dishwasher detergent manufacturers to ensure good cleaning performance by their products. The test procedures prescribed by DOE are based on dishwashers using 140°F inlet water. Three manufacturers, who make "water heating" dishwashers, i.e., dishwashers that use 120°F inlet water, requested DOE to exclude these dishwashers from the prescribed test procedures. The Hobart Corporation (Hobart) filed an application for exception with the DOE Office of Hearings and Appeals (OHA) on September 5, 1979 for its Model KD-19 dishwasher. OHA granted an exception to Hobart on February 26, 1980. Norris Industries (Norris) applied to the Assistant Secretary for Conservation and Renewable Energy for a test waiver on November 5, 1980.[1] The Secretary granted the waiver for Norris' LER series dishwasher (46 FR 35719, July 10, 1981). The General Electric Company (GE) applied for a test waiver for its "T" series dishwasher which uses 120°F inlet water. The Secretary granted a waiver to GE for its "T" series dishwasher on May 28, 1982 (47 FR 23543).

As a result of the petitions from Hobart, Norris, and GE, DOE directed the National Bureau of Standards (NBS) to investigate the manufacturers' claims that the prescribed test procedures do not properly determine the energy consumption for water heating dishwashers which use 120°F inlet water. NBS has provided its recommendations to DOE. These recommendations are discussed later in this document.

In a separate action unrelated to the petitions discussed above, the Association of Home Appliance Manufacturers (AHAM) and the Procter and Gamble Company (P&G) presented data to DOE that showed an annual average use for dishwashers of 322 cycles per year. They requested that DOE change the representative annual use cycle for dishwashers from 416 cycles per year to 322 cycles per year. The representative annual use cycle is used to determine the estimated annual operating cost.

Amended test procedures were proposed for dishwashers by a notice issued on May 27, 1982 (47 FR 26143, June 17, 1982). A public hearing was held on July 21, 1982.

B. Discussion

1. *Representative Average-Use Cycle.* The Association of Home Appliance Manufacturers and eight other commenters agreed that the representative average-use cycle be changed to 322 cycles per year. No comments were received that disagreed with the proposed change. Today's final rule prescribes a representative average-use cycle of 322 cycles per year for determining the estimated annual operating cost for dishwashers.

2. *Warm Water Dishwashers.* GE commented that dishwashers that can operate satisfactorily on 120°F inlet water do so because the 120°F inlet water is heated internally by the dishwasher to a level sufficient to achieve excellent washing and drying results. GE further stated that "water heating dishwashers" may be a more appropriate term for these dishwashers instead of "warm water dishwashers" as was used in the proposed rule. Water at 120°F is generally perceived to be hot—not warm.

Hobart, Design and Manufacturing Corporation (D&M), Sears, Roebuck and Co. (Sears), and Whirlpool Corporation (Whirlpool) stated that it is important to identify that heating must take place during the normal cycle washing phase(s) for proper washing performance, although it is not necessary that all of the water used during the normal cycle be heated. These commenters stated that at least one wash phase and at least one rinse phase be thermostatically-controlled. These thermostatically-controlled wash and rinse phases will delay the normal cycle until the wash or rinse water has been heated to its required temperature. Dishwashers that use 140°F water typically do not have thermostatically-controlled water heaters; these dishwashers generally heat the water continuously for all wash and rinse phases.

[1] DOE amended the energy conservation program for consumer products by notice issued September 18, 1980 (45 FR 64108, September 29, 1980) so that the Assistant Secretary for Conservation and Renewable Energy can temporarily waive test procedure requirements for a particular covered product. Waivers may be granted when design characteristics for the particular product either prevent testing of the product according to prescribed test procedures, or lead to results so unrepresentative of the product's true energy consumption characteristics as to provide materially inaccurate comparative data to consumers.

Accordingly, DOE has revised the proposed definition to reflect the commentor's concerns. That definition provides:

"Water heating dishwasher" means a dishwasher that can operate at nominal inlet water temperature of 120°F by providing thermostatically-controlled internal water heating in at least one wash phase and one rinse phase of the normal cycle.

D&M, Sears, and Whirlpool recommended that DOE delete the requirement of no consumer interaction to activate the internal water heater. These commenters believed that the consumer should decide whether he wants the internal water heater activated during the normal cycle. Furthermore, D&M and Sears mentioned that their water heating dishwashers have optional switches to override the thermostat to the internal water heater of the dishwasher during the normal cycle to give the consumer added flexibility in washing dishes. The internal water heater should be on continuously when the thermostat has been disengaged. These dishwashers might not qualify as water heating dishwashers. Therefore, today's final rule deletes all requirements concerning no consumer interaction in the definition for water heating dishwashers.

GE commented that any dishwasher that could provide any amount of heat during the normal cycle would qualify as a water heating dishwasher under the proposed definition. GE recommended that a minimum criteria regarding water heating capability be specified in order to resolve this problem. Hobart recommended a definition which included the phrase "which provides internal water heating during some portion of the washing period(s) of the normal cycle in order to raise the water temperature to that recommended by detergent manufacturers (currently 140°F)." this would specify that the water be heated to a specific temperature, which in this case would be 140°F. Norris commented that a specified temperature rise would be too restrictive. For example, some water heating dishwashers generate steam in order to heat dishes. The steam directly heats the dishes and indirectly heats water. A definition based on heating water to a specified temperature could exclude these steam dishwashers from the water heating dishwasher category. DOE agrees that a specified temperature rise would restrict manufacturers' designs. Therefore, today's final rule does not include a requirement of a specified temperature rise of heating the water used by a dishwasher.

3. *Water heating Dishwasher Credit.* The June 17, 1982 notice proposed a 50 percent credit for dishwashers that use 120°F inlet water. D&M, Sears, Whirlpool, and The Maytag Company (Maytag) agreed that a 50 percent credit be allowed. D&M and Sears commenters stated that their dishwashers employ internal water heating as an optional feature—the user can select to use the internal water heaters. These commenters agreed with the rationale in the proposed rule that proposed a 50 percent credit.

GE, Hobart, and Norris commented that the 50 percent credit would misinform consumers and advocated a 100 percent credit. They contended that consumers are likely to either leave the thermostat settings for their water heaters at 140°F or lower the settings to 120°F, but are not likely to repeatedly adjust the water heater thermostat setting. The proposed averaging formula, based on 50 percent, would therefore result in measures of energy usage that are not representative of the expected operating conditions for these dishwashers. Norris commented that if the user followed the manufacturer's directions, his energy use would be lower; and if he did not lower the water heater thermostat setting, his energy use would be higher. Determining the energy use by an averaging formula, or by a partial credit, would misrepresent the true energy use to all consumers.

DOE has reviewed the comments concerning whether a 50 percent credit should be allowed for water heating dishwashers. Hobart presented data from customers who purchased water heating dishwashers. The data show that 40 percent of the people turned their thermostat setting on the water heater down after they purchased the dishwashers; 20 percent already had lowered their thermostat setting on the water heater; and 40 percent left the thermostat setting on the water heater alone because of the slow recovery time of the water heater, the longer cycling time of the dishwasher, or the lack of information concerning the adjustability of water heater thermostat setting. Hobart commented that water heating dishwashers should not be penalized because of these problems. Furthermore, about 96 percent of people who lowered the water heatef thermostat setting were satisfied with the performance of their dishwashers.

The basis for determining energy use should be that which is most representative for the majority of consumers. Manufacturers of water heating dishwashers generally recommend that the thermostat setting on the water heater be lowered to 120°F. Hobart's data show that the majority of consumers do operate water heating dishwashers at a reduced water heater thermostat setting. In order to determine measures of energy use that truly are representative for the majority of consumers, today's final rule prescribes a 100 percent credit for water heating dishwashers.

4. *Test Load.* Norris, Whirlpool, and Columbus Products Company (Columbus) commented that water heating dishwashers should be tested using a standard test load of dishes. These manufacturers believed that water heating dishwashers would use more energy when operated with a load of dishes than without. For example, tests for one water heating dishwasher conducted by NBS determined that, with a test load, the per cycle energy use increased by about 6.6 percent for 120°F inlet water. (See National Bureau of Standards, "Test Results for a Dishwasher with Reduced Inlet Water Temperature," February 1981.) Whirlpool commented that a test load is not burdensome, that the major dishwasher manufacturers have several sets of dishes in order to conduct the test as prescribed in AHAM Standard DW–1, and recommended that DOE prescribe this AHAM test load in the final rule.

Norris presented test data for its water heating dishwashers as shown in Table 1. The data only includes the electrical energy used by the dishwasher and does not include the energy used by the water heater in heating the water. Under a test load, the electrical energy use increased by about 21 percent when 120°F water was used. It was not necessary to include the energy used by the water heater because the difference in the per cycle energy use is due to the presence of a dishload. The dishwasher would use the same amount of per cycle water energy consumption for a cycle with and without a load of dishes.

Based upon this data, DOE believes that the energy use of water heating dishwashers is affected by the presence of a load of dishes. Today's final rule prescribes that water heating dishwashers shall be tested with a test load of dishes and that the test load shall be as specified in Section 6.1.1 of AHAM Standard DW–1.

However, today's final rule prescribes that dishwashers which use 140°F water be tested without a test load. Testing by NBS had determined that the per cycle energy use for these dishwashers is not affected by the presence of a load of dishes. Testing with and without a load of dishes result in an insignificant

difference in energy use. (*See* the National Bureau of Standards, "Test Results for a Dishwasher with Reduced Inlet Water Temperature," February 1981.)

TABLE 1.—ELECTRICAL ENERGY USE FOR WATER HEATING DISHWASHERS

Inlet water (degrees Fahrenheit)	Dishload	Electrical energy use (kilowatt/cycle)	
		Model A	Model B
120	No	0.534	0.637
120	Yes	0.767	0.773

5. *Water Temperature.* Hobart and Maytag commented that the tolerance of ±5°F for the nominal 120°F inlet water specification could result in a large potential error in determining the estimated annual operating cost for water heating dishwashers. Hobart also commented that a temperature range of 118°F to 122°F was granted in the GE test procedure waiver (47 FR 23543, May 28, 1982). In the GE waiver, it was determined that a tolerance of ±5°F could result in a 0.12 kWh per cycle variation in the total per-cycle energy consumption and in a 4.5 percent variation in the estimated annual operating cost. A tolerance of ±2°F was granted to Hobart in its waiver request for its Model KD–19 dishwasher (45 FR 31343, June 15, 1981). Both Hobart and GE concurred that a tolerance of ±2°F was acceptable and not burdensome. DOE also believes that a tolerance of ±2°F is not burdensome. The potential error for a tolerance of ±2°F would be less than 2 percent. Therefore, today's final rule specifies that the inlet water temperature be maintained between 118°F and 122°F for dishwashers to be tested at a nominal 120°F inlet water temperature.

Hobart and Maytag also commented that the tolerance of ±5°F for the nominal 140°F inlet water specification also be reduced. Dishwashers that operate with 140°F inlet water typically do not have thermostatically-controlled water heaters. The error introduced by the ±5°F tolerance is expected to be small because the energy usage during a cycle should be unaffected by variations in the inlet water temperature. However, DOE has determined that a change to the ±5°F tolerance is not warranted. Thus, today's final rule specifies that the inlet water temperature be maintained between 135°F and 145°F for dishwashers to be tested at a nominal 140°F inlet water temperature.

6. *Per Cycle Water Energy Consumption.* D&M commented that dishwashers generally use a rubber flow washer to control the amount of water used during a cycle. The washer is contoured to flex under changes in water pressure. The washer may flex differently for 120°F inlet water than for 140°F inlet water. This could possibly result in different flow rates and consequently different water consumption values for 120°F inlet water compared to 140°F inlet water. D&M recommended that the per cycle water energy consumption be based on the average of the two flow rates.

DOE has reviewed the comment. However, since today's final rule prescribes only the 120°F inlet water test for water heating dishwashers, there is no need to compute an average flow rate.

7. *Machine and Dishload Temperature.* Whirlpool commented that, at the end of a cycle, both the dishwasher and test load contain residual heat that will give dishwashers with thermostatically-controlled water heaters a "head start" if a new test is conducted immediately thereafter. Testing should be done done with the dishwasher and the test load initially at room temperature. Section 2.5 of the existing test procedure specifies that the dishwasher be at room ambient temperature at the start of each test cycle. In today's final rule, Section 2.5 has been expanded to include prescribing that the test load be at room ambient temperature at the start of each test cycle.

8. *Performance Test.* GE commented that the existing dishwasher test procedure does not measure dishwashing performance. The company stated that a performance test, which it believes is required under the Act, is mandatory in order to protect consumers from purchasing dishwashers with poor cleaning performance. GE further commented that such a performance test would be extremely difficult to develop and unduly burdensome to conduct. GE recommended that DOE rescind the existing dishwasher test procedure because it cannot measure dishwashing performance and, further, determine that no performance test can be developed which would not be unduly burdensome to conduct. This would result in no standardized testing procedure for dishwashers.

Section 323(a)(4) of the Act states that test procedures shall be prescribed to determine the estimated annual operating cost and at least one other measure of energy consumption that is likely to assist consumers in making purchasing decisions. The Act does not require DOE to evaluate performance characteristics of a product in developing test procedures. Testing by NBS, as well as by various manufacturers, has shown that the dishwasher test procedures do lead to results that are truly representative of the machine's energy use. Test procedures do provide materially appropriate comparative data to assist consumers in purchasing decisions. DOE has fulfilled the legislative requirements of the Act since the dishwasher test procedure does fairly and accurately test the energy use characteristics.

Other manufacturers strongly disagreed with GE's contention that DOE should develop a performance test. Performance tests rely heavily on judgement factors such as visual acuity, attentiveness, tactile sensitivity, and test scoring experience. Norris commented that dishwashing performance should best be left to the marketplace. DOE believes that it would be extremely difficult to quantify these subjective factors into one test that is easily repeatable (testing in one laboratory) and reproducible (testing among laboratories).

Hobart commented that dishwashing performance can be determined in many ways. For example, in order to fully determine dishwashing performance, Hobart uses the following in-house tests: (1) A redeposit test; (2) a test for soil removal from light to heavy soils; (3) three soak tests for encrusted foods; (4) a consumer panel test; (5) a test for spotting and filming for natural and artificial soils; and (6) a drying performance test. These tests generally develop comparative rankings and are not easily repeatable nor reproducible. Hobart recommended that these types of performance tests be excluded from the dishwasher test procedure.

In the past, test procedures have not included dishwashing performance. Hobart stated that dishwasher detergent manufacturers generally design their products for optimum cleaning performance for dishwashers that use 140°F inlet water. Therefore, DOE did not have to include a performance test for dishwashers that use 140°F inlet water because the dishwasher detergent manufacturers ensure that dishwashing performance with 140°F inlet water is clearly acceptable to consumers.

Manufacturers have generally commented that dishwashing performance should be excluded from the dishwasher test procedure. DOE believes in allowing manufacturers to determine, for themselves, whether the dishwashing performance for water heating dishwashers is acceptable. A similar precedent for this concept has already been established in the definition of a normal cycle. The

dishwasher test procedure allows manufacturers to decide which cycle should be considered as the normal cycle for their dishwasher. Section 1.3 of the test procedure states that the normal cycle means the cycle type recommended by the manufacturer for completely washing a full load of normally soiled dishes, including the power-dry feature.

9. *Commercial Standards.* Today's final rule prescribes that a load of dishes be used when testing water heating dishwashers. One section from a commercial standard, AHAM Standard DW–1, is used to specify the test load.

Under section 301 of the DOE Act, DOE is required to comply with section 32 of the Federal Energy Administration Act of 1974 (FEA Act) (Pub. L. 93–275), as amended by section 9 of the Federal Energy Administration Authorization Act of 1977 (Pub. L. 95–70).

Section 32 (a) and (b) of the FEA Act provide that:

(a) If any proposed rule by the Administrator contains any commercial standards, or specifically authorizes or requires the use of any such standards, then any general notice of the proposed rulemaking shall:

(1) Identify, by name, the organization which promulgated such standards; and

(2) State whether or not, in the judgment of the Administrator, such organization complied with the requirements of subsection (b) in the promulgation of such standards.

(b) An organization complies with the requirements of this subsection in promulgating any commercial standards if:

(1) It gives interested persons adequate notice of the proposed promulgation of the standards and an opportunity to participate in the promulgation process through the presentation of their views in hearings or meetings which are open to the public;

(2) The membership of the organization at the time of the promulgation of the standards is sufficiently balanced so as to allow for the effective representation of all interested persons;

(3) Before promulgating such standards, it makes available to the public any records or proceedings of the organization, and any documents, letters, memorandums, and materials relative to such standards; and

(4) It has procedures allowing interested persons to:

(A) Obtain a reconsideration of any action taken by the organization relating to the promulgation of such standards, and

(B) Obtain a review of the standards (including a review of the basis or adequacy of such standards).

The findings required of DOE by section 32 of the FEA Act serve to alert the public and DOE to the use and Background of commercial standards in a proposed rulemaking and, through the comment and hearing process, allow interested persons to make known their views regarding the appropriateness of the use of those particular commercial standards in that proposed rulemaking. Any negative finding does not reflect a determination by DOE of the advisability of using a particular standard for part of the test procedure regulation.

As noted above, the final rule contains elements of a commercial standard, AHAM Standard DW–1, promulgated by a nongovernmental organization, AHAM. DOE has reviewed AHAM Standard DW–1 and determined that the standard was developed in a manner that comports with the requirements of Section 32(b) of the FEA Act. Moreover, in accordance with section 32(c), DOE has consulted with the Attorney General and the Chairman of the Federal Trade Commission concerning the impact of this standard on competition before prescribing final test procedures. Both the Attorney General and the Chairman of the FTC have determined that this standard would have no adverse effect on competition.

10. *Miscellaneous.* After careful consideration of all comments and further consultation with NBS, DOE has incorporated into the final rule some editorial and minor technical changes that were not discussed above. For example, the word "Administrator" is replaced by the word "Secretary" throughout section 430.22. Another change is that the specific heat of water is changed from 8.1966 to 8.20 Btu's per gallon per degree Fahrenheit, in section 4.2.1.

C. Environmental, Regulatory Impact, and Small Entity Impact Reviews

1. *Environmental Review.* The Department has reviewed today's final rule in accordance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 et seq.), the Council of Environmental Quality Regulations implementing the procedural provisions of NEPA (40 CFR Part 1500 et seq.), and the Department's own NEPA guidelines (45 FR 20694, March 26, 1980, as amended by 47 FR 7976, Feb. 23, 1982) to determine if an environmental impact statement (EIS) or an environmental assessment (EA) is required.

Today's final rule serves only to standardize the measurement of energy usage for dishwashers. The action of prescribing these revised test procedures will not result in any environmental impacts. Because it is clear that today's final rule is not a major Federal action significantly affecting the quality of the human environment within the meaning of NEPA, DOE has determined that neither an EA nor an EIS is required.

2. *Regulatory Impact Review.* The final rule has been reviewed in accordance with Executive Order 12291 which directs that all regulations achieve their intended goals without imposing unnecessary burdens on the economy, on individuals, on public or private organizations, or on State and local governments. The Executive Order also requires that regulatory impact analyses be prepared for "major rules." The Executive Order defines a major rule as any regulation that is likely to result in: (1) An annual effect on the economy of $100 million or more; (2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This final rule would only make minor changes in the test procedures for dishwashers. Therefore, DOE has determined that this final rule does not come within the definition of a major rule.

In accordance with Section 3(c)(3) of the Executive Order, which applies to rules other than major rules, the final rule was submitted to OMB for review without a regulatory impact analysis. OMB has concluded its review in accordance with Section 3(3)(2)(C) of the Executive Order.

3. *Small Entity Review.* The Regulatory Flexibility Act (Pub. L. 96–354) requires that an agency prepare a final regulatory analysis to be available at the time the final rule is published. This requirement does not apply if the agency "certifies that the final rule will not * * * have a significant economic impact on a substantial number of small entities."

This rule only affects manufacturers of dishwashers. There are not a substantial number of small entities that manufacture dishwashers. Moreover, the changes made would not have significant economic impacts, but rather

would reduce the testing burdens on all entities.

Therefore, pursuant to Section 605(b), DOE certifies that this final rule would not have a "significant economic impact on a substantial number of small entities."

List of Subjects in 10 CFR Part 430

Administrative practice and procedure, Energy conservation, Household appliances.

In consideration of the foregoing, Part 430 of Chapter II of Title 10, Code of Federal Regulations, is amended as set forth below, effective April 4, 1983.

Issued in Washington, D.C., February 22, 1983.

Joseph J. Tribble,

Assistant Secretary, Conservation and Renewable Energy.

PART 430—ENERGY CONSERVATION PROGRAM FOR CONSUMER PRODUCTS

Provisions of 10 CFR Part 430, § 430.22 and Appendix C are amended as follows:

Authority: Sect. 323, Pub. L. 94–163, 89 Stat. 917 as amended by Pub. L. 95–619, 92 Stat. 3206 (42 U.S.C. 6293).

§ 430.22 [Amended]

1. Section 430.22 paragraph (c) is amended by removing the words "416 cycles per year" and inserting, in their place, the words "322 cycles per year" in the following places:

(a) Section 430.22(c)(1)(i);
(b) Section 430.22(c)(1)(ii);
(c) Section 430.22(c)(2)(i); and
(d) Section 430.22(c)(2)(ii).

2. Section 430.22 paragraphs (a) through (o) are amended by removing the word "Administrator" and inserting, in its place, the word "Secretary."

3. Appendix C to Subpart B of Part 430 is revised to read as follows:

Appendix C to Subpart B of Part 430—Uniform Test Method for Measuring the Energy Consumption of Dishwashers

1. *Definitions.*—1.1 "Cycle" means a sequence of operations of a dishwasher which performs a complete dishwashing operation, and may include variations or combinations of the functions of washing, rinsing and drying.

1.2 "Cycle type" means any complete sequence of operations capable of being preset on the dishwasher prior to the initiation of machine operation.

1.3 "Normal cycle" means the cycle type recommended by the manufacturer for completely washing a full load of normally soiled dishes including the power-dry feature.

1.4 "Power-dry feature" means that function in a cycle in which electrically generated heat is introduced into the washing chamber for the purpose of improving the drying performance of the dishwasher.

1.5 "Truncated normal cycle" means the normal cycle interrupted to eliminate the power-dry feature after the termination of the last rinse operation.

1.6 "Water heating dishwasher" means a dishwasher that can operate at a nominal inlet water temperature of 120°F by providing thermostatically-controlled internal water heating in at least one wash phase and one rinse phase of the normal cycle.

2. *Testing conditions.*—2.1 *Installation.* Install the dishwasher in accordance with the manufacturer's instruction, except that undercounter dishwashers need not be installed under a counter.

2.2 *Electrical supply.* Maintain the electrical supply to the dishwasher within two percent of 115 volts and within one percent of its nameplate frequency as specified by the manufacturer.

2.3 *Water temperature.*

2.3.1 *Dishwashers to be tested at a nominal 140°F inlet water temperature.* Maintain the water supply temperature between 135°F and 145°F.

2.3.2 Dishwashers to be tested at a nominal 120°F inlet water temperature. Maintain the water supply temperature between 118°F and 122°F.

2.4 *Water pressure.* Maintain the pressure of the water supply between 32.5 and 37.5 pounds per square inch.

2.5 *Ambient and machine temperature.* Maintain the room ambient air temperature between 70°F and 85°F, and assure that the dishwasher and the test load are at room ambient temperature at the start of each test cycle.

2.6 *Load.*

2.6.1 *Dishwashers to be tested at a nominal 140°F inlet water temperature.* The dishwasher shall be tested on the normal cycle and the truncated normal cycle without a test load.

2.6.2 *Dishwashers to be tested at a nominal 120°F inlet water temperature.* The dishwasher shall be tested on the normal cycle and the truncated normal cycle with a test load as specified in section 6.1.1 of AHAM Standard DW–1.

3. *Test cycle and measurements.*

3.1 *Test cycle.* Perform a test cycle by establishing the testing conditions set forth in 2 of this Appendix, setting the dishwasher to the cycle type to be tested, initiating the cycle and allowing the cycle to proceed to completion.

3.2 *Machine electrical energy consumption.*

3.2.1 *Dishwashers that operate with a nominal 140°F inlet water temperature, only.* Measure the machine electrical energy consumption, M, specified as the number of kilowatt-hours of electrical energy consumed during the entire test cycle using a water supply temperature as set forth in 2.3.1 of this Appendix. Use a kilowatt-hour meter having a resolution no larger than 0.001 kilowatt hours and a maximum error no greater than one percent.

3.2.2 *Dishwashers that operate with a nominal inlet water temperature of 120°F.* Measure the machine electrical energy consumption, Me, specified as the number of kilowatt-hours of electrical energy consumed during the entire test cycle using a water supply temperature as set forth in 2.3.2 of this Appendix. Use a kilowatt-hour meter having a resolution no larger than 0.001 kilowatt-hours and a maximum error no greater than one percent.

3.3 *Water consumption.* Measure the water consumption specified as the number of gallons delivered to the dishwasher during the entire test cycle, using a water meter having a resolution no larger than 0.1 gallon and a maximum error no greater than 1.5 percent for all water flow rates from one to five gallons per minute and for all water temperatures encountered in the test cycle.

3.4 *Report values.* State the reported values of machine electrical energy consumption and water consumption as measured.

4. *Calculation of derived results from test measurements.*—4.1 *Per-cycle water energy consumption using electrically heated water.*

4.1.1 *Dishwashers that operate with a nominal 140°F inlet water temperature, only.* Calculate for the cycle type under test the per-cycle water energy consumption using electrically heated water, We, expressed in kilowatt-hours per cycle and defined as:

$$We = V \times T \times K,$$

where

V = reported water consumption in gallons per cycle for the cycle type under test.
T = nominal water heater temperature rise = 90°F.
K = specific heat of water in kilowatt-hours per gallon per degree Fahrenheit = 0.00240.

4.1.2 *Dishwashers that operate with a nominal inlet water temperature of 120°F.* Calculate for the cycle type under test the per cycle water energy consumption using electrically heated water, We, expressed in kilowatt-hours per cycle and defined as:

$$We = V \times T' \times K$$

where

V and K are defined in 4.1.1 of this Appendix and T' = nominal water heated temperature rise = 70°F.

4.2 *Per cycle water energy consumption using gas-heated or oil-heated water.* 4.2.1 *Dishwashers that operate with a nominal 140°F inlet water temperature, only.* Calculate for the cycle type under test the per cycle water energy consumption using gas-heated or oil-heated water, We, expressed in Btu's per cycle and defined as:

$$We = V \times T \times C/e.$$

where

V and T are defined in 4.1.1 of this Appendix, and
C = specific heat of water in Btu's per gallon per degree fahrenheit = 8.20
e = nominal gas or oil water heater recovery efficiency = 0.75.

4.2.2 *Dishwashers that operate with a nominal inlet water temperature of 120°F.* Calculate for the cycle type under test the per cycle water energy consumption using gas-

heated or oil-heated water, Wg, expressed in Btu's per cycle and defined as:

$$W_g = V \times T' \times C/e$$

where
V and T' are defined in 4.1.2 of this Appendix, and C and e are defined in 4.2.1 of this Appendix.

4.3 *Per-cycle machine electrical energy consumption.*

4.3.1 *Dishwashers that operate with a nominal 140°F inlet water temperature, only.* Use the measured value recorded in 3.2.1 as the per-cycle machine electrical energy consumption, *M*, expressed in kilowatt-hours per cycle.

4.3.2 *Dishwashers that operate with a nominal inlet water temperature of 120°F.* Use the measured value recorded in 3.2.2 as the per-cycle machine electrical energy consumption, *m*, expressed in kilowatt-hours per cycle.

4.4 *Total per-cycle energy consumption.* Calculate for the cycle type under test the total per-cycle energy consumption, *E*, expressed in kilowatt-hours per cycle, and defined as the sum of the per-cycle machine electrical energy consumption, *M*, plus the per-cycle water energy consumption of electrically-heated water, *W*, calculated for the cycle type, determined according to 4.3 and 4.1 respectively.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 48, No. 44
Friday, March 4, 1983

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 900

Intergovernmental Personnel Act Programs; Standards for a Merit System of Personnel Administration

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: The U.S. Office of Personnel Management (OPM) is revising the Standards for a Merit System of Personnel Administration. With this revision, OPM adopts the merit principles of the Intergovernmental Personnel Act as the basic personnel management requirement for administering all Federal intergovernmental assistance programs that require, by statute or by regulation, that the State or local agency receiving the assistance maintain a merit system of personnel administration. In addition, OPM establishes new procedures for assuring compliance with the Standards. OPM's approach to administration of the Standards relies primarily on certification of agreement to comply by State and local chief executives. OPM affirms the responsibility of chief executives to assure compliance of their jurisdictions with the Standards. However, OPM will retain ultimate authority to interpret the Standards and make determinations of noncompliance with them.

The revision is in keeping with the spirit of Executive Order 12372, Intergovernmental Review of Federal Programs. It will: (1) Better implement the requirement of the Intergovernmental Personnel Act to minimize Federal intervention in State and local personnel administration; (2) remove unnecessarily burdensome and costly restrictions on State and local merit personnel systems; (3) effect cost savings by eliminating the need for dual personnel systems that the existing Standards have led some State and local governments to maintain; (4) recognize the voluntary progress of State and local governments, over the years, in developing modern personnel systems and in voluntarily implementing the intent of the Standards, thus making detailed Federal requirements no longer necessary; (5) encourage innovation and allow for diversity in merit systems as required in the Intergovernmental Personnel Act; (6) recognize fully the rights, powers, and responsibilities of State and local governments; and (7) provide State and local governments more flexibility in administering their merit personnel systems, while maintaining protections where there is a Federal interest in promoting proper and efficient administration of Federal grants.

EFFECTIVE DATE: April 4, 1983.

FOR FURTHER INFORMATION CONTACT: Terry W. Culler, (202) 254–3134.

SUPPLEMENTARY INFORMATION: Under section 208(a) of the Intergovernmental Personnel Act, as amended, the U.S. Office of Personnel Management (OPM) is responsible for prescribing personnel standards which are to be followed by State and local governments as a condition of participation in Federal assistance programs which require of personnel administration on a merit basis for persons engaged in carrying out such programs.

Consistent with OPM's experience with State and local government implementation of the intent of the Standards, the requirement of the Intergovernmental Personnel Act itself that Federal intervention be minimized, and the President's goal to reduce unnecessary regulatory burdens on State and local governments, OPM reviewed its regulations carefully to identify unnecessary requirements.

As a result of this review, OPM published a proposed revision of its regulations in the May 11, 1982, Federal Register (47 FR 20142) for a 60-day public comment period.

Comments were received from 105 sources, including State and local governments, public interest groups, professional organizations, employee organizations, and individuals. The following summarizes the comments, suggestions and actions taken.

Appropriate Level of Regulatory Detail

The proposed revision removed detailed regulatory requirements and guidance and substituted the broad statements of principle found in the Act itself. A number of commentors agreed that the revision would ensure merit-based personnel administration while increasing State and local government efficiency and cost effectiveness. Other commentors suggested that broad statements of principle lack definition and invite inappropriate application. Some commentors were concerned that, without detailed guidance, Federal grantor agencies might impose inconsistent and possibly conflicting requirements on State and local jurisdictions. Other commentors were concerned that some State and local governments would misuse the flexibilities of the proposed revision to the detriment of proper and efficient administration of Federal grants.

Particular areas of concern were: (1) Criteria for exemption of personnel from standards coverage; (2) substitution of the IPA merit principles for more detailed guidance contained in the existing regulations; and (3) removal of the Uniform Guidelines on Employee Selection Procedures from the Standards.

OPM appreciates the concerns outlined above, but believes that standardized, detailed requirements restrict flexibility, discourage innovation, and constitute an unwarranted regulatory burden on State and local governments. The problems which remain can best be dealt with through the joint State and local-Federal compliance process outlined in these regulations. In accordance with concerns about conflicting Federal policies, however, OPM has revised § 900.604(b)(3) and § 900.605 to make it clear that OPM has sole responsibility, aside from State and local chief executives, for interpretation of the Standards, and that OPM will review issues regarding compliance with the Standards. OPM believes that prudent exercise of its oversight role will strike the best balance between State and local needs for flexibility and the Federal need to ensure proper and efficient grants administration.

With regard to EEO, these Standards recognize equal employment opportunity requirements insofar as they apply by

statute to State and local jurisdictions under Title VII of the Civil Rights Act of 1964, the Equal Pay Act of 1963, the Age Discrimination in Employment Act of 1967, the Rehabilitation Act of 1973, the State and Local Fiscal Assistance Act and other relevant laws. The Uniform Guidelines continue to apply to State and local governments through other appropriate regulations, and are duplicative and unnecessary in these regulations. Equal employment opportunity is specifically retained as a Standard under § 900.603(e).

Compliance Provisions

Some commentors suggested that the compliance provisions of the proposed revisions did not provide for a sufficient oversight role for OPM. Particular areas of concern were self-certification of compliance by State and local chief executives and the lack of a detailed review process. OPM has not changed the proposal for self-certification. OPM believes that self-certification, combined with effective resolution of compliance issues, will allow it to focus its efforts on improving those personnel systems with severe problems. The 1979 revision of Merit Standards regulations also provided for self-certification.

With regard to OPM's complaints review process, OPM agrees that there should be a mechanism for surfacing compliance issues and that all parties concerned should be informed of the specific procedures to be used in reviewing complaints. OPM is therefore adding a new section, § 900.606, which indicates that specific guidance will be published in the Federal Personnel Manual System and in other relevant publications.

State/Local Compliance Relationship

Several comments received made it clear that the provisions allowing for State supervision of local government certifications were confusing. In some States, State agencies have supervised compliance of local jurisdictions with the Merit Standards. OPM has no objection to a continued State/local supervisory relationship, should it be acceptable to the parties involved. The May 11 proposed revision therefore allowed for States to continue to collect local certifications of compliance. Comments made it clear that this provision was subject to misinterpretation. For example, some commentors apparently thought that OPM was promoting State supervision of local government merit personnel administration. Others apparently believed OPM intended to conduct reviews of State supervisory activities. Form OPM's point of view, each chief executive is responsible for ensuring compliance of his/her jurisdiction with the Standards. However, OPM wishes to minimize Federal interference in State and local relationships. It has no objection to continued State supervision of local governments; neither does it intend to promote such supervision. OPM has, therefore revised § 900.604(a) to delete all regulatory reference to the relationship between State and local governments.

Employee Protections

A number of employee organizations have suggested that the proposed revision will result in a weakening of employee protections. OPM does not believe that this will happen since State and local governments have, over the years, made considerable progress in implementing the intent of the Standards. However, should any abuses of merit principles occur, OPM will resolve them through its complaints review process. With this revision, OPM is reducing Federal regulation. These Standards *in no way* require or encourage State or local governments to reduce employee protections.

E.O. 12291, Federal Regulation

OPM has determined that this is not a major rule as defined under section 1(b) of E.O. 12291, Federal Regulations.

Regulatory Flexibility Act

The purpose of this revision is to eliminate unnecessary and burdensome requirements on State and local governments. It places no new requirements on State and local governments. However, it will allow State and local governments to make certain changes in their personnel operations, should they find such changes to be desirable.

I certify that this regulation will not have a significant economic impact on a substantial number of small entities, including small business, small organizational units and small governmental jurisdictions.

Office of Personnel Management.

Donald J. Devine,

Director.

Accordingly, the Office of Personnel Management amends 5 CFR Part 900 by revising Subpart F to read as follows:

PART 900—INTERGOVERNMENTAL PERSONNEL ACT PROGRAMS

* * * * *

Subpart F—Standards for a Merit System of Personnel Administration

Sec.
900.601 Purpose.
900.602 Applicability.
900.603 Standards for a merit system of personnel administration.
900.604 Compliance.
900.605 Establishing a merit requirement.
900.606 Publication of procedures to implement merit requirements.
Appendix A to the Standards for a Merit System of Personnel Administration.

Authority: 42 U.S.C. 4728, 4763; E.O. 11589, 3 CFR Part 557 (1971–1975 Compilation).

Subpart F—Standards for a Merit System of Personnel Administration

§ 900.601 Purpose.

(a) The purpose of these regulations is to implement provisions of Title II of the Intergovernmental Personnel Act of 1970, as amended, relating to Federally required merit personnel systems in State and local agencies, in a manner that recognizes fully the rights, powers, and responsibilities of State and local governments and encourages innovation and allows for diversity among State and local governments in the design, execution, and management of their systems of personnel administration, as provided by that Act.

(b) Certain Federal grant programs require, as a condition of eligibility, that State and local agencies that receive grants establish merit personnel systems for their personnel engaged in administration of the grant-aided program. These merit personnel systems are in some cases required by specific Federal grant statutes and in other cases are required by regulations of the Federal grantor agencies. Title II of the Act gives the U.S. Office of Personnel Management authority to prescribe standards for these Federally required merit personnel systems.

§ 900.602 Applicability.

(a) Sections 900.603–604 apply to those State and local governments that are required to operate merit personnel systems as a condition of eligibility for Federal assistance or participation in an intergovernmental program. Merit personnel systems are required for State and local personnel engaged in the administration of assistance and other intergovernmental programs, irrespective of the source of funds for their salaries, where Federal laws or regulations require the establishment and maintenance of such systems. A

reasonable number of positions, however, may be exempted from merit personnel system coverage.

(b) Section 900.605 applies to Federal agencies that operate Federal assistance or intergovernmental programs.

§ 900.603 Standards for a merit system of personnel administration.

The quality of public service can be improved by the development of systems of personnel administration consistent with such merit principles as—

(a) Recruiting, selecting, and advancing employees on the basis of their relative ability, knowledge, and skills, including open consideration of qualified applicants for initial appointment.

(b) Providing equitable and adequate compensation.

(c) Training employees, as needed, to assure high quality performance.

(d) Retaining employees on the basis of the adequacy of their performance, correcting inadequate performance, and separating employees whose inadequate performance cannot be corrected.

(e) Assuring fair treatment of applicants and employees in all aspects of personnel administration without regard to political affiliation, race, color, national origin, sex, religious creed, age or handicap and with proper regard for their privacy and constitutional rights as citizens. This "fair treatment" principle includes compliance with the Federal equal employment opportunity and nondiscrimination laws. (f) Assuring that employees are protected against coercion for partisan political purposes and are prohibited from using their official authority for the purpose of interfering with or affecting the result of an election or a nomination for office.

§ 900.604 Compliance.

(a) *Certification by Chief Executives.* (1) Certification of agreement by a chief executive of a State or local jurisdiction to maintain a system of personnel administration in conformance with these Standards satisfies an applicable Federal merit personnel requirements of the Federal assistance or other programs to which personnel standards on a merit basis are applicable.

(2) Chief executives will maintain these certifications and make them available to the Office of Personnel Management.

(3) In the absence of certification by the chief executive, compliance with the Standards may be certified by the heads of those State and local agencies that are required to have merit personnel systems as a condition of Federal assistance or other intergovernmental programs.

(b) *Resolution of Compliance Issues.* (1) Chief executives of State and local jurisdictions operating covered programs are responsible for supervising compliance by personnel systems in their jurisdictions with the Standards. They shall resolve all questions regarding compliance by personnel systems in their jurisdictions with the Standards. Findings and supporting documentation with regard to specific compliance issues shall be maintained by the chief executive, or a personal designee, and shall be forwarded, on request, to the Office of Personnel Management.

(2) The merit principles apply to systems of personnel administration. The Intergovernmental Personnel Act does not authorize OPM to exercise any authority, direction or control over the selection, assignment, advancement, retention, compensation, or other personnel action with respect to any individual State or local employee.

(3) if a chief executive is unable to resolve a compliance issue to the satisfaction of the Office of Personnel Management, the Office will assist the chief executive in resolving the issue. The Office of Personnel Management, as authorized by section 208 of the Intergovernmental Personnel Act, will determine whether personnel systems are in compliance with the Standards and will advise Federal agencies regarding application of the Standards and recommend actions to carry out the purpose of the Act. Questions regarding interpretation of the Standards will be referred to the Office of Personnel Management.

§ 900.605 Establishing a merit requirement.

Federal agencies may adopt regulations that require the establishment of a merit personnel system as a condition for receiving Federal assistance or otherwise participating in an intergovernmental program only with the prior approval of the Office of Personnel Management. All existing regulations will be submitted to the Office of Personnel Management for review.

§ 900.606 Publication of procedures to implement merit requirements.

Procedures to implement these merit requirements will be specified in the Federal Personnel Manual System and other relevant publications of the Office of Personnel Management.

Appendix A to the Standards for a Merit System of Personnel Administration

Part I: The following programs have a statutory requirement for the establishment and maintenance of personnel standards on a merit basis.

Program, Legislation, and Statutory Reference

Food Stamp, Food Stamp Act of 1977, as amended; 7 U.S.C. 2020(e)(6)(B).

National Health Planning and Resources Development, Public Health Service Act (Title XV), as amended by the National Health Planning and Resources Development Act of 1974, section 1522, on January 2, 1975; 42 U.S.C. 300m–1(b)(4)(B).

Old-Age Assistance, Social Security Act (Title I), as amended by the Social Security Act Amendments of 1939, section 101, on August 10, 1939; 42 U.S.C. 302(a)(5)(A).[1]

Employment Security (Unemployment Insurance and Employment Services), Social Security Act (Title III), as amended by the Social Security Act Amendments of 1939, section 301, on August 10, 1939, and the Wagner-Peyser Act, as amended by Pub. L. 81–775, section 2, on September 8, 1950; 42 U.S.C. 503(a)(1) and 29 U.S.C. 49d(b).

Aid to Families with Dependent Children, Social Security Act (Title IV–A), as amended by the Social Security Act Amendments of 1939, section 401, on August 10, 1939; 42 U.S.C. 602(a)(5).

Aid to the Blind, Social Security Act (Title X), as amended by the Social Security Act Amendments of 1939, section 701, on August 10, 1939; 42 U.S.C. 1202(a)(5)(A).[1]

Aid to the Permanently and Totally Disabled, Social Security Act (Title XIV), as amended by the Social Security Act Amendments of 1950, section 1402, on August 28, 1950; 42 U.S.C. 1352(a)(5)(A).[1]

Aid to the Aged, Blind or Disabled. Social Security Act (Title XVI), as amended by the Public Welfare Amendments of 1962, section 1602, on July 25, 1962; 42 U.S.C. 1382(a)(5)(A).[1]

Medical Assistance (Medicaid), Social Security Act (Title XIX), as amended by the Social Security Amendments of 1965, section 1902, on July 30, 1965; 42 U.S.C. 1396(a)(4)(A).

State and Community Programs on Aging (Older Americans), Older Americans Act of 1965 (Title III), as amended by the Comprehensive Older Americans Act Amendments of 1978, section 307 on October 18, 1978; 42 U.S.C. 3027(a)(4).

Adoption Assistance and Foster Care, Adoption Assistance and Child Welfare Act of 1980; 42 U.S.C. 671(a)(5).

Part II: The following programs have a regulatory requirement for the establishment and maintenance of personnel standards on a merit basis.

Program, Legislation, and Regulatory Reference

Occupational Safety and Health Standards, Williams-Steiger Occupational Safety and Health Act of 1970; Occupational Safety and

[1] Pub. L. 92–603 repealed Titles I, X, XIV, and XVI of the Social Security Act, effective January 1, 1974, except that "such repeal does not apply to Puerto Rico, Guam, and the Virgin Islands."

Health State Plans for the Development and Enforcement of State Standards; Department of Labor, 29 CFR 1902.3(h).

Occupational Safety and Health Statistics, Williams-Steiger Occupational Safety and Health Act of 1970; BLS Grant Application Kit, May 1, 1973, Supplemental Assurance No. 15A.

Child Welfare Services, Social Security Act (Title IV–B); 45 CFR 1392.49(c).

Development Disabilities Services and Facilities Construction, Developmental Disabilities Services and Facilities Construction Act, as amended by Pub. L. 95–602, on November 6, 1978; 45 CFR 1386.21.

Emergency Management Assistance, Civil Defense Act of 1950 (Title II), as amended; 44 CFR 302.5.

Comprehensive Employment and Training Act, Comprehensive Employment and Training Act of 1973; 29 CFR 98.14(a).

Part III: The following programs have personnel requirements which may be met by a merit system which conforms to the Standards for Merit Systems of Personnel Administration.

Program, Legislation, and Reference

Disability Determination Services, Social Security Act (Titles II and XVI), as amended; SSA Disability Insurance State Manual, Part IV, § 425.1.

Health Insurance for the Aged (Medicare), Social Security Act (Title XVIII), especially as amended by the Health Insurance for the Aged Act, on July 30, 1965; SSA State Operations Manual, Part IV section 4510(a).

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR Parts 272, 273, and 274

[Amendment No. 243]

Food Stamp Program; Duplicate Participation

AGENCY: Food and Nutrition Service, USDA.

ACTION: Interim rule.

SUMMARY: This rulemaking implements two food stamp provisions of the Omnibus Budget Reconciliation Act of 1982. State agencies will be required to establish systems which assure that no individual receives food stamps in more than one jurisdiction within the State. In addition, State agencies will have to ensure that recipients of Supplemental Security Income (SSI) in SSI cash-out States and participants in cash-out demonstration projects do not also receive food stamps. The objective of cross checking for duplicate participation is to reduce program cost, abuse, and waste. This rulemaking also corrects an error relative to the household definition made in the interim rule published on December 14, 1982 (47 FR 55903) entitled Eligibility Criteria and Reduction or Termination of Benefits.

DATES: Sections 272.1(g)(59) and 274.1(d) (except the recordkeeping requirements in § 274.1(d)(1) which are under review at OMB) are effective April 4, 1983, to be fully implemented no later than October 1, 1983. The correction appearing in § 273.1(a)(iv) is effective retroactive to September 8, 1982. Comments on this interim rulemaking must be received on or before June 2, 1983 to be assured of consideration in the final rulemaking process.

ADDRESS: Comments should be submitted to Thomas O'Connor, Acting Chief, Program Design and Rulemaking Branch, Family Nutrition Programs, Food and Nutrition Service, USDA, Alexandria, Virginia 22302. All written comments will be open to public inspection at the office of the Food and Nutrition Service during regular business hours (8:30 a.m. to 5:00 p.m., Monday through Friday) at 3101 Park Center Drive, Alexandria, Virginia, Room 706.

FOR FURTHER INFORMATION CONTACT: If you have any questions, contact John Knaus, Acting Supervisor, State Agency Management and Control Section, at the above address or telephone at (703) 756–3431.

SUPPLEMENTARY INFORMATION:

Classification

Justification for Publishing as Interim Rule. This rulemaking is being published as an interim rule consistent with the mandate of Section 193 of the Omnibus Budget Reconciliation Act of 1982 (Pub. L. 97–253, enacted on September 8, 1982). Section 193 mandates that the provisions of Pub. L. 97–253 including those addressed in this rule are effective as of the date of enactment. For this reason Robert E. Leard, Acting Administrator of the Food and Nutrition Service, pursuant to 5 U.S.C 553, has determined that prior public comment on this rule is impracticable and contrary to the public interest and that good cause exists for making this rule effective less than 60 days after publication. Public comment is solicited on this rule for 90 days. All comments received will be analyzed and any appropriate changes in the rule will be incorporated in a subsequent publication.

Executive Order 12291. The Department has reviewed this rule under Executive Order 12291 and Secretary's Memorandum No. 1512–1. The rule will affect the economy by less than $100 million a year. The rule will not significantly raise costs or prices for consumers, industries, government agencies or geographic regions. There will not be significant adverse effects on competition, employment, investment, productivity, innovation or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. Therefore, the Department has classified the rule as "not major."

Regulatory Flexibility Act. This interim rule has also been reviewed with regard to the requirements of the Regulatory Flexibility Act of 1980 (Pub. L. 96–354, 94 Stat. 1164, September 19, 1980). Robert E. Leard, Acting Administrator of the Food and Nutrition Service, has certified that this action will not have a significant economic impact on a substantial number of small entities. The proposed changes will affect State agencies and a relatively small number of food stamp recipients.

Recordkeeping Requirements. In accordance with the Paperwork Reduction Act of 1980 (Pub. L. 96–511), the recordkeeping provisions that are included in this regulation have been or will be submitted for approval to the Office of Management and Budget (OMB). The public will be notified of approval from OMB of the recordkeeping requirements contained within this interim rule through publication of a final rulemaking.

Prevention and Detection of Duplicate Participation

Background

The Omnibus Budget Reconciliation Act of 1982 (Pub. L. 97–253, enacted on September 8, 1982), requires State agencies to establish a system that will prevent any person from receiving multiple benefits in the Food Stamp Program. Section 172 of that Act establishes requirements for checking that no individual receives food stamps in more than one jurisdiction within the State. Comparing records to determine that a person was not receiving benefits in more than one project area would also detect whether a person was receiving excessive program benefits through multiple applications or being counted as members of more than one participating household within one jurisdiction. Section 174 requires State agencies to establish a system that will verify that an individual does not receive both food stamps and benefits in lieu of coupons as part of SSI cash-out or a cash-out demonstration project.

There are several requirements in the food stamp regulations to prevent a person from receiving multiple benefits. Section 273.3 states that no individual

may participate as a member of more than one household or in more than one project area, in any month (unless an individual is a resident of a shelter for battered women and children and was a member of a household containing the person who abuse him or her). No individual who receives Supplemental Security Income benefits and/or State supplementary payments as a resident of the States of California or Wisconsin is eligible to receive food stamps. As stated in Section 273.20, their SSI payments have already been increased to include the value of the food stamp allotment. Likewise, persons who receive a check instead of coupons as part of the SSI/elderly cash-out demonstration project, as described in § 282.12, cannot also receive food stamps.

Even though there have been rules against duplicate participation, there has been no requirement to systematically check for it. In many States there is not even an elementary system to ensure that the recipient is not concurrently a recipient in another jurisdiction within the same State. Conversely, a number of State agencies have already been doing increasingly sophisticated work in computer matching to detect participation across project area and other jurisdictional lines.

Such computer matching is an important tool in the detection and prevention of mistakes or fraud. Computers are a fast, efficient and accurate way to review enormous amounts of data. They can quickly review numerous food stamp records to determine if the same individual appears more than once. Once apparently contradictory information is exposed, verification or investigative efforts can then determine whether possible error or intentional misrepresentation exists. Computers can detect individuals who are receiving multiple program benefits and deter others from trying to defraud the system.

Once a State agency has acquired an automated system to detect duplicate participation, it will probably be able to use the system for other purposes. Analysis of information obtained through the computer may show trends of errors where corrective action can be taken to correct program vulnerabilities or improve program efficiency.

The Data Base

This regulation requires State agencies to establish a system to detect whether any individual is receiving multiple benefits. Such a system must use names and social security numbers at a minimum and may include other identifiers. While the Department is not, at this time, requiring the use of individuals' birth dates, it is strongly recommending that State agencies consider using this identifier. Several State agencies currently operating systems to detect duplicate participation have determined date of birth to be a useful identifier and use it in their systems.

The system must check all individuals participating in the Food Stamp Program within the State, not just the heads of households. While the search would not necessarily have to be done by computer, an automated system clearly would be the most efficient method.

When State Agencies Must Search for Duplicate Participants

The law requires that State agencies *periodically* verify that an individual does not receive coupons in more than one jurisdiction within the State. The law also specifies that verification to prevent persons receiving both coupons and cash-out assistance must be done "where necessary, but no less often than annually." Of the States which currently run a system for detecting multiple benefits, most test prior to authorization of benefits.

The Department is interested in receiving comments about how often verification should be done—what is feasible and cost effective. In this interim rulemaking the Department is requiring that the checks be made, at a minimum, at the time of certification, recertification and whenever a change in household composition occurs. However, the Department realizes that some State agencies already have computer systems in place to check for multiple benefits and in some States it may be more efficient to periodically compare the records of all individuals on file rather than doing it at the time of certification. Therefore, if checking at the time of certification, recertification and changes is incompatible with an existing system, equipment, or the State's plans for a system, then, at a minimum, the State agency must check for duplicate participants quarterly. The Department will reconsider the timeframes based on the comments received.

Action on "Hits"

If a duplicate is found prior to approving an application for food stamps, the State agency would deny the application. If the individual has already been receiving duplicate benefits, the State agency would process a claim. In either case, the State could also proceed with an administrative disqualification hearing or referral for prosecution, if deemed appropriate.

If matching of records shows an excessive proportion of individuals receiving multiple benefits, the State agency should take further corrective action. For example, if the State agency runs quarterly comparison of all individuals in the file according to social security numbers and finds an excessive number of duplicate participants, then the State agency might want to consider requiring the check for duplicates prior to certification or distributing more information to the public about the penalties for intentional misrepresentation.

Funding

State agencies planning, enhancing and/or developing automated systems can obtain 75 percent matching funding for this activity. For more information about 75 percent matching funding, interested State agencies can refer to § 277.18 of the Food Stamp regulations or request information from their respective FNS Regional Offices.

Correction of Household Definition Error

The Department is correcting in this rule an error made in the Eligibility Criteria and Reduction or Termination of Benefits rule which was published, as an interim rulemaking in the **Federal Register** on December 14, 1982 (47 FR 55903). In § 273.1(a)(1)(iv), the last sentence should read "However, the income (all income included under 273.9 (b)) of the others with whom the individual resides (excluding the income of such individual's spouse) cannot exceed 165 percent of the *proverty line.*" (Emphasis added). This is consistent with Section 146(c)(2) of Pub. L. 97–253. While the discussion on this subject in the preamble of the December 14, 1982 rulemaking is correct, the rule says "165 percent of the Food Stamp Program's gross monthly income eligibility standard."

Implementation

The provisions in this rule on duplicate participation become effective 30 days following publication. Some State agencies are already operating a system to check for duplicate participation; others will be able to modify existing systems. Still others will need time to acquire computer equipment and design the programs. The regulations require State agencies to begin planning and have the system fully operational by October 1, 1983. The Conference report about this legislation states, "The conferees recognize that not

all States currently have the computer capability to begin immediate, comprehensive statewide control. In the interim, all States are expected to implement this control to the extent of their current capability and to proceed systematically toward upgrading their capabilities to achieve total State coverage of all participants by the control system." See Conf. Rep. No. 97–759, 97th Congress, 2nd Sess., p. 69, [1982].

Therefore, unless a State agency has submitted a request for a waiver which shows why a delay is necessary and a plan that shows how implementation can be achieved by a later date, the Department expects all State agencies to have implemented this system by October 1, 1983. Implementation means having a system designed, having information on current participants stored inthe data base, and the running of checks according to the required timeframes.

The correction made to § 273.1(a)(1)(iv), relating to household definition, is effective retroactive to September 8, 1982, pursuant to Section 193 of Pub. L. 97–253. State agencies are already aware of this retroactive implementation date since it was discussed in the December 14, 1982 interim rule. In addition, State agencies are, for the most part, aware of this error and are already implementing this provision based on 165 percent of the poverty line.

List of Subjects

7 CFR Part 272

Alaska, Civil rights, Food stamps, Grant programs—social programs, Reporting and recordkeeping requirements.

7 CFR Part 273

Administrative practice and procedures, Aliens, Claims, Food stamps, Fraud, Grant programs—social programs, Penalties, Reporting and recordkeeping requirements, Social security, Students.

7 CFR Part 274

Administrative practice and procedure, Food stamps, Grant programs—social programs, Reporting and recordkeeping requirements.

Accordingly, 7 CFR Parts 272, 273, and 274 are amended as follows:

PART 272—REQUIREMENTS FOR PARTICIPATING STATE AGENCIES

1. In § 272.1, a new paragraph (g)(59) is added to read as follows:

§ 272.1 General terms and conditions.

* * * * *

(g) *Implementation.* * * *

(59) Amendment No. 243. (i) State agencies may implement this Duplicate Participation rule at anytime, but shall implement this rule Statewide no later than October 1, 1983. FNS will consider requests for waivers to this timeframe on a State-by-State basis if the State establishes good cause through submission of written justification of the need for a longer timeframe and submits a plan that shows when the system will be implemented.

(ii) State agencies shall implement the correction made to Section 273.1(a)(1)(iv) retroactive to September 8, 1982.

* * * * *

PART 273—CERTIFICATION OF ELIGIBLE HOUSEHOLDS

2. In § 273.1 the last sentence in paragraph (a)(1)(iv) is revised to read as follows:

§ 273.1 Household Concept.

(a) *Household definition.*

(1) * * *

(iv) * * * However, the income (all income included under 273.9(b)) of the others with whom the individual resides (excluding the income of such individual's spouse) cannot exceed 165 percent of the poverty line.

* * * * *

PART 274—ISSUANCE AND USE OF FOOD COUPONS

3. In § 274.1, a new paragraph (d) is added to read as follows:

§ 274.1 State agency issuance responsibilities.

* * * * *

(d) *State monitoring of duplicate participation.*

(1) The State agency shall establish a system and implement other measures where necessary to assure that an individual does not receive multiple benefits in the Food Stamp Program. Checks to detect multiple benefits shall be made at the time of certification, recertification and whenever a change in household composition occurs. However, if the State agency can show that these timeframes are incompatible with its system, then the State agency shall check for duplicate benefits at least quarterly. To identify such individuals, the system shall use names and social security numbers at a minimum, and other identifiers as appropriate (use of individuals' dates of birth is strongly recommended).

(i) The system shall be designed to verify that an individual does not receive food stamps in more than one jurisdiction within the State. The system should also be designed to detect individuals participating in more than one household within the State.

(ii) If the State agency provides assistance in lieu of coupons for SSI recipients or for households participating in cash-out demonstration projects, the system shall verify that an individual does not receive both coupons and other benefits provided in lieu of coupons.

(2) State agencies shall develop follow-up procedures and corrective action requirements, including timeframes within which action should be taken, to be applied to data obtained from matching for duplicate participation. Follow-up actions shall include, but not be limited to the adjustment of benefits and eligibility, and the filing of claims, as appropriate.

(3) FNS reserves the right to review State agencies' use of data obtained from matching for duplicate participation and may require State agencies to take additional specific action to ensure that such data is being used to protect program integrity.

(91 Stat. 958 (7 U.S.C. 2011–2029); Secs. 172 and 174 of Pub. L. 97–253, 96 Stat. 780 (7 U.S.C. 2020))

Dated: February 23, 1983.

Robert E. Leard,

Acting Administrator.

BILLING CODE 3410-30-M

Agricultural Stabilization and Conservation Service

7 CFR Part 729

Poundage Quota and Marketing Regulations for the 1983 Through 1985 Crops of Peanuts

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Interim rule.

SUMMARY: This Interim Rule, which is applicable to the 1983 through 1985 crops of peanuts, sets forth the regulations for: (1) Establishing State and farm poundage quotas and farm yields; (2) providing for transfers of quota; (3) determining undermarketings; (4) identifying marketings; (5) determining marketing penalties; and (6) handling marketing violations. These regulations are necessary in order to implement amendments made to the Agricultural Adjustment Act of 1938 and

the Agricultural Act of 1949 by the Agriculture and Food Act of 1981 (Pub. L. 97–98, 95 Stat. 1213, approved December 22, 1981). The most significant provisions of these regulations relate to quota reductions for farms from which the farm poundage quota was leased to another farm and produced by a different farm operator.

EFFECTIVE DATE: March 4, 1983. Comments must be received on or before April 4, 1983, in order to be assured of consideration.

ADDRESS: Send comments to the Director, Tobacco and Peanuts Division, ASCS, Department of Agriculture, P.O. Box 2415, Washington, DC. 20013.

FOR FURTHER INFORMATION CONTACT: David L. Kincannon (ASCS) 202–382–0154. The Impact Analysis describing the options considered in developing this rule is available upon request.

SUPPLEMENTARY INFORMATION: This Interim Rule has been reviewed under USDA procedures and Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been classified "not major." It has been determined that this rule will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, industries, Federal, State or local governments, or geographical regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The title and number of the Federal assistance program to which this Interim Rule applies are: Commodity Loans and Purchases, 10.051, as found in the Catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this proposed rule since the Agricultural Stabilization and Conservation Service is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this rule.

A notice of proposed rulemaking and request for public comments on the poundage quota and marketing regulations for the 1983 through 1985 crops of peanuts was published in the **Federal Register** (47 FR 50706) on November 9, 1982. The usual comment period provided by the Department of Agriculture is 60 days. However, because the planting season for peanuts begins in March and farmers need to know their poundage quota so that they can make financial arrangements before planting, the comment period was shortened to 45 days and ended on December 27, 1982.

This Interim Rule revises the proposed rules in several aspects, principally with respect to poundage quota reductions for the 1983 crop and the establishment of the last date for spring transfers (pre-planting quota transfers). Because of the reduction revision and the large number of comments that issue has produced, it has been decided to solicit additional comment. For that reason, an Interim Rule has been adopted instead of a Final Rule. Although additional comment is solicited, the Department does not believe such added comment is mandated. Among other reasons, the reduction issue and the concerns it raises were set forth in the proposal published on November 9, 1982, as well as in the proposed and final rules issued with respect to the 1982 crop. Further, the reduction method adopted in this Interim Rule for the 1983 crop of peanuts is the same method which was adopted for the 1982 crop. Publishing a revised Notice of Proposed Rulemaking with regard to the method of reducing the poundage was considered. However, it has been determined that an Interim Rule should be published as an alternative to allow for the preparation of quota notices to permit planting decisions to be made by growers. Delay, among other things, would make it difficult, if not impossible, to meet the April 15 contract deadline for "additional peanuts" which is established by statute. Since there have already been significant comments made with respect to the provisions of this Interim rule and since the planting season is approaching, it has been further determined that the comment period for this Interim Rule should be limited to 30 days from the date of publication of the rule in the **Federal Register**. If the provisions of this Interm Rule are changed as a result of the comments received, the Department will consider undertaking such measures as may be feasible and practicable to off-set hardships caused by a change.

Background

The Agriculture and Food Act of 1981 (the "1981 Act"), which was enacted on December 22, 1981, amended the Agricultural Adjustment Act of 1938 (the "1938 Act") and the Agricultural Act of 1949 (the "1949 Act") to make significant changes in the administration of the peanut production and price support program. Changes required by the 1981 Act were incorporated into the regulations governing 1982 poundage quotas (7 CFR 729.111 through 729.164) in a final rule published April 13, 1982 (47 FR 15966), and in an interim rule, governing the marketing of peanuts (7 CFR 729.165 through 729.210) published August 31, 1982 (47 FR 38259).

This Interim Rule sets forth the procedures for the establishment of farm poundage quotas and other terms and conditions of the program affecting the production and marketing of peanuts. This includes transfers of quotas, determination of yields, identification of marketings, and the determination, assessment, and review of marketing penalties. These regulations are basically the same as the regulations which were applicable to the 1982 crop, with the exception of the manner in which the individual farm poundage quotas will be determined for the 1984 and 1985 crops and the dates for making transfers of farm poundage quota. These regulations will be codified at 7 CFR 729.211 through 729.306.

Statutory Requirements

Section 358 of the 1938 Act, as amended by the 1981 Act, provides that there shall be a national poundage quota for each marketing year as follows: 1,200,000 tons for 1982: 1,167,300 tons for 1983; 1,134,700 tons for 1984; and 1,100,000 tons for 1985. The national poundage quota is apportioned to individual States on the basis of each State's share of the national poundage quota for the 1981 marketing year. The State poundage quota is then apportioned to individual farms. Section 358(1)(2) of the 1938 Act provides that the yearly reductions in the State poundage quotas:

"* * * shall insofar as practicable and on such fair and equitable basis as the Secretary may by regulation prescribe, be accomplished by reducing the farm poundage quota for each farm in the State to the extent that the farm poundage quota has not been produced on such farm. For purposes of the foregoing sentence, the farm poundage quota shall be considered as not having been produced on a farm to the extent that: (i) During any crop year immediately preceding the crop year for which the adjustment is being made, such quota was not actually produced on the farm because there was inadequate tillable cropland available on the farm to produce such quota; or (ii) during any two of the three crop years immediately preceding the crop year for which the adjustment is made, (I) such quota was not actually produced for any other reason (other than natural disasters or such other reasons as the Secretary may prescribe), or (II) such quota was produced but by another operator on a farm to which the poundage quota (or the acreage allotment upon which such poundage quota was based) was transferred by lease. To achieve the reduction in the State poundage quota in any marketing year, the reductions in farm poundage quotas shall be made first under clause (i) of the preceding sentence and, if

necessary, under clause (ii)(I) and then clause (ii)(II) thereof * * *."

Basically, the 1938 Act sets forth farm poundage quota reduction categories for the purpose of establishing priorities in determining individual farm poundage quota reductions. The first category ("category 1") is for farms which did not actually produce peanuts on the farm because there was inadequate tillable cropland available on the farm to produce the quota quantity in the preceding crop year. The second category ("category 2") consists of those farms where peanuts were not actually produced in two out of the three preceding years, except in those situations where peanuts were not produced because of a natural disaster or such other reasons as are prescribed by the Secretary. The third category ("category 3") contains those farms for which the quota quantity was produced but by another operator on a farm to which the quota (or the allotment on which the quota was based) has been transferred by lease two out of the three preceding years. The third category also covers hybrid situations in which during the three-year base period a farm had both nonproduction of quota quantity and transfers of quota by lease to another operator on another farm. The fourth category ("category 4") consists of all farms which were not reduced to a zero poundage quota under the first three categories. These priorities are not absolute as the 1938 Act, as amended, requires the Secretary to make poundage reductions in accordance with such regulations as the Secretary determines to be fair and equitable.

General Summary of Comments

A total of 308 comments were received with respect to the notice of proposed rulemaking from individuals and entities in 12 States prior to the close of business January 4, 1983, when comments were no longer accepted. A total of 303 comments were received from farmers, 17 from grower and farm organizations, 2 from manufacturers, 10 from Congressmen, 8 from Senators, 2 from financial entities, 1 from a State Deparment of Agriculture and 25 from other entities.

The majority of comments centered around one issue; the reduction in quota on farms for which the quota quantity was produced but by another operator on a farm to which the quota has been transferred by lease for two of the three preceding years. Many comments urged fair and equitable treatment in accomplishing poundage quota reductions by reducing poundage quotas uniformly for all quota holders. Others requested that producers should be given one more year in which to grow peanuts in order to adjust to the 1981 amendments. Most of these respondents implied that after they had produced the quota on the farm for two years (1982 and 1983) the proposed method of poundage quota reductions which entailed separating out category 3 for the 1983 crop would be acceptable. Five organizations representing a large number of producers favored the proposed method of reducing poundage quotas as did 2 producers, 1 Senator, and 1 Congressman.

Comments on Specific Issues

I. Reduction in Individual Farm Poundage Quotas

A. *Provisions of the Proposed Rule.* For the 1983 through 1985 crops, the proposed rule defined the categories of farms in which the poundage quota reductions would be made and the order of reductions as follows:

1. *Category 1. Inadequate Tillable Cropland.* Under the proposed rule, adequate tillable cropland is land determined by the county committee for the preceding crop year to be: (a) Suitable for the production of peanuts; and (b) land on which a seedbed could have been prepared and a normal crop produced using practices and equipment normally used in the county for planting peanuts. Land not considered suitable for the production of peanuts includes, but is not limited to, established orchards, vineyards, one-row shelter belts, land seeded to trees, and land being prepared for housing developments, shopping centers, or other noncrop uses as determined by the county committee.

2. *Category 2. Nonproduction of the quota during two of the three preceding years.* In this category, the proposed rule provides that farm poundage quota will be reduced for the current year to the extent that the county committee determines that peanuts were not actually produced during two of the three years of the base period, except when the county committee determines that the quota quantity was not produced because of natural disaster.

3. *Category 3. Farms from which quota was transferred by lease.* Category 3 as defined in the proposed rule applies to situations in which the farm poundage quota was produced two of the three preceding years but by another operator on a farm to which the poundage quota was transferred by lease. This is the largest of the first three categories (poundage-wise). The lease and transfer authority under which such leases were executed was added to the 1938 Act by Pub. L. 90-211, 81 Stat. 658, December 18, 1967, and requires the owner and operator of the transferring farm to approve the transfer. In addition, Section 358a(b)(4) of the 1938 Act, as amended, provides that: "no transfer of allotment shall be effective until a record thereof is filed with the county committee of the county in which such transfer is made and such committee determines that the transfer complies with the provisions of this section." The record used by ASCS to accomplish the transfer is Form ASCS-375, Record of Transfer of Allotment or Quota. This record shows the names of the operator and owner of the transferring farm and the name of the owner or operator (but not both) of the receiving farm. The proposed rule provides that ASCS-375, as well as other similar records, will be used in making determinations for potential reductions in category 3. Transfers between farm tracts within a reconstituted farm (combined worksheet) and leasing arrangements which did not involve a transfer are not treated as being in category 3, since these arrangements are not transfers of farm poundage quota by one operator to a different operator on a different farm.

However, the proposed rule treats "hybrid situations" as being in category 3. A hybrid situation can occur when during the three base period years (the three years preceding the crop year for which a poundage quota reduction is made) a farm has both nonproduction of the farm poundage quota and production of farm poundage quota by another operator on a farm to which the farm poundage quota (or portion thereof) was transferred by lease. The proposed rule takes into account the potential cumulative effect of both nonproduction and leasing of poundage quota, and provides a method for allocating reductions in the farm poundage quota between category 2 and category 3. It would also prevent duplication of reduction in both categories. It is not anticipated that there are a significant number of farms in the hybrid situation.

4. *Category 4. Quotas not reduced to zero in categories 1, 2 or 3.* Under the proposed rule, a uniform State factor would be determined and applied against the preliminary farm poundage quotas on all farms not reduced to zero in the first three reduction categories. This differed from the rule adopted for the 1982 crop of peanuts whereby, because of the difficulty at that time of determining the impact of doing otherwise, it was decided that a uniform factor would be applied to all farms whose quota was not reduced to zero under the first two categories. Because

each State's reduction will be made independently of other States, the application and size of the factor provided for in the proposed rule would vary between States. Included in the fourth category under the proposed rule are farms that received a partial reduction in one or more of categories 1, 2, or 3 and still retained farm poundage quota.

B. *Comments.* As mentioned in the general summary of comments, a vast majority of the comments addressed the issue of reductions in category 3, with about 98 percent opposing the proposal to reduce category 3 independently. Most respondents requested that 1983 poundage quota reductions be made across the board for all quota holders. Many respondents suggested that, under the provisions of the 1938 Act, as amended, which authorizes the Secretary of Agriculture to make reductions in the poundage quota on such fair and equitable basis as the Secretary may by regulation prescribe, reductions should be made in the same manner used for the 1982 crop of peanuts. These respondents felt that producers should be given one more year in which to produce the quota on the farm for which the quota was established.

C. *Analysis and Conclusion.* Upon reconsideration of the collected data with respect to the impact of poundage quota reductions and upon consideration of the comments which were received regarding the proposed rule, it has been determined that the rules which were applicable to the 1982 crop of peanuts for making poundage quota reductions should be continued for one additional crop year. This determination has been made in accordance with the provisions of Section 358 of the 1938 Act, as amended, which permit the Secretary to make reductions in poundage quotas on such fair and equitable basis as the Secretary may by regulation prescribe. The supplemental information issued with the proposed rule notes that category 3, if broken out separately for the 1983 crop, will produce reductions at 23 percent of the nationwide category 3 quota. The proposed rule failed to take into full account, however, that this is an average. Poundage quota reductions are made on a State-by-State basis. This means that the actual reduction factor superimposed on individual category 3 farm quotas will vary by State depending on the quota-composition of each individual State. The collected data indicates that the reductions will range from 0 percent in some small (poundage-wise) peanut-growing States and 16 percent in Texas, one of the principal peanut-growing States, to about 98 percent in Georgia and 100 percent in Virginia, both principal peanut-growing States. This creates widely disparate treatment for farms otherwise identically situated in the same category; i.e., farms having actively-produced quotas which have tillable acreage readily available for the production of peanuts and which are thus within the group of farms for which the statutory poundage quota reductions ultimately seek to benefit, those being farms with actual farmland in the traditional sense (land committed to seasonal crops).

Specifically, if the method specified in the proposed rule for reducing poundage quotas for the 1983 crop of peanuts were to be adopted, many farms would lose half or all of their quota, while others would suffer no reduction or a relatively small reduction.

These disparities are compelling not only in light of the nature of the land involved but also because cropping decisions for tillable acreage may have been made for any one or several of a number of reasons and such decisions may have been temporary and fortuitous. Further, the statistical disparities which would be created for the 1983 crop year in category 3 would, insofar as actively-produced quotas are concerned, be a matter essentially confined to category 3. In all but one State, with a very few number of farms, the quota for category 1 (the only other actively-produced quota category of the first three categories) was wholly eliminated by the poundage reductions which were made for the 1982 crop. In the category 1 State where only a partial reduction occurred with respect to the 1982 crop, category 1 farms absorbed the full 1982 reduction. The 1982 poundage quota reduction was the most substantial of all of the reductions mandated by the 1981 amendments to the 1938 Act. Moreover, the few category 1 farms which suffered only a partial reduction in 1982 should additively be subject to an additional reduction for the 1983 crop year.

There have been some variances in the degree of reductions in category 2. However, that category, as well, is small. Thus, the variations and number of quota holders affected are small and the variations are relatively isolated. Further, category 2 involves uniquely different considerations as that category involves quotas which were not actually produced and lack of production suggests that there is an absence of need for production, a lack of ability to produce, or that local conditions, including the possibility of producing other crops, makes peanut production unattractive. However, the Department has taken steps to avoid unfairness in the application of category 2 reductions since the rules applicable to the 1982 crop and those made applicable here to the 1983 through 1985 crops make special provision for an exemption from category 2 reductions for extraordinary circumstances, such as where the farm has been in the eminent domain pool.

The disparities which would occur by separating out category 3 for the 1983 crop year would be permanent in most cases since farms where the poundage quota was not reduced for the 1983 crop, or farms where quotas were not reduced to the same extent as farms more severely affected, might well be free of any reduction in future years since tillable cropland on farms in category 3 can be easily re-committed to peanut production. Production of the quota on the farm for the 1983 crop combined with such production for the 1982 crop would put the farm in category 4 for quota reduction purposes for the 1984 and 1985 crop years.

Beyond the statistical disparities, separation of category 3 without a second year of adjustment would create distinctions between otherwise identical growers with actively-produced quotas based on cropping decisions in the base period which involved no significant change in land use and which may have been fortuitous. The amendments to the 1938 Act made in 1981, however, seek to tie actively-produced quotas to tillable cropland and continuation of the 1982 crop rules simply leave the decision to the producer of which crop is the most beneficial to produce. By contrast, a failure to adopt the procedure for making poundage quota reductions which was applicable to the 1982 crop would essentially accomplish no more than create a small windfall for some tillable acreage at the expense of other tillable acreage. Also, drastic cuts in areas where the poundage quotas are subject to a reduction in category 3 is relatively large as opposed to other areas where the reductions in poundage quotas would be low could, in light of the large size of the poundage quota in category 3, seriously impact on well-established local markets in a disporportionate fashion. Such distortions would harm all persons dependent on such markets. These effects, as well, would be permanent. Under the 1938 Act, as amended, transfers of poundage quotas from one county to another are severely restricted. Present sales of poundage quotas in the same county, however,

would not avoid these problems since such transfers bring with them the quota history of the selling farm. Among those harmed, as well, would be those farmers who may have been confused about the effect of forthcoming poundage quota reductions and purchased poundage quotas in 1982; such farmers would not, with respect to the 1983 crop, have a two-year history of growing poundage quotas on the land on which the quota was established and would be subject to quota reductions of up to 100 percent. Adopting for one additional year the procedure which was applicable to the 1982 crop for making poundage quota reductions should provide growers with sufficient time to adjust their farming operations to avoid these problems.

On drawing a balance from all of these factors taken together, it has been decided that the most appropriate procedure for making poundage quota reductions for the 1983 crop is the same procedure which was applicable for the 1982 crop year. Accordingly, the proposed regulations (specifically, 7 CFR 729.233) have been so revised. In those States where categories 1 and 2 do not absorb the full reduction for the 1983 crop, a uniform percentage factor will be applied to those farms whose quota is not reduced to zero in those categories. For the 1984 and 1985 crops, the method for making poundage quota reductions set forth in the proposed rule is adopted.

II. Reserves for Corrections to Quota Reductions

A. *Provisions of the Proposed Rule.* In proposing separate categories 3 and 4 for quota reduction priority, it was decided to propose two separate reserve pools for making corrections in quota reductions in each State. One reserve, not to exceed 1 percent of the basis quota allocated to the State, was for correcting errors in the calculation of quota reductions. A second special reserve, also limited to 1 percent of the State's allocation of basic quota, was for quota reduction exemptions in category 3 for special considerations applicable to the 1983 crop year.

B. *Comments.* No specific comments were received with respect to this provision.

C. *Conclusion.* Since the same quota reduction categories are being adopted for the 1983 crop as were used for the 1982 crop, it has been determined that the two reserves are no longer necessary. Combining categories 3 and 4 in 1983 eliminates the need for the special reserve for exemptions in 1983. In addition, since farmers will have had 2 years to produce the quota on the farm to which it was established, a special reserve will not be necessary for the 1984 and 1985 crops. Therefore, this Interim Rule adopts for the 1983 through 1985 crops, a reserve not to exceed 1 percent of each State's poundage quota.

III. Calculation of the Farm Poundage Quota Reduction in Categories

A. *Provisions of the Proposed Rule.* It was proposed that the calculation of farm poundage quota reductions would be accomplished by individual categories in order of priority. In category 1, as proposed, the reduction would equal the percentage of nonproduction of the farm poundage quota that is attributable to inadequate tillable cropland during the previous crop year, times the *preliminary* farm poundage quota. (The preliminary farm poundage quota is equal to the farm poundage quota for the farm for the immediately preceding crop year.)

In category 2, as proposed, the reduction will be based on the average of the two highest percentages of nonproduction of the farm poundage quota during the three base period years. The amount of the reduction would equal: (1) The product of the average percent *times* the preliminary farm poundage quota, *minus* (2) the amount of any reduction made under category 1, to the extent that this subtraction does not bring the reduction to a figure less than zero. The amount of reduction under category 1 is subtracted in order to prevent a duplication of reductions between the two categories. Otherwise, the cumulative effect of reductions in categories 1 and 2 could cause the farm poundage quota to be reduced below the amount of actual production of peanuts on the farm during the base period years.

In category 3, as proposed, the reduction would be based on the average of the two highest percentages of the combined amount of quota produced by lease by another operator and nonproduction of the farm poundage quota. This procedure accommodates both the pure category 3 situation and the hybrid situation discussed above. The amount of the reduction would equal: (1) The product of the average percentage *times* the preliminary farm poundage quota, *minus* (2) the amount of any reductions made under category 1 and category 2. As above, the amount of reductions under category 1 and category 2 are subtracted to prevent duplication of reductions between categories.

The proposed rule set forth an example of how the calculations described above would be made.

B. *Comments and Discussion of Comments.* No specific comments were received on the method for calculating the reduction of farm poundage quotas, although the majority of comments opposed giving reductions in category 3 priority over reductions in category 4.

C. *Conclusion.* In view of the adoption of one method of making reductions in 1983 (combining categories 3 and 4) and another method specified in 1984 and 1985 (separate categories 3 and 4), the method for calculating the reduction of farm poundage quotas will be the method specified in the proposed rule for crop years 1984 and 1985. The 1983 reduction will be calculated using the same method as was used for the 1982 crop.

IV. Final Date for Filing Spring Transfers

A. *Provisions of the Proposed Rule.* Due primarily to difficulties experienced in contracting for additional peanuts for crushing or export, it was proposed to establish April 1 as the date for filing for "spring transfers" (i.e., pre-planting transfers of quota).

B. *Comments.* Only a small number of respondents addressed this issue with about half favoring the proposal and the others recommending a later date, such as June 14 and July 31. The major objection was that such an early date did not give producers adequate time to complete plans such as financial and planting arrangements.

C. *Conclusion.* After consideration of the comments regarding the proposed filing date, a decision was made to adopt a compromise date in the Interim Rule. As adopted, the final date for filing a spring transfer will be the date established by the State committee but not later than the final planting date. This will give producers the time needed to complete all spring transfers prior to the end of the normal planting date in the State.

V. Reduction or Waiver of Penalty

A. *Provisions of the Proposed Rule.* Under the proposed rule, the producer had the right of appeal to the State committee and to the Deputy Administrator in accordance with appeal procedures set forth at 7 CFR Part 780 for any penalties assessed against the producer.

B. *Comments.* No specific comments were received on this provision.

C. *Conclusion.* Section 359(f)(2) of the 1938 Act, as amended, provides as follows:

> The Secretary shall authorize, under such regulations as the Secretary shall prescribe, the county committees established under Section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or reduce marketing penalties provided for under this

subsection in cases in which such committees determine that the violations that were the basis of the penalties were unintentional or without knowledge on the part of the parties concerned. Errors in weight that do not exceed one-tenth of 1 per centum in the case of any one marketing document shall not be considered. (7 U.S.C. 1359(f)(2)).

In addition, Section 359(k)(4) of the 1938 Act, as amended, provides that:

Notwithstanding any other provision of law, the liability for and the amount of any penalty assessed under this section shall be determined in accordance with such procedures as the Secretary by regulations may prescribe * * * (7 U.S.C. 1359(1)(4)).

This Interim Rule implements these provisions of the 1938 Act in the following manner. First, the county committees are authorized to waive or reduce penalties in appropriate circumstances in accordance with guidelines issued by the Deputy Administrator, State and County Operations, ASCS. However, the Deputy Administrator may require that waivers or reductions be reviewed by the State committee or the Deputy Administrator in order to assure a reasonable degree of uniformity in the implementation of this authority throughout all the peanut producing areas. The reviewing authority may require the county committee to redetermine the amount of the waiver or reduction of penalties if the reviewing authority determines the action of the county committee was not in conformity with the guidelines and instructions issued by the Deputy Administrator.

Second, the rule provides that no penalty shall be assessed for errors in net weight as reported on each ASCS-1007 (Inspection Certificate and Sales Memorandum) that do not exceed one-tenth of one percent. This exemption is not applicable to cases involving fraud or conspiracy.

Third, the rule sets forth procedures whereby a producer may appeal the assessment of a penalty or request a reduction in a penalty. Initially, a penalty is assessed by the county committee. If the producer wishes to contest liability for the penalty, or to request a reduction in the penalty, or both, the producer must file a request for reconsideration with the county committee. The appeal will then be heard by the county committee in accordance with the appeal procedures set forth at 7 CFR Part 780. To allow for the correction of errors in cases where a decision adverse to the producer is rendered, the producer may further appeal the county committee determination in the manner prescribed in Part 780.

Overall Summary

After having given careful consideration of all comments received, the proposed rule is adopted in this Interim Rule as proposed except for the modifications discussed above and for minor technical changes or corrections of typographical errors.

However, since several of the items adopted were substantially different than proposed, it was decided to issue these regulations as an Interim Rule. This will give the public the opportunity to comment on the regulations as adopted in this Interim Rule.

List of Subjects in 7 CFR Part 729

Poundage quotas, Penalties, Reporting requirements.

Interim Rule

PART 729—[AMENDED]

Accordingly, 7 CFR Part 729 is amended as set forth below:

1. The title "Subpart—Acreage Allotments, Marketing Quotas, and Poundage Quotas for 1978 and Subsequent Crops of Peanuts" is revised to read "Subpart—Acreage Allotments, Marketing Quotas, and Poundage Quotas for 1978 through 1981 Crops of Peanuts".

2. The text of 7 CFR 729.1 is revised to read as follows:

§ 729.1 Basis and purpose.

(a) The regulations contained in this subpart are issued in accordance with the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 *et seq.*) and are applicable to peanuts for the 1978 through 1981 crops. They govern the establishment of farm acreage allotments and marketing quotas, farm poundage quotas, the issuance of marketing cards, the identification of marketings of peanuts, and the keeping of records, and making reports incident thereto.

(b) The allotment and marketing quota regulations for peanuts of the 1972 and subsequent crops (37 FR 2645 and 37 FR 3629, as amended) are superseded but remain effective with respect to the 1972 through 1977 crops of peanuts.

3. The text of 7 CFR 729.7(b)(2) is revised to read as follows:

§ 729.7 Determination of farm peanut history acreage.

* * * * *

(b) * * *

(2) Farm acreage allotment times the national quota factor for the 1978 through 1981 crop years.

* * * * *

4. The subheading of 7 CFR 729.46(b)(2) is revised to read as follows:

§ 729.46 Penalty rate.

* * * * *

(b) * * *

(2) *1979 through 1981 marketing years.*

* * *

* * * * *

5. A new subpart is added to 7 CFR Part 729, as follows:

Subpart—Poundage Quota and Marketing Regulations for the 1983 Through 1985 Crops of Peanuts

General

Sec.
729.211 Basis and purpose.
729.212 Extent of calculations and rule of fractions.
729.213 Definitions.
729.214 Types of peanuts.
729.215 Supervisory authority of State committee.
729.216–729.219 [Reserved].

State Poundage Quota, Farm Poundage Quota, Notice To Farm Operator and Appeals

729.220 Instructions and forms.
729.221 Determination of State poundage quota.
729.222 Reserves for corrections.
729.223 Determination of preliminary farm poundage quota.
729.224 Determination of farm poundage quota.
729.225 Determination of undermarketings.
729.226 Determination of effective farm poundage quota.
729.227 Determination of farm yield.
729.228 Determination of farm yield for reconstituted farm.
729.229 Approval of farm poundage quota and notice to farm operator.
729.230 Erroneous notice of effective farm poundage quota.
729.231 Request for reconsideration or appeal.
729.232 Farms with one acre or less of peanuts.
729.233–729.239 [Reserved].

Transfers of Farm Poundage Quota

729.240 Transfer by sale or lease.
729.241 Transfer by owner or operator.
729.242 Transfer within State.
729.243 Witness of signatures.
729.244 Filing record of transfer and time for filing.
729.245 Maximum period of transfer.
729.246 Transfer not to be approved.
729.247 Consent of lienholder.
729.248 Transfer to and from the same farm (subleasing).
729.249 Effect of permanent transfer on determination of farm poundage quota.
729.250 County committee action.
729.251 Withdrawal of minor revision.
729.252 Recomputation of previously approved multiple year transfer.
729.253 Amendment of multiple year transfer agreements approved on or before December 22, 1981.
729.254–729.264 [Reserved]

Marketing Cards and Producer Identification Cards

Sec.
729.265 Issuance of cards.
729.266 Claim stamping marketing cards.
729.267 Invalid cards.
729.268–729.270 [Reserved]

Marketing Penalties

729.271 Basic penalty rate.
729.272 Peanuts on which penalties are due.
729.273 Peanuts on which penalties are not to be assessed.
729.274 Persons to pay penalty.
729.275 Payment of penalty.
729.276 Lien for penalty.
729.277 Assessment of penalties.
729.278 Reduction or waiver of penalty.
729.279 Appeals.
729.280 Failure to comply with program.
729.281–729.285 [Reserved]

Producer Identification and designation of Peanuts Marketed

729.286 Identification of producer marketings.
729.287 Designation of peanuts.
729.288–729.289 [Reserved]

Producer Records and Reports

729.290 Report of marketing green peanuts.
729.291 Report of acquisition of seed peanuts.
729.292 Peanuts marketed to persons who are not registered handlers.
729.293 Report on marketing card.
729.294 Report of production and disposition.
729.295–729.299 [Reserved]

Handler's Registration, Responsibilities and Records

729.300 Registration of handlers.
729.301 Records and reports required of handlers.
729.302 Persons engaged in more than one business.
729.303 Penalty for failure to keep records and make reports.
729.304 Examination of records and reports.
729.305 Length of time records and reports are to be kept.
729.306 Information confidential.

Authority: Secs. 301, 357, 358, 358a, 359, 372, 373, 375, 52 Stat. 38, as amended, 55 Stat. 88, as amended, 61 Stat. 658, as amended, 55 Stat. 90, as amended, 52 Stat. 62, as amended, 63, as amended, 64, 65, as amended, 66, as amended, 70 Stat. 206, as amended, Secs. 801, 802, 803, 804, 805, 91 Stat. 944, as amended, 95 Stat. 1248, (7 U.S.C. 1301, 1357, 1358, 1358a, 1359, 1372, 1373, 1375, as amended); Sec. 108A, 96 Stat. 1254 (7 U.S.C. 1445c–1).

Subpart—Poundage Quota and Marketing Regulations for 1983 Through 1985 Crops of Peanuts

General

§ 729.211 Basis and purpose.

The regulations contained in this subpart are issued in accordance with the Agricultural Adjustment Act of 1938, as amended, and the Agricultural Act of 1949, as amended, and are applicable to the 1983 through 1985 crops of peanuts. They govern the establishment of farm poundage quotas, the issuance of marketing cards, the identification of marketings of peanuts, the collection and refund of penalties, the keeping of records, and the making of reports incident thereto.

§ 729.212 Extent of calculations and rule of fractions.

Computations shall be rounded according to Part 793 of this chapter. The terms set forth below shall be expressed as follows:

(a) Acreage in acres and tenths of acres.

(b) Penalties or damages in dollars and cents.

(c) The quantity of peanuts produced, considered produced and marketed; a preliminary farm poundage quota; a farm poundage quota; an effective farm poundage quota; a farm yield; and an actual yield per acre, in whole pounds.

(d) Factors as a four place decimal except where a different place decimal factor is established by the Deputy Administrator, State and County Operations, Agricultural Stabilization and Conservation Service, (hereinafter referred to as the "Deputy Administrator").

§ 729.213 Definitions.

The definitions in and provisions of Parts 718, 719, and 720 of this chapter are hereby incorporated by reference in these regulations unless the context or subject matter or the provisions of these regulations require otherwise. References to other parts of this chapter or title include any amendments to the referenced parts. Unless the context or subject matter require otherwise, the following words and phrases, as used in this subpart and in all related instructions and forms shall mean:

(a) *Additional peanuts.* Any peanuts which are marketed from a farm other than peanuts marketed or considered marketed as quota peanuts.

(b) *Areas.*—(1) The southeastern area consisting of Puerto Rico, the U.S. Virgin Islands, and the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

(2) The southwestern area consisting of the States of Alaska, Arizona, Arkansas, California, Colorado, Hawaii, Idaho, Kansas, Louisiana, Montana, Nebraska, New Mexico, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming and all territories and possessions of the United States not otherwise assigned.

(3) The Virginia-Carolina area consisting of the District of Columbia and the States of Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

(c) *Base period.* The 3 calendar years immediately preceding the year for which a farm poundage quota is being established.

(d) *Buyer.* A person who:

(1) Buys or otherwise acquires peanuts in any form;

(2) Markets, as a commission merchant, broker, cooperative, agent, or in any other capacity, any peanuts for the account of a producer and is responsible to the producer for the amount received for the peanuts; or

(3) Receives peanuts as collateral for or in settlement of a price support loan.

(e) *Considered produced.* The number of pounds of peanuts to be considered produced for the current year or for a base period year for use in computing a future farm poundage quota. Considered produced pounds for a farm will be the sum of the pounds (limited to the farm poundage quota less the pounds of peanuts marketed) which:

(1) Were not produced because of a natural disaster as determined by the county committee in accordance with instructions issued by the Deputy Administrator; or

(2) Were equal to the farm poundage quota on a farm where the farm was either purchased, or a transfer by sale was approved, or the farm was acquired by an agency having the right of eminent domain, after the latest normal planting date for peanuts for the county, and only to the extent that such farm poundage quota was produced or otherwise conidered produced on the farm to which allocated during the following crop year.

(f) *Cropland.* Land on a farm which is determined by the county committee to be suitable for the production of peanuts and on which a seedbed could have been prepared and a normal crop produced using practices and equipment normally used in the county for planting peanuts. Land not considered suitable includes, but is not limited to, established orchards, vineyards, one-row shelter belts, land seeded to trees, and land being prepared for housing developments, shopping centers, or

other noncrop uses as determined by the county committee.

(g) *Crushing.* The processing of peanuts: (1) To extract oil for food uses and meal for feed uses, or (2) into flakes for domestic food uses other than peanut butter, candy, confections or other traditional domestic edible uses.

(h) *Director.* The Director, or Acting Director, Tobacco and Peanuts Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

(i) *Domestic edible use.* Domestic edible use means, for purposes of the regulations found in this part: (1) Use for milling to produce domestic food peanuts (including the processing of peanuts into flakes for traditional domestic edible uses); (2) use of peanuts for seed, excluding unique strains which are not commercially available and which are used for the production of green peanuts; and (3) use of peanuts on a farm.

(j) *Effective farm poundage quota.* The quota determined in accordance with § 729.226.

(k) *Excess peanuts.* The quantity of peanuts marketed or considered marketed for domestic edible use in the current marketing year in excess of the effective farm poundage quota.

(l) *False identification.* False identification shall include the following:

(1) Identifying or permitting the identification of peanuts at time of marketing as having been produced on a farm other than the farm of actual production; or

(2) Marketing or permitting the marketing of peanuts from a farm without identifying the peanuts with a peanut marketing card issued for the farm; or

(3) Permitting the use of the peanut marketing card for the farm to record a marketing of peanuts when, in fact, no peanuts were marketed from the farm.

(m) *Farm poundage quota.* The quota determined in accordance with § 729.224.

(n) *Farm yield.* The farm yield determined in accordance with § 729.227.

(o) *Farmers stock peanuts.* Dug peanuts produced in the United States which have not been shelled, crushed, cleaned, or otherwise changed (except for removal of foreign material, loose shelled kernels, and access moisture) from the condition in which picked or threshed peanuts are customarily marketed by producers.

(p) *Final acreage.* The acreage on the farm from which peanuts are produced as determined and adjusted in accordance with Part 718 of this chapter.

(q) *Green peanuts.* Peanuts which, before drying or removal of moisture from the peanuts either by natural or artificial means, are marketed by the producer for consumption exclusively as boiled peanuts.

(r) *Inspector.* A Federal or Federal-State inspector authorized or licensed by the Secretary, U.S. Department of Agriculture.

(s) *Loan additional peanuts.* Peanuts which are not eligible for marketings as quota peanuts, are not subject to delivery to fulfill a contract for additional peanuts, and which are pledged as collateral for price support loan at the additionl loan rate.

(t) *Marketed.* To dispose of peanuts (including farmers stock peanuts, shelled peanuts, cleaned peanuts, or peanuts in processed form) by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. The terms "market", "marketing", and "for market" shall have corresponding meanings to the term "marketed" in the connection in which they are used. The terms "barter" and "exchange" shall include the payment by the producer of any quantity of peanuts, for the harvesting, picking, threshing, cleaning, crushing, or shelling of peanuts, or for any other service rendered to the producer by anyone. Any lot of farmers stock peanuts will be considered as marketed when delivered by the producer to the buyer. Peanuts which are delivered by the producer as collateral for or in settlement of a price support loan will be considered as marketed at the time of delivery. Delivery shall be deemed to have occurred when unloaded at the delivery point. Any peanuts retained on the farm for seed or other use shall be considered marketings of quota peanuts or marketings for domestic edible use.

(u) *Marketing year.* For each crop of peanuts, the period begining August 1 of the current year and ending July 31 of the following year.

(v) *National poundage quota.* 1,167,300 tons for 1983; 1,134,700 tons for 1984; and 1,100,000 tons for 1985.

(w) *Peanuts.* All peanuts produced, excluding: (1) Any peanuts which were not dug or were not picked or threshed before or after marketing from the farm; and (2) any peanuts marketed by the producer for consumption exclusively as boiled peanuts before drying or removal of moisture from such peanuts by natural or artificial means (referred to as "green peanuts"). If a lot of farmers stock peanuts has been inspected by the Federal-State Inspection Service at the time of marketing, the quantity in the lot shall be the gross weight thereof less foreign material and excess moisture (moisture in excess of 7 percent in traditional peanut producing States in the southeastern and southwestern areas, those being Alabama, Arizona, Arkansas, California, Florida, Georgia, Louisiana, Mississippi, New Mexico, Oklahoma, that part of South Carolina in the southeastern area, and Texas; and moisture in excess of 8 percent for peanuts grown elsewhere). If the lot of peanuts is not inspected by the Federal-State Inspection Service, the quantity in the lot shall be the gross weight thereof. If shelled peanuts are marketed by a producer, the quantity in the lot (farmers stock basis) shall be determined by multiplying the poundage of the shelled peanuts by 1.5.

(x) *Planted acreage.* The final acreage of peanuts on a farm determined in accordance with the provisions of Part 718 of this chapter.

(y) *Preliminary farm poundage quota.* The quota determined in accordance with § 729.223.

(z) *Produced.* The total pounds of peanuts dug.

(aa) *Quota peanuts.* Peanuts (except green peanuts) which are marketed or considered marketed from a farm for domestic edible use. This includes all peanuts which are dug on a farm except the following: (1) Green peanuts; (2) peanuts which are placed under loan at the additional support rate and not redeemed by the producer; (3) peanuts which are marketed under a contract between a handler and a producer for exportation and/or crushing.

(bb) *Seed sheller.* A person who in the course of his usual business operations shells peanuts for producers for use as seed for the subsequent year's crop.

(cc) *Segregation 1 peanuts.* A lot of farmers stock peanuts which: (1) Has at least 99 percent peanuts of one type; (2) has not more than 2 percent damaged kernels nor more than 1.00 percent concealed damage caused by rancidity, mold, or decay; and (3) is free from visible Aspergillus flavus mold.

(dd) *Undermarketings.* The number of pounds determined in accordance with § 729.25.

(ee) *Yield per acre or actual yield.* The actual yield per acre for the farm obtained by dividing the total production of peanuts for the farm by the final acreage of peanuts.

§ 729.214 Types of peanuts.

The generally known types of peanuts have identifying characteristics as follows:

(a) *Runner type peanuts.* These peanuts are commonly known as African Runner, Alabama Runner, Georgia Runner, Carolina Runner, Wilmington Runner, Dixie Runner, or

Runner. They are produced principally in the southeastern peanut producing area of the United States and are identified by the following characteristics: Typically two-seeded pods which are practically cylindrical, medium sized, stem end round and the other pointed with a slight keel having shells fairly thick and strong, with shallow veining and corrugation, and seeds crowed in pod with adjacent ends sharply shouldered.

(b) *Spanish type peanuts.* These peanuts are commonly known as White Spanish, Small Spanish, Medium-Small Spanish, or Spanish. They are produced principally in the southeastern and southwestern peanut producing areas of the United States and are identified by the following general characteristics: Typically two-seeded pods which are small, with both ends rounded, the end opposite the stem having an inconspicuous point or keel, and the waist slender; shells very thin, with veining and corrugation but not deep, and seed globular to oval and practically smooth.

(c) *Valencia type peanuts.* These peanuts are commonly known as New Mexico Valencia, Tennessee Valencia, Tennessee White, Tennessee Red, or Valencia. They are produced principally in Tennessee and New Mexico and are identified by the following general characteristics: Typically three- or four-seeded, and sometimes five-seeded pods which are long and slender, with the end opposite the stem having a definite point or keel with conspicuous veining and corrugation, and seeds globular to oval.

(d) *Virginia type peanuts.* These peanuts are commonly known as Virginia Runner, Virginia Bunch, North Carolina Runner, North Carolina Bunch, Jumbo, or Virginia. They are produced principally in North Carolina, Virginia, northeastern South Carolina, and Tennessee, and are identified by the following general characteristics: Typically two-seeded pods which are of an average size larger than any other type; pods which are roughly cylindrical, with veining and corrugation deep, and seeds are cylindrical with pointed ends, length two or three times diameter, and practically smooth.

§ 729.215 Supervisory authority of State committee.

The State committee shall take any action required to be taken by the county committee which the county committee fails to take. The State committee shall correct or require the county committee to correct any action taken by the county committee which is not in accordance with this subpart. The State committee shall also require the county committee to withhold taking any action which is not in accordance with this subpart.

§§ 729.216–729.219 [Reserved]

State Poundage Quota, Farm Poundage Quota, Notice to Farm Operator and Appeals

§ 729.220 Instructions and forms.

The Director shall cause to be prepared and issued such forms and instructions as are necessary for carrying out the regulations in this subpart. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator.

§ 729.221 Determination of State poundage quota.

The State poundage quota shall be the State's share of the current year's national poundage quota calculated to equal the percentage of the 1981 national poundage quota allocated to farms in the State.

§ 729.222 Reserves for corrections.

For the purpose of correcting errors, the State committee shall establish a reserve not to exceed 1 percent of the State poundage quota. If the amount of poundage quota necessary to correct errors is in excess of the reserve established by the State committee, such errors may nevertheless be corrected with the approval of the Deputy Administrator. However, the Deputy Administrator may require the State committee to recalculate the farm poundage quotas for all farms in the State if the Deputy Administrator determines that the amount of poundage quota necessary to correct errors is substantially in excess of the reserve. In such case, the State committee shall reissue corrected farm poundage quotas for all farms in the State and such corrected farm poundage quota shall be considered the farm poundage quota for the farm for all purposes.

§ 729.223 Determination of preliminary farm poundage quota.

The preliminary farm poundage quota shall be the farm poundage quota established for the farm for the preceding year.

§ 729.224 Determination of farm poundage quota.

The farm poundage quota shall be the preliminary farm poundage quota adjusted downward for poundage quota reductions as required by this section, plus permanent adjustments from reserves and permanent transfers.

(a) *1983 poundage quota reduction.*—(1) *Poundage quota reduction.* For the 1983 crop year, the preliminary farm poundage quota for each farm shall be reduced by the county committee in the following order of priority to the extent necessary, in whole or in part, to accomplish the reduction in the total of the preliminary farm poundage quotas for the State to the State poundage quota less the amount withheld for the reserve for the current marketing year.

(i) *Inadequate tillable cropland.* The preliminary farm poundage quota shall be reduced for a farm to the extent the county committee determines that the farm did not have adequate tillable cropland to produce the farm poundage quota during the preceding crop year. Farms on which there is inadequate tillable cropland as the result of performance of a conservation practice shall not be exempt from poundage quota reductions under this paragraph. If the constitution of the farm differs from the constitution of the farm for the preceding year, an individual determination shall be made for each separately identifiable farm tract as it was constituted during the preceding crop year.

(ii) *Quota not produced.* The preliminary farm poundage quota for a farm shall be reduced, or further reduced, to the extent the county committee determines that the farm poundage quota for such farm was not produced or considered produced during any two years of the base period. If the constitution of the farm differs from the constitution of the farm for any one or more years of the base period, an individual determination shall be made for each separately identifiable farm tract as it was constituted for that year of the base period.

(iii) *Calculation of farm poundage quota reductions under paragraphs (a)(1)(i) and (a)(1)(ii).* (A) The amount of the farm poundage quota reduction made under paragraph (a)(1)(i) of this section shall equal the amount of the farm poundage quota that was not produced on the farm during the previous crop year because of inadequate tillable cropland.

(B) The amount of the farm poundage quota reduction made under paragraph (a)(1)(ii) of this section shall equal: (1) The preliminary farm poundage quota times the average of the two highest percentages of the farm poundage quota that was not produced or considered produced during two of the three years of the base period minus (2) the amount of any reduction under paragraph (a)(1)(i) of this section, to the extent that this subtraction does not bring the reduction to a figure less than zero.

(iv) *Application of State factor.* (A) If the cumulative totals of individual farm poundage quota reductions computed in accordance with paragraph (a)(1)(iii)(A) or (a)(1)(iii)(B) of this section are more than the required reduction (including amounts withheld for the reserve) in the State poundage quota for the 1983 crop year, a uniform State factor shall be determined by the State committee and multiplied times the reductions of farm poundage quotas computed for the farms in the category for which the farm poundage quota reduction exceeds the total of the required reduction for the State, so as to cause the cumulative total of reductions of individual farm poundage quotas to equal the total reduction for the State plus amounts withheld for the reserve.

(B) If the cumulative total of individual farm poundage quota reductions computed pursuant to paragraphs (a)(1)(iii)(A) and (a)(1)(iii)(B) of this section are less than the required reduction (including amounts withheld for the reserve) in the State poundage quota for the 1983 crop year, a uniform State factor shall be determined by the State committee and multiplied times the preliminary farm poundage quotas on the remaining farms in the State (including those not reduced to zero by reductions made pursuant to paragraphs (a)(1)(iii)(A) and (a)(1)(iii)(B) of this section), so as to cause the cumulative total of reductions of individual farm poundage quotas to equal the total reduction for the State plus amounts withheld for the reserve.

(2) *Permanent adjustments.* The preliminary farm poundage quota, after adjustments under paragraph (a)(1) of this section, if any, shall also be adjusted by the county committee to reflect permanent transfers or adjustments from reserves as set forth in this subpart.

(b) *1984 and 1985 poundage quota reductions*—(1) *Poundage quota reductions.* For crop years 1984 and 1985, the preliminary farm poundage quota for each farm shall be reduced by the county committee in the following order of priority to the extent necessary, in whole or in part, to accomplish the reduction in the total of the preliminary farm poundage quotas for the State to the State poundage quota less the amount withheld for reserves for the current marketing year.

(i) *Inadequate tillable cropland.* The preliminary farm poundage quota shall be reduced for a farm to the extent the county committee determines that the farm did not have adequate tillable cropland to produce the farm poundage during the preceding crop year. Farms on which there is inadequate tillable cropland as the result of performance of a conservation practice shall not be exempt from poundage quota reductions under this paragraph. If the constitution of the farm differs from the constitution of the farm for the preceding crop year, an individual determination shall be made for each separately identifiable farm tract as it was constituted during the preceding crop year.

(ii) *Quota not produced.* The preliminary farm poundage quota for a farm shall be reduced, or further reduced, to the extent the county committee determines that the farm poundage quota for such farm was not produced or considered produced during any two of the base period years. If the constitution of the farm differs from the constitution of the farm for any one or more of the years of the base period, an individual determination shall be made for each separately identifiable farm tract as it was constituted for that year of the base period.

(iii) *Quota transferred by lease and produced on another farm by a different farm operator.* The preliminary farm poundage quota for a farm shall be reduced, or further reduced, to the extent the county committee determines that any of the following situations apply:

(A) For two or more of the years of the base period: (1) The farm poundage quota was transferred, in whole or in part, as the result of a lease which was filed before or during the normal planting period for peanuts, i.e., leases filed before the time prescribed in accordance with the provisions of § 729.30(b)(1) for crop year 1981, by July 31 for crop year 1982, and by the final planting date established by the State committee for crop years 1983 and 1984, and (2) was produced or considered produced on a receiving farm where the operator of the receiving farm was a different person than the operator of the transferring farm; or

(B) The farm poundage quota: (1) Was transferred, in whole or in part, as the result of a lease which was filed during the normal planting period for peanuts as determined in accordance with § 729.30(b)(1) for the crop year 1981, by July 31 for crop year 1982, the final planting date as established by the State committee for crop years 1983 and 1984, and was produced or considered produced on the receiving farm where the operator of the receiving farm was a different person than the operator of the transferring farm for 2 or more years of the base period, and (2) was not 100 percent produced or considered produced in 1 or more of the same base period years.

(C) The farm poundage quota: (1) Was not 100 percent produced or considered produced in 2 or more of the years of the base period; and (2) was transferred in whole or in part, as a result of a lease which was filed during the normal planting period for peanuts as determined in accordance with the provisions of § 729.30(b)(1) for the crop year 1981, by July 31 for crop year 1982, and by the final planting date established by the State committee for crop years 1983 and 1984, and was produced or considered produced in part on a receiving farm where the operator of the receiving farm was a different person than the operator of the transferring farm in 1 or more of the same base period years.

(D) The farm poundage quota: (1) Was transferred, in whole or in part, as the result of a lease which was filed during the normal planting period for peanuts as determined in accordance with the provisions of § 729.30(b)(1) for the crop year 1981, by July 31 for crop year 1982, and by the final planting date established by the State committee for 1983 and 1984 crop years, and was produced or considered produced on the receiving farm and the operator of the receiving farm was a different person than the operator of the transferring farm for 1 or more of the base period years; and (2) was not 100 percent produced or considered produced in 1 or more of the other base period years.

If the constitution of the farm differs from the constitution of the farm for any one or more of base period years, an individual determination shall be made for separately identifiable farm tracts as they were constituted for that year of the base period.

(2) *Calculation of farm poundage quota reductions for the 1984 and 1985 crop years under paragraphs (b)(1)(i), (b)(1)(ii) and (b)(1)(iii).* (i) The amount of the farm poundage quota reduction made under paragraph (b)(1)(i) of this section shall equal the preliminary farm poundage quota times the percentage of the farm poundage quota that was not produced on the farm during the previous crop year because of inadequate tillable cropland.

(ii) The amount of the farm poundage quota reduction made under paragraph (b)(1)(ii) shall equal: (A) The preliminary farm poundage quota times the average of the two highest percentages of the farm poundage quota that was not produced or considered produced during two of the three base period years, minus (B) the amount of any reduction under paragraph (b)(2)(i) of this section, to the extent that this subtraction does

not produce a reduction figure of less than zero.

(iii) The amount of the farm poundage quota reduction made under paragraph (b)(1)(iii) shall equal: (A) The product of the preliminary farm poundage quota times the average of the two highest percentages of the sum of the combined farm poundage quota which, during two of the three base period years, was produced or considered produced by another operator to which the farm poundage quota was transferred by lease and was not produced or considered produced, minus (B) the amount of any reduction calculated under paragraphs (b)(2)(i) and (b)(2)(ii) of this section, to the extent that this subtraction does not produce a reduction figure of less than zero.

(3) *Application of State factor.* (i) If the cumulative totals of individual farm poundage quota reductions computed in accordance with paragraph (b)(2) of this section are more than the required reduction (including amounts withheld for reserves) in the State poundage quota for the current year, a uniform State factor shall be determined by the State committee and multiplied times the reductions of farm poundage quotas computed for the farms in the category for which the farm poundage quota reduction exceeds the total of the required reduction for the State, so as to cause the cumulative total of reductions of individual farm poundage quotas to equal the total reduction for the State plus amounts withheld for reserves.

(ii) If the cumulative total of individual farm poundage quota reductions computed pursuant to paragraph (b)(2) of this section are less than the required reduction (including amounts withheld for reserves) in the State poundage quota for the current year, a uniform State factor shall be determined by the State committee and multiplied times the preliminary farm poundage quotas on the remaining farms in the State (including those not reduced to zero through reductions computed pursuant to paragraph (b)(2) of this section), so as to cause the cumulative total of reductions of individual farm poundage quotas to equal the total reduction for the State plus amounts withheld for reserves.

(4) *Permanent adjustments.* The preliminary farm poundage quota, after adjustments under paragraphs (b)(2) and (b)(3) of this section, if any, shall be adjusted by the county committee to reflect permanent transfers or adjustments from reserves as set forth in this subpart.

§ 729.225 Determination of undermarketings.

(a) *Actual undermarketings.* Actual undermarketings are the number of pounds by which the total marketings of quota peanuts from the farm during previous marketing years (excluding any marketing year before the marketing year for the 1980 crop) were less than the total amount of the applicable effective farm poundage quotas (disregarding adjustments for undermarketings from prior marketing years) for such marketing years. For purposes of the foregoing sentence, total marketings of quota peanuts for any marketing year shall be the larger of: (1) The total production of segregation 1 peanuts on the farm for such year, or (2) the total amount of quota peanuts which were marketed or considered marketed from the farm. However, the total marketings of quota peanuts for any marketing year shall not exceed the effective farm poundage quota for that farm for such year.

(b) *Effective undermarketings.* (1) If 10 percent of the national poundage quota for the marketing year to which the actual undermarketings are to be applied is equal to or greater than the actual undermarketings on all farms, the effective undermarketings for the farm shall be the same as the actual undermarketings.

(2) If the conditions in paragraph (b)(1) of this section are not applicable, the actual undermarketings will be apportioned to each farm in such manner that the effective undermarketings: (i) Will not be less than the smaller of the actual undermarketings or 10 percent of the farm poundage quota; (ii) will not be more than the actual undermarketings; and (iii) will be apportioned so as to cause, insofar as practicable, the total of the effective undermarketings on all farms to equal 10 percent of the national poundage quota for the marketing year to which the effective undermarketings are to be applied.

§ 729.226 Determination of the effective farm poundage quota.

The effective farm poundage quota shall be the farm poundage quota adjusted for temporary transfers and effective undermarketings.

§ 729.227 Determination of farm yield.

The farm yield established for a farm for which a farm poundage quota is established for the current year shall be the farm yield established for the farm for the immediately preceding year. If a farm yield is not established for a farm on which a farm poundage quota is established, the county committee shall establish a farm yield in accordance with instructions issued by the Deputy Administrator.

§ 729.228 Determination of farm yield for reconstituted farm.

For reconstitutions which are effective after farm yields have been established, the farm yield shall be determined as follows:

(a) *Combination*—(1) *Quota farm.* The farm yield for combined quota tracts shall be the weighted average of the farm yields for the tracts being combined.

(2) *Quota and nonquota farm.* A combined farm shall be assigned the farm yield of the tract with an established quota if placed in combination with a nonquota tract even though a farm yield previously had been established for such nonquota tract.

(3) *Nonquota farms.* The farm yield for combined nonquota tracts shall be established by the county committee in accordance with § 729.227 even though a farm yield had been previously established for such tracts.

(b) *Divisions*—(1) *No identifiable tracts having tract yield established.* The farm yield shall be the same for each tract as the farm yield for the parent farm.

(2) *Identifiable tracts with tract yield established.* The farm yield shall be the same as the yield which has been previously established for the tract which is divided from the parent farm.

(3) *Division of an identifiable tract having a tract yield established.* The farm yield shall be the same as the yield which has been previously established for the tract which is being divided.

§ 729.229 Approval of farm poundage quota and notice to farm operator.

(a) *Approval.* Each farm yield, preliminary farm poundage quota, farm poundage quota, and effective farm poundage quota shall be determined under the supervision of, and approved by, the county committee of the county in which the farm is administratively located, subject to the concurrence of the State committee or a representative of the State committee. The initial notice of farm poundage quota shall not be mailed to a farm operator until the farm poundage quota has been approved. A revised notice may be mailed without the aforementioned approval in any case resulting from: (1) A farm reconstitution which does not require allocation of additional poundage quota; or (2) a transfer by lease, sale, owner or operator, of poundage quota.

(b) *Notice to farm operator.* (1) As soon as possible after the farm

poundage quota or the effective farm poundage quota is approved, an official notice of such quota shall be mailed to the farm operator.

(2) If a farm poundage quota is reduced to zero for the current year, the county committee shall mail to the farm operator a notice of such determination.

(3) A revised notice of farm poundage quota or the effective farm poundage quota shall be mailed to the farm operator as soon as possible after the county committee determines that an incorrect notice has been mailed or the county committee takes an action which requires a revision of the previously determined quota.

(4) The notice to the operator shall constitute notice to all persons who as operator, landlord, tenant, or sharecropper have an interest in the farm for which the quota is established.

§ 729.230 Erroneous notice of effective farm poundage quota.

If the official notice of effective farm poundage quota issued for a farm erroneously stated a quota larger than the correct effective farm poundage quota, the quota shown on the erroneous notice shall be used as the effective farm poundage quota. Such quota shall serve as the basis for marketing penalty computations for the farm for the current marketing year only if the county committee determines and the State Executive Director concurs that: (1) The error was not so substantial as to place the operator on notice thereof; and (2) the operator was not notified of the correct effective farm poundage quota prior to marketing peanuts as quota peanuts in excess of the correct effective farm poundage quota. Notwithstanding the foregoing, undermarketings for farms for which the erroneous notice of the effective farm poundage quota is applied shall be determined on the basis of the correct effective farm poundage quota for the farm.

§ 729.231 Request for reconsideration or appeal.

Any producer who is dissatisfied with the initial determination of the farm poundage quota or the effective farm poundage quota which is established for such farm may file a request for reconsideration with the county committee in accordance with Part 780 of this Chapter. Such request must be filed no later than 15 days after the producer receives the notice of the farm poundage quota or effective farm poundage quota. If after reconsideration the producer remains dissatisfied with the determination, the producer may appeal such determination to the State committee in accordance with Part 780 of this Chapter. Determinations rendered by the State committee with respect to the determination of individual farm poundage quotas and effective farm poundage quotas shall be final and there shall be no further administrative appeal.

§ 729.232 Farms with one acre or less of peanuts.

Peanuts produced on a farm on which the acreage of peanuts is one acre or less are eligible to be marketed for domestic edible use provided that all producers that share in the peanuts produced on such farm do not share in the peanuts produced on any other farm.

§§ 729.233-729.239 [Reserved]

Transfers of Farm Poundage Quota

§ 729.240 Transfer by sale or lease.

The owner and operator of any farm having a farm poundage quota in the current year is eligible to file a record of transfer for sale or lease of all or any part of the farm poundage quota to any other owner or operator of a farm in the same county. The receiving farm need not have a farm poundage quota. If the owner(s) and operator of the farm from which the transfer by sale or lease is to be made are different persons, each shall execute the record of transfer. However, only the owner(s) or operator of the receiving farm is required to execute the record of transfer.

§ 729.241 Transfer by owner or operator.

The owner or operator of any farm having a farm poundage quota in the current year is eligible to file a record of transfer to transfer the farm poundage quota from such farm to another farm owned or controlled by the applicant: (a) In the same county; or (b) in a county that is contiguous to the transferring county in the same State if the receiving farm had a farm poundage quota established for the 1981 crop.

§ 729.242 Transfer within State.

Notwithstanding the provisions of §§ 729.240 and 729.241, a transfer of a farm poundage quota by sale, lease or by the owner or operator, may be made to any other farm in the same State, pursuant to instructions issued by the Deputy Administrator, in the States of Arizona, Arkansas, California, Louisiana, Mississippi, Missouri, New Mexico and Tennessee.

§ 729.243 Witness of signatures.

A county committee member or employee must witness the signature of either the owner or operator of the transferring farm and the owner or operator of the receiving farm. If such signatures cannot be witnessed in the county office where the farm is administratively located, they may be witnessed in any county office convenient to the owner or operator's residence. The requirement that signatures be witnessed for producers who are ill, infirm, reside in distant areas, or are in similar hardship situations, or who may be unduly inconvenienced, may be waived provided the county office mails Form ASCS-375 or such other form approved by the Deputy Administrator to such person for the required signature. In the case of a transfer by sale, such request must be accompanied by a statement signed by all parties to the transaction confirming that the sale has been made.

§ 729.244 Filing record of transfer and time for filing.

No transfer of any quota under this section shall become effective until a record of transfer, determined by the county committee to be in compliance with the provisions of this subpart, has been executed on Form ASCS-375 or such other form approved by the Deputy Administrator and filed within the time periods set forth in this section with the county committee in the county where the farms are administratively located.

(a) *Record of transfer filed by the final planning date (spring transfers).* In order to be effective during the normal planting period, a record of transfer shall be filed on or before the final planting date for the area or State as established by the State committee, but not later than June 15. A record of transfer filed after the final planting date established by the State committee but prior to July 1 may be considered to be timely filed if the county committee finds that: (i) The lease was agreed upon no later than the final planting date established by the State committee, and (ii) the record of transfer was not timely filed with the county committee because of conditions beyond the control of the parties to the transfer.

(b) *Record of transfer filed after the final planting date (fall transfer).* A record of transfer which is filed after the final planting date established by the State committee but by July 31 shall be considered a fall transfer and shall not become effective until August 1. A record of transfer which is filed after July 31 shall not become effective unless filed not later than December 31 of the current year. A record of transfer filed after December 31 but prior to January 31 may be considered timely filed by December 31 if the county committee, with approval of the State committee,

finds that: (1) The transfer was agreed upon no later than December 31, and (2) the record of transfer was not timely filed with the county committee because of conditions beyond the control of the parties to the transfer.

§ 729.245 Maximum period of transfer.

(a) *Owner transfer.* (1) An owner transfer may be approved to a farm owned by such person for a temporary period (but not beyond the 1985 marketing year) or permanently. (2) An owner transfer to a farm controlled by such person may be approved for only one year.

(b) *All other transfers.* Transfers by lease and by operator may only be approved for one year. Multiyear leases and permanent operator transfers shall not be permitted.

§ 729.246 Transfer not to be approved.

The county committee shall not approve:

(a) A transfer of poundage quota by sale if poundage quota was transferred to the transferring farm by sale within the 3 preceding crop years.

(b) Temporary transfers by an operator for more than one year.

(c) Permanent transfers by an operator.

(d) Transfers filed after the normal planting date for more than 1 marketing year.

(e) Transfers of actual or effective undermarketings.

(f) Transfers of poundage quota to farms with inadequate tillable cropland to produce the poundage quota.

§ 729.247 Consent of lienholder.

A transfer of poundage quota from a farm which the county committee has been informed is subject to a mortgage or other lien shall not be approved unless the transfer is agreed to in writing by the lienholder.

§ 729.248 Transfer to and from the same farm (subleasing).

(a) *Record of transfer filed on or before the final planting date.* Generally the county committee shall not approve a record of transfer which is filed (or considered filed) on or before the final planting date established by the State committee if the approval would result in a transfer both to and from the farm during the period ending on the final planting date of the same crop year. However, a record of transfer may be approved if a poundage quota is transferred temporarily from a farm for 1 or more years (and the transfer remains in effect) and the farm is subsequently combined with another farm that is otherwise eligible to receive poundage quota by transfer.

(b) *Record of transfer filed after the final planting date.* A temporary transfer of poundage quota either to or from a farm (but not both) may be approved by the county committee if a record of temporary transfer is filed after the final planting date regardless of whether a record of transfer which was filed on or before the final planting date is in effect for such farm. However, the producers on the transferring farm must certify, and the county committee must determine that: (1) The poundage quota to be transferred is not more than will be required to market the entire production of peanuts from the farm as quota peanuts in the current year, (2) the acreage of peanuts planted on the transferring farm was equal to at least 80 percent of the acreage determined by dividing the effective farm poundage quota by the larger of the current farm yield or the highest actual yield for the farm for any one of the preceding three crop years, and (3) the production of peanuts was limited to less than the effective farm poundage quota because of conditions beyond the control of the producer.

§ 729.249 Effect of permanent transfer on determination of farm poundage quota.

The quota, pounds produced, pounds considered produced, pounds transferred and produced on a receiving farm for both the transferring farm and the receiving farm shall be adjusted for the current year and for the 2 preceding years to reflect the applicable increase or decrease in the farm poundage quota and other historical data or farm practices affecting the determination of farm poundage quotas.

§ 729.250 County committee action.

(a) *Approval of transfer.* The county committee shall approve the transfer of poundage quota only if it determines that a timely filed record of transfer has been received and that the transfer complies with the requirements of this subpart. A transfer shall not be effective until approved by the county committee. The county committee may delegate authority to the county executive director and to other county office employees to approve transfers of poundage quotas.

(b) *Notice of revised quotas.* A revised notice of farm poundage quota must be issued for each farm affected by the transfer of farm poundage quota.

(c) *Cancellation of transfer.* (1) A transfer approved on the basis of incorrect information furnished by the parties to the transfer agreement or approved due to error by the county committee shall be canceled effective as of the date of approval. However, the cancellation shall not be effective for the current marketing year if:

(i) The transfer approval was made on the basis of incorrect information unknowingly furnished in good faith by the parties to the transfer agreement or the transfer approval was made in error by the county committee, and (ii) The parties to the transfer agreement were not notified of the cancellation prior to the marketing of quota peanuts in excess of the revised effective farm poundage quota.

(2) Where cancellation of a transfer is required, the county committee shall issue revised notices of poundage quota showing the reasons for cancellation.

§ 729.251 Withdrawal or minor revision.

Where the county committee determines that it is clearly in the best interest of all the producers and that effective operation of the peanut program will not be impaired, the county committee may permit withdrawal or minor revisions of a transfer upon written request by all parties to the transfer. A temporary transfer may be withdrawn or revised before peanuts are harvested during any year of the agreement. A permanent transfer may be withdrawn or revised before peanuts are harvested only during the first year of the agreement.

§ 729.252 Recomputation of previously approved multiple year transfer.

For a multiple year temporary transfer approved on or before December 22, 1981, the county committee shall annually recompute the transfer by limiting the poundage quota transferred to the smaller of: (a) The poundage quota initially transferred, or (b) the farm poundage quota for the transferring farm.

§ 729.253 Amendment of multiple year transfer agreements approved on or before December 22, 1981.

Notwithstanding any other provision in this subpart, a multiple year temporary transfer approved on or before December 22, 1981, shall not be effective for the 1982 through 1985 crop years unless an amended record of transfer is filed. The county committee shall notify the operator of both the transferring farm and the receiving farm of the requirement for filing an amended record of transfer in order for the previously filed transfer agreement to remain in effect. The amended record of transfer must be filed at the county ASCS office within 30 days from the date of notification by the county committee that an amended transfer agreement is required. The amended agreement shall be on the basis of the

farm poundage quota established for the applicable crop year.

§ 729.254-729.264 [Reserved]

Marketing Cards and Producer Identification Cards

§ 729.265 Issuance of cards.

(a) *Issuance of marketing cards.* A marketing card (ASCS–1002) shall be issued in the name of the farm operator for each farm on which peanuts are produced in the United States in the current year for use by each producer on the farm for marketing such producer's share of the peanuts produced. However, a marketing card issued for experimental peanuts shall be issued in the name of the experiment station and a marketing card issued to a successor-in-interest shall be issued in the name of the successor-in-interest. The face of the marketing card may show the names of other interested producers.

(b) *Issuance of producer identification cards.* A producer identification card shall be issued in the same name that is entered on the marketing card(s) for each eligible farm. The producer identification card will be used to identify the farm on which the peanuts were produced and the card must accompany each lot of peanuts when offered for sale. Producer identification cards shall be issued at the time the marketing cards are issued.

(c) *Person authorized to issue cards.* The county executive director shall be responsible for the issuance of marketing cards and producer identification cards.

(d) *Rights of producers and successors-in-interest.* (1) Each producer having a share in the peanuts available for marketing from a farm shall be entitled to the use of the marketing and identification cards for marketing such producer's proportionate share of the peanuts produced on the farm.

(2) Any person who succeeds, in whole or in part, to the share of a producer in the peanuts available for marketing from a farm shall, to the extent of such succession, have the same rights to the use of the marketing and identification cards and bear the same liability for penalties as the original producer.

(e) *Data on marketing card and supplemental card.* (1) Before issuance, the following data and information must be entered on the marketing card in the spaces provided: (i) The effective farm poundage quota; (ii) the pounds of additional peanuts contracted and the handler number of the contracting handler, if applicable; and (iii) the converted basic penalty rate determined in accordance with § 729.272(b), if applicable.

(2) A supplemental marketing card bearing the same name identification as shown on the original marketing card may be issued for a farm if an original or supplemental marketing card is returned to the county office. The balance of the poundage quota from the returned marketing card shall be entered as the effective farm poundage quota on the supplemental card.

(3) Two or more marketing cards may be issued for a farm if the farm operator specifies in writing the amount of the poundage quota (not to exceed the balance of poundage quota available) which is to be assigned to each card.

(4) The face of the marketing card shall show the entry "Eligible for Buyback" if the farm operator authorizes the handler to purchase peanuts under the "Immediate Buyback" purchase as provided in Part 1446 of this Chapter. Two or more marketing cards may be issued for a farm if the producer wishes to obtain an additional card for purposes of indicating or not indicating "Eligible for Buyback."

(5) Other data specified in instructions issued by the Deputy Administrator shall be entered on the marketing card.

(f) *Data on producer identification cards.* (1) The identification card issued in the name of the farm operator shall be embossed to show the: (i) Name and address of the farm operator; and (ii) State, county code, and farm serial number. If an embossed identification card is not available, the above information shall be entered by the county ASCS office.

(2) A farm operator may receive as many identification cards as may be needed at any one time to accompany each lot of peanuts offered for sale until such time as the peanuts are inspected and an ASCS–1007 has been executed by the inspection service.

(3) After the identification card is returned to the farm operator, it may be used again to identify another lot of peanuts.

(g) *Replacing a lost, stolen, or destroyed marketing card.* A new marketing card shall be issued to replace a card which has been determined by the county executive director who issued the card to have been lost, destroyed, or stolen: *Provided,* That the farm operator gives immediate written notice of such fact and furnishes a satisfactory report of the quantity of peanuts which was marketed using the marketing card prior to the time such card was lost, stolen, or destroyed.

§ 729.266 Claim stamping marketing cards.

If a person is indebted to the United States and the indebtedness is listed on the county office claim record, any marketing card issued for the farm on which the person has an interest as a producer shall bear the notation "U.S. Claim" or "PPQ" (peanut poundage quota) followed by the amount of the indebtedness. The name of the indebted producer, if different from the farm operator, shall be recorded directly under the notation. A notation showing "PPQ" as the type of indebtedness shall constitute notice to any peanut buyer that until the amount of penalty and accrued interest is paid, the United States has a lien on the crop of peanuts with respect to which the penalty was incurred and on any subsequent crop of peanuts subject to farm poundage quotas in which the person liable for payment of the penalty has an interest. Peanut poundage quota liens shall be collected and paid to the Agricultural Stabilization and Conservation Service prior to making collection for any other lien or claim. A notation showing "U.S. Claim" shall constitute notice to any peanut buyer that, to the extent of the indebtedness shown, and subject to prior liens, the net proceeds from any price support loan or purchase settlement due the debtor must be paid to the Agricultural Stabilization and Conservation Service. The acceptance and use of a marketing card bearing a notation concerning indebtedness to the United States shall not constitute a waiver by the indebted producer of any right to contest the validity of such indebtedness by appropriate administrative appeal or legal action. A lien-free or claim-free marketing card shall be issued by the county ASCS office when the lien or claim has been paid.

§ 729.267 Invalid cards.

(a) *Reasons for being invalid.* A marketing card shall be invalid under any one of the following conditions:

(1) It is not issued or delivered in the form and manner prescribed.

(2) Any entry is omitted or is incorrect.

(3) It is lost, destroyed, stolen, or becomes illegible.

(4) An erasure or alteration has been made and not initialed by the county executive director.

(b) *Validating invalid cards.* If a marketing card is invalid because an entry is not made as required, the farm operator or other producer shall return the marketing card to the county office. Except for an incorrect entry of the

converted basic penalty rate determined in accordance with § 729.272(b), the marketing card may be made valid by entering data previously omitted or by correcting any incorrect data previously entered. The county executive director shall initial each correction made on the marketing card. An invalid card, if not validated, shall be canceled and a replacement card shall be issued.

§§ 729.268–729.270 [Reserved]

Marketing Penalties

§ 729.271 Basic penalty rate.

The basic penalty rate is 140 percent of the national average support level for quota peanuts, as determined for the marketing year in which the peanuts were produced.

§ 729.272 Peanuts on which penalties are due.

A penalty is due at the basic penalty rate on:

(a) The quantity of peanuts which is marketed or considered to be marketed from a farm for domestic edible use in excess of the effective farm poundage quota for the farm.

(b) All peanuts marketed from the farm, if the certified acreage differs from the measured acreage by more than the tolerance provided in Part 718 of this Chapter: *Provided,* that such penalty shall be paid on each lot of peanuts marketed from a farm based on a converted basic penalty rate as shown on the marketing card. The converted basic penalty rate shall be determined by: (1) Calculating the percentage of incorrect certification; and (2) multiplying the percentage by the basic penalty rate per pound.

(c) All peanuts produced on a farm for which the producer: (1) Failed to certify peanut acreage as provided in Part 718 of this Chapter; or (2) refused to permit entry on the farm to authorized representatives of the Secretary for the purpose of determining the acreage of peanuts on the farm.

(d) The quantity of peanuts marketed without identification by a valid marketing card.

(e) The quantity of peanuts falsely identified, as determined by the county committee with the concurrence of the State committee.

(f) All peanuts, the disposition of which the producer has failed to account for to the satisfaction of the county committee. The quantity of peanuts subject to penalty under this provision shall be the amount of peanuts determined by the county committee to have been marketed or considered marketed from the farm for domestic edible use in excess of the effective farm poundage quota for that farm.

(g) All additional peanuts marketed as contract additional peanuts in excess of the pounds contracted on CCC–1005 between the producer and handler as provided in Part 1446 of this title of the Code of Federal Regulations. Any penalty collected pursuant to this paragraph may be refunded to the extent that the total of all marketings for domestic edible use from the farm for such marketing year do not exceed the farm's effective farm poundage quota.

§ 729.273 Peanuts on which penalties are not to be assessed.

(a) *Error in weight.* A penalty is not due and shall not be collected if the error in net weight as reported on each ASCS–1007, Inspection Certificate and Sales Memorandum, does not exceed one-tenth of 1 percent. However, in the case of fraud or conspiracy, a penalty shall be due for any error in the net weight, regardless of the size of the error.

(b) *Peanuts grown on State prison farms.* No penalty shall be collected on peanuts grown on State prison farms for consumption within such State prison system.

(c) *Peanuts grown for experimental purposes.* No penalty shall be collected on the marketings of any peanuts which are grown only for experimental purposes on land owned or leased by a publicly-owned agricultural experiment station and produced at public expense by employees of the experiment station, or peanuts produced by farmers for experimental purposes pursuant to an agreement with a publicly-owned experiment station. However, the director of the publicly-owned agricultural experiment station must furnish the State Executive Director a list by counties showing the following information for farms in the State on which peanuts are grown for experimental purposes only:

(1) Name and address of the publicly-owned experiment station;

(2) Name of the owner, and name of the operator if different from the owner, of each farm in the State on which peanuts are grown for experimental purposes only;

(3) The acreage of peanuts grown on each farm for experimental purposes only; and

(4) A signed statement that such acreage of peanuts was grown on each farm only for experimental purposes and was necessary for carrying out experimentation, and that the peanuts were produced under the direction of representatives of the publicly-owned experiment station..

(d) *Unique strains used to plant green peanut acreage.* Seed peanuts shall not be subject to penalty if the county committee determines, based upon guidelines furnished by the Deputy Administrator, that such peanuts are unique strains, are not commercially available, and are used to plant green peanut acreage.

§ 729.274 Persons to pay penalty.

(a) *Marketings to handlers.* The handler is liable for the penalty due on peanuts which the handler buys or otherwise acquires from a producer. The handler may deduct the penalty from the price paid to the producer. If a handler fails to collect the penalty due on any marketing of peanuts from a farm, the handler and each of the producers on the farm shall be held jointly and severally liable for the amount of the penalty.

(b) *Other marketings.* The producer is liable for the penalty due on any peanuts marketed to persons who are not peanut handlers.

(c) *Penalty for error on marketing card.* The producer and the handler are jointly and severally liable for any penalties which may be due if the handler made an error or failed to properly record the pounds of peanuts marketed on the producer's marketing card and such error resulted in the effective poundage quota or the pounds contracted in accordance with Part 1446 of this Chapter to be exceeded.

(d) *Notice to affected parties.* Penalties shown on a farm marketing card shall be deemed to be notice to all affected parties of such penalties in addition to such notice as is by operation of law charged to all parties by the publication of these and all other regulations applicable to the peanut program. Further, all affected parties shall be deemed to be on notice that penalties are due when the marketings of peanuts for domestic edible use exceed the effective poundage quota indicated on the marketing card.

§ 729.275 Payment of penalty.

(a) A draft, money order, or check made payable to the Agricultural Stabilization and Conservation Service, may be used to pay any penalty, other indebtedness, or interest thereon. A draft or check shall be received subject to collection and payment at face value. The penalty becomes due on the date of marketing, or in the case of false identification or failure to account for the disposition of peanuts, the date the producer is notified of the false identification or the failure to account, as applicable.

(b) The person liable for payment or collection of the penalty shall be liable also for interest thereon at the rate of interest charged CCC for its borrowings by the United States Treasury on the date such penalty became due. Interest shall accrue from the date the penalty was due if the penalty is not remitted by Monday of the third calendar week following the week in which the penalty is assessed in accordance with § 729.277. For cases of false identification or failure to account, if the penalty is not paid within 15 days after receipt of written notice by the person liable for such penalty, interest shall accrue from the date of receipt of the written notice by such person.

§ 729.276 Lien for penalty.

A lien on the crop of peanuts on which the penalty is incurred, and on any subsequent crops of peanuts subject to poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States until the penalty is paid. The lien on a subsequent crop takes precedence over all other claims as of the time the debt is entered on a county claim record in the county ASCS office for the county in which the subsequent crop is grown. Each county ASCS office shall maintain a list of peanut marketing penalty liens on subsequent crops which have been entered on the county claim record. The list shall be available for examination upon written request by an interested person.

§ 729.277 Assessment of penalties.

Any producer, farm operator, or handler against whom a penalty is assessed in accordance with this subpart, shall be notified of the penalty assessment in writing by the appropriate county committee. Such notice shall state the amount of the penalty and the basis upon which the penalty is being assessed. The notice shall also state that the person against whom the penalty is being assessed has the right to appeal the assessment of the penalty in accordance with §§ 729.278 and 729.279.

§ 729.278 Reduction or waiver of penalty.

(a) *General.* The county committee may, in accordance with instructions and guidelines issued by the Deputy Administrator, reduce or waive any penalty required to be assessed by this subpart in cases in which the county committee determines that the violations upon which the penalties were based were unintentional or without knowledge on the part of the parties concerned.

(b) *Time of reduction or waiver.* The county committee may reduce or waive a penalty either before or after it has been assessed formally in accordance with § 729.277. In those instances where the county committee makes the reduction or waiver prior to formal assessment, the notice of assessment issued under § 729.277 shall state the amount of reduction or waiver and the basis upon which the reduction or waiver was made.

(c) *Appeal procedure.* Any person against whom a penalty is assessed under this subpart may request that the penalty be reduced or waived in accordance with instruction and guidelines issued by the Deputy Administrator and the procedures set forth under § 729.279.

(d) *Review authority.* The Deputy Administrator may, either upon his own motion or in response to appeals which are being taken under § 729.279, require that any determination of a county committee with regard to the reduction or waiver of penalties be reviewed by the State committee or the Deputy Administrator for the purpose of maintaining consistency between different counties in the application of this authority. The Deputy Administrator or the State committee may require a county committee to reverse or otherwise modify its previous determination if the Deputy Administrator or State committee determines that the county committee's previous determination was not made in accordance with the instructions and guidelines issued by the Deputy Administrator. Any person who is adversely affected by any action of the Deputy Administrator or State committee taken under this paragraph may appeal such action by filing a request for reconsideration with the State committee or Deputy Administrator, as appropriate, in accordance with the procedures set forth in Part 780 of this Chapter.

§ 729.279 Appeals.

Any person who is dissatisfied with the penalties assessed by the county committee may file a written request for reconsideration with the county committee in accordance with Part 780 of this chapter. Such request must be filed no later than 15 days after such person receives the notice of assessment issued pursuant to § 729.277. Adverse determinations rendered by the county committee may be appealed administratively in accordance with the procedures set forth in Part 780 of this Chapter.

§ 729.280 Failure to comply with program.

Any producer who relied on the advice of a representative of the Secretary in rendering performance under this subpart which the producer believed in good faith met the requirements of the program as set forth in these regulations may file a request for review of an adverse county committee ruling in accordance with instructions and guidelines issued by the Deputy Administrator. This authority, however, does not extend to cases where the producer knew or had sufficient reason to know that the action or advice of the representative of the Secretary upon which the producer relied was improper or erroneous, or where the adverse action is based on changes made in the statutory authority of the program or changes in regulations issued for the program.

§§ 729.281–729.285 [Reserved.]

Producer Identification and Designation of Peanuts Marketed

§ 729.286 Identification of producer marketings.

The producer must identify each lot of peanuts offered for marketing through a handler by furnishing to the handler the farm operator identification card (ASCS–1003) and the peanut marketing card (ASCS–1002) which was issued for the farm on which the peanuts were produced.

§ 729.287 Designation of peanuts.

Any marketings of peanuts which are not inspected by the Federal-State Inspection Service prior to marketing shall be deemed to be a marketing of quota peanuts. If a lot of peanuts is inspected by the Federal-State Inspection Service, the producer shall designate to the handler whether the lot of peanuts is to be marketed as quota, loan additional, or contract additional peanuts as defined in Part 1446 of this Chapter. The designation must be made within the time allowed by the handler but not later than the close of inspection of the first workday (excluding Saturday, Sunday, or legal holiday) after the peanuts are inspected. In the absence of a designation, any segregation 1 peanuts shall be marketed in the following order of priority:

(a) As quota peanuts to extent of the unused poundage quota on the peanut marketing card which is used to identify the peanuts for marketing;

(b) As contract additional peanuts to the extent of the unused contract poundage balance on the peanut marketing card which is used to identify the peanuts for marketing if the peanuts are being marketed through the contracting handler; or

(c) As loan additional peanuts.

§§ 729.288–729.289 [Reserved.]

Producer Records and Reports

§ 729.290 Report of marketing green peanuts.

(a) The operator of each farm from which green peanuts are marketed shall report the marketing of green peanuts. The operator shall make the report by filing Form ASCS–1011 at the county ASCS office of the county in which the farm is administratively located. The report shall show for the farm:

(1) The number of acres on the farm planted from seed stocks of peanuts;

(2) The acreage on the farm from which peanuts were marketed as green peanuts; and

(3) The name and address of the buyer to or through whom each lot of green peanuts was marketed and the quantity in each lot marketed and the date marketed. However if green peanuts are marketed by the producer in small lots directly to consumers, such as in the case of local street sales, the report may be made as either a daily or weekly summary of the quantity so marketed and the place of marketing may be reported in lieu of the name and address of each buyer.

(b) Failure to file any report of the marketing of green peanuts as required by this section or the filing of a report which the county committee finds to be incomplete or inaccurate shall constitute failure to account for the disposition of the peanuts produced on the farm which will subject the producer to marketing penalties as set forth in § 729.272.

§ 729.291 Report of acquisition of seed peanuts.

(a) If peanuts are planted on a farm in the current year and the seed peanuts were acquired by purchase or gift, the farm operator shall file a report with the county ASCS office of the acquisition(s) of the seed peanuts. The report must be filed by the farm operator at the time a report of planted acreage of peanuts is made in accordance with provisions of Part 718 of this Chapter. The report shall include:

(1) The name and address of the handler or person from whom peanuts were purchased or obtained as a gift for the purpose of planting the peanut acreage on the farm in the current year;

(2) The pounds of peanuts acquired for seed;

(3) The basis (farmer's stock or shelled) of determining the quantity acquired;

(4) The type of peanuts acquired; and

(5) The date of acquisition.

(b) Unique strains of peanuts that are not commercially available and are retained on a farm to plant 1986 through 1985 crops of green peanuts shall also be reported to the county ASCS office.

§ 729.292 Peanuts marketed to persons who are not registered handlers.

(a) If peanuts are marketed to persons other than registered peanut handlers, the operator of the farm on which the peanuts were produced shall file a report of the marketings by executing Form ASCS–1011, Report of Acreage and Marketing of Peanuts to Nonestablished Buyers. The ASCS–1011 must be mailed or delivered to the county executive director of the county in which the farm is administratively located within 15 days after the marketing of peanuts from the farm has been completed. If peanuts are marketed by the producer in small lots directly to consumers, such as in the case of local street sales, a daily or weekly summary of the quantity marketed and the place of marketing may be reported in lieu of the name and address of each buyer.

(b) Failure to file an ASCS–1011 as required or the filing of a report which the county committee finds to be incomplete or inaccurate shall constitute failure to account for the disposition of the peanuts on the farm and may result in the assessment of marketing penalties, as provided in § 729.272.

(c) All peanuts marketed to persons other than registered handlers shall be considered as marketings of quota peanuts.

§ 729.293 Report on marketing card.

The farm operator shall return each peanut marketing card to the issuing county ASCS office as soon as marketings from the farm are completed or at such earlier time as the county executive director may request. At the time the last marketing card for a farm is returned, the farm operator shall execute the certification on the marketing card as to the pounds of peanuts retained for seed or other use. Failure to return a marketing card or failure to execute the certification of the quantity of peanuts retained for seed or other uses shall constitute failure to account for the disposition of peanuts marketed from the farm for which marketing penalties may be assessed as provided in § 729.272, unless a satisfactory report of disposition is furnished to the county committee.

§ 729.294 Report of production and disposition.

(a) In addition to any other reports which may be required under this subpart, the farm operator or any producer on the farm shall furnish, upon written request by certified mail from the State Executive Director, a report of production and disposition of the peanuts grown on the farm to the State committee. The report must be filed on ASCS–1010, Report of Production and Disposition, within 15 days after the request is mailed. The report shall show:

(1) The final acreage of peanuts on the farm;

(2) The total production of peanuts on the farm; and

(3) The name and address of the buyer to or through whom each lot of peanuts was marketed, the number of pounds in each lot, and the date marketed: *Provided however*, That where peanuts are marketed in small lots to persons who are not established buyers, the report may be made as either a daily or weekly summary of the number of pounds marketed and the place of marketing may be reported in lieu of the name and address of each buyer; and

(4) The quantity and disposition of peanuts not marketed.

(b) Failure to file the ASCS–1010 as requested or the filing of an ASCS–1010 which is found by the State committee to be incomplete or incorrect, shall constitute failure of the producer to account for the production and disposition of peanuts produced on the farm for which marketing penalties may be assessed, as provided in § 729.272.

§§ 729.295–729.299 [Reserved]

Handler's Registration, Responsibilities and Records

§ 729.300 Registration of handlers.

(a) *Registration requirements.* Each person who plans to acquire peanuts for processing or resale shall register as a handler in accordance with the provisions of this section prior to the acquisition of any peanuts.

(b) *Persons acquiring noninspected peanuts.* A person who has not registered under the provisions of paragraph (c) of this section and who plans to buy or otherwise acquire peanuts for processing or resale prior to the peanuts being inspected by a duly authorized inspector of the Federal-State Inspection Service must register with the State ASCS office of the State in which the person will operate as a handler, or if operating in more than one State, the State of residence or principal business location. A person may register by completing an MQ–96, Application for Peanut Handler Card, and submitting it to the appropriate State ASCS office.

(c) *Persons acquiring inspected peanuts.* A person who plans to acquire peanuts that have been inspected by a duly authorized inspector of the Federal-State Inspection Service must register as a handler by completing an MQ–96,

Application for Peanut Handler Card, and submitting it to the Virginia, Georgia, or Texas State ASCS Office in the marketing area in which the handler is located.

(d) *Peanut buyer card and buying point card.* The office through which a handler registers will issue an embossed peanut buyer card on which will be entered the handler's registration number, name and address. The buyer card will be used by the handler for identification when the handler buys or sells peanuts. A buying point identification card will be issued by ASCS to the Federal-State Inspection Service for delivery to each handler who operates a buying point at which peanuts are inspected. The buying point card will be embossed with a number and used to identify the physical location of the buying point at which the peanuts are inspected.

§ 729.301 Records and reports required of handlers.

Each handler shall keep records and make reports as required by this section.

(a) *Marketing records.* The handler shall maintain the following records with respect to each lot of farmer's stock peanuts which the handler acquires for his own account:

(1) Farm number (including State and county code) of the farm on which peanuts were produced (obtained from producer's identification card or marketing card), or if purchased from a handler, the handler's number;

(2) Name of seller;

(3) Date of marketing;

(4) Pounds of peanuts marketed as commercial quota or contract additional;

(5) Type of peanuts; and

(6) Amount of penalty due and amount collected from the producer.

(b) *Resales.* Each handler who resells farmer's stock peanuts shall keep records of:

(1) The name and address of the buyer;

(2) The handler number of the buyer if the peanuts are sold to a handler;

(3) The date of the sale;

(4) The type of peanuts sold; and

(5) The pounds (net weight) of peanuts sold.

(c) *Inspected peanuts.* If a lot of peanuts was inspected by the Federal-State Inspection Service, the handler shall complete ASCS–1007, Inspection Certificate and Sales Memorandum, on which the following information must be entered:

(1) Name and address of the farm operator and the State and county code and farm number of the farm on which the peanuts were produced if the peanuts are marketed by the producer, or the handler number if the peanuts are marketed by a handler;

(2) Buying point number assigned to identify the physical location of the buying point at which the peanuts were marketed;

(3) Name, address, and handler number of the handler, or the association number, name and address if the peanuts are accepted for loan through the association;

(4) Net weight of the peanuts;

(5) Net weight of peanuts marketed as either loan quota, loan additional, commercial quota or contract additional;

(6) Date of purchase; and

(7) Amount of penalty collected.

(d) *Noninspected peanuts.* A handler who purchases farmer's stock peanuts which have not been inspected by the Federal-State Inspection Service shall complete ASCS-1030, Report of Purchase of Noninspected Peanuts, for each lot of farmer's stock peanuts purchased. The handler shall complete the ASCS-1030 to show the following:

(1) The name and address of the seller;

(2) Name and address of farm operator and the State and county code and farm number if the peanuts are purchased from the producer of the peanuts, or if the peanuts are purchased from a handler, the ASCS-1030 shall show the handler's name, address, and registration number;

(3) The type of peanut purchased;

(4) The date of purchase;

(5) Quantity purchased; and

(6) Method of determining the weight.

After the required information has been recorded, the seller shall sign and date the ASCS-1030. The handler shall use ASCS-1030-P, Handler's Report of Purchases of Noninspected Peanuts, to transmit the ASCS-1030 to the State ASC committee in the State in which the handler's business is located. The ASCS-1030's shall be transmitted weekly.

(e) *Marketing card entries.* Immediately after each lot of peanuts is marketed, the handler shall make the following entries on the marketing card from the ASCS-1007 or ASCS-1030:

(1) The ASCS-1007 serial number which identifies the lot of peanuts, or the date of marketing if the peanuts were not inspected;

(2) The net pounds marketed;

(3) The unused poundage quota balance remaining after the marketing;

(4) The unused contract additional poundage balance remaining after the marketing;

(5) The handler's number or, for loan peanuts, the association number;

(6) For inspected peanuts, the buying point number;

(7) Type of peanuts marketed; and

(8) Any penalties or claims collected.

(f) *Transmittal of penalties.* Form ASCS-1012 Peanuts, "Buyer's Transmittal of Claims and/or Marketing Penalty," shall be used by a handler to transmit a collection of a penalty or a claim. Each collection shall be sent to the county ASCS office which issued the marketing card. The transmittal shall be made within two weeks after the end of the week in which the collection is made.

(g) *Peanuts shelled for a producer.* The handler shall maintain records of peanuts shelled for a producer as follow:

(1) Date of shelling;

(2) Name and address of the producer for whom the peanuts were shelled;

(3) State and county code and farm number of the farm on which the peanuts were produced;

(4) Quantity of peanuts (farmer's stock basis) shelled;

(5) Quantity of shelled peanuts retained by the sheller; and

(6) Quantity returned to the producer.

(h) *Peanuts dried for a producer.* The handler shall maintain records of peanuts dried for a producer as follows:

(1) State and county code and farm number of the farm on which the peanuts were produced;

(2) Name and address of the producer for whom peanuts were dried; and

(3) Quantity dried (weight after drying, farmer's stock basis) and date drying is completed.

(i) *Green peanuts purchased from producer.* Each buyer of green peanuts shall report on Form ASCS–1011 the purchase of green peanuts, except small lot purchases such as street sales, local market sales, and grocery store sales. The report of the purchase of green peanuts by the buyer shall subject the buyer to a review of the purchase and sales records. Any buyer of green peanuts who fails to keep records as required by this section shall be deemed guilty of a misdemeanor and upon conviction shall be subject to a fine of not more than $500. Each buyer shall keep the following records of green peanuts purchased:

(1) Date of purchase;

(2) Name and address of producer selling green peanuts;

(3) Name and address of farm operator and farm number (including State and county code) of the farm on which the green peanuts were produced; and

(4) Pounds of green peanuts purchased.

§ 729.302 Persons engaged in more than one business.

Any person who is required under this subpart to keep any record or make any report as a buyer, processor, or other person engaged in the business of shelling or crushing peanuts, and who is engaged in more than one such business, shall keep such records for each business.

§ 729.303 Penalty for failure to keep records and make reports.

Any person, who dries farmers stock peanuts by artificial means for a producer, any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agency marketing peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts, or manufacturing peanut products, or any person owning or operating a peanut picking or peanut threshing machine, or any farmer engaged in the production of peanuts, who fails to make any report or keep any record as required under this subpart or who makes any false report or record shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500.

§ 729.304 Examination of records and reports.

The Deputy Administrator, the Director of the Tobacco and Peanuts Division, the State Executive Director, or any person authorized by any one of such persons, and any auditor or agent of the Officer of Inspector General, is authorized to examine any records pertinent to the peanut poundage quota program. Upon request from any such person, any person who dries farmers stock peanuts by artificial means for a producer, any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any farmer engaged in the producer of peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts or manufacturing peanut products, or any person owning or operating a peanut-picking or peanut-threshing machine, shall make available for examination such books, papers, records, accounts, correspondence, contracts, documents, and memoranda as are under his control which any person hereby authorized to examine records has reason to believe are relevant to any matter under investigation which relates to the provisions of this subpart.

§ 729.305 Length of time records and reports are to be kept.

Records required to be kept and copies of the reports required to be made by any person under this subpart shall be on a marketing year basis and shall be retained for a period of 3 years after the end of the marketing year. Records shall be kept for such longer periods of time as may be requested in writing by the State Executive Director, or the Director of the Tobacco and Peanuts Division.

§ 729.306 Information confidential.

All data requested and obtained by the Secretary which are required in accordance with the provisions of this subpart shall be kept confidential by all employees of the U.S. Department of Agriculture. Such data shall be released only at the discretion of the Deputy Administrator and then only in a suit or administrative hearing under Title III of the Agricultural Adjustment Act of 1938, as amended.

Signed at Washington, D.C. on February 25, 1983.

John R. Block,

Secretary.

7 CFR Part 770

Special Program of Payment in Kind for Acreage Diversion for 1983 Crops of Wheat, Corn, Grain Sorghum, Upland Cotton, and Rice

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule provides for a payment-in-kind program for acreage diversion for the 1983 crops of wheat, corn, grain sorghum, rice and upland cotton. Under the program, producers will be offered a quantity of a commodity as compensation for diverting acreage normally planted to that commodity in addition to that being taken out of production under the 1983 acreage reduction and cash land diversion programs for wheat, corn, grain sorghum, rice and upland cotton previously announced. The Department has determined that the diversion of this additional acreage from the production of such crops is necessary to adjust the total national acreage of such commodities to achieve desirable production goals and that producers should be compensated by receipt of like commodities. This final rule amends an interim rule which was published with respect to a payment-in-kind program on January 12, 1983 (48 FR 1478), setting forth the requirements for program participation and the manner in which payment in kind will be made available.

EFFECTIVE DATE: March 4, 1983.

FOR FURTHER INFORMATION CONTACT: Grant B. Buntrock, ASCS, 202-447-7041.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Department of Agriculture procedures implementing Executive Order 12291 and Secretary's Memorandum No. 15121 and has been classified as "major" since the program will have an annual effect on the economy exceeding $100 million.

It has been determined that the Regulatory Flexibility Act is not applicable to this final rule since the Department is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this rule.

An Environmental Evaluation with respect to the payment-in-kind program has been completed. It has been determined that this action is not expected to have any significant impact on the quality of the human environment. In addition, it has been determined this action will not adversely affect environmental factors such as wildlife habitat, water quality, air quality, and land use and appearance. Accordingly, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

The Department has prepared a Final Regulatory Impact Analysis of this regulation. Copies of the analysis are available to the public from Director, Analysis Division, Agricultural Stabilization and Conservation Service, USDA, Room 3741, South Agriculture Building, 14th and Independence Avenue, SW., Washington, D.C. 20250.

The title and number of the federal assistance programs to which this rule applies are: Cotton Production Stabilization, 10.052; Feed Grain Production Stabilization, 10.055; Rice Production Stabilization, 10.065; and Wheat Production Stabilization, 10.056; as found in the Catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this final rule since the Department is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking

with respect to the subject matter of this rule.

An Environmental Evaluation with respect to the payment-in-kind program has been completed. It has been determined that this action is not expected to have any significant impact on the quality of the human environment. In addition, it has been determined this action will not adversely affect environmental factors such as wildlife habitat, water quality, air quality, and land use and appearance. Accordingly, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

The Department is preparing a Final Regulatory Impact Analysis of this regulation. Copies of the analysis will be available to the public after signup, including processing of whole base bids, has been completed and data has been finalized. Copies can be obtained from Director, Analysis Division, Agricultural Stabilization and Conservation Service, USDA, Room 3741, South Agriculture Building, 14th and Independence Avenue, SW., Washington, D.C. 20250.

The title and number of the federal assistance programs to which this rule applies are: Cotton Production Stabilization, 10.052; Feed Grain Production Stabilization, 10.055; Rice Production Stabilization, 10.065; and Wheat Production Stabilization, 10.058; as found in the Catalog of Federal Domestic Assistance.

Program Authorization

The Agricultural Act of 1949, as amended by the Agriculture and Food Act of 1981, authorizes the Secretary to make land diversion payments to producers of wheat, feed grains, upland cotton, and rice if the Secretary determines that the payments are necessary to assist in adjusting the total national acreage of the commodities to desirable goals. The Commodity Credit Corporation Charter Act gives the Corporation broad authority to support the price of agricultural commodities, stabilize agricultural commodity markets, and remove and dispose of agricultural surpluses. In accordance with these authorities, an interim rule was published in the **Federal Register** on January 12, 1983, providing for a payment-in-kind program for acreage diversion for the 1983 crops of wheat, corn, grain sorghum, upland cotton, and rice. The interim rule invited public comments on the provisions of the program by February 11, 1983.

Discussion of Comments

The Department received 498 comments from 335 farmers, 46 farm input suppliers, 53 private citizens, 15 farm organizations, 15 commodity associations, 7 government (local/state/national) officials or organizations, 4 conservation organizations and 23 miscellaneous respondents.

Over 65 percent of the comments received were concerned with one or more of the following issues:

(a) *Inclusion of barley and/or oats in the program.* Barley and oats are not included in the 1983 payment-in-kind program. The primary reason for their exclusion is that the proportions of ending stocks to use are not as severely out of line with historical levels as is the situation with the other commodities. Moreover, the announced acreage reduction and cash land diversion program for oats and barley is expected to assist in reducing stocks to more reasonable levels. This adjustment along with that for other grains will improve price prospects for barley and oats.

(b) *Allow summer fallow producers to grow nonprogram crops on diverted acres under the payment-in-kind program or designate fallow acres under the program.* Permitting producers to designate land which is fallowed in 1983 as conservation use acreage for 1983 means that other commodities could be grown on the land which was fallowed in a previous year. These commodities could include other program commodities, if the producers were not participating in the acreage reduction and cash land diversion program for the commodity. If the production of certain commodities on designated conservation use acreage were permitted, other acreage would then be available to produce program commodities. This would impair the effectiveness of the payment-in-kind program in achieving the goal of reducing overall production.

(c) *Provide for making payments in kind available early, mainly for feed or to clear storage space.* Payments in kind are intended to compensate producers who have reduced their acreages which would have otherwise been planted to the 1983 crops of wheat, corn, grain sorghum, upland cotton, or rice. Accordingly, quantities of these commodities which are made available as payment-in-kind are considered to be 1983 production. Therefore, payments in kind are scheduled to be available beginning with the normal harvest date for the 1983 crops of these commodities in each area. Earlier release of these commodities could distort the usual seasonal price patterns for both old crop and new crop commodities.

(d) *Decrease the maximum acreage to be diverted under the payment-in-kind program and the acreage reduction and cash land diversion programs from 50 percent to between 30 and 35 percent.* The overall majority of farm input suppliers commenting on the payment-in-kind program suggested a reduction in the percentage of the total acres which are permitted to be diverted under the payment-in-kind program and the acreage reduction and cash land diversion program. The 50 percent limitation on program crop acreage is determined based upon the total of the farm acreage bases which are established for the commodity in the county and not on the total acreage which was planted to that commodity in the county in 1982. The unlikely occurrence of 100 percent participation in both the acreage reduction and cash land diversion program and at the maximum level in the 10 to 30 percent of the base payment-in-kind program would be necessary in order to achieve a 50 percent diversion of each program crop base. Currently, it is estimated that participation in the payment-in-kind program will range between 60 to 90 percent. It is likely that less than 15 percent of total cropland will be withdrawn from production under both programs.

(e) *Eliminate the farm program yield and/or use the county average to determine the quantity of payments in kind.* The regulations governing the commodity programs which are found at 7 CFR Part 713 require the use of program yields. Producers who are dissatisfied with their established yields for wheat, corn, and grain sorghum are given the opportunity to prove their actual yields. Further, it would be inequitable to producers who have yields above the county average to use individual yields to achieve a weighted county average and to assign each person a yield which is identical to that county average yield.

(f) *Convert a portion of the payment-in-kind acres into permanent conservation use acres.* The payment-in-kind program is a one-year program although it may be extended an additional year to meet program objectives. Under the annual commodity programs announced by the Department, producers are encouraged to implement permanent conservation practices. Such producers receive assurances that the acreage on which permanent conservation practices are installed and maintained can be used to meet program requirements for each crop year through 1985 if a conservation use acreage requirement is in effect.

(g) *Include popcorn in the acreage reduction and cash land diversion program and the payment-in-kind*

program. A resolution by the Nebraska Popcorn Growers with a statement of support signed by 77 producers requested that popcorn be treated as corn for program purposes. Popcorn has not historically been considered to be corn for the purposes of the feed grain program. Acreage which is devoted to popcorn is not, and never has been, used in determining the acreage base for a farm under the feed grain program. Consequently, it has been determined that this acreage is not eligible for payments in kind nor is the acreage of popcorn charged against the acreage of corn which is permitted to be grown by a producer on the farm under the payment-in-kind program.

Other comments concerned tenant rights, warehouse locations, the quality of the grain to be received as payment in kind, the abolition of the payment limitation, distribution of program benefits, the effects on related industries, and the general administration of the program.

Those commenting also requested the addition of other crops under the payment-in-kind program, deficiency payments on grain which is made available as payment-in-kind, and adjustments in disposal deadlines. In particular, private citizens were concerned about feeding starving people with surplus stocks, conservation opportunities under the program, and the need for and cost of farm programs in general.

These comments and all others received were considered in developing the final rule.

Amendments to the Interim Rule

It has been determined after further review that certain technical revisions and clarifications should be made with respect to the provisions of the interim rule which were published at 7 CFR Part 770. It is not believed that these changes are of such significance that further public comment would be warranted. Further, it is imperative that a final rule be published as soon as possible so that the terms and conditions of the payment-in-kind program can be finalized and producers can make a reasoned judgment as to whether they should participate in the program for the 1983 crops. The following is an explanation of the changes which have been made to the interim rule:

(a) Section 770.2(a)(3) of the interim rule provides that a producer who is participating in the payment-in-kind program and who has an outstanding CCC price support loan will be required to redeem a quantity of the commodity which is pledged as collateral for such loan which equals the quantity of the commodity which the producer is otherwise entitled to receive from the Department as payment in kind and sell such quantity to the Department. The Department will purchase the commodity from the producer at a price which equals the cost which the producer incurs in liquidating the loan; i.e., principal, interest, liquidated damages, and other applicable charges. In some instances, it may be to the advantage of the producer, the Department, or both to make different arrangements with respect to the liquidation of a quantity of the commodity pledged as collateral for a loan and the purchase of such quantity by the Department. Accordingly, this section has been revised to permit different arrangements to be mutually agreed upon and specified in the contract between the producer and the Department.

(b) Section 770.3(a)(1) of the interim rule has been amended to clarify that if the entire acreage base for a commodity on the farm has been accepted for payment-in-kind purposes, payment in kind will not be made with respect to that portion of the farm acreage base which is otherwise eligible for cash land diversion payments. Since the Omnibus Budget Reconciliation Act of 1982 provides that cash land diversion payments shall be made for a specific percentage of the farm acreage base on participating farms for the 1983 crops of wheat, feed grains, and rice, any payments in kind which are made with respect to the same acreage would represent double compensation.

(c) In some instances, county ASCS offices have found it beneficial to establish an appointment schedule for enrollment, during the course of which producers have the opportunity to submit a whole base bid for a commodity on a farm under the payment-in-kind program. In such cases, it would be unfair to break ties between identical bids according to the time the bid was received. Accordingly, § 770.5(c) of the interim rule has been revised to provide that if identical whole base bids have been submitted to the county ASCS office where an appointment procedure has been utilized, a lottery shall be used to determine the priority by which such bids should be ranked.

(d) The interim rule did not provide for a succession in interest to payments in kind, except when a producer dies, disappears, or is declared to be incompetent. Accordingly, a new paragraph (d) has been added to § 770.6 to provide for the succession of interest to payments in kind in other situations.

(e) The interim rule did not provide for assignments of payments in kind. It has been determined that the Department will honor an assignment of a payment in kind, without regard to the purposes of such assignment, if the producer (as assignor) and assignee agree to such assignment and execute the appropriate form. Therefore, a new paragraph (e) has been added to § 770.6 to authorize the making of such assignments for payment-in-kind purposes.

(f) The interim rule did not specify that payments in kind will be made without regard to claims or liens. A similar provision is applicable to other program benefits which are made available to producers under commodity programs. Thus, a new paragraph (f) has been added to § 770.6 setting forth this provision with respect to payments in kind.

Information collection requirements contained in this regulation (§§ 770.1 through 770.6) have been approved by OMB under the provisions of 44 U.S.C. Chapter 35 and have been assigned OMB Number 0560–0092.

List of Subjects in 7 CFR Part 770

Cotton, Feed grains, Price support program, Wheat, Rice.

Final Rule

PART 770—[AMENDED]

Accordingly, the interim rule published at 48 FR 1476 is hereby adopted as a final rule, with the following changes:

1. Section 770.2 is amended by revising the introductory text of paragraph (a)(3) to read as follows:

§ 770.2 Obligations of operators and producers.

(a) * * *

(3) If the operator of a farm or any other producers on the farm have outstanding farmer owned reserve loans obtained prior to January 12, 1983, or regular price support loans, for which they have pledged as security a commodity which the Department is obligated to pay them under the contract, at the time they request payment of the commodity, they must, unless otherwise agreed upon between the producer and the Department and provided for in the contract, sell to the Department a quantity of the commodity which equals the quantity of such commodity which the Department is obligated to pay them, at a price which is equal to the cost of liquidating the loan or portion of the loan for which the quantity sold to the Department is pledged, subject to the following adjustments:

* * * * *

2. Section 770.3 is amended by revising the second sentence of paragraph (a)(1) to read as follows:

§ 770.3 Obligations of the Department.

(a) * * *

(1) * * * The quantity shall be the yield for the farm for a commodity multiplied by the acreage devoted to a conserving use under the contract that would otherwise have been planted to that commodity, less the acreage on the farm which is eligible for cash land diversion payments, multiplied by 95 percent for wheat and 80 percent for corn, grain sorghum, upland cotton, and rice, except that in the case of contracts awarded on a competitive bid basis, the percentage shall be the percentage bid by the operator and any other producers.

3. Section 770.5 is amended by revising the second sentence in paragraph (c) to read as follows:

§ 770.5 Contracting procedures.

* * * * *

(c) * * * In the case of identical bids, they shall be ranked in the order received or, where an appointment procedure was utilized by the county ASCS office during the course of which producers submitted bids, a lottery shall be conducted to determine the order by which such bids should be ranked.* * *

4. Section 770.6 is amended by adding new paragraphs (d), (e), and (f) to read as follows:

§ 770.6 Miscellaneous provisions.

* * * * *

(d) When any person who had an interest as a producer in the commodity or would have had an interest in the commodity as a producer if the commodity had been planted (herein called "predecessor") is succeeded on the farm by another producer (herein called "successor") after a contract has been executed, any payment in kind which is due and owing shall be divided between the predecessor and successor on such basis as the predecessor, successor, and the Department agree is fair and equitable, the contract shall be revised accordingly, and the successor shall sign the revised contract.

(e) Assignments with respect to quantities of a commodity which can be received by a producer as payment in kind will be recognized by the Department only if such assignment is made on Form CCC–479, Assignment of Payment-In-Kind, executed by the assignor and assignee, and filed with the county committee.

(f) Except as provided in paragraph (e) of this section, any payment in kind or portion thereof which is due any person shall be made without regard to questions of title under State law, and without regard to any claim of lien against the commodity, or proceeds thereof, which may be asserted by any creditor.

Signed at Washington, D.C., on February 25, 1983.

John R. Block,

Secretary.

BILLING CODE 3410-05-M

Agricultural Marketing Service

7 CFR Part 910

[Lemon Reg. 401; Lemon Reg. 398, Amdt. 2]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action establishes the quantity of California-Arizona lemons that may be shipped to the fresh market during the period March 6–12, 1983, and increases the quantity of lemons that may be shipped during the period February 13–19, 1983. Such action is needed to provide for orderly marketing of fresh lemons for the periods specified due to the marketing situation confronting the lemon industry.

DATES: The regulation becomes effective March 6, 1983, and the amendment is effective for the period February 13–19, 1983.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291 and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities. This action is designed to promote orderly marketing of the California-Arizona lemon crop for the benefit of producers, and will not substantially affect costs for the directly regulated handlers.

This final rule is issued under Marketing Order No. 910, as amended (7 CFR Part 910; 47 FR 50190), regulating the handling of lemons grown in California and Arizona. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the Act.

This action is consistent with the marketing policy for 1982–83. The marketing policy was recommended by the committee following discussion at a public meeting on July 6, 1982. The committee met again publicly on March 1, 1983, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the period March 6–12, 1983. The committee reports the demand for lemons is good. The committee met by telephone on February 16, 1983, to consider the current and prospective conditions of supply and demand and recommended an increase in the quantity of lemons deemed advisable to be handled during the period February 13–19, 1983.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation and amendment are based and the effective date necessary to effectuate the declared policy of the Act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting, and the amendment relieves restrictions on the handling of lemons. It is necessary to effectuate the declared purposes of the Act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 910

Marketing agreements and orders, California, Arizona, Lemons.

1. Section 910.701 is added as follows:

§ 910.701 Lemon Regulation 401.

The quantity of lemons grown in California and Arizona which may be handled during the period March 6, 1983, through March 12, 1983, is established at 250,000 cartons.

2. Section 910.698 Lemon Regulation 398 (48 FR 5210; 7153) is revised to read as follows:

§ 910.698 Lemon Regulation 398.

The quantity of lemons grown in California and Arizona which may be handled during the period February 13, 1983, through February 19, 1983, is established at 285,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 3, 1983.

D. S. Kuryloski,

Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410-02-M

FEDERAL ELECTION COMMISSION

11 CFR Part 114

[Notice 1983–5]

Nonpartisan Communications by Corporations and Labor Organizations

AGENCY: Federal Election Commission

ACTION: Transmittal of regulations to Congress.

SUMMARY: FEC regulations at 11 CFR 114.3 and 114.4 governing contributions and expenditures by corporations and labor organizations for nonpartisan communications have been revised and transmitted to Congress pursuant to 2 U.S.C. 438(d). The revisions were initiated to incorporate into the regulations several advisory opinions which the Commission has issued in this area. The Commission has also considered public comments received in response to its Advance Notice of Proposed Rulemaking (45 FR 56349; August 25, 1980) and Notice of Proposed Rulemaking (46 FR 44964; September 8, 1981).

The revisions clarify the classes of persons to whom nonpartisan communications may be made under each section and indicate the types of communications which are permissible. They also expand the types of publications which may be distributed to the general public by corporations and labor organization to include nonpartisan voting records and voter guides. Further information on the revised regulations is contained in the supplementary information which follows.

EFFECTIVE DATE: Further action, including the announcement of an effective date, will be taken by the Commission after these regulations have been before the Congress 30 legislative days in accordance with 2 U.S.C. 438(d).

FOR FURTHER INFORMATION CONTACT: Ms. Susan E. Propper, Assistant General Counsel, 1325 K Street, NW., Washington, D.C. 20463, (202) 523–4143 or (800) 424–9530.

SUPPLEMENTARY INFORMATION: 2 U.S.C. 438(d) requires that any rule or regulation prescribed by the Commission to carry out the provisions of Title 2, United States Code, be transmitted to the Speaker of the House of Representatives and the President of the Senate prior to final promulgation. If neither House of Congress disapproves of the regulations within 30 legislative days of their transmittal, the Commission may finally prescribe the regulations in question. The following regulations were transmitted to Congress on March 1, 1983.

Explanation and Justification of 11 CFR 114.3 and 114.4

Section 114.3 Disbursements for Communications in Connection with a Federal Election to Restricted Class.

Section 114.3(a) General.

Paragraph (a)(1) sets forth the basic rule of 2 U.S.C. 441b(b)(2)(A), which allows corporations and labor organizations to communicate with their restricted class on any subject. A corporation's restricted class includes its stockholders, executive and administrative personnel and their families. the restricted class of labor organizations has been redefined in this subsection to include the organizations' executive and administrative personnel and their families, as well as members and their families. This inclusion is consistent with the legislative intent "that unions, insofar as they are employers, stand in the same shoes as corporations."

See, generally, H.R. Conf. Rep. No. 1057, 94th Cong., 2d Sess. 64 (1976).

This paragraph also distinguishes between the communications that may be made to the restricted class and those that may be made to the general public as permitted under 11 CFR 114.4. Finally, language has been added to paragraph (a)(1) to make it clear that national banks and corporations organized pursuant to a Congressional enactment may not make contributions or expenditures for partisan communications to the general public in connection with any election, including State and local elections.

Paragraph (a)(2) clarifies the application of § 114.3 to incorporated membership organizations, incorporated trade associations, incorporated cooperatives, and corporations without capital stock. The restricted class of these organizations has been redefined to include families of members. This addition is consistent with the provisions defining the restricted classes of corporations and unions under 2 U.S.C. 441b, both of which include families.

Section 114.3(b) Reporting Partisan Communications.

This paragraph generally follows current § 114.3(b) while clarifying which disbursements for communications to the restricted class must be reported.

Section 114.3(c) Means of Making Partisan Communications.

This paragraph generally follows current § 114.3(c), but explains that the kinds of communications listed in this subsection are examples of those for which disbursements must be reported under paragraph (b).

Section 114.3(c)(1) Partisan Publications.

Paragraph (c)(1) generally follows current § 114.3(c)(1). However, paragraph (c)(1)(ii) has been revised to state that a corporation or labor organization may use brief quotations from speeches or other materials prepared by a candidate in expressing its own views under this section.

Section 114.3(c)(2) Partisan Candidate and Party Appearances.

Paragraph (c)(2) expands current § 14.3(c)(2) by eliminating the requirements that a meeting at which a candidate or party representative appears to address members of the sponsor's restricted class be one that is "regularly scheduled" and "primarily held for other purposes." In addition, this paragraph now permits the presence of employees who are outside the restricted class, a limited number of invited guests and observers, and representatives of the news media at such meetings. At the Commission's public hearing on these regulations the presence of such persons was described as a necessary element of such meeting and, therefore, the Commission was urged to provide an exception for them under this section. The Commission notes, however, that this provision is limited to those employees necessary to administer the meeting. Similarly, the presence of invited guests and observers is limited to speakers, recipients of awards and other persons specially invited to attend such a meeting and is not intended to permit a sponsor to invite large numbers of persons outside the solicitable class, such as rank and file employees of a corporation, whose presence would otherwise trigger the rules governing nonpartisan appearances under § 114.4.

Section 114.3(c)(3) Partisan Phone Banks.

Paragraph (c)(3) generally follows current § 114.3(c)(3).

Section 114.3(c)(4) Partisan Registration and Get-Out-The-Vote Drives.

Paragraph (c)(4) generally follows current § 114.3(c)(4).

Section 114.4 Expenditures for Communications in Connection With a Federal Election to the Restricted Class and the General Public.

Section 114.4(a) Nonpartisan Communications by a Corporation or Labor Organization to its Restricted Class.

Section 114.4(a)(1) General.

Paragraph (a)(1)(i) makes clear that corporations and labor organizations may make the nonpartisan communications permitted under this section just to their restricted class if they so choose. It also clarifies the distinction between this section and § 114.3, which describes communications that may only be made to the restricted class. As in § 114.3, this section adds "executive and administrative personnel" to the restricted class of labor organizations.

Paragraph (a)(1)(ii) was added to clarify the application of this section to incorporated membership organizations, incorporated trade associations, incorporated cooperatives and corporations without capital stock. These organizations are treated as corporations for the purpose of making the communications to the general public permitted under §114.4 (b) and (c). As in § 114.3, the restricted class of these organizations has been expanded to include families of members.

Section 114.4(a)(2) Nonpartisan Candidate and Party Appearances on Corporate Premises or at a Meeting, Convention or Other Function.

This section generally follows current § 114.4(b)(1) but has been revised to include meetings, conventions or other functions sponsored by the corporation, regardless of whether they are held on corporate premises. Also, the category of Presidential and Vice Presidential candidates that may request to appear at such meetings is more specifically defined under paragraph (a)(2)(ii) than in the current regulations to reduce the burden on sponsoring organizations that must provide a forum under this rule.

It should be noted that the operation of this subsection involves appearances in connection with a federal election. Such appearances can be distinguished from those in which an incumbent, who may also be a "candidate" under the Act, is requested to appear in his or her capacity as an officeholder at a public meeting sponsored by a corporation or labor organization. If the discussion at the meeting is limited to issues of concern to the sponsoring organization or its industry and avoids any reference to campaign activity, the sponsor may finance the meeting without triggering the "equal opportunity to appear" requirements of this paragraph. *See* e.g., Advisory Opinion 1980–22.

Section 114.4(a)(3) Nonpartisan Candidate and Party Appearances on Labor Organization Premises or at a Meeting, Convention or Other Function.

This section generally follows current § 114.4(b)(2) and, like § 114.4(a)(2), has been expanded to include nonpartisan candidate and party appearances at meetings, conventions or other functions sponsored by the labor organization which are not held on its premises.

Section 114.4(b) Nonpartisan Communications by Corporations and Labor Organizations to the General Public.

Section 114.4(b)(1) General.

This paragraph clarifies that the communications described in § 114.4(b) may be made to the general public. It also permits the sponsor of a communication made under this section to identify itself or include its logo on materials prepared and distributed under this section, consistent with the Commission's decision in Advisory Opinion 1980–55.

Section 114.4(b)(2) Nonpartisan Registration and Voting Communications.

This paragraph has been added to incorporate the Commission's decision in Advisory Opinion 1980–20 into the regulations. It broadens the class of persons to whom a nonpartisan registration or voting communication may be made to include members of the general public. Under current § 114.4(c)(1), such communications are limited to employees of the corporation or labor organization.

Paragraph (b)(2)(i) contains three factors that the Commission may consider in determining whether a communication made under this section is nonpartisan. The first two factors generally follow current § 114.4(c)(1)(ii) but permit the list of candidates, if included, to name only those running for a particular seat or office rather than requiring the sponsor to print all the candidates on the official ballot. The third factor generally follows current § 114.4(c)(1)(i).

Paragraph (b)(2)(ii) expands the list of media through which a communication may be made under this section from that set forth in current § 114.4(c)(1).

Section 114.4(b)(3) Official Registration and Voting Information.

This paragraph generally follows the provisions of current § 114.4(c)(2).

Paragraph (b)(3)(iii) has been included consistent with the Commission's decision in Advisory Opinion 1980–55. That paragraph provides that a corporation or labor organization may donate funds to State or local election administrators to pay for the printing and distribution costs of official registration materials and voter information.

Section 114.4(b)(4) Voting Records.

This paragraph permits corporations and labor organizations to prepare and distribute nonpartisan voting records which contain a factual recital of an incumbent's or candidate's vote on bills and other measures. The preparation and distribution of such voting records under this paragraph may not be for the purpose of influencing a Federal election.

Section 114.4(b)(5) Voter Guides.

Under this paragraph, corporations and labor organizations may prepare and distribute nonpartisan voter guides which describe a candidate's position on campaign issues. Corporations and labor organizations may submit questions to candidates on one or more campaign issues and then print their responses. To ensure the nonpartisanship of such publications, this paragraph lists six factors which the Commission may consider in determining whether a particular voter guide is nonpartisan. These factors are intended to be illustrative, not exhaustive, and are based in part upon factors articulated by the Internal Revenue Service in Revenue Rulings 78–248 and 80–282. The first factor in paragraph (b)(5)(i) is whether the questionnaires are sent to all candidates running for a particular office. With regard to Presidential and Vice Presidential candidates however, only those candidates seeking a major party's nomination or who are on the general election ballot in enough States to win a majority of the electoral votes need be included. While permitting the sponsoring organization to impose restrictions on the length of the candidates' responses, paragraph (b)(5)(ii) requires that the sponsor reprint the candidates' responses

without change or additional comment. If the candidates' responses exceed the stated word limit, the sponsor may choose to print the responses either in their entirety or after deleting that part of each response which exceeds the word limit.

Furthermore, under paragraph (b)(5)(iii), the Commission may consider whether the wording of the questions is slanted to suggest the sponsor's viewpoint on any issue. The next factor, in paragraph (b)(5)(iv), concerns whether the voter guide expresses an editorial opinion or indicates support for or opposition to any candidate or political party. Paragraph (b)(5)(v) would permit the inclusion of biographical information on each candidate in the voter guide, such as schools attended, degrees earned, past employment and any office held. The sponsoring organization would also be allowed to limit the number of words on this information. Finally, paragraph (b)(5)(vi) concerns whether the voter guide is distributed in the geographic area in which the sponsoring organization normally operates.

Section 114.4(c) Nonpartisan Registration and Get-Out-The-Vote Drives.

Section 114.4(c)(1) Requirements for Conducting Nonpartisan Drives.

This paragraph generally follows current § 114.4(d). References to civic and nonprofit organizations in the current provisions of § 114.4(d) have been changed in the revised regulations to "nonprofit organization which is exempt from federal taxation under 26 U.S.C. 501(c)(3) or (4) and which does not support, endorse or oppose candidates or political parties." In addition, this subsection now permits co-sponsorship by a State or local election agency. To meet the requirement that the drive be "conducted" by the tax-exempt organization or election agency, one or more persons from such co-sponsors must participate in the administration of the drive. This requirement does not preclude, however, the presence of corporate or labor organization personnel or members to assist in the activity. Paragraph (c)(1)(ii) allows corporations and labor organizations to set up a table or rack on their own premises for distributing official voting information without co-sponsorship with a tax-exempt organization.

Section 114.4(c)(2) Donation of Funds.

This paragraph incorporates the Commission's decision in Advisory Opinion 1980–55 into the regulations by providing that corporations and labor organizations may donate funds to State or local election administrators and nonpartisan tax-exempt organizations to defray the costs of registration and voting drives conducted by such officials and organizations.

Section 114.4(c)(3) Use of Personnel and Facilities.

This paragraph generally follows the provisions of current § 114.4(d)(3).

Section 114.4(c)(4) When Co-sponsorship Not Required.

This paragraph has been added to incorporate the Commission's decision in Advisory Opinion 1980–45. Pursuant to this subsection, a nonpartisan tax-exempt organization may conduct registration and voting drives without the need for a co-sponsor.

Section 114.4(c)(5) Identification of Drive Sponsors.

This paragraph requires that any materials produced for use in connection with a registration or get-out-the-vote drive aimed at the general public contain the names of all the sponsors of the drive.

Section 114.4(d) Incorporated Membership Organizations, Incorporated Trade Associations, Incorporated Cooperatives and Corporations Without Capital Stock.

This paragraph permits corporations without capital stock, and incorporated membership organizations, trade associations and cooperatives to invite candidates, their representatives or the representatives of political parties to address the members or employees of the organization subject to the requirements of § 114.4(a)(2).

Conforming Amendments

Several conforming amendments have been made to other sections of Part 114. These amendments reflect the addition of a labor organization's executive and administrative personnel and the families of members of a membership organization to the restricted class of each type of organization.

List of Subjects in 11 CFR Part 114

Business and industry, Elections, Labor.

11 CFR Part 114 is amended as follows:

PART 114—[AMENDED]

1. By revising §§ 114.3 and 114.4 (a)–(d) to read as follows:

§ 114.3 Disbursements for communications in connection with a Federal election to restricted class.

(a) *General.* (1) A corporation may make communications including partisan communications to its stockholders and executive or administrative personnel and their families on any subject. A labor organization may make communications including partisan communications to its members and executive or administrative personnel and their families on any subject. Corporations and labor organizations may also make the nonpartisan communications permitted under 11 CFR 114.4 to their restricted class or any part of that class. No corporation or labor organization may make contributions or expenditures for partisan communications to the general public in connection with a federal election and no national bank or corporation organized by authority of any law of Congress may make contributions or expenditures for partisan communications to the general public in connection with any election to any political office including any State or local office.

(2) An incorporated membership organization, incorporated trade association, incorporated cooperative or corporation without capital stock may communicate with its members and executive or administrative personnel, and their families, as permitted in 11 CFR 114.3(a) (1) and (c), and shall report disbursements for partisan communications as required by 11 CFR 100.8(b)(4) and 104.6.

(b) *Reporting Partisan Communications.* Disbursements for partisan communications made by a corporation to its stockholders and executive or administrative personnel and their families or by a labor organization to its members and executive or administrative personnel and their families shall be reported in accordance with 11 CFR 100.8(b)(4) and 104.6 if the communications expressly advocate the election or defeat of a clearly identified candidate.

(c) *Means of Making Partisan Communications.* The means of making partisan communications for which disbursements must be reported under 11 CFR 114.3(b) include, but are not limited to, the examples set forth in 11 CFR 114.3(c) (1) through (4).

(1) *Partisan Publications.* Printed material of a partisan nature may be distributed by a corporation to its stockholders and executive or administrative personnel and their families or by a labor organization to its members and executive or

administrative personnel and their families, provided that:

(i) The material is produced at the expense of the corporation or labor organization; and

(ii) The material constitutes a communication of the views of the corporation or the labor organization, and is not the republication or reproduction in whole or in part, of any broadcast, transcript or tape or any written, graphic, or other form of campaign materials prepared by the candidate, his or her campaign committees, or their authorized agents. A corporation or labor organization may, under this section, use brief quotations from speeches or other materials of a candidate that demonstrate the candidate's position as part of the corporation's or labor organization's expression of its own views.

(2) *Partisan Candidate and Party Appearances.* A corporation may allow a candidate or party representative to address its stockholders and executive or administrative personnel, and their families, at a meeting, convention or other function of the corporation. A labor organization may allow a candidate or party representative to address its members and executive or administrative personnel, and their families, at a meeting, convention or other function of the labor organization. Employees outside the restricted class of the corporation or labor organization who are necessary to administer the meeting, limited invited guests and observers, and representatives of the news media may also be present during a candidate or party representative appearance under this section. The candidate or party representative may ask for contributions to his or her campaign or party, or ask that contributions to the separate segregated fund of the corporation or labor organization be designated for his or her campaign or party. The incidental solicitation of persons outside the corporation's or labor organization's restricted class who may be present at the meeting as permitted by this section will not be a violation of 11 CFR 114.5(g).

(3) *Partisan Phone Banks.* A corporation may establish and operate phone banks to communicate with its stockholders and executive or administrative personnel, and their families, urging them to register and/or vote for a particular candidate or candidates, and a labor organization may establish and operate phone banks to communicate with its members and executive or administrative personnel, and their families, urging them to register and/or vote for a particular candidate or candidates.

(4) *Partisan Registration and Get-Out-The-Vote Drives.* A corporation may conduct registration and get-out-the-vote drives aimed at its stockholders and executive or administrative personnel, and their families, or a labor organization may conduct registration and get-out-the-vote drives aimed at its members and executive or administrative personnel, and their families. Registration and get-out-the-vote drives include providing transportation to the polls. Such drives may be partisan in that individuals may be urged to register with a particular party or to vote for a particular candidate or candidates, but assistance in registering or voting may not be withheld or refused on a partisan basis, and if transportation or other services are offered in connection with a registration or get-out-the-vote drive, such transportation or services may not be withheld or refused on a partisan basis.

§ 114.4 Expenditures for communications in connection with a Federal election to the restricted class and the general public.

(a) *Nonpartisan Communications by a Corporation or Labor Organization to its Employees or its Restricted Class.* (1) *General.* (i) A corporation may make the nonpartisan communications permitted under 11 CFR 114.4 (b) and (c) to its stockholders, executive or administrative personnel, other employees, and their families. A labor organization may make such communications to its members, executive or administrative personnel, other employees, and their families. Communications which a corporation or labor organization may make only to its solicitable class are found at 11 CFR 114.3.

(ii) An incorporated membership organization, incorporated trade association, incorporated cooperative or corporation without capital stock may make the communications permitted under 11 CFR 114.4 (b) and (c) to its members, executive or administrative personnel, other employees, and their families, as provided by 11 CFR 114.4(d). The organizations covered under this section will be treated as corporations for the purpose of making communications to the general public under 11 CFR 114.4 (b) and (c).

(2) *Nonpartisan Candidate and Party Appearances on Corporate Premises or at a Meeting, Convention or Other Function.* Corporations may permit candidates, candidates' representatives or representatives of political parties on corporate premises or at a meeting, convention, or other function of the corporation to address or meet stockholders, executive or administrative personnel, and other employees of the corporation, and their families, under the conditions set forth in 11 CFR 114.4(a)(2) (i) through (v).

(i) If a candidate for the House or Senate or a candidate's representative is permitted to address or meet employees, all candidates for that seat who request to appear must be given the same opportunity to appear;

(ii) If a Presidential or Vice Presidential candidate or candidate's representative is permitted to address or meet employees, all candidates for that office who are seeking the nomination of a major party or who are on the general election ballot in enough States to win a majority of the electoral votes and who request to appear must be given the same opportunity to appear;

(iii) If representatives of a political party are permitted to address or meet employees, representatives of all political parties which had a candidate or candidates on the ballot in the last general election or which are actively engaged in placing or will have a candidate or candidates on the ballot in the next general election and who request to appear must be given the same opportunity to appear;

(iv) A corporation, its stockholders, executive or administrative personnel, or other employees of the corporation or its separate segregated fund shall make no effort, either oral or written, to solicit or direct or control contributions by members of the audience to any candidate or party in conjunction with any appearance by any candidate or party representative under this section; and

(v) A corporation, its stockholders, executive or administrative personnel or other employees of the corporation or its separate segregated fund shall not, in conjunction with any candidate or party representative appearance under this section, endorse, support or oppose any candidate, group of candidates or political party.

(3) *Nonpartisan Candidate and Party Appearances on Labor Organization Premises or at a Meeting, Convention or Other Function.* A labor organization may permit candidates, candidates' representatives or representatives of political parties on the labor organization's premises or at a meeting, convention, or other function of the labor organization to address or meet members, executive or administrative personnel, and other employees of the labor organization, and their families, if the conditions set forth in 11 CFR

114.4(a)(2) (i) through (iii) and 11 CFR 114.4(a)(3) (i) and (ii) are met.

(i) An official, member, or employee of a labor organization or its separate segregated fund shall not make any effort, either oral or written, to solicit or direct or control contributions by members of the audience to any candidate or party representative under this section.

(ii) An official, member, or employee of a labor organization or its separate segregated fund shall not, in conjunction with any candidate or party representative appearance under this section, endorse, support or oppose any candidate, group of candidates or political party.

(b) *Nonpartisan Communications by Corporations and Labor Organizations to the General Public.*—(1) *General.* A corporation or labor organization may make the communications described in 11 CFR 114.4(b) (2) through (5) to the general public. The corporation or labor organization may include its logo or otherwise identify itself as the sponsor of the communication.

(2) *Nonpartisan Registration and Voting Communications.* A corporation or labor organization may make nonpartisan registration and get-out-the-vote communications to the general public.

(i) For purposes of 11 CFR 114.4(b)(2), the following are factors that the Commission may consider in determining whether a registration or get-out-the-vote communication is nonpartisan:

(A) It neither names nor depicts any particular candidate(s) or it names or depicts all candidates for a particular Federal office without favoring any candidate(s) over any other(s);

(B) It names no political party(s) except that it may include the political party affiliation of all candidates named or depicted under 11 CFR 114.4(b)(2)(i)(A);

(C) It is limited to urging acts such as voting and registering and to describing the hours and places of registration and voting.

(ii) A corporation or labor organization may make communications permitted under this section through posters, billboards, broadcasting media, newspapers, newsletters, brochures, or similar means of communication with the general public.

(3) *Official Registration and Voting Information.* (i) A corporation or labor organization may distribute to the general public, or reprint in whole and distribute to the general public, any registration or voting information, such as instructional materials, which has been produced by the official election administrators.

(ii) A corporation or labor organization may distribute official registration-by-mail forms to the general public if registration by mail is permitted by the applicable State law.

(iii) A corporation or labor organization may donate funds to State or local agencies responsible for the administration of elections to help defray the costs of printing or distributing registration or voting information and forms.

(iv) The information and forms referred to in 11 CFR 114.4(b)(3) (i) through (iii) must be distributed in a nonpartisan manner, and the corporation or labor organization may not, in connection with the distribution, endorse, support, or otherwise promote registration with or voting for a particular party or candidate.

(4) *Voting Records.* A corporation or labor organization may prepare and distribute to the general public the nonpartisan voting records of Members of Congress as long as the preparation and distribution is not for the purpose of influencing a Federal election. For the purpose of this section, a nonpartisan voting record that may be distributed is a publication which describes in a nonpartisan manner bills and other legislative measures voted on by Congress and which states the factual record of each officeholder's votes on such bills and measures.

(5) *Voter Guides.* A corporation or labor organization may prepare and distribute to the general public nonpartisan voter guides consisting of questions posed to candidates concerning their positions on campaign issues and the candidates' responses to those questions. The following are factors that the Commission may consider in determining whether a voter guide is nonpartisan:

(i) The questions are directed to all of the candidates for a particular seat or office, giving the candidates equal time to respond, except that in the case of Presidential and Vice Presidential candidates the questions may be directed only to those candidates seeking the nomination of a major party or to those appearing on the general election ballot in enough States to win a majority of the electoral votes;

(ii) The voter guide reprints verbatim the responses of each candidate to whom questions were sent, without any additional comment, editing, or emphasis, although the sponsoring organization may impose limitations on the number of words per response when the questions are initially sent to the candidates for their comments;

(iii) The wording of the questions presented does not suggest or favor any position on the issues covered;

(iv) The voter guide expresses no editorial opinion concerning the issues presented nor does it indicate any support for or opposition to any candidate or political party;

(v) The sponsor may ask each candidate to provide biographical information such as education, employment positions, offices held, and community involvement and may impose a limitation on the number of words per submission; and

(vi) The voter guide is made available to the general public in the geographic area in which the sponsoring organization normally operates.

(c) *Nonpartisan Registration and Get-Out-The-Vote Drives.*—(1) *Requirements for Conducting Nonpartisan Drives.* (i) A corporation or labor organization may conduct nonpartisan voter registration drives which are not limited to its restricted class if the conditions in paragraphs (c)(1)(i) (A) through (C) of this section are met. A corporation or labor organization may conduct nonpartisan get-out-the-vote drives, such as by transporting people to the polls, which drives are not limited to its restricted class if the conditions of paragraphs (c)(1)(i) (A) through (C) of this section are met.

(A) The corporation or labor organization shall jointly sponsor the drives with a nonprofit organization which is exempt from Federal taxation under 26 U.S.C. 501(c) (3) or (4) and which does not support, endorse or oppose candidates or political parties, or with a State or local agency which is responsible for the administration of elections;

(B) The activities shall be conducted by the tax-exempt organization or by persons authorized by the State or local agency; and

(C) These services shall be made available without regard to the voter's political preference.

(ii) For the purposes of 11 CFR 114.4(c)(1)(i)(B), a corporation or labor organization which provides space on the corporation's or labor organization's premises for a table, rack or booth from which official registration or voting information is distributed to the general public, and which provides its employees or members to aid in the distribution of such materials, shall not be considered to be "conducting" a registration or voting drive.

(2) *Donation of Funds.* A corporation or labor organization may donate funds to be used for nonpartisan registration

drives to State or local agencies responsible for the administration of elections and to nonprofit organizations which are exempt from Federal taxation under 26 U.S.C. 501(c) (3) or (4), and which do not support, endorse or oppose candidates or political parties.

(3) *Use of Personnel and Facilities.* A nonpartisan tax-exempt organization, or person authorized by a State or local agency, in conducting nonpartisan registration and get-out-the-vote activities, may utilize the employees and facilities of a corporation or the employees or members and facilities of a labor organization.

(4) *When Co-Sponsorship Not Required.* A nonprofit organization which is exempt from federal taxation under 26 U.S.C. 501(c) (3) or (4) and which does not support, endorse or oppose any candidates or political parties may conduct nonpartisan voter registration and get-out-the-vote activities on its own without a co-sponsor.

(5) *Identification of Drive Sponsors.* All materials prepared for distribution to the general public in connection with the registration or voting drive shall include the full names of all drive sponsors.

(d) *Incorporated Membership Organizations, Incorporated Trade Associations, Incorporated Cooperatives and Corporations Without Capital Stock.* An incorporated membership organization, incorporated trade association, incorporated cooperative or corporation without capital stock may permit candidates, candidates' representatives or representatives of political parties to address or meet members and employees of the organization, and their families, on the organization's premises or at a meeting, convention or other function of the organization, provided that the conditions set forth in 11 CFR 114.4(a)(2) (i) through (v) are met.

(e) *Nonpartisan Candidate Debates.*

* * * * *

Conforming Amendments

2. By revising §§ 114.1 (a)(2)(i), (a)(2)(ii), (c), and (c)(2)(iv) to read as follows:

§ 114.1 Definitions.

(a) * * *

(2) * * *

(i) Communications by a corporation to its stockholders and executive or administrative personnel and their families or by a labor organization to its members and executive or administrative personnel, and their families, on any subject;

(ii) Nonpartisan registration and get-out-the-vote campaigns by a corporation aimed at its stockholders and executive or administrative personnel and their families or by a labor organization aimed at its members and executive or administrative personnel, and their families;

* * * * *

(b) * * *

(c) "Executive or administrative personnel" means individuals employed by a corporation or labor organization who are paid on a salary rather than hourly basis and who have policymaking, managerial, professional, or supervisory responsibilities.

(1) * * *

(2) * * *

(iv) Individuals who may be paid by the corporation or labor organization, such as consultants, but who are not employees, within the meaning of 26 CFR 31.3401(c)-1, of the corporation or labor organization for the purpose of income withholding tax on employee wages under Internal Revenue Code of 1954, section 3402.

* * * * *

3. By revising § 114.5(g) (2) and (1) as follows:

§ 114.5 Separate segregated funds.

* * * * *

(g) * * *

(2) A labor organization, or a separate segregated fund established by a labor organization is prohibited from soliciting contributions to such a fund from any person other than its members and executive or administrative personnel, and their families.

* * * * *

(1) *Methods permitted by law to labor organizations.* Notwithstanding any other law, any method of soliciting voluntary contributions or of facilitating the making of voluntary contributions to a separate segregated fund established by a corporation, permitted by law to corporations with regard to stockholders and executive or administrative personnel, shall also be permitted to labor organizations with regard to their members and executive or administrative personnel.

4. By revising § 114.7 (a), (e) and (h) as follows:

§ 114.7 Membership organizations, cooperatives or corporations without capital stock.

(a) Membership organizations, cooperatives, or corporations without capital stock, or separate segregated funds established by such persons may solicit contributions to the fund from members and executive or administrative personnel, and their families, of the organization, cooperative, or corporation without capital stock.

* * * * *

(e) There is no limitation upon the number of times an organization under this section may solicit its members and executive or administrative personnel, and their families.

* * * * *

(h) A membership organization, cooperative, or corporation without capital stock may communicate with its members and executive or administrative personnel, and their families, under the provisions of § 114.3 of this part.

* * * * *

5. By revising § 114.8 (h) and (i) as follows:

§ 114.8 Trade associations.

* * * * *

(h) *Communications other than solicitations.* A trade association may make communications, other than solicitations, to its members and their families under the provisions of § 114.3 of this part. When making communications to a member which is a corporation, the trade association may communicate with the representatives of the corporation with whom the trade association normally conducts the association's activities.

(i) *Trade association employees.* (1) A trade association may communicate with its executive or administrative personnel and their families under the provisions of § 114.3 of this part; a trade association may communicate with its other employees under the provisions of § 114.4 of this part.

(2) A trade association may solicit its executive or administrative personnel and their families under the provisions of § 114.5(g) of this part; a trade association may solicit its other employees under the provisions of § 114.6 of this part.

Dated: March 1, 1982.

Danny Lee McDonald,

Chairman, Federal Election Commission.

BILLING CODE 6715-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Parts 154, 270, 273, 284 and 340

[Docket No. RM77-22-004]

Rate of Interest on Amounts Held Subject to Refund for Oil Pipelines and Elimination of Undertaking Requirements for Gas Pipelines and Producers

Issued February 28, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Order granting rehearing for purposes of further consideration.

SUMMARY: The Federal Energy Regulatory Commission (Commission) grants rehearing for the limited purpose of further consideration of a petition for rehearing and clarification, and a petition for reconsideration of Order No. 273. Order No. 273 is a final rule which was issued December 28, 1982 (48 FR 1279, January 12, 1983). It establishes regulations respecting refund payments with interest by oil pipeline companies and eliminates undertaking requirements for natural gas pipelines and producers.

FOR FURTHER INFORMATION CONTACT: Cathy Ciaglo, Federal Energy Regulatory Commission, Office of General Counsel, 825 North Capitol Street, NE., Washington, D.C. 20426 (202) 357-8033.

SUPPLEMENTARY INFORMATION: On December 28, 1982, the Federal Energy Regulatory Commission (Commission) issued the "Final Rule Respecting the Rate of Interest on Amounts Held Subject to Refund for Oil Pipelines, and Eliminating the Undertaking Requirements for Gas Pipelines and Producers" (Order No. 273, 48 FR 1279, January 12, 1983). The final rule provided the requirements for refund payments, with interest, by oil pipeline companies under the Commission's jurisdiction. The refund interest rate is the prime rate charged by commercial banks for short-term business loans. It applies to all amounts held on or after the effective date of this final rule, including those in the *Trans Alaska Pipeline System (TAPS)* case (Docket No. OR78-1). In addition, this final rule provided for the compounding of interest rates on a quarterly basis and provided the procedures for refunds in the case of joint tariffs. In regard to natural gas pipelines and producers, the final rule revised the requirements for a motion and eliminated the requirements for an undertaking that must be complied with before a suspended rate could become effective.

On January 27, 1983, the State of Alaska and the owners of the Trans Alaska Pipeline System (TAPS) filed, respectively, a petitions for rehearing and clarification of Order No. 273, and a petition for reconsideration of that rule. In order to have sufficient time to consider the issues raised in these petitions, the Commission grants rehearing of Order No. 273 solely for the purpose of further consideration.

The Commission Orders:

Rehearing of Order No. 273 is granted for the limited purpose of further consideration of the issues raised in the petition for rehearing and reconsideration. This action does not constitute a grant or denial of the petitions on their merits in whole or part. As provided in § 385.713(d) of the Commission's regulations, no answers to these petitions will be entertained by the Commission because this Order does not grant rehearing on any substantive issues.

By the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

INTERNATIONAL TRADE COMMISSION

19 CFR Parts 201, 210 and 211

Practice and Procedure; Clarification

AGENCY: United States International Trade Commission.

ACTION: Interim rules; amendment and clarification; request for comments.

SUMMARY: On June 10, 1982, the Commission published amendments to Part 210 of its Rules of Practice and Procedure (19 CFR Part 210) providing procedures in investigations under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) for initial determinations by the presiding officer and discretionary Commission review. 47 FR 25134. Since the amended rules have been in effect it has come to the Commission's attention that certain provisions require alteration in order better to effectuate the smooth functioning of the new procedures. These rules are effective as of the date of publication as interim rules pending the receipt of public comments and the issuance of final rules.

EFFECTIVE DATES: March 4, 1983. Comments will be considered if received within thirty days of publication of this notice. The procedures amended by these interim rules are applicable only to section 337 investigations instituted subsequent to June 10, 1982.

ADDRESS: Comments should conform with Commission rule 201.8 (19 CFR 201.8) and should be addressed to Kenneth R. Mason, Secretary, U.S. International Trade Commission, 701 E Street, NW., Washington, D.C. 20436.

FOR FURTHER INFORMATION CONTACT: Michael P. Mabile, Esq., Office of the General Counsel, U.S. International Trade Commission, 701 E Street NW., Washington, D.C., telephone 202-523-0819.

SUPPLEMENTARY INFORMATION: Authority for adoption of these interim rules is contained in 19 U.S.C. 1335 and the Administration Procedure Act, 5 U.S.C. 551, et seq.

In accordance with the Regulatory Flexibility Act, it is hereby certified that these interim rules will not have a significant economic impact on a substantial number of small entities. These rules are intended only to refine previously adopted procedural rules that are intended to make it less costly and time consuming for all private parties, including small entities, to participate in Commission section 337 proceedings.

Explanation of Amendments

Since the effective date of the Commission's amended rules establishing the initial determination procedures for section 337 investigations, it has become apparent that certain revisions to those procedures are necessary to effectuate them fully. Four principal changes are made in the present amendements: (1) Clarification that the Federal agencies specified in 19 U.S.C. 1337(b)(2) and § 210.53(e) of the Commission's Rules of Practice and Procedure, as well as parties, will be entitled to an additional three days for taking action in response to documents served by mail; (2) provision for making a record on, and consideration by the presiding officer of, the public interest with respect to motions for termination on the basis of an agreement or consent order; (3) application of the initial determination procedures to terminations by agreement or consent order under § 210.51 (c) and (d); and (4) lengthening of the period in which the Commission may order review of initial determinations not concerning permanent relief to the same 30-day period now provided for initial determinations on issues relating to permanent relief.

Section 201.16 Service of process and other documents.

Subsection (d) is amended to clarify that the Federal agencies that the Commission is required to consult with and seek advice from, 19 U.S.C. 1337(b)(2) and § 210.53(e), are entitled to three additional days in which to respond to a document served upon them by mail. This clarification is necessary because of the short time limits for submission of agency comments on initial determinations under § 210.53(e).

Section 210.14 Commission action, public interest factor, and bonding.

While subsection (b) continues the Commission practice of not permitting discovery on the public interest issue, subsection (b) is amended to allow the presiding officer to take information and to consider and make findings regarding the effect on the public interest of a proposed settlement by agreement of the parties on a consent order. This change is deemed advisable because prior practice involving comment on proposed agreement or consent order terminations by the public and other Federal agencies has not always yielded as fully developed a record on the public interest factors as is desirable.

Section 210.51 Termination of investigation.

Subsection (c) is amended in order to render procedures on motions for termination by licensing or other agreement consistent with the initial determination process. This change to the more expeditious initial determination rules will not adversely affect the public interest. Concerned Federal agencies will continue to be afforded an opportunity to comment, as will nonmoving parties to the investigation and the public at large. The Commission believes that these opportunities for comment, together with the explicit public interest findings by the presiding officer now provided for in § 210.14, insure adequate consideration of the public interest in deciding motions for termination by licensing or other agreement.

Section 210.53 Initial determination.

Experience has demonstrated that 15 days is too short a time for Commission consideration of initial determinations under § 210.53 (b) and (c) regarding issues other than permanent relief. Consequently, subsection (h)(1) has been revised and subsection (h)(2) removed in order to provide a 30-day review period for all initial determinations. The amended rule would still allow a more expedited review if required by the circumstances of a given investigation.

Section 210.54 Petition for review.

Section 210.55 Commission review on its own motion.

Paragraph (b) of § 210.54 and § 210.55 have been revised to eliminate references to § 210.53(h)(2), which has been deleted by these amendments.

Section 211.20 Opportunity to submit proposed consent order.

Section 211.21 Settlement by consent.

Paragraph (b) of § 211.20 and all three paragraphs of § 211.21 are amended in order to render procedures on motions for termination by consent order agreement consistent with the initial determination process. This change to the more expeditious initial determination rules will not adversely affect the public interest. Concerned Federal agencies will continue to be afforded an opportunity to comment, as will nonmoving parties to the investigation and the public at large. The Commission believes these opportunities for comment, together with the explicit public interest findings by the presiding officer now provided for in § 210.14, insure adequate consideration of the public interest in deciding motions for termination by consent order agreement.

List of Subjects

19 CFR Part 201

Administrative practice and procedure, Freedom of information, Privacy, Seals and insignia, Sunshine Act, Classified information, Confidential business information, Investigations, Lawyers.

19 CFR Parts 210 and 211

Administrative practice and procedure, Customs duties and inspection, Imports, Investigations.

PART 201—[AMENDED]

19 CFR Part 201 is amended as set forth below.

1. In § 201.16, paragraph (d) is revised to read as follows:

§ 201.16 Service of process and other documents.

* * * * *

(d) *Additional time after service by mail.* Whenever a party or Federal agency or department has the right or is required to do some act or take some proceedings within a prescribed period after the service of a document upon it and the document is served upon it by mail, three (3) days shall be added to the prescribed period, except that when mailing is to a person located in a foreign country, ten (10) days shall be added to the prescribed period.

PART 210 [AMENDED]

19 CFR Part 210 is amended as set forth below.

1. In § 210.14 paragraph (b) is revised to read as follows:

§ 210.14 Commission action, public interest factor, and bonding.

* * * * *

(b) Unless otherwise ordered by the Commission, the presiding officer shall not take evidence or other information or hear arguments from the parties and other interested persons with respect to the subject matter of paragraphs (a)(1), (a)(2), (a)(3), and (a)(4) of this section. However, with regard to settlements by agreement or consent order under § 210.51(c) and (d), the parties may file statments regarding the impact of the proposed settlement on the public interest, and the presiding officer may in his discretion hear argument, although no discovery may be taken with respect to issues relating solely to the public interest. Thereafter, the presiding officer shall consider and make appropriate findings in the initial determination regarding the effect of the proposed settlement on the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers.

2. In § 210.51 paragraphs (c)(1) and (c)(2) are revised to read as follows:

§ 210.51 Termination of investigation.

* * * * *

(c) *Settlement by licensing or other agreement.* (1) An investigation before the Commission may be terminated as provided in paragraph (a) of this section on the basis of a licensing or other agreement entered into between the complainant (all of the complainants if there is more than one) and one or more of the respondents. A motion for termination by such parties shall contain copies of the licensing or other agreement and any agreements supplemental thereto and an affidavit executed by the parties stating that there are no other agreements, written or oral, expressed or implied, between such parties concerning the subject matter of the investigation. If the licensing or other agreement contain confidential business information within the meaning of § 201.6 of the Commission's rules, a copy of the

agreement with such information deleted shall accompany the motion.

(2) The motion, licensing or other agreement and any agreements supplemental thereto, and affidavit shall be certified by the presiding officer to the Commission with an initial determination regarding the motion for termination. If the licensing or other agreement of the initial determination contains confidential business information, copies of the agreement and initial determination with confidential business information deleted shall be certified to the Commission simultaneously with the confidential versions of such documents. The Commission shall promptly publish a notice in the **Federal Register** stating that an initial determination has been received terminating the respondent or respondents in question on the basis of a licensing or other agreement, that nonconfidential versions of the initial determination and the agreement are available for inspection in the Office of the Secretary, and that interested persons may submit written comments concerning termination of the respondents in question within ten (10) days of the date of publication of the notice in the **Federal Register**. An order of termination based upon such licensing or other agreement shall not constitute a determination as to violation of section 337.

* * * * *

(3). In § 210.53, paragraph (h) is revised to read as follows:

§ 210.53 Initial determination.

* * * * *

(h) *Effect.* An initial determination shall become the determination of the Commission thirty (30) days after the service thereof, unless the Commission, within thirty (30) days after the date of filing of the initial determination, shall have ordered review of the initial determination or certain issues therein pursuant to § 210.54(b) or § 210.55, or by order shall have changed the effective date of the initial determination.

* * * * *

4. In § 210.54, paragraph (b)(1) is revised to read as follows:

§ 210.54 Petition for review.

* * * * *

(b) *Grant or denial of review.* (1) The Commission shall decide whether to grant, in whole or in part, a petition for review within thirty (30) days of the filing of the initial determination, or by such other time as the Commission may order.

* * * * *

5. § 210.55 is revised to read as follows:

§ 210.55 Commission review on its own motion.

Within the time provided in § 210.53(h), the Commission on its own initiative may order review of an initial determination or certain issues therein when at least one of the participating Commissioners votes for ordering review. The standards for granting review of an initial determination are set forth in § 210.54(a)(2). In its order, the Commission shall establish the scope of the review and the issues that will be considered and make provisions for filing of briefs and oral argument if deemed appropriate by the Commission. The order and notice that the Commission has directed review on its own initiative shall be served by the Secretary on all parties, the Department of Health and Human Services, the Department of Justice, the Federal Trade Commission, and such other departments and agencies as the Commission deems appropriate.

PART 211—[AMENDED]

19 CFR Part 211 is amended as set forth below.

1. In § 211.20, paragraph (b) is revised to read as follows:

§ 211.20 Opportunity to submit proposed consent order.

* * * * *

(b) *Subsequent to institution of an investigation.* In investigations under section 337, a proposal to settle a matter by consent shall be submitted as a motion to the presiding officer to terminate an investigation under § 210.51 together with a consent order agreement which incorporates a proposed consent order. If the consent order agreement contains confidential business information within the meaning of § 201.6 of the Commission's rules, a copy of the agreement with such information deleted shall accompany the motion. The proposed agreement shall comply with the requirements of § 211.22. At any time prior to commencement of a hearing as provided in § 210.41(a)(1), the motion may be filed jointly by all of the following: (1) All private complainants, (2) the Commission investigative attorney, and (3) one or more respondents. However, upon request and for good cause shown, the presiding officer may consider such a motion during or after a hearing. The filing of the motion shall not stay proceedings before the presiding officer unless the presiding officer so orders. The presiding officer shall promptly file with the Commission an initial determination regarding the motion for termination. If the initial determination contains confidential business information, a copy of the initial determination with such information deleted shall be filed with the Commission simultaneously with the filing of the confidential version of the initial determination. The Commission shall promptly publish a notice in the **Federal Register** stating that an initial determination has been received terminating the respondent or respondents in question on the basis of a consent order agreement, that nonconfidential versions of the initial determination and consent order agreement are available for inspection in the Office of the Secretary, and that interested persons may submit written comments concerning termination of the respondents in question within ten (10) days of the date of publication of the notice in the **Federal Register**. Pending disposition by the Commission of a consent order agreement, a party may not, absent good cause shown, withdraw from the agreement once it has been submitted pursuant to this section.

2. Section 211.21 is revised to read as follows:

§ 211.21 Settlement by consent.

(a) After the initial determination on the motion for termination based on a consent order agreement has been filed with the Commission, the Commission shall promptly serve copies of the nonconfidential version of the initial determination and the proposed consent order agreement on the Department of Health and Human Services, the Department of Justice, and the Federal Trade Commission, and such other departments and agencies as the Commission deems appropriate.

(b) The Commission, after considering the effect of the consent order upon the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers in the manner provided by § 210.14(a)(4), shall dispose of the initial determination according to the procedures of §§ 210.54–210.56. An order of termination based upon a consent order agreement shall not constitute a determination as to violation of section 337. The Commission shall publish in the **Federal Register** and serve on all parties notice of its action together with a statement of reasons in support thereof. Should the Commission reject the proposed agreement and deny the motion, the parties are in no way bound by their

proposal in later actions before the Commission.

Issued: February 25, 1983.

By order of the Commission.

Kenneth R. Mason,

Secretary.

[Docket No. 77N-0331]

Nine Natural Cheeses; Revision Based on International Standards of Identity

Correction

In FR Doc. 83-1842, beginning on page 2736 in the issue of Friday, January 21, 1983, make the following correction.

On page 2739, first column, twentieth line from the bottom of the page, "expended" should read "expanded".

BILLING CODE 1505-01-M

---

21 CFR Part 176

[Docket No. 82F-0174]

Indirect Food Additives; Paper and Paperboard Components

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of diethylene glycol dibenzoate as a plasticizer in polymeric substances used in the manufacture of paper and paperboard for direct contact with dry food. This action responds to a petition by Velsicol Chemical Corp.

DATES:

Effective March 4, 1983.

Objections by April 4, 1983.

ADDRESS: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Julius Smith, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: In a notice in the **Federal Register** of July 13, 1982 (47 FR 30291), FDA announced that a food additive petition (FAP 2B3632) had been filed by Velsicol Chemical Corp., 341 East Ohio St., Chicago, IL 60611, proposing that the food additive regulations be amended to provide for the safe use of 2,2'-oxybis(ethanol) dibenzoate as a plasticizer in polymeric substances in the manufacture of paper and paperboard for use in direct contact with dry food.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below. The agency believes that the common name of the additive, diethylene glycol dibenzoate, should be listed in the regulation rather than the less familiar CAS name 2,2'-oxybis(ethanol)dibenzoate, which was used in the filing notice.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by appointment with the information contact person listed above. As provided in § 171.1(h)(2), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above), between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 176

Food additives, Food packaging, Paper and paperboard.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 176 is amended in § 176.180(b)(2) by alphabetically inserting a new item in the list of substances to read as follows:

Diethylene glycol dibenzoate (CAS Reg. No. 120-55-8).	For use only as a plasticizer in polymeric substances.
* * *	* *

Any person who will be adversely affected by the foregoing regulation may at any time on or before April 4, 1983 submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective March 4, 1983.

(Secs. 201(s), 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348))

Dated: February 25, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

---

21 CFR Part 178

[Docket No. 81F-0332]

Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers; Lubricants With Incidental Food Contact

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of an antioxidant in lubricants that have incidental food

contact. This action responds to a petition by the Ciba-Geigy Corp.

DATES: Effective March 4, 1983; objections by April 4, 1983.

ADDRESS: Written objections to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Anthony P. Brunetti, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a notice in the **Federal Register** of November 24, 1981 (46 FR 57647), FDA announced that a petition (FAP 1B3583) had been filed by the Ciba-Geigy Corp., Three Skyline Dr., Hawthorne, NY 10352 (formerly Ardsley, NY 10502), proposing that the food additive regulations be amended to provide for the safe use of thiodiethylenebis(3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate) as an antioxidant in lubricants that have incidental food contact.

FDA has evaluated data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents the FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by appointment with the information contact person listed above. As provided in § 171.1(h)(2), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above), between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 178

Food additives, Food packaging, Sanitizing solutions.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 178 is amended in § 178.3570(a)(3) by inserting a new item alphabetically in the list of substances, to read as follows:

PART 178—INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS

§178.3570 Lubricants with incidental food contact.

BILLING CODE 4160-01-M

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject to Certification; Diethylcarbamazine Citrate Chewable Tablets

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) filed by International Multifoods Corp. providing for safe and effective use of 120-milligram diethylcarbamazine citrate chewable tablets for prevention of heartworm disease and control of ascarid infections in dogs, and treatment of ascarid infections in dogs and cats. The firm also holds approval for use of tablets containing 60 and 180 milligrams of diethylcarbamazine citrate for the same conditions of use.

EFFECTIVE DATE: March 4, 1983.

FOR FURTHER INFORMATION CONTACT: Bob G. Griffith, Bureau of Veterinary Medicine (HFV–112), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3430.

SUPPLEMENTARY INFORMATION: International Multifoods Corp., 1200 Multifoods Bldg., 8th and Marquette Sts., Minneapolis, MN 55402, filed supplemental NADA 118–032 which provides for use of 120-milligram diethylcarbamazine citrate chewable tablets for prevention of heartworm disease (*Dirofilaria immitis*) in dogs, as an aid in control of ascarids (*Toxocara canis*) in dogs, and as an aid in the treatment of ascarid infections in dogs and cats (*T. canis* and *Toxascaris leonina*, respectively). The supplement is approved and the regulations are amended to reflect the approval.

The firm currently holds approval for use of tablets containing 60 and 180 milligrams of diethylcarbamazine citrate for the same conditions of use.

Approval of this supplement does not change the approved conditions of use of the drug. It merely provides for a tablet containing a drug concentration which facilitates dosing those animals that are intermediate in size to those for whom the 60- and 180-milligram tablets are designed. Accordingly, under the Bureau of Veterinary Medicine's supplemental approval policy (42 FR 64367; December 23, 1977), this is a Category II supplemental approval which does not require reevaluation of the safety and effectiveness data in the original application.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 520

Animal drugs, Oral use.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), § 520.622c is amended by revising paragraph (b)(4) to read as follows:

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

§ 520.622c Diethylcarbamazine citrate chewable tablets.

* * * * *

(b) * * *

(4) For 012518, use of 60-, 120-, or 180-milligram tablets as in paragraph (c)(2)(i) of this section.

* * * * *

Effective date. March 4, 1983.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: February 28, 1983.

Robert A. Baldwin,

Associate Director for Scientific Evaluation.

BILLING CODE 4160-01-M

DEPARTMENT OF JUSTICE

Parole Commission

28 CFR Part 2

Paroling, Recommitting and Supervising Federal Prisoners

AGENCY: Parole Commission, Justice.

ACTION: Final rule.

SUMMARY: The Parole Commission is adding a new subsection to its pre-release review procedures to permit the administrative hearing examiner to act for the Regional Commissioner in converting a presumptive parole date to an effective parole date where there is no finding of misconduct nor any allegation of new criminal conduct and no other modification of the release date appears warranted. This procedure is intended to expedite case processing.

EFFECTIVE DATE: April 4, 1983.

FOR FURTHER INFORMATION CONTACT: Toby Slawsky, United States Parole Commission, Office of the General Counsel, 5550 Friendship Blvd., Chevy Chase, Maryland 20815, Tel: (301) 492-5959.

SUPPLEMENTARY INFORMATION: The Parole Commission is amending its procedures for pre-release reviews to allow the administrative hearing examiner to act for the Regional Commissioner to convert a presumptive parole date to an effective parole date where there has not been a finding of misconduct by an institutional disciplinary committee or any allegation of new criminal conduct and no other modification of the release date appears warranted.

This procedural change is intended to relieve the Regional Commissioner of the administrative burden of reviewing a case where there has been no change since the Commissioner last reviewed the case. The revision is expected to increase efficiency of case processing and thereby reduce costs; it makes no substantive change in the standard of review utilized by the Commission in converting presumptive parole dates to effective parole dates.

List of Subjects in 28 CFR Part 2

Administrative practice and procedure, Prisoners, Probation and parole.

PART 2—[AMENDED]

Accordingly, pursuant to the provisions of 18 U.S.C. 4203(a)(1) and 4204(a)(6), 28 CFR 2.14(b)(4) is added as follows:

§ 2.14 Subsequent proceedings.

* * * * *

(b) * * *

(4) Where: (i) There has been no finding of misconduct by an Institutional Disciplinary Committee nor any allegation of criminal conduct since the last hearing; and (ii) no other modification of the release date appears warranted, the administrative hearing examiner may act for the Regional Commissioner under paragraph (b)(2) of this section to approve conversion of the presumptive parole date to an effective date of parole.

* * * * *

I certify that this rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Dated: February 16, 1983.

Benjamin F. Baer,

Chairman, Parole Commission.

BILLING CODE 4410-01-M

28 CFR Part 2

Paroling, Recommitting and Supervising Federal Prisoners

AGENCY: Parole Commission, Justice.

ACTION: Final rule.

SUMMARY: The Parole Commission is amending its procedures for reviewing travel requests by parolees to allow designated Commission staff to approve or disapprove such requests in certain cases rather than have all such cases referred to the Regional Commissioner. This change is intended to make the Commission's procedures more flexible and expedite case processing.

EFFECTIVE DATE: April 4, 1983.

FOR FURTHER INFORMATION CONTACT: Toby Slawsky, United States Parole Commission, Office of the General Counsel, 5550 Friendship Blvd., Chevy Chase, Maryland 20815, Tel: (301) 492-5959.

SUPPLEMENTARY INFORMATION: The Parole Commission is amending its rule at 28 CFR 2.41 to allow designated Commission staff to review requests by parolees to travel in certain cases. This procedural change is intended to reduce the Regional Commissioner's workload and give the Commission added administrative flexibility in reviewing travel requests thereby increasing efficiency and reducing costs.

Lists of Subjects in 28 CFR Part 2

Administrative practice and procedures, Prisoners, Probation and parole.

PART 2—[AMENDED]

Accordingly, pursuant to the provisions of 18 U.S.C. 4203(a)(1) and 4204(a)(6), 28 CFR 2.41 is amended by revising the introductory text of paragraph (a), and paragraph (b) as follows:

§ 2.41 Travel approval.

(a) The probation officer may approve travel outside the district without approval of the Commission in the following situations:

* * * * *

(b) Specific advance approval by the Commission is required for other travel outside the district, including any travel outside the contiguous forty-eight states, employment requiring recurring travel

more than fifty miles outside the district (except employment at offshore locations), and vacation travel outside the district exceeding thirty days. A request for such permission shall be in writing and must demonstrate a substantial need for such travel.

* * * * *

I certify that this rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Dated: February 15, 1983.

Benjamin F. Baer,

Chairman, Parole Commission.

BILLING CODE 4410-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 914

Approval of Permanent Program Amendments From State of Indiana Under the Surface Mining Control and Reclamation Act of 1977

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule.

SUMMARY: This document amends 30 CFR Part 914 by removing certain conditions of approval of the Indiana permanent regulatory program under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Indiana has submitted provisions to OSM which satisfy conditions found at 30 CFR 914.11 (a)(1), (a)(2) in part, (a)(3)–(5), (b)(1), (b)(3) in part, (b)(4)–(6), (c), (d), (e), (f), (g)(2), and (f) of the Secretary's approval of July 26, 1982 (47 FR 32071–32108). Indiana has also requested additional time to meet part of condition (b)(3), as explained later in this notice. This document also amends 30 CFR Part 914 by amending the Secretary's approval of other amendments to Indiana's regulations that were submitted as program amendments under the provisions of 30 CFR 732.17.

After providing opportunity for public comment and conducting a thorough review of the program amendments, the Secretary of the Interior has determined that the modifications to the Indiana program satisfy conditions (a)(1), (a)(2) in part, (a)(3)–(5), (b)(1), (b)(3) in part, (b)(4)–(6), (c), (d), (e), (f), (g)(2), and (i) of the Secretary's approval, and that the additional modifications meet the requirements of SMCRA and the Federal permanent program regulations. Accordingly, the Secretary of the Interior has removed these conditions from his approval of the Indiana program and approved the additional modifications. The Secretary has also decided to extend the deadline to July 1, 1983, to allow Indiana to meet the remaining parts of conditions (a)(2) and (b)(3).

Part 914 of 30 CFR Chapter VII is being amended to implement this decision.

EFFECTIVE DATE: March 4, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. Richard D. McNabb, Director, Indiana Field Office, Office of Surface Mining Reclamation and Enforcement, Federal Building and U.S. Courthouse, Room 522, 46 East Ohio Street, Indianapolis, Indiana 46204, Telephone: (317) 269-2600.

SUPPLEMENTARY INFORMATION:

I. Background on the Indiana Program and the Secretary's Conditions of Approval

Information regarding the general background on the Indiana State Program, including the Secretary's Findings, the disposition of comments and a detailed explanation of the conditions of approval of the Indiana program can be found in the July 26, 1982, **Federal Register** (47 FR 32071–32108).

The nine minor conditions of approval agreed to by the Secretary and the State of Indiana are set forth below:

Condition (a) requires Indiana to submit copies of promulgated rules or otherwise amend its program to:

(1) Require productivity levels for post-mining land use as required by 30 CFR 817.111(b);

(2) Require the design criteria for diversions as required by 30 CFR 816.43 and 817.43;

(3) Provide criteria for steep slope mining and variance from approximate original contour in a manner no less effective than the requirements of 30 CFR 826.15 and assure that no general variance for approximate original contour will be allowed;

(4) Delete the provisions for hilltop removal found in 310 IAC 12–6–149, and assure that no permits for hilltop removal are granted; and

(5) Require the protection of fish and wildlife in a manner no less effective than that required by 30 CFR 816.97 (a), (c), and (d) and 817.97 (a), (c), and (d).

Condition (b) requires Indiana to submit copies of promulgated rules or otherwise amend its program to:

(1) Require a plan for control and treatment of surface and ground water drainage and impose ground water limits on pollutants in the discharges as required by 30 CFR 780.21(b);

(2) Require that each permit application require the applicant to certify that all reclamation fees due under 30 CFR 870.12 have been paid;

(3) Require that each permit application contain a list of all other licenses and permits needed by the applicant to conduct the proposed surface or underground mining activities including all the information required by 30 CFR 778.19 and 782.19;

(4) Require the narrative analysis of "the known history of any previous uses before mining," as required by 30 CFR 779.22 and 30 CFR 783.22;

(5) Require information concerning utility and capacity of reclaimed land for all lands, and not just those where an alternative land use is proposed as required by 30 CFR 780.23;

(6) Provide criteria for permit requirements for steep slope mining and variance from approximate original contour in a manner no less effective than 30 CFR 785.16.

Condition (c) requires Indiana to submit copies of promulgated rules or otherwise amend its program to:

(1) Require that the notice of intent to explore, when less than 250 tons of coal will be removed, include a description of the practices proposed to be followed to protect the environment as required by 30 CFR 776.11(b)(6);

(2) Require that core drilling and drilling of boreholes during coal exploration activities be conducted in accordance with Section 512(a)(2) of SMCRA and in a manner no less effective than 30 CFR 815.15(j).

Condition (d) requires Indiana to submit copies of promulgated rules or otherwise amend its program to:

(1) Require that the criteria for the determination that a pattern of violations exists or has existed meet the requirements of 30 CFR 843.13 and require that lack of diligence be considered with regard to unwarranted failure to comply;

(2) Require that the conference officer have the authority to increase a penalty as required by 30 CFR 845.18(b)(3);

Condition (e) requires Indiana to submit copies of promulgated rules or otherwise amend its program to:

(1) Require the replacement of a bond for long term operations 120 days prior to the expiration of the existing permit as required by 30 CFR 801.13(b);

(2) Change the phrase "suspension of revocation" to "suspension or revocation" in Indiana rule 310 IAC 12–4–10(e)(1) to correct the typographical

error and make the Indiana rule no less effective than 30 CFR 806.12(e)(6)(i);

(3) Require that the advertisement published by the bond release applicant contain notice of the public right of participation as required by 30 CFR 807.11(b)(7).

Condition (f) requires Indiana to submit copies of promulgated rules or otherwise amend its program to:

(1) Require that no extension of an abatement period will be allowed unless it meets the criteria of 30 CFR 843.12(f), and

(2) Require the issuance of a cessation order where the operation fails to meet an interim step in abatement as required by 30 CFR 843.12(d).

Condition (g) requires Indiana to submit:

(1) Copies of a statutory amendment or to otherwise amend its program to require that a petitioner would only have to present evidence which would "tend to establish allegations of fact," to be in accordance with Section 522(c) of SMCRA and no less effective than 30 CFR 764.13(b)(2), and

(2) Copies of promulgated rules or otherwise amend its program to require that the Director of the Indiana Department of Natural Resources (IDNR) must use the information in the data base and inventory system in reaching decisions to designate lands unsuitable as required by 30 CFR 764.19, and to provide for the right for any person to intervene up to within three days prior to the hearing as required by 30 CFR 764.16(c).

Condition (h) requires Indiana to submit statutory amendments or otherwise amend its program to:

(1) Provide for the award of attorney and expert witness fees in surface mining related common law damage actions as required by Section 510(f) of SMCRA, and

(2) Provide for administrative review of a permit or any final decision of the regulatory authority in accordance with the provisions of Section 514(c) of SMCRA and in a manner no less effective than the requirements of 30 CFR Part 787.

Condition (i) requires Indiana to submit copies of promulgated rules or otherwise amend its program to provide for justification of positions exempted from conflict of interest requirements and make its provision no less effective than 30 CFR 705.11(d).

In accepting the Secretary's conditional approval, Indiana agreed to satisfy conditions (a), (b)(1), (b)(3)–(6), (c), (d), (e), (f), (g)(2), and (i) by December 31, 1982.

Condition (b)(2) was removed by the Secretary on December 17, 1982 (47 FR 56493–56494).

Conditions (g)(1) and (h) require legislative action and are scheduled to be met by September 30, 1983.

II. Discussion of the Amendments and Deadline Extension for One Condition

On December 9, 1982, OSM received a set of regulation amendments from the IDNR intended to meet conditions (a)(1), (a)(2) in part, (a)(3)–(5), (b)(1), (b)(3) in part, (b)(4)–(6), (c), (d), (e), (f), (g)(2), and (i). See IN–291.

In the State's transmittal letter the Director, IDNR, stated that due to an error the revisions to Indiana rule 310 IAC 12–3–83 were omitted. Those changes were necessary to comply with the part of condition (b)(3) requiring each underground permit application to contain a list of all other licenses and permits needed by the applicant to conduct the proposed underground mining activities, as required by 30 CFR 782.10.

The Director, IDNR, also indicated that the required state procedure to make those changes was initiated on November 19, 1982, with an anticipated promulgation date as early as May 30, 1983.

Additionally, the proposed modification contained changes to seven other State rules that were not related to the conditions of approval. These rules are: 310 IAC 12–3–1, 12–3–21, 12–3–59, 12–3–81, 12–3–102, 12–5–24, and 12–5–90.

OSM published a notice in the Federal Register on December 27, 1982, announcing receipt of the amendment and inviting public comment on whether the proposed program modifications corrected the deficiencies (47 FR 57511–57513). The Secretary's notice also requested comments on the other proposed amendments to Indiana's rules and on OSM's proposed July 1, 1983, deadline extension for Indiana to meet the remaining part of condition (b)(3). The public comment period ended January 26, 1983. A public hearing scheduled for January 17, 1983, was not held because no one expressed a desire to present testimony.

On February 16, 1983, the Administrator of the Environmental Protection Agency gave her written concurrence on the December 9, 1982, amendments to the Indiana program.

III. Secretary's Findings

The Secretary finds, in accordance with SMCRA and 30 CFR 732.17 and 732.15, that the program amendments submitted by Indiana on December 9, 1982, meet the requirements of SMCRA and 30 CFR Chapter VII as set forth below.

A. Findings on Conditions

1. Condition (a)(1)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, Indiana rule 310 IAC 12–5–123(b) did not address productivity levels for post-mining land use (See Finding 13.8, 47 FR 32075). The Secretary now finds that Indiana has amended rule 310 IAC 12–5–123(b) to require that all revegetation be carried out in a manner that encourages a prompt vegetative cover and recovery of productivity levels compatible with the approved post-mining land use. Accordingly, the Secretary finds that Indiana rule 310 IAC 12–5–123(b) is no less effective than 30 CFR 817.111(b).

2. Condition (a)(2)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules omitted the design criteria for diversions (see Finding 13.9, 47 FR 32075). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–5–18 and 12–5–84 to contain design criteria for diversions in a manner no less effective than 30 CFR 816.43 and 817.43.

The Secretary notes that Finding 13.9 of the Secretary's notice of conditional approval of the Indiana program states that Indiana rules 310 IAC 12–5–19 and 12–5–85 should also be amended to require design criteria for stream channel diversions. While the intent of the Secretary's finding was to ensure that the Indiana rules provided design criteria that are no less effective than 30 CFR 816.44 and 817.44, condition (a)(2) did not clearly state this requirement. The Secretary now finds that Indiana rules 310 IAC 12–5–19 and 12–5–85 need to be amended to include the design criteria for stream channel diversions in order to be no less effective than 30 CFR 816.44 and 817.44.

3. Condition (a)(3)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not provide the criteria for steep slope mining and variances from approximate original contour found at 30 CFR 826.15 (See Finding 13.15, 47 FR 32076). The Secretary now finds that Indiana has amended rule 310 IAC 12–5–152 to contain provisions which are no less effective than 30 CFR 826.15.

4. Condition (a)(4)

The Secretary found that in the Indiana program conditionally approved

on July 26, 1982, the Indiana rules allowed for a "hilltop removal" exemption from the approximate original contour requirements and that the exemption was not provided for under the Federal rules (See Finding 13.16, 47 FR 32076). The Secretary now finds that Indiana has repealed rule 310 IAC 12–5–149 so as to disallow the "hilltop removal" exemption. The Indiana program is now no less effective than the Federal rules.

5. Condition (a)(5)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not contain provisions specified in 30 CFR 816.97(a), (c) and (d) and 817.97(a), (c) and (d) concerning the protection of fish and wildlife, including requirements that the best technology currently available be used to minimize adverse impacts (See Finding 13.17, 47 FR 32076).

The Secretary now finds that Indiana has amended its rules at 310 IAC 12–5–51 and 12–5–115 to meet the requirements of 30 CFR 816.97 and 817.97, except that Indiana has omitted the language of 30 CFR 816.97(d)(2) and 817.97(d)(2) concerning the disruption of wildlife migratory routes by fencing. The Secretary finds this omission acceptable because no large animal migratory trails exist in Indiana according to the Director, IDNR. *See* IN–0268. Thus, the Secretary finds Indiana rules 310 IAC 12–5–51 and 12–5–115 no less effective than 30 CFR 816.97 and 817.97.

6. Condition (b)(1)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require a plan for control and treatment of surface and ground water drainage and did not impose ground water limits on pollutants in the discharges, as required by 30 CFR 780.21(b) (See Finding 14.16, 47 FR 32078). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–3–47(b) to include these provisions in a manner no less effective than 30 CFR 780.21(b).

7. Condition (b)(3)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules omitted a requirement that each permit application contain a list of all other licenses and permits needed by the applicant to conduct the proposed surface or underground mining activities including all the information required by 30 CFR 778.19 and 782.19 (See Finding 14.23, 47 FR 32079). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–3–25 to meet the requirements of 30 CFR 778.19, but that Indiana did not amend rule 310 IAC 12–3–63 to meet the requirements of 30 CFR 782.19.

8. Condition (b)(4)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require the narrative analysis of the known history of any previous uses of the land before mining, as required by 30 CFR 779.22 and 783.22 (See Finding 14.24, 47 FR 32079). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–3–37(a) and 12–3–74(a) to include these requirements in a manner no less effective than 30 CFR 779.22 and 783.22.

9. Condition (b)(5)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require information concerning utility and capacity of reclaimed land for all lands, and not just those where an alternative land use is proposed, as required by 30 CFR 780.23 (See Finding 14.25, 47 FR 32079). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–3–48 to include these requirements in a manner no less effective than 30 CFR 780.23.

10. Condition (b)(6)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not provide the same criteria for permit requirements for steep slope mining and variance from approximate original contour as prescribed by 30 CFR 785.16 (See Finding 14.26, 47 FR 32079–32080). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–3–97 to include these requirements in a manner no less effective than 30 CFR 785.16.

11. Condition (c)(1)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require that the notice of intent to explore, when less than 250 tons of coal will be removed, include a description of the practices proposed to be followed to protect the environment, as required by 30 CFR 776.11(b)(6) (See Finding 15.2, 47 FR 32080). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–3–12(c)(2) to include these requirements in a manner no less effective than 30 CFR 776.11(b)(6).

12. Condition (c)(2)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require that core drilling and drilling of boreholes during coal exploration activities be conducted in accordance with Section 512(a)(2) of SMCRA and in a manner no less effective than 30 CFR 815.15(j) (See Finding 15.4, 47 FR 32080). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–5–3 to require all coal exploration be conducted in a manner that meets the performance standards. Therefore, the Secretary finds that Indiana rule 310 IAC 12–5–3 contains provisions which are consistent with Section 512(a)(2) of SMCRA and no less effective than 30 CFR 815.15(j).

13. Condition (d)(1)

The Secretary found that in the Indiana program conditionally approved on July 26, 1983, the Indiana rules did not specify the criteria for the determination that a pattern of violations exists, or has existed, as required by 30 CFR 843.13 and did not require that lack of diligence be considered with regard to unwarranted failure to comply (See Finding 17.13, 47 FR 32081). The Secretary now finds that Indiana has amended rule 310 IAC 12–6–6.5 to include these requirements in a manner no less effective than 30 CFR 843.13.

14. Condition (d)(2)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not specify that the conference officer have the authority to increase a penalty, as required by 30 CFR 845.18(b)(3) (See Finding 17.15, 47 FR 32082). The Secretary now finds that Indiana has amended rule 310 IAC 12–6–16(b)(3)(ii) to allow the conference officer to raise a penalty. Thus, the Indiana rule is no less effective than 30 CFR 845.18(b)(3).

15. Condition (e)(1)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require the replacement of a bond for long term operations 120 days prior to the expiration of the existing permit, as required by 30 CFR 801.13(b) (See Finding 18.5, 47 FR 32082). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–4–5 to include these requirements in a manner no less effective than 30 CFR 801.13(b).

16. Condition (e)(2)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules contained a typographical error which could have a substantive effect (See Finding 18.9, 47 FR 32083). Indiana has corrected the phrase "suspension of revocation" to read "suspension or revocation" in Indiana rule 310 IAC 12–4–10(e)(1). The Indiana rule is now no less effective than 30 CFR 806.12(e)(6)(i).

17. Condition (e)(3)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require that the advertisement published by the bond release applicant contain notice of the public right of participation, as required by 30 CFR 807.11(b)(7) (See Finding 18.12, 47 FR 32083). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–4–16 to contain this requirement in a manner no less effective than 30 CFR 807.11(b)(7).

18. Condition (f)(1)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules allowed an extension of the period for abatement under a notice of violation beyond ninety days under certain circumstances not allowed under 30 CFR 843.12 (See Finding 19.3, 47 FR 32084). Indiana has amended its rules at 310 IAC 12–6–6(f) to limit an extension of the period for abatement to those circumstances allowed under the Federal rules.

Indiana rule 310 IAC 12–6–6(f)(4) states that the abatement period may be extended beyond 90 days where climate conditions preclude abatement within 90 days, or where, due to climate conditions, abatement within 90 days clearly:

(i) Would cause more environmental harm than it would prevent; or

(ii) Requires action that would violate safety standards established by statute or regulation under the Mine Safety and Health Act (MSHA).

Taken literally, the Indiana rule could be interpreted to tie the provisions to meet MSHA requirements in paragraph (4)(ii) to climate conditions. The Secretary notes that the Federal rules at 30 CFR 843.12(f)(4) contained identical language at the time Indiana drafted its rule, but that the Federal rules have since been clarified to separate the requirements to meet MSHA standards from climate conditions (See 47 FR 35638, August 16, 1982). The Secretary has reviewed the Indiana rule in light of the changes made to the Federal counterpart and finds Indiana's rule acceptable with the understanding that Indiana will interpret and apply its rule so as to distinguish the requirement to meet MSHA standards from climate conditions in a manner no less effective than 30 CFR 843.12(f) (4) and (5).

Accordingly, the Secretary now finds that Indiana has amended its rules at 310 IAC 12–6–6(f) to limit an extension of the period for abatement to those circumstances allowed under the Federal rules. Indiana rule 310 IAC 12–6–6(f) is now no less effective than 30 CFR 843.12.

19. Condition (f)(2)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require the issuance of a cessation order where the operator fails to meet an interim step in abatement, as required by 30 CFR 843.12(d) (See Finding 19.3, 47 FR 32084). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–6–6(d) to meet this requirement in a manner no less effective than 30 CFR 843.12(d).

20. Condition (g)(2)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require that the Director of the Indiana Department of Natural Resources must use the information in the data base and inventory system in reaching decisions to designate lands unsuitable, as required by 30 CFR 764.19, and to provide for the right for any person to intervene up to within three days prior to the hearing, as required by 30 CFR 764.16(c) (See Finding 21.3, 47 FR 32085). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–2–7 and 12–2–9 to meet these requirements in a manner no less effective than 30 CFR 764.19 and 764.16(c).

21. Condition (i)

The Secretary found that in the Indiana program conditionally approved on July 26, 1982, the Indiana rules did not require the State to provide for the justification of positions exempted from conflict of interest requirements in order to meet the requirements of 30 CFR 705.11(d) (See Finding 23, 47 FR 32087). The Secretary now finds that Indiana has amended its rules at 310 IAC 12–7–4(f) to meet this requirement in a manner no less effective than 30 CFR 705.11(d).

B. Findings on Other Amendments

1. Indiana rule 310 IAC 12–3–1 has been amended by Indiana to clarify the requirements for continued operation under interim permits within the permanent regulatory program. The Secretary finds Indiana rule 310 IAC 12–3–1 to be no less effective than 30 CFR 771.11 and 771.13.

2. Indiana rules 310 IAC 12–3–21 and 12–3–59 have been amended to allow any person the right to inspect the documents upon which a permit applicant bases his or her right to mine. The Secretary finds Indiana rules 310 IAC 12–3–21(b)(4) and 12–3–59(b)(4) to be no less effective than 30 CFR 778.15 and 782.15.

3. Indiana rule 310 IAC 12–3–81 has been amended to reference the performance standards for water quality standards and effluent limitations pertaining to underground mining. The Secretary finds Indiana rule 310 IAC 12–3–81 to be no less effective than 30 CFR 784.14.

4. Indiana rule 310 IAC 12–3–102(c) has been amended to set forth the permitting and performance standard compliance requirements for in situ processing activities. The Secretary finds Indiana rule 310 IAC 12–3–102(c) to be no less effective than 30 CFR 785.22(c).

5. Indiana rules 310 IAC 12–5–24 and 12–5–90 have been amended to require a routine inspection of all dams and embankments meeting the size or other criteria of 30 CFR 77.216(a) by a qualified registered professional engineer, or by someone under the supervision of a qualified registered professional engineer. The Secretary finds Indiana rules 310 IAC 12–5–24(f) and 12–5–90(f) to be no less effective than 30 CFR 816.49(f) and 817.49(f).

C. Non-substantive Corrections to Indiana's Regulations

Indiana has revised certain parts of its rules to make non-substantive, primarily typographical, changes. The Secretary finds the corrections consistent with SMCRA and 30 CFR Chapter VII.

IV. Public Comments

The response to public comments received are set forth below.

1. The Bureau of Mines commented that the phrase "to the extent possible" should be removed from Indiana rules 310 IAC 12–5–51 (a) and (d) and 12–5–115 (a) and (d). As used in the Indiana rules, the phrase "to the extent possible" applies to the requirement that the best technology currently available be used to minimize disturbances to fish and wildlife. The Secretary will not require

Indiana to delete the phrase because the identical language is also used in the Federal rules at 30 CFR 816.97 (a) and (d) and 817.97 (a) and (d). Thus, Indiana's provisions are no less effective than the Federal rules.

2. The Mine Safety and Health Administration (MSHA) commented that Indiana rule 310 IAC 12–5–18(f) which sets forth hydrologic balance requirements for diversions omits an MSHA requirement that the regulatory authority grant approval prior to diverting water underground. The Secretary notes that Indiana's rule was approved in the July 28, 1982, conditional approval of the Indiana program and has not been changed since then. Indiana rule 310 IAC 12–5–18(f) meets all of the requirements of 30 CFR 816.43(g); accordingly, no further change is required.

3. MSHA commented that Indiana rule 310 IAC 12–5–24(f) requires dams and embankments to be inspected by a qualified registered professional engineer, or someone under the supervision of a qualified registered professional engineer, whereas MSHA requires the site to be inspected only by "the qualified person". Indiana rule 310 IAC 12–5–24(f) includes the language of 30 CFR 816.49(f) which requires such sites to be inspected by a qualified registered professional engineer, or by someone under the supervision of a qualified registered professional engineer. Thus, Indiana rule 310 IAC 12–5–24(f) is no less effective than 30 CFR 816.49(f); therefore, no further change is required.

4. MSHA commented that Indiana rule 310 IAC 12–5–24(i) requires all modifications to design plans to be sent to the Director, IDNR, whereas MSHA also requires that such modifications be approved prior to construction on these sites. Indiana rule 310 IAC 12–5–24(i) states, in part, that the Director, IDNR, shall approve the plans before modifications begin. The Indiana rule is no less effective than 30 CFR 816.49(i); therefore, no further change is required.

5. Several comments were received which expressed support for the approval of Indiana's December 9, 1982, program amendments. Additionally, acknowledgements were received from the following government agencies.

Department of the Interior

Bureau of Land Management, Bureau of Mines, Bureau of Reclamation, Fish and Wildlife Service, National Park Service

Department of Agriculture

Science and Education, Soil Conservation Service

Department of the Army

U.S. Army Corps of Engineers

Department of Labor

Mine Safety and Health Administration

Council on Environmental Quality

The disclosure of government agency comments is made pursuant to Section 503(b)(1) of SMCRA and 30 CFR 732.17(h)(10)(i).

V. Secretary's Decision

Accordingly, the Secretary, based on the above findings, is approving the December 9, 1982, amendments to the Indiana program and is removing conditions (a)(1), (a)(2) in part, (a)(3)–(5), (b)(1), (b)(3) in part, (b)(4)–(6), (c), (d), (e), (f), (g)(2) and (i).

The Secretary is modifying condition (a)(2) to require Indiana to add to its rules the design criteria for stream channel diversions required by 30 CFR 816.44 and 817.44 for the reasons set forth above in the finding for condition (a)(2). The Secretary is giving Indiana until July 1, 1983, to amend its rules to meet this condition. Indiana has agreed to make the necessary changes to its rules by July 1, 1983. See IN–0310. This deficiency is considered minor because of the short period of time involved for the State rule to be amended.

With respect to condition (b)(3), the Secretary is extending, until July 1, 1983, the deadline for Indiana to meet the remaining part of the condition concerning the requirements of 30 CFR 782.19. The Secretary has decided that this deficiency remains minor because the State's underground mining permit application requires the identification of all other necessary licenses and permits, and because Indiana is proceeding to correct the deficiency. Indiana has agreed to make the necessary changes to its rules by July 1, 1983. See IN–0316.

VI. Procedural Matters

Paperwork Reduction Act. This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

National Environmental Policy Act. The Secretary had determined that pursuant to Section 702(d) of SMCRA, 30 U.S.C. 1292(d), no Environmental Impact Statement need by prepared on this rulemaking.

Executive Order 12291 and the Regulatory Flexibility Act. On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an exemption from Sections 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a Regulatory Impact Analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule does not impose any new requirements; rather, it ensures that existing requirements established by SMCRA and the Federal rules will be met by the State.

List of Subjects in 30 CFR Part 914

Coal mining, Intergovernmental relations, Surface mining, Underground mining.

Accordingly, Part 914 of Title 30 is amended as set forth herein.

Dated: February 28, 1983.

William P. Pendley,

Acting Assistant Secretary for Energy and Minerals.

PART 914—INDIANA

1. The authority citation for Part 914 is:

Authority: Pub. L. 95–87; Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 *et seq.*).

2. 30 CFR 914.10 is revised to read as follows:

§ 914.10 State regulatory program approval.

(a) The Indiana State program, as submitted on March 3, 1980, as amended and clarified on June 4, 1980, as resubmitted on September 28, 1981, and clarified on December 8, 1981, April 8, 1982, May 18–19, 1982, and May 26, 1982, is conditionally approved, effective July 29, 1982. Beginning on that date, the Indiana Department of Natural Resources shall be deemed the regulatory authority in Indiana for all surface coal mining and reclamation operations and all coal exploration operations on non-Federal and non-Indian lands. Only surface coal mining and reclamation operations on non-Federal and non-Indian lands shall be subject to the provisions of the Indiana permanent regulatory program. Beginning on December 17, 1982, the program includes program amendments submitted on September 1, 1982. Beginning on March 4, 1983, the program includes program amendments submitted on December 9, 1982.

(b) Copies of the approved program, together with copies of the letter of the Department of Natural Resources agreeing to the conditions of 30 CFR 914.11, are available at:

Office of Surface Mining, 1100 L Street, NW., Room 5315, Washington, DC 20240
Office of Surface Mining, 46 East Ohio Street, Indianapolis, Indiana 46204
Indiana Department of Natural Resources, 309 W. Washington Street, Suite 202, Indianapolis, Indiana 46204

3. Section 914.11 is amended by removing and reserving paragraphs (a)(1), (a)(3) through (a)(5), (b)(1), (b)(2), (b)(4) through (b)(6), (c)(1) and (c)(2), (d)(1) and (d)(2), (e)(1) through (e)(3), (f)(1) and (f)(2), (g)(2), and (i). Also, the introductory text of paragraphs (a) and (b) and paragraphs (a)(2) and (b)(3) are revised to read as follows:

§ 914.11 Conditions of State regulatory program approval.

* * * * *

(a) Termination of the approval found in § 914.10 will be initiated on July 1, 1983, unless Indiana submits to the Secretary by that date, copies of promulgated rules or otherwise amends its program to:

* * * * *

(2) Required the design criteria for stream channel diversions as required by 30 CFR 816.44 and 817.44.

* * * * *

(b) Termination of the approval found in § 914.10 will be initiated on July 1, 1983, unless Indiana submits to the Secretary by that date, copies of promulgated rules or otherwise amends its program to:

* * * * *

(3) Require that each permit application contain a list of all other licenses and permits needed by the applicant to conduct the proposed surface or underground mining activities including all the information required by 30 CFR 782.19.

* * * * *

[FR Doc. 83-5994 Filed 3-3-83; 8:45 am]
BILLING CODE 4310-05-M

PANAMA CANAL COMMISSION

35 CFR Part 103

Panama Canal Transit Booking System

AGENCY: Panama Canal Commission.

ACTION: Final rule; revocation of interim rule.

SUMMARY: This rule announces permanent implementation of a transit booking system which will be available on a voluntary basis to all Canal customers. The intent of the rule is to provide improved service to users and to increase Canal efficiency. The effect of this action is to implement a system in which a limited number of vessels may be provided with more timely transit of the Canal, upon payment of a special charge. This document also revokes the interim rule of January 21, 1982, as the test of the transit booking system and the comment period have been completed.

EFFECTIVE DATE: April 4, 1983.

FOR FURTHER INFORMATION CONTACT:

Michael Rhode, Jr., Secretary, Panama Canal Commission, Room 312, Pennsylvania Building, 425 13th Street, NW., Washington, D.C. 20004, Telephone (202) 724-0104;

Captain George T. Hull, Marine, Director, Panama Canal Commission, Telephone: (Republic of Panama) 52-7917.

SUPPLEMENTARY INFORMATION: On December 4, 1980, the Panama Canal Commission published a notice of proposed rulemaking in the **Federal Register** (45 FR 80313) proposing to amend its regulations concerning the order of passage of vessels through the Panama Canal, by establishing and testing a new plan for scheduling vessels. The plan involved scheduling vessel transits based upon reservations and advance notice of expected arrival time. On January 30, 1981, the Canal Commission published an interim rule in the **Federal Register** (46 FR 9942) in order to establish the terms under which there was to be conducted a test of the plan for scheduling vessels passing through the Canal. During a 32-day comment period, comments were received from fourteen interested parties. Those comments were considered and discussed in the notice announcing the interim rule.

On May 11, 1981, the Canal Commission determined that the test of the proposed transit booking system should be suspended, as it had proven to be unsuccessful in the manner in which it was then implemented. On December 8, 1981, the Canal Commission published a proposed rule in the **Federal Register** (46 FR 60013) proposing a revised transit booking system, taking into account the agency's experience with the reservation system that was tested under the January 30, 1981, interim rule. The proposed rule announced a test of the revised system, to begin in January 1982, and solicited comments from interested parties. On January 21, 1982, the Canal Commission published in the **Federal Register** (47 FR 2991) a revocation of the expired interim rule of January 30, 1981 and announced a new interim rule, to be tested during a period of 120 days. As a result of comments received from interested parties during the comment period (December 8, 1981, through January 7, 1982), the new interim rule announced further changes in the proposed system.

The test of the transit booking system, which began on January 25, 1982, was interrupted on February 2 because of traffic congestion unrelated to booking. The test resumed March 15 and was continued to its successful completion on July 7, 1982. In conducting the test, both objective test data and subjective comments (obtained by means of a questionnaire sent to Canal users) were collected. Following an evaluation and consideration of the data and comments obtained during the test of the new system, the Commission Administrator, on December 27, 1982, recommended that the agency's nine-member Board consider favorably the adoption of the transit booking system on a permanent basis. At its quarterly meeting in January 1983, the Board unanimously approved putting into effect the new system on or about April 1, 1983.

The purpose of this rule is to implement, on a permanent basis a revised system concerning the scheduling of vessels passing through the Panama Canal. This document also revokes the January 21, 1981 interim rule concerning the test of the booking system. The former practice was to use the time of arrival of a vessel at either terminus of the Canal as consideration for fixing the order in which the vessel would be placed in the daily transit schedule. Deviations from that sequence were due generally to considerations of safety, the capacity of the locks and channel, and the availability of equipment and personnel. There has been also a longstanding rule that preference be given to passenger vessels and to the warships of all nations. In addition, pursuant to the 1977 Treaty Concerning the Permanent Neutrality and Operation of the Panama Canal, the warships of the United States and the Republic of Panama may be given even more expeditious handling than other warships.

The Panama Canal Transit Booking System modifies the practice of scheduling vessel transit by time of arrival and enables vessels to obtain a timely transit with the payment of a fee. The system allows for a limited number of openings to be available for booking each day and, in addition, imposes a cancellation charge that becomes progressively higher as the reservation date draws nearer, and a fee forfeiture penalty for booked vessels that do not transit as scheduled. Under the booking system, there are two periods during which reservations can be made for any given day. The preference for passenger

vessels and warships has not been altered.

The scheduling of vessel transits based upon reservations should result in a traffic pattern in which there is less variation from day to day in the number of arrivals. Such uniformity can increase Canal efficiency by making possible a more nearly continuous flow of vessel traffic. The change in the scheduling system should reduce the waiting time for vessels at the Canal. For those using the booking system, it should obviate the need for steaming at higher speed merely to obtain a rise to a higher position in the transit schedule. Fuel consumption should be reduced in such cases.

During a course of the second test, and until 30 days following its conclusion, comments were once again solicited from interested parties. In addition, a questionnaire [submitted to the Office of Management and Budget (see 47 FR 26284) and approved for information collection under the Paperwork Reduction Act of 1980] was sent to those operators whose vessels transit the Canal. A total of 108 questionnaires were returned and the comments contained therein, along with the other written comments received from interested parties, were analyzed and given careful consideration by the Commission.

The subject of the amount of the booking fee generated the most comments. As a result of earlier comments, in January 1982, the fee had been reduced from $0.35 to $0.26 per Panama Canal gross ton. The weighted average of all respondents to the recent questionnaire suggested reducing the fee an additional $0.09 to $0.17 per Panama Canal gross ton. While the Commisson acknowledges the views of respondents, it considers it necessary to retain a booking fee that will provide a degree of control over the system and prevent over subscription. Furthermore, a sizeable reduction in the fee is likely to avert the system's utility to those Canal users for whom the system was designed (operators with the greatest need for timely transit), and it could prove unpopular with non-users who either want no booking system or prefer that the fee be high for those who use it. The fee of $0.23 per Panama Canal gross ton was selected since it addresses the needs of Canal users, is representative of the threshold at which the users recognize the utility of the system, and assures sufficient control over the system. Accordingly, this rule fixes the amount of the fee for use of the system at that figure.

Some comments suggested that the system discriminates by nationality, type of vessel, and geographic location (short-haulers versus long-haulers). The test system was structured to include participation by everyone. Results show an even distribution of usage by nationality, type of vessel, and geographic location of last port of call. During the 4-month test, vessels of 40 nations utilized the system. Data by type of vessel indicates no evidence of discrimination; differences in utilization are attributable to chance occurrence. The system also provides more than half (56 percent) of the bookings during the second period in order to preclude potential problems for short-haulers. Test data show that a high percentage of bookings were made by vessels sailing from a port approximately one day away from the Panama Canal. In summary, the key elements required to book a vessel are efficient operations and advance planning on the part of Canal users, and there is no apparent discrimination by location, nationality, or vessel type.

The booking system rules contain a general provision that the Commission may suspend or discontinue the system, in whole or in part, if necessary for the safe or efficient operation of the Canal. The Marine Director's notice to shipping concerning specific details of the system provides that the Commission may suspend acceptance of booking whenever the backlog of waiting ships exceeds ninety vessels. Comments received were almost evenly divided between those who preferred no suspension of the system at ninety vessels and those that agreed with that determination. The rule, however, was incorporated into the system as a safeguard against unforeseen circumstances.

Many comments were made concerning the number of bookings and their allocation between large and small vessels. The comments indicated overall satisfaction with the allocation proposed. There is also ample reason for limiting the number of daily booking openings to a maximum of 10 because it helps maintain, within an acceptable range, the differences in Canal water time between participants and nonparticipants in the system.

Other comments from interested parties showed substantial agreement with the $1,500 minimum booking fee and with the length and number of the time periods during which a vessel could be booked for transit. Additional comments concerning the midnight arrival requirement and the substitution of one booked vessel for another were previously addressed in the interim rule for January 21, 1982 (47 FR 2091).

Favorable comments submitted during and subsequent to the test indicate that the system enhanced customer satisfaction by helping those operators who need expeditious transit the most, without causing undue delay on others. Advantages commonly cited by operators were the ability to maintain reliable schedules, to reduce the investment in the fleet, to minimize fuel consumption, and to compete favorably with landbridges and other alternatives which have grown in importance over the last few years.

The Commission has determined previously that this is not a major rule as defined under Section 1(b) of Executive Order 12291, dated February 17, 1981. Furthermore, the Regulatory Flexibility Act is inapplicable since this rule concerns a Commission service and the rates to be charged for such service (5 U.S.C. 601(2)).

The information collection requirement contained in this rule (i.e., the form which is required to be completed to request a booking under § 103.8(c), or to request a cancellation under § 103.8(g)) has been reviewed by the Office of Management and Budget under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511) and has been assigned OMB Control Number 3207–0001.

List of Subjects in 35 CFR Part 103

Panama Canal, Vessels, Order of transit, Advance reservations, Booking system.

Accordingly, for the reasons set forth above, the interim rule of January 21, 1982 (47 FR 2091) concerning the order of passage of vessels through the Panama Canal is revoked and Part 103 of Title 35, Code of Federal Regulations, is amended as follows:

PART 103—GENERAL PROVISIONS GOVERNING VESSELS

1. The authority citation for Part 103 is revised to read as follows:

Authority: Section 1601 of Public Law 96–70, 93 Stat. 492; E.O. 12173, 44 FR 69271; E.O. 12215, 45 FR 36043.

2. Section 103.8 is revised to read as follows:

§ 103.8 Preference in the transit schedule; order of transiting vessels.

(a) *General.* Except as provided in § 103.9 of this part, and subject to the limitations imposed by Article III of the 1901 Treaty to Facilitate the Construction of a Ship Canal, entered into by the United States and Great Britain, and by Articles II and VI of the 1977 Treaty Concerning the Permanent

Neutrality and Operation of the Panama Canal, between the United States and the Republic of Panama, vessels arriving for transit of the Canal will be placed in the transit schedule in accordance with the rules in this section.

(b) *Definitions.* As used in this section:

(1) "Booked for transit" means that a vessel has been assigned a date on which it will be moved through the Panama Canal.

(2) "Regular transit" means the movement through the Canal of a vessel that has not been booked for transit.

(c) *Transit bookings.* There will be two periods during which bookings may be made for a given date. In the first period, a limited number of bookings (not to exceed seven) will be available between 21 days and 4 days prior to the date of intended transit. In the second period, an additional number of bookings (not to exceed nine), plus any first-period bookings not taken or any bookings which have been canceled, will be available on the third and second days prior to the date of transit. The Canal authorities may cease accepting requests for bookings during times of high traffic congestion at the Canal. If there is a loss in Canal capacity, the number of bookings available may be reduced. The specific order of transit will be determined by the Canal authorities. Except as provided herein, a vessel may not transit prior to the date for which it has been booked, unless the Canal authorities determine that an early transit would promote efficiency of the Canal and would not result in delay for any regular transits. In the event that a vessel transits prior to the date for which it is booked, the fee will be retained by the Commission. Substitution of booked transits will be permitted under conditions specified by the Canal authorities.

(d) *Preference.* If, on any day during the first period, or on either day of the second period, requests exceed the number of bookings remaining available, preference for the remaining bookings will be given in the following order:

(1) First, vessels carrying primarily perishable cargoes, in the order of frequency of transit during a specified period;

(2) Second, all other vessels in the order of frequency of transit during a specified period;

(3) If, under the procedure in the preceding two paragraphs, two or more vessels are found to have an equal number of transits, then preference will be given to the vessel having transited most recently.

(e) *Fees.* The fee for booking shall be $0.23 per Panama Canal Gross Ton. The minimum fee for any vessel is $1,500.

(f) *Penalties.* (1) When a vessel that is subject to transit restrictions (e.g., clear-cut; clear-cut daylight), has been booked for transit and does not arrive at a terminus of the Canal by midnight (2400 hours) of the day prior to the intended transit, the booking fee will be forfeited. Similarly, the fee will be forfeited if a booked vessel, that is not subject to such transit restrictions, does not arrive prior to noon (1200 hours) of the day of intended transit. In either case, upon arrival, the vessel will be placed in the regular transit schedule. This forfeiture will not occur if late arrival is due to *force majeure* or delay for humanitarian purposes. The booking fee will also be forfeited if the vessel arrives on time but cannot or, at the operator's election, does not, transit as scheduled when the agency is ready to proceed. In these latter cases, the Canal authorities shall have discretion to waive the forfeiture where it is established that the delay was due to external causes that the vessel operator could not reasonably have anticipated.

(2) Failure to provide complete and accurate information on the request form may result in rejection of the booking and forfeiture of the fee.

(3) If the vessel does not begin its transit on the day for which it has been booked due to a decision by the Canal authorities, its operator thereafter, at any time prior to the day that the vessel has subsequently been scheduled to make a delayed transit, may elect to receive a refund of the fee, in which case the vessel will be listed on the regular transit schedule. In the alternative, the operator may elect to have the Commission retain the fee, in which case the vessel will be transited on a preferred basis.

(4) When a vessel booked for transit is delayed by a decision of the Canal authorities, and that delay could result in the vessel's failure to arrive on time for a subsequent transit which was booked before the delay was encountered, the vessel's agent may, within 24 hours of completion of the delayed transit, request:

(i) Change of the second booking to another date (if bookings are available on the requested date); *or*

(ii) Cancellation of the second booking, without charge, and inclusion in the regular schedule.

(5) A vessel will be deemed to have transited the Canal on the day for which it has been booked if it arrives at the first set of locks prior to 2400 hours that day and its in-transit time (ITT) is 18 hours or less. In-transit time begins when the vessel enters the first set of locks at either terminus of the Canal, and ends when the vessel departs the last set of locks at the opposite terminus. The booking fee will be refunded whenever ITT, through no fault of the vessel, exceeds 18 hours.

(g) *Cancellation.* A transit that is booked may be canceled if notice of cancellation is received by the Canal authorities at least two days prior to the day of intended transit. A charge will be assessed for such cancellations, however, in accordance with the following schedule:

Date of cancellation	Cancellation charge (the greater of)
Over 15 days prior to transit	20 percent of booking fee or $500.
15 to 11 days prior to transit	40 percent of booking fee or $750.
10 to 7 days prior to transit	60 percent of booking fee or $1,000.
6 to 2 days prior to transit	80 percent of booking fee or $1,250.

Cancellation of bookings later than two days prior to the date of intended transit will be subject to the forfeiture rule stated in paragraph (f)(1) of this section.

(h) *Regular transits.* Vessels which are not booked for transit will be dispatched through the Canal in the order determined by the Canal authorities. Priority of arrival at a terminal port does not give a vessel the right to pass through the Canal ahead of another that may arrive later; however, the time of arrival will be a consideration in fixing the order of passage. Generally, regular transits will equal or exceed one-half of the total number of vessels moved through the Canal on any given day.

(i) *Suspension.* The Canal authorities may suspend or discontinue, in whole or in part, the transit booking system established by this section if they determine that its continuation may adversely affect the safe or efficient operation of the Canal.

Dated: March 1, 1983.

Michael Rhode, Jr.,

Secretary.

[FR Doc. 83-5981 Filed 3-3-83; 8:45 am]

BILLING CODE 3640-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL 2303-4]

Approval and Promulgation of Implementation Plans; Michigan

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: EPA announces final rulemaking on revisions to the Michigan State Implementation Plan (SIP). These revisions approve Consent Orders No. 03–1982 and 13–1982 for the General Motors (GM) Corporation, Hydra-Matic Division, and the Diamond Crystal Salt Company, respectively. These Consent Orders consist of detailed compliance schedules containing increments of progress dates for reducing particulate emissions which will help provide for attainment of the total suspended particulate [TSP] national ambient air quality standards (NAAQS) by December 31, 1982.

EFFECTIVE DATE: This action will be effective May 3, 1983, unless notice is received within 30 days that someone wishes to submit adverse or critical comments.

ADDRESSES: Copies of these revisions to the Michigan SIP are available for inspection at: The Office of the Federal Register, 1100 L Street, NW., Room 8401, Washington, D.C. 20408.

Copies of the SIP revisions and other materials relating to this rulemaking are available for inspection at the following addresses:

Air Programs Branch, Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

Michigan Department of Natural Resources, Air Quality Division, State Secondary Government Complex, General Office Building, 7150 Harris Drive, Lansing, Michigan 48910.

Written comments should be sent to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Toni Lesser, Regulatory Analysis Section, Air Programs Branch, Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886–6037.

SUPPLEMENTARY INFORMATION: On September 8, 1982 and September 21, 1982, the Michigan Department of Natural Resources (MDNR) submitted Consent Orders for the Hydra-Matic Division, GM Corporation (No. 03–1982), and the Diamond Crystal Salt Company (No. 13–1982) as revisions to the Michigan SIP. These Consent Orders were issued to comply with Michigan's Rule 336.331 which requires Boiler No. 5 of each plant to meet a particulate emission limit of 0.30 pound by December 31, 1982.

The Hydra-Matic Division, GM Corporation, is located in Ypsilanti Township, Washtenaw County, which is designated attainment for the NAAQS for TSP. Consent Order No. 03–1982, submitted to EPA on September 8, 1982, requires the installation of air pollution control devices to be used to control the particulate emissions from the company's Boiler No. 5. The device should meet a limit of no more than 0.30 pound of particulate matter per 1,000 pounds of exhaust gases corrected to 50 percent excess air. The Consent Order provides a compliance schedule containing increments of progress dates and a final compliance date of November 1, 1982. At this time, Boiler No. 5 is believed to be meeting the 0.30 pound mass limit.

The Diamond Crystal Salt Company is located in the City of St. Clair, County of St. Clair, which is designated attainment for TSP except for a portion of Port Huron which is designated nonattainment for the secondary NAAQS for TSP. Consent Order No. 13–1982, submitted to EPA on September 21, 1982, stipulates that a device be installed to control particulate emissions from the company's Boiler No. 5. The device should meet a limit of no more than 0.30 pound of particulate matter per 1,000 pounds of exhaust gases corrected to 50 percent excess air. The Consent Order provides a compliance schedule containing increments of progress dates and a final compliance date of December 18, 1982. To reduce particulate emissions from Boiler No. 5, the company has upgraded its existing multiclone by installing a sidestream separator with a baghouse. The baghouse is designed to cut emissions down from about 0.60 pound to under 0.30 pound mass limit. At this time Boiler No. 5 is believed to be meeting the 0.30 pound mass limit.

EPA has reviewed Consent Order No. 03–1982 for the Hydra-Matic Division, GM Corporation, and Consent Order No. 13–1982 for the Diamond Crystal Salt Company, and believes that each source has complied with the provisions of its Consent Order.

These Consent Orders will contribute to the maintenance of air quality in Washtenaw County and St. Clair County.

Because EPA considers today's action noncontroversial and routine, we are approving it today without prior proposal. The action will become effective on May 3, 1983. However, if we receive notice by 30 days from the date of this notice that someone wishes to submit critical comments, *then* EPA will publish: (1) A notice that withdraws the action, and (2) a notice that begins a new rulemaking by proposing the action and establishing a comment period.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under 5 U.S.C. 605(b), I certify that SIP approvals do not have a significant economic impact on a substantial number of small entities.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by 60 days from today. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxides, Lead, Particulate matter, Carbon monoxide, Hydrocarbons, Intergovernmental relations.

Note.—Incorporation by reference of the State Implementation Plan for the State of Indiana was approved by the Director of the Federal Register on July 1, 1982.

This notice is issued under authority of Sections 110 of the Clean Air Act, as amended (42 U.S.C. 7410).

Dated: February 25, 1983.

Anne M. Burford,

Administrator.

Part 52 of Chapter I, Title 40 Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Subpart X—Michigan

Section 52.1170 is amended by adding paragraphs (c)(63) and (c)(64) as follows:

§ 52.1170 Identification of plan.

* * * * *

(c) * * *

(63) On September 8, 1982, the State of Michigan submitted as a SIP revision Consent Order No. 03–1982, between the Hydra-Matic Division, General Motors Corporation and the Michigan Air Pollution Control Commission. The Consent Order establishes a compliance

schedule containing increments of progress dates and a final date of November 1, 1982 for Boiler No. 5 to comply with Michigan's R336.331.

(64) On September 21, 1982, the State of Michigan submitted as a SIP revision Consent Order No. 13–1982, between the Diamond Crystal Salt and the Michigan Air Pollution Control Commission. the Consent Order establishes a compliance schedule containing increments of progress dates and a final date of December 18, 1982 for Boiler No. 5 to comply with Michigan's R336.331.

BILLING CODE 6560-50-M

---

40 CFR Part 52

[A-3 FRL 2285-5]

Approval of Revision to Virginia State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: EPA is approving a revision to the Virginia State Implementation Plan which incorporates an alternate control program (bubble) for J. W. Fergusson and Sons, Inc. The alternate control program will result in substantially reduced volatile organic compound (VOC) emissions from J. W. Fergusson's Castlewood Road Printing Plant located in Richmond, Virginia. EPA approves this revision since it meets the requirements of section 110(a)(2) of the Clean Air Act and of 40 CFR Part 51.

EFFECTIVE DATE: This action will be effective on May 3, 1983 unless notice is received within 30 days that someone wishes to submit adverse or critical comments.

ADDRESSES: Written comments should be addressed to Mr. James E. Sydnor of EPA Region III's Air Programs and Energy Branch [address below]. Copies of the SIP revision and accompanying support documents are available for public inspection during normal business hours at the following locations:

U.S. Environmental Protection Agency, Region III, Air Programs and Energy , Branch, Curtis Building, Sixth and Walnut Streets, Philadelphia, PA 19106, ATTN: Mr. Raymond D. Chalmers

The Office of the Federal Register, 1100 L Street, NW., Rm. 8401, Washington, D.C. 20400

Virginia State Air Pollution Control Board, Room 801, Ninth Street Office Building, Richmond, Virginia 23219, ATTN: Mr. John M. Daniel, Jr.

Public Information Reference Unit, EPA Library, Room 2922, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460

FOR FURTHER INFORMATION CONTACT: Mr. Raymond D. Chalmers at the Region III address stated above or call 215/597–8309.

SUPPLEMENTARY INFORMATION: The Commonwealth of Virginia requested, on August 19, 1982, that EPA approve a revision to the Virginia State Implementation Plan (SIP) pertaining to J. W. Fergusson & Son's rotogravure printing plant in Richmond, Virginia. The revision incorporates into the SIP an alternative emission control program (bubble) which Virginia and J. W. Fergusson have agreed upon. Under the alternate control program J. W. Fergusson agrees to maintain its plant's total volatile organic compound (VOC) emissions at a level substantially below that permitted by the State's SIP.

J. W. Fergusson's Castlewood Road Printing Plant presently has five installed presses. The Virginia SIP sets the allowable emissions for these five presses at 463 tons of VOC per year. The Company, in the alternate control program, agrees to maintain VOC emissions from the five presses at or below 187 tons per year. The Company will accomplish this by controlling emissions from its plant's four largest presses to 157 tons per year or less using a vapor recovery system. Virginia agrees to allow the Company to operate the fifth press with the only limitation on its emissions being that it cannot operate more than 8 hours per day. This press will emit no more than 30 tons per year under this limitation.

EPA believes this SIP revision will result in substantial environmental benefit. EPA has reviewed the revision and has determined that it meets the requirements of section 110(a)(2) of the Clean Air Act and of 40 CFR Part 51. In addition, EPA has determined that the alternative emission reduction plan was developed in accordance with EPA's Emissions Trading Statement Policy of April 7, 1982 (47 FR 15076). Accordingly, EPA approves the revision. EPA is revising 40 CFR 52.2420 as indicated below to incorporate this revision into the Virginia SIP. The public is advised that this action will be effective 60 days from the publication date of this notice. However, if EPA receives notice within 30 days that someone wishes to submit adverse or critical comments, EPA will withdraw this action and will publish subsequent notices before the effective date. One notice will withdraw the final action and another will begin a new rulemaking by announcing a proposal of the action and establishing a comment period.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291. Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by 60 days from today. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)). Under 5 U.S.C. 605(b), the Administrator has certified that SIP approvals do not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709.)

BILLING CODE 6560-50-M

---

40 CFR Part 52

[Docket No. 5; A–2–FRL 2306–5]

Revision to Virgin Islands Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This notice announces approval by the Environmental Protection Agency (EPA) of a request

from the Virgin Islands to revise its implementation plan. This action has the effect of allowing Martin Marietta Alumina (MMA) and Hess Oil Virgin Islands Corporation (HOVIC), located on the Island of Saint Croix, to continue using fuel oil with a maximum sulfur content of 1.5 percent, by weight. The current sulfur content limitation contained in the Virgin Island's regulations is 0.50 percent, by weight. However, MMA and HOVIC have been permitted to burn 1.5 percent sulfur content fuel oil under a variance which has been in effect since May 1980.

Under the provisions of the Virgin Islands' submittal, the use of the higher sulfur content fuel oil will be permitted to continue for up to one year from the date of today's notice. Receipt of this implementation plan revision request from the Virgin Islands was announced in the **Federal Register** on November 22, 1982 at 47 FR 52472, where its provisions are fully described.

EFFECTIVE DATE: March 4, 1983.

ADDRESSES: Copies of the Virgin Islands submittal are available for inspection during normal business hours at the following locations:

Environmental Protection Agency, Air Programs Branch, Room 1005, Region II Office, 26 Federal Plaza, New York, New York 10278

Environmental Protection Agency, Public Information Reference Unit, 401 M Street, SW., Washington, D.C. 20460

Office of the Federal Register, 1101 L Street, NW., Room 8401, Washington, D.C. 20408

Government of the Virgin Islands of the United States, Department of Conservation and Cultural Affairs, Office of the Commissioner, Charlotte Amalie, St. Thomas, Virginia Islands 0081

FOR FURTHER INFORMATION CONTACT: William S. Baker, Chief, Air Programs Branch, Environmental Protection Acency, Region II Office, 26 Federal Plaza, New York, New York 10278 (212) 264–2517.

SUPPLEMENTARY INFORMATION: On Septemer 13, 1982 the Commissioner of the Virgin Islands Department of Conservation and Cultural Affairs submitted to the Environmental Protection Agency (EPA) a request to revise its implementation plan for attaining and maintaining national ambient air quality standards. The proposed revision dealt with an administrative order which would allow Martin Marietta Alumina (MMA) and Hess Oil Virgin Islands Corporation (HOVIC) to continue using fuel oil with a sulfur content of 1.5 percent, by weight, at certain of their fuel burning sources.

Both MMA and HOVIC are located in the Southern Industrial Complex on the Island of Saint Croix. Sources in this location currently are required by regulation to burn fuel oil with a maximum sulfur content of 0.50 percent, by weight. However, the regulation provides for a variance to this limit if the applicant can demonstrate that the use of a higher sulfur content fuel oil will not interfere with attainment and maintenance of national ambient air quality standards. Based on an application made in February 1980 and approved by EPA on May 2, 1980 (45 FR 29293), and a second application in April of 1981 which was approved by EPA on September 3, 1981 (46 FR 44188) MMA and HOVIC have been permitted to burn 1.5 percent sulfur content fuel. The proposed revision will continue this variance and remain in effect for up to one year from March 4, 1983.

A notice of proposed rulemaking on this action was published in the **Federal Register** on November 22, 1982 (47 FR 52472). The reader is referred to this November 22 notice for a detailed description of the Virgin Islands revision request. In its November 22 notice EPA advised the public that comments would be accepted as to whether the proposed revision to the Virgin Islands implementation plan should be approved or disapproved. During the comment period, which ended on December 22, 1982, EPA received no comments.

In an effort to expedite the processing of this SIP revision EPA used a review procedure known as "parallel processing." Under this procedure EPA proposed its action essentially at the same time as the action was proposed by the Virgin Islands. As described in EPA's notice of proposed rulemaking, approval of this request was contingent upon the Virgin Islands finally adopting its proposal in a substantially unchanged form. On January 12, 1983 the Virgin Islands submitted to EPA for final approval its "administrative order" affecting MMA and HOVIC in a form identical to that originally submitted to EPA on September 13, 1982.

Based on EPA review of the Virgin Islands submittal, EPA has concluded that no violations of national ambient air quality standards or any applicable Prevention of Significant Deterioration increment will occur as a result of the use of higher sulfur content oil at MMA and HOVIC. Therefore, the revision meets the requirements of section 110 of the Clean Air Act, including section 110(a)(2)(E), and is approved.

This action is being made immediately effective because it imposes no hardship on the affected sources, and no purpose would be served by delaying its effective date.

Under section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within sixty days of today. Under section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

Pursuant to the provsion of 5 U.S.C. 605(b) the Administrator has certified that SIP approvals under section 110 of the Clean Air Act will not have a significant economic impact on a substantial number of small entities (46 FR 8709, January 27, 1981) the attached rule constitutes a SIP approval under section 110 within the terms of the January 27 certification. This action only approves an action by the Virgin Islands Government. It imposes no new requirements. In addition, this action applies to only two sources.

The Office of Management and Budget (OMB) has exempted this regulation from the OMB requirements of Executive Order 12291.

List of Subjects in 40 CFR Part 52

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, Hydrocarbons, Intergovernmental relations.

(Secs. 110 and 301, Clean Air Act, as amended (42 U.S.C. 7410 and 7601))

Dated: February 25, 1983.

Anne M. Burford,

Administrator, Environmental Protection Agency.

Note.—Incorporation by reference of the Implementation Plan for the Virgin Islands was approved by the Director of the Federal Register on July 1, 1982.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Title 40, Chapter I, Subchapter C, Part 52, Code of Federal Regulations is amended as follows:

Subpart CCC—Virgin Islands

Section 52.2770 is amended by adding new paragraph (c)(13) as follows:

§ 52.2770 Identification of plan.

* * * * *

(c) * * *

(13) Revision submitted on January 12, 1983 by the Commissioner of the Department of Conservation and Cultural Affairs of the Government of the Virgin Islands of the United States which grants an "administrative order" under Title 12 V.I.C. section 211 and Title 12 V.I.R.&R. sections 204–26(d). This "administrative order" relaxes, until one year from the date of EPA approval, the sulfur-in-fuel-oil limitation to 1.5 percent, by weight, applicable to Martin Marietta Alumina and the Hess Oil Virgin Islands Corporation, both located in the Southern Industrial Complex on the Island of Saint Croix.

[FR Doc. 83–5587 Filed 3–3–83; 8:45 am]

40 CFR Part 81

[A–5–FRL 2308–4]

Designations of Areas for Air Quality Planning Process; Attainment Status Designations; Ohio

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: This rulemaking revises the Total Suspended Particulate (TSP) designation for portions of Hamilton County from nonattainment to attainment of National Ambient Air Quality Standards (NAAQS). This revision is based on a request from the State of Ohio to redesignate this area and on the supporting data the State submitted. Under the Clean Air Act, designations can be changed if sufficient data are available to warrant a change.

EFFECTIVE DATE: This action will be effective May 3, 1983, unless notice is received within 30 days that someone wishes to submit adverse or critical comments.

ADDRESSES: Copies of the redesignation request, technical support documents and the supporting air quality data are available at the following addresses:

Environmental Protection Agency, Air Programs Branch, Region V, 230 South Dearborn Street, Chicago, Illinois 60604

Environmental Protection Agency, Public Information Reference Unit, 401 M Street, SW., Washington, D.C. 20460

Ohio Environmental Protection Agency, Office of Air Pollution Control, 361 East Broad Street, Columbus, Ohio 43216.

Written comments should be sent to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, Region V, Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Debra Marcantonio, Air Programs Branch, Region V, Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604 (312) 886–6088.

SUPPLEMENTARY INFORMATION: Under Section 107(d) of the Act, the Administrator of EPA has promulgated the NAAQS attainment status for each area of every State. See 43 FR 8962 (March 3, 1978) and 43 FR 45993 (October 5, 1978). These area designations may be revised whenever available data warrant a change.

According to EPA's policy, Section 107 designation changes for TSP should utilize all available data, including both modeling and monitoring data. The monitoring data must show:

(1) Eight consecutive quarters of recent, representative ambient air quality data with no violations of the appropriate NAAQS, or

(2) Four consecutive quarters of the most recent, representative ambient air quality data with both (a) no violation of the appropriate NAAQS and (b) an air quality improvement that results from legally enforceable emission reductions.

When modeling information is available it should be used to demonstrate the representativeness of the monitoring data, as well as support the revised designation. The primary TSP NAAQS is violated when, in a year, either: (1) The geometric mean value of TSP concentration exceeds 75 micrograms per cubic meter of air (75 $\mu g/m^3$ (the annual primary standard), or (2) the second-high 24-hour concentration of TSP exceeds 260 $\mu g/m^3$ (the 24-hour primary standard). The 24-hour secondary TSP NAAQS is violated when, in a year, the second-high 24-hour concentration of TSP exceeds 150 $\mu g/m^3$.

On March 3, 1978 (43 FR 8962), EPA designated Hamilton County as follows for TSP:

Primary Nonattainment—Area bounded on the east by I–71, on the south by the Ohio River, on the west by the Cincinnati city limits, and on the north by the north/west boundaries of the Cities of Cincinnati, Lockland, Lincoln Heights, Evendale, and Blue Ash.

Attainment—Area #1: Area located both south and east of US 50, and north and east of SR 125,

Area #2: Cities of Forest Park, Greenhills, Mt. Healthy, N. College Hill, Wyoming, Woodlawn Glendale, Springdale, Sharonville, and Loveland; and the Townships of Colerain, Springfield, Sycamore, and Symmes.

Secondary Nonattainment—Remainder of the County.

On November 4, 1982, the Ohio EPA requested that EPA revise the TSP designation of Hamilton County as follows:

Primary Nonattainment—Area bounded on the east by US 42, on the south by the Ohio River, on the west by Anderson Ferry Road north to US 52, US 52 east to North Bend Road, and on the north by North Bend Road east to SR 747, SR 747 north to SR 126, and SR 126 east to US 42.

Attainment—Remainder of County.

To support the redesignation request, the Ohio EPA submitted quality assured monitoring data summaries for 1980 and 1981 and raw data for January-August 1982. During this period, violations have only been measured at the monitors located in the area Ohio requests to maintain as nonattainment. The data from the sites located in the requested attainment areas, including several sites located just outside the proposed primary nonattainment area show no violations of either the primary or the secondary standard. Therefore, the monitoring data support the Ohio EPA's request to redesignate portions of Hamilton County to attainment for TSP.

To further verify that the monitoring data are representative, EPA also considered a county-wide TSP modeling analysis (performed by the State as part of their Part D Total Suspended Particulate SIP) and a previous EPA site-specific modeling analysis for the Cincinnati Gas and Electric Miami Fort plant (the dominant source in the southwest portion of the county). The two modeling analyses demonstrate the representativeness of the monitors and support the proposed redesignation.

EPA's review of the submitted TSP monitoring data, and the available modeling information support the Ohio EPA's request for redesignating portions for Hamilton County to attainment for TSP. Therefore, EPA is redesignating Hamilton County as requested by the Ohio EPA.

Because EPA considers today's action noncontroversial and routine, we are approving it today without prior proposal. The action will become effective on May 3, 1983. However, if we receive notice by 30 days from the date of this notice that someone wishes to submit critical comments, then EPA will publish: (1) A notice that withdraws the action, and (2) a notice that begins a new rulemaking by proposing the action and establishing a comment period.

The Office of Management and Budget has exempted this rule from the

requirements of section 3 of Executive Order 12291.

Under 5 U.S.C. 605(b), the Administrator has certified that redesignations do not have a significant economic impact on a substantial number of small entities (See 46 FR 5709).

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by 60 days from today. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

BILLING CODE 6560-50-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Part 4700

[Circular No. 2522]

Wild Free-Roaming Horse and Burro Protection, Management and Control; Amendment To Provide a Fee for Adoption

AGENCY: Bureau of Land Management, Interior.

ACTION: Final rulemaking.

SUMMARY: This final rulemaking establishes fee levels for the adoption of wild free-roaming horses or burros, and requires that a portion of the fee accompany each application filed by the person wishing to take custody of a horse or burro, and that the applicant pay the cost of transportation to the point of pick up. It also requires the applicant to sign a cooperative agreement for the maintenance and protection of adopted animals.

EFFECTIVE DATE: March 4, 1983.

ADDRESS: Any inquiries or suggestions should be sent to: Director (250), Bureau of Land Management, 1800 C Street, NW., Washington, D.C. 20240.

SUPPLEMENTARY INFORMATION: A proposed rulemaking on adoption fees for wild free-roaming horses and burros was published in the **Federal Register** on July 26, 1982 (47 FR 32408), with a 60-day comment period. A total of 199 comments were received during the comment period, with 152 from individuals, 11 from representatives of associations organized to protect wild horses and burros, 9 from representatives of humane societies and other animal welfare associations, 4 from wildlife associations, 4 from agricultural and grazing associations, 2 from environmental groups, 8 from State governments, 2 from ranch or ranch-related companies, 3 from representatives of State-Federal cooperative extension services, 2 from members of Coordinated Resource Management Planning Committees in Nevada, one from a United States Senator, and one from a private attorney. Several of the commenters represented more than one type of organization, so the sum of the classes of comments does not equal the total number of comments.

None of the commenters objected to the idea of adoption fees. However, opposition to the proposed fee level for horses was expressed in 84 percent of the comments, primarily because the writers believed the proposed fee for horses would reduce the number of animals adopted, limit removal of excess wild horses from the public lands, make it difficult for fixed or lower income individuals to adopt animals, equal or exceed the local market value of domestic horses, lead to destruction of healthy animals, and increase adoption program costs. On the other hand, 10 percent of the responses indicated support for this fee. The reasons for support most frequently expressed were that it would increase both the cost-effectiveness of the program and the possibility of humane treatment for adopted animals, would have no effect on adoption demand, and would allocate program costs to those who benefit from the program.

The proposed $25 nonrefundable advance payment was addressed in 112 comments, with 89 opposing the advance payment. Five of the opponents supported a lower payment of from $2 to $15 per application. Twenty-three comments supported the proposed advance payment, primarily because it would discourage individuals who are not serious about adopting from filing applications.

The comments will be dealt with in more detail in the following section-by-section discussion of the proposed and final regulations.

Section 4740.4–3(d)(1). A total of 54 commenters suggested modifications of the amount of the custodial fee charged for the adoption of wild horses and burros. Twenty others supported the proposed custodial fees for horses and burros. Of those suggesting modifications, most favored reductions to fees ranging from $25 to $155 for horses and from $35 to less than $100, including transportation, for burros. Three comments suggested setting the fee to ensure full cost recovery. Several others suggested sliding scales or other flexible fees.

Based upon the comments, the purpose of the fees, and our analysis of the costs of the program, we have

concluded that a non-varying custodial fee of $125 plus transportation costs is appropriate for the adoption of wild horses, and that the proposed fee of $75 plus transportation costs is appropriate for burros. These fee levels will permit an increase in the number of horses adopted, continued recovery of a portion of the Federal costs of the program from those directly benefiting, and a reduction in the cost of maintaining animals awaiting adoption. The analysis showed that the number of burros adopted was not reduced by the establishment of the $75 fee on January 1, 1982.

While no comments opposed the imposition of a fee to cover transportation costs, several suggested reducing the charge to various levels considerably less than actual costs. One suggested setting a uniform transportation fee of no more than $50, regardless of destination. These suggestions have been considered but not determined feasible. Transportation is provided as a service only to adopters who do not choose to pick up animals at a holding facility near the point of capture. It would not be fair to charge adopters living nearby a transport fee, thus making them subsidize those whose actual costs would be greater than the fee charged. Transporting the animals in bulk to an eastern or midwestern adoption center reduces the costs to adopters in those regions below what they would incur if they themselves transported individual animals from, and their equipment to and from, a western holding facility.

No comments addressed the exception from custodial fees for unweaned offspring under 6 months of age accompanying the mothers. No commenters mentioned unweaned orphan foals, as distinguished from unweaned foals accompanied by mares or jennies and although it is considered unnecessary to mention them in the regulations, they are also not subject to custodial fees because of the special and expensive care that must be provided them. Few such unweaned orphans have been found in the wild horse and burro program.

Accordingly, § 4740.4–3(d)(1) has been adopted in the final rulemaking as proposed, except that the custodial fee for horses has been changed from $200 to $125.

Section 4740.4–3(d)(2). There were no comments on the proposed section, which did not change from the existing § 4740.4–2(d) except in punctuation, format and numbering. The proposed section has been adopted in the final rulemaking.

Section 4740.4–2. This proposed new section, which requires an application for adoption of a horse or burro to be accompanied by a nonrefundable advance payment of $25, attracted many comments. Of those who opposed the advance payment provision, all but two stated no reason. These two comments stated respectively that the cost of processing the advance payment check would be greater than the amount collected, and that no one would apply if the advance payment were required. Other comments suggested modifying the advance fee provision. Some suggested making it refundable in cases where applications are rejected; others suggested making it one-third of the custodial fee for the animal; still others suggested lowering the fee.

The $25 advance payment is necessary to discourage frivolous applications from individuals who are not prepared to adopt animals or who are not seriously interested in doing so. Reducing the number of noncommitted applicants will reduce the administrative costs both of processing such applications and of notifying those applicants of available animals. The required payment will reduce the number of "no-shows" at adoption centers, remind individuals of the serious commitment they are making by adopting an animal, and encourage them to evaluate more carefully their desire and ability to care for and maintain an animal before applying.

After careful consideration, the $25 advance payment provision has been adopted in the final rulemaking, and required to be made by guaranteed remittance (money order, certified check, cashier's check, etc.) to avoid unnecessary costs of processing applications with checks made on insufficient funds or on which payment has been stopped.

Language has also been added to the final rulemaking allowing individuals with applications on file at the time of this final rulemaking to maintain their applications by submitting the $25 advance payment within 30 days.

The Secretary has found that the public interest requires this final rulemaking to be made effective immediately. Because it reduces the custodial fee for the adoption of wild horses, setting the effective date of the final rulemaking the customary 30 days after publication would discourage adoptions during that 30-day interval. This would require the Bureau of Land Management to maintain unadopted horses for an additional 30 days at approximately $2500 per day, based on the number of animals now on hand. Postponing the effective date would harm the public by causing them to delay their acquisition of horses. In addition, because the Bureau intends to refund the difference between the amounts paid before the effective date of this rulemaking and the custodial fee for adoption set by this rulemaking, making the effective date 30 days from publication would add to the costs of the program by requiring the Bureau to collect the larger fee even though in 30 days it would have to refund a portion of it.

The principal author of this final rulemaking is John S. Boyles, Division of Wild Horses and Burros, assisted by the staff of the Office of Legislation and Regulatory Management.

It has been determined that this final rulemaking is not a major Federal action having a significant effect on the quality of the human environment and that no detailed statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) is required.

The Department of the Interior has determined that this document is not a major rule under Executive Order 12291 and will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

This rulemaking sets a fee for the adoption of wild free-roaming horses and burros, uniform for everyone wishing to adopt, and has no different impact on small entities than on individuals or large entities.

The information collection requirements contained in this rule have been approved by the Office of Management and Budget under 44 U.S.C. 3501 et seq. and assigned clearance number 1004–0042.

List of Subjects in 43 CFR Part 4700

Advisory committees, Aircraft, Intergovernmental relations, Penalties, Public lands, Range management, Wild horses and burros, Wildlife.

Under the authority of the Act of December 15, 1971, as amended (16 U.S.C. 1331–1340), the Act of June 28, 1934 (43 U.S.C. 315–315r) and the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.), Part 4700, Group 4700, Subchapter D, Chapter II of Title 43 of the Code of Federal

Regulation is amended as set forth below.

David G. Houston,
Acting Assistant Secretary of the Interior.
January 11, 1983.

PART 4700—[AMENDED]

1. Part 4700 is amended by adding immediately after the heading the note:

Note.—The information collection requirements of 43 CFR Part 4700 have been approved by the Office of Management and Budget under 44 U.S.C. 3501 et seq. and assigned clearance numbers 1004–0042 and 1004–0046. The information will be used to determine whether applicants for adoption and taking title to wild free-roaming horses and burros should be given custody of or title to such animals. The obligation to respond is required to obtain a benefit.

2. Section 4740.4–2 is renumbered § 4740.4–3 and is amended by revising paragraph (d) to read:

§ 4740.4–3 [Amended]

* * * * *

(d) Before wild free-roaming horses or burros are transferred, the applicant shall:

(1) Pay a custodial fee of $125 for each horse and $75 for each burro, except there shall be no custodial fee for an unweaned offspring under 6 months of age accompanying its mother, plus any transportation costs incurred for the transportation of the animals to the point of pickup; and

(2) Sign a cooperative agreement that incorporates provisions for custodial maintenance, including, but not limited to, provisions for proper maintenance of the animals and protection from inhumane treatment and commercial exploitation.

3. A new § 4740.4–2 is added to read:

§ 4740.4–2 Applications.

Any qualified person, organization or government agency wishing to take custody of a wild free-roaming horse or burro shall file an application with the Denver Service Center of the Bureau of Land Management. The application shall be filed on a form approved by the Director, Bureau of Land Management, and shall be accompanied by a nonrefundable advance payment of $25 by guaranteed remittance. In order to maintain an application filed with the Bureau before the effective date of this section, the applicant shall submit an advance payment of $25 by guaranteed remittance no later than 30 days after the effective date of this section. If custody of a wild free-roaming horse or burro is granted by the authorized officer, the advance payment shall be applied against the custodial fee required to be paid at the time the cooperative agreement required by § 4740.4–3 of this title is executed.

43 CFR Public Land Order 6356

[M 10562 (SD)]

South Dakota; Revocation of Presidential Proclamation Dated February 2, 1925

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a Presidential proclamation which established a 20,613.20-acre game refuge in Harding County, South Dakota. Three hundred twenty acres, including its mineral estate, will be transferred to the State of South Dakota; 5,974.29 acres of national forest land will be opened to appropriate forms of surface disposition and mining; 80 acres of national forest lands will remain withdrawn as a recreation area; and the reserved mineral interest in 1,385 acres of land will be opened to mining. This order has only a record clearing effect on the remaining land which has passed into private ownership.

EFFECTIVE DATE: March 4, 1983.

FOR FURTHER INFORMATION CONTACT: Roland F. Lee, Montana State Office 406–657–6633.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Presidential Proclamation of February 2, 1925, which withdrew public lands in the following described area in South Dakota, partly within the Custer National Forest, for use as a game refuge, is hereby revoked in its entirety:

Black Hills Meridian

T. 18 N., R. 7 E.,
Secs. 13 to 36, inclusive.
T. 18 N., R. 8 E.,
Secs. 17 to 20, inclusive;
Sec. 21, W½;
Secs. 29 to 32, inclusive.

The areas described aggregate 20,613.20 acres of land in Harding County, including 7,067.32 acres within the boundary of the Custer National Forest.

2. Of the lands in paragraph 1, the following described lands including mineral interests have been approved for transfer to the State of South Dakota under the provisions of Revised Statutes 2275 and 2276, 43 U.S.C. 851, 852 (1976), and are hereby made available for that purpose:

Black Hills Meridian

T. 18 N., R. 7 E.,
Sec. 17, S½N½ and NW¼SW¼;
Sec. 19, NE¼NE¼;
Sec. 20, NW¼NW¼;
Sec. 22, SW¼NW¼.

The area described contains 320 acres in Harding County.

3. At 8 a.m. on April 13, 1983, the following described lands included in those listed in paragraph 1 will be open to such forms of disposition as may by law be made of national forest lands, including mineral location and entry under the United States mining laws, subject to valid existing rights and the requirements of applicable regulations:

Custer National Forest Black Hills Meridian

T. 18 N., R. 7 E.,
Sec. 24, S½N½ and S½;
Sec. 25 and 36, all.
T. 18 N., R. 8 E.,
Sec. 17, W½E½, SE¼NE¼, E½W½, SW¼NW¼, W½SW¼, and E½SE¼;
Sec. 18, NW¼NE¼, E½SW¼NE¼, E½NW¼ SW¼NE¼,SE¼NE¼, N½SE¼, and SE¼SE¼;
Sec. 19, lots 2, 3, and 4, NE¼NE¼; E½NW¼, and S½SE¼SE¼;
Sec. 20, E½, E½W½, SE¼SW¼NW¼, E½W½SW¼, and SW¼SW¼SW¼;
Sec. 21, W½;
Secs. 29 to 32 inclusive.

The areas described aggregate 5, 974.29 acres in Harding County.

An additional 80 acres of national forest lands described as the NW¼NW¼ of Section 17 and the NE¼NE¼ of Section 18, T. 18 N., R. 8 E., will remain segregated by virtue of Public Land Order No. 1429 as part of Reva Gap Camp.

4. Of the lands listed in paragraph 1 the reserved mineral interest in the following described lands shall at 8 a.m. on April 13, 1983, be open to location and entry under the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals and the requirements of applicable law.

Black Hills Meridian

T. 18 N., R., 7 E.,
Sec. 13, SE¼NW¼;
Sec. 14, W½E½, SE¼NW¼, NE¼SW¼, and NE¼SE¼;
Sec. 15, N½;
Sec. 17, NE¼SW¼ and N½SE¼;
Sec. 23, S½NE¼ and W½SE¼;
Sec. 24, N½NE¼;
Sec. 32, S½NE¼ and SE¼NW¼;
Sec. 33, SW¼NW¼ and NW¼SW¼.
T. 18 N., R. 8 E.,
Sec. 18, W½NW¼SW¼NE¼ and SW¼SW¼NE¼;
Sec. 19, SE¼SW¼, NE¼SE¼, SW¼SE¼, and N½SE¼SE¼;
Sec. 20, W½NW¼SW¼ and NW¼SW¼ SW¼.

The areas described aggregate 1,385 acres in Harding County.

5. The lands described in paragraph 1, except as provided in paragraphs 2 and 3, as well as the surface estate of the lands in paragraph 4, have been conveyed from United States ownership and will not be restored to operation of the public land laws including the mining laws.

6. The Federal mineral interests have been and continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107.

Dated: February 22, 1983.

Carrey E. Carruthers,

Assistant Secretary of the Interior.

[FR Doc. 83-6341 Filed 3-3-83; 8:45 am]

BILLING CODE 4310-84-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

List of Communities Eligible for the Sale of Insurance Under the National Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP) and eligible for second layer insurance coverage. These communities have applied to the program and have agreed to enact certain flood plain management measures. The communities' participation in the regular program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATES: The date listed in the fifth column of the table.

ADDRESS: Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Phone: (800) 638-6620.

FOR FURTHER INFORMATION CONTACT: Mr. Richard E. Sanderson, Chief, Natural Hazards Division, (202) 287-0270, 500 C Street Southwest, Donohoe Building, Room 505, Washington, DC 20472.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Since the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for property in the community.

In addition, the Director of the Federal Emergency Management Agency has identified the special flood hazard areas in some of these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. In the communities listed where a flood map has been published, Section 102 of the Flood Disaster Protection Act of 1973, as amended, requires the purchase of flood insurance as a condition of Federal or federally related financial assistance for acquisition or construction of buildings in the special flood hazard area shown on the map.

The Director finds that delayed effective dates would be contrary to the public interest. The Director also finds that notice and public procedure under 5 U.S.C 553(b) are impracticable and unnecessary.

The Catalog of Domestic Assistance Number for this program is 83.100 "Flood Insurance." This program is subject to procedures set out in OMB Circular A-95.

Pursuant to the provisions of 5 U.S.C. 605(b), the Associate Director, State and Local Programs and Support, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule, if promulgated will not have a significant economic impact on a substantial number of small entities. This rule provides routine legal notice stating the community's status in the NFIP and imposes no new requirements or regulations on participating communities.

List of Subjects in 44 CFR Part 64

Flood insurance, Flood plains.

Section 64.6 is amended by adding in alphabetical sequence new entries to the table.

In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 64.6 List of eligible communities.

State and county	Location	Community No.	Effective date of authorization of sale of flood insurance for area [1]	Hazard area identified
Louisiana: Tangipahoa Parish	Tangipahoa Parish [2]	220206	760418, emergency; 830202, regular	760117
Maryland: Kent County	Betterton, town of	240095	750515, emergency; 830202, regular	750124
Michigan:				
Calhoun County	Bedford, township of	260052	750630, emergency; 830202, regular	740816
Leelanau County	Elmwood, township of	260113	750702, emergency; 830202, regular	740820
Antrim County	Milton, township of	260037	750910, emergency; 830202, regular	770706
Oakland County	Waterford, charter township of	260264	740816, emergency; 830202, regular	740816
Missouri:				
Charlton County	Brunswick, city of	290074	751112, emergency; 830202, regular	740329
Clinton County	Plattsburg, city of	290106	750331, emergency; 830202, regular	740524
Mississippi: Rankin County	Richland, city of	280298	761109, emergency; 830202, regular	760428
New Jersey:				
Cape May County	Lower, township of	340153	740609, emergency; 830202, regular	740719
Sussex County	Sussex, borough of	340457	750715, emergency; 830202, regular	740814
New Mexico: Chaves County	Chaves County [3]	350126	830202, emergency; 830202, regular	760513
New York: Greene County	Hunter, town of	360292	761112, emergency; 830202, regular	760709
Ohio:				
Jefferson County	Brilliant, village of	390297	750613, emergency; 830202, regular	740106
Licking County	Pataskala, village of	390336	750305, emergency; 830202, regular	761006
Oklahoma: Grady County	Alex, town of	400093	760820, emergency; 830202, regular,	761126

44 CFR Part 65

[Docket No. FEMA 6495]

List of Withdrawal of Flood Insurance Maps Under the National Flood Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: This rule lists communities where Flood Insurance Rate Maps or Flood Hazard Boundary Maps published by the Director, Federal Emergency Management Agency, have been temporarily withdrawn for administrative or technical reason. During that period that the map is withdrawn, the insurance purchase requirement of the National Flood Insurance Program is suspended.

EFFECTIVE DATES: The date listed in the fifth column of the table.

FOR FURTHER INFORMATION CONTACT: Dr. Brian R. Mrazik, Acting Chief, Engineering Branch, National Flood Insurance Program, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 287–0237.

SUPPLEMENTARY INFORMATION: The list includes the date that each map was withdrawn, and the effective date of its republication, if it has been republished. If a flood-prone location is now being identified on another map, the community name for the effective map is shown.

The Flood Disaster Protection Act of 1973 (Pub. L. 93–234), as amended, requires, at Section 102, the purchase of flood insurance as a condition of Federal financial assistance if such assistance is:

(1) For acquisition and construction of buildings, and

(2) For buildings located in a special flood hazard area identified by the Director of Federal Emergency Management Agency.

The insurance purchase requirement with respect to a particular community may be altered by the issuance or withdrawal of the Federal Emergency Management Agency's (FEMA) official Flood Insurance Rate Map (FIRM) or the Flood Hazard Boundary Map (FHBM). A FHBM is usually designated by the letter "E" following the community number. If the FEMA withdraws a FHBM for any reason the insurance purchase requirement is suspended during the period of withdrawal. However, if the community is in the Regular Program and only the FIRM is withdrawn but a FHBM remains in effect, then flood insurance is still required for properties located in the identified special flood hazard areas shown on the FHBM, but the maximum amount of insurance available for new applications or renewal is first layer coverage under the Emergency Program, since the community's Regular Program status is suspended while the map is withdrawn. (For definitions see 44 CFR CFR Part 59 et seq.).

This rule provides routine legal notice of technical amendments made to designated special flood hazard areas on the basis of updated information and imposes no new requirements or regulations on participating communities. As the purpose of this revision is the convenience of the public, notice and public procedure are unnecessary, and cause exists to make this amendment effective upon publication.

Flood insurance, Flood plains.

PART 65—[AMENDED]

Pursuant to the provisions of 5 U.S.C. 605(b), the Associate Director, State and Local Programs and Support, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. Accordingly, Subchapter B of Chapter 1 of Title 44 of the Code of Federal Regulations is amended as follows:

1. Section 65.6 is revised to read as follows:

§ 65.6 Administrative withdrawal of maps.

(a) Flood Hazard Boundary Maps (FHBM's).

The following is a cumulative list of withdrawals pursuant to this Part:

40 FR 5140	41 FR 50990
40 FR 17015	41 FR 13362
40 FR 20798	41 FR 17720
40 FR 46102	42 FR 8805
40 FR 53578	42 FR 29433
40 FR 56672	42 FR 46226

Key to symbols

E The community is participating in the Emergency Program. It will remain in the Emergency Program without a FHBM.

R The community is participating in the Regular Program.

1. The Community appealed its flood-prone designation and FIA determined the Community would not be inundated by a flood having a one-percent chance of occurrence in any given year.

2. FIA determined the Community would not be inundated by a flood having a one-percent chance of occurrence in any given year.

3. The Flood Hazard Boundary Map (FHBM) contained printing errors or was improperly distributed. A new FHBM will be prepared and distributed.

4. The community lacked land-use authority over the special flood hazard area.

5. The FHBM does not accurately reflect the Community's special flood hazard areas (i.e., sheet flow flooding, extremely inaccurate map, etc.). A new FHBM will be prepared and distributed.

6. The Flood Insurance Rate Map was rescinded because of inaccurate flood elevations contained on the map.

7. The Flood Insurance Rate Map was rescinded in order to re-evaluate the mudslide hazard in this Community.

8. The T&E or H&E Map was rescinded.

9. A revision of the FHBM within a reasonable period of time was not possible. A new FHBM will be prepared and distributed.

10. Miscellaneous.

44 CFR Part 70

[Docket No. FEMA-5923]

Letter of Map Amendment for the City of Las Vegas, Nevada Under National Flood Insurance Program; Correction

AGENCY: Federal Emergency Management Agency.

ACTION: Final Rule, Map Correction.

SUMMARY: The Federal Emergency Management Agency (FEMA) published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the City of Las Vegas, Nevada. It has been determined by the Associate Director, State and Local Programs and Support, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Las Vegas, Nevada, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: March 4, 1983.

FOR FURTHER INFORMATION CONTACT: Dr. Brian R. Mrazik, Acting Chief, Engineering Branch, Natural Hazards Division, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 287–0230.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638–6620.

The map amendments listed below are in accordance with § 70.7(a):

Map No. 325276, Panel 0020B, published on October 21, 1980, in 45 FR 69451, indicates that any structures to be located on Charleston Heights Tract No. 51–F1, recorded as Instrument No. 793928, on January 13, 1978, in Book 21, page 28 of Plats, Official Records Book No. 834 of the Clark County, Nevada Records, are located within the Special Flood Hazard Area.

Map No. 325276, Panel 0020B is hereby corrected to reflect that any structures to be located on the above-mentioned property are not within the Special

Flood Hazard Area identified on October 21, 1980. Any structures built on the property will be located in Zone C.

Pursuant to the provisions of 5 U.S.C. 605(b), the Associate Director, State and Local Programs and Support, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule if promulgated will not have a significant economic impact on a substantial number of small entities. This rule provides routine legal notice of technical amendments made to designated Special Flood Hazard Areas on the basis of updated information and imposes no new requirements or regulations on participating communities.

BILLING CODE 6718-03-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

45 CFR Part 46

Exemption of Certain Research and Demonstration Projects From Regulations for Protection of Human Research Subjects

AGENCY: Office of the Secretary, Department of Health and Human Services.

ACTION: Final rule.

SUMMARY: The Department of Health and Human Services (the Department or HHS) is including among the types of research specifically exempt from the application of the regulatory requirements of 45 CFR Part 46 (protection of human research subjects) research and demonstration projects conducted under the Social Security Act and other federal statutory authority and designed to study certain public benefit or service programs, the procedures for obtaining benefits or services under those programs, and possible changes or alternatives to those programs or procedures, including changes in methods or levels of payment. These demonstration and service projects are already subject to procedures which provide for extensive review by high level officials in various program administration offices. Review by an Institutional Review Board (IRB), as required under Part 46, would be duplicative and burdensome to state and local agencies and to other entities participating in demonstration projects. Removal of this unnecessary layer of review will not only reduce the cost of the projects but help to avoid unnecessary delays in project implementation. However, in order to ensure the continued protection of human subjects participating in such research activity, the Department is adding a specific requirement of written, informed consent in any instance, not reviewed by an IRB, in which the Secretary determines that the research activity presents a danger to the physical, mental or emotional well-being of a participant.

EFFECTIVE DATE: These regulations are effective April 4, 1983.

FOR FURTHER INFORMATION CONTACT: F. William Dommel, Jr.; (301) 496–7163.

SUPPLEMENTARY INFORMATION: In a notice of proposed rulemaking (NPRM), published March 22, 1982, 47 FR 12276, the Department proposed to exempt certain research and demonstration projects from coverage of the Regulations for the Protection of Human Subjects, 45 CFR Part 46. The research activity proposed for exemption from the regulations generally involves public benefit or service programs under the Social Security Act and other similar programs administered by the Department. Such projects typically study proposed or possible changes in levels of benefits or services or in the systems and procedures for delivering such benefits or services to recipients. As indicated in the NPRM, the Department now believes that such research activity is fundamentally different from the experiments and projects otherwise covered by the Part 46 regulations, which typically involve biomedical or behavioral research.

The NPRM noted that the Department had previously proposed to exempt this class of research activity from the Part 46 regulations. 44 FR 47688 (August 14, 1979). However, when the regulations were published in final form, they continued to cover these activities. 46 FR 8366, 8370 (January 26, 1981). As a result, research and demonstration projects carried out under the Social Security Act and other statutes for the purpose of studying possible changes in benefit levels or in procedures for delivery of benefits have been subject to a requirement of review by an Institutional Review Board (IRB). The Department's experience has been that this additional layer of review for such projects is duplicative and needlessly burdensome in light of the substantial review process to which they are already subjected by state and federal officials. Furthermore, the Department has found such review by an IRB—which generally focuses on ethical questions arising from biomedical and behavioral research—to be unnecessary and inappropriate in the context of adjustments to benefit and service programs.

In view of these considerations, the Department proposed to exempt this class of research activity from the Part 46 regulations. In doing so, we indicated the following statutory authorities for conducting such research activity as among those which would be exempt from the regulations if the proposed exemption were adopted: Sections 420, 445, 1110(a), 1115 and 1875 of the Social Security Act; section 201 (a) and (b) and section 505 of the Social Security Disability Amendments of 1980, Pub. L. 96–265; section 402(a) of the Social Security Amendments of 1967, as amended (codified at 42 U.S.C. 1395b–1); section 222(a) of the Social Security Amendments of 1972 (codified at 42 U.S.C. 1395b–1 note); section 649 of Pub. L. 97–35 (Head Start Act); section 4 of Pub. L. 93–247, as amended (Child Abuse Prevention and Treatment Act); section 145 of Pub. L. 94–103, as amended (Developmental Disabilities Assistance and Bill of Rights Act); section 805 of Pub. L. 93–644, as amended (Native American Program Act of 1974); sections 421–425 of Pub. L. 93–29, as amended (Older Americans Act of 1965). Section 702 of the Social Security Act is another example of a statutory authority for conducting research which would be exempt from the Part 46 regulations under the exemption we proposed.

We have now carefully considered the comments received in response to the NPRM. These comments are analyzed and addressed below. As indicated, nothing in the comments led us to conclude that this class of research activity should, as a matter of policy, be subject to IRB review as provided by the Part 46 regulations. Moreover, in contrast to biomedical and behavioral research sponsored or conducted by the Department under the Public Health Service Act, there is no statutory requirement that such research activities be reviewed by an IRB.

Nevertheless, the Department does have an obligation, pursuant to the conditions imposed upon its continuing appropriations, to ensure that research activity not present a danger to the physical, mental or emotional well-being of participants. See, e.g., section 412, Pub. L. 93–517. In order to make clear that we will continue to fulfill that obligation and also in response to certain of the comments received, we are adding language to Part 46 to clarify that, with respect to research activity involving public benefit programs now to be exempted from IRB review, the Department will include in its review of such proposed research activity consideration of the effects on participants. To the extent that the proposed activity is determined to pose a danger to the participants, informed consent in writing will be required. This clarification will apply only to those projects which were previously subject to IRB review but are now exempt. All other categories of exempt research set forth in § 46.101(b) will continue not to be subject to any requirement of review for purposes of protecting human subjects since these other categories involve little or no possibility of risk to participants. See 46 FR 8367 (January 26, 1981).

In addition, our review of the proposal and the comments has led us to adopt another refinement to the final regulation. In the NPRM, we indicated that we were deleting entirely the provision in § 46.116(c) which permitted waiver of informed consent by IRB's in certain situations involving Federal, state or local benefit or service programs. The proposed deletion of this provision was prompted by the recognition that this waiver authority would not be needed in circumstances covered by the new exemption—*i.e.*, research or demonstration projects involving public benefit or service programs "conducted by or subject to the approval of" this Department. However, the new exemption does not reach similar projects conducted by or subject to the approval of state or local governments. There was no intention to impose additional burdens on such research carried out under the auspices of state or local government. Accordingly, we have determined that it would be appropriate to continue providing the authority under § 46.116(c) for an IRB to waive informed consent in circumstances where a research or demonstration project involves public benefit or service programs and where the project is conducted by or subject to the approval of state or local governments. The language of the new § 46.116(c) has been amended slightly to conform to the language of the new exemption.

Response to Comments

We received approximately 50 comments in response to the proposed exemption. Most of these comments came from advocacy groups who regularly represent, in court and otherwise, persons whose benefits might be affected by the research projects proposed to be exempted from the Part 46 regulations, and most of them opposed the exemption for one reason or another. Favorable comments were received from several States which generally agreed with the analysis in the NPRM that IRB review of such projects was burdensome and duplicative. Below we have summarized, discussed and responded to the major comments, organized by topic, which were submitted in opposition to the proposed exemption.

1. Some commenters objected to the fact that we did not publish in the notice of proposed rulemaking an exhaustive list of every statutory demonstration authority to which the exemption would pertain. According to these commenters, fairness required a complete listing of every statute pursuant to which a demonstration project might be conducted exempt from the regulations. This suggested approach ignores the fact that the regulations themselves are couched in terms of broad categories of research. In listing the statutory authorities subject to the proposed exemption, we provided prominent examples of the types of authority which would be exempt. In view of the large number of statutory authorities, which are frequently augmented by legislation, we believe that an effort to provide an exhaustive list could be misleading since such a list would inevitably be incomplete. Thus, we did not attempt to catalogue all exempt authorities since the clear intent of the proposed exemption is to cover all projects falling within its terms, whether or not they were specifically referenced in the notice of proposed rulemaking.

2. A few commenters asserted that the list of statutory authorities subject to the proposed exemption was in fact inaccurate because section 505 of the Social Security Disability Amendments of 1980, Pub. L. 96–265, requires that projects conducted thereunder be subject to the Department's regulations for the protection of human subjects. Such comments appear to be based on a misunderstanding as to the scope of the demonstration authority enacted by section 505. That statute created a new demonstration authority relating to the work activity of disabled beneficiaries under the old-age, survivors and disability insurance program. This new authority is not required to be covered by the Department's regulations governing informed consent and the protection of human subjects. However, section 505 also amended section 1110 of the Social Security Act to add a new subsection (b) providing authority to waive requirements of Title XVI (the Supplemental Security Income program) for the purposes of carrying out demonstration projects. The statute expressly provides that projects conducted pursuant to this authority are subject to "the requirements for informed consent established by the Secretary for use in any experimental, pilot, or demonstration project in which human subjects are at risk." Thus, we recognize that demonstration projects carried out under section 1110(b) are required to be covered by the Part 46 regulations, and for that reason they were not included among the authorities to which the proposed exemption would apply.

3. A number of the comments referred to the decision of the court in *Crane* v. *Mathews*, 417 F. Supp. 532 (N.D. Ga. 1976), as contrary to the proposed exemption. In that case, Georgia Medicaid recipients challenged a demonstration project permitting the state to impose copayments for medical services pursuant to a waiver of statutory provisions otherwise barring such copayments. The plaintiffs alleged, among other things, that the Department's then effective regulations for protection of human subjects required that such projects be first reviewed by an IRB. The court agreed and enjoined the project pending IRB review in accordance with the regulations.

In fact, contrary to the suggestion of these comments, the *Crane* court did not hold that demonstration projects under the Social Security Act were required to be subject to the Part 46 regulations. Instead, the court simply found that the regulations as then in effect were intended to cover such demonstration projects, at least as they pertained to imposition of copayments upon Medicaid recipients. Furthermore, the court in no way concluded that the recipients were placed at risk by the demonstration project. Nothing in the *Crane* decision can be read as mandating the retention of Part 46 coverage in the case of the demonstration projects which we are now exempting from the regulations.

4. Several comments took issue with the manner in which the notice of

proposed rulemaking discussed our statutory authority to regulate experiments other than biomedical and behavioral research. We noted that the principal authority for the Part 46 regulations was section 474 of the Public Health Service Act, which requires the Secretary to establish regulations governing "the conduct of biomedical and behavioral research involving human subjects" and specifies that an IRB shall be the vehicle for review of such research. In so noting, we in no way meant to imply that we lacked statutory authority to regulate the sorts of experiments and demonstration projects which we now are exempting from IRB review under the Part 46 regulations. As the court held in *Crane* v. *Mathews*, it is clearly within the broad rulemaking authority of the Secretary to regulate activity of that nature. However, in exempting it from IRB review, we felt it appropriate to distinguish this activity from biomedical and behavioral research, where we are mandated by statute to impose such review.

Other comments suggested that certain demonstration projects under the Social Security Act which we are now exempting from IRB review in fact feature considerable biomedical or behavioral aspects, thus bringing them within the scope of section 474's mandate. While the phrase "biomedical and behavioral research" is susceptible to broad interpretation, we see no indication that Congress intended the requirements of section 474 to apply to the demonstration projects subject to the proposed exemption. When passing legislation providing waiver or demonstration authority under the Social Security Act, Congress has made explicit those circumstances in which it believes that human subjects should be protected by an additional layer of regulatory review. See, for example, section 1110(b) of the Social Security Act. Thus, we believe that it is totally consistent with the intent of Congress in passing section 474 that we exempt from IRB review projects involving social welfare and benefit programs. The court in *Crane* v. *Mathews* agreed with our view that section 474 does not require regulation of such projects. See 417 F. Supp. at 545.

5. Some comments objected that the proposed exemption did not give sufficient consideration to the recommendations of the various National and Presidential Commissions that have studied the issue of protection of human subjects. We believe that we have addressed the major concerns of those Commissions and their findings. The Commissions have focused principally on problems stemming from biomedical and behavioral research involving human subjects. Nevertheless, we have experimented with broader use of IRB review. As we indicated in the notice of proposed rulemaking, our experience with IRB review led us to conclude that it was in fact unnecessary and burdensome in the context of research concerning benefit programs under the Social Security Act and otherwise. Throughout this process, we have continued to consider, evaluate and place great weight upon the comments of these Commissions. In fact, as discussed below, dialogue with the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research has also continued with respect to the proposed exemption.

6. Among the commenters was the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research. The Commission noted that review by state and federal officials did not precisely "duplicate" IRB review unless the reviewers included persons independent of program management, including non-government personnel and persons with expertise in "ethical" aspects of research. Recognizing that "informed consent" requirements could easily frustrate social policy experiments of the sort proposed for exemption, the Commission nevertheless suggested that this concern could be addressed by the waiver provisions in the regulations. In the Commission's view, however, such waivers should be issued by an IRB rather than by the decision of either state or federal program officials. The Commission also suggested that research projects covered by the proposed exemption can create medical risks as well as risks of non-physical intrusions into personal or confidential matters and that such risks should be considered by an IRB. The Commission expressed particular concern about research entailing reduction of benefits to certain recipients while others, similarly situated, continue to receive a higher level of benefits. In light of this concern, the Commission proposed an alternative exemption which would not include such research. Thus, under the Commission's alternative, research projects in any way limiting or reducing the benefits to which recipients would otherwise be entitled would continue to be subject to IRB review.

We have considered the Commission's comments with particular care in recognition of its statutory mandate in the area of ethical problems in research. We have decided, however, not to follow the Commission's suggestion that the exemption be limited to those research projects not entailing reduction of benefits. A review of the research projects covered by the proposed exemption reflects that many, if not most, of them could be construed as reducing benefits in one way or another. Accordingly, adoption of the Commission's alternative would not adequately address the concerns which prompted us to propose the exemption.

We do not agree with the Commission's belief that the "ethical" aspects of research in benefits programs will go unreviewed unless nongovernmental individuals with expertise in the ethics of research participate in consideration of proposed studies. The questions raised by research involving government benefits are significantly different from those raised by biomedical and behavioral research. IRB's are typically constituted to deal with the special ethical and other problems involved in biomedical and behavioral research. In contrast, ethical and other problems raised by research in benefit programs will be addressed by the officials who are familiar with the programs and responsible for their successful operation under state and federal laws. The risks identified by the Commission can be sufficiently evaluated by those program officials.

7. Some comments disagreed with the NPRM's conclusion that IRB review was duplicative and unnecessary in the context of the research projects proposed for exemption. These comments focused on the need for an independent reviewing body to ensure that recipient rights were properly considered and expressed doubt as to the ability of state officials in particular to fulfill that role. In our view, these comments ignore the fundamental difference between such research projects and biomedical and behavioral research. In contrast to the latter, which may result in either significant physical invasions or intrusions upon the privacy of participants, research in public benefit programs typically involves alterations in eligibility criteria, benefit levels or delivery systems. These are matters not falling within the expertise of IRB members but instead within the knowledge and experience of program officials at both the state and federal levels. In the course of promulgating regulations for the various programs at issue, these officials are regularly called upon to make decisions of the same sort, entailing determinations as to which

persons may or may not receive benefits and at what levels. In that sense, the research projects proposed for exemption do not differ substantially from the normal program activity administered by these officials. Furthermore, with the addition of clarifying language to the Part 46 regulations, there will be a well-defined responsibility of federal program officials to take into consideration potential risks to the health and safety of participants in research activity before making decisions whether or not to approve particular projects.

With respect to the adequacy of review by state program officials, we have no basis to question either the competency or sincerity of state personnel. In any event, research proposals by the states receive thorough review by federal officials experienced in the various programs. It is significant to note that the major Medicaid research authority—section 1115 of the Social Security Act—specifically provides that projects thereunder be consistent with the purposes of the program. In reviewing state proposals, federal officials will be mindful, as always, of this injunction.

8. Certain comments suggested that, in proposing to exempt from IRB review research projects involving public benefit programs, we somehow sought to circumvent congressional intent and impose program limits which had been rejected by Congress. More specifically, these comments referred to legislative proposals to permit more extensive use of copayments in the Medicaid program. In fact, any research project involving copayments will not benefit from the exemption since the Secretary has already exercised his discretion to waive application of Part 46 to such projects, pursuant to his authority under 45 CFR 46.101(e). See 47 FR 9208 (March 4, 1982). This provision of the regulations allows the Secretary to waive IRB review for any particular research activity or class of research activity. Thus, the status of co-payments and other similar cost-sharing devices in the Medicaid program will be unaffected by the new exemption. It should also be noted that the recently enacted Tax Equity and Fiscal Responsibility Act includes specific provisions governing demonstration projects involving Medicaid copayments.

9. A few comments asserted that the proposed exemption was contrary to the due process or equal protection clauses of the Constitution because of the possible impact which exempted demonstration projects could have on disadvantaged groups without adequate opportunity for a hearing. The function of IRB's, however, is not to provide individual claimants with any "due process" right to be heard. At most, IRB's review in a general way broad-based demonstration projects specifically authorized by statute. In our view, an individualized hearing of the sort which typically is associated with "due process" is not appropriate in this context. To the extent that a "hearing" of any sort is called for, the review provided by state and federal program officials is more than adequate to serve that function.

The proposed exemption also raises no issue of equal protection. The only result of the exemption will be that projects involving public benefit programs will not be subject to IRB review while those involving biomedical or behavioral research are. This disparate treatment of different kinds of research activities is, we believe, completely rational and justified in light of the substantially different character of biomedical and behavioral research. Thus, we do not view this different treatment as violative of equal protection.

10. A small number of the comments took issue with the conclusion that Executive Order 12291 was inapplicable to the NPRM. These comments basically argued that the cost to beneficiaries of Medicaid co-payments alone would exceed the Executive Order's threshold figure of $100 million or more in annual effect on the economy. Even if this assertion were accurate, the proposed exemption has no direct effect on projects involving co-payments because they have, as noted above, already been exempted from Part 46 coverage pursuant to the Secretary's waiver authority. Moreover, it is not the IRB review provided by Part 46 which controls the financial impact on Medicaid beneficiaries or other participants in research activity. Instead, program officials—at both the state and federal levels—make the decisions which influence the level of benefits by proposing and approving demonstration projects involving their programs. Thus, the proposed exemption has no direct bearing on any financial impact which may occur as a result of such projects.

Impact Analysis

Economic Impact on Small Entities

The Secretary certifies that the proposed rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, Pub. L. 96-354. Thus, a regulatory flexibility analysis is not required.

Classification of Rule Under E.O. 12291

The Secretary has determined that this rule is not a "major rule" under Executive Order 12291 and thus a regulatory impact analysis is not required. The Secretary's determination is based on the finding that the proposed rule would not:

(1) Have an annual effect on the economy of $100 million or more;

(2) Impose a major increase in costs or prices for consumers, individual industries, federal, state or local government agencies, or geographic regions; or

(3) Result in significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

List of Subjects in 45 CFR Part 46

Civil rights, Government contracts, Grant programs—health, Prisoners, Research, Safety.

Dated: August 26, 1982.

Edward N. Brandt, Jr.,

Assistant Secretary for Health.

Richard S. Schweiker,

Secretary.

PART 46—PROTECTION OF HUMAN SUBJECTS

For the reasons set out in the preamble, Part 46 of 45 CFR is amended as set forth below.

1. Section 46.101 is amended by adding a new paragraph (b)(6) and a new paragraph (i) to read as follows:

§ 46.101 To what do these regulations apply?

* * * * *

(b) * * *

(6) Unless specifically required by statute (and except to the extent specified in paragraph (i)), research and demonstration projects which are conducted by or subject to the approval of the Department of Health and Human Services, and which are designed to study, evaluate, or otherwise examine: (i) Programs under the Social Security Act, or other public benefit or service programs; (ii) procedures for obtaining benefits or services under those programs; (iii) possible changes in or alternatives to those programs or procedures; or (iv) possible changes in methods or levels of payment for

benefits or services under those programs.

* * * * *

(i) If, following review of proposed research activities that are exempt from these regulations under paragraph (b)(6), the Secretary determines that a research or demonstration project presents a danger to the physical, mental, or emotional well-being of a participant or subject of the research or demonstration project, then federal funds may not be expended for such a project without the written, informed consent of each participant or subject.

2. Section 46.116(c) is revised to read as follows:

§ 46.116 General requirements for informed consent.

* * * * *

(c) An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth above, or waive the requirement to obtain informed consent provided the IRB finds and documents that:

(1) The research or demonstration project is to be conducted by or subject to the approval of state or local government officials and is designed to study, evaluate, or otherwise examine: (i) Programs under the Social Security Act, or other public benefit or service programs; (ii) procedures for obtaining benefits or services under those programs; (iii) possible changes in or alternatives to those programs or procedures; or (iv) possible changes in methods or levels of payment for benefits or services under those programs; and

(2) The research could not practicably be carried out without the waiver or alteration.

BILLING CODE 4150-04-M

---

45 CFR Part 96

Block Grant Programs

AGENCY: Office of the Secretary, HHS.

ACTION: Final rule with comment period.

SUMMARY: This rule amends current regulation at 45 CFR 96.112(b) to allow continued funding of the Community Services Block Grant (CSBG) in the territories of Guam and American Samoa during Fiscal Year (FY) 1983. This change was made necessary by the limitations imposed on CSBG funding by section 138 of Pub. L. 97-276.

DATES: This rule is effective March 4, 1983. To assure consideration, comments should be submitted by April 4, 1983.

ADDRESS: Submit comments to Spencer L. Lott, II, Director, Office of State and Project Assistance, Office of Community Services, 1200 19th Street, NW., Washington, D.C. 20506.

FOR FURTHER INFORMATION CONTACT: Spencer L. Lott, II, (202) 254-7030.

SUPPLEMENTARY INFORMATION: Section 675(c)(2)(A)(i) of the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97-35) ("the Act") required each State receiving funds under the CSBG to use at least 90 percent of its FY 1982 funds to make grants to "eligible entities" (as defined in section 673(1) of the Act) or to organizations which serve migrant or seasonal farmworkers. "Eligible entities" are primarily organizations which had been designated during FY 1981 as community action agencies or community action programs under the Economic Opportunity Act of 1964. For FY 1983 and subsequent years, section 675(c)(2)(A)(ii) of the Act afforded States greater flexibility in the use of their funds to make grants to non-profit private community organizations which serve migrant or seasonal farmworkers, or to political subdivisions within the States.

The territories of Guam and American Samoa do not have any organizations within their jurisdictions which meet the definitions of "eligible entities". Thus they were seemingly precluded from using more than 10 percent of their FY 1982 CSBG funds. Therefore, the final block grant regulations published by this Department of July 6, 1982 (47 FR 29472), explained that because Congress had not intended such a result, States or territories with no eligible entities could distribute their FY 1982 allotments using the funding criteria applicable for FY 1983, as specified in section 675(c)(2)(A)(ii).

However, section 138 of Pub. L. 97-276 imposed a new limitation which in effect extends to FY 1982 funding limitations through FY 1983, by requiring that States pass through 90 percent of their allotments to "eligible entities" or to organizations that serve migrant or seasonal farmworkers during FY 1983 as well. Thus under the current regulation these territories are once again arguably prevented from distributing most of their CSBG funds. We do not believe that this result was intended by Congress. Consequently, we are amending 45 CFR 96.112(b) to allow these territories to distribute their allotments according to the original requirements which would have been applicable under section 675(c)(2)(ii) of the Act.

Because of the limited time available in which territories may obligate FY 1983 funds, we believe that it would be impracticable and contrary to the public interest to delay availability of funds to the affected territories during the time necessary to conduct a rulemaking proceeding. Moreover, since this rule merely extends an existing rule to take into account the extension of the underlying statutory provision, we believe it is unnecessary to solict public comment. Accordingly, we find that good cause exists to waive the requirement for prior opportunity for comment. For the same reason, and because the rule relieves a restriction, we are making the regulation effective immediately, instead of allowing the customary 30-day delayed effective date. Although we are not soliciting public comment prior to publication of the rule, comments may be submitted as stated above, and appropriate changes will be made in the rule based on any comments received.

Regulatory Impact

Executive Order 12291

E.O. 12291 requires that a regulatory impact analysis be prepared for major rules—defined in the Order as any rule that has an annual effect on the national economy of $100 million or more, or certain other specified effects. The Department concludes that this regulation which allows Community Services Block Grant funding for the territories of Guam and American Samoa during Fiscal Year 1983 is not a major rule within the meaning of the Executive Order because it does not have an effect on the economy of $100 million or more or otherwise met the threshold criteria. It merely sets forth the terms and conditions for spending appropriated funds. In this case, the effect of this regulation change is not to determine whether or not money will be spent, but the procedure by which it will be spent, and it is that effect—which is negligible—against which the threshold criterion is applied. Accordingly, a regulatory impact analysis is not required.

Regulatory Flexibility Act of 1980

The Regulatory Flexibility Act (5 U.S.C. Ch. 6) requires the Federal government to anticipate and reduce the impact of rules and paperwork requirements on small businesses. The primary impact of this regulation is on the territories of Guam and American Samoa, which are not "small entities" within the meaning of the Act. Because this regulation provides the two

territories with great authority to prescribe management, organization, funding and eligibility practices for service delivery, it does not directly impact small entities, either favorably or adversely. Instead, impacts will depend on future decisions of the two territories.

We are not required to perform a regulatory impact analysis where the effect of the proposed regulation is speculative, and will be caused by decisions made independently of the Federal government. Therefore, the Secretary hereby certifies that a regulatory flexibility analysis is not required.

List of Subjects in 45 CFR Part 96

Administrative practice and procedure, Aged, Alcoholism, Child welfare, Community action program, Drug abuse, Energy, Grant programs—energy, Grant programs—health, Grant programs—Indians, Grant programs—social programs, Health, Indians, Investigations, Low and moderate income housing, Maternal and child health; Mental health programs, Public health, Reporting and recordkeeping requirements, Social security.

PART 96—[AMENDED]

For the reasons set forth in the preamble, Title 45, § 96.112(b) of the Code of Federal Regulations is amended to read as follows:

§ 96.112 Community Services Block Grant.

* * * * *

(b) A State or territory that does not have any eligible entity" as that term is defined in section 673(1) of the Reconciliation Act (42 U.S.C. 9902), as amended by section 17 of Pub. L. 97–115 (December 19, 1981), or any other entity for which funding is allowed under Section 138 of Pub. L. 97–276, may distribute its allotment for the Fiscal Year beginning October 1, 1982 according to section 675(c)(2)(A)(ii) of the Reconciliation Act.

BILLING CODE 4150-04-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 0, 1, and 90

Amendment of the Commission's Rules Pursuant to Its Unregulatory Program

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Federal Communications Commission is amending the Rules concerning the land mobile radio services so as to eliminate those that are now unnecessary or outdated and to bring others into agreement with rules that were amended previously in other rulemaking actions.

EFFECTIVE DATE: March 4, 1983.

ADDRESS: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Arthur C. King, Private Radio Bureau, (202) 634–2443.

SUPPLEMENTARY INFORMATION:

List of Subjects

47 CFR Part 1

Administrative practice and procedure.

47 CFR Part 90

Private land mobile radio services.

In the matter of amendment of Parts 0, 1, and 90 of the Commission's rules and regulations pursuant to the Commission's Unregulatory Program.

Order

Adopted: February 3, 1983.

Released: February 15, 1983.

1. This Order is intended to simplify the rules by deleting unnecessary or outdated rule sections in Parts 0, 1, and 90 of the Commission's Rules and Regulations, by relaxing restrictions, and by making editorial corrections where necessary.

2. The affected rule sections are: §§ 0.401, 1.923, 1.951, 1.952, 90.3, 90.17, 90.19, 90.21, 90.35, 90.41, 90.45, 90.49, 90.51, 90.63, 90.67, 90.73, 90.75, 90.91, 90.127, 90.129, 90.135, 90.157, 90.175, 90.238, 90.251, 90.255, 90.555, and 90.560.

3. We conclude that the adoption of the amendments set forth in the Appendix will serve the public interest, and inasmuch as these amendments impose no additional burdens and raise no issue upon which comments would serve any useful purpose, we conclude that notice and public procedure thereon are unnecessary and contrary to the public interest. We also conclude that the effective date of these rule changes shall be the date on which they are published in the **Federal Register**. Authority for this action is set forth in the Administrative Procedure and Judicial Review Act provisions of 5 U.S.C. § 553(b)(3)(B), and (d).

4. Inasmuch as a general notice of proposed rule making is not required, the Regulatory Flexibility Act does not apply.

5. Therefore, it is ordered, That pursuant to sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and the authority delegated to the Managing Director by § 0.231 of the Commission's Rules, 47 CFR 0.231, the Commission's Rules and Regulations are amended as set forth in the attached Appendix effective upon publication in the **Federal Register.**

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Edward J. Minkel,

Managing Director.

Appendix

PART 0—[AMENDED]

A. Part 0 of the Commission's Rules and Regulations is amended as follows:

1. Section 0.401 is amended by the removal of paragraph (g) in its entirety and the substitution of [Reserved] and by the revision of paragraph (e)(1) to read as follows:

§ 0.401 Location of Commission offices.

* * * * *

(e) * * *

(1) The mailing address of the Gettysburg Data Processing Center and the Private Radio Bureau Licensing Division is: Federal Communications Commission, Gettysburg, Pennsylvania 17325.

* * * * *

(g) [Reserved]

PART 1—[AMENDED]

B. Part 1 of the Commission's Rules and Regulations is amended as follows:

1. Section 1.923(a) is revised to read as follows:

§ 1.923 Waiver of construction permit requirement.

(a) A construction permit is not required for any station in the Private Radio Services. However, certain private radio facilities must be constructed within the time periods specified in Part 90. See, however, § 1.1311(c).

* * * * *

2. Section 1.951 is revised to read as follows:

§ 1.951 How applications are distributed.

Licensing Division. All applications for radio stations in the following services:

(a) *Aviation and Marine Branch.* Aviation Radio Services applications: Air Carrier Aircraft, Private Aircraft, Airdrome Control, Aeronautical Enroute, Aeronautical Fixed, Operational Fixed (Aviation), Aeronautical Utility Mobile, Radionavigation (Aviation), Flight Test, Flying School, Aeronautical Public Service, Civil Air Patrol, Aeronautical Advisory, Aeronautical Metropolitan, Aeronautical Search and Rescue Mobile, and Aeronautical Multicom.

Marine Radio Services applications: Public Coast Stations, Limited Coast Stations, Stations on Land in the Maritime Radiodetermination Service, Fixed Stations associated with the Maritime Mobile Service, Stations operated in the Land Mobile Service for maritime purposes, Stations on Shipboard in the Maritime Services, and Public Fixed Stations in Alaska.

(b) *Land Mobile Branch.* Industrial Radio Services applications: Business, Forest Products, Industrial Radiolocation, Manufacturers, Motion Picture, Petroleum, Power, Relay Press, Special Industrial and Telephone Maintenance.

Land Transportation Radio Services applications: Motor Carrier, Railroad, Taxicab, and Automobile Emergency.

Public Safety Radio Services applications: Fire, Forestry-Conservation, Highway Maintenance, Local Government, and Police.

Special Emergency Radio Service applications: Medical services, rescue organizations, physically handicapped, veterinarians, disaster relief organizations, school buses, beach patrols, establishments in isolated areas, communications standby facilities.

(c) *General Radio Branch:* Amateur, Citizens Band, Radio Control, General Mobile, Disaster.

3. Section 1.962(b) is amended to reflect sub-title changes and to add radio services as follows:

§ 1.962 How file numbers are assigned:

* * * * *

(b) * * *

Industrial Services

IB—Business.
IF—Forest Products.
IX—Manufacturers.
IM—Motion picture.
IP—Petroleum.
IY—Relay Press.
IS—Special Industrial.
IT—Telephone Maintenance.
IW—Power.

Radiolocation Service

RS—Radiolocation.

* * * * *

PART 90—[AMENDED]

C. Part 90 of the Commission's Rules and Regulations is amended as follows:

1. Section 90.3 is removed in its entirety and [Reserved] is substituted as follows:

§ 90.3 [Reserved]

2. Section 90.17 is amended by the addition of new language to paragraph (a) to read as follows:

§ 90.17 Local Government Radio Service.

(a) Eligibility. Any territory, possession, state, city, county, town or similar governmental entity, including a district and an authority, but not including a school district or authority or a park district or authority except as provided for in § 90.242, is eligible to hold authorizations in the Local Government Radio Service to operate radio stations for transmission of communications essential to official activities of the licensee.

* * * * *

3. Section 90.19 is amended by the modification of paragraph (c) Article 5(g) to read as follows:

§ 90.19 Police Radio Service.

* * * * *

(g) The abbreviations contained in Appendix 9 of the Atlantic City Radio Regulations shall be used to the greatest possible extent. Service indications are as follows: "P", priority, for messages that are to be sent immediately, regardless of the number of other messages on file. If no service indication is given, the messages are to be transmitted in the order of receipt.

* * * * *

4. Section 90.21(b), the Fire Radio Service Frequency Table, is amended to read as follows:

§ 90.21 Fire Radio Service.

* * * * *

(b) * * *

Frequency or band	Class of station(s)	Limitations
*	*	*
460.525	Base or Mobile	8
460.550	do	8
460.575	do	
460.600	do	
460.625	do	
465.525	Mobile	8
465.550	do	8
465.575	do	
465.600	do	
465.625	do	
*	*	*

5. Section 90.35 is amended by the removal of paragraph (c) and the substitution of [Reserved] to read as follows:

§ 90.35 Medical Services.

(a) * * *

(c) [Reserved]

6. Section 90.41 is amended by the removal of paragraph (c) and the substitution of [Reserved] to read as follows:

§ 90.41 Disaster Relief Organizations.

* * * * *

(c) [Reserved]

7. Section 90.45 is amended by the removal of paragraph (b) and the substitution of [Reserved] to read as follows:

§ 90.45 Beach Patrols.

* * * * *

(b) [Reserved]

8. Section 90.49 is amended by the removal of paragraph (c) and the substitution of [Reserved] to read as follows:

§ 90.49 Communications standby facilities.

* * * * *

(c) [Reserved]

9. Section 90.51 is amended by the removal of paragraph (b) and the substitution of [Reserved] to read as follows:

§ 90.51 Emergency repair of public communications facilities.

* * * * *

(b) [Reserved]

10. Section 90.63 is amended by amending paragraphs (c) and revising (d) (6) to read as follows:

§ 90.63 Power Radio Service.

* * * * *

(c) * * *

Power Radio Service Frequency Table

Frequency or band	Class of station(s)	Limitations
*	*	*
154.46375	do	6,7,21
*	*	*

* * * * *

(d) * * *

(6) This frequency is available for assignment to multiple address fixed stations employing omnidirectional antennas used for Power Utility peak load shaving and shedding and to mobile stations used for the remote control of objects and devices. The maximum power that may be authorized to fixed stations is 300 watts output, and the maximum power that may be authorized for mobile stations is 1 watt output. This frequency may also be

assigned to operational fixed stations employing directional antenna systems (front-to-back ratio of 20 dB) when such stations are located at least 120 km. (75 mi.) from the boundaries of any urbanized area of 200,000 or more population. (U.S Census of Population, 1960). The maximum power output of the transmitter for such fixed stations may not exceed 50 watts. A1, A2, A9, F1, F2, or F9 emission may be authorized.

11. Section 90.67(b) is the Forest Products Radio Service Frequency Table, is amended as follows:

§ 90.67 Forest Products Radio Service.

* * * * *

(b) * * *

Forest Products Radio Service Frequency Table

Frequency or band	Class of station(s)	Limitations
* * * * *		
43.18	do	2
* * * * *		
152.465	do	2, 28
* * * * *		
154.625	Base or Mobile	5
157.725	Mobile	29
157.740	Base or Mobile	5
* * * * *		
457.000	do	5
457.025	do	2
457.075	do	2
* * * * *		

12. Section 90.73(c) is amended in the Special Industrial Radio Service Frequency Table, as follows:

§ 90.73 Special Industrial Radio Service.

* * * * *

(c) * * *

Special Industrial Radio Service Frequency Table

Frequency or band	Class of station(s)	Limitation
43.18	do	2, 34
* * * * *		
457.000	do	5
457.025	do	2
457.075	do	2
* * * * *		

* * * * *

13. Section 90.75 (b), the Business Radio Service Frequency Table, and (f) are amended to read as follows:

§ 90.75 Business Radio Service.

* * * * *

(b) * * *

Business Radio Service Frequency Table

Frequency or band	Class of station(s)	Limitations
Megahertz:		
27.43	Base or Mobile	1,2
27.45	do	1,2
27.47	do	1,2
27.49	do	1,3
* * * * *		
450.875	do	1,2,28,39,40
451.150	do	1,2,28,39,40
* * * * *		

* * * * *

(f) Limitation on itinerant operation. Base or mobile stations being utilized in itinerant operation will be authorized only on base or mobile frequencies designated for itinerant operation under § 90.75(c)(3), or on other frequencies not designated for permanent use.

14. Section 90.91(b) is amended in the Railroad Radio Service Frequency Table as follows:

§ 90.91 Railroad Radio Service.

* * * * *

(b) * * *

Railroad Radio Service Frequency Table

Frequency or band	Class of station(s)	Limitations
* * * * *		
72.56	do	2
72.60	do	2
* * * * *		

* * * * *

15. Section 90.127(a) is amended to reflect the new address in Gettysburg, Pennsylvania for submission of applications as follows:

§ 90.127 Filing of applications.

(a) All applications for station authorizations and related correspondence shall be submitted to: Federal Communications Commission, Gettysburg, Pennsylvania 17325.

* * * * *

16. Section 90.129 is amended by the removal of paragraphs (d) and (l) and the substitution of [Reserved] to read as follows:

§ 90.129 Supplemental information to be routinely submitted with applications.

* * * * *

(d) [Reserved]

* * * * *

(l) [Reserved]

* * * * *

17. Section 90.135(b) (6) and (7) are amended to remove the reference to Form 425 and to reflect the new address in Gettysburg, Pennsylvania as follows:

§ 90.135 Modification of license.

* * * * *

(b) * * *

(6) In case of a change listed in paragraph (b) (1) or (2) of this paragraph, the licensee shall promptly notify the Commission of such change. The notice, which may be in letter form, shall contain the name and address of the licensee as they appear in the Commission's records, the new name or address, the call signs and classes of all radio stations authorized to the licensee under this part and the radio service in which each station is authorized. The Notice shall be sent to, Federal Communications Commission, Gettysburg, Pennsylvania 17325 and to the Engineer in Charge of the Radio District in which the station is located, and a copy shall be maintained with the license of each station until a new license is issued.

(7) In the case of a change listed in paragraph (b) (3), (4), or (5) of this paragraph the licensee shall promptly notify the Commission within 30 days of the change. The notice shall be filed on the appropriate application form (FCC Form 574), and shall be sent to: Federal Communications Commission, Gettysburg, Pennsylvania 17325.

18. Section 90.157 is revised to read:

§ 90.157 Discontinuance of station operation.

If a station licensed under this part discontinues operation on a permanent basis, the licensee shall forward the station license to the Commission for cancellation. For the purposes of this section, any station which has not operated for 1 year or more is considered to have been permanently discontinued.

19. Section 90.175 is amended by the removal of paragraph (e)(4) and the substitution of [Reserved].

§ 90.175 Frequency coordination requirements.

* * * * *

(e) * * *

* * * * *

(4) [Reserved]

20. Section 90.238(e) of the rules is revised to read as follows:

§ 90.238 Telemetry operations.

* * * * *

(e) Frequencies separated by 12.5 kHz from regularly assignable frequencies in the 450–470 MHz band, which are listed at 90.267(b), except that frequencies separated by 12.5 kHz from frequencies in the 460.650–460.875 MHz and 465.650–465.875 MHz bands are also available in the Business Radio Service for one-way, non-voice biomedical telemetry

operation in hospitals, or in medical or convalescent centers.

* * * * *

21. Section 90.251 is revised to remove references to the 27 MHz band as follows:

§ 90.251 Scope.

This subpart sets forth special requirements applicable to the use of certain frequencies (4383.8 kHz) or frequency bands (72–76, 216–220, 450–470, and 1427–1435 MHz).

§ 90.255 [Reserved]

22. Section 90.255 is removed in its entirety and [Reserved] is substituted to read as follows:

23. Section 90.555(b) is amended to read as follows:

§ 90.555 Combined frequency listing.

* * * * *

(b) Combined frequency list:

Frequency	Services	Limitations
* * * * *		
Megahertz		
* * * * *		
35.00–35.01	IB, IF, IM, IP, IS, IT, IW, IX, IY.	Do.
35.02	IB, PS	Low Power (2W.).
35.04	IB	Itinerant.
* * * * *		
151.145	PO, IB	Do.
* * * * *		

24. Section 90.560 is removed in its entirety and [Reserved] is substituted to read as follows:

§ 90.560 [Reserved]

[CC Docket No. 20870; FCC 83-36]

Public Mobile Radio Services; Regulatory Policies and Procedures for the Domestic Public Land Mobile Radio Service

AGENCY: Federal Communications Commission.

ACTION: Interim rule.

SUMMARY: Policies and procedures concerning objective need showings for applications requesting an additional one-way frequency for one-way signaling stations are being proposed. The present rules do not provide applicants with sufficient information as to what is required in need showings before applications can be granted. Applicants requesting an additional one-way frequency must show that the existing or projected grade of service is .50 before an additional channel is granted. The proposed standards are being adopted on an interim basis.

EFFECTIVE DATE: Interim rule effective April 4, 1983.

ADDRESS: Secretary's Office, Rm. 222, FCC, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Carmen A. C. Borkowski, (202) 632–6450.

SUPPLEMENTARY INFORMATION: List of Subjects in 47 CFR Part 22

Communications common carriers, Mobile radio service, Radio common carriers.

In the matter of regulatory policies and procedures for the Domestic Public Land Mobile Radio Service (CC Docket No. 20870).

Interim Rule

Adopted January 27, 1983.

Released: February 14, 1983.

By the Commission:

1. In a Further Notice of Proposed Rulemaking adopted on January 27, 1983 we adopted objective need standards for one-way service. *See* Proposed Rules Section in the **Federal Register** issue for Thursday, February 3, 1983. In addition, we adopt the objective one-way need standards as an interim rule pending the conclusion of this rulemaking proceeding.[1] The experience we have gained from using objective need standards for two-way service demonstrate to us that one-way standards are also needed. Use of the interim standards will assist us in determining the proper objective standards for one-way service if objective standards are adopted on a longer term basis.

2. The authority for this rulemaking is contained in Section 4 and 303 of the Communications Act of 1934, as amended.

3. Pending the conclusion of this rulemaking proceeding, we will follow the objective need standards presented in Appendix I on an interim basis. The interim rule becomes effective 30 days after publication of this document in the **Federal Register.**

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

[1] Applications which fail to demonstrate need in accordance with the interim standards will be returned as unacceptable for filing pursuant to § 22.20 of the rules.

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix I—Interim Rule

PART 22—[AMENDED]

47 CFR Part 22 is revised as follows:

1. Section 22.16 (c) is added to read as follows:

§ 22.16 Objective need standards.

* * * * *

(c) Applications for one additional paging channel will be granted as follows:

(1) If the application shows that the existing system's present grade of service is 0.50 or greater or that the existing grade of service is 0.40 or greater with a projected grade of service of 0.50 or greater, the additional channel will be granted.

(2) Procedures to determine grade of service:

(i) Separate § 22.516 data shall be submitted for tone-only units, tone-voice and tone-optical readout.

(ii) For each § 22.516 submission, the bouncing busy-hour occupied time of a system shown by the § 22.516 study shall be divided by the number of units in the system to derive a basic reckoning factor for projecting traffic in a proposed system. This reckoning factor shall be in minutes per unit (MPU), *i.e.,* the time a system is on the air during the busy hour divided by the number of units presently authorized to use that system.

(iii) A unit shall be considered as generating traffic in a proposed system if it falls into one of three categories:

(A) Present subscriber units,

(B) Subscriber units for which there are written held orders, and

(C) Subscriber units projected through the use of a valid statistical survey.

(iv) The number of units included in paragraph (c)(2)(iii) (B) and (C) of this section, above shall be discounted by 20 percent.

(v) The MPU shall be multiplied by the total of the units included in paragraph (c)(2)(iii) of this section, as discounted, and divided by 60 to estimate, in Erlangs, the expected traffic in the proposed system.

(vi) Referring to the Erlang C Table, the expected grade of service level shall be calculated for each proposed system. A determination of whether an additional channel will be authorized will be based on the grade of service so calculated.

[PR Docket No. 82-611; FCC 83-68]

Amendment of the Commission's Rules To Specify the Circumstances Under Which Limited Coast Stations May Be Exempted From the Watch Requirement on 156.8 MHz and To Authorize the Use of Marine VHF Channel 88A in the Lake Michigan Area

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document specifies the circumstances under which limited coast stations may be exempted from the requirement to maintain a watch on 156.8 MHz, and allows the use of simplex marine VHF Channel 88A in the Lake Michigan area. This action will relieve limited coast stations of an unnecessary burden, and in Lake Michigan it will provide the public with an additional marine channel. This rule making will further the Commission's objective of providing service to the public in the least burdensome and most efficient manner possible.

EFFECTIVE DATE: March 28, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Robert H. McNamara, Private Radio Bureau, (202) 632-7175.

SUPPLEMENTARY INFORMATION:

List of Subjects

47 CFR Part 81

Coast stations, Radio, Telephone.

47 CFR Part 83

Ship stations, Great Lakes.

In the matter of amendment of Parts 81 and 83 of the Commission's rules to specify the circumstances under which limited coast stations may be exempted from the watch requirement on 156.8 MHz and to authorize the use of marine VHF Channel 88A in the Lake Michigan area. (PR Docket No. 82-611).

Report and Order

(Proceeding Terminated)

Adopted: February 17, 1983.

Released: February 23, 1983.

By the Commission:

Summary

1. In this Report and Order we are amending Parts 81 and 83 of the Commission's rules: (1) To specify the circumstances under which limited coast stations are exempted from the requirement to maintain a watch on 156.8 MHz; and (2) to make simplex marine VHF Channel 88A (157.425 MHz) available for commercial intership communications in the Lake Michigan area beyond 75 miles of the United States/Canada border.

The 156.8 MHz Watch Requirement for Limited Coast Stations

2. Limited coast stations are maritime radio stations on land which serve the operational and business needs of ships, including the transmission of safety communications. They do not provide a public correspondence service.

3. The frequency 156.8 MHz is designated as the distress, safety and calling frequency in the VHF maritime mobile service. As a calling frequency, 156.8 MHz is the frequency on which contact can be made with ship and coast stations. After contact is made the parties shift to a working frequency. Although this operating procedure is permitted, whenever practicable, contact between ship stations and limited coast stations is made directly on the appropriate ship-shore working frequency to reduce unnecessary communications on 156.8 MHz. Distress and safety messages are also transmitted on 156.8 MHz. By designating the distress frequency as the calling frequency, the rules ensure that a maximum number of stations will be listening at any given time.

4. Under § 81.191(d)(1) of the Commission's rules, each limited coast station licensed to transmit by telephony in the band 156–162 MHz shall, during its hours of service for telephony, maintain an efficient watch on the frequency 156.8 MHz whenever such station is not being used for transmission on that frequency. However, the Commission may exempt any limited coast station from this watch requirement if it considers that the circumstances demonstrate that the watch is duplicated by public coast stations or Government coast stations having continuous hours of service.

5. In the Notice of Proposed Rule Making in this proceeding [1] (hereafter NPRM) we proposed to amend the rules to exempt most limited coast stations from the watch requirement. The Commission previously exempted public coast stations (which provide public correspondence service) from this watch in areas where coverage is provided by the Coast Guard or other Government entities. The Coast Guard maintains a continuous watch on 156.8 MHz along the entire coast of the United States. Therefore, in the case of limited coast stations located on the coast, a general exemption was proposed. The criteria proposed are identical to those under which the Commission presently exempts public coast stations from the 156.8 MHz watch requirement. Limited coast stations servicing inland waters would continue to be exempted from the 156.8 MHz watch requirement on a case by case basis where it is shown that Federal, State or Local Government stations maintain the watch.

6. No comments were received in response to the Notice of Proposed Rule Making.

7. We conclude that the amendment proposed in the NPRM to exempt VHF limited coast stations from the requirement to maintain watch on 156.8 MHz is in the public interest. This amendment will eliminate a watch requirement imposed on the maritime public which duplicates coverages provided by Federal, State or Local Government stations.

Frequency Allocation in the Lake Michigan Area

8. In 1976 the Commission changed the status of frequencies 157.425 (commercial intership frequency) and 162.025 MHz (Government frequency) to form duplex marine VHF Channel 88.[2] Section 83.351(b)(55) was amended and a new paragraph (b)(72) was added to except vessels plying the Great Lakes and St. Lawrence Seaway from the category of vessels permitted to use simplex Channel 88A for commercial intership communications. In the same action the newly formed duplex channel was made available to ship stations plying the Great Lakes and St. Lawrence Seaway for public correspondence communications with Canadian coast stations (see § 2.106, footnote US223, and § 83.351(b)(72) of the rules).

9. The Great Lakes area includes Lakes Superior, Huron, Erie, Ontario and Michigan. With the exception of Lake Michigan, all the lakes border on both the United States and Canada. Lake Michigan is located totally within the bounds of the United States and as a result, except at the northern end of the lake, is beyond the range of communication with Canadian coast stations. Consequently, simplex Channel 88A could be used in much of Lake Michigan without the need to coordinate with Canada.

10. In the NPRM we proposed to limit the broad language used in paragraphs (b)(55) and (72) of § 83.351, thereby permitting the use of simplex Channel 88A for commercial intership

[1] PR Docket No. 82-611, released August 31, 1982. 47 FR 40187.

[2] Report and Order, Docket No. 20638, adopted November 23, 1976, 41 FR 54490, 62 FCC 2d 445.

communications in the Lake Michigan area beyond 75 miles of the United States/Canada border. In view of Lake Michigan's internal location, we saw no reason why the public should be deprived of the use of this additional channel.

11. As indicated above, no comments were filed in the proceeding. We continue to believe that the availability of this additional marine channel on Lake Michigan is in the public interest. Therefore, we are amending the rules as proposed.

Summary of Action

12. In summary, we are: (1) Revising § 81.191 to provide a general exemption from the requirement to maintain a listening watch on 156.8 MHz for all limited coast stations serving coastal waters; and (2) revising § 83.351 to make Channel 88A (157.425 MHz) available for intership communications on Lake Michigan beyond 75 miles of the United States/Canada border.

13. The rule amendments proposed in this proceeding, while expected to benefit the maritime public as described above, will not result in a significant economic impact on any person or entity. Therefore, the Commission has determined that Sections 603 and 604 of the Regulatory Flexibility Act of 1980 (Pub. L. 96–354) do not apply to this rule making proceeding, because the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities.

14. Regarding questions on matters covered in this document contact Robert H. McNamara, (202) 632–7175.

15. Accordingly, it is ordered, that under the authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and 303(r), the Commission's rules are amended as set forth in the Appendix, effective March 28, 1983.

16. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

William J. Tricarico,
Secretary.

Appendix

Parts 81 and 83 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA-PUBLIC FIXED STATIONS

In § 81.191 paragraph (d) is removed and reserved and paragraph (c) is amended to read as follows:

§ 81.191 Radiotelephone watch by coast stations.

* * * * *

(c) All coast stations not serving inland lakes, rivers and bays (i.e., inland waters) shall be exempt from the channel 16 watch requirement. However, each coast station located on inland waters (exclusive of the Great Lakes which are exempt) licensed to transmit by telephony on one or more frequencies within the band 156–162 MHz shall, during its hours of service for telephony, maintain an efficient watch for the reception of Class F3 emission on the frequency 156.800 MNz whenever such station is not being used for transmission on that frequency. An exemption will be granted to any inland water coast station from compliance with this requirement when it has been demonstrated that an efficient watch on 156.800 MHz is maintained over 95% of the coast station's service area by Federal, State or Local Government stations. Such a request for an exemption must include a chart showing the receiving service area of the inland water coast station by the method specified in Subpart R of this part of the rules. The location by coordinates, to the nearest minute, and the receiving service area of the government station maintaining the continous watch on 156.800 MHz must be indicated on the same chart. The receiving service area of these stations shall be calculated using criteria specified in Subpart R of this part of the rules. Where the station(s) providing the 156.800 watch over the service area of an exempt station temporarily discontinues that watch, the exempt coast station upon receiving notice of this condition, shall maintain the watch on 156.800 MHz during the down period. However, in the case of automated maritime communications systems, compliance with this "back-up" watch requirment shall only require the use of existing facilities, when not otherwise being utilized, and shall not be construed as necessitating additional equipment or circuits.

(d) [Reserved]

* * * * *

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

In § 83.351(b) (55) and (72) are revised to read as follows:

§ 83.351 Frequencies available.

* * * * *

(b) * * *

(55) Except within 75 miles of the United States/Canada border on the Great Lakes and St. Lawrence Seaway, available for intership and commercial communications. Except on the Great Lakes, also available for communications between commerical fishing vessels and associated aircraft while engaged in commerical fishing activities.

* * * * *

(72) Within 75 miles of the United States/Canada border on the Great Lakes and St. Lawrence Seaway, 157.425 MHz is half of the duplex pair designated as Channel 88. In this area, Channel 88 is available for use by ship stations for public correspondence communications.

BILLING CODE 6712-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1039

[Ex Parte No. 346 (Sub-14)]

Rail General Exemption Authority—Miscellaneous Agricultural Commodities

AGENCY: Interstate Commerce Commission.

ACTION: Final rule and exemption.

SUMMARY: The Commission is adopting rules, which were proposed at 47 FR 50311, November 5, 1982, to exempt the transportation by rail of all farm products (STCC No. 01) not previously exempt, with the exception of grain (STCC No. 0113), soybeans (01144), and sunflower seeds (0114940), and in addition exempts stemmed or redried tobacco; cottonseed hulls; cotton linters; honey, comb, granulated or strained, or heat treated to retard granulation and beeswax; cotton, carded, dyed or not dyed, but not spun, woven, or knitted, but including cotton lap; mattress felt, nec, cjors, not finished wool, nec, scoured, including camels hair or mohair, or mohair or wool clips or tags; and flax fibre, from the provisions of Subtitle IV of Title 49 U.S.C.; except that carriers shall continue to comply with the Commission's accounting and reporting requirements and shall include in their annual reports a brief statement of operations under this exemption authority. The Commission has examined the distribution (particularly

by rail) of the commodities proposed for exemption and has determined the continued regulation of these commodities no longer appears necessary to serve the Nation's transportation policy objectives or to protect shippers from abuse of market power by the railroads.

DATE: Effective April 4, 1983.

COMMENTS: Comments by persons opposed to the exemption of stemmed or redried tobacco (STCC No. 214) cottonseed hulls (STCC No. 2091425); cotton linters (STCC Nos. 20915 and 2299926); honey, comb, granulated or strained, or heat treated to retard granulation (STCC No. 2099941) and beeswax (STCC No. 2842337); cotton, carded, dyed or not dyed, but not spun, woven, or knitted, but including cotton lap (STCC No. 2281130); mattress felt, nec, cjors, not finished (STCC No. 2291174); wool, nec, scoured, including camels hair or mohair, or mohair or wool clips or tags (STCC No. 2297135); and Flax Fibre (STCC No. 2299522); shall be filed with the Secretary of the Commission on or before March 24, 1983.

ADDRESS: An original and 10 copies, if possible, of each submission should be forwarded to: Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423, (202) 275–7428.

FOR FURTHER INFORMATION CONTACT: Leland L. Gardner or Robert Lundy, Office of Transportation Analysis, Interstate Commerce Commission, Washington, DC 20423, (202) 275–0611 or 275–6853.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's full decision. To purchase a copy of the decision, write to: TS Infosystems, Inc., Room 2227, Interstate Commerce Commission, Washington, D.C. 20423, or call 289–4357 (D.C. Metropolitan area) or toll free (800) 424–5403.

This rule is issued under the authority of Sections 553 and 559 of the Administrative Procedure Act (5 U.S.C. 553 and 559) and Section 10505 of Title 49 (49 U.S.C. 10505).

List of Subjects in 49 CFR Part 1039

Administrative practice and procedure, Agricultural commodities, Intermodal transportation, Railroads.

Dated: February 17, 1983.

By the Commission, Chairman Taylor, Vice Chairman Sterrett, Commissioners Andre, Simmons and Gradison. Vice Chairman Sterrett dissented in part with a separate expression.

Agatha L. Mergenovich,

Secretary.

Vice Chairman Sterrett, dissenting in part:

I disagree with the majority's decision not to exempt sunflower seeds. I believe this refusal represents a step backward in the Commission's use of the broad exemption authority conferred in the Staggers Act.

The evidence here indicates that the railroads are competing seriously for sunflower seed traffic. Rates have been reduced and new unit train and multiple car rates have been established. While I am sympathetic to and understand the shipper's concerns, we have been given no reason to believe deregulation will cause an abrupt change in the railroads' present marketing and pricing practices. Moreover, even if abuses were to develop in the future, we have ample authority to make corrective action. Indeed, the legislative history of the Staggers Act directs us to adopt a liberal exemption policy, reviewing exemptions *after* the fact to correct any abuses that may occur.

Appendix

Revisions to the Code of Federal Regulations

PART 1039—[AMENDED]

49 CFR Part 1039 is revised by removing § 1039.11 and by revising § 1039.10 to read as follows:

§ 1039.10 Exemption of agricultural commodities except grain, soybeans, and sunflower seeds.

The rail transportation of the commodities listed below is exempt from the provisions of Subtitle IV of Title 49, except that carriers must continue to comply with Commission accounting and reporting requirements, including a brief statement in their annual reports of operations under this exemption, and must maintain copies of rates, charges, rules or regulations, for traffic moved under this exemption, at their principal office, subject to inspection, and send a letter of notification to the docket [Ex Parte No. 346 (Sub-No. 14)], within 30 days, of the fact that they are using the exemption. All tariffs pertaining to the transportation of these miscellaneous commodities will no longer apply except to the extent adopted by carrier quotations. The categories of commodities which are exempt under this decision, by Standard Transportation Commodity Code (STCC) number are:

01	Farm products, with the exception of grain (STCC No. 0113), soybeans (STCC No. 01144), and sunflower seeds (STCC No. 0114940).
09	Fresh fish and other marine products.
20–412–27	Citrus pomace.
20–712–12	Shelled walnuts.
20–914–25	Cottonseed hulls.
20–915	Cotton linters.
20–999–41	Honey, comb, granulated or strained, or heat treated to retard granulation.
214	Stemmed or redried tobacco.
22–811–30	Cotton, carded, dyed or not dyed, but not spun, woven or knitted, but including cotton lap.
22–911–83	Mattress felt, nec, cjors, not finished.
22–911–74	Felts, ication, nec.
22–971–35	Wool, nec, scoured.
22–995–22	Flax fibre.
22–999–26	Cotton linters, bleached or dyed.
28–423–37	Beeswax.

and shall embrace all articles assigned additional digits. The STCC shall be those code numbers in effect as of January 1, 1979, as shown in Standard Transportation Commodity Code Tariff 1–G, ICC STCC 6001–C. Nothing in this exemption shall be construed to affect our jurisdiction under section 10505 or our ability to enforce this decision or any subsequent decision made under authority of this exemption section. This exemption shall remain in effect, unless modified or revoked by a subsequent order of this Commission.

Proposed Rules

Federal Register
Vol. 48, No 44
Friday, March 4, 1983

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 960

Federal Executive Boards

AGENCY: Office of Personnel Management.

ACTION: Proposed rulemaking.

SUMMARY: The Office of Personnel Management is issuing proposed rules for the organization and functions of Federal Executive Boards. Federal Executive Boards were established pursuant to a Presidential directive of November 10, 1961, which charged the Chairman of the former Civil Service Commission to arrange for the establishment of a Board in each of the Commission's administrative regions and to continue similar associations in other centers of Federal activity. Since then the Boards have been the responsibility, variously, of the Civil Service Commission and its successor, the Office of Personnel Management, and the Bureau of the Budget and its successor, the Office of Management and Budget. On June 7, 1982, the Executive Office of the President transferred authority for Federal Executive Board functions to the Office of Personnel Management. The rules proposed in this notice are intended to carry into effect the directive of the President that Federal Executive Boards be organized and operated to achieve better interagency coordination of Federal activity and to better communications between Government officials in Washington and in the field.

DATE: Comments must be received on or before April 4, 1983.

ADDRESS: Send or deliver comments to Joseph A. Morris, General Counsel, United States Office of Personnel Management, Room 5H30, Washington, D.C., 20415.

FOR FURTHER INFORMATION CONTACT: Roger Pilon, Special Assistant to the General Counsel, (202) 632-5423.

SUPPLEMENTARY INFORMATION:

Federal Executive Boards were created by the President to improve Federal management activities within major metropolitan centers across the country. Currently established in 26 cities that are major centers of Federal activity, the Boards are composed of the highest local officials of each Federal agency in those metropolitan areas. For several years, the Boards were jointly administered by the Civil Service Commission and the Bureau of the Budget. On June 7, 1982, the Executive Office of the President transferred authority for all Federal Executive Board functions to the Office of Personnel Management.

Federal Executive Boards are important organizational structures for outreach from Washington to Federal Government operations in the field. They function in four general areas: (1) Provision of a forum for the exchange of information between Washington and the field about programs, management methods, and administrative problems, (2) coordination of local approaches to national programs and such local interagency programs as may be approved by the Director; (3) communication from Washington to the field of management initiatives and other concerns for the improvement of coordination; and (4) referral to the national level of problems that cannot be resolved locally. These rules will provide a clear structure for the efficient organization and operation of Federal Executive Boards and will eliminate ambiguities and unnecessary activities that might interfere with the full development of the Boards as instruments of effective Government management and communication.

In view of the need to place the operations of Federal Executive Boards on a regular basis, and of the desirability of receiving the seasonable comments of Federal executives and other interested persons, the Director finds good cause for setting the comment period at 30 days.

E.O. 12291, Federal Regulations

OPM has determined that this is not a major rule for the purposes of E.O. 12291, Federal Regulations, because it will not result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because it only affects the organization and operation of Federal Executive Boards.

List of Subjects in 5 CFR Part 960

Government employees, Organization and functions (Government agencies).

Office of Personnel Management.

Donald J. Devine,

Director.

Accordingly, OPM proposes to amend 5 CFR by adding Part 960 to read as follows:

PART 960—FEDERAL EXECUTIVE BOARDS

Sec.

960.101 Definitions.
960.102 Authority and status.
960.103 Location.
960.104 Membership.
960.105 Officers and organization.
960.106 OPM leadership.
960.107 Authorized activities.
960.108 Additional rules and directives.

Authority: Memorandum of the President for Heads of Departments and Agencies (November 10, 1961).

§ 960.101 Definitions.

For purposes of this Part:

(a) The term "Director" means the Director of the United States Office of Personnel Management.

(b) The term "Executive agency" means a department, agency, or independent establishment in the Executive Branch.

(c) The term "metropolitan area" means a geographic zone surrounding a major city, as defined and delimited from time to time by the Director.

(d) The term "principal area officer" means, with respect to an Executive agency, the senior official of the Executive agency who is located in a

metropolitan area and who has no superior official within that metropolitan area other than in the Regional Office of the Executive agency. Where an Executive agency maintains facilities of more than one bureau or other subdivision within the metropolitan area, and where the heads of those facilities are in separate chains of command within the Executive agency, then the Executive agency may have more than one principal area officer.

(e) The term "principal regional officer" means, with respect to an Executive agency, the senior official in a Regional Office of the Executive agency.

(f) The term "special representative" means, with respect to an Executive Agency, an official who is not subject to the supervision of a principal regional officer or a principal area officer and who is specifically designated by the head of the Executive Agency to serve as the personal representative of the head of the Executive Agency.

§ 960.102 Authority and status.

Federal Executive Boards are established by direction of the President in order to strengthen the management and administration of Executive Branch activities in selected centers of field operations. Federal Executive Boards are organized and function under the authority of the Director.

§ 960.103 Location.

Federal Executive Boards have been established and shall continue in the following metropolitan areas: Albuquerque-Santa Fe, Atlanta, Baltimore, Boston, Buffalo, Chicago, Cincinnati, Cleveland, Dallas-Fort Worth, Denver, Detroit, Honolulu, Houston, Kansas City, Los Angeles, Miami, Minneapolis-St. Paul, New Orleans, New York, Newark, Philadelphia, Pittsburgh, Portland, St. Louis, San Francisco, and Seattle. The Director may, from time to time, dissolve, merge, or divide any of the foregoing Federal Executive Boards, or establish new Federal Executive Boards, as he may deem necessary, proper, or convenient.

§ 960.104 Membership.

(a) *Presidential Directive.* The President has directed the heads of agencies to arrange for the leading officials of their respective agencies' field activities to participate personally in the work of Federal Executive Boards.

(b) *Members.* The head of every Executive agency shall designate, by title of office, the principal regional officer, if any, and the principal area officer or officers, if any, who shall represent the agency on each Federal Executive Board; and by name and title of office, the special representative, if any, who shall represent the head of the agency on each Federal Executive Board. Such designations shall be made in writing and transmitted to the Director, and may be transmitted through the Chairmen of the Federal Executive Boards. Designations may be amended at any time by the head of the Executive agency.

(c) *Alternate Members.* Each member of a Federal Executive Board may designate an alternate member, who shall attend meetings and otherwise serve in the absence of the member. An alternate member shall be the deputy or principal assistant to the member or another senior official of the member's organization.

§ 960.105 Officers and organization.

(a) *By-Laws.* A Federal Executive Board shall adopt by-laws or other rules for its internal governance, subject to the approval of the Director. Such by-laws and other rules may reflect the particular needs, resources, and customs of each Federal Executive Board, provided that they are not inconsistent with the provisions of this Part or with the directives of the President or the Director. To the extent that such by-laws and other rules conflict with these provisions or the directives, of the President or the Director, such by-laws and other rules shall be null and void.

(b) *Chairman.* Each Federal Executive Board shall have a Chairman, who shall be elected by the members from among their number, and who shall serve for a term of office not to exceeed one year.

(c) *Staff.* As they deem necessary and proper, members shall, from time to time, designate personnel from their respective organizations to serve as the staff, or otherwise to participate in the activities, of the Federal Executive Board. Other personnel may be engaged, by appointment, contract, or otherwise, only with the approval of the Director.

(d) Unless otherwise expressly provided by law, by directive of the President or the Director, or by the by-laws of the Federal Executive Board, every committee, subcommittee council, and other sub-unit of the Federal Executive Board, and every affiliation of the Federal Executive Board with external organizations, shall expire upon expiration of the term of office of the Chairman. Such a committee, subcommittee, council, other sub-unit, or affiliation may be reestablished or renewed by affirmative action of the Federal Executive Board.

(e) *Board Actions.* Actions of a Federal Executive Board shall be taken only with the approval of a majority of the members thereof. This authority may not be delegated. All activities of a Federal Executive Board shall conform to applicable laws and shall reflect prudent uses of official time and funds.

§ 960.106 OPM leadership.

(a) *Role of the Director.* The Director is responsible to the President for the organizational and programmatic activities of the Federal Executive Boards. The Director shall direct and oversee the operations of Federal Executive Boards consistent with law and with the directives of the President. He may, from time to time, consult with, and require the advice of, the Chairmen, members, and staff of the Federal Executive Boards.

(b) *Role of the Director's Regional Representatives.* The Chairman of each Federal Executive Board shall report to the Director through the Director's Regional Representative, an official of the Office of Personnel Management. The Director's Regional Representatives shall oversee the activites of, and periodically visit and meet with, the Federal Executive Boards.

(c) *Communications.* The Office of Personnel Management shall maintain channels of communication from the Director through the Director's Regional Representatives to the Chairmen of the Federal Executive Boards, and between and among the Federal Executive Boards through the Director and the Director's Regional Representatives. Any Executive agency may use these channels to communicate with the Director and with the Federal Executive Boards. Chairmen of Federal Executive Boards may communicate with the Director on recommendations for action at the national level, on significant management problems that cannot be addressed at the local level, and on other matters of interest to the Executive Branch.

(d) *Reports.* Each Federal Executive Board shall transmit to the Director, over the signature of its Chairman, an annual work plan and an annual report to the Director on the significant programs and activities of the Federal Executive Board in each fiscal year. Each work plan shall set forth the proposed general agenda for the succeeding fiscal year. The work plan shall be subject to the approval of the Director. Each annual report shall describe and evaluate the proceeding fiscal year's activities. The first such annual report, for Fiscal Year 1982, and the first such work plan, for Fiscal Year 1983, shall be submitted together on May 1, 1983. The work plan for Fiscal Year 1984 shall be submitted on July 1,

1983, and the annual report for fiscal year 1983 shall be submitted on January 1, 1984. Subsequent annual report shall be submitted on January 1 and subsequent annual report work plans shall be submitted on July 1 in every year thereafter. In addition, members of Federal Executive Boards shall keep the headquarters of their respective Executive agencies informed of their activities by timely reports through appropriate agency channels.

(e) *Conferences.* The Director may, from time to time, convene regional and national conferences of Chairman and other representatives of Federal Executive Boards.

§ 960.107 Authorized activities.

(a) Each Federal Executive Board shall serve as an instrument of outreach for the national headquarters of the Executive Branch to Executive Branch activities in the metropolitan area. Each Federal Executive Board shall consider common management and program problems and develop cooperative arrangements that will promote the general objectives of the Government and of the several Executive agencies in the metropolitan area. Efforts of members, alternates, and staff in those areas shall be made with the guidance and approval of the Director; within the range of the delegated authority and discretion they hold; within the resources available; and consistent with the missions of the Executive agencies involved.

(b) Federal Executive Board shall: (1)— Provide a forum for the exchange of information between Washington and the field and among field elements in the metropolitan area about programs and management methods and problems; (2) develop local coordinated approaches to the development and operation of programs that have common characteristics; (3) communicate management initiatives and other concerns from Washington to the field to achieve better mutual understanding and support; and (4) refer problems that cannot be solved locally to the national level.

(c) Subject to the guidance of the Director, the Federal Executive Boards shall be responsible for:

(1) Presidential initiatives on management reforms such as priority items on the agendas of the Vice President's Task Force on Regulatory Relief and the President's Task Force on Private Sector Initiatives; personnel initiatives of the Office of Personnel Management; programs led by the Office of Management and Budget, such as Reform '88 and the President's Council on Integrity and Efficiency; and facilities planning led by the General Services Administration;

(2) The local Combined Federal Campaign, under the direction of the Director;

(3) The sharing of technical knowledge and resources in finance, internal auditing, personnel management, automated data processing applications, interagency use of computer installations, and similar commonly beneficial activities;

(4) The pooling of resources to provide, as efficiently as possible, and at the least possible cost to the taxpayers, common services such as employee first-aid, cardiopulmonary resuscitation ("CPR"), CPR training, preventative health programs, assistance to the aging, blood donor programs, and savings-bond drives;

(5) Encouragement of employee initiative and better performance through special recognition and other incentive programs, and provision of assistance in the implementation and upgrading of performance management systems;

(6) Emergency operations, such as under hazardous weather conditions; responding to blood donation needs; and communicating related leave policies;

(7) Such other programs, projects, and operations as may be set forth in the annual work plan approved by the Director.

(d) The Office of Personnel Management shall advise Federal Executive Boards on activities in the areas of performance appraisal and incentives, interagency training programs, the educational development of Government employees, improvement of labor-management relations, equal employment opportunity, the Federal Women's Program, the Federal Equal Opportunity Recruitment Program, the Hispanic Employment Program, the Veterans Employment Program, and selective placement programs for handicapped individuals.

(e) The Director may, from time to time, direct one or more of the Federal Executive Boards to address such specific programs or undertake such cooperative as he may deem necessary or proper.

§ 960.108 Additional rules and directives.

The Director may, from time to time, issue further rules and guidance for, and directives to, the Federal Executive Boards through the Federal Personnel Manual System and other appropriate instruments.

BILLING CODE 6325-01-M

DEPARTMENT OF AGRICULTURE

Federal Grain Inspection Service

Proposed Amendment to Standards for Sorghum

AGENCY: Federal Grain Inspection Service USDA.

ACTION: Proposed rule.

SUMMARY: In compliance with the requirements for the periodic review of existing regulations, the Federal Grain Inspection Service, (FGIS) proposes to amend the U.S. Standards for Sorghum by redefining the classes to permit a larger proportion of the sorghum crop to be graded White Sorghum. The definition of the class White Sorghum would be made less restrictive by permitting white-colored sorghum with dark spots which cover 25.0 percent or less of the kernel to be considered White Sorghum. An additional descriptive term for pericarps is also proposed. By easing the color restrictions in the class White Sorghum, more sorghum would be available for buyers who prefer to use white-colored sorghum for food, feed, or industrial purposes. Other miscellaneous changes of a nonsubstantive nature are proposed.

DATE: Comments must be submitted on or before May 3, 1983, public meeting April 4, 1983, 1:00 p.m. to 4:00 p.m.

ADDRESS: Comments must be submitted in writing, in duplicate, to Lewis Lebakken, Jr., Regulations and Directives Unit USDA, FGIS, Room 0667 South Building, 1400 Independence Avenue, SW, Washington, D.C. 20250; telephone (202) 382–1738. All comments received will be made available for public inspection at the above address during regular business hours (7 CFR 1.27 (b)).

FOR FURTHER INFORMATION CONTACT: Lewis Lebakken, Jr., (202) 382–1738.

SUPPLEMENTARY INFORMATION:

Public Meeting

The public meeting will be held in the auditorium at the Texas A&M Research and Extension Center, Corpus Christi, Texas. The Center is 3 miles west of the airport on State Highway 44.

Representatives from the sorghum industry and other interested parties are invited to attend the scheduled public meeting. Marketing and utilization of sorghum will be discussed. A question and answer period will follow the presentation and written comments will be accepted.

Executive Order 12291

This proposed rule has been issued in conformance with Executive Order 12291 and Secretary's Memorandum 1512–1. The action has been classified as nonmajor, because it does not meet the criteria for a major regulation established in the Order.

Regulatory Flexibility Act Certification

Kenneth A. Gilles, Administrator, FGIS, has determined that this proposed rule will not have a significant economic impact on a substantial number of small entities because most users of sorghum inspection services do not meet the requirements for small entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Review of Standards

The review of the standards included a determination of the continued need for the standards; a review of changes in marketing factors and functions affecting the standards; and a review of changes in technology and economic conditions in the area affected by the standards and their application through the incorporation of grading factors or tests which better indicate grain quality. The objective was to assure that the standards continued to serve the needs of the market to the greatest possible extent.

Comments including data, views, and arguments are solicited from interested parties. Pursuant to section 4(b) of the United States Grain Standards Act (7 U.S.C. 76(b)), upon request, such information may be presented orally in an informal manner. A public meeting is being held as indicated above. It should be noted that pursuant to section 4(b) of the Act, no standards established or amendments or revocations of standards under the Act are to become effective less than one calendar year after promulgation, unless in the judgment of the Administrator, the public health, interest, or safety requires that they become effective sooner.

Prior to 1974, the classes White, Yellow, and Brown Sorghum were permitted to contain up to 10 percent of sorghum of any other color, singly or combined. An excess of 10.0 percent of kernels of any other color would grade a lot as Mixed Sorghum. Colored spots upon kernels otherwise white in color did not affect their classification as White Sorghum.

Effective in 1974, changes proposed by sorghum breeders and producers of sorghum seed were made in the definition of the sorghum classes to upgrade the class White Sorghum as a premium quality product which could be used as a food-grade, feed, and industrial commodity. Changes included, (1) A tightening of requirements to permit not more than 2.0 percent of sorghum of any other color in the class White Sorghum, (2) classing as Yellow Sorghum all white-colored sorghum containing colored spots, and (3) retaining in Yellow Sorghum the 10.0 percent limit for other classes but considering only Brown Sorghum as other classes. At that time it was recognized that only a limited acreage of White Sorghum was produced in the United States but it was anticipated that with new White Sorghum varieties available, they would become more acceptable to producers with the adopted changes to the standards.

The first change made effective in 1974 was not unique, since the class White Corn incorporates an identical requirement. It created an evenly-colored class, not adulterated with a significant amount of kernels of other colors. The second and third changes made effective in 1974 modified the class Yellow Sorghum to contain a mixture of white and yellow kernels to be used for food or feed purposes in which the purity of pericarp color is not as important. The second change also had the effect of limiting the certification of the class White Sorghum because almost all white-colored sorghum contained a few colored spots, thereby disqualifying white-colored sorghum from being classed White Sorghum.

It has been presently determined that very little, if any, white-colored sorghum will grow to maturity without developing one or more colored spots on the pericarp. Spots develop on the pericarp as a result of staining, through contact with the glume, or as a result of insects feeding on the immature kernels. FGIS is in agreement with sorghum specialists at Texas A&M University that: (1) White-colored sorghum containing spots covering 25% or less of the kernel would be acceptable as White Sorghum, (2) sorghum with translucent pericarps which present a white or a slightly yellowish or waxy color would also be classed as White Sorghum provided they do not exceed the limitation of the class, and (3) since sorghum specialists have found that in Brown Sorghum the color on the subcoat ranges from a brown to a purplish hue, the term pigmented subcoat is more descriptive.

White-colored sorghum containing spots covering 25% or less of the kernel would be acceptable as White Sorghum because such levels would meet optimum market satisfaction as well as permit inspections to be performed with a minimum of difficulty.

Presently the definitions of white and yellow sorghum do not include translucent pericarps. Translucent pericarps are pericarps which are so thin that one can see through them; the kernels often appear to be slightly yellow. However, these pericarps are actually white pericarps. Inclusion of translucent pericarps in the definition of White Sorghum would have the effect of classifying as White Sorghum kernels that which presently would be classified as Yellow Sorghum. The proposed change in White Sorghum would necessitate a similar concurrent change in Yellow Sorghum.

Therefore, FGIS is proposing that: (1) White-colored sorghum containing spots which singly or in combination cover 25.0 percent or less of the kernel be classed as White Sorghum, (2) sorghum with translucent pericarps be included in the definition of White and Yellow Sorghum, and (3) the definition of Brown Sorghum be changed to sorghum with brown pericarps or pigmented subcoats.

At the time the 1974 changes were adopted, markets for white-colored sorghum had not been developed. This marketing situation continued until recently. Markets for white-colored sorghum are being developed, and it is anticipated that export volums could reach significant levels if adequate supplies could be made available by U.S. producers. To do so, the standards need to provide a classification of White Sorghum which contains criteria which could be met by currently-grown commercial varieties.

A nonsubstantive change to the order of the definitions in § 810.552(b)(1) through (4) is being made for clarity and consistency with other grain standards.

No further changes to the sorghum standards are being proposed pursuant to the review of the standards referenced herein. However, it is anticipated that changes will be proposed in the near future revising the basis of determination for odor for the sorghum standards as well as in the standards for wheat, corn, barley, rye, flaxseed, and triticale.

List of Subjects in 7 CFR Part 810

Export and Grain.

Accordingly, it is proposed that § 810.552 be amended by revising paragraph (b) of the United States Standards for Sorghum to read as follows:

PART 810—[AMENDED]

§ 810.552 Definitions of other terms.

* * * * *

(b) *Classes.* The following four classes:

(1) *White Sorghum.* Sorghum with white or translucent pericarps. Such sorghum containing spots which singly or in combination cover 25.0 percent or less of the kernel shall be considered as White Sorghum. White Sorghum shall contain not more than 2.0 percent (singly or combined) of kernels of sorghum of other colors.

(2) *Yellow Sorghum.* Sorghum with yellow, salmon-pink, red, white, or translucent pericarps, which contains not more than 10.0 percent of sorghum with brown pericarps or pigmented subcoats, and which does not meet the requirements for the class White Sorghum.

(3) *Brown Sorghum.* Sorghum with brown pericarps or pigmented subcoats which contains not more than 10.0 percent of sorghum of other colors.

(4) *Mixed Sorghum.* Sorghum which does not meet the requirements for any of the classes White Sorghum, Yellow Sorghum, or Brown Sorghum.

* * * * *

(Secs. 5, 16, Pub. L. 94-582, 90 Stat. 2869, 2884 (7 U.S.C. 76, 87(e))

7 CFR Part 810

Proposed Revision to the Basis of Determination of Odor for Wheat, Corn, Barley, Rye, Sorghum, Flaxseed, and Triticale

AGENCY: Federal Grain Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Federal Grain Inspection Service (FGIS) proposes that the standards for wheat, corn, barley, rye, sorghum, flaxseed, and triticale be revised so the determination of odor may be performed either prior to or after mechanical cleaning of the sample of grain to be inspected. The Official U.S. Standards for Grain specify that the odor determination for all grains be performed before the removal of any material from the sample to be inspected. However, checking the odor of samples of grain which have not been mechanically cleaned may adversely affect the health of grain inspectors who repeatedly make this determination over a long period of time. Certain components, both natural and introduced, are commonly found in grain and if inhaled can be potentially harmful. Providing the grain inspector with the option of determining odor on the mechanically cleaned sample would reduce the degree of risk to grain inspectors for inhalation of certain elements in grain samples, while not affecting the accuracy of the inspection results and final grade.

DATE: Comments must be submitted on or before May 3, 1983.

ADDRESS: Comments must be submitted in writing, in duplicate, to Lewis Lebakken, Jr., Regulations and Directives Management, USDA, FGIS, Room 0667 South Building, 14th and Independence Avenue, SW., Washington, D.C. 20250, telephone (202) 382-1738. All comments received will be made available for public inspection at the above address during regular business hours (7 CFR 1.27(b)).

FOR FURTHER INFORMATION CONTACT: Lewis Lebakken, Jr., (address above) telephone (202) 382-1738.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This proposed rule has been issued in conformance with Executive Order 12291 and Secretary's Memorandum 1512-1. The action has been classified as nonmajor, because it does not meet the criteria for a major regulation established in the Order.

Regulatory Flexibility Act Certification

Kenneth A. Gilles, Administrator, FGIS, has determined that this proposed rule will not have a significant economic impact on a substantial number of small entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because the action will not markedly change the overall inspection procedure or adversely affect the accuracy of inspection results. Changing the basis of determination of odor in the standards for wheat, corn, barley, rye, sorghum, flaxseed, and triticale would offer an alternative which provides a greater measure of safety than the present method of determining odor in grain while maintaining the accuracy required in the inspection process. Inspections are performed by FGIS delegated states and designated official agencies. These limited number of delegated states and designated official agencies are not considered small entities because they are dominant in their areas of operation based upon the mandated delegation/designated process under the Grain Standards Act. Further, most users of official services are not considered to be small entities.

Review of Standards

Standards for wheat, corn, barley, oats, rye, sorghum, flaxseed, soybeans, triticale, and mixed grain (7 CFR Part 810) have been established under the authority of the United States Grain Standards Act, (7 U.S.C. 71 *et. seq.*, the Act). Comments including data, views, and arguments are solicited from interested persons. Pursuant to section 4(b) of the Act, (7 U.S.C. 76(b)), upon request, such information may be presented orally in an informal manner. It should be noted that pursuant to section 4(b) of the Act no standards established or amendments or revocations of standards under the Act are to become effective less than one calendar year after promulgation, unless in the judgment of the Administrator the public health, interest or safety requires that they become effective sooner.

FGIS has determined that the health and safety aspects involved with this proposal would warrant an effective date of less than one calendar year after promulgation and therefore anticipates that these proposed revisions, if adopted, will be made effective 30 days after promulgation.

The U.S. Standards for Grain specify that odor is a grade determining factor and must be performed prior to removal of any material from the sample of grain, i.e., on the basis of the sample as a whole, grain as a whole, or test portion of the original sample.

The standards for wheat, corn, barley, rye, sorghum, flaxseed, and triticale include procedures to mechanically clean samples of grain by use of the Carter Dockage Tester or any other equipment approved by the Administrator. The standards for oats, soybeans, and mixed grain do not, however, include a process to mechanically clean samples which are officially inspected.

To correctly determine if an odor is present in a sample of grain, the inspector must thoroughly smell the grain. However, determining odor on the sample before it is mechanically cleaned may result in the inhalation of potentially irritating and/or toxic materials such as grain dust, molds, and pesticides. Repeated inhalation may result in irritation or blockage of the nasal passages.

Grain dust is a constituent normally found in small quantities in samples of harvested grain. Molds and pesticides are not present in all lots or samples of grain but are commonly found. Mold commonly occurs in grain which is not

stored under optimum conditions. Pesticides and their residues are found in grain which has been treated to prevent or eliminate insect or other infestation.

All of these properties may represent a potential health hazard to the grain inspector if inhaled repeatedly over a long period of time. Grain dust is known to be an irritant to the respiratory system. Dust also acts as a carrier of molds which have the potential for causing respiratory diseases. Pesticides and their residues may be potentially harmful or toxic, even in low concertrations, if inhaled repeatedly.

The option to mechanically clean grain prior to the determination of odor would reduce the potential health hazard to the grain inspector. Extracting dockage from wheat, barley, rye, flaxseed, and triticale; dockage and that part of the broken kernels, foreign material, and other grains which will pass through a ¾ inch triangular-hole sieve from sorghum; and broken corn and foreign material (BCFM) from corn, cleans the grain by eliminating a large portion of the grain dust and foreign matter and has a tendency to aerate the grain. Aeration hastens the dissipation of insecticides and other pesticides, if present, and helps reduce the concentration to which the grain inspector may be exposed when determining odor.

The absence of a procedure to mechanically clean soybeans, oats, and mixed grain necessitates that odor determinations of these grains be performed on the grain as a whole, that is, the test portion of the original sample. This should not, however, have any effect on the health of grain inspectors. Although a sizable number of soybean inspections are performed, this grain is seldom treated with pesticides and generally contains less dust than the other types of grain. The total number of official oat and mixed grain inspections performed is low compared to the total number of inspections performed on the majority of the other grains for which standards have been established. In fiscal year 1981 oats and mixed grain inspections comprised approximately 0.8 and 0.4 percent, respectively, of the total number of grain inspections performed by official inspection agencies, delegated states, and FGIS: therefore, the frequency of contact with grain dust and pesticides through inspection of these grains is minimal. Therefore, no changes are proposed for the soybeans, oats and mixed grain standards at this time.

No adverse effects on the grain marketing process would be expected if the basis of determination of odor in the standards for wheat, corn, barley, rye, sorghum, flaxseed, and triticale is revised. Few contaminants could impart an odor to a sample of grain prior to cleaning but leave no trace of odor, the concentration of seeds in the sample is usually high and a carry-over of odor to the grain occurs. If an odor was suspected in a mechanically cleaned sample, the separations could be recombined after the other inspection procedures are completed and the odor checked again. FGIS Instructions will be revised to address this situation.

Included also in this proposal are miscellaneous nonsubstantive changes to make "Basis of determination" plural in §§ 810.203, 810.303, 810.352(a), 810.553, and 810.653, and to delete the word "grade" in § 810.409(a). These nonsubstantive changes are being made to achieve uniformity in format and structure of all the standards under the Act.

List of Subjects in 7 CFR Part 810

Exports, Grain.

PART 810—GRAIN STANDARDS

Accordingly, it is proposed that § 810.203; § 810.303(b) and (c); § 810.352(a); § 810.409(a); § 810.506; § 810.553; and § 810.653 (b) and (c) be revised.

1. Section 810.203 is proposed to be revised to read as follows:

United States Standards for Barley

Principles Governing the Application of the Standards

§ 810.203 Basis of determinations.

Each determination of dockage, moisture, temperature, garlic, live weevils or other insects injurious to stored grain, crotalaria seeds, large stones, castor beans, broken glass, animal filth, an unknown foreign substance, a commonly recognized harmful or toxic substance, and otherwise distinctly low quality shall be upon the basis of the grain as a whole. Each determination of heat-damaged kernels, white aleurone layers in Six-rowed Malting Barley; and blue aleurone layers in Six-rowed Blue Malting Barley shall be determined on a test portion of pearled, dockage-free barley. All other determinations shall be on a test portion of barley when free from dockage, except the determination of odor shall be upon either the basis of the grain as a whole or the grain when free from dockage.

United States Standards for Wheat

Principles Governing Application of Standards

2. Section 810.303 (b) and (c) are proposed to be revised as follows:

§ 810.303 Basis of determinations.

(a) *Distinctly low quality.* * * *

(b) *Certain quality determinations.* Each determination of rodent pellets, bird droppings, other animal filth, broken glass, castor beans, crolataria seeds, dockage, garlic, live weevils or other insects injurious to stored grain, moisture, temperature, an unknown foreign substance, and a commonly recognized harmful or toxic substance shall be upon the basis of the sample as a whole.

(c) *All other determinations.* All other determinations shall be upon the basis of the grain when free from dockage; except that the determination of heat-damaged kernels, damaged kernels (total), and foreign material shall be upon the basis of the grain when free from dockage and shrunken and broken kernels; and the determination of odor shall be upon either the basis of the sample as a whole or the grain when free from dockage.

* * * * *

United States Standards for Corn

3. Section 810.352(a) is proposed to be revised as follows:

§ 810.352 Principles governing the application of the standards.

* * * * *

(a) *Basis of determinations.* Each determination of class, damaged kernels, heat-damaged kernels, flint corn, and flint and dent corn shall be upon the basis of the grain after the removal of the broken corn and foreign material. All other determinations shall be upon the basis of the grain as a whole, except the determination of odor shall be upon either the basis of the grain as a whole or the grain after removal of the broken corn and foreign material.

* * * * *

United States Standards for Rye

4. Section 810.409(a) is proposed to be revised as follows:

§ 810.409 Grade factors; definitions.

(a) *Basis of determinations.* Each determination of dockage, temperature, garlic, and live weevils or other insects injurious to stored grain shall be upon the basis of the grain as a whole. All other determinations shall be upon the basis of the grain when free from

dockage, except the determination of odor shall be upon either the basis of the grain as a whole or the grain when free from dockage.

* * * * *

United States Standards for Flaxseed

5. Section 810.506 is proposed to be revised as follows:

§ 810.506 Basis of determinations.

Each determination of moisture, test weight per bushel, heat-damaged flaxseed, and damaged flaxseed shall be upon the basis of the grain after the removal of that part of the dockage which can be removed readily by the use of appropriate sieves and cleaning devices. All other determinations shall be upon the basis of the grain as a whole, except the determination of odor shall be on either the basis of the grain as a whole or the grain after the removal of that part of the dockage which can be removed readily by the use of approved sieves and cleaning devices.

United States Standards for Sorghum

Principles Governing Application of Standards

6. Section 810.553 is proposed to be revised as follows:

§ 810.553 Basis of determinations.

Each determination of broken kernels, foreign material, and other grains shall be determined on a test portion of the grain sample when free from dockage. Each determination of class, damaged kernels, heat-damaged kernels, and stones shall be determined on a test portion of the grain sample when free from dockage, and that part of the broken kernels, foreign material, and other grains which will pass through a ⅞₄ inch triangular-hole sieve (see § 810.552(k)). All other determinations shall be on a test portion of the original sample, except the determination of odor shall be on either a test portion of the original sample or a test portion of the grain sample when free from dockage, and that part of the broken kernels, foreign material, and other grains which will pass through a ⅞₄ inch triangular-hold sieve.

United States Standards for Triticale

Principles Governing The Application of the Standards

7. Section 810.653 (b) and (c) are proposed to be revised as follows:

§ 810.653 Basis of determinations.

(a) *Distinctly low quality* * * *

(b) *Certain quality determinations.* Each determination of rodent pellets, bird droppings, other animal filth, broken glass, castor beans, crotalaria seeds, dockage, garlic, live weevils or other insects injurious to stored grain, moisture, temperature, an unknown foreign substance, and a commonly recognized harmful or toxic substance shall be upon the basis of the sample as a whole.

(c) *All other determinations.* All other determinations shall be upon the basis of the grain when free from dockage; except that the determination of heat-damaged kernels, damaged kernels (total), material other than wheat or rye, and foreign material (total) shall be upon the basis of the grain when free from dockage and shrunken and broken kernels; and the determination of odor shall be upon either the basis of the sample as a whole or the grain when free from dockage.

* * * * *

(Secs. 5, 10, Pub. L. 95–583, 90 Stat. 2860, 2884 (7 U.S.C. 76, 87 (e)))

Dated: February 17, 1983.

Kenneth A. Gilles,

Administrator.

BILLING CODE 3410-EN-M

Food Safety and Inspection Service

9 CFR Parts 317, 318, and 319

[Docket No. 79-714E]

Requirements for Cured Pork Products; Updating of Provisions

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Proposed rule; extension of comment period.

SUMMARY: On November 10, 1982, the Food Safety and Inspection Service (FSIS) published in the **Federal Register** (47 FR 50900–50914) a proposed rule which, if adopted, would modernize the regulatory program assuring that cured pork products are accurately labeled at all stages of commerce. Information has been received which suggest that the original comment period may not be adequate to permit a thorough discussion of this proposal. In view of the importance of the proposed rule FSIS is hereby extending the comment period for 45 days.

DATE: Comments must be received on or before April 25, 1983.

ADDRESS: Written comments to: Regulations Office, Attn: Annie Johnson, FSIS Hearing Clerk, Room 2637, South Agriculture Building, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250.

FOR FURTHER INFORMATION CONTACT: Mr. B. F. Dennis, Director, Processed Products Inspection Division, Meat and Poultry Inspection Technical Services, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–3840.

SUPPLEMENTARY INFORMATION: On November 10, 1982, the Food Safety and Inspection Service (FSIS) published a proposed rule which, if adopted, would amend the sections of the meat inspection regulations assuring that cured pork products are accurately labeled at all stages of commerce. The proposal would modernize the regulations by requiring that labeling statements be based on the style and type of product; that standards specifying a minimum meat protein content on a fat free basis (PFF) present in the finished cured pork products replace the current standards limiting the amount of added water and other substances; and that restrictions on optional ingredients in the standard for "chopped ham" be eliminated. Compliance procedures to assure conformance with the proposed standards were also proposed, as were provisions for relabeling and/or processing products not in conformance with regulatory standards. Interested persons were given until March 10, 1983, to submit comments on these proposed changes.

FSIS has received information indicating that the original comment period may not be sufficient for a full discussion of the issues presented in the proposal. In view of the importance of this proposal and since FSIS is interested in developing a complete record prior to taking any final action, the Administrator has decided to extend the comment period for an additional 45 days. In all other respects, the proposed rule as published on November 10, 1982, is unaffected by this notice.

Done at Washington, DC, on: February 28, 1983.

Donald L. Houston,

Administrator, Food Safety and Inspection Service.

[FR Doc. 83-5698 Filed 3-3-83; 8:45 am]

BILLING CODE 3410-DM-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 140

Financial Protection Requirements and Indemnity Agreements; Removal of Appendices A Through H

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission is proposing to amend its regulations pertaining to financial protection requirements and indemnity agreements by removing Appendices A through H from 10 CFR Part 140. Appendix A contains the Facility Form nuclear liability insurance policy provided by certain licensees as evidence of financial protection required under the Price-Anderson Act. Appendices B through H, except for Appendix F, are standard form indemnity contracts. The purpose of this amendment is to make the information contained in the Appendices available in the form of a Regulatory Guide and to remove unnecessary detail from the regulations.

DATE: Submit comments by April 4, 1983. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before this date.

ADDRESSES: Send Comments to: Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, ATTN: Docketing and Services Branch.

FOR FURTHER INFORMATION CONTACT: Ira Dinitz, Office of State Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 492-9884.

SUPPLEMENTARY INFORMATION: In a Federal Register notice published on February 18, 1981 (46 FR 12750), the Commission sought public comment on the question of whether it should reconsider its traditional approach of publishing in 10 CFR 140.91 (Appendix A to Part 140) the entire Facility Form of nuclear liability insurance policy (and endorsements to that policy) furnished by certain licensees as evidence of financial protection. The Commission requested comments on the alternative approach of publishing only those provisions of the policy and endorsements relating to the NRC responsibilities for protection of the public.

After evaluating comments received on that notice, as well as further consideration of this issue, the Commission decided that because of the level of detail in the Facility Form policy and the fact that this policy is merely one form which would be acceptable to the Commission rather than the required form, it would be more appropriate to publish Appendix A as a Regulatory Guide. Further, the Commission has also decided that, in the interest of making the regulations less detailed, Appendices B through H should also be removed from 10 CFR Part 140 and published as a Regulatory Guide. Appendices B, C, D, E, G, and H are standard form indemnity contracts executed by the Commission and its licensees. Appendix F is not a form of indemnity agreement but a determination by the Commission of what the boundaries of indemnity locations should encompass when multiple reactors exist as part of a single operating station. References to the Appendices in the text of Part 140 will also be deleted.

Commissioner Asselstine disagrees with the Commission majority's decision to issue a proposed rule to delete Appendices A through H to 10 CFR Part 140 from the Commission's regulations. He agrees with the advice of the NRC's Committee to Review Generic Requirements (CRGR) that this decision creates the potential for protracted licensing hearings by permitting case-by-case litigation on the forms of indemnity contracts and insurance agreements. Commissiner Asselstine believes that as a fundamental concept of regulatory reform, the Commission should seek to resolve issues generically through rulemaking where possible, thereby reducing the number of issues that must be addressed on a case-by-case basis in individual plant licensing proceedings. He believes the Commission majority's action in this instance directly violates that concept. Commissioner Asselstine would particularly appreciate comments on the potential for duplicative and protracted litigation in individual licensing proceedings if the proposed rule to eliminate Appendices A through H is made final.

Paperwork Reduction Act Statement

Pursuant to the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501, et seq.), the NRC has made a determination that this rule would not impose new recordkeeping, application, reporting, or other types of information collection requirements.

Regulatory Flexibility Certification

In accordance with the Regulatory Flexibility Act of 1980, 5 U.S.C. 605(b), the Commission hereby certifies that the rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. The proposed rule affects in part two named nuclear liability insurance underwriting pools. These two pools are the only ones in the U.S. writing nuclear liability policies, and do not fall within the definition of a small business found in section 3 of the Small Business Act, 15 U.S.C. 632, or within the Small Business Size Standards set forth in 13 CFR Part 121.

List of Subjects in 10 CFR Part 140

Extraordinary nuclear occurrence, Insurance, Intergovernmental relations, Nuclear materials, Nuclear power plants and reactors, Penalty, Reporting requirements.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C 553, notice is hereby given that adoption of the following amendments to 10 CFR Part 140 is contemplated.

The authority citation for this document is: Sec. 161, Pub. L. 83-703, 68 Stat. 948, as amended (42 U.S.C. 2201), and Sec. 201, Pub. L. 93-438, 88 Stat. 1242 (42 U.S.C. 5841).

PART 140—FINANCIAL PROTECTION REQUIREMENTS AND INDEMNITY AGREEMENTS

§§ 140.91—140.108 [Removed]

1. Appendices A, B, C, D, E, F, G, H, (§ 140.91 through § 140.108) are removed.

2. In § 140.2, paragraph (c) is revised to read as follows:

§ 140.2 Scope.

* * * * *

(c) (1) Subpart E of this part sets forth the procedures the Commission will follow and the criteria the Commission will apply in making a determination as to whether or not there has been an extraordinary nuclear occurrence. Subpart E is included in this part pursuant to Pub. L. 89-645 (80 Stat. 891).

(2) Pursuant to Pub. L. 89-645 (80 Stat. 891), the Commission also requires certain facility licensees to have and maintain financial protection (e.g., nuclear energy liability insurance policies) and execute indemnity agreements with the Commission. These documents include provisions requiring the licensees to waive certain defenses in the event of an extraordinary nuclear occurrence. These provisions provide additional assurance of prompt compensation under available indemnity and underlying financial protection for injury or damage resulting from the hazardous properties of radioactive materials or radiation. They in no way detract from the protection to the public otherwise provided under this part.

§ 140.9 [Removed]

3. Section 140.9 is removed.

4. In §140.15, paragraphs (a)(1)–(2) are revised to read as follows:

§ 140.15 Proof of financial protection.

(a) (1) Licensees who maintain financial protection in whole or in part in the form of liability insurance shall (with respect to that insurance) provide proof of financial protection that consists of a copy of the liability policy (or policies) together with a certificate by the insurers issuing that policy that states that the copy is a true copy of a currently effective policy issued to the licensee.

(2) Proof of financial protection may alternatively consist of a copy of the declarations page of a nuclear energy liability policy issued to the licensee: Provided, that the insurers have filed that policy form with the Commission. The licensee shall include with the declarations page a certificate in which the insurers state that the copy is a true copy of the declarations page of a currently effective policy. The insurers shall also identify the policy (including endorsements) by reference to the policy form they have filed with the Commission.

* * * * *

§ 140.20 [Amended]

5. In § 140.20, paragraphs (f) (1) (i)-(ii) and (f) (2) are removed, and paragraph (f) (3) is redesignated paragraph (f).

6. Section 140.22 is revised to read as follow:

§140.22 Commission guarantee and reimbursement agreements.

Each licensee required to have and maintain financial protection for each nuclear reactor as determined in § 140.11 (a) (4) shall execute an indemnity agreement with the Commission that provides for Commission payment of deferred premiums and licensee reimbursement to the Commission.

§ 140.52 [Amended]

7. In § 140.52, paragraphs (b) (1)–(2) are removed, and paragraph (b) (3) is redesignated as paragraph (b).

§140.72 [Amended]

8. In § 140.72, paragraphs (b) (1)–(2) are removed, and paragraph (b) (3) is redesignated as paragraph (b).

Dated at Washington, DC this 25th day of February 1983.

For the Nuclear Regulatory Commission.

Samuel Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

15 CFR Part 939

[Docket No. 30105-04]

La Parguera National Marine Sanctuary

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule.

SUMMARY: These proposed regulations define which activities are allowed and which are prohibited within the proposed La Parguera National Marine Sanctuary, the procedures by which persons may obtain permits for research of activities normally prohibited, and the penalties for committing prohibited acts without a permit. The purpose of designating the La Parguera National Marine Sanctuary is to protect and preserve a representative cross-section of tropical habitat and a coral reef ecosystem in its natural state and to regulate uses within the Sanctuary to insure the health and well-being of the coral and associated flora and fauna.

DATES: Comments will be accepted until May 3, 1983. After the close of the comment period and review of comments received, final regulations will be published in the Federal Register.

ADDRESS: Send comments to Dr. Nancy Foster, Deputy Chief, Sanctuary Programs Division, Office of Ocean and Coastal Resource Management, National Ocean Service, NOAA, 3300 Whitehaven Street, NW., Washington, D.C. 20205.

FOR FURTHER INFORMATION CONTACT: Edward Lindelof, 202/634–4236.

SUPPLEMENTARY INFORMATION: Title III of the Marine Protection, Research, and Sanctuaries Act of 1972, 16 U.S.C. 1431–1434 (the Act) authorizes the Secretary of Commerce, with Presidential approval, to designate ocean waters as far seaward as the outer edge of the continental shelf as marine sanctuaries to preserve or restore distinctive conservation, recreational, ecological, or aesthetic values. Section 302(f)(1) of the Act directs the Secretary to issue necessary and reasonable regulations to control any activities permitted within a designated marine sanctuary. The authority of the Secretary to administer the provisions of the Act has been delegated to the Assistant Administrator for Ocean Services and Coastal Zone Management within the National Oceanic and Atmospheric Administration, U.S. Department of Commerce (the Assistant Administrator).

In May 1979, six sites were nominated for consideration as a National Marine Sanctuary by the Department of Natural Resources (DNR), Commonwealth of Puerto Rico. The sites were Cordillera/Culebra/Vieques, Salinas/Jobos, Cayo Berberia/Caja de Muertos, La Parguera, Mona/Monito Islands and Desecheo Island. Information was distributed to the public for comment on the feasibility of these sites as marine sanctuaries. As a result of public review, three sites were selected for further analysis: Cordillera/Culebra/Vieques, La Parguera, and Mona/Monito Islands. In May 1981, an Issue Paper was distributed and workshops held on the final three sites.

Following the workshops a decision was made by NOAA and DNR to develop draft regulations, a draft management plan and draft environmental impact statement (DEIS) on the proposed La Parguera site. The regulations found herein are also included as part of the draft management paln/DEIS. The public review period for the management plan/DEIS runs concurrently with this comment period. Following the end of the comment period final regulations, a final environmental impact statement and management plan will be developed for public review. The next step is review and approval by the President after which the Secretary of Commerce formally designates the area as a national marine sanctuary and the final regulations take effect. The Governor of Puerto Rico then has 60 days to disapprove the designation or any of its terms and both Houses of Congress also have 60 days to adopt a concurrent resolution which disapproves the designation or any of its terms.

The proposed sanctuary contains hundreds of species of marine organisms including Caribbean corals, endangered and threatened sea turtles, significant mangrove stands and diverse tropical fuana and floral communities. The area provides exceptional recreational experiences and unique scientific value as an ecological, recreational and aesthetic resource.

Other Matters

Executive Order 12291 (E.O. 12291) defines a "major rule" as "any regulation that is likely to result in (1) an annual effect on the economy of $100 or more; (2) a major increase in cost or prices for consumers, individual industries, Federal, State or local government agencies, or geographic

regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete in domestic or export markets." The economic activity supported by the area within the sanctuary consists of a diversity of small scale commercial and recreational activities.

Most of the activities in the sanctuary are not affected by sanctuary regulations; the economic impacts on affected activities in the sanctuary are minor and regulations do not restrict recreational activities. Because the impact of the regulations on economic interests is minor or because the activities are not regulated at all, the Assistant Administrator has determined that this is not a "major rule" under E.O. 12291. For the same reasons, the Assistant Administrator has determined that the proposed rules will not have a significant economic impact on small entities in the sanctuary under the Regulatory Flexibility Act. These regulations will impose no information collection requirements of the type covered by Pub. L. 96-511 on affected State governments. Publication does not constitute major Federal action significantly affecting the quality of the human environment.

List of Subjects in 15 CFR Part 939

Administrative practice and procedure, Environmental protection, Marine resources, and Natural resources.

Dated: February 25, 1983.

William Matuszeski,

Acting Deputy Assistant Administrator for Ocean Services and Coastal Zone Management.

(Federal Domestic Assistance Catalog Number 11.419, Coastal Zone Management Program Administration)

Accordingly, Part 939 is proposed to be added as follows:

PART 939—LA PARGUERA NATIONAL MARINE SANCTUARY DRAFT REGULATIONS

Sec.

939.1 Authority.
939.2 Purpose.
939.3 Boundaries.
939.4 Definitions.
939.5 Management and enforcement.
939.6 Allowed activities.
939.7 Activities prohibited or controlled.
939.8 Other authorities.
939.9 Penalties for commission of prohibited acts.
939.10 Permit procedures and criteria.
939.11 Appeals of administrative action.

Authority: Secs. 302(f) and (g) and 303, Pub. L. 92-532, 86 Stat. 1061 and 1062; 16 U.S.C. 1431-1434.

§ 939.1 Authority.

The Sanctuary will be designated by the Secretary of Commerce pursuant to the authority of Section 302(a) of the Marine Protection, Research and Sanctuaries Act of 1972 as amended (the Act). The following regulations are issued pursuant to the authorities of Sections 302(f), 302(g) and 303 of the Act.

§ 939.2 Purpose.

The purpose of designating the La Parguera National Marine Sanctuary is to protect and preserve a representative cross-section of tropical habitat and a coral reef ecosystem in its natural state and to regulate uses within the Sanctuary to insure the health and well-being of the coral and associated flora and fauna.

§ 939.3 Boundaries.

The sanctuary consists of a 68.27 square nautical mile area of the Caribbean Sea off southwest Puerto Rico. The exact boundaries are:

Pt. No.	*Latitude and Longitude*	
1-1	N17°57'15.00"	W67°12'50.00"
1-2	N17°56'20.36"	W67°11'52.00"
1-3	N17°52'58.51"	W67°11'52.00"

1-21	N17°53'51.37"	W66°58'00.00"
1-22	N17°56'43.00"	W66°58'00.00"

§ 939.4 Definitions.

(a) "Administrator" means the Administrator of the National Oceanic and Atmospheric Administration (NOAA).

(b) "Assistant Administrator" means the Assistant Administrator for Ocean Services and Coastal Zone Management, National Ocean Service, National Oceanic and Atmospheric Administration or his/her successor, or designee.

(c) "Secretary" means the Secretary of the Department of Natural Resources, Commonwealth of Puerto Rico.

(d) "Persons" means any private individual, partnership, corporation, or other entity; or any officer, employee, agent, department, agency or instrumentality of the Federal government, or any State or local unit of the government.

(e) "The Sanctuary" means the La Parguera National Marine Sanctuary.

§ 939.5 Management and Enforcement.

The National Oceanic and Atmospheric Administration (NOAA) has primary responsibility for the management of the Sanctuary pursuant to the Act. The Puerto Rico Department of Natural Resources (DNR) will assist NOAA in the administration of the Sanctuary, and act as the onsite manager, in conformance with the draft Designation Document between DNR and NOAA. DNR shall conduct surveillance and enforcement of these regulations pursuant to 16 U.S.C. 1432(f)(4), or other appropriate legal authority.

§ 939.6 Allowed Activities.

All activities except those specifically prohibited by § 939.7 may be carried on within the Sanctuary subject to all prohibitions, restrictions, and conditions imposed by other authorities.

§ 939.7 Activities Prohibited or Controlled.

(a) Unless permitted by the Assistant Administrator in accordance with § 939.10, or as may be necessary for the national defense, or to respond to an emergency threatening life, property or the environment, the following activities are prohibited or controlled within the Sanctuary. All prohibitions and controls must be applied consistently with international law. Refer to § 939.9 for penalties for commission of prohibited acts.

(1) *Taking and Damaging Natural Resources.* (i) No person shall break, cut, or similarly damage or destroy the coral, bottom formation, or any marine plant, except institutions conducting scientific or educational activities that were exempted pursuant to Article 4 of the Regulations to Control the Extraction, Possession, Transportation, and Sale of Coral Resources in Puerto Rico (under authority conferred by Law No. 23 of June 20, 1972 and Law No. 83 of May 13, 1936, as amended). These eligible institutions are the University of Puerto Rico, Administration of Regional Colleges, Interamerican University, Catholic University, Center for Energetic and Environmental Research,

Environmental Quality Board, and the Puerto Rico Department of Natural Resources.

(ii) No person shall cut, damage, or similarly destroy any red mangrove *(Rhizophora mangle)* except as part of a program of routine channel maintenance.

(iii) No person shall use poisons, electrical charges, explosives, or similar methods to take any marine animal or plant.

(iv) There shall be a presumption that any items listed in this paragraph found in the possession of a person within the Sanctuary have been collected or removed from the Sanctuary.

(2) *Operation of Vessels.* (i) No vessel shall approach closer than 200 feet to a fishing vessel or a vessel displaying a diving flag except at a maximum speed of three knots.

(ii) No vessel or person shall interfere with any fishing activity.

(iii) All vessels from which diving operations are being conducted shall fly in a conspicuous manner, the international code flag alpha "A."

(3) *Discharging of Polluting Substances.* No person shall litter, deposit, or discharge any materials or substances of any kind except:

(i) Indigenous fish or fish parts;

(ii) Cooling waters from vessels;

(iii) Effluents from marine sanitation devices allowable under Coast Guard standards.

(iv) On a temporary basis, sewage from existing shoreline houses known as casetas with recognized permits from COE. This exception shall expire upon the completion and operation of an area wide sewage collection and treatment system or until the expiration of the Memorandum of Understanding between the Governor of Puerto Rico and the U.S. Army Corps of Engineers for the La Parguera area dated June 13, 1978, whichever is earlier.

(4) *Underwater Trails.* (i) No person shall fish within the underwater trails.

(ii) No person shall mark, deface, or injure in any way, or displace, remove, or tamper with underwater trails, signs, markers, or buoys.

(5) *Removing or Damaging Cultural Resources.* No person shall remove, damage, or tamper with any historical or cultural feature, including archaeological sites, historic structures, shipwrecks, and artifacts.

(6) *Damage to Fish Traps.* No person shall disturb, harm, or tamper with any legal fishing gear, nets, traps, or pots.

(7) *Taking of Sea Turtles.* (i) No person shall ensnare, entrap, or fish any sea turtle while it is a threatened or endangered species as defined by the Endangered Species Act of 1973.

(ii) No person shall possess or use any nets or similar fishing gear with a mesh size in excess of eight inches.

(b) The prohibitions in this section will be applied to foreign persons and vessels only in accordance with recognized principles of international law, including treaties, conventions and other international agreements to which the United States is signatory.

§ 939.8 Other Authorities.

No license, permit or other authorization issued pursuant to any other authority may validly authorize any activity prohibited by § 939.7 unless such activity meets the criteria stated in § 939.10(a), (c) and (d) and is specifically authorized by the Assistant Administrator.

§ 939.9 Penalties for Commission of Prohibited Acts.

Section 303 of the Act authorizes the assessment of a civil penalty of not more than $50,000 for each violation of any regulation issued pursuant to the Act, and further authorizes a proceeding in rem against any vessel used in violation of any such regulation. Procedures are set out in Subpart D of Part 922 of this chapter. Subpart D is applicable to any instance of a violation of these regulations.

§ 939.10 Permit Procedures and Criteria.

Under special circumstances where the prohibited activity is research or education needed to better understand the Sanctuary environment and improve management decisionmaking and judged not to cause long-term or irreparable harm to the resources, a permit may be granted by NOAA in cooperation with the Secretary of DNR.

(a) Any person in possession of a valid permit issued by the Assistant Administrator in cooperation with the Secretary of the Department of Natural Resources, Commonwealth of Puerto Rico in accordance with this section may conduct the specific activity in the Sanctuary including any activity specifically prohibited under § 939.7 if such activity is (1) research related to the resources of the Sanctuary, (2) to further the educational value of the Sanctuary, or (3) for salvage or recovery operations.

(b) Permit applications shall be addressed to the Assistant Administrator, ATTN: Sanctuary Programs Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, 3300 Whitehaven Street NW., Washington, D.C. 20235. An application shall include a description of all activities proposed, the equipment, methods, and personnel (particularly describing relevant experience) involved, and a timetable for completion of the proposed activity. Copies of all other required licenses or permits shall be attached.

(c) In considering whether to grant a permit, the Assistant Administrator shall evaluate such matters as (1) the general professional and financial responsibility of the applicant; (2) the appropriateness of the methods being proposed to the purpose(s) of the activity; (3) the extent to which the conduct of any permitted activity may diminish or enhance the value of the Sanctuary as a source of recreation, education, or scientific information; and (4) the end value of the activity.

(d) Permits may be issued by the Assistant Administrator for activities otherwise prohibited under § 939.7. In addition to meeting the criteria in § 939.10 (a) and (c), the applicant must also satisfactorily demonstrate to the Assistant Administrator that: (1) The activity shall be conducted with adequate safeguards for the environment, and (2) the environment shall be returned to the condition which existed before the activity occurred. A permit issued according to the provisions for an otherwise prohibited activity shall be appropriately conditioned, and the activity monitored to ensure compliance.

(e) In considering an application submitted pursuant to this Section, the Assistant Administrator shall seek and consider the view of the Secretary of the Department of Natural Resources. The Assistant Administrator may also seek and consider the views of any other person or entity, within or outside of the Federal Government, and may hold a public hearing, as he/she deems appropriate.

(f) The Assistant Administrator may, at his/her discretion, grant a permit which has been applied for pursuant to this section, in whole or in part, and subject to such condition(s) as deemed necessary, and shall attach to any permit grant for research related to the Sanctuary stipulations to the effect that: (1) The Assistant Administrator, Secretary of Department of Natural Resources, or their designated representatives may observe any activity permitted by this section; and (2) any information obtained in the research site shall be made available to the public; and/or the submission of one or more reports of the status of progress of such activity may be required.

(g) A permit granted pursuant to this section is nontransferable.

(h) The Assistant Administrator may amend, suspend or revoke a permit granted pursuant to this section, in whole or in part, temporarily or indefinitely if, in his/her view, the permit holder (the Holder) had acted in violation of the terms of the permit or of the applicable regulations; or the Assistant Administrator may do so for other good cause shown. Any such action shall be communicated in writing to the Holder, and shall set forth the reason(s) for the action taken. The Holder in relation to whom such action has been taken may appeal the action as provided for in § 939.11.

§ 939.11 Appeals of Administrative Action.

(a) The applicant for a permit, the Holder, or any other interested person (hereafter Appellant) may appeal the granting, denial, conditioning or suspension of any permit under § 939.10 to the Administrator of NOAA. In order to be considered by the Administrator, such appeal shall be in writing, shall state the action(s) appealed and the reason(s) therefor, and shall be submitted within 30 days of the action(s) by the Assistant Administrator. The Appellant may request an informal hearing on the appeal.

(b) Upon receipt of an appeal authorized by this section, the Administrator may request the Appellant, and the permit applicant or Holder if other than the Appellant, to submit such additional information and in such form as will allow action upon the appeal. The Administrator shall decide the appeal using the criteria set out in § 939.10 (a), (c), and (d) any information relative to the application on file, any information provided by the Appellant, and such other consideration as is deemed appropriate. The Administrator shall notify the Appellant of the final decision and the reason(s) therefor, in writing normally within 30 days of the date of the receipt of adequate information required to make the decision.

(c) If a hearing is requested or, if the Administrator determines that one is appropriate, the Administrator may grant an informal hearing before a Hearing Officer designated for that purpose, after first giving notice of the hearing in the **Federal Register**. Such hearing shall normally be held no later than 30 days following publication of the notice in the **Federal Register** unless the Hearing Officer extends the time for reasons deemed equitable. The Appellant, the applicant or permit holder, if different, and, other interested persons may appear personally or by counsel at the hearing and submit such material and present such arguments as determined appropriate by the Hearing Officer. Within 30 days of the last day of the hearing, the Hearing Officer shall recommend a decision in writing to the Administrator.

(d) The Administrator may adopt the Hearing Officer's recommended decision, in whole or in part, or may reject or modify it. In any event, the Administrator shall notify the interested persons of his/her decision, and the reason(s) therefore in writing within 30 days of receipt of the recommended decision of the Hearing Officer. The Administrator's decision shall constitute final action for the Agency for the purposes of the Administrative Procedure Act.

(e) Any time limit prescribed in this section may be extended by the Administrator for good cause for a period not to exceed 30 days, either upon his/her own motion or upon written request from the Appellant, permit applicant or Holder, stating the reason(s) therefore.

BILLING CODE 3510-22-M

FEDERAL TRADE COMMISSION

16 CFR Parts 3 and 4

Rules of Practice for Adjudicative Proceedings and Miscellaneous Rules

AGENCY: Federal Trade Commission.

ACTION: Proposed rule.

SUMMARY: The Federal Trade Commission proposes to amend its rules of Practice so that non-attorney experts may participate personally in the cross-examination of other experts in the same discipline. The commission has tentatively concluded that, in some cases, cross-examination by a non-attorney expert will elicit more precise and useful information from an expert witness than would cross-examination by an attorney. This notice invites comment on the desirability of greater participation by non-attorney experts than at present and on the rule revisions that would permit such participation.

DATE: Written comments must be received on or before April 18, 1983.

ADDRESS: Send comments to the Secretary, Federal Trade commission, 6th & Pennsylvania Ave., NW., Washington, D.C. 20580. Comments will be available for public inspection in Room 130 at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT: Bruce G. Freedman, Deputy Assistant General Counsel, Federal Trade Commission, Washington, D.C. 20580, (202) 523-3521.

SUPPLEMENTARY INFORMATION: The Commisson's current rules governing the conduct of adjudicatory proceedings are written on the assumption that only attorneys participate personally in the examination of witnesses. While experts in various professional disciplines often advise the attorneys in a case, they do not themselves participate in hearings, except as witnesses.

The Commission believes that there may well be value in allowing a more active role by non-attorney experts. In particular, permitting one expert to cross-examine another may yield a sharper delineation of issues, and especially a quicker and more precise identification of areas of agreement and disagreement, than if the questions are posed by an attorney who lacks technical expertise in the particular discipline. See Miller, Regulators and Experts: A Modes Proposal, Regulation, Nov./Dec. 1977, at 36.

The proposed rule preserves the Administrative Law Judge's control over the proceeding by requiring the law judge's permission before a non-attorney may participate personally. In addition, both the expert and the attorney who designates the expert to conduct cross-examination will be held accountable for the latter's adherence to the same legal and ethical standards as apply to an attorney interrogator. See 16 CFR 3.42(c)(6), (d).

List of Subjects

16 CFR Part 3

Administrative practice and procedure.

16 CFR Part 4

Administrative practice and procedure, Freedom of Information, Privacy, Sunshine Act.

For these reasons, Part 3, Subpart E, and Part 4 of Chapter I of Title 16, Code of Federal Regulations, are proposed to be amended as follows.

PART 3—RULES OF PRACTICE FOR ADJUDICATIVE PROCEEDINGS

1. By revising § 3.43 to read as follows:

§ 3.43 Evidence.

* * * * *

(g) Excluded evidence. When an objection to a question propounded to a witness is sustained, the questioner may make a specific offer of what he expects to prove by the answer of the witness, or the Administrative Law Judge may, in his discretion, receive and report the

evidence in full. Rejected exhibits, adequately marked for identification, shall be retained in the record so as to be available for consideration by any reviewing authority.

PART 4—MISCELLANEOUS RULES

2. By adding § 4.1(a)(3) to read as follows:

§ 4.1 Appearances.

(a) * * *

(3) At the request of counsel representing any party in an adjudicative proceeding, the Administrative Law Judge may permit an expert in the same discipline as an expert witness to conduct all or a portion of the cross-examination of such witness.

* * * * * *

(15 U.S.C. 46(g))

Dated: February 23, 1983.

By direction of the Commission.

Benjamin I. Berman,

Acting Secretary.

Separate Statement of Commissioner Bailey

By this notice, the Commission proposes to change its rules in order to allow non-attorney experts to cross-examine expert witnesses in the same discipline during Commission adjudicative proceedings. I am concerned about the proposal for a variety of reasons and would appreciate comments on the following questions:

(1) What is the nature of the problem addressed by this proposal that would be alleviated by the change?

(2) Have respondents in Commission trials experienced any disadvantage in the presentation of their cases attributable to inadequate cross-examination of experts by attorneys?

(3) Are any potential problems posed by allowing a non-attorney expert to participate in a trial as both witness and advocate?

(4) Does the proposed change authorize non-attorneys to engage in the practice of law? In a related vein, does this proposal expand or alter the scope of legal representation under Section 555(b) of the Administrative Procedures Act?

(5) How would the term "same discipline" be defined in the context of qualifying experts for giving testimony and conducting cross-examination? Reference, where possible, to specific examples from past Commission cases in which experts were used would be helpful in this regard.

(6) According to the proposed change in Rule 4.1(a), an expert (in the same discipline as an expert witness) may be permitted "to conduct all *or a portion* of the cross-examination of such witness." (emphasis added) Are any issues of fairness raised by a rule which would allow and even encourage two (or more) persons representing the government to cross-examine a witness?

(7) Questioning of an expert witness by another expert in the field has apparently been used successfully in proceedings to gather "legislative" facts, particularly in the context of scientific and technological fact-finding (*e.g.*, in such areas as nuclear power, environmental protection, public health and transportation). Are there any studies or actual experiences with this technique in the context of adjudicative proceedings where one party may be subject to a cease and desist order, or other similar relief?

(8) According to the notice " . . . [B]oth the expert and the attorney who designates the expert to conduct cross-examination will be held accountable for the latter's adherence to the same legal and ethical standards as apply to an attorney interrogator." (a) What, in practical effect, is the meaning of that phrase? (b) Can a non-attorney be held personally accountable for ethical standards applicable to attorneys? (c) As regards a respondent, in particular, does the attorney remain the party accountable for the conduct of a respondent's case?

(d) Should this change be made, would it be advisable or necessary to expect or require non-attorney examiners to be trained in the rules of evidence and procedures?

(e) Should the non-attorney examiner be subject to the same evidentiary objections as an attorney?

(f) Should the non-attorney examiner, or the attorney designating him or her, be responsible for defending against objections to questions?

(9) Especially where more than one "expert" may appear for either party, would this change impose additional burdens on the proceedings in terms of delay, confusion or potential clarity of the record?

(10) The purpose of the proposed rules change is said to be to "yield a sharper delineation of issues, and especially a quicker and more precise identification of areas of agreement and disagreement." Is that purpose likely to be fulfilled by this proposal, given the general purpose of cross-examination? Why or why not?

(11) Are there any additional constitutional, procedural or ethical concerns raised by this proposal?

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM79-76-186 (Colorado-35)]

High-Cost Gas Produced From Tight Formations; Colorado

February 28, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the State of Colorado that the "J" Sand Formation be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on April 14, 1983.

Public hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on March 15, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357-8511, or Victor Zabel, (202) 357-8616.

SUPPLEMENTARY INFORMATION:

I. Background

On January 31, 1983, the State of Colorado Oil and Gas Conservation Commission (Colorado) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that the "J" Sand Formation located in Adams, Arapahoe, and Elbert Counties, Colorado, be designated as a tight formation. Colorado also submitted to the Commission on February 15, 1983, an order which corrected the land description of the original order. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Colorado's recommendation that the "J" Sand Formation be designated a tight formation should be adopted. Colorado's recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

The recommended formation underlies portions of Adams, Arapahoe, and Elbert Counties, Colorado. The area of concern is located approximately 12 miles east of the city of Denver, Colorado, and consists of approximately

223,040 acres of fee and state lands. The "J" Sand ranges in thickness from 40 to 95 feet beginning from the base of the "D" Sand and extends to the top of the Skull Creek Shale. The average depth to the top of the "J" Sand Formation is 8,100 feet.

III. Discussion of Recommendation

Colorado claims in its submission that evidence gathered through information and testimony presented at a public hearing in Cause No. NG–37, Order No. NG–37–1 convened by Colorado on this matter demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Colorado further asserts that existing State and Federal Regulations assure that development of this formation will not adversely affect any fresh water aquifers.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80–68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Colorado that the "J" Sand Formation, as described and delineated in Colorado's recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before April 14, 1983. Each person submitting a comment should indicate that the comment is being submtted in Docket No. RM79–76–186 (Colorado-35), and should give reasons including supporting data for any recommendations. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C., during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of the desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than March 15, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, Code of Federal Regulations, as set forth below, in the event Colorado's recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(169) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(121) through (168) [Reserved]

(169) *"J" Sand Formation in Colorado.* RM79–76–186 (Colorado-35).

(i) *Delineation of formation.* The "J" Sand Formation is located in Adams, Arapahoe, and Elbert Counties, Colorado, approximately 12 miles east of the city of Denver. The "J" Sand Formation underlies Township 2 South, Range 63 West, Sections 7, 18, 19, 30, 31 and S½ of Section 32; Township 2 South, Range 64 West, Sections 10 through 15, 22 through 27, and 34 through 36; Township 2 South, Range 65 West, Sections 25 through 36; Township 3 South, Range 63 West, Sections 1 through 12; Township 3 South, Range 64 West, All; Township 3 South, Range 65 West, All; Township 4 south, Range 64 West, Sections 1 through 30 and 32 through 36; Township 4 South, Range 65 West, Sections 1 through 30; Township 5 South, Range 63 West, All; Township 5 South, Range 64 West, Sections 1 through 5, 8 through 17, 20 through 29, and 32 through 36; Township 6 South, Range 63 West, Sections 1 through 35; Township 6 South, Range 64 West, Sections 1 through 5, 8 through 17, 20 through 29, and 34 through 36; Township 7 South, Range 63 West, Sections 4 through 9, 16 through 21, and 28 through 33; Township 7 South, Range 64 West, Sections 1 through 3, 10 through 15, 22 through 27, and 34 through 36.

(ii) *Depth.* The "J" Sand Formation ranges in thickness from 40 to 95 feet, and begins at the base of the "D" Sand and extends to the top of the Skull Creek Shale. The average depth to the top of the "J" Sand Formation is 8,100 feet.

18 CFR Part 271

[Docket No. RM79–76–185 (New Mexico-21)]

High-Cost Gas Produced From Tight Formations; New Mexico

February 28, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Uner section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formantions. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the State of New Mexico that the Abo Formation be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on April 14, 1983.

Public hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on March 15, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8511, or Victor Zabel, (202) 357–8016.

SUPPLEMENTARY INFORMATION:

I. Background

On January 23, 1983, the State of New Mexico Energy and Minerals Department, Oil Conservation Division (New Mexico) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that the Abo Formation located in San Miguel, Torrance, Guadalupe, DeBaca, Lincoln, and Chaves Counties, New Mexico, be designated as a tight formation. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether New Mexico's recommendation that the Abo Formation be designated a tight formation should be adopted. The United States Department of the Interior, Minerals Management Service concurs with New Mexico's recommendation. New Mexico's recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

The Abo Formation is defined as being from the base of the Yeso Formation, vertically downward to the top of the Huecó Limestone, or in the absence of said Hueco lime, to the top of the Pennsylvanian Limestone, or in the absence of both Hueco lime and Pennsylvanian lime, to the top of the Pre-Cambrian, provided however, that tongues of the Hueco lime overlain and underlain by the Abo mudstones, sand or shales, shall be considered to be part of the Abo Formation. The average depth to the top of the Abo is 3,025 feet. The average thickness of the formation throughout the recommended area is 1,058 feet.

III. Discussion of Recommendation

New Mexico claims in its submission that evidence gathered through information and testimony presented at a public hearing in Case No. 7596 convened by New Mexico on this matter demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

New Mexico further asserts that existing State and Federal Regulations assure that development of this formation will not adversely affect any fresh water aquifers.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80-68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by New Mexico that the Abo Formation, as described and delineated in New Mexico's recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before April 14, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79-76-185 (New Mexico-21), and should give reasons including supporting data for any recommendations. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C., during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of the desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than March 15, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301-3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, code of Federal Regulations, as set forth below, in the event New Mexico's recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(168) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(121) through (167) [Reserved]

(168) *Abo Formation in New Mexico.* RM79-76-185 (New Mexico-21).

(i) *Delineation of formation.* The Abo Formation is located in San Miguel County: Townships 10 and 11 North, Ranges 14 and 15 East; Torrance County: Townships 1 through 9 North, Ranges 14 and 15 East; Guadalupe County: Townships 2 through 4 North, Ranges 16 through 19 East, Township 5 North, Ranges 16 through 23 East, Township 6 North, Ranges 16 through 24 East, and Township 7 through 11 North, Ranges 16 through 26 East; DeBaca County: Townships 1 through 4 North, Ranges 20 through 27 East, Township 5 North, Ranges 24 through 26 East, Township 6 North, Ranges 25 and 26 East, Township 1 South, Ranges 20 through 27 East, Township 2 South, Ranges 20 and 21 East, and Township 3 South, Range 21 East; Lincoln County: Township 1 North, Ranges 16 through 19 East, Townships 1 through 5 South, Ranges 14 through 19 East, Township 6 South, Ranges 15 through 20 East, Township 7 through 9 South, Ranges 15 through 20 East, excepting, however, all lands within the Capitan Wilderness Area, Townships 10 and 11 South, Ranges 15 through 20 East, and Townships 12 and 13 South, Ranges 17 through 20 East; Chaves County: Township 3 South, Range 20 East, Townships 4 and 5 South, Ranges 20 and 21 East, and Township 14 South, Ranges 17 through 21 East, NMPM, containing some 5,775,360 acres, more or less, and designated by New Mexico as the Pecos Slope Extension area.

(ii) *Depth.* The Abo Formation, for designation as a tight formation in the Pecos Slope Extension Area, shall be defined as being from the base of the Yeso Formaton vertically downward to the top of the Hueco Limestone, or in the absence of said Hueco lime, to the top of the Pennsylvanian Limestone, or in the absence of both Hueco lime and Pennsylvania lime, to the top of the PreCambrian, provided however, that tongues of the Hueco lime overlain and underlain by the Abo mudstones, sand or shales, shall be considered to be part of the Abo Formation. The average

depth to the top of the Abo Formation is 3,025 feet. The average thickness of the Abo Formation is 1,058 feet.

High-Cost Gas Produced From Tight Formations; Texas

February 28, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the Railroad Commission of Texas that an additional area of the James Limestone Formation located in Nacogdoches and Shelby Counties, Texas be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on April 14, 1983.

Public Hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on March 15, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street, NE, Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357-8511, or Walter W. Lawson, (202) 357-8556.

SUPPLEMENTARY INFORMATION:

I. Background

On December 27, 1982, the Railroad Commission of Texas (Texas) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that an additional area of the James Limestone Formation located Nacogdoches and Shelby Counties, Texas, be designated as a tight formation. The Commission previously adopted a recommendation that the James Limestone Formation in parts of San Augustine and Shelby Counties, Texas be designated as a tight formation [Order No. 246, issued August 4, 1982, in Docket No. RM79-76-106 (Texas—21)]. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Texas' recommendation that an additional area of the James Limestone Formation be designated a tight formation should be adopted. Texas' recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Texas recommends that the James Limestone Formation located in Nacogdoches and Shelby Counties, Texas, Railroad Commission District 6, be designated as a tight formation. The James Limestone in east Texas is included as a subdivision of the Trinity Group of Lower Cretaceous (Commanchean) age. The top of the James Lime ranges from approximately 7,150 feet to 7,425 feet subsea in depth. The James Lime overlies the Pine Island Shale and underlies the Bexar Shale.

III. Discussion of Recommendation

Texas claims in its submission that evidence gathered through information and testimony presented at a public hearing in support of this recommendation demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Texas further asserts that existing state and federal regulations assure that development of this formation will not adversely affect any fresh water aquifers that are or are expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80-68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Texas that the James Limestone Formation as described and delineated in Texas' recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before April 14, 1983. Each person submitting a comment should indicate that the comment is being submited in Docket No. RM79-76-172 (Texas—21 Addition) and should give reasons including supporting data for any recommendations. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C., during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of a desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than March 15, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301-3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, Code of Federal Regulations, as set forth below, in the event Texas' recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by revising paragraph (d)(92) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(92) *James Limestone Formation in Texas.* RM79–76 (Texas—21). * * *

(ii) *Nacogdoches and Shelby Counties.*

(A) *Delineation of formation.* The James Limestone Formation is found in all of Nacogdoches and Shelby Counties, east Texas.

(B) *Depth.* The depth to the top of the James Limestone Formation ranges from approximately 7,150 feet to 7,425 feet subsea.

18 CFR Part 271

[Docket No. RM79–76–164 (Texas–32)]

High-Cost Gas Produced from Tight Formations; Texas

February 28, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the Railroad Commission of Texas that a portion of the Granite Wash Formation in the Anadarko Basin be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on April 14, 1983.

Public Hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on March 15, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8511, or Walter W. Lawson, (202) 357–8556.

SUPPLEMENTARY INFORMATION:

I. Background

On December 13, 1982, the Railroad Commission of Texas (Texas) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that a portion of the Granite Wash Formation in the Anadarko Basin located in Ochiltree, Lipscomb, Roberts, Hemphill and Wheeler Counties, Texas be designated as a tight formation. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Texas' recommendation that the Granite Wash Formation in the Anadarko Basin be designated a tight formation should be adopted. Texas' recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Texas recommends that a portion of the Granite Wash Formation of the Anadarko Basin located in the panhandle area of Texas, Railroad Commission District 10, be designated as a tight formation. The recommended area includes all of Hemphill and Roberts Counties; all sections north of an east-west line passing through the southern boundary of Section 21, Block A–9 in Wheeler County with the exception of Section 3, 5 and 6 of the A.B. & M. Survey and Section 4, Block L of the J. M. Lindsey Survey; Sections 45 through 396 of Block 43, H & TC RR Survey, southern Lipscomb and Ochiltree Counties; and Sections 89 through 152 of Block 13, T & NO RR Survey, southern Ochiltree County.

The top of the Granite Wash Formation varies in depty from 6,934 feet in Roberts County in the northwest part of the designated area to 11,386 feet in Wheeler County to the southeast and thickness from north to south toward the Amarillo uplift which bounds the Anadarko Basin on the south. The Granite Wash Formation has been subdivided into the A–1, A, B, C, D, E, F, G, and H zones based on wireline log characteristics. Although some granite wash type clastics may occur above the A–1 zone, the interval recommended is from the top of the A–1 zone to the base of the Granite Wash Formation. The type log, the log of the Diamond Shamrock Corporation's Leslie Webb "M" No. 1 well, located in Section 191, Block C, Hemphill County, shows a complete section of the Granite Wash Formation from zone A–1 through zone H. On the log, the Granite Wash Formation is the interval between 9,664 feet and 10,850 feet.

III. Discussion of Recommendation

Texas claims in its submission that evidence gathered through information and testimony presented at a public hearing on October 13, 1982, convened by Texas on this matter demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Texas futher asserts that existing State and Federal regulations assure that development of the formation will not adversely affect any fresh water aquifers that are or are expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80–68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Texas that the portion of the Granite Wash Formation in the Anadarko Basin as described and delineated in Texas' recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before April 14, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79–76–164 (Texas—32) and should give reasons including supporting data for any recommendation. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission.

Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C., during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of a desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than March 15, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, Code of Federal Regulations as set forth below, in the event Texas' recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(164) to read as follows:

High-Cost Gas Produced from Tight Formations: Texas

February 28, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Federal Energy Regulatory Commssion is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commssion determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 C.F.R. § 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the Railroad Commission of Texas that the Devonian/Strawn/Detrital Formation be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on April 14, 1983.

Public Hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on March 15, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8511, or Walter W. Lawson, (202) 357–8556.

SUPPLEMENTARY INFORMATION:

I. Background

On December 23, 1982, the railroad Commission of Texas (Texas) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that a portion of the Devonian/Strawn/Detrital Formation locate in Crockett and Terrell Counties, Texas, be designated as a tight formation. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Texas' recommendation that a portion of the Devonian/Strawn/Detrital Formation be designated a tight formation should be adopted. Texas' recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Texas recommends that the Devonian/Strawn/Detrital Formation encountered in northeast Terrell County and adjoining portions of western Crockett County, Texas, Railroad Commission District 7C, be designated as a tight formation. The recommended area includes:

Terrell County

Sections 10–31, 73, Block 1, I & GN RR. Co. Survey;
Section 19, Mrs. M. E. Hope Survey;
Section 21, J. M. Anderson Survey;
Section 22, C. M. Shaw Survey (J. D. Blair);
Section 23, P. H. Terry Survey;
Section 24, Mrs. N. King Survey;
Section 1, Block A–4, J. McMurty Survey;
Section 2, Block A–4, A. C. W. Survey;
Section 3, Block A–4, P. L. Kinman Survey;
Section 4, Block A–4, F. Baumgarner Survey;
Section 5, Block A–4, J. H. Felps Survey;
Section 6, Block A–4, J. L. Cunningham Survey;
Section 7, Block A–4, J. A. Manes Survey;
Section 8, Block A–4, Mrs. A. Pride Survey;
Section 9, Block A–4, Mrs. L. Martin Survey;
Section 10, Block A–4, I. N., Bloodworth Survey;
Section 11, Block A–4, J. E. R. Survey;
Sections 1–12, Block 178, TM RR Survey;
Sections 1–38, Block B–2, CCSD & RGNG Survey.

Crockett County

Sections 24–38, 40–42, 45, 48–50, Block 2, I&GN RR Co. Survey;
Sections 39–46, Block ST, TC RR Survey;
Sections 199, 200, L & SV Survey;
Section 48, Block ST, T C RR Survey;
Sections 13–20, Block 2, J. H. Gibson Survey;
Sections 99, 100, Block NN, GC & SF Survey;
Section 22, Block NN–2, Wm. Hornsbuckle (A–4873)
Section 48½, J. B. Brown Survey;
Section 1, Block NN, L. G. Moses;
Section 2, Block NN, W. L. Lacy Survey;
Sections 3, 4, Block NN, Robert Rankin Survey;
Sections 22–35, Block 1, I & GN RR Co. Survey;
Sections 14, 22–24, west half of 25, Block 20, University Lands Survey.

The top of the Strawn section of the recommended formation is encountered at measured depths ranging from 6,442

feet in the east to 10,200 feet in the southwest, with a calculated average depth of 9,246 feet. The Strawn varies in thickness from 28 feet in the northeast to 205 feet in the western portion of the recommended area. The top of the Detrital section is measured at depths ranging from 8,520 feet in the east to 10,310 feet in the southwest. The thickness of the Detrital varies from 46 feet in the east to 230 feet in the southwest. The top of the Devonian section of the recommended formation is encountered at measured depths ranging from 8,570 fet in the east to 10,900 feet in the southwest. The Devonian varies in thickness from 275 feet in the north central portion of the recommended area to 600 feet in the northwest. In the western one third of the recommended area, the Detrital and Devonian sections of the recommended formation are separated by a wedge of Mississippian age rock units up to 500 feet thick.

III. Discussion of Recommendation

Texas claims in its submission that evidence gathered through information and testimony presented at a public hearing in support of this recommendation demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Texas further asserts that existing State and Federal Regulations assure that development of this formation will not adversely affect any fresh water aquifers that are or are expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80–68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Texas that the recommended portion of the Devonian/Strawn/Detrital Formation, as described and delineated in Texas' recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before April 14, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79–76–170 (Texas—33) and should give reasons including supporting data for any recommendation. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C., during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of a desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than March 15, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301—3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, Code of Federal Regulations, as set forth below, in the event Texas' recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(165) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(121) through (164) [Reserved]

(165) *Devonian/Strawn/Detrital Formation in Texas.* RM79–76–170 (Texas 33).

(i) *Delineation of formation.* The Devonian/Strawn/Detrital Formation is found in northeast Terrell County and adjacent portions of western Crockett County in Texas. The designated area consists of the listed portions of the following Terrell County surveys: Sections 10–31, 73, Block 1, I & GN RR Co.; Section 19, Mrs. M. E. Hope; Section 21, J. M. Anderson; Section 22, C. M. Shaw (J. D. Blair); Section 23, P. H. Terry; Section 24, Mrs. N. King; Section 1, Block A–4, J. McMurty; Section 2, Block A–4, A. C. W.; Section 3, Block A–4, P. L. Kinman; Section 4, Block A–4, F. Baumgarner; Section 5, Block A–4, J. H. Felps; Section 6, Block A–4, J. L. Cunningham; Section 7, Block A–4, J. A. Manes; Section 8, Block A–4, Mrs. A. Pride; Section 9, Block A–4, Mrs. L. Martin; Section 10, Block A–4, I. N., Bloodworth; Section 11, Block A–4, J. E. R.; Sections 1–12, Block 176, TM RR; Sections 1–38, Block B–2, CCSD & RGNG; and the following, Crockett County surveys: Sections 24–38, 40–42, 45, 48–50, Block 2, I&GN RR Co.; Sections 39–46, Block ST, TC RR; Sections 199, 200, L & SV; Section 48, Block ST, TC RR; Sections 13–20, Block 2, J. H. Gibson; Sections 99, 100, Block NN, GC & SF; Section 22, Block NN–2, WM. Hornsbuckle (A–4873); Section 48½, J. B. Brown; Section 1, Block NN, L. G. Moses; Section 2, Block NN, W. L. Lacy; Sections 3, 4, Block NN, Robert Rankin; Sections 22–35, Block 1, I & G N RR Co.; Sections 14, 22–24, west half of 25, Block 28, University Lands.

(ii) *Depth.* The top of the Strawn section of the Devonian/Strawn/Detrital ranges from a measured depth of 8,442 feet in the east to 10,200 feet in the southwest. The Strawn varies in thickness from 28 feet in the east to 205 feet in the west. The top of the Detrital section ranges from a measured depth of 8,520 feet in the east of 10,310 feet in the southwest. The Detrital varies in thickness from 46 feet in the east to 230 feet in the southwest. The top of the Devonian section ranges from a measured depth of 8,570 feet in the east to 10,900 feet in the southwest. The Devonian varies in thickness from 275 feet in the north central to 600 feet in the northwest. In the western third of the designated area the Detrital and Devonian sections are separated by a wedge of Mississippian age rock units up to 500 feet thick.

High-Cost Gas Produced From Tight Formations; Texas

February 28, 1983

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the Railroad Commission of Texas that the Pettit Lime Formation be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on April 14, 1983.

Public Hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on March 15, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8511, or Walter W. Lawson, (202) 357–8556.

SUPPLEMENTARY INFORMATION:

I. Background

On December 27, 1982, the Railroad Commission of Texas (Texas) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that the Pettit Lime Formation located in Leon, Houston, and Cherokee Counties in the eastern part of the state of Texas, excluding the Navarro Crossing (Pettit) Field in Houston County and the Reklaw (Pettit) Field in Cherokee County, be designated as a tight formation. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Texas' recommendation that the Pettit Lime Formation be designated a tight formation should be adopted. Texas' recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Texas recommends that the Pettit Lime Formation encountered in the eastern portion of the state of Texas, in Leon, Houston, and Cherokee Counties in Railroad Commission Districts 5 and 6, excluding the Navarro Crossing (Pettit) Field in Houston County and the Reklaw (Pettit) Field in Cherokee County, be designated as a tight formation. The Pettit Lime Formation is part of the Lower Glen Rose series of Cretaceous age. It is usually encountered at depths ranging from 8,500 feet to 11,000 feet. Thickness varies from approximately 200 feet on the west in Leon County to 1,000 feet on the east in Sabine County.

The Pettit Lime Formation is overlain by the Pine Island shale and is the lowest member of the Glen Rose group.

III. Discussion of Recommendation

Texas claims in its submission that evidence gathered through information and testimony presented at a public hearing on June 19, 1982, convened by Texas on this matter demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Texas further asserts that existing State and Federal regulations assure that development of the formation will not adversely affect any fresh water aquifers that are or are expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80–68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Texas that the Pettit Lime Formation, as described and delineated in Texas' recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before April 14, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79–76–173 (Texas-34), and should give reasons including supporting data for any recommendation. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C., during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of a desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than March 15, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentve price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, *Code of Federal Regulations*, as set forth below, in the event Texas' recommendation is adopted.

Kenneth A. Williams, Director,
Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d) (166) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(119) through (165) [Reserved] * * *

(166) *Pettit Lime Formation in Texas.* RM79–76 (Texas-34)

(i) *Delineation of formation.* The Pettit Lime Formation is located in Leon, Houston and Cherokee Counties, Texas, Railroad Commission Districts 5 and 6. The designated area does not include

the Navarro Crossing (Pettit) Field in Houston County and the Reklaw (Pettit) Field in Cherokee County.

(ii) *Depth.* The depth to the top of the Pettit Formation ranges from 8,500 feet to 11,000 feet. Thickness varies from approximately 200 feet on the west in Leon County to 1,000 feet on the east in Sabine County.

[Docket No. RM79-76-178 (Texas—35)]

High-Cost Gas Produced From Tight Formations, Texas; Notice of Proposed Rulemaking

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the Railroad Commission of Texas that the Devonian, Fusselman and Montoya Formations be designated as tight formations under § 271.703(d).

DATE: Comments on the proposed rule are due on April 15, 1983.

Public Hearing: no public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on March 16, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street, N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT:

Leslie Lawner, (202) 357-8511,

or

Walter W. Lawson, (202) 357-8550.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rulemaking by Director, OPRR

Issued: March 1, 1983.

I. Background

On January 14, 1983, the Railroad Commission of Texas (Texas) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that the Devonian, Fusselman and Montoya Formations, located in Reeves County, Texas, be designated as tight formations. Pursuant to § 271.703(c)(4) of the regulations, this notice of proposed rulemaking is hereby issued to determine whether Texas' recommendation that the Devonian, Fusselman, and Montoya Formations be designated as tight formations should be adopted. Texas' recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Texas recommends that the Devonian, Fusselman and Montoya Formations in the Nine Mile Draw Field area of Reeves County, Texas (Railroad Commission District 8), be designated as tight formations. The recommended area lies within the Delaware Basin of west Texas and is located approximately 18 miles southwest of the town of Pecos, Texas, encompassing approximately 18 square miles.

The Devonian Formation lies beneath the Woodford Shale and just above the Silurian. The top of the Devonian formation varies between measured depths of 13,080 feet and 14,120 feet, with a uniform thickness of approximately 100 feet.

The top of the Silurian age Fusselman formation is encountered between measured depths of 13,340 feet and 14,396 feet, with a thickness of approximately 80 feet. The top of the Montoya Formation is encountered between measured depths of 13,395 feet and 14,490 feet, with an average thickness of 475 feet.

III. Discussion of Recommendation

Texas claims in its submission that evidence gathered through information and testimony presented at a public hearing in support of this recommendation demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formations without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formations is expected to produce more than five (5) barrels of oil per day.

Texas further asserts that existing state and federal regulations assure that development of these formations will not adversely affect any fresh water aquifers that are or are expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No, RM80-68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Texas that the Devonian, Fusselman and Montoya Formations, as described and delineated in Texas' recommendation as filed with the Commission, be designated as tight formations pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before April 15, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM 79-76-178 (Texas-35) and should give reasons including supporting data for any recommendation. Comments should include the name, title, mailing address, and telephone number of one person to who communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of a desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than March 16, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301-3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, Code of Federal Regulations, as set forth below, in the event Texas' recommendation is adopted.

Kenneth A. Williams,

Director Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (c)(167) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

(121) through (166) [Reserved]

(167) *Devonian, Fusselman and Montoya Formations in Texas.* RM79–76 (Texas-35). (i) *Delineation of formation.* The Devonian, Fusselman and Montoya Formations are located in the Nine Mile Draw Field area of Reeves County, Texas, Railroad Commission District 8. The designated area consists of Sections 12, 13, 24, 25, 36, and 37 of T&P RR Block 55, and Sections 5, 6, 11, 12, 13, 14, 17, 18, 19, 20, 21, and 22 of T&P RR Block 54, TWP 7, Reeves County, Texas.

(ii) *Depth.* The top of the Devonian Formation is encountered between the measured depths of 13,080 and 14,120 feet, with an approximate thickness of 100 feet. The Fusselman Formation is encountered between the measured depths of 13,340 and 14,396 feet, with an approximate thickness of 80 feet. The Montoya Formation is encountered between the measured depths of 13,395 and 14,490 feet, with an approximate thickness of 475 feet.

[Docket No. 77N-0222]

Uses of Sodium Nitrite, Sodium Nitrate, Potassium Nitrite, and Potassium Nitrate; Withdrawal of Proposed Rule and Proposed Declaration That No Prior Sanction Exists

AGENCY: Food and Drug Administration.

ACTION: Withdrawal of proposals.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing the proposed rules that the agency published on November 3, 1972 and December 21, 1979 on the prior-sanctioned status of the use of nitrates and nitrites in red meat and poultry products. The 1972 proposal also proposed to delete certain "non-essential" uses of nitrates and nitrites. In the **Federal Register** of January 14, 1983, FDA published a final rule that the use of nitrates and nitrites in red meat and poultry products is prior sanctioned as a result of approvals issued by the United States Department of Agriculture (USDA) under the Federal Meat Inspection Act (FMIA) and the Poultry Products Inspection Act (PPIA) prior to September 6, 1958.

FOR FURTHER INFORMATION CONTACT: John L. Herrman, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 3, 1972 (37 FR 23456), FDA published a proposed rule to delete certain "non-essential" uses of nitrates and nitrites and to codify prior sanctions for the use of nitrates and nitrites in meat and poultry products. As used in this document, the term "nitrates" includes sodium and potassium nitrate, and the term "nitrites" includes sodium and potassium nitrite.

FDA's proposal to codify prior sanctions for the use of nitrates and nitrites in meat and poultry products was based on the agency's presumption that USDA had sanctioned these uses under the FMIA (21 U.S.C. 451 et seq.) and the PPIA (21 U.S.C. 71 et seq.), respectively, prior to September 6, 1958.

Although USDA confirmed that it had sanctioned the use of nitrates and nitrites in red meat under the FMIA prior to 1958, in 1977 USDA advised FDA that a prior sanction did not exist under the PPIA for the use of nitrates and nitrites in poultry products. FDA searched its files and failed to find any evidence that the agency had issued such a prior sanction under the Federal Food, Drug, and Cosmetic Act (FFDCA). Therefore, in the **Federal Register** of December 21, 1979 (44 FR 75662), FDA published a proposed rule to declare that no prior sanction exists for the use of nitrates and nitrites in poultry products.

In that proposal, FDA solicited comments from all interested persons, especially those who believed that a prior sanction exists under the FFDCA. FDA indicated that if the agency received comments relating to the question of whether USDA had issued a prior sanction, it would forward those comments and any supporting documentation to USDA for consideration and for any action USDA deemed appropriate.

In response to that proposal, FDA received from the Special Poultry Research Committee (SPRC) a submission that related primarily to the SPRC's contention that USDA had issued a prior sanction for the use of nitrates and nitrites in poultry products. FDA sent this submission to USDA. After reviewing the submission, USDA concluded that it had sanctioned this use under the PPIA before the enactment of the Food Additives Amendment of 1958.

Thus, USDA has advised FDA that the use of nitrates and nitrites in both cured meat and poultry products is subject to prior sanctions.

Section 201(s)(4) of the FFDCA (21 U.S.C. 321(s)) defines a "prior-sanctioned substance" as follows:

> (4) any substance used in accordance with a sanction or approval granted prior to the enactment of this paragraph pursuant to this Act, the Poultry Products Inspection Act (21 U.S.C. 451 and the following) or the Meat Inspection Act of March 4, 1907 (34 Stat. 1260), as amended and extended (21 U.S.C. 71 and the following);

When USDA has determined that it has issued a prior sanction for a substance under the FMIA or the PPIA, that substance may be used under that sanction, regardless of whether FDA has issued a parallel prior sanction under the FFDCA. Consequently, USDA's determination that it has issued a prior sanction for nitrates and nitrites in poultry products under the PPIA makes it unnecessary for FDA to determine whether it had issued such a prior sanction under the FFDCA. Therefore,

FDA is withdrawing the December 21, 1979 proposal.

In addition, USDA's determination eliminates the need to adopt the prior sanction regulations that FDA proposed in the November 3, 1972 **Federal Register** document. As explained in the **Federal Register** document published on January 14, 1983 (48 FR 1702), the agency has decided merely to codify the determinations made by USDA. Thus, FDA is withdrawing the portion of the November 3, 1972 notice that deals with the prior sanction issue.

In the 1972 **Federal Register** document FDA also proposed to delete "non-essential" uses of nitrates and nitrites. This proposal was made because of information that these substances may react with secondary and tertiary amines to form harmful nitrosamines in food and in the human gastrointestinal tract. The agency proposed to limit the uses of nitrates and nitrites to those that are necessary for inhibiting the growth of *C. botulinum* and for obtaining the essential characteristics of cured meats. "Non-essential" uses that FDA proposed to delete include (1) sodium nitrite in canned pet food containing meat or fish under § 121.223 (recodified as §573.700 in the **Federal Register** of September 10, 1976; 41 FR 38618), (2) sodium nitrate in smoked cured sablefish, salmon, and shad under § 121.1063, (3) sodium nitrite in smoked tuna fish products under § 121.1064, and (4) potassium nitrate in cod roe under § 121.1132 (recodified as §§ 172.170, 172.175, and 172.160, respectively, in the **Federal Register** of March 15, 1977; 42 FR 14302).

FDA has decided to withdraw this portion of the 1972 proposal also. Ten years have passed since the agency proposed to delete the "non-essential" uses of nitrate and nitrite, and in the intervening period many scientific studies have been undertaken regarding the effects of nitrates and nitrites in food. It would be inappropriate for FDA to proceed at this time to delete the "non-essential" uses, as proposed in 1972, without thoroughly evaluating the scientific data that have been produced and presenting the conclusions the agency has reached on the basis of those data for public comment. The agency has decided that there are significant issues that it must reconsider before taking any action to delete the previously permitted uses of nitrate and nitrite salts. The agency is therefore withdrawing the proposed regulations that would have deleted the "non-essential" uses of these substances. If the agency decides after reconsidering these uses that further regulatory action is necessary, the agency will publish an appropriate proposal in a future issue of the **Federal Register**.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s) and 701(a), 52 Stat. 1055, 72 Stat. 1784 (21 U.S.C. 321(s) and 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), FDA is withdrawing the proposal published in the **Federal Register** of November 3, 1972 (37 FR 23456) to codify prior sanctions for the use of nitrates and nitrites in meat and poultry products and to delete certain "non-essential" uses of nitrates and nitrites and the proposal published in the **Federal Register** of December 21, 1979 (44 FR 75662) to declare that no prior sanction exists under the Federal Food, Drug, and Cosmetic Act for the use of nitrates and nitrites in poultry products. The rulemaking proceedings begun by these proposals are terminated.

Dated: February 20, 1983.

Arthur Hull Hayes, Jr.,

Commissioner of Food and Drugs.

BILLING CODE 1505-01M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary of Housing—Federal Housing Commissioner

24 CFR Part 203

[Docket No. R-83-1071]

One-Time Mortage Insurance Premium

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, Department of Housing and Urban Development (HUD).

ACTION: Proposed rule.

SUMMARY: This proposed rule would establish a new system for collecting mortgage insurance premiums in connection with certain single family mortgages which HUD insures under section 203 of the National Housing Act. At present, mortgage insurance premiums under section 203 are set at ½ percent per year of the amount of the outstanding principal obligation of the loan, and are collected on a monthly basis. Under the proposed system, the Borrower would pay a one-time premium when the mortgage loan is colsed. This payment would purchase insurance coverage for the entire life of the insured loan, and most of it could be added to the mortgage amount and amortized along with the underlying loan. The premium would be based upon the projected costs payable from the insurance reserves, discounted to present value.

As required by section 201(b) of the Omnibus Budget Reconciliation Act of 1982, provision would be made for the refund of unearned premiums if the mortgage insurance is terminated in the early years of the mortgage. Provision would also be made for the payment of distributive shares to borrowers under the new premium system who terminate their mortgage insurance in the later years of the mortgage. The rule would specify the manner of determinig and paying distributive shares, and would provide for their payment on the same basis to mortgagors, irrespective of whether their primiums were paid under the current or the proposed system. The new system would be available for mortgages which are insured pursuant to applications for conditional commitments received on or after the rule's effective date and which are

obligations of the Mutual Mortgage Insurance Fund.

The proposed rule would also implement the authority contained in section 201 for the 1982 Reconciliation Act to increase the otherwise-determined maximum dollar mortgage amounts by the amount of the one-time premium, and to exclude the premium amount from "cost of acquisition" for purposes of determining minimum downpayment requirements.

DATE: Comment Due Date: Comments must be submitted on or before May 3, 1983.

ADDRESS: Interested persons are invited to submit comments regarding this rule to the Office of General counsel, Rules Docket Clerk, Room 10278, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410. Comments should refer to the above docket number and title. A copy of each comment submitted will be available for public inspection during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Dr. Arnold H. Diamond, Director, Office of Financial Management, Room 6188, 451 tth Street, SW., Washington, D.C. 20410, telephone number (202) 426-4325. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Section 203(c) of the National Housing Act authorizes HUD to fix mortgage insurance premium (MIP) charges for the insurance of mortgages under title II of the Act, and to require payment of one or more of these charges at the time the mortgage is insured. HUD proposes to implement this authority by establishing a one-time MIP collection system for mortgages insured prusuant to applications for conditional commitments received on or after the rule's effective date and which are obligations of the Mutual Mortgage Insurance Fund (MMIF) under 24 CFR Part 203.

The Part 203 MMIF programs include HUD's basic home mortgage insurance program under section 203(b) of the Act, mortgage insurance for single family homes in outlying areas under section 203(i), mortgage insurance for single-unit cooperatives under section 203(n), and graduated payment mortgages under section 245. Single family mortgages insured on a coinsurance basis pursuant to section 244 are also obligations of the MMIF in 24 CFR Part 204. Although this proposed rule would not apply to Part 204, HUD intends to include the one-time MIP provisions in a general revision of Part 204 currently under development as a proposed rule. The proposed rule also would not apply to "open-end" advances insurable under 24 CFR 203.44. Insured "open-end" advancers can be made with respect to mortgages previously insured under section 203 to cover certain repairs and improvements. Given the little activity under this authority and potential issues with respect to charging a one-time payment for the insurance of advances which may be spread out in time well into the life of the underlying loan, the Department is still considering the feasibility and desirability of extending the one-time premium concept to this authority. The Department invites comment on this question.

This proposed rule would not cover insuring authorities under section 203 which are obligations of the General Insurance Fund or the Special Risk Insurance Fund, or other National Housing Act single family programs. HUD intends to bring these programs under the new system by separate rulemaking.

At present, MIP's under the section 203 single family authorities are set at ½ percent per year of the amount of the outstanding principal obligation of the loan at any time, and are collected on a monthly basis. Under the proposed system, the borrower would pay a premium, when the mortage loan is closed, representing the total premium obligation for the insured loan. The premium would be based upon the projected costs payable from the MMIF reserves, discounted to present value.

The proposed system has a number of advantages, which may be summarized as follows. The system would make possible a matching of Fund income against default losses that is safer than the present system. Precollection of MIP's would enable HUD to cover the period of maximum individual insurance risk—the early years of the loan term—and recognizes the fact that risk declines with the seasoning of the mortgage loan portfolio. Mortgage insurance operations of private companies and certain nations with FHA-type programs all use some variation of precollection.

Lump-sum collection would also afford improved cash management opportunities. It would provide the Fund a source of interest-free funds for immediate investment by HUD in interest-bearing securities. The proposal would also eventually substantially reduce HUD's present accounting workload of periodic billing, collection, and allocation of premiums amortized as a separate component of the mortgage as those mortgages terminate over the years. Finally, it would relieve lenders of the burden of collecting and remitting to HUD monthly installment mortgage insurance premiums as they are received, as is required by section 530 of the National Housing Act, when mortgages subject to section 530 terminate.

In proposing this rule, HUD had to address two fundamental issues: can the proposed MIP collection system be implemented without impairing the current affordability of FHA mortage insurance to low- and moderate-income homebuyers, and can it be operated on a financially and actuarially sound basis?

With respect to homeowner affordability, buyers would have the option of paying the up-front premium in cash, or of adding part of it—up to practically the entire amount, as explained below—to the amount of the mortgage and having this amount amortized along with the underlying loan. The rule would implement the authority provided in section 201 of the Omnibus Budget Reconciliation Act of 1982 to increase the otherwise applicable maximum dollar mortgage amount by the amount of the premium payment added to the mortgage, and to exclude the MIP from "cost of acquistion" for purposes of determining mimimum downpayment requirements. These provisions would assure that implementation of the proposal would not reduce the amount of house a buyer could purchase or result in an increase in the required downpayment, except for such small amounts as may result from application of maximum loan-to-value ratios (as explained below). Moreover, the increase in the monthly debt service required to repay the amount borrowed to pay for the up-front premium may be less than the monthly mortgage insurance premium that would otherwise have been collected for the mortgage.

In addition to statutory provisions directly addressing downpayment requirements, the amount of the required downpayment is also affected by maximum loan-to-value ratios. For example, section 203(b)(2) of the National Housing Act provides that insured loans may not exceed an amount equal to the sum of 97% of the first $25,000 of the "appraised value" of the property and 95% of the "appraised value" in excess of $25,000. No amendment to this and other loan-to-value ratio requirements was included in the 1982 Reconciliation Act. By long-standing administrative practice, the Department has calculated maximum loan-to-value ratios on a basis which included closing costs in "appraised value." Consistent with this practice, the Department intends to include also the amount of the up-front premium as an element of "appraised value" for the

purpose of calculation of the maximum loan-to-value ratio. The result of this will be that in the case of loans which are at the maximum ratio before consideration of the up-front premium, the required downpayment will be increased by the percentage resulting from the applicable loan-to-value ratio (5% in the case of a loan covered by the ratio provision cited above where the value exceeds $25,000). The rule would, however, exclude any part of the one-time premium which is amortized from the lender's originating and closing fees under 24 CFR 203.27.

The Department's practice of including closing costs in "appraised value," and the fact that this practice alone could result in a loan-to-value ratio in excess of 100% when based on selling price, was disclosed to Congress in connection with its consideration of the amendments adopted in the 1982 Reconciliation Act. An expectation by Congress that the up-front mortgage premium would result in further increases in the loan-to-value ratio when considered on the basis of selling price is explicitly evidenced in the Conference Report on the 1982 Reconciliation Act. Accordingly, the Department believes that inclusion of the up-front premium as an element of "appraised value" is permissible and consistent with Congressional expectations.

With respect to the actuarial soundness of the proposed rule, adding the amount of the MIP to the principal obligation of the loan increases the loan-to-value ratio based on selling price, as noted above. Research on the subject shows a positive correlation between high loan-to-value ratios and the incidence of default. Depending upon the amount of premium needed by HUD and rates of appreciation in home purchase prices and values, the proposed rule may result in an indebtedness in excess of the property's value during the first few years of the mortgage term. Clearly, such a situation could increase the risk to the Fund.

One factor mitigating that risk is the rule's provision that refunds of unearned premiums, which are normally available to mortgagors upon early termination of the insurance contract, would not be available to defaulting mortgagors. The loss of a potentially large refund offers a disincentive to default in cases where negative equity might otherwise dispose mortgagors to early default.

As an additional "fail-safe," the rule would require that the premium, refund, and distributive share amounts be determined in accordance with sound financial and actuarial practice. In addition, the proposed rule would give HUD explicit discretion to reinstitute use of the present MIP system, during such periods as HUD may find it appropriate, if HUD determines that use of the one-time MIP during such periods would not be consistent with sound financial and actuarial practice or would significantly increase financial burdens on mortgagors. This "fail-safe" feature is consistent with the admonition in the Conference Report on the 1982 Reconciliation Act that, if the new system is not actuarially sound, HUD preserve the current affordability of FHA insurance.

Specific provisions of the proposed rule would work as follows.

Calculation of the One-time Premium

The amount of the one-time MIP would equal the amount of the mortgage to be insured, multiplied by the applicable premium percentage. This percentage would be determined in accordance with sound financial and actuarial practice, taking into account the costs projected by HUD to be payable out of the reserves of the MMIF, discounted at a rate of interest determined by HUD. Costs would include insurance claim losses, salaries and expenses attributable to the Fund, and refunds of unearned premiums (discussed below). The discount rate would equal the rate of return expected to be earned by investment of the Fund's reserves. In accordance with section 203(c) of the National Housing Act, however, the discount rate could not exceed the rate of interest specified in the mortgage to be insured. The applicable premium percentage would be published by notice in the Federal Register at least once a year.

Switching to a MIP calculated on the basis of projected costs to the Fund would provide a sounder basis for determining the necessary MIP than does the present method of applyiing ½ percent per year to the average outstanding balance of the loan. Moreover, moving to a cost-basis calculation would reduce the effective premiums for mortgages insured under the rule by approximately 12 percent. In accordance with section 203(c) of the National Housing Act, application of the premium percentage determined under the proposed system could not result in a MIP in excess of an amount equivalent to 1 percent per year of the amount of the principal obligation of the mortgage outstanding at any time.

Premium Refunds

Section 201(b) of the 1982 Reconciliation Act amended section 203(c) of the National Housing Act to provide for a refund, where appropriate, of a portion of the one-time MIP paid, where the principal obligation of the loan is paid before the number of years on which the premium's discounted value was based, or where the property is sold subject to the mortgage or is sold and the mortgage is assumed before that time. The Secretary has determined that it is appropriate to provide for refunds of unearned premiums only where the contract of insurance covering the mortgage is terminated by payment of the mortgage in full or by voluntary termination.

In the case of other transfers of the property in which the insured loan remains outstanding, the mortgage insurance would remain in force. Because the total MIP obligation has been satisfied, the purchaser would not be required to make an additional MIP payment, but would be entitled to a refund or distributive share if he or she subsequently terminated the mortgage insurance contract. Typically, the sales price negotiated between the purchaser and seller would reflect this, providing the seller with what, in effect, would be a "refund" of a portion of the MIP he or she paid. Moreover, it would be administratively infeasible and would present actuarial problems to provide for a refund of the MIP while the mortgage is still an obligation of the Fund. For these reasons, HUD has determined that refunds would be appropriate only where the mortgage insurance contract has been terminated.

The proposed rule requires HUD to provide for a refund to the borrower of a portion of the one-time MIP, if the insurance contract is terminated voluntarily or by payment in full of the mortgage within 11 years from the date the mortgage was endorsed for insurance. The amount of the refund would be determined by multiplying the amount of the one-time MIP paid by the applicable premium refund percentage for mortgages insured in the year the mortgage was endorsed for insurance. The applicable percentage would be determined for each year in an equitable manner and in accordance with sound financial and actuarial practice, taking into account projected salaries and expenses, prospective losses generated by insurance claims, expected future payments of premium refunds and the impact on the insurance reserve resulting from the premium refunds. Refund percentages would be published by notice in the Federal Register at least annually.

HUD has decided that a mortgagor should not be entitled to receive both a distributive share and a refund or an unearned premium because if the

mortgagor receives a refund, he or she forgoes his or her prospective claim for a share of the Participating Reserve Account Surplus. Since the proportion of the premium recouped by the mortgagor in the 12th year of amortization is greater through receipt of a distributive share, as compared to a premium refund, premium refunds will be payable only during the first 11 policy years.

Distributive Shares

Section 205(c) of the National Housing Act authorizes HUD to distribute to mortgagors a share of the MMIF's Participating Reserve Account upon termination of the contract of insurance without payment of a claim. This reflects the mutuality feature of the Fund, and represents the homeowner's share of the net earnings to the Fund. Shares are required to be equitable and determined in accordance with sound actuarial and accounting practice, and are only paid with respect to mortgages that have been contributing premium income for 11 or more years.

The proposed rule would amend § 203.423 of 24 CFR to make eligible for distributive shares mortgagors who pay the proposed one-time MIP and to provide for a uniform method of calculating the shares for all mortgagors. Under the rule, shares could be paid if the contract of insurance is terminated after 11 years from the date the mortgage was endorsed for insurance. The amount of the distributive share would be determined by multiplying the amount of the premium or premiums paid by the applicable distributive share percentage for mortgages insured in the year the mortgage was endorsed for insurance. This percentage would be determined in an equitable manner and in accordance with sound financial and actuarial practice, taking into account the cumulative actual financial and actuarial experiences through the end of the most recent fiscal year. The applicable percentage would be published by notice at least annually in the Federal Register.

Payment of Refunds and Distributive Shares

Under existing practice, the Department is responsible for notifying mortgagors of eligibility to receive a distributive share by sending a notice to the mortgagor's last known address as provided by the mortgagee upon termination of insurance. The share is paid upon application of the mortgagor. The proposed rule would simplify this procedure by simply requiring mortgagors to apply to HUD within three years of the termination of the insurance contract for either a refund or a distributive share. To provide for an orderly transition to the new system, mortgagors who are eligible for a distributive share before the rule's effective date would be given three years for such date in which to submit their applications.

This rule constitutes a "major rule" as that term is defined in section 1(b) of the Executive Order on Federal Regulation issued by the President on February 17, 1981 (Executive Order 12291). The rule does not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies or geographic regions, nor does it significantly adversely effect competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. However, analysis of the proposed rule indicates that it would have an annual effect on the economy of $100 million or more. However, the Director of the Office of Management and Budget, pursuant to section 6(a)(4) of Executive Order 12291, has waived the requirement of section 3 of the Executive Order with respect to the proposed rule. This waiver is based on the Director's determination that the function of the regulatory impact analysis has largely been fulfilled by the extensive joint examination of this initiative undertaken by OMB and HUD, during the past year, together with the Department's report prepared for the Senate and House Banking Committees on the methodology used in determining the one-time premium.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50, which implement Section 102(2)(C) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection and copying during regular business hours at the Office of the Rules Docket Clerk, Office of the General Counsel, Room 10278, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC. 20410.

This rule was listed as Item H–139–82 under the Office of Housing in the Department's Semiannual Agenda of Regulations published on October 28, 1982 (47 FR 48428) pursuant to Executive Order 12291 and the Regulatory Flexibility Act.

The catalog of Federal Domestic Assistance program numbers are 14.117, 14.118 and 14.181.

Pursuant to section 605(b) of the Regulatory Flexibility Act, the Undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities. To the extent the rule has any impact on small entities—in this instance small mortgage lenders—the impact should be positive in the long run, since one-time premiums will reduce the recordkeeping and paperwork burden associated with the regular submission to HUD of periodic premium payments.

In accordance with the Paperwork Reduction Act of 1980 (Pub. L. 96–511), the reporting or recordkeeping provisions that are included in this regulation have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until OMB approval has been obtained and the public notified to that effect through a technical amendment to this regulation.

List of Subjects in 24 CFR Part 203

Home improvement, Loan programs: housing and community development, Mortgage insurance, Solar energy.

Accordingly, it is proposed that 24 CFR Part 203 be amended as follows:

PART 203—[AMENDED]

1. By adding a new paragraph (d) to § 203.18b, to read as follows:

§ 203.18b Increased mortgage amount.

* * * * *

(d) The dollar limitations provided in § 203.18(a)(1) and in this section (as such amounts may be increased by §§ 203.18a and 203.29) shall be increased by the amount of any one-time mortgage insurance premium paid pursuant to § 203.280 of this part.

2. By revising paragraph (a)(1) of § 203.19 to read as follows:

§ 203.19 Mortgagor's minimum investment.

(a) * * *

(1) In all cases (except those involving a veteran meeting the requirements of § 203.18(a)(3)), the minimum investment shall be at least three percent of the Commissioner's estimate of the cost of acquisition (excluding the amount of any one-time mortgage insurance premium payable pursuant to § 203.280) or such larger amount as the Commissioner may determine.

* * * * *

3. By revising paragraph (a) of § 203.22 to read as follows:

§ 203.22 Payment of insurance premiums or charges; prepayment privilege.

(a) *Payment of periodic insurance premiums or charges.* Except with

respect to mortgages for which a one-time mortgage insurance premium is paid pursuant to § 203.280 of this part, the mortgage may provide for monthly payments by the mortgagor to the mortgagee of an amount equal to one-twelfth of the annual mortgage insurance premium payable by the mortgagee to the Commisoner. If the mortgage contains a provision permitting the holder to make future "open-end" advances or is amended or modified to include such a provision, the mortgage may provide for a monthly payment by the mortgagor of an amount equal to one-twelfth of the annual charge, payable by the mortgagee to the Commissioner for insurance of such advances. Such payments shall continue only so long as the contract of insurance shall remain in effect.

* * * * *

4. By revising paragraph (a)(1) of § 203.24 to read as follows:

§ 203.24 Application of payments.

(a) * * *

(1) Premium charges under the contract of insurance (other than a one-time mortgage insurance premium paid pursuant to § 203.280), and charges for open-end advances;

* * * * *

5. By revising paragraph (a) of § 203.26 to read as follows:

§ § 203.26 Mortgagor's payments when mortgage is executed.

(a) The mortgagor must pay to the mortgagee, upon execution of the mortgage, a sum that will be sufficient to pay the ground rents, if any, the estimated taxes, special assessments, flood insurance premiums, if required, and fire and other hazard insurance premiums for the period beginning on the last date on which each such charge would have been paid under the normal lending practices of the lender and local custom (if each such date constitutes prudent lending practice), and ending on the due date of the first full installment payment under the mortgage, plus an amount sufficient to pay the mortgage insurance premium from the date of closing the loan to the date of the first monthly payment under the mortgage or, where applicable, the one-time mortgage insurance premium payable pursuant to § 203.280.

* * * * *

6. By revising subdivisions (i) and (ii) of paragraph (a)(2) of § 203.27 to read as follows:

§ 203.27 Maximum charges, fees or discounts.

(a) * * *
(2) * * *

(i) $20 or one percent of the original principal amount of the mortgage (excluding any one-time mortgage insurance premium paid pursuant to § 203.280), whichever is the greater; or

(ii) $350 or two and one-half percent of the original principal amount of the mortgage (excluding any one-time mortgage insurance premium paid pursuant to § 203.280), whichever is the greater, with respect to mortgages on property under construction or to be constructed where the mortgagee makes partial disbursements and inspections of the property during the progress of construction.

* * * * *

7. By revising paragraph (k) of § 203.43c to read as follows:

§ 203.43c Eligibility of mortgages involving a dwelling unit in a cooperative housing development.

* * * * *

(k) The mortgagee shall collect from the mortgagor upon the execution of the mortgage (1) a sum that will be sufficient to pay the mortgage insurance premium for the period beginning on the date of the closing of the loan and ending on the date of the first monthly payment under the mortgage or (2), where applicable, the one-time mortgage insurance premium payable pursuant to § 203.280.

* * * * *

§ 203.44 Amended.

8. By removing, in paragraph (d) of § 203.44, the reference to "§ 203.289" and by substituting in lieu thereof "§ 203.270".

9. By adding, immediately after the undesignated center heading entitled "Mortgage Insurance Premiums—In General", new § § 203.259 and 203.259a, to read as follows:

§ 203.259 Method of payment of MIP

The payment of any MIP under this subpart shall be made to the Commissioner by the mortgagee either in cash or debentures at par plus accrued interest.

§ 203.259a Scope.

For mortgages which are insured pursuant to applications for conditional commitments received on or after (insert effective date) and which are obligations of the Mutual Mortgage Insurance Fund under this part, the Commissioner shall charge a one-time MIP pursuant to § 203.280. The periodic MIP provisions of § § 203.260 through 203.269 shall not apply to these mortgages, except that the Commissioner shall have discretion to reinstitute use of the periodic MIP, during such period as the Commissioner may find it appropriate, if the Commissioner determines that use of the one-time MIP would not be consistent with sound financial and actuarial practice or would significantly increase financial burdens on mortgagors. Any such reinstitution of the periodic MIP, as well as any reinstitution of the one-time MIP, shall apply only with respect to mortgages insured pursuant to applications for conditional commitments received after such date as the Commissioner shall specify.

10. By adding, immediately after § 203.259a, a new undesignated center heading, to read as follows:

Mortgage Insurance Premiums—Periodic Payment

11. By revising § § 203.260 through 203.268, to read as follows:

§ 203.260 Amount of mortgage insurance premium (periodic MIP).

The mortgagee shall pay to the Commissioner an initial MIP in an amount equal to one-half of one percent of the average outstanding principal obligation of the mortgage for the first year of amortization. After payment of the initial MIP, the mortgagee shall pay to the Commissioner an amount equal to one-half of one percent of the average outstanding principal obligation of the mortgage for the 12-month period preceding each subsequent anniversary date of the beginning of amortization.

§ 203.261 Calculation of periodic MIP.

The amount of any periodic MIP shall be calculated in accordance with the original amortization provisions of the mortgage, without taking into account delinquent payments, prepayments, agreements to postpone payments, or agreements to recast the mortgage.

§ 203.262 Due date of periodic MIP.

The full initial or annual MIP shall be due on the anniversary date of the beginning of amortization.

§ 203.263 Adjustment of initial MIP.

If the Mortgage Insurance Certificate was issued prior to the beginning of amortization, the initial MIP shall be adjusted to include an additional premium from the date of issuance of the Mortgage Insurance Certificate to the date of the beginning of amortization. If the Mortgage Insurance Certificate was issued in the second half of the amortization year, the initial MIP shall be adjusted to include only that part of the premium year from the date of the issuance of the Mortgage Insurance Certificate to the first anniversary date of the beginning of amortization.

§ 203.264 Payment of periodic MIP.

(a) *Time of Payment.* Any portion of the periodic MIP received by the mortgagee from the mortgagor on or after September 1, 1982 shall be paid to the Commissioner on or before the tenth day of the month following the month in which it was received, provided that the full initial or annual MIP shall be due on the anniversary date of the beginning of amortization and payable not later than ten days after such date even if not collected by the mortgagee from the mortgagor.

(b) *Payment of Outstanding MIP.* All MIP that have been collected by mortgagees from mortgagors prior to September 1, 1982, but not remitted pursuant to an annual HUD billing shall be remitted to the Commissioner not before September 1, 1982, but not later than September 10, 1982. All annual MIP bills received by mortgagees from HUD prior to September 1, 1982 shall be paid on their specified due dates.

§ 203.265 Mortgagee's late charge and interest.

(a) Periodic MIP which are remitted to the Commissioner after the payment dates prescribed by §§ 203.262 and 203.264 shall include a late charge of four percent of the amount paid.

(b) In addition to the late charge provided in paragraph (a), the mortgagee shall pay interest on any periodic MIP which are remitted to the Commissioner more than 20 days after the payment dates prescribed in § 203.264. Such interest rate shall be paid at a rate set in conformity with the Treasury Fiscal Requirements Manual.

§ 203.266 Periodic covered by periodic MIP.

The initial MIP shall cover the period beginning with the date of the issuance of a Mortgage Insurance Certificate and ending on the next anniversary of the beginning of amortization. Subsequent premium payments shall cover the twelve-month period preceding each subsequent anniversary date.

§ 203.267 Duration of periodic MIP.

The mortgagee shall pay MIP to the Commissioner until the deed to the Commissioner is filed for record or the contract of insurance is terminated.

§ 203.268 Pro rata payment of periodic MIP.

(a) If the insurance contract is terminated before the due date of the initial MIP, the mortgagee shall pay a portion of the MIP prorated from the following dates to the date of termination:

(1) From the beginning of amortization if the Mortgage Insurance Certificate is issued in the first half of the amortization year, or

(2) From the date of the issuance of the Mortgage Insurance Certificate if the Certificate is issued at any time prior to the beginning of amortization or during the second half of the amortization year.

(b) If the insurance contract is terminated after the due date of the initial MIP, the mortgagee shall pay a portion of the current annual MIP prorated from the due date of the last annual MIP to the date of termination.

(c) A pro rata MIP shall not be due or payable where the mortgagee notifies the Commissioner that foreclosure or other action to acquire the property has been completed and that the property will not be conveyed to the Commissioner in exchange for insurance benefits. Any MIP due and paid after the institution of foreclosure or the date the property was otherwise acquired by the mortgagee will be refunded to the mortgagee upon receipt by the Commissioner of the notice from the mortgagee that the property will not be conveyed to the Commissioner.

§ 203.269 [Redesignated as § 203.270] and § 203.270 [Redesignated as § 203.269]

12. By redesignating § 203.269 as § 203.270, and § 203.270 as § 203.269, and by adding a new undesignated center heading immediately after § 203.269 as redesignated, to read as follows:

Open-end Insurance Charges—All Mortgages

13. By revising § 203.270 as redesignated, to read as follows:

§ 203.270 Open-end insurance charges.

(a) *Required charge.* In the case of an insured open-end advance the mortgagee shall pay to the Commissioner an open-end insurance charge.

(b) *Payment of charge for mortgages with periodic MIP.* The amount of any insured open-end advance shall be added to the average outstanding principal obligation of the mortgage for the purpose of determining the amount of periodic MIP as provided in §§ 203.260 through 203.268, except that the initial additional charge shall be prorated to cover the period beginning with the first day of the month following the issuance of a certificate evidencing the insurance of the open-end advance and ending on the due date of the next MIP.

(c) *Payment of charge for mortgages with one-time MIP.* In the case of a mortgage with a one-time MIP pursuant to § 203.280, the insurance charge shall be in an amount equal to ½ percent per annum of the outstanding principal obligation of the open-end advance. Sections 203.260 through 203.268 shall apply to the open-end charge on a mortgage with a one-time MIP, except that all references to amortization dates shall refer to amortization dates of the open-end advance, references to MIP shall refer to the open-end insurance charge, and references to outstanding principal obligation of the mortgage shall refer to outstanding principal obligation of the open-end advance.

(d) *Method of payment—all mortgages.* The payment of any open-end insurance charge under this subpart shall be made to the Commissioner by the mortgagee either in cash or debentures issued by the Mutual Mortgage Insurance Fund at par plus accrued interest.

14. By adding, immediately after § 203.270, a new undesignated center heading and new §§ 203.280—203.282, to read as follows:

Mortgage Insurance Premiums—One-Time Payment

§ 203.280 One-time MIP.

For mortgages for which a one-time MIP is to be charged in accordance with § 203.259a, the mortagee shall, at the time of and as a condition to the endorsement of the mortgage for insurance, pay to the Commissioner for the account of the mortgagor a premium representing the total obligation for the insuring of the mortgage by the Commissioner.

§ 203.281 Calculation of one-time MIP.

(a) The amount of the one-time MIP shall equal the amount of the mortgage to be insured multiplied by the applicable premium percentage.

(b)(1) The Commissioner shall determine the applicable premium percentage in accordance with sound financial and actuarial practice, taking into account the costs projected by the Commissioner to be payable out of the reserves of the Mutual Mortgage Insurance Fund, discounted at a rate of interest determined by the Commissioner, but not to exceed the interest rate specified in the mortgage. For purposes of this determination, (i) costs shall include insurance claim losses, salaries and expenses attributable to the Fund, and refunds of unearned premiums pursuant to § 203.282 of this subpart, and (ii) the discount rate shall equal the rate of return expected to be earned by investment of the reserves to the Fund.

(2) Application of the premium percentage determined under this paragraph shall not result in a MIP in excess of an amount equivalent to 1 per

centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments.

(c) The applicable premium precentage will be published by notice at least annually in the **Federal Register.**

§ 203.282 Refund of one-time MIP.

(a) The Commissioner shall provide for the refund to the mortgagor of a portion of the MIP paid pursuant to § 203.280 if the contract of insurance covering the mortgage is terminated within eleven years from the date the mortgage is endorsed for insurance, by payment in full or by voluntary termination approved by the Commissioner.

(b) The Commissioner shall determine the amount of the premium refund by multiplying the amount of the premium paid at the time the mortgage was insured by the applicable premium refund percentage for mortgages insured in the year the mortgage was endorsed for insurance. The Commissioner shall determine the applicable premium refund percentage for each year in an equitable manner and in accordance with sound financial and actuarial practice, taking into account (1) projected salaries and expenses, (2) prospective losses generated by insurance claims, (3) expected future payments of premium refunds, and (4) the impact on the insurance reserve resulting from the premium refunds.

(c) The applicable premium refund percentages will be published by notice at least annually in the **Federal Register.**

(d) To qualify for a refund, the mortgagor shall submit an application to the Commissioner within three years of the date of the termination of the insurance.

15. By revising § 203.402, paragraph (d), to read as follows:

§ 203.402 Items included in payment—conveyed properties.

* * * * *

(d) Periodic MIP or open-end insurance charges;

* * * * *

16. By revising § 203.423 to read as follows:

§ 203.423 Distribution of distributive shares.

(a) The Commissioner may provide for the distribution to the mortgagor of a share of the participating reserve account if the contract of insurance is terminated, after eleven years from the date the mortgage was endorsed for insurance, by payment in full or by voluntary termination approved by the Commissioner.

(b) The Commissioner shall determine the amount of the distributive share by multiplying the amount of the premium or premiums paid by the applicable distributive share percentage for mortgages insured in the year the mortgage was endorsed for insurance. The Commissioner shall determine the applicable distributive share percentage in an equitable manner and in accordance with sound financial and actuarial practice, taking into account the cumulative actual financial and actuarial experiences through the end of the most recent fiscal year.

(c) The applicable distributive share percentages will be published by notice at least annually in the **Federal Register.**

(d) To qualify for a distributive share, the mortgagor shall submit an application to the Commissioner within the later of three years from (insert effective date) or the date the contract of insurance is terminated.

Authority: (Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d), sec. 211, National Housing Act (21 U.S.C. 1715b).

Dated: January 28, 1983.

Philip Abrams,

Assistant Secretary for Housing—Federal Housing Commissioner.

BILLING CODE 4210-27-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 301

[EE-111-80]

Public Inspection of Exempt Organization Returns

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the public inspection of returns of certain tax exempt organizations. The regulations clarify the rules relating to the disclosure of certain information of exempt organizations. Additionally, the regulations reflect changes made by Pub. L. 96-603 and Pub. L. 95-488.

DATE: Written comments and requests for a public hearing must be delivered or mailed by May 3, 1983.

ADDRESSES: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T:EE-111-80, Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: William D. Gibbs of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224. Attention: CC:LR:T, 202-566-3430 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed amendments to the Procedure and Administration Regulations (26 CFR Part 301) under section 6104(b).

Statutory Provision

Section 6104(b) provides for the disclosure to the public of the information required to be furnished by sections 6033, 6034, and 6058. However, the section does not authorize the disclosure of the name or address of any contributor to any organization or trust that is required to furnish such information. This exception does not apply to any private foundation, as defined in section 509(a).

Nondisclosure of Certain Information

The proposed regulation continues the rule that the names and addresses of contributors to an organization (other than a private foundation) will not be made available to the public.

However, the amounts of contributions and bequests to such an organization shall be disclosed to the public unless disclosure can reasonably be expected to identify the name or address of any contributor. This amendment is necessary to reflect current Service procedure with respect to the disclosure of the amounts of contributions and bequests to organizations or trust that are not private foundations.

Comments and Requests for a Public Hearing

Before adopting this proposed regulation, consideration will be given to any written comments that are submitted (preferably seven copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the **Federal Register.**

Executive Order 12291 and Regulatory Flexibility Act

The Commissioner has determined that this proposed regulation is not a

major regulation for purposes of Executive Order 12291. Accordingly, a regulatory impact analysis is not required.

Although this document is a notice of proposed rulemaking which solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

Drafting Information

The principal author of this regulation is Mary M. Levontin of the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

List of Subjects in 26 CFR Part 301

Administrative practice and procedure, Disclosure of information.

Proposed Amendments to the Regulations

PART 301—[AMENDED]

The proposed amendments to 26 CFR Part 301 are as follows:

Paragraph 1. Paragraph (a)(3) of § 301.6104(b)–1 is removed.

Par. 2. Paragraphs (b) and (c) of § 301.6104(b)–1 are designated as paragraphs (c) and (d) and the following new paragraph (b) is inserted in the appropriate place:

§ 301.6104(b)–1 Publicity of information on certain information returns and annual reports.

* * * * *

(b) *Nondisclosure of certain information.*—(1) *Names and addresses of contributors.* The names and addresses of contributors to an organization other than a private foundation shall not be made available for public inspection under section 6104 (b).

(2) *Amounts of contributions.* The amounts of contributions and bequests to an organization shall be available for public inspection unless the disclosure of such information can reasonably be expected to identify any contributor. Notwithstanding the preceding sentence, the amounts of contributions and bequests to a private foundation shall be available for public inspection.

(3) *Foreign organizations.* The names, addresses, and amounts of contributions or bequests of persons who are not citizens of the United States to a foreign organization described in section 4948 (b) shall not be made available for public inspection under section 6104(b).

(4) *Confidential business information.* Confidential business information of contributors to any trust described in section 501(c)(21) (black lung trusts) shall not be available for public inspection under section 6104(b) provided:

(i) A request if filed with the office with which the trustee filed the documents in which the information to be withheld is contained,

(ii) Such request clearly specifies the information to be withheld and the reasons supporting the request for withholding, and

(iii) The Commissioner determines that such information is confidential business information.

Information such as the contributor's estimated total liability for black lung benefits, the contributor's coal pricing policies, or any background information necessary to establish estimated total liability or coal pricing policies are examples of confidential business information that shall not be disclosed to the public under this subparagraph.

Par. 3. Paragraph (c), as redesignated paragraph (d), of § 301.6104(b)–1 is amended by striking out "6033 and 6034 and the annual report required by section 6056" and inserting in lieu thereof "6033, 6034, and 6058" in subparagraph (2) and by striking out "or 6056" and inserting in lieu thereof "or 6058" in subparagraph (3).

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

BILLING CODE 4830–01–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 886

Abandoned Mine Land Program; Grants—Administrative Procedures

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule.

SUMMARY: The Office of Surface Mining (OSM) proposes to amend portions of the abandoned mine land reclamation rules relating to the administrative procedures for State Reclamation Grants. The proposed amendment will eliminate provisions concerning "Recipients' Release" and "Recipients' Assignments of Refunds, Rebates and Credits" when closing out grants. OSM proposes to eliminate forms OSM–62 and OSM–63. This would reduce the number of forms required from the recipient for closing out OSM financial assistance grants. In OSM's effort to reduce the paperwork burden on the recipient as much as possible, it was decided that the forms were unnecessary.

DATES: Written comments must be received on or before 5 p.m. April 14, 1983 at the address listed under **"ADDRESSES"**.

Meetings may be scheduled at the address listed under **FOR FURTHER INFORMATION CONTACT** between 9 a.m. and noon and 1 p.m. and 4 p.m. Monday through Friday excluding holidays. Any person interested in a meeting with OSM should contact Don Willen, Chief, Division of Grants Administration, for an appointment at the address or phone number listed under **"FOR FURTHER INFORMATION CONTACT"**.

ADDRESSES: Comments may be mailed or hand carried to: Office of Surface Mining, U.S. Department of the Interior, Administrative Record Number (AML–28), Room 5315, 1100 L Street, N.W., Washington, D.C. 20240, Telephone (202) 343–7896.

FOR FURTHER INFORMATION CONTACT: Donald W. Willen, Chief, Division of Grants Administration, Office of Surface Mining, U.S. Department of the Interior, 1951 Constitution Avenue N.W., Washington, D.C. 20240, Telephone (202) 343–7951 or 343–4225.

SUPPLEMENTARY INFORMATION

Background

The Abandoned Mine Land Reclamation (AMLR) Program was established under the Surface Mining Control and Reclamation Act of 1977, Pub. L. 95–87 (the "Act") in response to concern over extensive environmental damage caused by the failure of past coal mining activities to adequately reclaim disturbed lands. Funds are generated by a fee imposed on each ton of coal produced. Congress then appropriates the funds for: (1) Grants to States and Indian tribes to plan and carry out reclamation programs and projects; (2) for Federal reclamation projects carried out by the Secretary of the Interior through OSM and other Interior agencies; and (3) for the Rural Abandoned Mine Program (RAMP) administered by the Secretary of Agriculture and carried out by the Soil Conservation Service.

Proposed Rule Revisions

Section 886.20 presently reads as follows:

§ 886.20 Administrative procedures.

The agency shall follow administrative procedures governing accounting, payment, property, and related requirements contained in Office of Management and Budget Circular No. A–102 and use the following forms: OSM–60 (Report of Government Property), OSM–62 (Recipients' Release), and OSM–63 (Recipients Assignments of Refunds, Rebates and Credits).

OSM is proposing to revise 30 CFR 886.20 to eliminate forms OSM–62 and OSM–63. This would reduce the number of forms required from the recipient for closing out OSM financial assistance grants. In OSM's effort to reduce the paperwork burden on the recipient as much as possible, it was decided that the forms were unnecessary.

Form OSM–62 was developed to release OSM from all obigations under the grant or cooperative agreement funding being closed out. OSM Proposes that this information be provided in the grantee's transmittal letter at the time the grantee submits the final close out report.

The transmittal letter will indicate that the recipient discharges the Government from all obligations arising from the agreement, unless any exceptions are noted. Information on audit exceptions will also be included.

The purpose of Form OSM–63 is to provide OSM with a statement indicating that OSM will be entitled to its share and payment of all refunds, rebates, and credits arising from the performance of the agreement.

OSM will be certain that a statement will be included in each grant agreement that will suffice for form OSM–63. This statement will indicate that OSM will be entitled to its share and payment of all refunds, rebates and credits arising from the performance of the agreement.

Procedural Matters

The following determinations have been made by OSM in reference to the proposed rule change:

The Department of the Interior has determined that this document is not a major rule under E.O. 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility act (5 U.S.C. 601 et seq.).

The Department of the Interior has determined, pursuant to Section 702(d) of SMCRA, 30 U.S.C. 1292(d), that this action will not have a significant effect on the human environment and an Environmental Impact Statement need not be prepared.

The information collection requirements in the existing AMLR rules were approved by OMB under 44 U.S.C. 3507 and assigned clearance number 1029–0059.

Form OSM–62 was assigned number 1029–0077 and Form OSM–63 was assigned number 1029–0068.

Author of Rule Change: Carole L. Battle, Division of Grants Administration, Telephone: (202) 343–7921.

List of subjects in 30 CFR Part 886

Coal mining, Grant program natural resources, Reporting requirements, Surface mining, Underground mining.

For the reasons set forth in this preamble, 30 CFR 886.20 is proposed to be revised, as set forth herein.

Daniel N. Miller, Jr.,

Assistant Secretary for Energy and Minerals.

Dated: February 3, 1983.

PART 886—STATE RECLAMATION GRANTS

Section 886.20 is revised to read as follows:

§ 886.20 Administrative procedures.

The agency shall follow administrative procedures governing accounting, payment, property, and related requirements contained in Office of Management and Budget Circular No. A–102 and use the following form: OSM–60 (Report of Government Property).

(Pub. L. 95–87, 30 U.S.C. 1201 *et seq.*)

30 CFR Part 948

Public Comment Period and Opportunity for Public Hearing on an Amendment to the West Virginia Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing procedures for a public comment period and for a public hearing on an amendment submitted by the State of West Virginia to amend its permanent regulatory program which was conditionally approved by the Secretary of the Interior under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The proposed program amendment consists of proposed regulations to revise and replace those approved and currently in force as emergency regulations.

This notice sets forth the times and locations that the proposed amendment is available for public inspection, the comment period during which interested persons may submit written comments on the proposed program amendment and information pertinent to the public hearing.

DATES: Written comments must be received on or before 4 p.m. on April 4, 1983. A public hearing on the proposal will be held from 7 p.m. to 9 p.m. on March 28, 1983, at the OSM Charleston Field Office listed below under "**ADDRESSES**". Any person interested in making an oral or written presentation at the hearing should contact Mr. David H. Halsey at the OSM Charleston Field Office by the close of business on March 18, 1983. If no one has contacted Mr. Halsey to express an interest in participating in the hearing by that date, the hearing will not be held. If only one person has so contacted Mr. Halsey, a public meeting, rather than a hearing, may be held and the results of the meeting included in the Administrative Record.

ADDRESSES: Written comments should be mailed or hand delivered to:

Office of Surface Mining Reclamation and Enforcement, Charleston Field Office, Attention: West Virginia Administrative Record, 603 Morris Street, Charleston, West Virginia 25301

See "**SUPPLEMENTARY INFORMATION**" for addresses where copies of the West Virginia program amendment and administrative record on the West Virginia program are available. Each requestor may receive, free of charge, one single copy of the proposed program amendment by contacting the OSM Charleston Field Office listed above.

FOR FURTHER INFORMATION CONTACT: Mr. David H. Halsey, Director, Charleston Field Office, Office of Surface Mining, 603 Morris Street, Charleston, West Virginia 25301, Telephone: (304) 347–7158.

SUPPLEMENTARY INFORMATION: Copies of the West Virginia program amendment, the West Virginia program and the administrative record on the West Virginia program are available for public review and copying at the OSM offices and the office of the State regulatory authority listed below, Monday through Friday, 9:00 a.m. to 4:00 p.m., excluding holidays:

Office of Surface Mining, Charleston Field Office, 603 Morris Street, Charleston, West Virginia 25301, Telephone: (304) 347–7158

Office of Surface Mining, 1100 "L" Street, NW., Room 5315, Washington, D.C. 20240, Telephone: (202) 343–7896
West Virginia Department of Natural Resources, Room 630, Building 3, 1800 Washington Street, East, Charleston, West Virginia 25305, Telephone: (304) 348–6160

In addition, copies of the amendment are available for inspection and copying during regular business hours at the following locations:

Office of Surface Mining, Morgantown Area Office, Post Office Box 886, Morgantown, West Virginia 26505, Telephone: (304) 291–4004
Office of Surface Mining, Beckley Area Office, 119 Appalachian Drive, Beckley, West Virginia 25801, Telephone: (304) 255–5265

On February 16, 1983, the State of West Virginia submitted to OSM an amendment to its conditionally approved permanent regulatory program. The West Virginia program was conditionally approved by the Secretary of the Interior on January 21, 1981 (46 FR 5915–5956). The proposed program amendment consists of proposed regulations to revise and replace those approved and currently in force as emergency regulations. In addition, West Virginia indicated that the proposed regulations do not incorporate the provisions of the Technical Handbook of Standards and Specifications for Mining Operations as regulation as done in the State's conditionally approved program. Instead, design criteria have been incorporated into the proposed regulations and, where necessary, appropriate references made to the Technical Handbook. The Technical Handbook now serves as a technical guideline, rather than regulation. Therefore, this amendment deletes the Technical Handbook from regulation and incorporates it as a program element.

In accordance with the provisions of 30 CFR 732.17, OSM is seeking comments from the public on the adequacy of the proposed program amendment. Upon the close of the public comment period, the Director of the Charleston Field Office will forward transcripts, public comments and a recommendation to the Director of OSM.

1. *Compliance with the National Environmental Policy Act:* The Secretary has determined that, pursuant to Section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. *Executive Order No. 12291 and the Regulatory Flexibility Act:* On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an Exemption from Sections 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a Regulatory Impact Analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule does not impose any new requirements; rather, it ensures that existing requirements established by SMCRA and the Federal rules will be met by the State.

3. *Paperwork Reduction Act.* This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

VETERANS ADMINISTRATION

DEPARTMENT OF DEFENSE

38 CFR Part 21

Post-Vietnam Era Veterans Educational Assistance Program Basic Eligibility Criteria; Refund of Participant's Contributions

AGENCY: Veterans Administration and Department of Defense.

ACTION: Proposed regulations.

SUMMARY: These proposed regulations, issued jointly by the VA (Veterans Administration) and Department of Defense, are designed to implement those provisions of the Veterans' Disability Compensation, Housing, and Memorial Benefits Amendments of 1981 which affect the Post-Vietnam Era Veterans' Educational Assistance Program (VEAP). They make the eligibility criteria for this program more restrictive. These regulations will implement the applicable provisions of this law.

DATES: Comments must be received on or before April 4, 1983. In keeping with Pub. L. 97–66, the VA and Department of Defense propose that these regulations be made effective October 17, 1981.

ADDRESSES: Send written comments to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420.

All written comments received will be available for public inspection at this address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays) until April 13, 1983. Anyone visiting Veterans Administration Central Office in Washington, D.C. for the purpose of inspecting any of these comments will be received in the Central Office Veterans Services Unit in room 132. Visitors to VA field stations will be informed that the records are available for inspection only in Central Office and will be furnished the address and room number.

FOR FURTHER INFORMATION CONTACT: June C. Schaeffer (225), Assistant Director for Policy and Program Administration, Education Service, Department of Veterans Benefits, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420 (202–389–2092).

SUPPLEMENTARY INFORMATION: The proposed regulations provide additional criteria which individuals must meet before they can establish basic eligibility to educational benefits under chapter 32, Title 38, United States Code. They also expand the circumstances under which a participant in the Post-Vietnam Era Veteran's Educational Assistance Program may receive a partial refund of his or her contributions. These policy changes are required by law.

The agencies have determined that these proposed regulations contain no major rules as that term is defined by Executive Order 12291, Federal Regulation. The annual effect on the economy will be less than $100 million. They will not result in any major increases in costs or prices for anyone. They will have no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Administrator of Veterans' Affairs and the Secretary of Defense hereby certify that these proposed regulations, if promulgated, will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (RFA), 5 U.S.C. 601–612. Pursuant to 5 U.S.C. 605(b), these proposed regulations therefore are

exempt from the initial and final regulatory flexibility analyses requirements of sections 603 and 604.

These regulations will affect only individual VA benefit recipients. They will have no significant impact on small entities (i.e. small businesses, small private and nonprofit organizations, and small governmental jurisdictions).

The Catalog of Federal Domestic Assistance number for the program affected by these proposed regulations is 64.120.

List of Subjects in 38 CFR Part 21

Civil rights, Claims, Education, Grant programs—Education, Loan programs—Education, Reporting requirements, Schools, Veterans, Vocational education, Vocational rehabilitation.

Approved: January 11, 1983.
Approved: February 7, 1983.
By direction of the Administrator.
Everett Alvarez, Jr.,
Deputy Administrator.
R. Dean Tice,
Deputy Assistant Secretary of Defense.

PART 21—[AMENDED]

1. Section 21.5040 is revised as follows:

§ 21.5040 Basic eligibility.

(a) *Individuals not on active duty.* Whether an individual has basic eligibility under 38 U.S.C. ch. 32 for educational assistance depends upon when he or she entered the military service, the length of that service, and the character of that service (38 U.S.C. 1602; Pub. L. 97–66, 95 Stat. 1026).

(b) *Service requirements for all individuals not an active duty.* (1) An individual not on active duty—

(i) Must have entered the military service after December 31, 1976;

(ii) Must not have and must not have had basic eligibility under 38 U.S.C. ch. 34;

(iii) Must have received an unconditional discharge or release under conditions other than dishonorable from any period of service upon which eligibility is based;

(iv) Must either have—

(A) Served on active duty for at least 181 continuous days, or

(B) Been discharged or released from active duty for a service-connected disability.

(2) The Veterans Administration will consider that the veteran has an unconditional discharge or release if—

(i) The individual was eligible for complete separation from active duty on the date a discharge or release was issued to him or her, or

(ii) The provisions of § 3.13(c) of this chapter are met.

(3) The provisions of § 3.12 of this chapter as to character of discharge and § 3.13 of this chapter as to conditional discharges are applicable (38 U.S.C. 1603).

(c) *Additional active duty service requirements for some individuals not on active duty—Chapter 32.* (1) Unless exempted by paragraph (d) of this section, perons who originally enlist in a regular component of the Armed Forces after September 7, 1980, or who enter on active duty after October 16, 1981 (either as an enlisted member or an officer) to be eligible under 38 U.S.C. ch. 32, must first complete the shorter of—

(i) 24 continuous months of active duty, or

(ii) The full period for which the individual was called or ordered to active duty.

(2) For the purpose of paragraph (c)(1) of this section the Veterans Administration considers that an enlisted person originally enlisted in a regular component of the Armed Forces on the date he or she entered on active duty even though he or she may have signed a delayed-entry contract on an earlier date.

(3) In computing time served for the purpose of this paragraph, the Veterans Administration will exclude any period during which the individual is not entitled to credit as specified in § 3.15 of this chapter. However, those periods will be included in determining if the service was continuous (38 U.S.C. 1602, 3103A; Pub. L. 97–66, 95 Stat. 1026).

(d) *Individuals exempt from additional active duty requirements.* (1) An individual who originally enlists in a regular component of the Armed Forces after September 7, 1980, or who enters on active duty after October 16, 1981 (either as an enlisted member or officer), will be eligible to receive benefits under 38 U.S.C. ch. 32 based upon the ensuing period of active duty, and is exempt from the provisions of paragraph (c) of this section if he or she subsequently—

(i) Is discharged or released from active duty—

(A) Under 10 U.S.C. 1173 (hardship discharge), or

(B) Under 10 U.S.C. 1171 (early-out discharge), or

(C) For a disability incurred in or aggravated in line of duty; or

(ii) Is found by the Veterans Administration to have a service-connected disability which gives the individual basic entitlement to disability compensation as described in § 3.4(b) of this chapter. Once the Veterans Administration makes this finding, the exemption will continue to apply even if the disability subsequently improves and becomes noncompensable.

(2) An individual who enters on a period of active duty after October 16, 1981 is also exempt from the provisions of paragraph (c) of this section if he or she—

(i) Previously completed a continuous period of active duty of at least 24 months, or

(ii) Was discharged or released from a previous period of active duty under 10 U.S.C. 1171 (early-out discharge).

(3) In computing time served for the purpose of this paragraph, the Veterans Administration will exclude any period during which the individual is not entitled to credit for service as specified in § 3.15 of this chapter. However, those periods will be included in determining if the service was continuous (38 U.S.C. 1602, 3103A; Pub. L. 97–66, 95 Stat. 1026).

(e) *Savings provision.* An individual may become a participant and establish basic eligibility under the provisions of this section based upon a period of active duty service which began October 16, 1981. He or she would not lose the basic eligibility based upon that period of service if, following a release from active duty, the individual reenters on active duty after October 16, 1981 and fails to meet the requirements of paragraph (c) of this section or qualify for an exemption under paragraph (d) of this section. He or she will receive a refund of any contributions he or she may make to the fund during the second period of active duty. See § 21.5065 (38 U.S.C. 1602, 3103A; Pub. L. 97–66, 95 Stat. 1026).

(f) *Individuals on active duty.* To establish basic eligibility under 38 U.S.C. ch. 32 for educational assistance an individual on active duty—

(1) Must have entered into military service after December 31, 1976 (38 U.S.C. 1602),

(2) Must have served on active duty for a period of 181 or more continuous days after December 31, 1976, and

(3) If not enrolled in a course, courses or a program of education leading to a secondary school diploma or equivalency certificate, must have completed the lesser of the following two periods of active duty: (38 U.S.C. 1631(b))

(i) The individual's first obligated period of active duty which began after December 31, 1976, or

(ii) The individual's period of active duty which began after December 31, 1976, and which is 6 years in length,

(4) If enrolled in a course, courses or a program of education leading to a secondary school diploma or equivalency certificate, the individual—

(i) Must be an enlisted member of the Armed Forces,

(ii) Must be a participant

(iii) Must be training during the last 6 months of his or her first period of active duty, or any time thereafter, and

(5) If he or she originally enlisted after September 7, 1980, must have completed at least 24 months of his or her original enlistment (38 U.S.C. 1631(b), 10 U.S.C. 977).

2. Section 21.5065 is revised as follows:

§ 21.5065 Refunds without disenrollment.

(a) *Refunds made without disenrollment following a discharge or release under dishonorable conditions*— (1) *A discharge or release under dishonorable conditions may result in a partial refund of contributions.* If an individual who would have been eligible, but for the fact of his or her re-enlistment, for the award of a discharge or release under conditions other than dishonorable at the time he or she completed an obligated period of service, later receives a discharge or release under dishonorable conditions, the Veterans Administration may refund a portion of his or her contribution (38 U.S.C. 101, 1623).

(2) *Amount of refund.* The Veterans Administration shall refund to the individual all of his or her remaining contributions made to the fund after the individual completed the obligated period of service (38 U.S.C. 101, 1623).

(3) *Date of refund.* The Veterans Administration shall refund all monies due the individual—

(i) On the date of the individual's discharge or release from active duty; or

(ii) Within 60 days of receipt by the Veterans Administration of notice of the individual's discharge or release, whichever is later (38 U.S.C. 101, 1623, 1632).

(b) *Refunds made without disenrollment following a short period of active duty.* (1) An individual who has contributed to the fund during more than one period of active duty may be required to receive a refund of those contributions made during the most recent period of active duty. When an individual who meets all the criteria in paragraph (b)(2) of this section is discharged, the Veterans Administration will refund all contributions he or she made during the most recent period of active duty unless the individual meets one or more of the criteria stated in either paragraph (b) (4) or (5) of this section. If he or she meets one of those criteria, the contributions will not be refunded unless the individual voluntarily disenrolls.

(2) Unless a compulsory refund is prohibited by paragraph (b) (4) or (5) of this section, the Veterans Administration will refund all contributions made by an individual during the most recent period of active duty when the individual—

(i) Completed at least one period of active duty before the most recent one during which he or she established entitlement to Post-Vietnam Era Veterans' Educational Assistance;

(ii) Reentered on his or her most recent period of active duty after October 16, 1981;

(iii) Contributed to the fund during his or her most recent period of active duty; and

(iv) Is discharged.

(3) The circumstances which prohibit an automatic refund of monies contibuted during the individual's most recent period of active duty do not relate only to the most recent period of active duty which began after October 16, 1981, but also to the individual's prior periods of active duty regardless of whether they began before, after or on October 16, 1981.

(4) Meeting one or more of the following criteria concerning periods of active duty before the most recent one will be sufficient to prohibit a compulsory refund of contributions made during the most recent period of active duty. The individual—

(i) Before the most recent period of active duty began, completed at least one continuous period of active duty of at least 24 months, or

(ii) Was discharged or released under 10 U.S.C. 1171 (early-out discharge) from any period of active duty before the most recent one.

(5) Meeting one or more of the following criteria concerning the most recent period of active duty will be sufficient to prohibit a compulsory refund of contributions made during the most recent period of active duty. The individual—

(i) For the most recent period of active duty completes 24 months of continuous active duty, or the full period for which the individual was called or ordered to active duty, whichever is shorter; or

(ii) Is discharged or released from the most recent period of active duty under 10 U.S.C. 1171 (early-out discharge) or 11173 (hardship discharge); or

(iii) Is discharged or released from the most recent period of active duty for a disability incurred or aggravated in line of duty; or

(iv) Has a service-connected disability which give him or her basic entitlement to disability compensation as described in § 3.4(b) of this chapter.

(6) In computing time served for the purpose of this paragraph, the individual is not entitled for credit for service as specified in § 3.15 of this chapter. However, those periods will be included in determining if the service was continuous.

(7) The Veterans Administration shall refund all monies due the individual—

(i) On the date of the individual's discharge or release from active duty; or

(ii) Within 60 days of receipt of notice by the Veterans Administration of the individual's discharge or release, whichever is later.

(38 U.S.C. 1602, 1623, 1632, 3103A; Pub. L. 97–66, 95 Stat. 1026).

BILLING CODE 8320-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[SWH-FRL-2314-6]

Proposed National Priorities List, Appendix B of the National Oil and Hazardous Substances Contingency Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency ("EPA") proposes to add to the proposed National Priorities List (47 FR 58476) one additional site, Times Beach, Missouri. The National Priorities List ("NPL") was proposed on December 30, 1982, as an amendment to the National Oil and Hazardous Substances Contingency Plan ("NCP") (47 FR 31180). The NCP was promulgated as required by Section 105 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA") which also required that the NCP include a list of national priorities among the known or threatened releases of hazardous substances, pollutants or contaminants in the United States, and that the list be revised at least annually. The NPL identifies priority releases for Fund-financed remedial action and enforcement under CERCLA. EPA is taking this step pursuant to the requirement of CERCLA. Placement of Times Beach on the NPL at this time allows the Agency an opportunity to evaluate the widest range of long and short term responses to the release, taking into account the threat to public health and current dislocation of most residents and businesses.

DATE: Comments must be submitted on or before April 4, 1983.

ADDRESSES: Comments on this action may be mailed to Russell H. Wyer, Director, Hazardous Site Control Division, Office of Emergency and Remedial Response (WH–548–E), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460. The public docket for the NPL will contain the applicable Hazard Ranking System score sheets for the Times Beach site as well as a Documentation Record.

FOR FURTHER INFORMATION CONTACT: Sylvia Lowrance 382–2203.

SUPPLEMENTARY INFORMATION: The NPL was proposed on December 30, 1982. Subsequent to its proposal, the Times Beach site came to the Agency's attention as a serious candidate for inclusion on the NPL.

The Time Beach, Missouri, site was one of over 100 sites in the State of Missouri at which dioxin contamination was suspected in November 1982. Extensive sampling by EPA in Times Beach in late November–early December 1982 confirmed the presence of dioxin along roadway areas. After the area was flooded in December, EPA returned to re-sample the area and again confirmed the presence of dioxin in residences and yards as well as the roadway areas.

The second round of sampling provided adequate data to assess the nature and extent of the release and to assist in determining its priority for Fund-financed response as required by § 300.66(b) of the National Contingency Plan. The results of the scoring indicated Times Beach should be placed on the NPL.

The decision to add Times Beach to the NPL immediately rather than waiting for the first update stems from the serious nature of the problem. Dioxin is one of the most toxic substances known to man; it is carcinogenic and suspected to have effects on reproductive systems. The area where the dioxin is located was completely flooded and most of the residents are in temporary housing awaiting a determination of the appropriate action necessary to deal with the release. Placement of Times Beach on the NPL at this time allows the Agency an opportunity to evaluate the widest range of long and short term responses to the release, taking into account the threat to public health and current dislocation of most residents and businesses.

List of Subjects in 40 CFR Part 300

Air pollution control, Chemicals, Hazardous material, Intergovernmental relations, Natural resources, Oil pollution, Reporting and recordkeeping requirements, Superfund, Waste treatment and disposal, Water pollution control, Water supply.

Dated: February 22, 1983.

Anne M. Burford,

Administrator.

PART 300—[AMENDED]

It is proposed to add an additional site on the National Priorities List which is Appendix B, a proposed amendment to 40 CFR Part 300. The site would appear as the next to last site in Group 5, as follows:

GROUP 5

EPA region	State	City/county	Site name	Response status*
07	MO	Times Beach	Times Beach	D.

* V=Voluntary or Negotiated Response, F=Federal and State Responses, E=Federal and State Enforcement, D=Actions to be Determined.

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 82-078]

Disqualification Under the Horse Protection Act

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of disqualification.

SUMMARY: This notice is to advise the general public and the horse industry of certain individuals who have been disqualified under the Horse Protection Act, for specified terms, from showing or exhibiting any horse, and from judging or managing any horse show, exhibition, sale, or auction.

FOR FURTHER INFORMATION CONTACT: Dr. A. E. Hall, Chief Staff Veterinarian, Interstate Inspection and Compliance Staff, Federal Building, Room 806, 6505 Belcrest Road, Hyattsville, MD 20782, 301–436–8695.

SUPPLEMENTARY INFORMATION: Section 6(c) of the Horse Protection Act (15 U.S.C. 1825(c)) provides authority for disqualifying persons from showing or exhibiting any horse, and from judging or managing any horse show, exhibition, sale, or auction. This document gives notice that the following individuals have been disqualified, for the terms specified, from showing or exhibiting any horse, and from judging or managing any horse show, exhibition, sale, or auction.

1. Name: Don Bain
   Address: Ooltewah, Tennessee
   Disqualification Period: March 1, 1982, through February 28, 1983
2. Name: Steve Smith
   Address: Emporia, Kansas
   Disqualification Period: March 1, 1982, through February 28, 1983
3. Name: Rodney W. Dick
   Address: Franklin, Tennessee
   Disqualification Period: June 1, 1982, through May 31, 1985

Any person who knowingly fails to obey a disqualification order shall be subject to a civil penalty of not more than $3,000 for each violation. Any horse show, exhibition, sale, or auction, or its management, which knowingly allows any disqualified person to judge, manage, or participate in a horse show, exhibition, sale, or auction in violation of a disqualification order shall be subject to a civil penalty of not more than $3,000 for each violation.

Done at Washington, D.C., this 28th day of February 1983.

Norvan L. Meyer,
Acting Deputy Administrator, Veterinary Services.

BILLING CODE 3410-34-M

Office of the Secretary

Privacy Act of 1974; Amendment of Existing Systems of Records

AGENCY: Department of Agriculture.

ACTION: Notice of amendment to existing system of records.

SUMMARY: The Department is giving notice that it intends to amend the following Privacy Act System of Records: USDA/FNS–5, Investigations of Fraud, Theft, or Other Unlawful Activities of Individuals Involving Food Stamps. The amendment updates information in the Privacy Act System of Records and provides for automation of subcategories of data within the system. A full description of the existing System of Records was last published in the Federal Register on November 2, 1978, at 43 FR 51302.

EFFECTIVE DATE: The amendment to the USDA/FNS Privacy Act System of Records is effective April 4, 1983.

FOR FURTHER INFORMATION CONTACT: Joseph M. Scordato, Privacy Act Officer, Administrative Services Division, Food and Nutrition Service, USDA, Alexandria, Virginia 22302. Telephone (703) 756–3234.

SUPPLEMENTARY INFORMATION: The Department maintains a System of Records relating to individuals investigated for fraud or other unlawful activities involving food stamps. The system is currently maintained manually through file folders indexed by name, State and fiscal year of receipt. The amendment provides for automation of subcategories of data within the system. The Department is presently establishing an automated data base containing information on individuals disqualified from participation in the Food Stamp Program for intentional Program violation. The amendment also updates certain information in the system to reflect changes which have occurred in the intervening years since it was last published in full, such as changes in addresses and authority for maintenance of the system.

Dated: February 25, 1983.

John R. Block,
Secretary.

USDA/FNS-5

SYSTEM NAME:

Investigations of Fraud, Theft, or Other Unlawful Activities of Individuals Involving Food Stamps—USDA/FNS.

SYSTEM LOCATION:

Office of the Deputy Administrator for Family Nutrition Programs, Food and Nutrition Service, United States Department of Agriculture, 3101 Park Center Drive, Room 1138, Alexandria, Virginia, 22302, and FNS Regional Offices located in: Atlanta, Georgia which covers the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee; Burlington, Massachusetts which covers the States of Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont; Chicago, Illinois which covers the States of Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin; Dallas, Texas which covers the States of Arkansas, Louisiana, New Mexico, Oklahoma, and Texas; Denver, Colorado which covers the States of Colorado, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming; Robbinsville, New Jersey which covers the States of Delaware, District of Columbia, Maryland, New Jersey, Pennsylvania, Puerto Rico, Virginia, Virgin Islands, and West Virginia; San Francisco, California which covers the States of Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, Trust Territories of the Pacific, and Washington.

The address of each Regional Office is listed in the telephone directory of the respective cities listed above under the heading "United States Government, Department of Agriculture, Food and Nutrition Service."

* * * * *

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

78 Stat. 703 as amended; 7 U.S.C. 2011–2029; and 7 CFR 271–273.

* * * * *

STORAGE:

Records are maintained in file folders and in an on-line, direct access computer file at the addresses listed above.

RETRIEVABILITY:

Records are indexed by name, Social Security number, State and, in the case of the manual records, by fiscal year of receipt.

SAFEGUARDS:

Manual records are kept in either locked file cabinets or locked offices. The computer discs will have a password master file access and the discs will be kept in locked filing cabinets or locked offices in a secured area.

RETENTION AND DISPOSAL:

Manual records will be retained in active files until the end of the fiscal year following the fiscal year in which the investigations are closed. Thereafter, they are transferred to Federal Records Centers and maintained for three additional fiscal years before disposal. The computer files are to be maintained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Administrator for Family Nutrition Programs, Food and Nutrition Service, United States Department of Agriculture, Alexandria, Virginia 22302 (703–756–3026), or the appropriate Regional Food Stamp Program Director at the address listed above.

BILLING CODE 3410-30-M

Soil Conservation Service

Environmental Impact; Spring Lake Watershed, Illinois

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental statement is not being prepared for the Spring Lake Watershed, McDonough County, Illinois.

FOR FURTHER INFORMATION CONTACT: John J. Eckes, State Conservationist, Soil Conservation Service, 301 North Randolph Street, Champaign, Illinois 61820, Telephone (217) 398–5267.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, John J. Eckes, States Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns are erosion, sedimentation, water quantity, and resource base degradation. The planned works of improvement include conservation tillage systems, terraces, diversions, outlets, land conversion, critical area treatment, grassed waterways, grade stabilization structures, field borders, wildlife habitat management, and livestock exclusion.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting John J. Eckes.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program. Office of Management and Budget Circular A–95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects is applicable)

Dated: February 16, 1983.

John J. Eckes,

State Conservationist.

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE

International Trade Administration

Brown University; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 82–00346. Applicant: Brown University, Division of Biology and Medicine, Box G, Providence, Rhode Island 02912. Instrument: Digamax Gas Mixing Pump Type 2M 303/a–F 110V/60Hz. Manufacturer: H. Wosthoff, KG, West Germany. Intended use of instrument: See Notice on page 41411 in the **Federal Register** of September 20, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument produces three component gas mixtures, such as Oxygen, Carbon Dioxide and Nitrogen, to plus or minus three percent accuracy. The Department of Health and Human Services advises in its memorandum dated December 29, 1982 that: (1) The capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

University of Massachusetts at Amherst; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 82-00314. Applicant: University of Massachusetts at Amherst, Amherst, MA 01003. Instrument: Minispin with Pocket Computer complete with Printer and Interface. Manufacturer: Molspin Ltd., United Kingdom. Intended use of instrument: See Notice on page 41797 in the **Federal Register** of September 22, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument is a portable instrument with a sensitivity of better than 0.1×10^{-6} electromagnetic units per cubic centimeter. The National Bureau of Standards advises in its memorandum dated January 18, 1983 that: (1) The capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

University of Rochester; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 82-00320. Applicant: University of Rochester, 601 Elmwood Avenue, Rochester, NY 14642. Instrument: Pulsating Bubble Surfactrometer without Recorder and Accessories. Manufacturer: Surfactometer International, Canada. Intended use of instrument: See Notice on page 41798 in the **Federal Register** of September 22, 1982.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument makes measurement at body temperature and humidity as well as at a normal breathing rate. The Department of Health and Human Services advises in its memorandum dated December 29, 1982 that: (1) The capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purpose as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Carbon Steel Wire Nails From Japan; Announcement of Second Quarter Monitoring Prices

AGENCY: International Trade Administration, Commerce.

ACTION: Announcement of Second Quarter 1983 Monitoring Prices for Carbon Steel Wire Nails from Japan.

SUMMARY: The Department of Commerce continues to monitor imports of carbon steel wire nails from Japan in accordance with an August 11, 1981 memorandum of understanding which expires two years from its inception. The Department announces that second quarter 1983 monitoring prices for carbon steel wire nails from Japan have declined 1.5 percent from the first quarter 1983 levels. The second quarter 1983 monitoring price applies to those products exported to the United States on or after April 1, 1983.

FOR FURTHER INFORMATION CONTACT: Juanita S. Kavalauskas, Agreements Compliance Division, Import Administration, Room 3099, Department of Commerce, Washington, D.C. 20230, telephone: (202) 377-3793.

SUPPLEMENTARY INFORMATION: In compliance with a memorandum of understanding submitted August 10, 1981, Japanese nail manufacturers provided assurances that all contracts for the sale of carbon steel wire nails to the United States below trigger prices ceased on or about March 5, 1981, and that all sales of the product for a two year period beginning August 11, 1981 would be made at prices at or above the relevant trigger prices.

The Japanese nail manufacturers agreed to supply all costs of production and transportation information necessary to monitor the import prices. The Japanese manufacturers agreed that if the Trigger Price Mechanism (TPM) were terminated or suspended prior to the two year period, they would continue to provide TPM type cost information through the Japanese Ministry of International Trade and Industry (MITI) in order that the Department of Commerce could continue to calculate monitoring prices. The TPM was suspended January 11, 1982 and trigger price monitoring was

reinstated only for stainless steel round wire products in April 1982.

Commerce will continue to monitor imports of certain carbon steel wire nails from Japan through the use of Special Summary Steel Invoices to assure compliance with the second quarter 1983 price levels.

For its calculation of monitoring price levels the dollar/yen exchange rate the Department uses to convert Japanese steel producers' yen-denominated production cost to dollars is the average of the 36 months preceding the calculation and publication of the quarter's monitoring price levels. The exchange rate used in the Department's second quarter 1983 production cost estimate is 232 yen to the dollar (the yen/dollar exchange rate average for February 1980 through January 1983).

Commerce's dollar valued estimate of the current production cost to Japan's wire nail producers declined 1.5 percent from the first quarter 1983 level, due to a decline in the cost of wire rod.

Other Charges

The second quarter 1983 carbon steel wire nail monitoring prices are an estimate of the Japanese nail manufacturers' production cost plus the cost of transporting to the United States and handling in the United States. Thus, charges for ocean freight, interest, handling and insurance must be added to the production costs described above and reflected in monitoring price base and extras the freight and handling charges remain unchanged from first quarter 1983 levels. Interest charges have been adjusted to reflect the current prime interest rate.

A list of the carbon steel wire nails subject to monitoring and applicable base prices and extras are reproduced in the Appendix to this notice.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

March 1, 1983.

Appendix—Monitoring Prices for Carbon Steel Wire Nails From Japan

AISI CATEGORY 20

[2d quarter base price per metric ton—$383]

Charges to CIF	Ocean freight	Handling	Interest
Pacific Coast	$51	$8	$6
Gulf Coast	65	5	12
Atlantic Coast	70	4	12
Great Lakes	78	8	14

Insurance 1% of base price + extras + ocean freight.

Extras:

BILLING CODE 3510-25-C

Vitamin K From Spain; Final Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of final results of administrative review of countervailing duty order.

SUMMARY: On November 19, 1982, the Department of Commerce published in the **Federal Register** the preliminary results of its administrative review of the countervailing duty order on vitamin K from Spain. The review covered the period January 1, 1981 through December 31, 1981. The notice stated that the Department had preliminarily determined the net subsidy to be 3.09 percent *ad valorem*.

Interested parties were invited to comment on our preliminary results. We received no comments. Based on our analysis, the final results of the review are the same as those presented in the preliminary results.

EFFECTIVE DATE: March 4, 1983.

FOR FURTHER INFORMATION CONTACT: Lorenza Olivas or Tom Hodge, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On November 19, 1982, the Department of Commerce ("the Department") published in the **Federal Register** (47 FR 52206) the preliminary results of its administrative review of the countervailing duty order on vitamin K from Spain (41 FR 50419, November 16, 1976). The Department has now completed that administrative review.

Scope of the Review

The merchandise covered by the review is vitamin K, commercially known as menadione sodium bisulfite, imported directly or indirectly from Spain. Such imports are currently classifiable under item 412.6420 of the Tariff Schedules of the United States Annotated. The review covers the period January 1, 1981 through December 31, 1981 and two programs: (1) A rebate upon exportation of indirect taxes, under the Desgravacion Fiscal a la Exportacion; and (2) an operating capital loans program.

Final Results of the Review

Interested parties were invited to comment on our preliminary results. We received no comments. Based on our analysis, the final results of our review are the same as those presented in the notice of preliminary results of review.

The Department will instruct the Customs Service to assess countervailing duties in the amount of the net subsidy, 3.09 percent of the f.o.b. invoice price, on all shipments of vitamin K from Spain exported on or after January 1, 1981 and on or before December 31, 1981.

Further, as provided for by section 751(a)(1) of the Tariff Act of 1930 ("the Tariff Act"), the Department will instruct the Customs Service to collect cash deposits of estimated countervailing duties of 2.78 percent of the f.o.b. invoice price on all shipments of this merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice. This deposit requirement shall remain in effect until publication of the final results of the next administrative review.

The Department intends to conduct the next administrative review by the end of November 1983. The amount of countervailing duties to be imposed on exports made during 1982 will be determined in that review. Consequently, the suspension of liquidation previously ordered will continue for all entries of this merchandise exported on or after January 1, 1982.

The Department encourages interested parties to review the public record and submit applications for protective orders, if desired, as early as possible after the Department's receipt of the information in the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Dated: February 24, 1983.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510–25–M

High-Capacity Pagers From Japan; Postponement of Final Decision and Postponement of Hearing

AGENCY: International Trade Administration, Commerce.

ACTION: Postponement of final antidumping determination and postponement of hearing.

SUMMARY: This notice informs the public that the Department of Commerce has received a request from Matsushita Communication Industrial Co., Ltd. ("MCI") that the final determination be postponed until not later than 135 days after the date of the preliminary determination, as provided for in § 353.44(b) of the Department of Commerce Regulations (19 CFR 353.44(b)), and that the Department will postpone its final determination as to whether high-capacity pagers from Japan have occurred at less than fair value until not later than June 16, 1983.

The hearing, originally scheduled for March 4, 1983, at 10:00 a.m., in Conference Room 6802, has been postponed. The new hearing date is April 8, 1983, at 10:00 a.m., in conference room 3708. The prehearing briefs will be due on April 1, 1983.

MCI is qualified to make this request since it is an exporter who accounts for a significant proportion of the merchandise which is the subject of the investigation. The additional time is necessary to enable MCI to prepare adequately for the hearing and to prepare the relevant briefs, which must address several issues raised by this investigation.

EFFECTIVE DATE: March 4, 1983.

FOR FURTHER INFORMATION CONTACT: John J. Kenkel, Import Administration Specialist, Office of Investigations, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; (202) 377–3464).

SUPPLEMENTARY INFORMATION: On September 15, 1982, the Department of Commerce published notice in the **Federal Register** (47 FR 40679) that it was initiating under section 732(b) of the Tariff Act of 1930 (19 U.S.C. 1673a(b)) an antidumping investigation to determine whether high-capacity pagers from Japan are being or are likely to be sold at less than fair value. The Department published an affirmative preliminary determination on February 1, 1983 (48 FR 4498). The notice stated that, unless the investigation were extended, the Department would issue a final determination not later than April 11, 1983. Section 735(a)(2) of the act provides that the Department of Commerce may postpone its final determination concerning sales at less than fair value if an exporter who accounts for a significant proportion of the merchandise which is the subject of the investigation requests an extension after an affirmative preliminary determination.

Accordingly, the Department will issue a final determination in this case not later than June 16, 1983.

This notice is published pursuant to section 735(d) of the Act.

Dated: February 23, 1983.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

[FR Doc. 83-5663 Filed 3-3-83; 8:45 am]

BILLING CODE 3510-25-M

National Bureau of Standards

National Fire Codes: Request for Proposals for Revisions of Standards

AGENCY: National Bureau of Standards, Commerce.

ACTION: Notice of request for proposals.

SUMMARY: The National Fire Protection Association (NFPA) proposes to revise some of its fire safety standards and requests proposals from the public to amend existing NFPA fire safety standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its standards. The publication of this notice of request for proposals by the National Bureau of Standards (NBS) on behalf of NFPA is being undertaken as a public service; NBS does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

DATES: Interested persons may submit proposals on or before the dates listed with the standards.

ADDRESS: Richard E. Stevens, Vice President & Chief Engineer, NFPA, Batterymarch Park, Quincy, Massachusetts 02269.

FOR FURTHER INFORMATION CONTACT: Richard E. Stevens, at above address, (617) 328-8290.

SUPPLEMENTARY INFORMATION:

Background

The National Fire Protection Association (NFPA) develops fire safety standards which are known collectively as the National Fire Codes.

Federal agencies frequently use these standards as the basis for developing Federal regulations concerning fire safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

Request for Proposals

Interested persons may submit amendments, supported by written data, views, or arguments to Richard E. Stevens, Vice President & Chief Engineer, NFPA, Batterymarch Park, Quincy, Massachusetts 02269. Each person who submits a proposal must include his or her name and address, must identify the notice, and must give reasons for the proposal. The NFPA will consider any proposal that it receives on or before the date listed with the standard.

The NFPA will publish a copy of each written proposal that it receives and the disposition of each proposal by the NFPA Committee as the Technical Committee Report. The NFPA will send a copy of the Technical Committee Report to each person who submits a proposal.

Ernest Ambler,

Director, National Bureau of Standards.

Proposed NFPA 43B, Organic Peroxide.	July 15, 1984.
NFPA 43C-1980, Gaseous Oxidizing Materials.	July 15, 1984.
NFPA 43D-1980, Pesticides in Portable Containers.	July 15, 1984.
NFPA 45-1982, Laboratories Using Chemicals.	June 30, 1984.
NFPA 490-1980, Ammonium Nitrate	July 15, 1984.
NFPA 493-1978, Intrinsically Safe Process Control Equipment.	Jan. 15, 1984.
NFPA 495-1982, Explosive Materials	Dec. 31, 1984.
NFPA 496-1982, Purged and Pressurized Enclosures for Electrical Equipment in Hazardous Locations.	Jan. 15, 1984.
NFPA 497-1975, Classification of Class 1 Hazardous Locations for Electrical Installations in Chemical Plants.	Jan. 15, 1984.
NFPA 497M-1983, Group Classification of Flammable and Combustible Vapors and Combustible Dusts.	Jan. 15, 1984.
NFPA 498-1982, Explosives Motor Vehicle Terminals.	Dec. 31, 1984.
Combustible Metals:	
NFPA 48-1981, Magnesium	June 30, 1985.
NFPA 482-1982, Zirconum	June 30, 1985.
NFPA 481-1982, Titanium	June 30, 1985.
Criteria for Accreditation of Fire Protection Education Programs: Proposed NFPA 1461, Criteria for Accreditation of Fire Protection Education Programs.	July 22, 1983.
Dust Explosion Hazards:	
NFPA 65-1980, Processing and Finishing of Aluminum.	(Open).
NFPA 651-1980, Manufacture of Aluminum or Magnesium Powder.	(Open).
Emergency Power Supplies: NFPA 110-1983, Emergency Power Supplies.	July 22, 1983.
Explosion Protection Systems:	
NFPA 68-1978, Explosion Venting	July 22, 1983.
NFPA 69-1978, Explosion Prevention Systems.	July 22, 1983.
Finishing Processes:	
NFPA 33-1982, Spray Application Using Flammable and Combustible Materials.	July 22, 1983.
NFPA 34-1982, Dipping and Coating Processes Using Flammable and Combustible Liquids.	July 22, 1983.
Fire Department Equipment:	
NFPA 1901-1979, Automotive Fire Apparatus.	July 22, 1983.
Proposed NFPA 1903, Testing Fire Dept. Pumpers.	July 22, 1983.
NFPA 1904-1980, Fire Dept. Aerial Ladders and Elevating Platforms.	Nov. 1, 1983
Fire Hazards of Materials: NFPA 704-1980, Identification of Fire Hazards of Materials.	July 22, 1983.
Fire Hazards in Oxygen-Enriched Atmospheres: NFPA 53M-1979, Fire Hazards in Oxygen-Enriched Atmospheres.	July 22, 1983
Fire Hose:	
NFPA 1962-1979, Care, Use and Maintenance of Fire Hose Including Connections and Nozzles.	July 22, 1983
Proposed NFPA 1964-1985, Nozzles and Tips for Use in Fire Fighting.	Jan. 13, 1984
Fire Safety in Race Track Stable Areas: NFPA 150-1979, Fire Safety in Race Track Stables.	Jan. 13, 1984.
Fire Service Professional Standards Development for Fire Fighter Qualifications:	
NFPA 1003-1978, Airport Fire Fighter Professional Qualifications.	July 22, 1983.
Proposed NFPA 1004, Fire Fighter Medical Technician.	July 22, 1983.
Fire Safety for Recreational Vehicles:	
NFPA 501C-1982, Recreational Vehicles.	Jan. 13, 1984.
NFPA 501D-1982, Recreational Vehicle Parks.	Jan. 13, 1984.
Flammable Liquids:	
NFPA 32-1979, Drycleaning Plants	July 22, 1983.
NFPA 36-1978, Solvent Extraction Plants.	July 22, 1983.
NFPA 385-1979, Tank Vehicles for Flammable and Combustible Liquids.	July 22, 1983.
NFPA 386-1979, Portable Shipping Tanks.	July 22, 1983.
Forest:	
Proposed NFPA 297, Telecommunication Systems, Principles and Practices for Rural and Forestry Fire Services.	July 22, 1983.
Proposed NFPA 298, Air Operations for Forest, Brush and Grass Fires.	July 22, 1983.
Libraries, Museums and Historic Buildings:	
NFPA 910-1980, Protection of Library Collections from Fire.	Jan. 13, 1984.
NFPA 911-1980, Protection of Museum Collections from Fire.	Jan. 13, 1984.
Liquefied Natural Gas: NFPA 59A-1979, Liquefied Natural Gas.	July 22, 1983.
Loss Prevention Procedures and Practices:	
NFPA 27-1981, Organization, Training and Equipment of Private Fire Brigades.	Dec. 31, 1984.
NFPA 601-1981, Guard Service in Fire Loss Prevention.	Dec. 31, 1984.
NFPA 601A-1981, Guard Operations in Fire Loss Prevention.	Dec. 31, 1984.
Marine Fire Protection:	
NFPA 87-1980, Construction and Protection of Piers and Wharves.	July 22, 1983.
Proposed NFPA 307, Operation of Marine Terminals.	July 22, 1983.
Mining Facilities: NFPA 121-1981, Mobile Surface Mining Equipment.	July 22, 1983.
Motor Vehicle and Highway Fire Protection: NFPA 502-1981, Limited Access Highways, Tunnels, Bridges, Elevated Roadway and Air Right Structures.	July 22, 1983.
Protective Equipment for Fire Fighters:	
NFPA 1971-1981, Protective Clothing for Structrual Fire Fighting.	Nov. 1, 1983.
Proposed NFPA 1974, Protective Boots for Fire Fighters.	Nov. 1, 1983.
Proposed NFPA 1975, Station Uniforms.	Nov. 1, 1983.
NFPA 1981-1981, Self Contained Breathing Apparatus.	Nov. 1, 1983.
Proposed NFPA 1983, Personnel Ropes.	Nov. 1, 1983.
Pyrotechnics:	
NFPA 1121L-1982, Model State Fireworks Law.	July 1, 1985.
NFPA 1122-1982, Code for Unmanned Rockets.	July 1, 1985.

NFPA 1123–1982, Public Display of Fireworks.	July 1, 1985.
NFPA 1124, Fireworks (existing NFPA 44A–1974).	April 1, 1983.
Proposed NFPA 1125, Sale and Use of Fireworks.	April 1, 1983.
Signaling Systems:	
Proposed NFPA 72FT–1985, Emergency Communication Systems for High Rise and Other Occupied Buildings.	July 22, 1983.
Proposed NFPA 72G–1985, Audible and Visual Signaling Appliances for Protective Signaling Systems.	July 22, 1983.
Storage:	
NFPA 231–1979, Indoor General Storage.	May 15, 1983.
NFPA 231C–1980, Rack Storage of Materials.	(Open).
Water Extinguishing Systems:	
NFPA 13–1982, Installation of Sprinkler Systems.	July 22, 1983.
Proposed NFPA 13S, Limited Protection Sprinkler Systems for Small Buildings.	July 22, 1983.
NFPA 14–1982, Standpipe and Hose Systems.	(Open).
NFPA 20–1982, Fire Pumps	(Open).
NFPA 22–1981, Water Tanks	April 1, 1983.

BILLING CODE 3510-13-M

National Fire Codes: Request for Comments on NFPA Technical Committee Reports

AGENCY: National Bureau of Standards, Commerce.

ACTION: Notice of request for comments.

SUMMARY: The National Fire Protection Association (NFPA) revises existing standards and adopts new standards twice a year. At its fall meeting in November or its annual meeting in May, the NFPA acts on recommendations made by its technical committees.

The purpose of this notice is to request comments on the technical reports which will be presented at NFPA's 1983 Fall Meeting. The publication of this notice by the National Bureau of Standards (NBS) on behalf of NFPA is being undertaken as a public service; NBS does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

DATES: Technical Committee Reports will be available for distribution February 25, 1983. Comments received on or before May 13, 1983, will be considered by the NFPA before final action is taken on the proposals.

ADDRESS: The 1983 Fall Technical Committee Reports are available from NFPA, Publications Department, Batterymarch Park, Quincy, Massachusetts 02269. (No charge for single copies.) Comments on the reports should be submitted to Richard E. Stevens, Vice President & Chief Engineer, NFPA, Batterymarch Park, Quincy, Massachusetts 02269.

FOR FURTHER INFORMATION CONTACT: Richard E. Stevens, at above address, (617) 328–9290.

SUPPLEMENTARY INFORMATION:

Background

Standards developed by the technical committees of the National Fire Protection Association (NFPA) have been used by various Federal agencies as the basis for Federal regulations concerning fire safety. The NFPA standards are known collectively as the National Fire Codes. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

Revisions of existing standards and adoption of new standards are reported by the technical committees at the NFPA's Fall Meeting in November or at the Annual Meeting in May of each year. The NFPA invites public comment in its Technical Committee Reports.

Request for Comments

Interested persons may participate in these revisions by submitting written data, views, or arguments to Richard E. Stevens, Vice President & Chief Engineer, NFPA, Batterymarch Park, Quincy, Massachusetts 02269. Commentors may use the forms provided for comments in the Technical Committee Reports. Each person submitting a comment should include his or her name and address, identify the notice, and give reasons for any recommendations. Comments received on or before May 13, 1983, will be considered by the NFPA before final action is taken on the proposals.

Copies of all written comments received and the disposition of those comments by the NFPA committees will be published as the Technical Committee Documentation by September 26, 1983, prior to the Fall Meeting.

A copy of the Technical Committee Documentation will be sent automatically to each commentor. Action on the Technical Committee Reports (adoption or rejection) will be taken at the Fall Meeting, November 14–17, 1983, at the Orlando Hyatt, Orlando, Florida, by NFPA members.

Ernest Ambler,

Director, National Bureau of Standards.

Action at the NFPA Fall Meeting in November 1983 is being proposed on the NFPA standards listed below:

1983 Fall Meeting—Technical Committee Reports

Committee	Document	Action
Aviation:		
Aircraft Rescue Fire Fighting	NFPA 412, Evacuating Foam Fire Fighting Equipment on Aircraft Rescue and Fire Fighting Vehicles.	R.
Chimneys and Other Heat and Vapor Removal Equipment:		
Chimneys, Fireplaces and Venting Systems for Heat Producing Appliances	NFPA 97M, Glossary of Terms Relating to Chimneys, Vents & Heat Producing Appliances.	O–P.
	NFPA 211, Chimneys, Fireplaces, Vents and Solid Fuel Appliances	O–P.
Venting Systems for Cooking Appliances	NFPA 96, Removal of Smoke and Grease-laden Vapors from Commercial Cooking Equipment.	O–P.
Cutting and Welding Practices	NFPA 51B, Cutting and Welding Processes	O–P.
Dust Explosion Hazards:		
Agricultural Dusts	NFPA 61A, Manufacturing and Handling Starch	O–C.
	NFPA 61C, Feed Mills	O–C.
	NFPA 61D, Milling of Agricultural Commodities for Human Consumption	O–C.
Fundamentals of Dust Explosion and Control	NFPA 66, Pneumatic Conveying Systems for Feed, Flour, Grain and Other Agricultural Dusts.	W.
	NFPA 650, Pneumatic Conveying Systems for Combustible Materials	N–O.
Electrical Metalworking Machine Tools, Plastics Machinery and Mass Production Industrial Equipment.	NFPA 79, Metalworking Machine Tools and Plastics Processing Machinery	O–P.
Fire Department Organization	NFPA 1201, Organization for Fire Services	O–C.
Fire Service Training	NFPA 13E, Fire Department Operations in Properties Protected by Sprinkler and Standpipe Systems.	O–P.
Fire Tests	NFPA 252, Door Assemblies	O–P.
	NFPA 253, Critical Radiant Flux of Floor Covering Systems Using a Radiant Heat Energy Source.	O–P.
	NFPA 255, Surface Burning Characteristics of Building Materials	O–P.
	NFPA 262, Electrical Tubing and Insulated and Jacketed Wiring	O–P.

1983 FALL MEETING—TECHNICAL COMMITTEE REPORTS—Continued

Committee	Document	Action
Health Care Facilities	NFPA 99, Health Care Facilities Code (incorporating existing NFPA 3M, Emergency Preparedness; NFPA 56A, Inhalation Anesthetics; NFPA 56B, Respiratory Therapy; NFPA 56C, Laboratories; NFPA 56D, Hyperbaric Facilities; NFPA 56E, Hypobaric Facilities; NFPA 56G, Inhalation Anesthetics in Ambulatory Care Facilities; NFPA 56HM, Home Use of Respiratory Therapy; NFPA 56K, Medical Surgical Vacuum Systems; NFPA 76A, Essential Electrical Systems; NFPA 76B, Safe Use of Electricity; NFPA 76C, High Frequency Electricity).	O–C.
Industrial and Medical Gases	NFPA 50A, Gaseous Hydrogen Systems at Consumer Sites	O–P.
	NFPA 51A, Acetylene Cylinder Charging Plants	O–P.
Liquefied Petroleum Gases	NFPA 58, Liquefied Petroleum Gases at Utility Gas Plants	O–P.
Marine Fire Protection	NFPA 302, Motor Craft	O–C.
	NFPA 303, Marinas and Boatyards	O–P.
Mining Facilities	NFPA 120 (existing NFPA 653), Coal Preparation Plants	O–C.
Motor Vehicle and Highway Fire Protection	NFPA 512, Truck Fire Protection	O–P.
	NFPA 513, Motor Freight Terminals	O–P.
Ovens and Furnaces	NFPA 86C, Industrial Furnaces Using a Special Processing Atmosphere	O–C.
Public Fire Services Communications	NFPA 1221, Public Fire Service Communications	O–C.
Rural Fire Prevention and Control	NFPA 1231, Water Supplies for Suburban and Rural Fire Fighting	O–C.
Signaling Systems:		
Household Fire Warning Equipment	NFPA 74, Household Fire Warning Equipment	O–P.
Protective Signaling Systems	NFPA 72H, Testing Fire Alarm Systems	N–O.
Storage:		
	231E, Storage of Baled Cotton	N–O.
General Storage	NFPA 231F, Storage of Roll Paper	N–O.
Water Extinguishing Systems:		
Private Water Supply Piping Systems	NFPA 24, Private Fire Service Mains and their Appurtenances	O–P.

Types of Action

Proposed Action on Official Documents
- O–P Partial Amendments
- O–C Complete Revision

Proposed Action on New Documents
- N–O Official Adoption

Proposed Action on Tentative Documents
- T–O Official Adoption

Other Proposed Action
- R Reconfirmation
- W Withdrawal

BILLING CODE 3510-13-M

National Oceanic and Atmospheric Administration

South Atlantic Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA Commerce.

SUMMARY: The South Atlantic Fishery Management Council, established by Section 302 of the Magnuson Fishery Conservation and Management Act (Pub. L. 94–265, as amended), will meet to report on Swordfish Fishery Management Plan (FMP) public hearings, to date; update the Snapper-Grouper FMP and review activities to date on the Billfish and Calico Scallop FMP's; give a tentative review of the remaining FY 83 budget and discuss other management business as necessary.

DATE: The public meetings will convene on Monday, March 21, 1983, at approximately 1:30 p.m., and will adjourn on Thursday, March 24, 1983, at approximately noon.

ADDRESS: The public meetings will take place at the Council's Headquarters Office, One Southpark Circle, Suite 306, Charleston, South Carolina.

FOR FURTHER INFORMATION CONTACT: South Atlantic Fishery Management Council, One Southpark Circle, Suite 306, Charleston, South Carolina 29407, Telephone: (803) 571–4366.

Dated: March 1, 1983.

Richard B. Stone,

Acting Chief, Operations Coordination Group, National Marine Fisheries Service.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcing an Export Visa Requirement for Down and Feather-Filled Apparel From India

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Requiring an export visa for down and feather-filled apparel in Categories 353, 354, 653, and 654, produced or manufactured in India.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709).

SUMMARY: The Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of December 21, 1982 between the Government of the United States and India now includes coverage of down and feather-filled apparel. Accordingly, on and after the effective date of this action, it will be necessary for shipments of these products to be visaed by the Government of India in the same manner as other categories of textile products subject to this agreement are currently required to be visaed.

EFFECTIVE DATE: April 15, 1983 for goods exported on and after that date.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

SUPPLEMENTARY INFORMATION: On February 9, 1981, there was published in the **Federal Register** (46 FR 11571) a letter dated February 4, 1981 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs which permitted entry, effective on February 9, 1981 and until further notice, of down and feather-filled jackets, coats and vests in Categories 353, 354, 653, and 654, produced or manufactured in certain specified countries, including India, without an export visa. This agreement now covers down and feather-filled apparel. Accordingly, in the letter published below the Chairman of the Committee for the Implementation of Textile Agreements further amends the directive of February 4, 1981 to the Commissioner of Customs to require export visas for these products.

produced or manufactured in India, effective on April 15, 1983.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

March 1, 1983.

Committee for the Implementation of Textile Agreements

Commissioner of Customs
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: This letter further amends, but does not cancel, the letter of February 4, 1981, which directed you to waive, effective on February 9, 1981 and until further notice, the export visa requirement for feather-filled apparel in Categories 353, 354, 653, and 654 from designated countries, including India.

Effective on April 15, 1983 and until further notice, an export visa will be required for merchandise in Categories 353, 354, 653, and 654, produced or manufactured in India and exported on and after that date.

The actions taken with respect to the Government of India and with the respect to imports of cotton and man-made fiber textile products from India have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Comissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register.**

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 83-5511 Filed 3-3-83; 8:45 am]
BILLING CODE 3510-25-M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERLY HANDICAPPED

Procurement List 1983 Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to procurement list.

SUMMARY: This action adds to Procurement List 1983 services to be provided by workshops for the blind and other severely handicapped.

EFFECTIVE DATE: March 4, 1983.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: On July 23, 1982, August 6, 1982, and November 12, 1982, the Committee for Purchase from the Blind and Other Severely Handicapped published notices (47 FR 31915, 47 FR 34181, 47 FR 51180) of proposed additions to Procurement List 1983, November 18, 1982 (47 FR 52101):

After consideration of the revelant matter presented, the Committee has determined that the services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c, 85 Stat. 77.

I certify that the following actions will not have a significant impact on a substantial number of small entities. The major factors considered were:

a. The actions will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The actions will not have a serious economic impact on any contractors for the services listed.

c. The actions will result in authorizing small entities to provide services procured by the Government.

Accordingly, the following services are hereby added to Procurement List 1983:

SIC 7699

Commissary Shelf Stocking, Naval Training Center, Great Lakes, Illinois
Commissary Shelf Stocking, Naval Air Station, Brunswick, Maine
Commissary Shelf Stocking, Naval Construction Battalion Center, Gulfport, Mississippi
Commissionary Shelf Stocking, Naval Administrative Unit, Scotia, New York
Commissionary Shelf Stocking, Naval Air Station, Whidbey Island, Oak Harbor, Washington

C. W. Fletcher,

Executive Director.

[FR Doc. 83-5649 Filed 3-3-83; 8:45 am]
BILLING CODE 6820-33-M

Procurement List 1983 Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received proposals to add to Procurement List 1983 commodities to be produced by and services to be provided by workshops for the blind and other severely handicapped.

Comments must be received on or before: April 6, 1983.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodities and services listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities and services to Procurement List 1983, November 18, 1982 (47 FR 52101):

Class 7690

Folders, Chapel Program, 7690-00-NSH-0001, 7690-00-NSH-0002 (Illustrative Sheets), (Requirements for Wright-Patterson AFB, Ohio only)

Class 8465

Sheath, Tool, Pulaski, 8465-01-067-9999
Sheath, Plastic, Axe, 8465-01-110-2078

SIC 7349

Janitorial/Custodial Services, Roth Building, Social Security Administration Complex, 5536 Caswell Road, Baltimore, Maryland
Janitorial/Custodial Services, U.S. Army Reserve Center and U.S. Readiness Group, Fort Snelling, Minnesota

C. W. Fletcher,

Executive Director.

DEPARTMENT OF DEFENSE

Department of the Army

Board of Visitors, United States Military Academy, Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following meeting.

Name of Committee: Board of Vistors, United States Military Academy
Date of Meeting: 26 April 1983
Place of Meeting: Washington, D.C. (Exact location TBD)
Time of Meeting: 9:30 a.m.
Proposed Agenda: Election of officers; selection of Executive Committee; scheduling of meetings for remainder of year; and identification of areas of interest for 1983.

All proceeding are open. For further information contact Colonel D. P. Tillar, Jr., United States Military Academy, West Point, N.Y. 10996.

For the Board of Visitors:

D. P. Tiller, Jr.,

Executive Secretary, Board of Visitors.

Office of the Secretary

Public Information Collection Requirement Submitted to OMB for Review

The Department of Defense has submitted to OMB for review the following request for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Each entry contains: (1) Type of Submission; (2) Title of Information Collection and Form Number if applicable; (3) Abstract statement of the need for the uses to be made of the information collected; (4) Type of Respondent; (5) An estimate of the number of responses; (6) An estimate of the total number of hours needed to provide the information; (7) To whom comments regarding the information collection are to be forwarded; and (8) The point of contact from whom a copy of the information proposal may be obtained.

Extension (Adjustment to burden only)

Application for Uniformed Services Identification and Privilege Card (DD Form 1172).

Application for Uniformed Services Identification and Privilege Card by retired members, survivors, and other qualified personnel.

Individuals; 204,000 respondents; 51,000 burden hours.

Forward comments to Mr. Edward Springer, OMB Desk Officer, Room 3235, NEOB, Washington, DC 20503, and Mr. John V. Wenderoth, DOD Clearance Officer, OASD(C), DIRMS, IRAD, Room 1A658, Pentagon, Washington, DC 20301, telephone (202) 697-1195.

A copy of the information collection request may be obtained from Mr. Robert L. Newhart, OASD, MRA&L(PI), Room 3C800, Pentagon, Washington, DC 20301, telephone (202) 695-0643. This survey is under contract.

March 1, 1983.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

DEPARTMENT OF ENERGY

Nuclear Waste Policy Act of 1982; Public Hearing To Announce Proposal To Nominate Basalt Waste Isolation Project Site, Washington; for Characterization Studies

AGENCY: Department of Energy.

ACTION: Notice of public hearing and solicitation of comments.

SUMMARY: The U.S. Department of Energy has identified a potentially acceptable site in Washington State for a high level radioactive waste repository and proposes to nominate this site for site characterization pursuant to Section 113 of the Nuclear Waste Policy Act of 1982 (Pub. L. 97-425). Pursuant to section 112, an Environmental Assessment will accompany such nomination. Further, a Site Characterization Plan will be developed if the site is approved by the President as a candidate site. The site, referred to as the Basalt Waste Isolation Project (BWIP) site, is located near Richland, Washington on the Department of Energy's Hanford Site. A major objective of the site characterization activity will be the acquisition of geologic information necessary for the evaluation of the suitability of the BWIP site for a repository. Site characterization activities at all candidate sites must be completed within the next four years to support a Departmental recommendation to the President and subsequent Presidential recommendation of a site for a repository to the Congress by March 31, 1987. This notice establishes the hearing date and location, and a public comment period to solicit comments on the nomination, issues to be included in an Environmental Assessment supporting the nomination, and issues to be addressed in the Site Characterization Plan.

DATES: The Hearing is scheduled for March 25, 1983, from 9:00 a.m. to 12:00 noon, 2:00 p.m. to 5:00 p.m., and 7:00 p.m. to 9:00 p.m.

Written requests to schedule time for oral presentation are due by March 20, 1983. Written comments on issues being addressed in the hearing are due by March 31, 1983.

ADDRESSES: The Hearing will be held at the Federal Building, Auditorium, 825 Jadwin Avenue, Richland, Washington.

FOR FURTHER INFORMATION CONTACT: For requests to speak at the hearing, and copies of the draft environment assessment and site characterization report: B. J. Melton, U.S. Department of Energy, Richland Operations Office, P.O. Box 550, Richland, Washington 99352; (509) 376-7162.

Written comments should be submitted to: J. William Bennett, Director, Geologic Repository Division, Nuclear Waste Policy Act Project Office, U.S. Department of Energy, Washington, D.C. 20585.

SUPPLEMENTARY INFORMATION:

Public Hearings

A hearing will be conducted by the Department of Energy (DOE) in Richland, Washington on March 25, 1983. The purpose of this Hearing is to inform residents of the area around the Hanford Site in Washington State of the proposed nomination of the Basalt Waste Isolation Project (BWIP) Site for site characterization. In addition, and pursuant to section 112(b)(2) of the Nuclear Waste Policy Act of 1982, the Department will solicit and receive recommendations of such residents with respect to issues that should be addressed in the Environmental Assessment required by Section 112(b)(1)(E) of the Nuclear Waste Policy Act of 1982, to accompany such nomination, and the Site Characterization Plan described in Section 113(b)(1) of that Act. The BWIP site is located on the DOE managed Hanford Site near Richland, Washington.

Site characterization work at Hanford has been ongoing since 1976. The principal borehole at Hanford was approved in May 1982, and the Exploratory Shaft was begun in November 1982. An environmental assessment for Basalt Waste Isolation Project Exploratory Shaft construction was prepared by the DOE and issued in September of 1982 to meet the requirements of the National Environmental Policy Act of 1969. A finding of no significant impact (FONSI) was published in the **Federal Register** on September 16, 1982. The Nuclear Waste Policy Act of 1982 establishes a new requirement that an environmental assessment evaluating specific issues contained in the Act be prepared. Under the terms of the Act, site characterization work may continue at this site while certain requirements of the Act are being implemented.

Presentations

Parties interested in providing oral presentations at the Hearing may request time not to exceed ten minutes for the purpose of delivering that presentation. A type-written copy of the presentation is requested and should be delivered to the presiding officer before being presented at the Hearing.

Requests for scheduled presentation must be written and mailed or delivered so as to be received at the address noted above no later than March 20, 1983. A person scheduled to appear at the hearing will be notified by DOE of his or her participation. Requests to speak should include a telephone number where the person can be reached up to the day of the hearing.

Individuals who do not make advance requests to speak at the Hearing may register to speak with the presiding officer prior to the start of the Hearing. An opportunity to speak will be provided to these individuals if time permits. However, time for these unscheduled presentations will be limited, depending on the number of requests received and time available.

Written Comments

Parties may also submit written comments on the proposed nomination; the issues to be addressed in the Environmental Assessment; and the issues to be addressed in any Site Characterization Plan. These comments will be added to the Hearing transcript and constitute the official Departmental record of the Hearing. Written comments should be mailed to reach the address noted above by March 31, 1983.

Conduct of Hearing

DOE reserves the right to arrange the schedule of presentations to be heard and to establish additional procedures governing the conduct of the Hearing. Questions may be asked only by those conducting the Hearing. Cross examination of persons presenting statements will not be permitted. Any further procedural rules needed for the proper conduct of the Hearing will be announced by the presiding officer.

Transcripts of the Hearing will be made, and the entire record of the Hearing, including the transcripts, will be retained by DOE and made available for inspection at the public document room, Richland Operations Office, Federal Building, Richland, Washington. Any person may purchase a copy of the transcript of the Hearing from the reporter so identified by the presiding officer.

Additional copies of the complete transcripts will also be available at the public document centers noted below.

Albuquerque Operations Office, National Atomic Museum, Kirkland Air Force Base East, Albuquerque, New Mexico;
Chicago Operations Office, Room 1136, 175 West Jackson Boulevard, Chicago, Illinois;
Idaho Operations Office, 2753 South Highland Drive, Las Vegas, Nevada;
Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee;
San Francisco Operations Office, Wells Fargo Building, 1333 Broadway, Oakland, California;
Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina; or
Department of Energy, Freedom of Information Office, Room 1E–190, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C.

Document Availability

Prior to enactment of the Nuclear Waste Policy Act of 1982, DOE prepared in November 1982, a Site Characterization Report for the BWIP site and submitted that report to the Nuclear Regulatory Commission, as required by 10 CFR Part 60. That report would form the basis for the Site Characterization Plan required by Section 113 of the Act. DOE has also prepared a draft of the Environmental Assessment for the BWIP site required by section 112(b)(1)(E) of the Act to accompany the nomination of the site for site characterization. That section of the Act also specifies what must be included in that Environmental Assessment. Also pursuant to Section 112 of the Act, DOE issued Proposed General Guidelines for Recommendation of Sites for Nuclear Waste Repositories in the **Federal Register** on February 7, 1983, (48 FR 5670).

DOE is making both the November 1982 Site Characterization Report and a draft of the Environmental Assessment available to facilitate participation by the public in providing comments and recommendations on issues to be addressed in the hearing.

Issued in Washington, D.C. on February 28, 1983.

Donald Paul Hodel,

Secretary of Energy.

Energy Information Administration

Proposal for "Underground Gas Storage Report," Form EIA–191

AGENCY: Energy Information Administration, DOE.

ACTION: Request for Comments on Proposed Form EIA–191, "Underground Gas Storage Report."

SUMMARY: The Energy Information Administration (EIA) of the Department of Energy (DOE) is proposing an extension of Form EIA–191, "Underground Gas Storage Report." The form and instructions are reproduced following this Notice. Interested persons are asked to review the form and instructions and provide comments in the format prescribed below.

DATE: Written comments must be submitted within 30 days of publication of this Notice.

ADDRESS: Comments should be sent to Mr. Gordon Koelling at the address listed immediately below.

FOR FURTHER INFORMATION CONTACT: Gordon W. Koelling, Reserves and Natural Gas Division, Office of Oil and Gas, Energy Information Administration, 1000 Independence Avenue SW., Washington, D.C. 20585, (202) 252–6305.

SUPPLEMENTARY INFORMATION:

I. Background.
II. Request for Comments.

I. Background

Form EIA–191 requests data on the location, ownership, capacity, and operations of all active underground natural gas storage facilities operated by companies not subject to Federal Energy Regulatory Commission (FERC) jurisdiction. The same data on underground natural gas storage facilities operated by companies subject to FERC jurisdiction are collected on the essentially identical Form FPC–8, "Underground Gas Storage Report." Data received on both forms are merged by EIA in a unified data processing system which provides coverage for all underground natural gas storage operators in the United States.

II. Request for Comments

Form EIA–191 is reproduced following this Notice. Prospective respondents and other interested parties should comment on the form within 30 days following the publication of this Notice. The following general guidelines are provided to assist in the preparation of responses:

(As a potential data provider.)

A. Are the instructions and definitions clear and sufficient?

B. Can the data be submitted using the definitions included in the instructions?

C. Can the data be submitted in accordance with the response time specified in the instructions?

D. How many hours, including time for preparation and administrative review, will your company require to compete and submit the form?

E. What is the estimated cost of completing this form, including the direct and indirect costs associated with the data collections? Direct costs should include all costs, such as administrative costs, directly attributable to providing this information.

F. How can the form be improved?

(As a potential user.)

A. Can your company analysts use data at the levels of detail indicated on the form?

B. For what purposes would you use these data? Be specific.

C. How could the form be improved to better meet your specific data needs?

D. Are there alternative sources of data and do you use them? What are their deficiencies?

EIA is also interested in receiving comments from persons as to their views on the need for the collection of this information at all.

Comments submitted in response to this Notice will be included in the request for Office of Management and Budget approval of this data collection and will become a matter of public record.

Issued in Washington, D.C. on February 25, 1983.

Yvonne M. Bishop,

Director, Office of Statistical Standards, Energy Information Administration.

Instructions for Filing Underground Gas Storage Report

General Information

I. *Purpose.*

Form EIA–191 provides date collection on the location, ownership, capacity, and operations of all active underground storage facilities operated by intrastate companies.

II. *Who Must Submit.*

All companies not subject to Federal Energy Regulatory Commission (FERC) jurisdiction that operate underground natural gas storage fields in the United States must provide the information requested.

III. *When to Submit.*

Information requested must be provided within five days after the following dates: the first and fifteenth day of each of the months December through March; and the first day of the months of April through November.

IV. *Where to Submit.*

(1) The report should be sent to the following address: Energy Information Administration: EI–441, Mail Station: BE–079, U.S. Department of Energy, Washington, D.C. 20585, Attention: Form EIA–191.

(2) Requests for futher information and/or additional forms may be directed to the address above, or you may phone (202) 252–6305.

V. *Sanctions.*

This mandatory report is authorized by the Federal Energy Administration Act (Pub. L. 93–275). Failure to report may result in criminal fines, civil penalties, or other sanctions as provided by law.

VI. *Provisions Regarding Confidentiality.*

The information contained on these forms may be (i) information which is exempt from disclosure to the public under the exemption for trade secrets and confidential commercial information specified in the Freedom of Information Act (5 U.S.C. 552(b)(4)) (FOIA) or (ii) prohibited from public release by 18 U.S.C. 1905. However, before a determination can be made that particular information is within the coverage of either of these statutory provisions, the person submitting the information must make a showing satisfactory to the Department concerning its confidential nature.

Therfore, you should state briefly and specifically (on an element by element basis, if possible), in a letter accompanying your submission of the form, why you consider the information concerned to be a trade secret or other proprietary information, whether such information is customarily treated as confidential by your company and the industry, and the type of competitive harm that would result to your company from disclosure of the information. In accordance with the provisions of 10 CFR 1004.11 of DOE's FOIA regulations, DOE will determine whether any information submitted should be withheld from public disclosure.

If DOE receives a response and does not receive a request, with substantive justification, that the information submitted should not be released to the public. DOE may assume that the respondent does not object to disclosure to the public of any information submitted on the form.

A new written justification need not be submitted each time the EIA–191 is submitted if:

a. Views concerning information items identified as privileged or confidential have not changed; and

b. A written justification setting forth respondent's views in this regard was previously submitted.

In accordance with the cited statutes and other applicable authority, the information must be made available, upon request, to the Congress or any Committee of Congress, to the General Accounting Office, and other Congressional agencies authorized by law to receive such information.

Definitions

Note.—These definitions were taken in part from the American Gas Association Committee on Underground Storage Annual Report.

1. *Base (Cushion) Gas*—The volume of gas needed as a permanent inventory to maintain adequate reservoir pressures and deliverability rates throughout the withdrawal season. All native gas is to be included in the base gas volume.

2. *Injections*—The volume of gas injected during the applicable reporting period.

3. *Native Gas*—Gas in place at the time that the reservoir was converted to storage as contrasted to injected gas.

4. *Reservoir Capacity*—The present developed capacity of the storage reservoir excluding contemplated future development.

5. *Total Gas in Storage*—The sum of base gas and the working gas.

6. *Withdrawals*—Total volume of gas withdrawn during the applicable reporting period.

7. *Working (Top Storage) Gas*—The volume of gas in the reservoir above the designed level of the base. It may or may not be completely withdrawn during any particular withdrawal season. Conditions permitting, the total working capacity could be used more than once during any season.

Specific Instructions

Note.—Items which are self-explanatory are not discussed below.

Part I Identification Data.

Item No.	Instruction
Column (b).....	Enter the reporting company's DOE Code. If you do not presently have a DOE Code, EIA will assign you one. However, prior to your Code Assignment, please submit this form leaving the DOE Code blank.

Part II Gas Storage Report.

Gas Storage Data—Enter the volume of gas (thousands cubic feet at 14.73 psia and 60 degrees Fahrenheit) as required on the form. All information requested in this part of the form must be reported each time the form is submitted. (See definitions at the beginning of the Instructions.)

Data Reported—Due to the limited time allowed for reporting, it is recognized that some companies may have to estimate part of all of the data filed for the reporting period. Enter a check mark in the appropriate box to indicate whether the data reported are actual or estimated.

Joint Ownership. When the operator is also a co-owner of any storage reservoir, he/she shall report the gas in storage owned by non-operating co-owners in Part II B. Respondents to this report who are co-owners in storage reservoirs which they do not operate shall report that portion of their gas in storage in Part II D.

Item No.	Instruction
Columns (a), (b), (c), (d).	Balances Nov. 1 are the balances on hand for Base Gas, Working Gas, Total Gas in Storage and Native Gas included in Column (a) at the beginning of the storage withdrawal year commencing November 1.
Columns (e), (f).	Nov. 1 to date are the accumulated injections and withdrawals for the current storage period from November 1 to the end of the report period.
Columns (a), (b), (c), (d), (e), (f)..	Report period are the balances on hand at the end of the report period for Base Gas, Working Gas, Total Gas in Storage and Native Gas included in Column (a) and Injections and Withdrawals made during the report period.
A	Report all gas owned by respondent in storage reservoirs which he/she operates.
B	Report all gas belonging to, stored for, and delivered for the account of a customer or others under storage service or similar contracts including gas belonging to companies that are subject to FERC jurisdiction.
D	Report respondent's gas in reservoirs operated by others. (Respondent's total stored gas should equal A plus D and Part II.)
E	Operators of gas storage reservoirs that are in the development stage shall report in Part II E the gas balances and volumes injected and withdrawn for these storage reservoirs included in Part II A and B. Reservoirs are considered to be in the development stage until such time as withdrawals for regular (authorized) services have commenced.

Part III Certification.

This part must be completed each time the form is submitted. Enter the name and title of the individual designated by the company to sign the certification. This individual must sign in the spaces provided on the form and enter the date of signing.

Part IV Respondent Identification data.

Item No.	Instruction
Column (b).....	See Instruction for Part I.

Part V Name, Location and Capacity of Underground Storage Reservoirs

Item No.	Instruction
A.....	Complete information for Part V is required only on your initial report. Any changes or additions to information initially reported should be reported on subsequent submissions. *Important:* If Part V does not contain enough lines to provide the data requested, reproduce the page before data are entered and provide the requested data on the additional sheet(s). (1) Enter as indicated, the Field and Reservoir Name, the respondent's percentage ownership, the State and county location of the reservoir and the reservoir capacity in thousands of cubic feet at 14.73 psia, 60 degrees Fahrenheit, for all reservoirs operated by the respondent and represented by the reported gas storage data.
	(2) If the respondent's percentage ownership entered in Column C is less than 100 percent, enter as indicated in Part VII the name(s) of the other co-owner(s) of the reservoir and the percentage owned by each.

Part VI Respondent Identification Data.

Item No.	Instruction
Column (b).....	See Instructions for Part I.

Part VII Co-Owners of Storage Reservoirs.

Item No.	Instruction
Columns (a), (b), (c), (d).	Enter, as indicated, the Field and Reservoir Names from Part V. List each co-owner of the storage reservoir and his percentage. Do not repeat information on operator's ownership included in Part V.

Economic Regulatory Administration

Proposed Consent Order; Texas Pacific Oil Company, Inc.

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of proposed Consent Order and opportunity for comment.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces a proposed Consent Order with Texas Pacific Oil Company, Inc. (Texas Pacific) and provides an opportunity for public comment on the terms and conditions of the proposed Consenat Order.

DATE: Comments by April 4, 1983.

ADDRESS: Send comments to: James O. Neet, Jr., Chief Counsel, Economic Regulatory Administration, Dallas Office, 1341 West Mockingbird, 200E, Dallas, Texas 75347.

FOR FURTHER INFORMATION CONTACT: James O. Neet, Jr., Chief Counsel, Economic Regulatory Administration, Dallas Office, 1341 West Mockingbird, 200E, Dallas, Texas 75247, 214/767–7404. Copies of the Consent Order may be obtained free of charge by writing or calling this office.

SUPPLEMENTARY INFORMATION: On February 15, 1983, the ERA executed a proposed Consent Order with Texas Oil Company, Inc. of Dallas, Texas. Under 10 CFR 205.199J (b), a proposed Consent Order which involves the sum of $500,000 or more, excluding interest and penalties, becomes effective no sooner than thirty days after publication of a notice in the **Federal Register** requesting comments concerning the proposed Consent Order. Although the ERA has signed and tentatively accepted the proposed Consent Order, the ERA may, after consideration of the comments it receives, withdraw its acceptance and, if appropriate, attempt to negotiate a modification of the Consent Order or issue the Consent Order as signed.

I. The Consent Order

Texas Pacific Oil Company, Inc., with its home office located in Dallas, Texas, is a firm engaged in the business of producing and selling crude oil, was subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR Parts 210, 211 and 212 during the period covered by this Consent Order. To resolve certain potential civil liability arising out of the Mandatory Petroleum Price Regulations and related regulations, 10 CFR Parts 205, 210, 211, 212, in connection with Texas Pacific's transactions involving crude oil during the period September 1, 1973 through January 28, 1981 ("the period covered by this Consent Order"), the ERA and Texas Pacific entered into this Consent Order. The ERA had alleged that during the period covered by this Consent Order, Texas Pacific produced and sold domestic crude oil at prices in excess of the applicable ceiling prices. Texas Pacific denied these allegations, but determined that this Consent Order was an equitable resolution of these allegations which avoided the disruption of its orderly business functions and the expense and inconvenience of protracted and complex litigation.

II. Refunds

A. Disposition of Refunds

Under this Consent Order, Texas Pacific will pay the sum of $500,000 in settlement of the matters covered by this Consent Order. These sums shall be deposited as miscellaneous receipts in the United States Treasury.

III. Submission of Written Comments

Interested persons are invited to submit written comments concerning the terms and conditions of this Consent Order to the address given above. Comments should be identified on the outside of the envelope and on the documents submitted with the designation, "Comments on Texas Pacific Oil Company, Inc., Consent Order." The ERA will consider all comments it receives by 4:30 p.m., local time, April 4, 1983. Any information or data considered confidential by the person submitting it must be identified as such in accordance with the procedures in 10 CFR 205.9 (f).

Issued in Dallas, Texas on the 25th day of February, 1983.

Ben, L. Lemos,

Director, Dallas Office, Economic Regulatory Administration.

[FR Doc. 83-5475 Filed 3-3-83; 8:45 am]

BILLING CODE 6450-01-M

[Docket No. ERA–FC–82–033; OFP Case No. 55007–9075–05–12]

Powerplant and Industrial Fuel Use, Exemption; Mobay Chemical Corp.

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Order granting Mobay Chemical Corporation an exemption from the prohibitions of the Powerplant and Industrial Fuel Use Act of 1978.

SUMMARY: On November 24, 1982, Mobay Chemical Corporation, hereinafter referred to as petitioner, filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) for an order permanently exempting one new major fuel burning installation (MFBI) from the provisions of Title II of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.* (FUA or "the Act"), which prohibit the use of petroleum and natural gas as a primary energy source in certain new MFBI's. The petitioner requested an exemption under section 212(a)(1)(A)(ii) and 10 CFR 503.32, due to the lack of alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum. The final rule containing the criteria and procedures for petitioning for exemptions from the prohibitions of FUA was published in the **Federal Register** at 46 FR 59872 (December 7, 1981). Eligibility and evidentiary requirements governing the permanent cost exemption are contained in 10 CFR 503.32.

The proposed MFBI for which the petition was filed is a natural gas-fired packaged boiler (designated as Unit #5) to be installed at the petitioner's Baytown Plant located in Chambers County, Texas. Unit #5 will have a maximum fuel heat input rate of 236 MM Btu per hour.

ERA has determined that the evidence available to it in the record of this proceeding is sufficient to support the issuance of the requested exemption. Therefore pursuant to section 212(a)(1)(A)(ii) of the Act and 10 CFR 503.32, ERA hereby issues this order granting a permanent exemption to proposed Unit #5 due to lack of alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum to the petitioner for the proposed MFBI. The basis for ERA's order and other information relating to the proceeding is provided in the **SUPPLEMENTARY INFORMATION** section, below.

DATE: In accordance with section 702(a) of FUA, this order and its provisions shall take effect on the 60th day following publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

William H. Freeman, Office of Fuels Programs, Economic Regulatory Administration, Forrestal Building, Room GA–073, 1000 Independence Avenue, SW., Washington, D.C. 20585, telephone (202) 252–2993; or

Marya Rowan, Esq., Office of the General Counsel, Department of Energy, Forrestal Building, Room 6B–222, 1000 Independence Avenue, SW., Washington, D.C. 20585, telephone (202) 252–2967.

The public file containing a copy of this order and other documents and supporting materials on this proceeding is available for inspection upon request at: DOE, Freedom of Information Reading Room, 1000 Independence Avenue, SW., Room 1E–190, Washington, D.C. 20585, Monday through Friday, 8:00 a.m.–4:00 p.m.

SUPPLEMENTARY INFORMATION: The petitioner proposed to install a natural gas-fired packaged boiler, to be known as Unit #5, at its Baytown plant. The proposed unit will have a 200,000 lbs/hr. capacity and a maximum fuel heat input rate of 236 MM Btu per hour; it is required, according to the petitioner, to provide secure peak steam generating capacity to meet expanded steam demand at the plant in the immediate future. It will thereafter be phased into operation as a baseload unit, gradually replacing a less efficient existing boiler which will be used for stand-by and emergency purposes.

Title II of FUA prohibits the use of natural gas or petroleum as a primary energy source in certain new MFBI's, including proposed Unit #5, unless an exemption from the prohibitions stated therein has been granted by ERA. Section 212(a)(1)(A)(ii) of FUA provides for a permanent exemption due to lack of an alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum. To obtain this type of exemption for proposed Unit #5, the petitioner provided ERA with the following documentary evidence, required by 10 CFR 503.32:

Duly-executed certifications and supporting evidence, as required, which indicate that—

(a) The petitioner had made a good faith effort to obtain an adequate and reliable supply of an alternate fuel for use as a primary energy source for proposed Unit #5, of the quality and quantity necessary to conform with that unit's design and operational requirements;

(b) The cost of using such a supply, if available, would substantially exceed the cost of using imported petroleum as a primary energy source during the useful life of the proposed unit; and

(c) The use of mixtures is not feasible in the proposed unit. Documentary evidence relating to the environmental impact analysis, as well as the fuels search prescribed in 10 CFR 503.14, was also submitted by the petitioner and appears in the administrative record of this proceeding.

In accordance with the procedural requirements of section 701(c) of FUA and 10 CFR 501.3(b), ERA published the notice of its acceptance of the petitioner's petition in the **Federal Register** on December 29, 1982 (47 FR 57990), commencing a 45-day public comment period, during which interested persons were afforded an opportunity to request a public hearing. As required by sections 701(f) and 701 (g) of the Act, ERA also provided copies of the petition to the Environmental Protection Agency and the Federal Trade Commission for comment. The period for submitting comments and for requesting a public hearing closed on February 14, 1983. No hearing was requested and no comments were received.

Decision and Order

Based upon the entire record of this proceeding, ERA has determined that the petitioner has satisfied all of the eligibility requirements for the requested exemption, as set forth in 10 CFR 503.32.

Accordingly, pursuant to section 212(a)(1)(ii) of FUA, ERA hereby grants a permanent exemption due to lack of an alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum for the proposed MFBI (identified as Unit #5) to be installed at the petitioner's Baytown Plant located in Chambers County, Texas.

After review of the petitioner's environmental impact analysis, together with other relevant information, ERA has determined that the granting of the requested exemption does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act.

Pursuant to section 702(c) of the Act and 10 CFR 501.69, any person aggrieved by this order may petition for judicial review at any time before sixty days after publication of this order in the **Federal Register**.

Issued in Washington, D.C. on February 25, 1983.

Robert L. Davies,

Deputy Director, Office of Fuels Programs, Economic Regulatory Administration.

[Docket No. ER83-319-000]

Oklahoma Gas & Electric Co.; Filing

February 28, 1983.

Take notice that on February 14, 1983, Oklahoma Gas and Electric Company (OG&E) tendered for filing a new Agreement intended to supersede OG&E's Rate Schedule FERC No. 115. This Agreement is the contract between OG&E and the Southwestern Power Administration (SWPA). The new rate is identical to the old rate, and provides for the sale of Replacement Energy and Emergency Service by OG&E to SWPA.

OG&E requests an effective date of January 1, 1983, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211

and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 10, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER83-317-000]

Pacific Gas & Electric Co.; Filing

February 28, 1983.

Take notice that Pacific Gas and Electric Company (PGandE) on February 9, 1983, tendered for filing proposed changes in its FPC Electric Service Tariffs, Original Volumes Nos. 1 and 2, Rate Schedule R-1, R-2, FPC No. 8 and FPC No. 53. The proposed changes would decrease revenues from jurisdictional sales.

PGandE states that the proposed rates will result in a $31,000 decrease from the rates made effective by the Commission, subject to refund, in Docket No. ER83-154 as of January 1, 1983. PGandE has requested that the rates tendered in this docket be made effective as of January 1, 1983 with no suspension.

PGandE requests an effective date of January 1, 1983, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing were served upon the public utility's jurisdictional customers, the California Public Utilities Commission, and the Public Service Commission of the State of Nevada.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 9, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. EF79-4011-000 and EF82-4011-000]

Southwestern Power Administration; Order Granting Motion and Conditionally Confirming and Approving Rates on a Final Basis for Additional Period

Issued: February 25, 1983.

On January 25, 1982, the Commission, upon reconsideration, confirmed and approved certain rates and charges for the sale of power filed by the Southwestern Power Administration (SWPA).[1] SWPA had originally requested that the rates be placed in effect on a final basis through September 30, 1983. In its order, however, the Commission confirmed and approved the rates only through September 30, 1982. The Commission's decision to limit the effective period of the rates was based upon a district court ruling which had held that a rate schedule proposed by SWPA for one of its customers, Tex-La, could not be placed in effect on an interim basis, prior to final confirmation and approval of the rates by the FERC.[2] As a result of this ruling, it appeared that SWPA would collect less during the interim period than it would have otherwise collected from Tex-La, barring the district court's decision. In light of the revenue shortfall produced by the reduction in interim collection, the Commission limited the effective period of the rates in order to allow SWPA to submit rates prior to September 30, 1982 which would, among other things, recover the revenue deficiencies produced by having SWPA's previous rates applicable to Tex-La in effect during the interim period rather than the Commission's finally approved rates. 18 FERC ¶ 61,052, 61,088.

Since September 30, 1982, the Commission has granted a series of limited extensions of SWPA's system power rates in order to consider a request by the Administrator, submitted by and through the Assistant Secretary for Conservation and Renewable Energy (AS/CE) of the U.S. Department of Energy to extend final confirmation and approval of the present system power rates through September 30, 1983, the date originally requested as the end of the effective period. In support of its request, SWPA states that it is unable to timely file new rates because of the amount of time required for compliance with the Department of Energy's regulations relating to public participation in the rate-making process. SWPA further states that it:

> Has determined that, at this time, its best interest will be served by avoiding further obstacles created by the interim rate controversy. Therefore, the proposed System Rates would not be placed into effect until confirmed and approved by the FERC.

Discussion

We need not address SWPA's statements regarding the time required for filing substitute rates since another basis appears for extending our rate approval in this case. On November 26, 1982, the United States Court of Appeals for the Fifth Circuit, *inter alia*, overruled the district court decision in the case of *United States of America* v. *Tex-La Electric Cooperative, Inc.*,[3] holding that the Assistant Secretary did have the interim ratemaking authority to place rates into effect on an interim basis prior to final confirmation and approval of the rates by the FERC.[4] As a result of the reversal of the district court's decision, it appears that SWPA may collect more over the period during which the rates were in effect on an

[1] "Order on Reconsideration," Docket No. EF79-4011, 18 FERC ¶ 61,052.

[2] *United States of America* v. *Tex-La Electric Cooperative, Inc.*, 524 F. Supp. 409 (E. D. La. 1981).

[3] 693 F. 2d 392 (5th Cir., 1982), *reversing United States* v. *Tex-La Electric Coop., Inc., supra*, 524 F. Supp. 409.

[4] *Tex-La, supra*, 693 F. 2d at 411-412.

interim basis than it would have under the lower court's ruling. This additional revenue recovery, or course, would be contingent upon SWPA actually collecting the difference between the interim rates and the final rates during the effective period.

In light of the U.S. Circuit Court's ruling and the potential effect of this decision upon SWPA's revenue collection during the interim period, the Commission finds that it is appropriate to confirm and approve SWPA's rates on a final basis for the additional period October 1, 1982, through September 30, 1983.[5]

The Commission orders:

(A) The Assistant Secretary's request for an extension of final confirmation and approval of SWPA's present rates is hereby granted.

(B) The rates and charges for the sale of power presently being collected by the Southwestern Power Administration are hereby confirmed and approved on a final basis for the additional period October 1, 1982 through September 30, 1983 *provided,* however, that SWPA shall attempt to collect from Tex-La the difference between the final Commission approved SWPA rates and the previous rates applicable to Tex-La that were in effect on an interim basis during the period April 1, 1979 through September 30, 1982, consistent with the U.S. Court of Appeals decision in *United States* v. *Tex-La, Inc.,* 693 F.2d 392 (1982).

(C) The Secretary shall promptly publish this order in the **Federal Register.**

[5] We note that the U.S. Court of Claims in a separate decision held that SWPA was not entitled to collect rates on an interim basis from four of its customers, the Cities of Fulton, Lamar, and Thayer, Missouri and Piggott, Arkansas (Cities). *City of Fulton, et al.* v. *United States,* 680 F.2d 115 (Ct. Cl., 1982). The Court of Claims' decision relies in part upon the lower court ruling in the *Tex-La* case, citing it as "persuasive precedent." 680 F.2d at 121. That case, however, has subsequently been overturned by the U.S. Court of Appeals for the Fifth Circuit.

We would further note that no money judgment has yet been rendered in the *Fulton* case against SWPA. Thus, it appears that any eventual recovery by Cities will be prospective in effect. Additionally, the potential recovery by Cities in the U.S. Court of Claims case appears to be quite small as a percentage of SWPA's revenues on an annual basis. In light of all of the above, we find that the Court of Claims case does not affect the outcome of our decision.

By the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-323-000]

Vermont Electric Power Co., Inc.; Filing

February 28, 1983.

Take notice that on February 16, 1983, Vermont Electric Power Company, Inc. (VELCO) tendered for filing data to support a change in rates, effective January 1, 1983.

VELCO states that the percentage rate used to determine monthly charges has been changed from 16.92% used for 1982 to the new rate of 17.74% effective January 1, 1983.

VELCO further states that this new rate was computed by dividing VELCO's actual costs for 1982 of $10,666,294 by VELCO's average plant in service for 1982 of $60,139,945.

VELCO requests an effective date of January 1, 1983, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 16, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-C

VOL 48 ISS 44 MAR 4 1983 UMI

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 274.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register.**

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 mile rule)
102–3: New well (1000 ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

[Docket No. QF83–173–000]

B and B Production Co.; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

March 1, 1983.

On January 24, 1983, B and B Production Co. (Applicant), filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules.

The facility will be located in Stephens County, Oklahoma. The primary energy source to the facility will be methane gas rated at 691 Btu obtained from a gas well. Applicant identifies the gas as "waste." The electric power production capacity of the facility is 100 kilowatts. There are no other methane-fueled facilities owned by the Applicant located within one mile of the facility. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protect with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[Docket No. QF83–185–000]

Biomass Power Corp.; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

March 1, 1983.

On February 11, 1983, Biomass Power Corp. (Applicant), John L. Matthews, Sr., President, 145 Camp Drive, Dunnellon, Flordia 32630, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules.

The facility will be located in Jefferson County, Florida. The primary energy source to be used in the facility will be biomass, in the form of wood chips and peanut shells. The electric power production capacity of the facility will be 7,500 kilowatts. There are no other biomass-fueled small power production facilities owned by Applicant located within one mile of the facility. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. ER83–320–000]

Cambridge Electric Light Co.; Filing

March 1, 1983.

The filing Company submits the following:

Take notice that on February 16, 1983, Cambridge Electric Light Company (Cambridge) tendered for filing proposed changes in its currently-effective Rate RS–3 under its FERC Electric Tariff, Original Volume No. 1. Rate RS–3 governs the sale of electric energy at wholesale by Cambridge to the Municipal Light Department of the Town of Belmont, Massachusetts (Belmont) its wholesale customers.

The tendered filing consists of a proposed rate schedule (designated by Cambridge as Rate RS–4) and an unexecuted Service Agreement. By a separate filing pursuant to Rule 602 of the Commission's Rules of Practice and Procedure, Cambridge has simultaneously filed a Stipulation and Agreement, executed by Cambridge and Belmont, as an offer of settlement of the above docket.

Proposed Rate RS–4 which conforms to the applicable terms of the aforementioned Stipulation and Agreement would increase billings to Belmont by approximately $255,000 annually, based upon the twelve month test period ending December 31, 1981. The proposed effective date of Rate RS–4 is June 1, 1983.

Proposed Rate RS–4, effects the following changes in Cambridge's currently-effective Rate RS–3:

1. An increase in demand charge from $5.231 to $5.835 per KVA.

2. An energy charge of $0.0404 per KWH replacing the existing energy charge of $0.0206.

3. An updating of the base cost of fuel component of the currently effective Fuel Cost Adjustment clause.

Cambridge states that the proposed increase in rate level is necessary because of increased operating expenses and capital costs. Because of these increases, Cambridge's earnings from its service to Belmont have been reduced to the point that rate relief is necessary.

Copies of the filing have been served upon Belmont and the Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 15, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-5619 Filed 3-3-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP83-192-000]

Columbia Gas Transmission Corp.; Application

March 1, 1983.

Take notice that on February 9, 1983, Columbia Gas Transmission Corporation (Applicant), P.O. Box 1273, 1273, Charleston, West Virginia 25325, filed in Docket No. CP83-192-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a 5,000 horsepower compressor addition at the Crawford Compressor Station located in Fairfield County, Ohio, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the proposed horsepower addition is necessary in order to permit the required design winter day storage withdrawals from Applicant's Crawford, Benton and Laurel Storage Fields during the 1984-85 winter period. It is stated that the estimated cost of the proposed facilities is approximately $7,400,000 which would be financed with funds generated from internal sources.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 22, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed wth the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filled within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or it the Commission on its own motion believs that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-5620 Filed 3-3-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP83-197-000]

Columbia Gulf Transmission Co.; Application

March 1, 1983.

Take notice that on February 14, 1983, Columbia Gulf Transmission Company (Applicant), P.O. Box 683, Houston, Texas 77001, filed in Docket No. CP83-197-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport on a contract demand basis 12,000 Mcf of natural gas per day and such further volumes as Applicant agrees to accept pursuant to a gas transportation agreement dated January 10, 1983. It is stated that Tennessee would transport its gas through its existing 8-inch line from the production platform in South Marsh Island Block 106, offshore Louisiana, to the point of receipt at an existing subsea tap on Applicant's 16-inch line in South Marsh Island Block 99. It is further stated that Applicant would in turn transport the volumes for delivery at the interconnection of Applicant's line and the Blue Water System in South Marsh Island Block 74.

For such transportation service, Applicant proposes to charge Tennessee a contract demand monthly charge of $22,800 and a commodity rate of 6.25 cents per Mcf of gas received for transportation at South Marsh Island Block 99.

Applicant asserts that the subject transportation service would enable Tennessee to receive into its system gas supplies which it has purchased in South Marsh Island Block 106, offshore Louisiana.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 22, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice

and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-301-000]

Connecticut Light and Power Co.; Refund Report

March 1, 1983.

The filing Company submits the following:

Take notice that on February 14, 1983, Connecticut Light and Power Company submitted for filing a refund report pursuant to the Commission's order dated December 30, 1982.

Any person desiring to be heard or to protest this filing should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before March 17, 1983. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-5822 Filed 3-3-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. ER83-327-000]

Empire District Electric Co.; Filing

March 1, 1983.

The filing Company submits the following:

Take notice that the Empire District Electric Company, (Empire) on February 16, 1983, tendered for filing a proposed Amendment to Schedule I, Peaking Power Service, a part of that agreement for interchange of power and interconnected operation between Empire and Kansas City Power and Light Company (KCPL) designated rate schedule, FERC 88.

Empire states that the amendment will change the capacity charge from $0.27 per Kw per month to $0.46 per Kw per month.

Empire requests an effective date of April 1, 1983, and therefore requests waiver of the Commission's notice requirements.

Copies of the filing have been sent to the Kansas Corporation Commission and the Missouri Public Service Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commisson, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 16, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-161-000]

Lone Star Gas Company, a Division of ENSERCH CORP; Application

March 1, 1983.

Take notice that on February 2, 1983, Lone Star Gas Company, a division of ENSERCH CORPORATION (Lone Star), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. Cp83-161-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the contruction and operation of taps and measuring and regulating facilities necessary for the delivery of natural gas to six main line customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Lone Star proposes to construct and operate tape and measuring and regulating facilities for the delivery of natural gas to

Customer	Location	use
M. T. James	Cooke, Tex	Heating.
Greg Burns	McCartain, Okla	Do.
B. L. Scarbrough	Grayson, Tex	Peanut Dryer and heating.
G. C. Scarbrough	Grayson, Tex	Irrigation and heating.
Dr. Roger Lacy	Willberger, Tex	Heating.
Vernon Biter	Clay, Tex	Do.

Lone Star estimates that the total cost of the taps and measuring and regulating facilities would be $3,028, which cost would be financed by Lone Star's working capital.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 22 , 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provide for, unless otherwise advised, it will be unnecessary for Lone Star to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-183-000]

Michigan Wisconsin Pipe Line Co.; Application

March 1, 1983.

Take notice that on February 4, 1983, Michigan Wisconsin Pipe Line Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP83-183-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 75,625 Mcf of natural gas per day on behalf of Transcontinental Gas Pipe Line Corporation (Transco) and Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), and the construction and operation of facilities necessary therefor, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that Great Plains Gasification Associates has undertaken the construction of a coal gasification plant near Beulah, North Dakota, which would produce approximately 137,500 Mcf of synthetic natural gas per day. Applicant states that its daily purchase of this production would be 34,375 Mcf, that Transco's daily purchase volume would be 34,375 Mcf, and that Tennessee's daily purchase volume would be 41,250 Mcf.

Applicant further states that Northern Natural Gas Company, Division of InterNorth, Inc., would deliver the daily purchase volumes to Applicant at Janesville, Wisconsin, for the account of Applicant, Transco, and Tennessee. Applicant proposes to take delivery at Janesville of up to 34,375 Mcf of natural gas per day for the account of Transco and to transport and deliver these volumes to Transco in Acadia Parish, Louisiana. Applicant also proposes to take delivery at Janesville of up to 41,250 Mcf of natural gas per day for the account of Tennessee and to transport and deliver these volumes to Midwestern Gas Transmission Company (Midwestern) in Joliet, Illinois, for the account of Tennessee.

Applicant proposes to charge Transco a monthly demand charge of $3.89 per Mcf of contract demand and Tennessee a charge of $4.37 per Mcf of contract demand for the transportation services.

Further, Applicant proposes to construct and operate a 37.5-mile loopline between Janesville, Wisconsin, and Woodstock, Illinois, with an estimated construction cost of $21,061,000, in order to transport the additional volumes Applicant would receive at Janesville. Finally, Applicant proposes to install new meters and appurtenant facilities in Joliet, Illinois, with an estimated construction cost of $797,000, in order to measure the additional volumes to be delivered to Midwestern.

It is asserted that the proposed construction costs would be financed initially with treasury funds and other funds generated internally together with borrowings from banks under short-term lines of credit with permanent financing as market conditions permit.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 22, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-173-000]

Mississippi River Transmission Corp.; Application

March 1, 1983.

Take notice that on January 31, 1983, Mississippi River Transmission Corporation (Applicant), 9900 Clayton Road, St. Louis, Missouri 63124, filed in Docket No. CP83-173-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain additional natural gas storage facilities operation at Applicant's East Unionville Storage Field located in Lincoln Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes the drilling and operation of an additional injection/withdrawal well in its East Unionville Storage Field and the construction and operation of minor appurtenant facilities to connect such proposed well to the field gathering system. Applicant states that said well is expected to increase the overall deliverability of the field but would not alter the total storage capacity of the field. Applicant estimates the total cost of the proposed well and related facilities to be $905,700 which would be financed from available funds and/or short-term borrowing.

Applicant does not propose any new sales or changes in existing service agreements. Further, it is asserted that the proposed facilities would not result in any increase in either the capacity of Applicant's system or the total storage capacity of Applicant's East Unionville Storage Field.

Any persons desiring to be heard or to make any protest with reference to said application should on or before March 22 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal

Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-5626 Filed 3-3-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. SA83-7-000]

Mueller Engineering Corp.; Application for Adjustment

March 1, 1983.

On February 7, 1983, Mueller Engineering Corporation (Mueller), 1010 Wilson Building, Corpus Christi, Texas 78476, filed with the Federal Energy Regulatory Commission (Commission) an application for adjustment under section 502(c) of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301–3432 (Supp. V 1982) and Rule 1104 of the Commission's Rules of Practice and Procedure (18 CFR 385.1104). Mueller seeks relief from § 271.805 of the Commission's regulations (18 CFR 271.805).

Mueller is the operator of the J.S. Bordovsky—State of Texas #A–2 Well, located in Duval County, Texas. Mueller states the subject well qualified as a stripper well under NGPA section 108, and that section 108 prices were paid by Mueller to the purchaser, Natural Gas Pipeline Company of America, commencing in September, 1981. Mueller further states that the well disqualified itself as a stripper well during the 90-day period of February, March, and April 1982 by producing more than 60 Mcf per day. Mueller states that the reason for the well's overproduction during that 90-day period was the instalation of a compressor in January 1982 designed to stimulate production.

According to § 271.805(a) of the Commission's regulations, if a stripper well's production averages more than 60 Mcf per production day during any 90-day production period, then both the purchaser of gas from the well and the operator are required to file a written notice of disqualification with the Commission, the jurisdictional agency, and each other. Section 271.805(c) provides that the right to collect a maximum lawful price under section 108 terminates on the last day of the 90-day disqualifying period unless, within 150 days of the last day of such period, the operator files a petition for determination that the increase in production was the result of the application of an enhanced recovery technique. Section 271.805(d) provides that if this petition is filed later than the 150 day period, then sales from the well are not eligible for the ceiling price under section 108 from the last day of the disqualifying period until the day on which the petition is filed. Mueller failed to timely file the notice of disqualification, and did not file the petition until January 14, 1983.

In its petition for relief, Mueller states that the failure to comply with the above-mentioned notice requirements was a result of an oversight caused by the "extremely complex requirements of the NGPA and the supporting regulations adopted by FERC."

Mueller has determined that if relief is not granted by the Commission, it will be required to make refunds estimated to be $41,292.71. Due to the cost of installing and operating the compressor for the period between May 1, 1982 and January 14, 1983, this refund requirement would cause Mueller to suffer an out-of-pocket cash loss of $17,053.02 for the period between May 1, 1982 and January 14, 1983. Mueller further states that the volumes of natural gas produced from the subject well are so small in comparison to the total volume of gas handled by the purchaser, that the ordering of refunds will have little or no effect upon the purchaser's weighted average cost of gas. This lack of economic advantage to the purchaser, compared with the substantial loss to Mueller, is said to result in a special hardship and inequity to Mueller, as well as in an unfair distribution of burdens.

The procedures applicable to the conduct of this adjustment proceeding are found in Rules 1101–1117 of the Commission's Rules of Practice and Procedure, 18 CFR 385.1101–.1117.

Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of Rule 214 (18 CFR 385.214). All petitions to intervene must be filed within 15 days after publication of this notice in the **Federal Register**.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-5627 Filed 3-3-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. QF83-194-000]

New England Alternate Fuels—New Hampshire, Inc.—Four Hills; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

March 1, 1983.

On February 10, 1983, New England Alternate Fuels—New Hampshire, Inc., (Applicant), c/o New England Alternate Fuels, Inc., Box 921, Brattleboro, Vermont 05301, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules.

The small power production facility will be located at the Four Hills Sanitary Landfill in Nashua, New Hampshire. The primary energy source to the facility will be biomass, in the form of landfill gas, or biomethane. The facility will not use any natural gas, oil or coal. The electric power production capacity of the facility will be 750 kilowatts. There is no other biomass-fueled small power production facility owned by the Applicant located within one mile of the facility. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file

with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-184-000]

Northwest Central Pipeline Corp.; Application

March 1, 1983.

Take notice that on February 7, 1983, Northwest Central Pipeline Corporation (Applicant), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP83-184-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of 5 miles of 20-inch pipeline loop and appurtenant facilities on its Springfield pipeline in Newton County, Missouri, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The estimated cost of the proposed facilities is $1,188,000 which would be paid from cash on hand.

It is stated that the proposed pipeline looping would increase the capacity on peak days for deliveries in and around Springfield, which would permit the delivery of sufficient volumes through the Springfield system to serve the peak day requirements of its customers east of its Saginaw Station and would allow more flexibility to provide deliveries for peak hours on this section of its system.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 22, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-325-000]

Southern California Edison Co.; Filing

March 1, 1983.

The filing Company submits the following:

Take notice that on February 16, 1983, Southern California Edison Company (Edison) tendered for filing the Edison-Burbank Interruptible Transmission Service Agreement (Matrix) (Agreement), which has been executed by Edison and City of Burbank (Burbank), California.

Edison states that the Agreement supersedes Edison's Rate Schedule FERC No. 14 and provides for the establishment of three additional Points of Receipt/Delivery for interruptible transmission service.

Edison requests an effective date of January 1, 1983.

Copies of this filing were served upon the City of Burbank and the Public Utilities Commission of the State of California.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 16, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-5830 Filed 3-3-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP83-186-000]

Southern Natural Gas Co.; Application

March 1, 1983.

Take notice that on February 7, 1983, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202-2563, filed in Docket No. CP83-186-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of compression facilities in Refugio County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Southern has the right to purchase natural gas in Block 703 and the northern half of the northwest quarter of Block 710, Matagorda Island area, offshore Texas, which would be transported through the Matagorda Offshore Pipeline System (MOPS) in addition to the gas supplies already flowing through the facilities. It is asserted that in order to attach these supplies Southern filed an application in Docket No. CP82-467-000 requesting authorization to construct and operate 9.5 miles of 16-inch pipeline and related measurement facilities to connect Block 703 to an existing subsea point of interconnection with the MOPS facilities in Matagorda Island Block 686.

Southern proposes herein to construct and operate a 3300 horsepower compression facility at the onshore terminus of the MOPS near Tivoli, Refugio County, Texas, in order to provide Southern with approximately 112,600 Mcf per day of additional capacity in MOPS. Southern estimates that the maximum daily deliverability would be approximately 180,000 Mcf per day.

Southern states that the estimated cost of the proposed compression facilities is $6,118,960 which cost would be financed initially by short-term financing and/or cash from current operations and ultimately from permanent financing.

It is asserted that the proposed compression facilities would be owned solely by Southern with the right to utilize the entire incremental increase in the capacity of MOPS.

Any person desiring to be heard or to make any protest with reference to said

application should on or before March 22, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Southern to appear or be represented at the hearing.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the **Federal Register** of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). This

notice announces receipt of thirteen PMNs and provides a summary of each.

DATES: Close of Review Period:

PMN 83–495, May 18, 1983
PMN 83–496, 83–497, 83–498, 83–499, 83–500, 83–501, 83–502, 83–503, 83–504, 83–505, May 22, 1983
PMN 83–506 and 83–507, May 23, 1983.

Written comments by:
PMN 83–495, April 18, 1983
PMN 83–496, 83–497, 83–498, 83–499, 83–500, 83–501, 83–502, 83–503, 83–504, and 83–505, April 22, 1983
PMN 83–506 and 83–507, April 23, 1983

ADDRESS: Written comments, identified by the document control number "[OPTS–51456]" and the specific PMN number should be sent to: Document Control Officer (TS–793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–409, 401 M St., SW., Washington, D.C. 20460, (202–382–3532).

FOR FURTHER INFORMATION CONTACT: Theodore Jones, Acting Chief, Notice Review Branch, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–216, 401 M St., SW., Washington, D.C. 20460, (202–382–3729).

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the non-confidential version of the submission provided by the manufacturer on the PMNs received by EPA. The complete non-confidential document is available in the Public Reading Room E–107.

PMN 83–495

Importer. Sandoz Colors & Chemicals.
Chemical. (G) Metal complexed substituted aromatic salt.
Use/Import. (S) Colorant for paper. Import range: Confidential.
Toxicity Data. Acute oral: > 5,000 mg/kg; Irritation: Skin—Non-irritating. Eye—Non-irritation.
Exposure. Processing: dermal, a total of 1 worker per site, up to 1 hr/da.
Environmental Release/Disposal. 10–000 kg/yr released to water. Disposal by biological treatment system.

PMN 83–496

Manufacturer. Confidential.
Chemical. (G) Polyester from a carbomonocyclic anhydride and an alkanediol.
Use/Production. (G) Contained use. Prod. range: 10,000–200,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture, processing and use: dermal and eye, a total of 47 workers, up to 8 hrs/da, up to 250 da/yr.
Environmental Release/Disposal. Less than 10 kg/yr released to air and water with 100–1,000 kg/yr to land. Disposal by incineration.

PMN 83–497

Manufacture. Martin Marietta Corporation.
Chemical. (G) Reaction product of 1,3-benzenediamine, hydroxybenzene, and an oxo alkane with sodium sulfide.
Use/Production. (S) Industrial textile dye. Prod. range: 20,000–250,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture, processing, use and disposal: dermal, a total of 28 workers, up to 12 hrs/da, up to 260 da/yr.
Environmental Release/Disposal. Less than 10 kg/yr released to air, 10–1,000 kg/yr to water and 10–10,000 kg/yr to land. Disposal by approved landfill and wastewater treatment.

PMN 83–498

Manufacturer. Confidential.
Chemical. (G) Polymer of alkyl diamine and substituted oxiranes.
Use/Production. (G) Additive for paper manufacture. Prod. range: Confidential.
Toxicity Data. Acute oral: >5 g/kg; Irritation: Skin—Slight, Eye—Irritant.
Exposure. Manufacture, use and disposal: dermal, a total of 6 workers, up to 10 hrs/da, up to 24 da/yr.
Environmental Release/Disposal. 100–10,000 kg/yr released to water. Disposal by publicly owned treatment works (POTW).

PMN 83–499

Manufacturer. Venture Chemical Company.
Chemical. (G) Reaction product of polyalkylene polyamines, phenols and polymeric epoxide derivatives.
Use/Production. (S) Epoxy resin curing agent. Prod. range: 1,000–8,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture and processing: dermal, a total of 2 workers, minimal.
Environmental Release/Disposal. Less than 10 kg/yr released to land. Disposal by approved landfill.

PMN 83–500

Manufacturer. Venture Chemical Company.
Chemical. (G) Reaction product of polyalkylene polyamines, phenols and polymeric epoxide derivatives.
Use/Production. (S) Epoxy resin curing agent. Prod. range: 1,000–8,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture and processing: dermal, a total of 2 workers, minimal.
Environmental Release/Disposal. Less than 10 kg/yr released to land. Disposal by approved landfill.

PMN 83–501

Manufacturer. Confidential.
Chemical. (G) Modified rosin condensation product.
Use/Production. (S) Hot melt adhesives. Prod. range: Confidential
Toxicity Data. No data on the PMN substance submitted.
Exposure. Manufacture: dermal, a total of 2 workers, up to 1 hr/da, up to 83 da/yr.
Environmental Release/Disposal. Less than 10 kg/yr released to air, water and land. Disposal by biological treatment system.

PMN 83–502

Manufacturer. Confidential.
Chemical. (G) Aminoheterocyclyl branched alkane.
Use/Production. (S) Site limited and industrial captive intermediate. Prod. range: Confidential
Toxicity Data. Acute oral: 144 mg/kg; Irritation: Skin—Slight transient irritation, Eye—Severe; Inhalation: 1.0 mg/L; Ames Test: Not mutagenic.
Exposure. Manufacture: dermal and inhalation.
Environmental Release/Disposal. Release is negligible. Disposal by biological waste treatment system or thermal oxidation.

PMN 83–503

Manufacturer. Confidential.
Chemical. (G) Substituted alkoxy silane.
Use/Production. (G) Industrial additive. Prod. range: Confidential
Toxicity Data. Acute oral: 1,400 mg/kg; Acute dermal: >2,000 mg/kg; Irritation: Skin—⅛, Eye—$^{3}/_{10}$; Inhalation: LC_{50} (1 hr)—2.2 mg/L; Ames Test: Negative; BOD: 478 mg/kg; COD: 2,567 mg/g; DNA Repair Bioassay: Negative; EC_{50} to daphnia magna 1.1 mg/L.
Exposure. Manufacture and use: dermal and inhalation, a total of 148 workers, up to 8 hrs/da, up to 200 da/yr.
Environmental Release/Disposal. 10–100 kg/yr released to air with less than 10 kg/yr to water and land. Disposal by incineration, recovery, navigable waterway and biological oxidation system.

PMN 83–504

Manufacturer. FMC Corporation.
Chemical. (G) Δ-cyano carbocycliccarboxylate.
Use/Production. (S) Intermediate. Prod. range: Confidential.

Toxicity Data. Acute oral: 295.1 mg/kg; Acute dermal: > 2,000 mg/kg; Irritation: Skin—Moderate, Eye—Minimal; Ames Test: Non-mutagenic; Skin sensitization: Non-sensitizing; Avian Oral (mallard duck): > 4,640 mg/kg; Liver microsome induction potential: Negative; LC_{50}, 96 hr. (sunfish): 1.80 g/L.

Exposure. No exposure.

Environmental Release/Disposal. Minimal. Disposal by biological treatment system, incineration and approved landfill.

PMN 83–505

Manufacturer. C. J. Osborne Chemicals, Inc.

Chemical. (G) Polyester resin-saturated.

Use/Production. (S) Site-limited and industrial exterior container coating. Prod. range: 87,000–175,000 kg/yr.

Toxicity Data. No data submitted.

Exposure. Manufacture: dermal, a total of 3 workers, up to 6 hrs/da, up to 19 da/yr.

Environmental Release/Disposal. No release.

PMN 83–506

Manufacturer. Confidential.

Chemical. (G) Modified acrylic polymer.

Use/Production. (G) Open use. Prod. range: Confidential.

Toxicity Data. Acute oral: > 5 g/kg; Acute dermal: > 5 g/kg; Irritation: Skin—Non-irritant, Eye—Minimal.

Exposure. Manufacture and processing: dermal and eye, a total of 27 workers, up to 8 hrs/da, up to 200 da/yr.

Environmental Release/Disposal. 5,000–50,000 kg/yr released to land. Disposal by approved landfill.

PMN 83–507

Manufacturer. Confidential.

Chemical. (G) Monocyclic sulfur derivative.

Use/Production. (G) Dispersive use. Prod. range: 150–1,500 kg/yr.

Toxicity Data. Acute oral: > 5.0 ml/kg; Irritation: Skin—None, Eye—None.

Exposure. Manufacture, processing, use and disposal: dermal, a total of 8 workers, to 8 hrs/da, up to 150 da/yr.

Environmental Release/Disposal. 10–1,000 kg/yr released to water, 1 hr/da, 10–100 da/yr. Disposal by POTW.

Dated: February 28, 1983.

V. Paul Fuschini,

Acting Director, Management Support Division.

Region 6; Final Agency Action on a PSD Permit for Southwestern Electric Power Company (SWEPCO)

Notice is hereby given that on June 29, 1982, Region 6 of the Environmental Protection Agency (EPA) issued a Prevention of Significant Deterioration (PSD) permit, Number PSD–TX–340, to the Southwestern Electric Power Company (SWEPCO) for approval to construct two lignite-fired units of a power plant facility located two miles southwest of State 247 and nine miles northwest of Huntsville, Walker County, Texas, pursuant to 40 CFR 52.21. On July 14, 1982, Mr. James P. Weber, et al., and later Mr. Wynn Earl Westover, from the Huntsville area each filed a petition for review of the PSD permit above.

Because petitions for review were filed with the Administrator, the issuance of the permit was no longer a final agency action and the PSD permit for SWEPCO was not effective. See 40 CFR 124.15(b)(2). The consolidated petitions for review were denied by the Administrator on December 28, 1982. Pursuant to 40 CFR124.19(f)(1), a final permit decision on PSD–TX–340 was issued by Region 6 on February 1, 1983.

Under Section 307(b)(1) of the Clean Air Act, judicial review of PSD–TX–340 is available *only* by the filing of a petition for review in the United States Court of Appeals for the Fifth Circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

Copies of all of the material concerning PSD–TX–340 are available for public inspection upon request at the following location: Environmental Protection Agency, Region 6, Air and Waste Management Division, Air Branch, Interfirst Two Building, 1201 Elm Street, Dallas, Texas, 75270.

FOR FURTHER INFORMATION CONTACT: Bill Taylor, (214) 767–1594 or FTS 729–1594.

Frances E. Phillips,

Acting Regional Administrator, Region 6.

[AMS-FRL-2315-4]

Fuel Economy Retrofit Devices; Announcement of Fuel Economy Retrofit Device Evaluation for "Dresser Economizer"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Fuel Economy Retrofit Device Evaluation.

SUMMARY: This document announces the conclusions of the EPA evaluation of the Dresser Economizer device under provisions of Section 511 of the Motor Vehicle Information and Cost Savings Act. EPA finds it has not reason to support the applicant's claim for fuel economy, performance, and driveability benefits.

SUPPLEMENTARY INFORMATION:

I. Background

Section 511(b)(1) and Section 511(c) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2011(b)) requires that:

(b)(1) Upon application of any manufacturer of a retrofit device (or prototype thereof), upon the request of the Federal Trade Commission pursuant to subsection (a), or upon his own motion, the EPA Administrator shall evaluate, in accordance with rules prescribed under subsection (d), any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations (if any) made with respect to such retrofit devices are accurate.

(c) The EPA Administrator shall publish in the **Federal Register** a summary of the results of all tests conducted under this section, together with the EPA Administrator's conclusions as to—

(1) The effect of any retrofit device on fuel economy;

(2) The effect of any such device on emissions of air pollutants; and

(3) Any other information which the Administrator determines to be relevant in evaluating such device."

EPA published final regulations establishing procedures for conducting fuel economy retrofit device evaluations on March 23, 1979 [44 FR 17946].

II. Origin of Request for Evaluation

On June 15, 1981, the EPA received a request from Dresser Industries for an evaluation of a fuel saving device known as the "Dresser Economizer". This device is a gasket containing shaped port passages which is installed between the intake manifold and the cylinder head. The size of each passage is approximately half that of the original unit. Such a construction increases the velocity and turbulence of the incoming

charge. This is claimed to cause a more homogenous mixture and result in improved fuel economy and driveability, especially when the engine is cold.

III. Availability of Evaluation Report

An evaluation has been made and the results are described completely in a report entitled: "EPA Evaluation of the Dresser Economizer Device Under Section 511 of the Motor Vehicle Information and Cost Savings Act." This entire report is contained in two volumes. The discussions, conclusions and list of all attachments are listed in EPA–AA–TEB–511–82–6A, which consists of 10 pages. The attachments are contained in EPA–AA–TEB–511–82–6B, which consists of 97 pages. The attachments include correspondence between the applicant and EPA and all documents submitted in support of the application.

As a part of its evaluation, EPA has actually tested the Dresser Economizer device. The EPA testing is described completely in the report "Emissions and Fuel Economy of Dresser Economizer, a Retrofit Device", EPA–AA–TEB–82–3, consisting of 12 pages. This report is contained in the above document and can be obtained separately or as part of the attachment package.

Copies of these reports may be obtained from the National Technical Information Service by using the above report numbers. Address requests to:

National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161, Telephone: (703) 487–4650 or FTS 737–4650

IV. Summary of Evaluation

EPA fully considered all of the information submitted by the device manufacturer in the application. The evaluation of the Dresser Economizer device was based on that information and the results of the EPA test program.

Testing of three recent model year passenger cars was conducted at EPA's Motor Vehicle Emission Laboratory during September and October of 1981. A fourth vehicle was tested during March and April of 1982. In each case, the basic test sequence included the Federal Test Procedure (FTP) and the Highway Fuel Economy Test (HFET). These tests were performed both before and after installation of the Dresser Economizer and again after restoration of the vehicle. Test results varied significantly between test vehicles with no definite trends noticed. Fuel economy varied from a penalty of 3% to a gain of 4% on the FTP and from a penalty of 3% to a gain of 2% on the HFET. None of the improvements in emissions or fuel economy were found to be statistically significant. Vehicle performance was not noticeably affected.

Based on EPA's evaluation of the Dresser Economizer, EPA finds it has no reason to support the applicant's claim for fuel economy, performance, and driveability benefits.

FOR FURTHER INFORMATION CONTACT: Merrill W. Korth, Emission Control Technology Division, Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, Michigan 48105, Telephone: (313) 668–4299.

Dated: February 18, 1983.

Charles L. Elkins,

Acting Assistant Administrator for Air, Noise and Radiation.

[FR. Doc. 83–5884 Filed 3–3–83; 8:45 am]

BILLING CODE 6560–50–M

[AMS-FRL-2315-3]

Fuel Economy Retrofit Devices; Announcement of Fuel Economy Retrofit Device Evaluation for Turbo-Carb

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Fuel Economy Retrofit Device Evaluation.

SUMMARY: This document announces that conclusions of the EPA evaluation of the "Turbo-Carb" device under provisions of section 511 of the Motor Vehicle Information and Cost Savings Act. The overall conclusion is that there is no reason to expect that the Turbo-Carb will significantly improve fuel economy or performance of a vehicle.

SUPPLEMENTARY INFORMATION:

I. Background

Section 511(b)(1) and Section 511(c) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2011(b)) requires that:

(b)(1) Upon application of any manufacturer of a retrofit device (or prototype thereof), upon the request of the Federal Trade Commission pursuant to subsection (a), or upon his own motion, the EPA Administrator shall evaluate, in accordance with rules prescribed under subsection (d), any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations (if any) made with respect to such retrofit devices are accurate.

(c) The EPA Administrator shall publish in the **Federal Register** a summary of the results of all tests conducted under this section, together with the EPA Administrator's conclusions as to—

(1) The effect of any retrofit device on fuel economy;

(2) The effect of any such device on emissions of air pollutants; and

(3) Any other information which the Administrator determines to be relevant in evaluating such device.

EPA published final regulations establishing procedures for conducting evaluations of fuel economy retrofit device on March 23, 1979 [44 FR 17940].

II. Orgin of Request for Evaluation

In November 1981, the EPA received a request from the U.S. Postal Service to evaluate the claims for the Turbo-Carb. EPA agreed to conduct an evaluation of this device under the Section 511 evaluation process.

The Turbo-Carb is a one-inch thick carburetor adapter plate which inserts a mesh screen and swirl devices between the carburetor and intake manifold. The device is claimed to improve the preparation of the fuel/air mixture and thereby improve fuel economy and performance.

III. Availability of Evaluation Report

An evaluation has been made and the results are described completely in a report entitled: "EPA Evaluation of the Turbo-Carb Device Under Section 511 of the Motor Vehicle Information and Cost Savings Act," report number EPA–AA–TEB–511–82–12 consisting of 29 pages including the attachment.

As part of the evaluation, EPA also tested the Turbo-Carb device. The EPA testing is described completely in the report "Emissions and Fuel Economy of the Turbo-Carb, a Retrofit Device", EPA–AA–TEB–82–8, consisting of 19 pages. This report is contained in the preceding 511 Evaluation as an attachment.

Copies of these reports may be obtained from the National Technical Information Service by using the above report numbers. Address requests to: National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161, Telephone: (703) 487–4650 or FTS 737–4650.

IV. Summary of Evaluation

The evaluation of the Turbo-Carb device was based on the information obtained by EPA and the results of the EPA test program. The overall conclusion is that there is no reason to expect that the Turbo-Carb will significantly improve fuel economy or performance of a vehicle. Changes in fuel economy or emissions were small with mixed results of slight increases and decreases. Driveability remained essentially unchanged. Installation of the device was found to be considerably more difficult than claimed due to the requirement to design and fabricate

several parts as well as perform critical readjustments.

FOR FURTHER INFORMATION CONTACT: Merrill W. Korth, Emission Control Technology Division, Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, Michigan 48105, Telephone: (313) 668–4299.

Dated: February 18, 1983.

Charles L. Elkins,

Acting Assistant Administrator for Air, Noise, and Radiation.

BILLING CODE 6560-50-M

[SWH FRL 2314–1]

RCRA Permit Advisory Committee; Task Force B; Open Meeting

Notice is hereby given of a meeting of Task Force B of the RCRA Permit Advisory Committee. The Committee was established in accordance with the requirements of the Federal Advisory Committee Act, 5 U.S.C. (Appendix I), *et seq.* Establishment of the Committee was announced in the **Federal Register** on September 23, 1982. [SWH–FRL–2215–2]. The Task Force was established in the first open meeting of the Committee held on February 15, 1983 as announced in the **Federal Register** on January 27, 1983. [SWH–FRL–2291–7].

The meeting will be held on Wednesday, March 16, 1983 at 10:00 a.m. at the offices of "Resources for the Future," 1755 Massachusetts Avenue, NW., Washington, D.C. 20036, eighth floor conference room. Estimated time of adjournment is 4:00 p.m.

The purpose of the meeting is to formulate potential recommendations regarding Lifetime Permits, Permit Variances, Class Permits, Permits for Mobile Treatment Units and the timeliness of current permit procedures. Any recommendations will be submitted to the RCRA Permit Advisory Committee for consideration at its next meeting.

This meeting is open to the public. Any member of the public wishing to submit a written statement to the Committee should deliver copies to the Executive Secretary at the meeting. Advance comments on specific subjects may be submitted to study group Chairpersons as follows:

Lifetime Permits: Mr. John Schofield, Vice President for Corporate Development and Technical Services, IT Corporation, 40 Darby Road, Paoli, Pennsylvania 19301.

Variances: Dr. Charles Johnson, Technical Director, National Solid Wastes Management Association, 1120 Connecticut Avenue, NW., #930, Washington, D.C. 20036.

Class Permits and Mobile Treatment Units: Dr. Joseph Chu, Environmental and Energy Affairs, Olin Corporation, 120 Long Ridge Road, Stamford, Connecticut 06904.

Timeliness of Current Procedures: Mr. Jerry Martin, Environmental Control Manager, Dow Chemical U.S.A., Building 3502–E, P.O. Box 150, Plaquemine, Louisiana 70764.

Anyone wishing to make a brief oral statement must indicate this to the Executive Secretary at the opening of the meeting. Oral statements will be heard as time permits.

For further information contact: Gerald Healy, Jr., Task Force Chairperson, Hazardous Waste Management Division, Louisiana Department of Natural Resources, Office of Environmental Affairs, P.O. Box 44066, Baton Rouge, Louisiana 70804; (504) 342–1227 or Susan Mann, Executive Secretary, U.S. EPA, 401 M Street, SW., Washington, D.C. 20460, WH–563, (202) 382–4498.

Dated: February 23, 1983.

Lewis Crampton,

Acting Assistant Administrator.

BILLING CODE 6560-50-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA–677–DR]

California; Amendment to Notice of Major-Disaster Declaration

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice amends the Notice of a major disaster for the State of California (FEMA–677–DR), dated February 9, 1983, and related determinations.

DATED: February 22, 1983.

FOR FURTHER INFORMATION CONTACT: Sewall H. E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287–0501:

Notice

In a letter of February 22, 1983, the President amended this major disaster as follows:

On February 9, 1983, I determined that the damage in certain areas of the State of California resulting from severe storms, high tides, wave action, mudslides and flooding beginning on January 21, 1983, is of sufficient severity and magnitude to warrant a major-disaster declaration under Pub. L. 93–288. I hereby amend my February 9, 1983, declaration of a major disaster for the State of California by adding the following:

This declaration also includes damage in certain areas of the State of California resulting from severe storms, high tides, wave action, levee breaks and flooding beginning on November 27, 1982.

As the result of declarations for the California Delta dated February 1, 1980, October 2, 1980, and September 24, 1982, approximately $38 million has been obligated from the President's Disaster Relief Fund. These declaration documents have required cooperative mitigation activities by Federal, State and local governments, and private agencies. The Governor of California has been asked to provide State leadership and resources to promote these cooperative efforts. Although some progress toward improving certain levees has been made recently, the threat of future levee breaks remains. There will be increasing difficulty in justifying any similar declarations in the future unless continuing and accelerated progress toward reducing the threat of future levee breaks is achieved. I expect that the State hazard mitigation plan and its implementation will provide for effective measures, and for commitment of State and local resources to achieve this objective. Under FEMA coordination, the Federal agencies should cooperate fully with the approved planned activities.

I expect a progress report from you by September 1, 1983, on hazard mitigation activities planned and being implemented as the result of this amended declaration, and other recent declarations.

The Notice of a major disaster for the State of California dated February 9, 1983, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophic declared a major disaster by the President in his declaration of February 9, 1983:

In accordance with the amended declaration, the following areas are designated eligible for Public Assistance with an incident period beginning on November 27, 1982:

That portion of the Sacramento-San Joaquin Delta located within the Counties of Contra Costa, Sacramento and San Joaquin.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Dave McLoughlin,

Deputy Associate Director, State and Local Programs and Support, Federal Emergency Management Agency.

BILLING CODE 6718-02-M

[Docket No. FEMA-REP-3-VA-1]

Commonwealth of Virginia Radiological Emergency Response Plan Site-Specific for the North Anna Nuclear Power Station

ACTION: Certification of FEMA findings and determination.

In accordance with the Federal Emergency Management Agency (FEMA) rule 44 CFR Part 350 (proposed) on April 30, 1981, the Commonwealth of Virginia submitted its plans relating to the North Anna Nuclear Power Station to the Director of FEMA Region III for review and approval. The Regional Director forwarded his evaluation to the Associate Director for State and Local Programs and Support in accordance with § 350.11 of the proposed rule. Included in this evaluation were a review of the State and local plans around the North Anna facility; a critique of the exercises conducted on August 16, 1980, and September 18, 1982, in accordance with § 350.9; and a report of the public meeting held on July 16, 1981, to discuss the site-specific aspects of the Commonwealth and local plans in accordance with § 350.10 of the proposed rule. At the North Anna joint exercises conducted on August 16, 1980, and September 18, 1982, successful and adequate tests of Commonwealth and local government preparedness around North Anna were demonstrated.

Based on the evaluation by the Regional Director and the review by the FEMA Headquarters staff, I find and determine that, subject to the condition started below, the Commonwealth and local plans and preparedness for the North Anna Nuclear Power Station are adquate to protect the health and safety of the public living in the vicintiy of the station. The plans and preparedness are assessed as providing reasonable assurance that appropriate protective measures can and will be taken offsite in the event of a radiological emergency and are capable of being implemented. The condition for the above approval is that the adequacy of the public alerting and notification system already installed and operational must be verified as meeting the standards set forth in Appendix 3 of the Nuclear Regulatory Commission/FEMA Criteria of NUREG–0654/FEMA–REP–1, Revision 1.

FEMA will continue to review the status of plans and preparedness of the Commonwealth and localities associated with the North Anna Nuclear Power Station in accordance with § 350.13 of the proposed rule.

For further details with respect to this action, refer to Docket File FEMA–REP–3–VA–1 maintained by the Regional Director, FEMA Region III, Curtis Building, 7th Floor, 6th and Walnut Streets, Philadelphia, PA., 19106.

Dated: February 23, 1983.

For the Federal Emergency Management Agency.

Lee M. Thomas,

Associate Director, State and Local Programs and Support.

BILLING CODE 6718-02-M

[Docket No. FEMA-REP-3-VA-2]

Commonwealth of Virginia Radiological Emergency Response Plan Site-Specific for the Surry Nuclear Power Station

ACTION: Certification of FEMA findings and determination.

In accordance with the Federal Emergency Mangement Agency (FEMA) rule 44 CFR Part 350 (proposed) the Commonwealth of Virginia submitted its plans relating to the Surry Nuclear Power Station to the Director of FEMA Region III for review and approval. The Regional Director forwarded his evaluation to the Associate Director for State and Local Programs and Support in accordance with § 350.11 of the proposed rule. Included in this evaluation were a review of the State and local plans around the Surry facility; a critique of the exercises conducted on October 30–31, 1981 and November 10, 1982, in accordance with § 350.9; and a report of the public meeting held on December 9, 1981 in the Surry County Courthouse and on December 10, 1981, in the James City County Complex, to discuss the site-specific aspects of the Commonwealth and local plans in accordance with § 350.10 of the proposed rule. At the Surry joint exercises conducted on October 30–31, 1981 and November 10, 1982, successful and adequate tests of Commonwealth and local government preparedness around Surry were demonstrated.

Based on the evaluation by the Regional Director and the review by the FEMA Headquarters staff, I find and determine that, subject to the condition stated below, the Commonwealth and local plans and preparedness for the Surry Nuclear Power Station are adequate to protect the health and safety of the public living in the vicinity of the station. The plans and preparedness are assessed as providing reasonable assurance that appropriate protective measures can and will be taken offsite in the event of a radiological emergency and are capable of being implemented. The condition for the above approval is that the adequacy of the public alerting and notification system already installed and operational must be verified as meeting the standards set forth in Appendix 3 of the Nuclear Regulatory Commission/FEMA Criteria of NUREG–0654/FEMA–REP–1, Revision 1.

FEMA will continue to review the status of plans and preparedness of the Commonwealth and localities associated with the Surry Nuclear Power Station in accordance with § 350.13 of the proposed rule.

For further details with respect to this action, refer to Docket File FEMA–REP–3–VA–2 maintained by the Regional Director, FEMA Region III, Curtis Building, 7th Floor, 6th and Walnut Streets, Philadelphia, PA., 19106.

Dated: February 22, 1983.

For the Federal Emergency Management Agency.

Lee M. Thomas,

Associate Director, State and Local Programs and Support.

BILLING CODE 6718-02-M

[FEMA-674-DR]

Illinois; Amendment to Notice of Major-Disaster Declaration

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice amends the Notice of a major disaster for the State of Illinois (FEMA–674–DR), dated December 13, 1982, and related determinations.

DATE: February 18, 1983.

FOR FURTHER INFORMATION CONTACT: Sewall H. E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287–0501.

Notice: The Notice of a major disaster for the State of Illinois dated December 13, 1982, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of December 13, 1982:

Cass County for Public Assistance. City, Water, Light and Power Utility and the Springfield Recreation Department in Sangamon County for Public Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance.)

FEDERAL MARITIME COMMISSION

Certificates of Financial Responsibility; Holland American Cruises N.V. et al.

Certificates of financial responsibility for indemnification of passengers for nonpreformance of transportation No. P–182 and No. P–225 and certificate of financial responsibility to meet liability incurred for death or injury to passengers or other persons on voyages No. C–1, 180: Holland America Cruises N.V., Holland America Cruises, Inc., (Holland America Cruises) and Holland Amerika Lijn, N.V., Two Pennsylvania Plaza, New York, New York 10121.

Order of Revocation

Holland America Cruises N.V., Holland America Cruises, Inc. (Holland America Cruises) and Holland Amerika Lijn, N.V. have ceased to own or operate the passenger vessel STATENDAM.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (Revised) Section 10.06 dated November 12, 1981:

It is ordered, that Certificates (Performance) No. P–182 and No. P–225 and Certificate (Casualty) No. C–1, 180 issued to Holland America Cruises N.V., Holland America Cruises, Inc. (Holland America Cruises) and Holland Amerika Lijn, N.V. covering the STATENDAM, be and are hereby revoked.

It is further ordered, that a copy of this order be published in the **Federal Register** and served on the certificants.

Albert J. Klingel, Jr.,

Director, Bureau of Certification & Licensing.

[Docket No. 83–11]

Prudential Lines, Inc. v. Waterman Steamship Corporation; Filing of Complaint and Assignment

Notice is given that a complaint filed by Prudential Lines, Inc. against Waterman Steamship Corporation was served February 24, 1983. Complainant alleges that respondent has violated section 18 of the Shipping Act, 1916, by transporting cargo from U.S. North Atlantic Ports to Egypt under their tariff FMC No. 165, ICC WSSL–304.

This proceeding has been assigned to Administrative Law Judge William Beasley Harris. Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

Francis C. Hurney,

Secretary.

BILLING CODE 6730–01–M

FEDERAL RESERVE SYSTEM

Federal Open Market Committee; Domestic Policy Directive of December 20–21, 1982.

In accordance with § 217.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on December 20–21, 1982.[1]

[1] The Record of Policy actions of the Committee for the meeting of December 20–21, 1982, is filed as part of the original document. Copies are available upon request to The Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

The following domestic policy directive was issued to the Federal Reserve Bank of New York:

The information reviewed at this meeting suggests that real GNP declined in the fourth quarter, although final sales apparently were maintained, and that the rise in prices remained much less rapid than in 1981. Retail sales and housing activity have strengthened in recent months, but business fixed investment apparently has weakened further and efforts to reduce inventories have continued. In November industrial production and nonfarm payroll employment declined further, and the unemployment rate rose 0.4 percentage point to 10.8 percent. Initial claims for unemployment insurance, although down from the early autumn peaks, have remained relatively high. In recent months the advance in the index of average hourly earnings has slowed appreciably further.

The weighted average value of the dollar against major foreign currencies has declined from peaks reached in early November. The U.S. merchandise trade deficit rose sharply further in October.

Growth in M1 has remained rapid in recent months, while growth of M2 and M3 has continued at about or somewhat below the rates of earlier in the year. ON balance short-term market interest rates have declined since mid-November, while bond yields have risen somewhat in response to unusually heavy borrowing by businesses and governments; mortgage rates have edged down further. The Federal Reserve announced reductions in the discount rate from 9½ percent to 9 percent on November 19 and to 8½ percent on December 13.

The Federal Open Market Committee seeks to foster monetary and financial conditions that will help to reduce inflation, promote a resumption of growth in output on a sustainable basis, and contribute to a sustainable pattern of international transactions. In July, the Committee agreed that these objectives would be furthered by reaffirming the monetary growth ranges for the period from the fourth quarter of 1981 to the fourth quarter of 1982 that it had set at the February meeting. These ranges were 2½ to 5½ percent for M1, 6 to 9 percent for M2, and 6½ to 9½ percent for M3. The associated range for bank credit was 6 to 9 percent. The Committee agreed that growth in the monetary and credit aggregates around the top of the indicated ranges would be acceptable in the light of the relatively low base period for the M1 target and other factors, and that it would tolerate

for some period of time growth somewhat above the target should unusual precautionary demands for money and liquidity be evident in the light of current economic uncertainties. The Committee had also earlier indicated that it was tentatively planning to continue the current ranges for 1983, but it will review that decision carefully at its February 1983 meeting in light of economic developments and institutional changes associated with the new deposit accounts authorized by the Depository Institutions Deregulation Committee.

Specification of the behavior of M1 over the months ahead remains subject to substantial uncertainty because of special circumstances in connection with the public's response to the new deposit accounts available at depository institutions. The difficulties in interpretation of M1 continue to suggest that much less than usual weight be placed on movements in that aggregate during the coming quarter. The institutional changes also add a degree of uncertainty to the behavior of the broader monetary aggregates.

In all the circumstances, the Committee seeks to maintain expansion in bank reserves consistent with growth of M2 of around 9½ percent at an annual rate, and of M3 at about an 8 percent rate, from December to March, allowing in the case of M2 for modest shifting into the new money market accounts from large-denomination CD's or market instruments. The Committee indicated that greater growth would be acceptable if analysis of incoming data and other evidence from bank and market reports indicate that the new money market accounts are generating more substantial shifts of funds into broader aggregates from market instruments. The Chairman may call for Committee consultation if it appears to the Manager for Domestic Operations that pursuit of the monetary objectives and related reserve paths during the period before the next meeting is likely to be associated with a federal funds rate persistently outside a range of 6 to 10 percent.

By order of the Federal Open Market Committee, February 28, 1983.

Normand R. V. Bernard,

Assistant Secretary.

[FR Doc. 83-5881 Filed 3-3-83; 8:45 am]

BILLING CODE 6210-01-M

Proposed Savings and Loan Activities; Citicorp

Citicorp, New York, New York, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to convert 15 California offices of Citicorp Person-to-Person Financial Center, Inc. and Citicorp Person-to-Person Thrift, Inc. into branches of Citicorp Savings, Oakland, California, a federal savings and loan association; to transfer the assets of these offices to Citicorp Savings; and to expand the activities of Citicorp Savings to include all of the lending and deposit-taking powers of federal savings and loan associations authorized by the Garn-St Germain Depository Institutions Act of 1982. These activities would be performed from 84 offices of Citicorp Savings throughout the State of California serving the State of California. The Board has previously determined that the operation of a savings and loan association is closely related to banking (Citicorp (*Fidelity Federal Savings & Loan*) 68 Federal Reserve Bulletin 656 (1982), and cases cited therein), subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b) of Regulation Y.

Interested persons may express their views on the question of whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration or resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C., not later than March 28, 1983.

Board of Governors of the Federal Reserve system, March 1, 1983.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 83-5882 Filed 3-3-83; 8:45 am]

BILLING CODE 6210-01-M

Formation of Bank Holding Companies; CCB Financial Corp., et al.

The companies listed in this notice have applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become bank holding companies by acquiring voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of Richmond** (Lloyd W. Bostian, Jr., Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. *CCB Financial Corporation,* Durham North Carolina; to become a bank holding company by acquiring 100 percent of the voting shares of Central Carolina Bank and Trust Company, National Association, Durham, North Carolina. Comments on this application must be received not later than March 28, 1983.

B. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303:

1. *First Citizens Bancshares Corporation,* Pineville, Louisiana; to become a bank holding company by acquiring 97.4 percent of the voting shares of First Bank, Pineville, Louisiana. Comments on this application must be received not later than March 28, 1983.

2. South Mississippi Capital Company, Prentiss, Mississippi; to become a bank holding company by acquiring 80 percent of the voting shares of South Mississippi Bank, Prentiss, Mississippi. Comments on this application must be received not later than March 28, 1983.

C. **Federal Reserve Bank of St. Louis** (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *First Service Bancshares, Inc.,* Greenville, Kentucky; to become a bank holding company by acquiring 100 percent of the voting shares of First State Bank, Greenville, Kentucky.

Comments on this application must be received not later than March 28, 1983.

2. *Tritten Bancshares, Inc.*, St. Robert, Missouri; to become a bank holding company by acquiring 86 percent or more of the voting shares of First National Bank, St. Robert, Missouri. Comments on this application must be received not later than March 28, 1983.

D. **Federal Reserve Bank of Kansas City** (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *St. Paul Bancorporation, Inc.*, St. Paul, Nebraska; to become a bank holding company by acquiring 80 percent or more of the voting shares of St. Paul National Bank, St. Paul, Nebraska. Comments on this application must be received not later than March 28, 1983.

E. **Federal Reserve Bank of Dallas** (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *Bay Bancshares, Inc.*, La Porte, Texas; to become a bank holding company by acquiring 100 percent of the voting shares of Bayshore National Bank of La Porte, and Bayport National Bank, both of La Porte, Texas. Comments on this application must be received not later than March 28, 1983.

Board of Governors of the Federal Reserve System, February 28, 1983.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 83-5613 Filed 3-3-83; 8:45 am]

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed De Novo Nonbank Activities; Old Stone Corp., et al.

The organizations identified in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to these applications, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any comment that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

The applications may be inspected at the offices of the Board of Governors or at the Federal Bank indicated. Comments and requests for hearing should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than the date indicated.

A. **Federal Reserve Bank of Boston** (Richard E. Randall, Vice President) 600 Atlantic Avenue, Boston, Massachusetts 02106:

1. *Old Stone Corporation*, Providence, Rhode Island (commercial lending; United States): To engage through its wholly-owned subsidiary, Guild Loan and Investment Company, in the activities of making and acquiring, for its own account or the account of others, commercial loans and other extensions of commercial credit, providing however, that Guild does not accept demand deposits or similar transaction accounts. These activities would be conducted from existing offices of Guild Loan and Investment Company located in Providence and Warwick, Rhode Island, and serving the continental United States, Alaska and Hawaii. Comments on this application must be received not later than March 28, 1983.

B. **Federal Reserve Bank of New York** (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Bankers Trust New York Corporation*, New York, New York (finance and factoring activities; southeastern United States): To engage, through its subsidiary, BT Commercial Corporation, in making or acquiring loans or other extensions of credit such as would be made by a commercial finance company, including commercial loans secured by a borrower's accounts receivable, inventory or other assets; purchasing or acquiring accounts receivable and making advances thereon as would be done by a factor; servicing such loans or accounts for others; and acquiring and selling participations in such obligations. These activities would be conducted from an office in Atlanta, Georgia, serving Georgia, Alabama, Florida, South Carolina, North Carolina, Tennessee, Kentucky, Virginia and West Virginia. Comments on this application must be received not later than March 28, 1983.

C. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice President) 104 Marietta Street, N.W., Atlanta, Georga 30303:

1. *Central Bancshares of the South, Inc.*, Birmingham, Alabama (insurance activities; Alabama): To act through its subsidiary, CSN Underwriters, Inc., as agent or broker for the sale of credit life, accident, health, property and casualty insurance directly related to extensions of credit by a bank or bank holding company; to act as agent or broker with respect to the provision of insurance directly related to the provisions of other financial services by Applicant or its subsidiaries. The activities are permitted under the Garn-St. Germain Depository Institutions Act of 1982, Pub. L. 97-320, Section 601(D). These activities will be conducted from offices throughout Alabama, serving the State of Alabama. Comments on this application must be received not later than March 28, 1983.

D. **Federal Reserve Bank of Minneapolis** (Bruce J. Hedblom, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. *First Manistique Corporation*, Manistique, Michigan (general insurance activities; Michigan): To engage *de novo* through The First Manistique Agency, a division of First Manistique Corporation, in general insurance activities including, but not limited to, life, accident and health, and physical damage insurance. The First National Bank of Manistique will service the counties of Schoolcraft and portions of Luce which have a population of approximately 3,948. The Manistique Lakes Bank of Newberry will service the counties of Mackinac, Alger and portions of Luce which have a population of approximately 2,700. Comments on this application must be received not later than March 23, 1983.

Board of Governors of the Federal Reserve System, February 28, 1983.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 83-5614 Filed 3-3-83; 8:45 am]

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

National Institute for Occupational Safety and Health; Request for Information on the Effectiveness of Hazardous Energy Control Procedures (Lockout/Tagout)

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control, Public Health Service, HHS.

ACTION: Notice of request for information.

SUMMARY: NIOSH is requesting information (as part of an Interagency Agreement with the Occupational Safety and Health Administration (OSHA)) documenting the effectiveness of specific lockout/tagout procedures designed for worker protection. Lockout/tagout procedures are designed to maintain a process or system in a safe condition during troubleshooting, servicing, maintenance, or re-energization. These lockout/tagout procedures are intended to prevent the release of hazardous energy (including electrical energy, mechanical energy, thermal energy, and chemical energy). The information obtained will be used by NIOSH and OSHA to develop statements of rationale for the selection and use of specific procedures under specific conditions. The information will also be used to develop a scientific study protocol to determine the effectiveness of specific hazardous energy control procedures.

DATE: Comments concerning this notice should be submitted by May 3, 1983.

ADDRESS: Any information, comments, suggestions, or recommendations should be submitted in writing to: Dr. James A. Oppold, Director, Division of Safety Research, National Institute for Occupational Safety and Health, 944 Chestnut Ridge Road, Morgantown, WV 26505.

FOR FURTHER INFORMATION CONTACT: Dr. Murray L. Cohen, Chief, or Dr. Michael B. Moll, Statistician, Standards and Consultation Branch, Division of Safety Research, NIOSH, Morgantown, WV, (304) 291–4575, or FTS 923–4575.

SUPPLEMENTARY INFORMATION: NIOSH conducts research programs aimed at reducing worker injuries by identifying accident causation agent/sequence, as well as identifying/developing effective hazard control practices. On January 31, 1980, NIOSH published in the **Federal Register** (45 FR 7006) a request for information on the use of effective lockout and interlock devices, systems, and procedures. As a continuation of that research effort, NIOSH is now requesting comments, suggestions, or information related specifically to the effectiveness of lockout/tagout procedures. At this time, NIOSH is particularly interested in information in any of the following areas:

(1) Available data or available sources of data, especially case reports, which identify worker injuries that are related to lockout/tagout procedures.

(2) Methods of enforcing hazardous energy control procedures and methods for obtaining feedbacks on the effectiveness of such procedures.

(3) Documentation of the effectiveness of adherence to lockout/tagout procedures during maintenance and servicing.

(4) Information regarding the rationale(s) used for selection and application of hazardous energy control methods during maintenance and servicing.

The information received in response to this notice, except that designated as trade secret and protected by section 15 of the Occupational Safety and Health Act, will be available for examination and copying at the above address.

Dated: February 23, 1983.

J. Donald Millar,

Director, National Institute for Occupational Safety and Health.

[FR Doc. 83-5947 Filed 3-3-83; 8:45 am]

BILLING CODE 4160-18-M

National Environmental Policy Act (NEPA), Review of Program Actions

AGENCY: Centers for Disease Control (CDC), Public Health Service (PHS), HHS.

ACTION: List of CDC program actions that are categorically excluded from the NEPA environmental review process.

SUMMARY: This notice provides a list of CDC program actions which normally do not require either an environmental impact statement or environmental assessment (Council on Environmental Quality categorical exclusions, paragraph 1508.4; and the Health and Human Services (HHS) General Administration Manual, Part 30)).

EFFECTIVE DATE: March 4, 1983.

FOR FURTHER INFORMATION CONTACT: Dr. Frank S. Lisella, Chief, Environmental Affairs Group, Center for Environmental Health, Centers for Disease Control, Atlanta, Georgia 30333; telephone (404) 452–4095, or FTS: 236–4095.

SUPPLEMENTARY INFORMATION: The HHS environmental review procedures and guidelines, which have been published as Part 30 of the HHS General Administration Manual (GAM), require that each HHS Operating Division identify those program actions which should be categorically excluded from environmental review requirements. The procedures for determining if a program action can be categorically excluded are found in Section 30–29–40 of the GAM. As part of the PHS program review, components of the CDC have reviewed their actions and have identified the following as suitable for categorical exclusion. These exclusions will apply unless the responsible program official determines that sufficient evidence exists to establish that the proposed action may have a significant environmental effect.

Categorical Exclusions

A. The following CDC program actions are excluded from environmental review requirements under provisions of the HHS GAM Section 30–20–40–B–1:

1. When a law grants an exception.

2. When the courts have found that an action does not require an environmental review.

3. When an action implements activities outside the territorial jurisdiction of the United States and such activities are excluded from review by Executive Order 12114.

B. The Following CDC program actions are excluded from environmental review requiremets based on their functional nature as described in HHS GAM Section 30–20–40–B–2:

1. Routine adminstrative and management support, including legal counsel, public affairs, program evaluation, monitoring, and individual personnel actions. Typical actions include:

a. Program planning and development, program management, program evaluation, and budgeting.

b. Legal and legislative review/support.

c. Communications and correspondence control.

d. Processing of individual personnel actions including travel.

e. Procurement of office supplies and equipment.

f. Extension/renewal of existing leases.

g. Other similar administrative support actions.

2. Appellate reviews (when CDC was a plaintiff in the lower court decision).

3. Data processing and systems analysis. Typical actions include:

a. Updating of existing data bases.

b. Printing and distributing reports, studies, guidelines, and other health related technical material.

c. Developing new/redesigning existing data systems to meet specific program needs.

d. Acquisition, development, and implementation of ADP systems.

4. The awarding of funds through grants and cooperative agreements for training, research, investigations, and technical assistance. Typical actions include:

a. Occupational safety and health reserach and training.

b. Childhood immunization.

c. Veneral disease control, research, demonstration, and public information and education.

d. Health programs for refugees under the Immunization and Nationality Act.

e. State-based diabetes control or other programs.

f. Preventive health and health services block grants.

g. Investigations and technical assistance.

5. Actions associated with the conduct of liaison functions with other government and nongovermental entities. CDC is represented on a wide range of groups such as:

a. Intergovernmental task forces.

b. Ad hoc committees.

c. Work groups.

d. National code setting organizations.

e. International committees.

f. Interdepartmental groups.

6. Actions related to routine maintenance, repair, or replacement of equipment or structural components (doors, windows, roof, etc.) of CDC controlled facilities and improvements to those facilities. (Note: This exclusion does not apply to facilities listed or eligible for listing on National Register of Historic Places.)

7. Actions associated with data collection, storage, and dissemination. These actions typically involve:

a. Surveillance of health, population, and other indices and analysis for program management and budget justification purposes.

b. Identification and definition of preventable health problems including conducting research and demonstrations.

c. Surveillance of diseases through epidemiologic, laboratory, and field investigations and data collection, analysis, and distribution.

d. Planning, developing, and producing the Morbidity and Mortality Weekly Report and various other surveillance reports.

8. Technical assistance by CDC program personnel. These actions typically consist of:

a. Technical assistance to other Federal agencies, other HHS components, State and local governments, universities, nonprofit organizations, foreign governments, and international organizations.

b. The assignment of CDC personnel to Federal, State, and local governmental agencies, universities, nonprofit organizations, foreign governments, and international organizations for technical assistance.

9. Actions related to the adoption of regulations and guidelines pertaining to the above activities (except technical assistance and those resulting in population changes).

C. The following CDC program actions are excluded from environmental review requirements under provisions of HHS GAM Section 30–20–40 based on the determination that they will not normally: (a) significantly affect the human environment (as defined in NEPA), or (b) affect an asset (as defined in the related acts) regardless of location or magnitude:

1. Direct delivery of medical, laboratory, or other related health services by CDC staff or by contract providers.

2. Utilization of health professionals or paraprofessionals to supplement existing manpower resources in medically underserved areas or during health emergencies.

3. Application of pesticides which are not classified for restricted use under provisions of the Federal Insecticide, Fungicide, and Rodenticide Act when used for routine pest control purposes.

4. Relocation of employees into existing owned or office space currently leased within the same metropolitan area.

D. The following CDC program actions are partially excluded from environmental review requirements under provisions of HHS GAM Section 30–20–40 based on the determination that they may cause a significant environmental effect or impact an asset at some but not all locations and/or levels of magnitude or they may have an effect/impact associated with some but not all environmental and related acts:

1. Actions associated with the construction of 10,000 square feet or less of occupiable space are excluded except when such construction impacts properties: (a) listed or eligible for listing on the National Register of Historic Places; (b) with possible archeological, prehistoric, or scientific importance; and/or (c) located where natural asset review is mandated (see GAM Section 30–50).

2. Program actions with similar or related actions subject to previous environmental review if the effects of the action have been determined environmentally insignificant and the historic/natural asset implications are the same as for the action(s) previously reviewed.

Dated: February 23, 1983.

William H. Foege,

Director, Centers for Disease Control.

BILLING CODE 4160-18-M

Food and Drug Administration

[Docket No. 83F-0037]

EMS–CHEMIE AG; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the EMS–CHEMIE AG has filed a petition proposing that the food additive regulations be amended to provide for the safe use of Nylon 12T in food-contact articles.

FOR FURTHER INFORMATION CONTACT: Julia L. Ho, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3670) has been filed by EMS–CHEMIE AG, CH–7013 Domat/Ems Switzerland, proposing that Part 177 (21 CFR Part 177) of the food additive regulations be amended to provide for the safe use of Nylon 12T manufactured by polymerization of *omega*-laurolactam, isophthalic acid and bis(4-amino-3-methylcyclohexyl)methane in food-contact articles.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, Md 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Dated: February 24, 1983.
Sanford A. Miller,
Director, Bureau of Foods.

BILLING CODE 4160-01-M

[Docket No. 83F-0006]

Monsanto Co.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.
ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Monsanto Co. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of beverage containers fabricated from acrylonitrile/styrene copolymer resins.

FOR FURTHER INFORMATION CONTACT: Terry C. Troxell, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 3B3690) has been filed by Keller and Heckman, 1150 17th St. NW., Washington, DC 20036, on behalf of Monsanto Co., proposing that § 177.1040 (21 CFR 177.1040) of the food additive regulations be amended to provide for the safe use of beverage containers fabricated from certain acrylonitrile/styrene copolymer resins.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated February 24, 1983.
Sanford A. Miller,
Director, Bureau of Foods.

BILLING CODE 4160-01-M

[Docket No. 83C-0041]

Precision-Cosmet Co., Inc.; Filing of Color Additive Petition

AGENCY: Food and Drug Administration.
ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Precision-Cosmet Co., Inc., has filed a petition proposing that the color additive regulations be amended to provide for the safe use of 2-[[2,5-diethoxy-4-[(4-methylphenyl)thio]phenyl]azo]-1,3,5-benzenetriol (a diazonium compound) for coloring soft (hydrophilic) contact lenses.

FOR FURTHER INFORMATION CONTACT: George C. Murray, National Center for Devices and Radiological Health (HFK-460), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7940.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 706(b)(1), 74 Stat. 399-402 as amended (21 U.S.C. 376(b)(1))), notice is given that a petition, CAP 3CO159, has been filed by Precision-Cosmet Co., Inc., Minnetonka, MN 55343, proposing that the color additive regulations be amended to provide for the safe use of 2-[[2,5-diethoxy-4-[(4-methylphenyl)thio]phenyl]azo]-1,3,5-benzenetriol (a diazonium compound) for placing an identification mark on and in soft (hydrophilic) contact lenses.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: February 24, 1983.

[Docket No. 83F-0042]

Schenectady Chemicals, Inc.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.
ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Schenectady Chemicals, Inc., has filed a petition proposing that the food additive regulations be admended to provide for the safe use of 2-2'-ethylidene bis(4,6-di-*tert*-butylphenol) as an antioxidant and/or stabilizer in acrylonitrile-butadiene-styrene copolymers and high-impact polystyrene and also for use in adhesive formulations intended for food-contact applications.

FOR FURTHER INFORMATION CONTACT: Vir Anand, Bureau of Foods (HFF-334),Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 3B3691) has been filed by Schenectady Chemicals, Inc., c/o Jerome H. Heckman, Keller and Heckman, 1150 17th St. NW., Washington, DC 20036, proposing that the food additive regulations be amended to provide for the safe use of 2-2'-ethylidene bis(4,6-di-*tert*-butylphenol) as an antioxidant and/or stabilizer in acrylonitrile-butadiene-styrene copolymers and high-impact polystyrene and also for use in adhesive formulations intended for use in contact with food.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

[Docket No. 83F-0035]

Standard Oil Co. (Indiana); Filing of Food Additive Petition

AGENCY: Food and Drug Administration.
ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Standard Oil Co. (Indiana) has filed a petition proposing that the food additive regulations be amended to provide for the safe use of 2,5-dimethyl-2,5-di(*tert*-butylperoxy)hexane in the production of polyolefins.

FOR FURTHER INFORMATION CONTACT: Mary W. Lipien, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202-472-5740.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3658) has been filed by Standard Oil Co. (Indiana), 200 E.

Randolph Dr., Chicago, IL 60601, proposing that the food additive regulations be amended to provide for the safe use of 2,5-dimethyl-2,5-di(*tert*-butylperoxy)hexane in the production of polyolefins.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

BILLING CODE 4160-01-M

Consumer Participation; Open Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the following consumer exchange meeting: San Juan District Office, chaired by Lynn Campbell, District Director.

DATE: Thursday, March 17, 1983, 10:30 a.m.

ADDRESS: Ponce Regional College, University of Puerto Rico, Ponce, PR 00731.

FOR FURTHER INFORMATION CONTACT: William E. Martinez-Soto, Consumer Affairs Officer, Food and Drug Administration, P.O. Box S-4427, Old San Juan Station, San Juan, PR 00905; 809-753-4264.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to encourage dialogue between consumers and FDA officials, to identify and set priorities for current and future health concerns, to enhance relationships between local consumers and FDA's District Offices, and to contribute to the agency's policymaking decisions on vital issues. The topics to be discussed are orphan drugs, food labeling formats, and an update on sodium.

Dated: February 25, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

Certain Parenteral Multivitamin Products; Drug Efficacy Study Implementation; Withdrawal of Approval

Correction

In FR. Doc. 83-1419, beginning on page 2835 in the issue of Friday, January 21, 1983, make the following correction.

On page 2836, first column, fourth line of the last paragraph, "approval" should read "approved".

BILLING CODE 1505-01-M

National Institutes of Health

Biomedical Research Support Subcommittee of the General Research Support Review Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Biomedical Research Support Subcommittee of the General Research Support Review Committee, Division of Research Resources, National Institutes of Health, May 6, 1983, Building 31C, Conference Room 7, Bethesda, Maryland 20205, from 9:30 a.m. to adjournment.

The meeting will be open to the public on May 6 from 9:30 a.m. to adjournment to discuss program policies and planning for the Biomedical Research Support Grant Program and the Biomedical Research Support Shared Instrumentation Grant Program. Attendenance by the public will be limited to space available.

Mr. James Augustine, Information Officer, Division of Research Resources, Room 5B10, Building 31, National Institutes of Health, Bethesda, Maryland 20205, (301) 496-5545, will provide summaries of the meeting and rosters of the Committee members. Dr. Marjorie A. Tingle, Executive Secretary, Biomedical Research Support Subcommittee of the General Research Support Review Committee will furnish substantive program information and will receive any comments pertaining to this announcement.

BILLING CODE 4140-01-M

Environmental Health Sciences Review Committee; Meeting;

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Environmental Health Sciences Review Committee on March 31-April 1, 1983 in Building 101 Conference Room, Research Triangle Park, North Carolina. This meeting will be open to the public from 8:30 a.m. to approximately 10:30 a.m. on March 31, 1983, for general discussions. Attendance by the public is limited to space available.

In accordance with provisions set forth in sections 552b(c)(4) and 552(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public from 10:30 a.m., March 31, to adjournment on April 1, 1983, for the review, discussion and evaluation of individual grant applications and contract proposals. These applications and proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Carol Shreffler, Executive Secretary, Environmental Health Sciences Review Committee, National Institute of Environmental Health Sciences, National Institutes of Health, P.O. Box 12233, Research Triangle Park, North Carolina 27709, (telephone 919-541-7826), will provide summaries of meetings, rosters of committee members, and substantive program information.

(Catalog of Federal Domestic Assistance Program Nos. 13.892, Prediction, Detection and Assessment of Environmental Caused Diseases and Disorders; 13.893, Mechanisms of Environmental Diseases and Disorders; 13.894, Environmental Health Research and Manpower Development Resources, National Institutes of Health)

Dated: February 17, 1983.

Betty J. Beveridge,

Committee Management Officer, NIH.

BILLING CODE 4140-01-M

General Research Support Review Committee; Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the General Research Support Review Committee, Division of Research Resources, April 21–22, 1983 at the National Institutes of Health. The meeting will be held in Conference Room 9, Building 31, 9000 Rockville Pike, Bethesda, Maryland 20205.

This meeting will be open to the public from 9:00 a.m. to approximately 1:30 p.m. on April 21, 1983, to discuss policy matters relating to the Minority Biomedical Research Support Program. Attendance by the public will be limited to space available.

In accordance with provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92–463, the meeting will be closed to the public on April 21, 1983, from approximately 1:30 p.m. and on April 22 from 8:30 a.m. to adjournment for the review, discussion and evaluation of individual grant applications submitted to the Minority Biomedical Research Support Program. These applications and discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Building 31, Room 5B10, Bethesda, Maryland 20205, telephone (301) 496–5545, will provide summaries of meeting and rosters of committee members. Dr. Sidney A. McNairy, Executive Secretary of the General Research Support Review Committee, Building 31, Room 5B29, Bethesda, Maryland 20205, telephone (301) 496–6745 will furnish substantive program information.

BILLING CODE 4140-01-M

Genetic Basis of Disease Review Committee; Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Genetic Basis of Disease Review Committee, National Institute of General Medical Sciences on March 24, 1983, at the Hotel Empire, Broadway at 63rd Street, New York, New York 10023, beginning at 3:00 p.m.

This meeting will be open to the public on March 24, 1983, from 3:00 p.m. until 3:30 p.m. for background information and discussion of issues relevant to the National Institute of General Medical Sciences and its National Research Service Award training activities and research programs. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Section 552b(c)(4) and 552(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92–463, the meeting will be closed to the public from 3:30 p.m. until adjournment for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable materials, and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Ms. Ann Dieffenbach, Public Information Officer, NIGMS, Westwood Building, Room 9A10, Bethesda, Maryland 20205, Telephone 301–496–7301, will furnish summary minutes of the meeting and a roster of committee members.

Dr. Helen Sunshine, Executive Secretary, Genetic Basis of Disease Review Committee, National Institute of General Medical Sciences, National Institutes of Health, Room 950, Westwood Building, Bethesda, Maryland 20205 (Telephone 301–496–7125) will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13–862, Genetics Research, National Institute of General Medical Sciences, National Institutes of Health)

Dated: February 17, 1983.

BILLING CODE 4140-01-M

Office of the Secretary

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Department of Health and Human Services (HHS) publishes a list of information collection packages it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). The following are those packages submitted to OMB since the last list was last published on February 25.

Public Health Service

National Institutes of Health

Subject: Protection of Human Subjects—Certification and Recordkeeping Requirements (0925–0137)—Reinstatement.

Respondents: Hospitals, colleges and universities.

OMB Desk Officer: Fay S. Iudicello.

Food and Drug Administration

Subject: Notice of Claimed Investigational Exemption for a New Drug (0910–0014)—Extension/No Change.

Respondents: Drug manufacturers.

Subject: Reporting Requirements Applicable to the Manufacture of Blood Grouping Serium (0910–0137)—Extension/No Change.

Respondents: Manufacturers of blood grouping serum.

Subject: Reporting Requirements Applicable to Normal Serum Albumin and Plasma Protein Fraction (0910–0137)—Extension/No Change.

Respondents: Manufacturers of normal serum albumin and plasma protein fraction.

OMB Desk Officer: Richard Eisinger.

Centers for Disease Control

Subject: Resurvey of Hospitals for the Study on the Efficacy of Nosocomial Infection Control—New.

Respondents: Short-term general hospitals.

OMB Desk Officer: Fay S. Iudicello.

Social Security Administration

Subject: Pre-1957 Military Service—Federal Benefit Questionnaire (SSA–2512 (4–83))—Revision.

Respondents: Individuals with military service from September 16, 1940 to December 31, 1956.

OMB Desk Officer: Milo Sunderhauf.

Office of Human Development Services

Subject: Recordkeeping and Reporting in NPRM to Implement Provisions of the Comprehensive Older Americans Act—New.

Respondents: State agencies on aging and Indian tribes.

OMB Desk Officer: Milo Sunderhauf.

Copies of the above information collection clearance packages can be obtained by calling the HHS Reports Clearance Officer on 202–245–6511.

Written comments and recommendations for the proposed information collections should be sent directly to both the HHS Reports Clearance Officer and the appropriate OMB Desk Officer designated above at the following addresses:

J. J. Strnad, HHS Reports Clearance Officer, Hubert H. Humphrey Building, Room 524–F, Washington, D.C. 20201

OMB Reports Management Branch, New Executive Office Building, Room 3208, Washington, D.C. 20503, Attn: (name of OMB Desk Officer).

Dated: February 25, 1983.

Dale W. Sopper,

Assistant Secretary for Management and Budget.

[FR Doc. 83–5880 Filed 3–3–83; 8:45 am]

BILLING CODE 4160–06–M

Public Health Service

National Toxicology Program; Chemicals (11) Nominated for Toxicological Testing: Request for Comments

SUMMARY: On November 17, 1982, the Chemical Evaluation Committee (CEC) of the National Toxicology Program (NTP) met to review 11 chemicals nominated for toxicological testing and to recommend the types of testing to be performed. With this notice, the NTP solicits public comment on the 11 chemicals listed herein.

FOR FURTHER INFORMATION AND SUBMISSION OF COMMENTS, CONTACT: Dr. Dorothy Canter, Assistant to the Director, National Toxicology Program, Room 2B55, Building 31, National Institutes of Health, Bethesda, Maryland 20205, (301) 496–3511.

SUPPLEMENTARY INFORMATION: As part of the chemical selection process of the National Toxicology Program, nominated chemicals which have been reviewed by the NTP Chemical Evaluation Committee (CEC) are published with request for comment in the **Federal Register** and *NTP Technical Bulletin*. This enables outside individuals and groups to participate in the NTP evaluation process thereby helping the NTP to make better informed decisions as to whether to select, reject or defer chemicals for testing.

Relevant comments and data submitted in response to this request are reviewed and summarized by NTP technical staff and then forwarded to the NTP Board of Scientific Counselors for its evaluation of the nominated chemcials and to the NTP Executive Committee for its decision making about testing. The NTP chemical selection process is summarized in the **Federal Register**, April 14, 1981 (46 FR 21828), and also in the NTP FY 1982 Annual Plan, pages 137–139.

On November 17, 1982, the CEC evaluated 11 chemicals nominated to the NTP for toxicological testing. The table below lists each chemical, its Chemical Abstracts Service (CAS) registry number, and the types of testing recommended by the CEC.

Chemical	CAS NO.	Committee recommendation
1. Atrazine	1912–24–9	Deferred (see below).
2. 1,3–Dinitropyrene[1]	75321–20–9	*In vitro* cytogenetics. Mouse lymphoma assay. Other appropriate short-term tests.
3. 1,6–Dinitropyrene[1]	42397–64–8	*In vitro* cytogenetics. Mouse lymphoma assay. Other appropriate short-term tests.
4. 1,8–Dinitropyrene[1]	42397–65–9	*In vitro* cytogenetics. Mouse lymphoma assay. Other appropriate short-term tests.
5. 1–Nitropyrene	5522–43–0	*In vitro* cytogenetics. Mouse lymphoma assay. Other appropriate short-term tests. Carcinogenicity (inhalation). Co-carcinogenesis study with benzo(a)pyrene.
6. Ordram (Molinate)	2212–67–1	Deferral (see below).
7. Roundup (Glyphosate isopropylamine salt).	38641–94–0	Deferred (see below).
8. 2,3,4,6–Tetrachlorophenol.	58–90–2	Deferred (see below).
9. 1,3,6,8–Tetranitropyrene.	28767–81–5	*In vitro* cytogenetics. Mouse lymphoma assay. Other appropriate short-term tests.
10. 2,4,7–Trinitrofluorenone.	129–79–3	90–day subchronic skin painting study.
11. 1,3,6–Trinitropyrene.	75321–19–8	*In vitro* cytogenetics. Mouse lymphoma assay. Other appropriate short-term tests.

[1] A mixture of the three dinitropyrenes (1,3–, 1,6–, and 1,8–dinitropyrene) was also recommended by the CEC for *in vitro* cytogenetics testing, the mouse lymphoma assay, other appropriate short-term tests, inhalational carcinogenicity testing, a co-carcinogenesis study with benzo(a)pyrene, and an inhalational teratology study. The CEC's testing recommendations were based upon concern about potential occupational and environmental exposures to these compounds and upon the desirability of complementing and extending the toxicological studies underway at the Environmental Protection Agency (EPA) on a mixture of the dinitropyrenes. The CEC recommended that the NTP ascertain the composition of the mixture that is being tested by EPA so that the Program can procure a mixture containing the same proportions of the three dinitropyrenes.

The four herbicides listed above, namely atrazine, ordram, roundup, and 2,3,4,6-tetrachlorophenol, were deferred by the CEC pending a review by EPA and NTP staff of the data submitted to the EPA Office of Pesticide Programs in support of the registration of these chemicals. Testing recommendations on these chemicals will be made at a subsequent CEC meeting.

A proposal for NTP reproductive effects testing of four aliphatic aldehydes, namely citral, crotonaldehyde, formaldehyde, and furfural, was also evaluated by the CEC following a review by several members of the Committee of the data on 12 aliphatic aldehydes under test by the NTP for various other toxicological endpoints. The CEC added butyraldehyde to the list of four compounds and recommended all five aldehydes for reproductive effects testing. Formaldehyde was recommended for an inhalational teratology study in rats and a two-generation reproductive study by the inhalation exposure route in rats. The remaining four aldehydes were each recommended for a teratology study. In addition, the CEC recommended that all five aldehydes receive consideration for testing in a three-generation *Drosophila* assay currently being evaluated by the National Institute for Occupational Safety and Health and the National Center for Toxicological Research.

Interested parties are requested to submit pertinent information. The following types of data are of particular relevance:

(1) Completed, ongoing and/or planned toxicological testing in the

private sector including detailed experimental protocols and, in the case of completed studies, resultant data.

(2) Modes of production, present production levels, and occupational exposure potential.

(3) Uses and resulting exposure levels, where known.

(4) Results of toxicological studies for structurally related compounds.

Please submit all information in writing by (thirty days after date of publication). Any submissions received after the above date will be accepted and utilized where possible.

Dated: February 28, 1983.

David P. Rall,

Director, National Toxicology Program.

BILLING CODE 4140-01-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[(A 17379) PS]

Arizona; Conveyance

Notice is hereby given that, pursuant to the Act of October 21, 1976 (90 Stat. 2743, 2750; 43 U.S.C. 1701, 1713), Smith and Lunt Dairy, P.O. Box 639, Pima, Arizona 85543, has purchased, by competitive sale, public lands in Graham County described as follows:

Gila and Salt River Mer., Arizona

T. 6 S., R. 24 E.,
Sec. 10, W½SW¼.

Containing 80 acres.

The purpose of the Notice is to inform the public and interested State and local governmental officials of the issuance of a patent to Smith and Lunt Dairy.

Mario L. Lopez,

Chief, Branch of Lands and Minerals Operations.

[FR Doc. 83-5869 Filed 3-3-83; 8:45 am]

BILLING CODE 4310-84-M

[A-18465]

Arizona; Proposed Withdrawal and Reservation of Lands

The Bureau of Prisons, Department of Justice, filed application, Serial No. A-18465, for the withdrawal of approximately 70.00 acres of public land from settlement, sale, location, or entry under all the general land laws, including the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, subject to valid existing rights:

Gila and Salt River Meridian, Arizona

T. 6 N., R. 2 E.,
Sec. 28, N½SW¼SW¼;
Sec. 29, E½SE¼NE¼, E½NE¼SE¼, NE¼SE¼SE¼.

The area described contains approximate by 70.00 acres in Maricopa County, Arizona.

The lands in sec. 29 are currently included in the Black Canyon Trails Area Designation.

The Bureau of Prisons desires that the land be withdrawn and reserved for the purpose of constructing a Federal Correctional Institution, sewage treatment plant, and a buffer zone.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal. All interested persons who desire to be heard on the proposed withdrawal must submit a written request for a hearing to the State Director, Arizona State Office, Bureau of Land Management, at the address shown below, on or before May 30, 1983. Notice of public hearing will be published in the **Federal Register** giving the time and place of such hearing. The public hearing will be scheduled and conducted in accordance with BLM Manual, Sec. 2351.16B.

The Department of the Interior's regulations provide that the authorized officer of the BLM will undertake such investigations as are necessary to determine the existing and potential demands for lands and their resources. He will also undertake negotiations with the applicant agency with the view of assuring that the area sought is the minimum essential to meet the applicant's needs, providing for the maximum concurrent utilization of the lands for purposes other than the applicant's and reaching agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn and reserved as requested by the applicant agency. The determination of the Secretary on the application will be published in the **Federal Register**. The Secretary's determination shall, in a proper case, be subject to the provisions of Section 204(d) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2753.

Effective on the date of publication of this notice, the above-described land shall be segregated from the operation of the public land laws, including the mining laws, but not the mineral leasing laws. The segregative effect of this proposed withdrawal shall continue for a period of two years, unless sooner terminated by action of the Secretary of the Interior. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. If the withdrawal is approved, the segregation will continue for the duration of the withdrawal.

All communications (except for public hearing requests) in connection with this proposed withdrawal should be addressed to the Chief, Branch of Lands and Minerals Operations, Arizona State Office, Bureau of Land Management, 2400 Valley Bank Center, Phoenix, Arizona 85073.

Dated: February 24, 1983.

Mario L. Lopez,

Chief, Branch of Lands and Minerals Operations.

[FR Doc. 83-5845 Filed 3-3-83; 8:45 am]

BILLING CODE 4310-84-M

[N-7052]

Nevada; Notice of Realty Action—Noncompetitive Sale Public Lands in Lincoln County, Nevada

February 25, 1983.

The following described land has been examined and identified for disposal by sale under Section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750; 43 U.S.C. 1713):

Mount Diablo Meridian

T. 2 N., R. 69 E.,
Sec. 35, SW¼NW¼NE¼SE¼.

The above-described land, comprising 2.5 acres, is being offered by direct sale to W. C. Hollinger at current fair market value.

The lands are being offered as a direct, noncompetitive sale to W. C. Hollinger, the owner of the adjoining tract and improvements on the sale tract. The first cadastral survey of this area was performed in 1872. There were a number of errors in this original survey. The location of the private land in Ursine was established from the survey. In 1970 it was discovered the survey was inaccurate and in 1973 the area was resurveyed.

Mr. Hollinger found that with the change in the new survey the house he owned was partially on public land. Disposal by direct sale to Mr. Hollinger will legalize his occupancy of the land, protect his equity investment in the improvements on the land, and resolve a complicated trespass situation.

The lands have not been used and are not required for any Federal purpose. Disposal would best serve the public interest. The sale is consistent with the Bureau's planning system. The land will not be offered for sale for at least 60 days after the date of this notice.

Patent, when issued, will contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States, Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All mineral deposits in the lands so patented, and to it, or persons authorized by it, the right to prospect, mine, and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

Detailed information concerning the sale is available for review at the Nevada State Office, 300 Booth Street, Reno, Nevada.

For a period of 45 days, interested parties may submit comments to the State Director (N–943), P.O. Box 12000, Reno, Nevada 89520.

Lacel E. Bland,

Acting Deputy State Director, Operations.

[FR Doc. 83–5646 Filed 3–3–83; 8:45]

BILLING CODE 4310–84–M

[N–37689]

Nevada; Notice of Realty Action—Non-Competitive Sale of Public Lands in Clark County

February 25, 1983.

The following described land has been determined to be suitable for disposition by non-competitive sale at current fair market value under Pub. L. 96–586 and in accordance with section 203 of the Federal Land Policy and Management Act of 1976, (90 Stat. 2750; 43 U.S.C. 1713):

Mount Diablo Meridian, Nevada

T. 21 S., R. 60 E.,
Sec. 25, N½NW¼NW¼NW¼.
Containing 5.0 acres.

Disposal of this land through a non-competitive sale would facilitate a suitable land use authorized through Recreation and Public Purposes Lease N–22430, the sale program under Pub. L. 96–586, land use planning in the area, state and local governmental planning and National Forest Service objectives.

Patent, when issued, will contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States, Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All mineral deposits in the land so patented, and to it, or persons authorized by it, the right to prospect, mine, and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe. This includes an existing oil and gas lease N–20086.[1]

And will be subject to:

1. An easement for streets, roads and utilities 50 ft. wide on the north, 75 ft. wide on the west and 30 ft. wide on the east, together with a spandrel area in the northeast corner thereof, being the southwest corner of the intersection bounded as follows: on the north by the south line of the 50 ft. thereof; on the east by the west line on the east 30 ft. thereof; and on the southwest by the arc of a curve concave southwesterly, having a radius of 25 ft. and being tangent to the south line of said north 50 ft. and tangent to the west line of said 30 ft.; also together with a spandrel area in the northwest corner thereof, being the southeast corner of the intersection, bounded as follows; on the west by the east line of the west 75 ft. thereof; on the north by the south line of the north 50 ft. thereof; and on the southeast by the arc of a curve concave southeasterly, having a radius of 54 ft. and being tangent to the east line of the west 75 ft. and tangent to the south line of the north 50 ft.

Detailed information concerning the identification of this land for disposal, including the planning documents, environmental assessment, and the record of public discussions, is available for review at either the Nevada State Office, 300 Booth Street, Reno, Nevada 89520 or the Las Vegas District Office, 4765 W. Vegas Drive, Las Vegas, Nevada 89108.

For a period of 45 days from the date of publication of this notice in **Federal Register**, interested parties may submit comments to the State Director, Nevada, Bureau of Land Management, P.O. 12000, Reno, Nevada 89520. Any adverse comments will be evaluated by the State Director, who may vacate or modify the Realty Action and issue a final determination. In the absence of any action by the State Director, this Realty action will become the final determination of the Department.

Lacel E. Bland,

Acting Deputy State Director, Operations.

BILLING CODE 4310–84–M

[1] Prior to the sale, the applicant, Redrock Southern Baptist Church, may request conveyance of the available Federally owned locatable and saleable mineral interest under Section 209 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2757; 43 U.S.C. 1719.

[N–30966]

Nevada; Termination of Proposed Withdrawal

February 22, 1983.

Notice of an application (N–30966) filed by the Bureau of Land Management, for withdrawal and reservation of public land was published as Federal Register Document 81–4377 on page 11369 of the February 6, 1981 issue. The Bureau has cancelled its application to segregate the critical habitat of the endangered plant species Osgood Mountains milk-vetch (Astragabus yoder-williamsii). The area has been formally designated as an Area of Critical Environmental Concern (ACEC). The following described 60 acres in Humboldt County, Nevada is affected:

Mount Diablo Meridian, Nevada

T. 38 N., R. 42 E.,
Sec. 6, N½SW¼NE¼, SW¼NW¼NE¼, SE¼NW¼NE¼, NE¼NW¼NE¼.
T. 39 N., R. 42 E.,
Sec. 31, SE¼SW¼SE¼.

The land is hereby relieved of the segregative effect of the above-mentioned application.

Wm. J. Malencik,

Deputy State Director, Operations.

[FR Doc. 83–5644 Filed 3–3–83; 8:45]

BILLING CODE 4310–84–M

[N–15614]

Nevada; Airport Lease Application Withdrawn

February 22, 1983.

Notice is hereby given that Nye County has withdrawn its airport lease application involving the following described lands:

Mount Diablo Meridian, Nevada

T. 21 S., R. 53 E.,
Sec. 5, All;
Sec. 8, E½, NE¼NW¼;
Sec. 9, W½;
Sec. 16, E½, NW¼, NE¼SW¼.

Withdrawal of the application was accepted on February 17, 1983 and at

that time the lands were relieved of the segregative effect of the application.

Wm. J. Malencik,

Deputy State Director, Operations.

BILLING CODE 4310-84-M

National Park Service

Golden Gate National Recreation Area Advisory Commission; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Golden Gate National Recreation Area Advisory Commission will be held at 7:30 p.m. (PST) on Wednesday, March 23, 1983, at the GGNRA Headquarters, Building 201, Fort Mason, San Francisco, California.

The Advisory Commission was established by Pub. L. 92-589 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on problems pertinent to the National Park Service systems in Marin and San Francisco counties.

Members of the Commission are as follows:

Mr. Frank Boerger, Chairman
Ms. Amy Meyer, Vice Chair
Mr. Ernest Ayala
Mr. Richard Bartke
Mr. Berger Benson
Mr. Fred Blumberg
Ms. Margot Patterson Doss
Mr. Jerry Friedman
Ms. Daphne Greene
Mr. Peter Haas, Sr.
Mr. Burr Heneman
Mr. John Jacobs
Ms. Gimmy Park Li
Mr. John Mitchell
Mr. Merritt Robinson
Mr. John J. Spring
Dr. Edgar Wayburn
Mr. Joseph Williams

Major agenda items for this meeting will be budget reviews of Golden Gate National Recreation Area and Point Reyes National Seashore, an update on the Delta King proposal and an update on Hyde Street pier redevelopment.

The meetings are open to the public. Any member of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing to receive further information on this meeting or who wish to submit written statements may contact John H. Davis, General Superintendent of the Golden Gate National Recreation Area, Fort Mason, San Francisco, California 94123; telephone (415) 556-2920.

Minutes of this meeting will be available for public information by April 22, 1983 in the Office of the Superintendent, Golden Gate National Recreation Area, Fort Mason, San Francisco, California 94123.

Dated: February 23, 1983.

John D. Cherry,

Acting Regional Director, Western Region.

INTERSTATE COMMERCE COMMISSION

[No. MC-F-15133]

Algocen Transport Holdings Limited—Continuance in Control Exemption—Thibodeau-Finch Express Limited and Algocen Transport, Inc.

AGENCY: Inerstate Commerce Commission.

ACTION: Notice of proposed exemption.

SUMMARY: Pursuant to 49 U.S.C. 11343(e) and the Commission's regulations in Ex Parte No. 400 (Sub-No. 1), *Procedures—Handling Exemption Filed by Motor Carriers*, 367 I.C.C. 113 (1982), Algocen Transport Holdings Limited, a Canadian corporation, which in turn is controlled by Algoma Central Railway, a Canadian rail carrier, seeks an exemption from the requirement under section 11343 of prior regulatory approval for its continuance in control of Thibodeau-Finch Express Limited (No. MC-129573) and Algocen Transport, Inc. (No. MC-166343), both Canadian motor carriers.

DATE: Comments must be received within 30 days after the date of publication in the **Federal Register.**

ADDRESS: Send comments to:

(1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, DC 20423
and
(2) Petitioners' Representative, Robert D. Schuler, 100 West Long Lake Road, Suite 102, Bloomfield Hills, MI 48013.

Comments should refer to No. MC-F-15133.

FOR FURTHER INFORMATION CONTACT: Warren C. Wood, (202) 275-7977.

SUPPLEMENTARY INFORMATION: Please refer to the petition for exemption, which may be obtained free of charge by contacting petitioners' representative. In the alternative, the petition for exemption may be inspected at the offices of the Interstate Commerce Commission during usual business hours.

Decided: February 24, 1983.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-52 (Sub-18)]

Atchison, Topeka and Santa Fe Railway Company—Abandonment—In Los Angeles County, CA; Findings

The Commission has found that the public convenience and necessity permit the Atchison, Topeka and Santa Fe Railway Company to abandon its rail line between milepost 15.44, near El Segundo, CA, and the end of the line at milepost 20.02 near Redondo Beach, CA, subject to conditions. A certificate will be issued authorizing abandonment unless the Commission also finds that: (1) A financially responsible person has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and (2) it is likely that the assistance would fully compensate the railroad.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Louis E. Gitomer, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. Any offer previously made must be resubmitted within this 10-day period.

Information and procedures regarding financial assistance for continued rail service are set forth at 49 U.S.C. 10905 and 49 CFR 1152.27 (formerly 49 CFR 1121.38).

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

[Ex Parte No. 417 and Ex Parte No. 417 (Sub-1)]

Costing Methodologies for the Northeast Corridor: Commuter Service and Conrail Freight Service

AGENCY: Interstate Commerce Commission.

ACTION: Adoption of final procedures.

SUMMARY: On January 22, 1982 (47 FR 3418, January 25, 1982) the Interstate Commerce Commission (Commission) issued proposed procedures for compensating Amtrak for use of its properties by commuter and freight services pursuant to the requirements of Section 1163(a) of the Northeast Rail Service Act of 1981 (Rail Act). The Commission also adopted these procedures as interim procedures, effective January 25, 1982. At that time the Commission determined that an avoidable costing methodology was the most appropriate basis for calculating the compensation to be paid to Amtrak by commuter rail passenger and freight services. Upon evaluating the comments received, the Commission has made certain modification to the procedures and has also included further explanation of its adoption of an avoidable costing methodology.

EFFECTIVE DATE: These final procedure are effective retroactively to January 25, 1982.

FOR FURTHER INFORMATION CONTACT:

Stephen Grimm, (202) 275–0839

or

James Wells, (202) 275–0840.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission decision. To purchase a copy of the full decision contact: T.S. Infosystems, Inc., Room 2227, 12th and Constitution Ave., NW., Washington, DC, 20423, telephone (202) 289–4357, DC metropolitan area or (800) 424–5403, toll free for outside the DC area.

Decided: February 1, 1983.

By the Commission, Chairman Taylor, Vice Chairman Sterrett, Commissioners Gilliam, Andre, Simmons, and Gradison. Commissioner Andre dissented in part with a separate expression. Commissioner Gilliam did not participate.

Agatha L. Mergenovich,

Secretary.

Commissioner Andre, dissenting in part:

I note that the majority is not going to take the lead in the issue of incentive payments for service quality by launching a sub-numbered docket to investigate Amtrak's request to work service quality into the payment schedule.

I submit that we should not be so reluctant to take the leadership in this area. The majority's decision comments favorably on the concept of quality of service payments but then lets the matter die for reasons which are unclear. An adequate legal foundation for consideration of service quality as part of the payment schedule appears in section 402(a) of the Rail Passengers Service Act, 45 U.S.C. 562(a). It is in the interest of the riders and the taxpayers to ensure that service quality is maximized by an appropriate incentive scheme.

I hope that the majority's reluctance to take the initiative in this area will not deter Amtrak from developing a service incentive scheme and petitioning this agency to docket the proposal for rulemaking.

BILLING CODE 7035–01–M

[Ex Parte No. 387]

Exemptions for Contract Tariffs

AGENCY: Interstate Commerce Commission.

ACTION: Notices of provisional Exemptions.

SUMMARY: Provisional exemptions are granted under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e), and the below-listed contract tariffs may become effective on one day's notice. These exemptions may be revoked if protests are filed.

DATE: Protests are due within 15 days of publication in the **Federal Register.**

ADDRESS: An original and 6 copies should be mailed to: Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT:

Douglas Galloway (202) 275–7278

or

Tom Smerdon (202) 275–7277

SUPPLEMENTARY INFORMATION: The 30-day notice requirement is not necessary in these instances to carry out the transportation policy of 49 U.S.C. 10101a or to protect shippers from abuse of market power; moreover, the transaction is of limited scope. Therefore, we find that the exemption requests meet the requirements of 49 U.S.C. 10505(a) and are granted subject to the following conditions: These grants neither shall be construed to mean that the Commission has approved the contracts for purposes of 49 U.S.C. 10713(e) not that the Commission is deprived of jurisdiction to institute a proceeding on its own initiative or on complaint, to review these contracts and to determine their lawfulness.

BILLING CODE 7035-01-M

[No. 39019]

New England Retail Express, Inc.—Petition for Exemption From Tariff Filing Requirements

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: New England Retail Express, Inc., a motor contract carrier, has requested exemption from the requirements of 49 U.S.C. 10702, 10761, and 10762. The sought relief is provisionally granted.

DATES: Comments are due on March 18, 1983. The sought exemption will become effective on April 4, 1983, unless, in response to timely filed adverse comments, the Commission issues a decision withdrawing this relief.

ADDRESS: Send original and 15 copies of comments to: Room 2139, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT:

Robin K. Williams (202) 275–7697

or

Howell I. Sporn (202) 275–7691

SUPPLEMENTARY INFORMATION: Section 10702(b) of the Interstate Commerce Act requires contract carriers to file with the Commission actual and minimum rates for the transportation they provide. Section 10761 prohibits transportation without a tariff on file with the Commission, and section 10762 sets forth general tariff requirements including contract carrier authority to file only minimum rates. Each of these sections authorizes the Commission to grant exemptions to contract carriers when relief is consistent with the public interest and the transportation policy of section 10101. 49 U.S.C. 10702(b), 10761(b) and 10762(f).

New England Retail Express, Inc., holds nationwide temporary authority to operate as a contract carrier transporting general commodities (with exceptions) between points in the United States (except Alaska and Hawaii) under continuing contract(s) with Puritan Furniture Corp., Norwood, MA. Petitioner seeks an exemption from the tariff filing requirements for all its contract operations with respect to Puritan Furniture Corp., including those under its temporary authority as well as those covered by its pending application for permanent authority, which was filed on December 6, 1982. New England Retail Express argues that the tariff filing requirement is costly and an undue burden, results in lost business opportunities, and impairs competition through loss of flexibility in the marketplace. Petitioner is anxious to avoid unnecessary expenses which handicap its efforts to provide economical and efficient service. It contends that since the national transportation policy emphasizes fostering competition and the removal of regulatory burdens, approval of its petition for exemption would foster those goals.

We see no reason to deny this carrier the savings to be realized from a tariff exemption for its existing and future contracts.[1] It appears that exemption of this carrier from the requirement that it file tariffs covering its contract operations is consistent with the public interest and the transportation policy of 49 U.S.C. 10101. Petitioner here presently holds temporary authority and is awaiting disposition of its pending contract carrier application for permanent authority. While this provisional grant can only apply to petitioner's existing temporary authority, we see no reason to require petitioner to file a second petition for exemption if its application for permanent authority is approved. Therefore, if its application for permanent authority is approved, and if this provisional exemption is made final, the final exemption will apply to any permanent authority coextensive with the temporary authority covered by the provisional exemption.

We provisionally grant the exemption. This provisional grant will become final after 30 days unless the commission issues a further decision modifying or withdrawing the grant in response to adverse comments that may be filed.

This decision does not appear to have a significant effect on either the quality of the human environment or conservation of energy resources. However, comments may be submitted on these issues.

(49 U.S.C. 10702(b), 10761(b), and 10762(f))

Decided: February 24, 1983.

By the Commission, Division 1, Commissioners Andre, Taylor, and Sterrett. Commissioner Taylor is assigned to this Division for the purpose of resolving tie votes. Since there was no tie in this matter, Commissioner Taylor did not participate.

Agatha L. Mergenovich,

Secretary.

---

[1] A proceeding to investigate the exemption of motor contract carriers on an industry-wide basis has been instituted in Ex Parte No. MC–165, *Exemption of Motor Contract Carriers from Tariff Filing Requirements* (47 FR 57303), December 23, 1982.

[Finance Docket No. 30123]

Southern Pacific Transportation Company—Discontinuance of Passenger Train Service in Ventura and Los Angeles Counties, California

AGENCY: Interstate Commerce Commission.

ACTION: Notice of hearing.

SUMMARY: Southern Pacific Transportation Company has filed a petition to discontinue passenger train service between Oxnard, Ventura County, CA, and Los Angeles, Los Angeles County, CA. Pursuant to 49 U.S.C. 10909 and 49 CFR Part 1153, hearing on the petition will be held on April 6, 1983 at 9:30 a.m. at: Los Angeles County Superior Court, County Courthouse, Room 203, 111 North Hill Street, Los Angeles, CA. Any interested person may participate in the hearing.

DATES: Any person opposed to the petition may file and serve a protest by March 21, 1983. Filing of a protest is not necessary in order to participate in the hearing.

ADDRESSES:

An original and six copies of pleadings should be filed with: Rail Section, Interstate Commerce Commission, Room 5417, Washington, D.C. 20423.

A copy of all pleadings should be served on applicant's representative: Herbert A. Waterman, 813 Southern Pacific Building, One Market Plaza, San Francisco, CA 94105.

Pleadings should refer to Finance Docket No. 30123.

FOR FURTHER INFORMATION CONTACT:

Louis E. Gitomer, (202) 275–7245.

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2227, Interstate Commerce Commission, Washington, D.C. 20423, or call 289–4357 (D.C. metropolitan area) or toll free (800) 424–5403.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

Motor Carriers; Decision Notice; Finance Applications

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find

Each transaction is exempt from section 11343 of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action uder the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1161.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 20 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 4 at (202) 275–7669.

MC–FC–81232, filed Fegruary 15, 1983. By decision of February 25, 1983, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1161, Review Board Number 2 approved the transfer to TERRELL C. CLARK, Stanleytown, VA, of Certificate No. MC–161427, issued October 27, 1982, to LEE-JAY MOTOR LINES, INC., Martinsville, VA, authorizing the transportation of *general commodities* (with the usual exceptions), between points in DE, GA, IN, KY, MD, NJ, NY, NC, OH, PA, SC, TN, VA, WV, and DC. Representative: Terrell C. Clark, P.O. Box 25, Stanleytown, VA, 24168 (703) 629–2816, for transferee.

BILLING CODE 7035-01-M

[Volume No. OP-2-080]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: February 24, 1983.

Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods.) The following applications for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For compliance procedures see 49 CFR 1160.86. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E.

These applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicant with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the

compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 2, (202) 275-7030.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

BILLING CODE 7035-01-M

[Volume No. OP2-079]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: February 24, 1983.

Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water Carriers; Household Goods Brokers. The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982 at 47 FR 53271. For compliance procedures, see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922(c)(2((E). Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminary, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: Common carrier of property-that the service proposed will serve a useful public purpose, responsive to a public demand or need; water common carrier-that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract carrier of property, freight forwarder, and household goods broker-that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except where noted, this

décision is neither a major Federal action significantly affecting the quality of the human environmental nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 1, Members Parker, Chandler and Fortier.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 2, (202) 275–7030.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

JOINT BOARD FOR THE ENROLLMENT OF ACTUARIES

Advisory Committee on Actuarial Examinations; Meeting

Notice is hereby given that the Advisory Committee on Actuarial Examinations will meet at the Westin Hotel, North Michigan Avenue at Delaware, Chicago, Illinois on April 5 and 6, 1983, beginning at 9:00 a.m. each day.

The purpose of the meeting is to prepare recommended questions for the Joint Board's examinations in actuarial mathematics and methodology referred to in Title 29 U.S. Code, section 1242(a)(1)(B). A determination as required by section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–463) has been made that the subject of the meeting falls within the exceptions to the open meeting requirement set forth in Title 5 U.S. Code, section 552b(c)(9)(B), and that the public interest requires that such meeting be closed to public participation.

Dated: March 1, 1983.

Leslie S. Shapiro,

Advisory Committee Management Officer, Joint Board for the Enrollment of Actuaries.

DEPARTMENT OF LABOR

Employment and Training Administration

Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for adjustment assistance issued during the period February 21, 1983—February 25, 1983.

In order for an affirmative determination to be made and a certification of elibibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partically separate,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–13,544; National Steel Corp., Weirton Steel Div., Weirton, WV
TA–W–13,669; Transfer Machines, Inc., Troy, MI
TA–W–13,342; Perception Direction Div., Bobbie Brooks, Inc., Hialeah, FL
TA–W–13,436; Wells-Index Corp., Three Rivers, MI
TA–W–13,610; S & S Products, Inc., Wyandotte, MI
TA–W–13,484; J & M Fashions, Inc., Union City, NJ
TA–W–13,488; Lucy Rose Anna Coat Co., Inc., Hoboken, NJ
TA–W–13,465; Rockwell International Corp., Automotive Supply Div., Chattanooga, TN
TA–W–13,390; Russell, Burdsall & Ward Corp., Chicage, IL
TA–W–13,674; The Boeing Co., Seattle, WA

In the following case the investigation revealed that criterion (3) had not been met. Increased imports did not contribute importantly to workers separations at the firm.

TA–W–13,210; J.V. Components, Inc., Conway, NH

In the following cases the investigation revealed that criterion (3) has not been met for the reasons specified.

TA–W–13,664; Mastex Industries, Inc., Bay State Mills Div., Holyoke, MA

Aggregate U.S. imports of fabric are negligible.

TA–W–13,668; Sturgill Mining Co., Wise, VA

Aggregate U.S. imports of metallurgical coal are negligible.

Affirmative Determinations

TA–W–13,721; U.S. Steel Corp., Minnesota Ore Operations, Mt. Iron, MN

A certification was issued in response to a petition received on August 6, 1982

covering all workers separated on or after July 31, 1981.

TA–W–13,590; U.S. Steel Corp., Johnstown-Canton Works, Canton, OH

A certification was issued in response to a petition received on June 14, 1982 covering all workers separated on or after June 9, 1981.

TA–W–13,268; U.S. Steel Corp., Headquarters, Pittsburgh, PA

A certification was issued in response to a petition received on February 8, 1982 covering all workers separated on or after January 14, 1981.

TA–W–13,521; U.S. Steel Corp., Research Laboratory, Monroeville, PA

A certification was issued in response to a petition received on May 28, 1982 covering all workers separated on or after May 25, 1981.

TA–W–13,496; V & A Coat (Formerly Willow Coat Co.), Hoboken, NJ

A certification was issued in response to a petition received on May 18, 1982 covering all workers separated on or after May 13, 1981.

TA–W–13,426; Boston Digital Corp., Hopkinton, MA

A certification was issued in response to a petition received on April 23, 1982 covering all workers separated on or after March 27, 1982.

TA–W–13,300; Beta Handbag & Luggage Corp., Hialeah, FL

A certification was issued in response to a petition received on March 22, 1982 covering all workers separated on or after April 2, 1981 and before April 1, 1982.

TA–W–13,345; Damsel Manufacturing Co., Inc., Avenel, NJ

A certification was issued in response to a petition received on February 23, 1982 covering all workers separated on or after November 20, 1981.

TA–W–13,345A; Damsel Manufacturing Co., Inc., Wilkes-Barre, PA

A certification was issued in response to a petition received on February 23, 1982 covering all workers separated on or after November 20, 1981.

TA–W–13,345B; Damsel Manufacturing Co., Inc., Plains, PA

A certification was issued in response to a petition received on February 23, 1982 covering all workers separated on or after November 20, 1981.

TA–W–13,612; U.S. Steel Corp., National-Duquesne Works, McKeesport, PA, and Duquesne, PA

A certification was issued in response to a petition received on May 25, 1982 covering all workers separated on or after October 1, 1981.

TA–W–13,391; U.S. Steel Corp., Lorain-Cuyahoga Works, Lorain, OH and Cleveland, OH

A certification was issued in response to a petition received on April 5, 1982 covering all workers separated on or after December 31, 1981.

TA–W–13,705; Aeolian Pianos, Inc., Aeolian American Div., Rochester, NY

A certification was issued in response to a petition received on August 9, 1982 covering all workers separated on or after October 4, 1981.

TA–W–13,375; Duluth Missabe & Iron Range Railway Co., Duluth, MN

A certification was issued in response to a petition received on March 25, 1982 covering all workers separated on or after September 1, 1981.

TA–W–13,400; U.S. Steel Corp., Johnstown-Canton Works, Johnstown, PA

A certification was issued in response to a petition received on April 7, 1982 covering all workers separated on or after April 6, 1981.

TA–W–13,483; Italian Fashions, Hoboken, NJ

A certification was issued in response to a petition received on May 18, 1982 covering all workers separated on or after August 9, 1981.

TA–W–13,489; Lunar Fashions, Hoboken, NJ

A certification was issued in response to a petition received on May 13, 1982 covering all workers separated on or after November 1, 1981.

TA–W–13,490; Maria Fashions, Inc., Hoboken, NJ

A certification was issued in response to a petition received on May 18, 1982 covering all workers separated on or after July 3, 1982.

TA–W–13,493; Natalie Ann Fashions, Inc., Union City, NJ

A certification was issued in response to a petition received on May 13, 1982 covering all workers separated on or after January 1, 1982.

TA–W–13,482; H & P Garment Co., Hoboken, NJ

A certification was issued in response to a petition received on May 18, 1982 covering all workers separated on or after October 3, 1981.

TA–W–13,481; Fortune Fashions, Inc., Jersey City, NJ

A certification was issued in response to a petition received on May 18, 1982 covering all workers separated on or after May 13, 1981.

TA–W–13,644; Bethlehem Steel Corp., South Buffalo Railway Co., Lackawanna, NY

A certification was issued covering all workers engaged in employment related to the production of carbon cold rolled sheet and strip, galvanized sheet, hot rolled sheet and basic and semi-finished steel of the Lackawanna plant of Bethlehem Steel Corp. and all workers of the South Buffalo Railway Co.

I hereby certify that the aforementioned determinations were issued during the period February 21, 1983–February 25, 1983. Copies of these determinations are available for inspection in Room 10,332, U.S. Department of Labor, 601 D Street, NW., Washington, D.C. 20213 during normal business hours or will be mailed to persons who write to the above address.

Dated: March 1, 1983.

BILLING CODE 4510-30-M

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for adjustment assistance issued during the period February 14, 1983–February 18, 1983.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not

contribute importantly to worker separations at the firm.

TA–W–13,505; Hecla Mining Co., Sherman Mine, Leadville, CO

TA–W–13,506; Hecla Mining Co., Star Mine, Wallace, ID

TA–W–13,507; Hecla Mining Co., Consolidated Silver Mine, Osborne, ID

TA–W–13,618; Midland Ross Corp., Capitol Castings Div., Phoenix, AZ

TA–W–13,626; Babcock & Wilcox Co., Tubular Products Group, Alliance, OH

TA–W–13,602; Connors Steel Co., Huntington, WV

In the following cases the investigation revealed that criterion (3) has not been met for the reasons specified.

TA–W–13,625; Ashland Petroleum Co., Buffalo Refinery, Tonawanda, NY

Aggregate U.S. imports of refined petroleum products did not increase as required for certification.

TA–W–13,627; Buddy Knitwear, Inc., Hempstead, NY

Aggregate U.S. imports of fabric are negligible.

TA–W–13,629; Clinton Corn Processing Co., Montezuma, NY

Aggregate U.S. imports of fructose corn syrup and refined sugar are negligible.

Affirmative Determinations

TA–W–13,637; Kannner Dress Co., Elizabeth, NJ

A certification was issued in response to a petition received on July 8, 1982 covering all workers separated on or after January 28, 1982.

TA–W–13,589; Quote Me, Inc., Clifton Forge, VA

A certification was issued covering all workers of the firm separated on or after June 8, 1981 and before August 1, 1982.

TA–W–13,435; Tecumseh Products Co., Tecumseh Div., Marion, OH

A certification was issued in response to a petition received on April 19, 1982 covering all workers separated on or after April 13, 1981.

TA–W–13,552; Armco, Inc., Baltimore Works, Baltimore, MD

A certification was issued covering all workers engaged in employment related to the production of stainless steel wire rod, bar, basic and semi-finished steel of the firm separated on or after June 9, 1981.

A certification was issued covering all workers engaged in employment related to the production of stainless steel wire of the firm separated on or after January 1, 1982.

I hereby certify that the aforementioned determinations were issued during the period February 14, 1983–February 18, 1983. Copies of these determinations are available for inspection in Room 10,332, U.S. Department of Labor, 601 D Street, NW., Washington, D.C. 20213 during normal business hours or will be mailed to persons who write to the above address.

Dated: February 22, 1983.

BILLING CODE 4510–30–M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to Section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than March 14, 1983.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than March 14, 1983.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street, NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 22nd day of February 1983.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

Negative Determination Regarding Application for Reconsideration

Pursuant to 29 CFR 90.18 an application for administrative reconsideration was filed with the Director of the Office of Trade Adjustment Assistance in the case listed below. In this case, the review indicated that there were no new facts not previously considered; that the determination was not based on a mistake; and that there was no misinterpretation of facts or of the law which would justify reconsideration. Therefore, denial of the application was issued.

Office of Pension Welfare Benefit Programs

Boldtco Restated Profit Sharing and Retirement Trust, et al.; Proposed Exemptions

AGENCY: Office of Pension and Welfare Benefit Programs, Labor.

ACTION: Notice of proposed exemptions.

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemptions, unless otherwise stated in the Notice of Pendency, within 45 days from the date of publication of this **Federal Register** Notice. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemptions.

ADDRESSES: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. Attention: Application No. stated in each Notice of Pendency. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue, NW., Washington, D.C. 20216.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of pendency of the exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) if the Code, and in accordance with procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of pendency are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

Boldtco Restated Profit Sharing and Retirement Trust Located in Appleton, Wisconsin

[Application No. D–3316]

Proposed Exemption

The Department of Labor (the Department) is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of sections 406(a), 406(b)(1), and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of sections 4975(c)(1) (A) through (E) of the Code shall not apply to: (1) A proposed mortgage loan (the Loan) by the Boldtco Restated Profit Sharing and Retirement Trust (the Plan) to Messrs. Richard and Todd Popp (collectively the Popps), the proceeds of which will be used by the Popps to finance the purchase of certain real estate from the Berg Corporation, a wholly owned subsidiary of the Oscar J. Boldt Construction Company (the Employer), a party in interest with respect to the Plan, and (2) the guarantees of repayment of the Loan and of the interest rate on the Loan by the Employer.

Summary of Facts and Representations

1. The Plan is a defined contribution profit sharing and retirement plan which had 79 participants and net assets of approximately $2,890,832 on February 29, 1980. The trustees (the Trustees) of the Plan are A. Kristian Jensen, Stephen Chavlovich, Robert H. Behling, Warren F. Parsons, Charles M. Boldt and Carol Westphal, all of whom are officers or employees of the Employer. Investment decisions for the Plan are made by the Trustees.

2. The applicants request an exemption to permit the Plan to make the Loan of $299,781 to the Popps, the proceeds of which will be used by the Popps to purchase property (the Property) from a subsidiary of the Employer. The proposed Loan represents less than 11 percent of the Plan's assets. The Popps are not parties in interest with respect to the Plan, however, their use of the Loan proceeds to purchase property from a wholly owned subsidiary of the Employer will benefit the Employer. The terms of the Loan are as follows:

a. The Loan will be repaid in monthly installments of principal and interest over a twenty year period.

b. The Employer guarantees repayment of the principal amount of the Loan within 60 days of default by the Popps on their payments and, in addition, guarantees that each month the Plan will receive interest at the rate of 16.5 percent per annum or the prime rate in effect on the first business day of each month at the First National Bank in Appleton, Wisconsin (First National), whichever is greater. First National has represented that it would make a loan to the Popps on the same terms and conditions, except that First National would charge interest based on its prime

rate, adjusted monthly, and would not require a guarantee of at least a 16.5 percent per annum interest rate.

c. The payment of interest will be allocated between the Popps and the Employer as follows: During each five year period of the Loan, the Popps will pay to the Plan interest at the greater of 16.5 percent per annum, or the prime rate of First National as quoted on the first business day of such five year period less five percent. The Employer will pay to the Plan on a monthly basis the difference, if any, as of the last business day of each month, between the interest paid by the Popps and the interest which would have accrued to the Plan based on the prime rate in effect on the first business day of that month at First National, such that the Plan will at all times during the term of the Loan receive interest at the greater of: (1) 16.5 percent per annum; (2) the prime rate of First National as quoted on the first business day of each five year period less five percent; or (3) the prime rate in effect on the first business day of each month at First National.

d. The Loan will be secured by a first mortgage on the Property and by a second mortgage on certain other real property which is owned by the Employer (the Southwest Property) (collectively, the Properties). The Employer represents that the security interest held by the Plan in the Properties will at all times be greater than 150 percent of the outstanding Loan balance. Documents evidencing the Plan's security interests in the Properties will be filed in accordance with Wisconsin law. The Property was appraised on December 31, 1981 by John Pfefferle (Pfefferle) who determined its fair market value on that date to be $390,000. The Southwest Property was appraised by Pfefferle on February 4, 1982, who determined its fair market value on that date to be $142,600. The Southwest Property is currently subject to a first mortgage in the amount of $140,000, of which $70,000 was outstanding on July 22, 1982. Pfefferle, who is independent of all parties to the proposed transactions, is the president of Appraisal Associates, Inc. which is located in Appleton, Wisconsin and has had over fifteen years of experience in the appraising of real estate.

3. First National, which is independent of the Employer, has been appointed as the independent fiduciary for the Plan with respect to the proposed Loan. First National certifies that it has reviewed the needs of the Plan and the terms and conditions of the Loan and has determined that the Loan is appropriate for the Plan and is in the best interest of the Plan's participants and beneficiaries; that the terms and conditions of the proposed transaction are at least as favorable to the Plan as those which the Plan could receive in a similar transaction with an unrelated party; and that it will monitor the terms and conditions of the Loan and enforce any rights the Plan has in the transaction. In addition, First National will have the responsibility for ensuring that the Loan is at all times collateralized to the extent of 150 percent of the outstanding balance of the Loan and that the Plan receives the interest rate guaranteed it herein.

4. The Trustees represent that the Loan is appropriate for the Plan and is in the best interest of the Plan's participants and beneficiaries in that it will provide the Plan with a high rate of return on a secure investment.

5. In summary, the applicants represent that the proposed transaction meets the statutory criteria contained in section 408(a) of the Act as follows: (1) The Loan represents less than 11 percent of the Plan's current assets; (2) the Trustees represent that the Loan is in the best interest of the Plan and its participants and beneficiaries; (3) the Loan has been approved in advance and will be monitored by an independent fiduciary; (4) the value of the collateral securing the Loan will at all times be at least 150 percent of the outstanding Loan Balance; and (5) the Employer guarantees repayment of the Loan within 60 days of default by the Popps and that the Plan will, at all times during the term of the Loan, receive a rate of interest equal to the greater of 16.5 percent per annum or the prime rate, adjusted monthly, of First National.

Tax Consequences of Transaction

The Department of the Treasury has determined that if a transaction between a qualified employee benefit plan and its sponsoring employer (or affiliate thereof) results in the plan either paying less than or receiving more than fair market value such excess may be considered to be a contribution by the sponsoring employer to the plan and therefore must be examined under applicable provisions of the Code, including sections 401(a)(4), 404 and 415.

For Further Information Contact: Ms. Katherine D. Lewis of the Department, telephone (202) 523–8972. (This is not a toll-free number).

Neurological Associates of Tucson Profit Sharing Plan and Trust (the Profit Sharing Plan) and Neurological Associates of Tucson Money Purchase Pension Plan and Trust (the Pension Plan; Collectively, the Plans) Located in Tucson, Arizona

[Application Nos. D–3722 and D–3723]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the contribution by Neurological Associates of Tucson (the Employer) of two medical condominiums (Buildings B–8 and B–9) to the Profit Sharing Plan and the San Rafael Building (Building S/R) to the Pension Plan, provided the contribution is valued at its fair market value on the date contributed, and the leasing of the Buildings by the Plans to the Employer, under the terms set forth in this notice, provided such terms are not less favorable to the Plans than those obtainable in an arm's-length transaction with an unrelated party.

Summary of Facts and Representations

1. The Profit Sharing Plan had 37 participants as of December 31, 1981 and, as of that date, had net assets of $1,444,195. The Pension Plan had 37 participants as of December 31, 1981, and had net assets of $1,117,201.

2. The Employer is an Arizona professional corporation, incorporated on June 21, 1963, which was organized primarily to provide neurological surgery and treatment in Tucson, Arizona. Currently, the Employer is the largest neurological group in Tucson, with approximately 9 physicians and 35 additional staff members.

3. Presently the Employer owns buildings which are used exclusively in the Employer's medical practice for patient examinations, doctors' offices and administrative offices. Buildings B–8 and B–9 are two medical condominiums which are located across the street from Tucson Medical Center, a 650 bed hospital. The current fair market value of Buildings "B" is $476,500, of which B–8 represents $96,500 and B–9 represents $380,000. As of June 1, 1982, the total encumbrance against Buildings "B" was $201,747, consisting of a first mortgage.

The monthly payments on the mortgage are $2,610.58, which will end on May 1, 1992. The other building, Building S/R, is also a medical condominium. Building S/R is located across the street from St. Joseph's Hospital, a 325 bed hospital. The current fair market value of Building S/R is $87,000, and it is encumbered by a first mortgage in the amount of $36,658. The monthly payments on the first mortgage on Building S/R are $469.91 and will end on August 1, 1992. The fair market value of the buildings was determined by an independent appraiser, Swango Real Estate Counseling and Valuation (Swango), of Tucson, Arizona.

4. The Employer has requested an exemption to contribute Buildings B–8 and B–9 to the Profit Sharing Plan and Building S/R to the Pension Plan. All the buildings will be transferred subject to their respective encumbrances. The Employer will claim as a deduction on its corporate income tax return an amount equal to the fair market value of the buildings, reduced by the outstanding balances due on the encumbrances at the time of transfer.

5. The Employer has also requested an exemption to lease the buildings from the Plans. The leases would be on a triple-net basis for a term of 15 years, with a rent adjustment every five years to reflect the then current fair market value of the buildings as determined by an independent appraiser acceptable to the independent fiduciary designated to oversee the transactions (see 7 and 8 below). At no time will the rentals be lower than the initial rent. Under the leases, the Employer will pay all expenses relating to the buildings, including maintenance, utilities, repair, taxes, insurance, and common area expenses so that the only expenditure responsibility of the Plans will be for the payment of principal and interest on the mortgages. The leases will provide that any expansion, improvements or renovations are to be made only by the Employer, solely at the Employer's expense, with any improvements belonging to the Plans at the termination of the leases. In event of default by the Employer in payment of the rentals, the leases will provide that the Plans at their discretion can either: (a) Sell the property to a third person and pay off any encumbrances; (b) relet the property to another tenant and continue to pay the encumbrances; or (c) void the lease and put the buildings to the Employer at a purchase price equal to the market value at the time of contribution, subject to encumbrances on the buildings at the time of the put. Such action is to be decided upon by the independent fiduciary designated to oversee the transactions.

6. The initial annual rental rates were determined by an independent appraisal by Swango. The annual rent for the first year for Buildings B–8 and B–9 will be approximately $53,000, and for Building S/R will be $9,800. These rentals will be sufficient to cover payments due on the encumbrances and any taxes due from unrelated business taxable income. Based on a net contribution value of $274,753 for Buildings B–8 and B–9, the net expected pre-tax return for the first year will be 7.9% based on cash flow. Building S/R, with a net contribution value of $50,342, is expected to have a pre-tax return for the first year of 8.3% based on cash flow.

The independent fiduciary has considered the rate of return to the Plans and notes that the previously cited figures are based only on cash flow to the Plans. He represents that the actual return to the Plans will be substantially higher due to appreciation and rental increases.

7. An unrelated party, Mr. James R. Hogan of Tucson, will be appointed as a named fidiciary for the Plans and will be given exclusive authority to manage and control all real property assets of the Plans. Mr. Hogan is owner/director of Hogan School of Real Estate and owner/broker of Hogan Investment Company, both of Tucson. Stewart Title and Trust Company of Tucson (Stewart Title) will collect all the rental payments. It will make the monthly payments on the mortgages and disburse the balance of the cash flow to the Plans' trustees. In addition, Stewart Title will make a monthly report to Mr. Hogan, which will enable him to monitor the leases to insure compliance with the terms and conditions and that timely payments are made on the encumbrances.

8. Mr. Hogan represents that he has considered the proposed contribution of the buildings to the Plans and has determined that the resulting investment by the Plans in the buildings is reasonably designed to further the purposes of the Plans by providing diversity, a current return to help meet current cash flow, and a projected return within the funding objectives of the Plan. He represents that his determination included the consideration of the risk of loss and opportunity for gain, including the potential impact of the unrelated business income tax, which will be either nominal or immaterial in relationship to the overall return from the investment. Mr. Hogan likewise represents that he has reviewed the terms of the proposed leases and finds that it would be in the best interests of the Plans and of their participants and beneficiaries to enter into the leases. Mr. Hogan has consulted with counsel familiar with the Act, and he has been advised of his duties, responsibilities and liabilities as a fiduciary under the Act.

9. In summary, the applicant represents that the proposed transactions satisfy the criteria of section 408(a) of the Act because: (1) After the contribution of the buildings, they will comprise approximately 16% of the assets of the Profit Sharing Plan and 4% of the assets of the Pension Plan; (2) the contribution values and the fair market rental values for the buildings were established by an independent appraiser; (3) the proposed contributions and leases have been reviewed by Mr. Hogan, an independent fiduciary for the Plans, who has determined that the transactions are appropriate for the Plans and in the best interest of the Plans' participants and beneficiaries; and (4) Mr. Hogan will monitor the payments to the Plans under the leases and will take whatever action is appropriate to enforce the Plans' rights.

For Further Information Contact: Gary H. Lefkowitz of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

Drs. Weigler, Jacobsohn and Mollick, S.C. Amended and Restated Employees Pension Plan (the Plan) Located in Cadahy, Wisconsin

[Application No. D–3802]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the cash sale of certain artwork by the Plan to Dr. Jordan M. Weigler (Dr. Weigler), a party in interest with respect to the Plan, provided that the sales price for the artwork is at least equal to its fair market value at the time of sale.

Summary of Facts and Representations

1. The Plan is a defined benefit pension plan with 10 participants and total assets of $276,827.82 as of June 30, 1982. The trustees of the Plan are Drs. Jordan M. Weigler, Peter H. Jacobsohn

and Sheppard Mollick, each of whom owns ⅓ of the shares of Drs. Weigler, Jacobsohn and Mollick, S.C. (the Employer). The custodian of the Plan's funds is the First Bank of Milwaukee, Wisconsin.

2. In August 1974, the Plan purchased a certain piece of artwork known as the "Square de Paris" by Marc Chagall (the Artwork) from the David Barnette Gallery (an unrelated party) of Milwaukee, Wisconsin. The Artwork was purchased for $5,500 and was print number 47 of a limited edition of 75. The Artwork has been continually stored in a safety deposit box at the First Wisconsin National Bank of Milwaukee, Wisconsin since its purchase.

3. The trustees of the Plan propose to sell the Artwork for cash to Dr. Weigler for its appraised value of $7,125. The Plan will not pay any sales commissions with respect to the proposed transaction. Mr. David J. Barnett (member of Appraisers Association of America) of the David Barnette Gallery, an unrelated appraiser, determined the fair market value of the Artwork to be $7,125 as of September 10, 1982.

4. The applicants represent that the Artwork is an illiquid investment which produces no income and requires various holding costs, including storage and appraisal fees. It is represented that the Artwork's rate of appreciation (approximately 3% per annum) has not provided an adequate rate of return to the Plan. Also, if the Artwork were sold by an art dealer, the applicant represents that a commission of between 20 to 25% would be taken by the dealer.

5. The applicant represents that the proposed sale will satisfy the statutory criteria for an exemption under section 408(a) of the Act because:

(a) The price to be paid to the Plan for the Artwork was determined by an independent appraiser;

(b) The Plan will be able to dispose of an illiquid and non-income producing asset;

(c) It will be a one time transaction for cash;

(d) No sales commissions will be paid by the Plan; and

(e) The trustees of the Plan represent that the proposed sale of the Artwork is in the best interests of the participants and beneficiaries of the Plan.

For Further Information Contact: Alan H. Levitas of the Department, telephone (202) 523–8971. (This is not a toll-free number.)

The Bay Cities Mortgage Company Profit-Sharing Plan (the Plan Located in Walnut Creek, California

[Application No. D–3837]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the proposed sale for cash in the amount of $9,822 by the Plan of its interest (the Interest) in a 1941 Cadillac Model 62 automobile (the Automobile) to John T. Gidré), a party in interest with respect to the Plan, provided that the price received by the Plan in such sale is at least equal to the fair market value of the Interest at the time of the sale.

Summary of Facts and Representations

1. The Plan, which is sponsored by the Bay Cities Mortgage Company, is a profit sharing plan with two participants, Gidré and Bonnie Council (Council). Gidré and Council are also the trustees (the Trustees) of the Plan. As a part of its assets, the Plan owns the Interest which consists of a 37½% undivided ownership interest in the Automobile. The Plan purchased the Interest on March 5, 1981 for cash in the amount of $7,500 from a party who was unrelated to the Plan. The remaining 62½% interest in the Automobile is owned by parties who also are unrelated to the Plan. The Interest represents approximately 14% of the assets of the Plan.

2. The applicant represents that at the time the Plan purchased the Interest, the Trustees anticipated that it would rapidly appreciate in value and that the Plan would be able to sell the Interest within 18 months from the date of its purchase. The Trustees now represent that due to unforeseen economic conditions the Automobile is not readily saleable and that the value of the Automobile is declining. The applicant represents that several unsuccessful attempts have been made to sell the Automobile in the open market. This effort to sell the Automobile has included advertising the Automobile for sale in the *Vintage Car Newspaper* and offering it for sale at several automobile shows.

3. The applicant is requesting an exemption which will permit Gidré to purchase the Interest for cash in the amount of $9,822. On August 13, 1982 an independent appraisal of the Automobile was performed by William L. Finefrock (Finefrock) whose office is located in Santa Maria, California and who is the publisher of the *Vintage Car Newspaper* and a specialist in the valuation of vintage automobiles. Finefrock represents that as of August 13, 1982 the fair market value of the Automobile was $22,500. The price of $9,822 that Gidré proposes to pay for the Interest represents the value of the Interest and a reimbursement to the Plan for its expenses related to the holding of the Interest. The Trustees represent that the proposed sale of the Interest to Gidré will be in the best interests of the participants of the Plan.

4. In summary, the applicant represents that the proposed sale will satisfy section 408(a) of the Act as follows: (1) The Trustees represent that the proposed sale will be in the best interests of the participants of the Plan; (2) the price used in the transaction has been established by an independent party; (3) the Plan will be able to sell an asset which is declining in value and which is not readily marketable; and (4) the Plan will recover expenses which it has incurred in holding the Interest.

For Further Information Contact: Richard Small of the Department, telephone (202) 523–7222. (This is not a toll-free number.)

Cartersville Cable T.V., Inc. Money Purchase Pension Plan (the Plan) Located in Cartersville, Georgia

[Application No. D–3883]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a) and 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the sale of certain stock by the Plan to Mr. Jon Oscher, a party in interest with respect to the Plan, for the amount of $20,875 in cash provided such amount is not less than the fair market value of such stock at the time of the consummation of the transaction.

Summary of Facts and Representations

1. The Plan is a money purchase pension plan with an estimated 15 participants. The Plan has total assets of $70,395 as of November 30, 1981. The trustee and administrator of the Plan is Mr. Jon Oscher (Mr. Oscher).

2. On August 14, 1981, the Plan purchased 500 shares of the common stock of Phoenix Resources Company (the Stock) for a total amount of $20,875. Since the purchase of the Stock, its value has declined, and on October 22, 1982, its asked price on the over-the-counter market was $5,375 ($10.75 per share) and its bid price was $4,875 ($9.75 per share). As of December 17, 1982, the prices quoted were 7½ bid, 9½ asked. These valuations of the Stock were confirmed by First Mid American, Inc., a stock brokerage company which is a member of the New York Stock Exchange.

3. The applicant proposes that the Stock be sold to Mr. Oscher at its original cost to the Plan of $20,875, so long as this amount equals or exceeds the fair market value of the Stock at the time it is sold to Mr. Oscher. Mr. Oscher will pay cash for the Stock, and the sale would be accomplished without payment by the Plan of any brokerage fee or other expenses related to the transaction.

4. In summary, the applicant represents that the proposed transaction meets the statutory criteria of section 408(a) of the Act because:

(a) It will be a one-time cash transaction;

(b) The Plan will receive more than fair market value for the Stock;

(C) The Plan will not be required to pay any brokerage or other fees in connection with the sale;

(d) The Plan will be able to avoid a loss as a result of the decline in value of the Stock; and

(e) The Plan trustee recommends that the proposed transaction be consummated.

Tax Consequences of Transaction

The Department of the Treasury has determined that if a transaction between a qualified employee benefit plan and its sponsoring employer (or affiliate thereof) results in the plan either paying less than or receiving more than fair market value such excess may be considered to be a contribution by the sponsoring employer to the plan and therefore must be examined under applicable provisions of the Internal Revenue Code, including sections 401(a)(4), 404 and 415.

For Further Information Contact: Ms. Linda M. Hamilton of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 1st day of March 1983.

Alan D. Lebowitz,

Assistant Administrator for Fiduciary Standards, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

[FR Doc. 83-6084 Filed 3-3-83; 8:45 am]

BILLING CODE 4510-29-M

Office of the Secretary

Agency Forms Under Review by the Office of Management and Budget (OMB)

Background

The Department of Labor, in carrying out its responsibility under the Paperwork Reduction Act (44 U.S.C. Chapter 35), considers comments on the proposed forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

On each Tuesday and/or Friday, as necessary, the Department of Labor will publish a list of the Agency forms under review by the Office of Management and Budget (OMB) since the last list was published. The list will have all entries grouped into new forms, revisions, extensions (burden change), extensions (no change), or reinstatement. The Departmental Clearance Officer will, upon request, be able to advise members of the public of the nature of any particular revision they are interested in.

Each entry will contain the following information:

The Agency of the Department issuing this form.

The title of the form.

The Agency form number, if applicable.

How often the form must be filled out.

Who will be required to or asked to report.

Whether small business or organizations are affected.

The standard industrial classification (SIC) codes, referring to specific respondent groups that are affected.

An estimate of the number of responses.

An estimate of the total number of hours needed to fill out the form.

The number of forms in the request for approval.

An abstract describing the need for and uses of the information collection.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained by calling the Departmental Clearance Officer, Paul E. Larson, Telephone 202–523–6331. Comments and questions about the items on this list should be directed to Mr. Larson, Office of Information Management, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S–5526, Washington, D.C. 20210. Comments should also be sent to the OMB reviewer, Arnold Strasser, Telephone 202–395–6880, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3208, NEOB, Washington, D.C. 20503.

Any member of the public who wants to comment on a form which has been

submitted to OMB should advise Mr. Larson of this intent at the earliest possible date.

212 responses; 13,992 hours

Federal law and standards require States to have adequate programs to prevent, detect and recover overpayments that result from willful misrepresentation and other reasons. This report provides data on the levels of fraud and nonfraud overpayment activity as well as recoveries of overpayments and prosecutions for fraud. Data are used to analyze program trends, for preparation and administration of State benefit payment control programs.

Mine Safety and Health Administration

[Docket No. M–82–92–C]

Acme Coal Co.; Petition for Modification of Application of Mandatory Safety Standard (Correction)

This notice amends a summary of a petition for modification of a mandatory safety standard to correct the document published in the **Federal Register** on January 3, 1983 (48 FR 96). This correction is necessary to amend an erroneous statement made in the earlier **Federal Register** notice. Paragraph number 7 is hereby amended to read: 7. As an alternative method, petitioner proposes that the minimum quantity of air reaching each working face be of perceptible movement.

Request for Comments

Persons interested in this amendment to the petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 4, 1983. Copies of the petition are available for inspection at that address.

Dated: February 23, 1983.

Patricia W. Silvey,

Acting Director, Office of Standards, Regulations and Variances.

BILLING CODE 4510–43–M

[Docket No. M–83–6–C]

Bell County Coal Corp.; Petition for Modification of Application of Mandatory Safety Standard

Bell County Coal Corporation, P.O. Box 758, Middlesboro, Kentucky 40965 has filed a petition for modification of 30 CFR 75.1710 (cabs and canopies) to its Hignite No. 8 Mine (I.D. No. 15–11039) located in Bell County, Kentucky. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cabs or canopies be installed on the mine's electric face equipment.

2. The average coal height is 40 to 44 inches, with an unpredicatable pitch.

3. Petitioner states that the installation of cabs or canopies on the mine's electric face equipment would result in a diminution of safety for the miners affected because the canopy could strike and dislodge roofbolts, creating the potential of a roof fall. Canopies can also strike and dislodge cables, creating the possibility of fire or electrical shock.

4. For these reasons, petitioner requests a modification of the standard.

Requests for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 4, 1983. Copies of the petition are available for inspection at that address.

Patricia W. Silvey,

Acting Director, Office of Standards, Regulations and Variances.

[FR Doc. 83–5670 Filed 3–3–83; 8:45 am]

BILLING CODE 4510–43–M

[Docket No. M–82–37–M]

Callahan Mining Corp.; Petition for Modification of Application of Mandatory Safety Standard

Callahan Mining Corporation, P.O. Box 905, Osburn, Idaho 83849 has filed a petition to modify the application of 30 CFR 57.11–59 (respirable atmosphere for hoist operators) to its Caladay Project (I.D. No. 10–00409) located in Shoshone County, Idaho. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that hoist operators be provided with an independent ventilation system that will convert, without contamination, to an approved and properly maintained two-hour self-contained breathing apparatus.

2. As an alternative method, petitioner proposes to use an MSA 401 air mask, fitted with a quick-connect coupling that will attach to a 220 cubic foot tank of compressed air. This supply will last nearly seven times as long as required to complete hoisting during a mine evacuation. The thirty minute back pack air supply will be more than adequate to reach a source of fresh air after hoisting is completed. Approximately six hundred feet exists between the hoist operator's cab and a reversible line starter which controls the main ventilation fan.

3. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 4, 1983. Copies of the petition are available for inspection at that address.

Dated: February 23, 1983.

Patricia W. Silvey,

Acing Director, Office of Standards, Regulations and Variances.

[FR Doc. 83-5699 Filed 3-3-83; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-83-3-C]

Eastover Mining Co.; Petition for Modification of Application of Mandatory Safety Standard

Eastover Mining Company, P.O. Box E, General Offices, Brookside, Kentucky 40801 has filed a petition to modify the application of 30 CFR 75.326 (aircourses and belt haulage entries) to its Darby No. 2 Mine (I.D. No. 15-11072) located in Harlan County, Kentucky. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that entries used as intake and return aircourses be separated from belt haulage entries.

2. The inherent geological conditions such as rolls and washouts have required the petitioner to drive through hard rock. This has limited the number of entries developed to three, numbered 2, 3, and 4. Number 2 entry is the return aircourse, number 3 is the belt and number 4 is the only intake airway available.

3. While part of the return air can be coursed through the old workings by means of a second fan, all the intake for working sections inby the three-entry system must pass through the single intake entry until some entries are cut out on the other side of the mountain for additional intakes. This single entry is not adequate to provide ventilation of the inby sections.

4. As an alternative method, petitioner proposes to use approximately 900 feet of the belt entry as an intake airway to supplement the main intake in the three-entry system.

5. In support of this proposed alternative method, petitioner states that:

a. Two airlocks will be built across the belt entry, one near the outby and the other near the inby end;

b. A carbon-monoxide detection system will be installed and maintained in the belt entry;

c. A suitable communication and monitoring system will be installed on the surface which can transmit an audiovisual signal to the sections inby the sensor;

d. In the event of a failure of the carbon monoxide detector, the two connections between the belt and the main intake entries will be closed by two permanent-type stoppings or a qualified person will be posted at the malfunctioning sensor to monitor the air every 15 minutes while miners are inby or until the sensor is repaired.

6. Petitioner states that the proposed alternative method outlined above will provide the same degree of safety for the miners affected as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 4, 1983. Copies of the petition are available for inspection at that address.

Dated: February 23, 1983.

BILLING CODE 4510-43-M

[Docket No. M-83-5-C]

Elk Lick Mining Co., Inc.; Petition for Modification of Application of Mandatory Safety Standard

Elk Lick Mining Co., Inc., P.O. Box 27, Iaeger, WV 24844 has filed a petition to modify the application of 30 CFR 75.1710 (cabs or canopies) to its No. 1 Mine (I.D. No. 46-05603) located in Logan County, West Virginia. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cabs or canopies be installed on the mine's electric face equipment.

2. The height of the coal seam varies between 43 and 52 inches. The mining equipment operates in entries which are 20 feet wide. There are no adverse rib conditions and no history of roof falls in areas where shuttle cars operate. A full roof bolting plan is used employing 30 inch roof bolts on 48 inch centers in all working areas and elsewhere as required.

3. Petitioner states that both canopies and cabs are incompatible with the present operations because of the size of the equipment in relation to the seam height and that such devices would result in a diminution of safety for the miners affected for the following reasons:

a. The canopies or cabs strike and dislodge roof bolts, resulting in unstable roof conditions, creating potentially hazardous conditions; and

b. Canopies and cabs restrict the equipment operator's visibility and cause discomfort, which forces the operators to lean out from the cabs and canopies, exposing body parts to potential injury from striking the rib and oncoming traffic.

4. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 4, 1983. Copies of the petition are available for inspection at that address.

Dated: February 23, 1983.

BILLING CODE 4510-43-M

[Docket No. M-82-134-C]

Keystone Coal Mining Corp.; Petition for Modificiation of Application of Mandatory Safety Standard

Keystone Coal Mining Corporation, 655 Church Street, Indiana, PA 15701 has filed a petition to modify the application of 30 CFR 75.326 (aircourses and belt haulage entries) to its Urling No. 2 Mine (I.D. No. 36-04853) located in Indiana County, Pennsylvania. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that intake and return aircourses be separated from belt haulage entries.

2. The intake aircourses currently supplying the working section of the mine are experiencing continuous sloughing and falling of roof rock. In the near future, this will not permit adequate air to reach the working sections.

3. As an alternative to coursing belt air directly into returns, petitioner proposes to use belt air for ventilation in the working sections. An approved carbon monoxide monitor with audible and visual alarms will be installed and maintained near the tailpiece in each working section where the use of belt air is desired.

4. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variences, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 4, 1983. Copies of the petition are available for inspection at that address.

Dated: February 23, 1983.

Acting Director, Office of Standards, Regulations and Variences.

[FR Doc. 83-5666 Filed 3-3-83; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-83-4-C]

Laurel Run Mining Co.; Petition for Modification of Application of Mandatory Safety Standard

Laurel Run Mining Company, Star Route Box 425, Mt. Storm, West Virginia 26739 has filed a petition to modify the application of 30 CFR 77.1605(k) (berms or guards) to its No. 1 Mine (I.D. No. 46-02845) located in Grant County, West Virginia. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that berms or guards be installed on the outer banks of elevated roadways.

2. Petitioner states that the installation of berms or guards along .66 mile of roadway that provides access to settling ponds and a deep well pump would result in a diminution of safety for the miners affected because:

a. The area is subject to heavy snowfall and berms or guards would prevent proper snow removal;

b. Berms would prevent proper drainage of the roadways which would result in icy spots forming during cold weather and erosion at other times, making driving on the roadway more hazardous.

3. This roadway is not used by vehicles hauling coal; it is used only for access to settling ponds and a deep well pump. The roadway is used infrequently and at low speeds, usually only twice a day by one or two employees in a pick-up truck. The roadway has no steep grades or sharp curves.

4. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Neece Creek Coal Co., Inc.; Petition for Modification of Application of Mandatory Safety Standard

Neece Creek Coal Co., Inc., P.O. Box 362, Nora, Virginia 24272 has filed a petition to modify the application of 30 CFR 75.305 (weekly examinations for hazardous conditions) to its No. 1 Mine (I.D. No. 44-05415) located in Dickenson County, Virignia. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that intake and return aircourses be examined in their entirety on a weekly basis.

2. As an alternative method, petitioner proposes to establish and maintain specified checkpoint monitoring stations to ensure adequate ventilation.

3. Petitioner states that the alternative method outlined above will ensure the health and safety of the miners affected.

Requests for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. BILLING CODE 4510-43-M

[Docket No. M-82-137-C]

Peabody Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Peabody Coal Company, R.R. No. 2, Box 20, Freeburg, Illinois 62243 has filed a petition to modify the application of 30 CFR 75.503 (permissible electric face equipment; maintenance) to its River King Underground No. 1 Mine (I.D. No. 11-01805), located in St. Clair County, Illinois. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the use of a locked padlock to secure plugs on the components of a scoop.

2. Petitioner states that there is an element of danger in having plugs locked together in the event of a fire or short circuit occurring in the scoop's electrical components.

3. As an alternative method, petitioner proposes that a spring-loaded harness snap or a spring hair pin device be used, in lieu of a padlock.

4. For these reasons, petitioner reqests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. BILLING CODE 4510-43-M

[Docket No. M-83-7-C]

Pyro Mining Co.; Petition for Modification of Application of Mandatory Safety Standard

Pyro Mining Company, P.O. Box 267 Sturgis, KY 42459 has filed a petition to modify the application of 30 CFR 75.1710 (cabs or canopies) to its No. 9 Mine (I.D. No. 15-13881) located in Webster County, Kentucky. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cabs or canopies be installed on the mine's electric face equipment.

2. The coal seam ranges from 50 to 54 inches in height, with undulations in the roof, unstable floor conditions, and ascending and descending grades creating dips.

3. Petitioner states that the use of cabs or canopies on the mine's electric face equipment would result in a diminution of safety for the miners affected because the canopies can strike and dislodge the roof bolts and roof-support system. The canopies cause a cramped operator compartment and reduce visibility, increasing the chances of an accident.

4. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. BILLING CODE 4510-43-M

[Docket No. M-83-96-C]

Saginaw Mining Co.; Petition for Modification of Application of Mandatory Safety Standard

Saginaw Mining Company, P.O. Box 275, St. Clairsville, Ohio 43950 has filed a petition to modify the application of 30 CFR 75.1403-8(e) (criteria-track haulage roads; stopblocks or derails) to its Saginaw Mine (I.D. No. 33-00941) located in Belmont County, Ohio. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that positive stopblocks or derails be installed on all tracks near the top and at landings of shafts, slopes and surface inclines.

2. As an alternative method, petitioner proposes a spring-loaded switch and throw, installed out by the entrance of the slope opening, to be used as a derailment mechanism. This device will allow the supply cars to be directed into the supply yard tracks in lieu of entering the slope track if the supply cars were to be accidentally uncoupled from the hoist rope or brake car. Both tracks in the supply yard are provided with positive stop blocks at the tracks' end.

3. Petitioner believes that the spring-loaded switch and throw device provides adequate derailment protection against supply cars entering the slope tracks uncoupled from the hoist or brake car provided.

4. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 4, 1983. Copies of the petition are available for inspection at that address.

Dated: February 23, 1983.

Patricia W. Silvey,

Acing Director, Office of Standards, Regulations and Variances.

BILLING CODE 4510-43-M

[Docket No. M-83-2-C]

Star Lite Mining Co., Inc.; Petition for Modification of Application of Mandatory Safety Standard

Star Lite Mining Co., Inc., Box 69, Bevinsville, KY 41606 has filed a petition to modify the application of 30 CFR 75.1100-1(a) (waterlines) to its Mine No. 1 (I.D. No. 15-13623) located in Floyd County, Kentucky. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that waterlines be capable of delivering 50 gallons of water per minute at a nozzle pressure of 50 pounds per square inch.

2. The mine is wet and muddy with standing water in most areas. The active working section has been driven approximately 300 feet; a conveyor belt running underground has been installed for a distance of 120 feet.

3. As an alternative method to installing a waterline along the conveyor belt, petitioner proposes to:

a. Patrol the conveyor belt, maintain it in good running condition, and rock dust where necessary;

b. Provide telephone communications from the surface to the dumping point;

c. Place 250 pounds of rock dust at intervals not to exceed 250 feet along the belt line;

d. Use only an approved fire resistant belt; and

e. Provide a belt slippage switch in the head drive unit.

4. Petitioner states that the proposed alternative method will provide the same degree of safety for the miners affected as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office

of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 4, 1983. Copies of the petition are available for inspection at that address.

[FR Doc. 83-5675 Filed 3-3-83; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-82-138-C]

Trinity Coal Corp.; Petition for Modification of Application of Mandatory Safety Standard

Trinity Coal Corporation, P.O. Box 327, Hayst, Virginia 24256 has filed a petition to modify the application of 30 CFR 75.1710 (cabs and canopies) to its No. 5 Mine (I.D. No. 44-05912) located in Buchanan County, Virginia. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cabs or canopies be installed on the mine's electric face equipment.

2. The coal seam varies in height from 17 to 60 inches, with severe undulating conditions.

3. Petitioner states that the installation of cabs or canopies on the mine's electric face equipment would result in a diminution of safety for the miners affected because the canopies would constantly scrape the roof and roofbolts, creating the chances of a roof fall. The undulations could cause the equipment to wedge between the roof and the floor, creating stress on the canopies and the equipment, which may lead to improper functioning at future times. Canopies also severely restrict the equipment operator's visibility, causing the operator to lean out from under the canopy and to expose body parts to injury from striking the rib or falling rock. Cabs restrict the operator's movement and space, causing increased operator fatigue which could result in an accident.

4. For these reasons, petitioner requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. BILLING CODE 4510-43-M

MERIT SYSTEMS PROTECTION BOARD

Office of Personnel Management; 1982, Significant Actions

AGENCY: Merit Systems Protection Board.

ACTION: Notice of review of the significant actions of the Office of Personnel Management during 1982.

SUMMARY: 5 U.S.C. 1209(b) requires the Board to review annually the "significant actions" of the Office of Personnel Management (OPM) and report to the Congress and the President on whether those actions are in accord with merit system principles and free from prohibiteid personnel practices. The Board is now commencing its review of OPM significant actions during 1982. This Notice explains the Board's study and invites public comment on OPM programs during calendar year 1982.

DATES: For maximum consideration, comments should be made in writing and received by the Board on or before April 14, 1983.

ADDRESS: Comments should be sent to the Office of Merit Systems Review and Studies, Room 836, Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, DC 20419, Attention: FAL.

FOR FURTHER INFORMATION CONTACT: Frank A. Lancione, Office of Merit Systems Review and Studies, Rm 836, Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, DC 20419, 202-653-8877.

SUPPLEMENTARY INFORMATION:

(a) *Background.* The Civil Service Reform Act of 1978 established a series of positive merit principles and prohibited personnel practices to govern the conduct of personnel management in the Federal Government (5 U.S.C. 2301 and 2302). The Merit Systems Protection Board is responsible for protecting the public interest in a civil service administered in accord with these merit objectives and free from improper practices. The Board does this by adjudicating employee appeals, acting on action brought by the Special Counsel, conducting special studies of the civil service and other merit systems, and reviewing the regulations and significant actions of OPM. The Office of Merit Systems Review and Studies (MSRS) has principal responsibility within the Board for merit systems studies and OPM oversight, including the annual report on OPM's significant actions.

(b) *What is a "significant action" report?* The law allows the Board substantial discretion to determine which actions of OPM are "significant" to the merit system in any given year. In exercising its discretion as to which actions of OPM it will report on, the Board's first priorities are:

(1) To examine any OPM policy or program which might conflict with one of the statutory merit principles or cause the commission of a prohibited personnel practice; and

(2) To evaluate the extent to which other major decisions made or actions taken by OPM are in accord with and promote the merit principles.

(3) To consider technical questions of personnel management, budget questions, or questions relating to internal OPM administration only to the extent that they are relevant to making judgments on the broader merit systems issues described above.

(c) *Public Comment on 1982 OPM Actions.* The Board invites any interested person or organization to comment on:

(1) Which actions of the OPM during calendar year 1982 were "significant" for the merit system; and,

(2) Whether those actions were in accord with the merit systems principles and free from prohibited personnel practices.

(d) Although comments are invited on any action taken by OPM during 1982, comments should be germane to the Board's mandate as described in (b) above. In addition, the Board invites comment on the following:

(1) *Merit Pay.* The Civil Service Reform Act of 1978 established October 1, 1981 as the deadline for the Government-wide implementation of merit pay for supervisors and management officials in pay grades 13-15. Late changes in guidance to agencies on the amounts of money that could be paid out under merit pay caused problems during the 1981 pay out cycle. 1982 was the first year during which full funding under current rules was available. The Board invites comment

on how well the 1982 merit pay distribution satisfied the merit principle goal that "appropriate incentives and recognition should be provided for excellence in performance."

(2) *Special Selection Authority Replacing PACE Exam.* OPM has dropped the Professional and Administrative Careers Exam. It has created a new special appointing authority agencies can use when recruiting externally for jobs formerly filled through PACE. The Board invites comment on the operation of these new appointment procedures during 1982. What impact, if any, have they had on candidates for Federal jobs and agency personnel programs? How have they contributed to the merit principle goal of "selection and advancement solely on the basis of relative ability, knowledge, and skills after fair and open competition which assures that all receive equal opportunity"?

(e) The Board will protect the identity of persons submitting comments and the confidentiality of such comments to the extent permitted by law.

Dated: February 18, 1983.

For the Board.

Herbert E. Ellingwood,

Chairman.

BILLING CODE 7400-01-M

NATIONAL SCIENCE FOUNDATION

Forms Submitted to OMB for Review

In accordance with the Paperwork Reduction Act and OMB guidelines, NSF is posting this notice of information collection that will affect the public.

Agency clearance officer: Herman G. Fleming (202) 357-9421.

OMB Officer: Gwendolyn Pla, (202) 395-7313.

Title: 1983 Survey of Doctorate Recipients.

Affected Public: Individuals. Persons taking doctorates in science, engineering, and the humanities.

Number of responses: 24,000; total of hours 6,000.

Abstract: Information yielded by the survey will enable the National Science Foundation to comply with the legislative requirement to collect information about scientific and technical personnel which can be used in policy and planning activities by government agencies and private institutions.

Dated: February 24, 1983.

Herman G. Fleming,

OMB Clearance Officer.

BILLING CODE

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-317 and 50-318]

Baltimore Gas & Electric Co.; Issuance of Amendments To Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 81 and 64 to Facility Operating Licenses Nos. DPR-53 and DPR-69, issued to Baltimore Gas & Electric Company (the licensee), which revised the licenses for operation of the Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 (the facility), located in Calvert County, Maryland. The amendments are effective as of the date of issuance.

The amendments modify license conditions to incorporate the most recent revisions to the Physical Security Plan.

The licensee's filings comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

The licensee's filings dated August 17 and October 7, 1982 are being withheld from public disclosure pursuant to 10 CFR 73.21.

For further details with respect to this action, see: (1) Amendment Nos. 81 and 64 to Facility Operating License Nos. DPR-53 and DPR-69 and (2) the Commission's related letter to the licensee dated February 24, 1983. These items are available for public inspection at the Commission's Public Document Room, at 1717 H Street, NW., Washington, D.C. and at the Calvert County Library, Prince Frederick, Maryland. A copy of items (1) and (2) may be obtained upon request to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 24th day of February 1983.

For the Nuclear Regulatory Commission.

Robert A. Clark,

Chief, Operating Reactors Branch No. 3, Division of Licensing.

[FR Doc. 83-5602 Filed 3-3-83; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-261]

Carolina Power and Light Co.; Negative Declaration Regarding Proposed Approval to the Technical Specifications of License DPR-23

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an approval to Facility Operating License No. DPR-23 issued to Carolina Power and Light Company (the licensee) for operation of the H. B. Robinson Steam Electric Plant, Unit No. 2 (the facility) located in Darlington County, South Carolina.

The approval would allow the H. B. Robinson Steam Electric Plant Unit No. 2 to transfer slightly contaminated sediment from its present settling pond to its adjacent fossil plant ash pond, in accordance with the licensee's request for approval dated January 17, 1983. We have concluded that there will be no change in the conclusions or evaluations given in the H. B. Robinson Unit 2 FES dated April 1975 in regard to radiological impacts on man or biota due to the proposed change.

The Commission has prepared an environmental impact appraisal for the proposed approval and has concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the proposed action.

The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Hartsville Memorial Library, Home and Fifth Avenue, Hartsville, South Carolina 29550. A copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 18th day of February 1983.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactors Branch No. 1, Division of Licensing.

[FR Doc. 83-6003 Filed 3-3-83; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-219, License No. DPR-16 EA 82-108]

GPU Nuclear Corp. (Oyster Creek Nuclear Generating Station); Order Imposing Civil Monetary Penalties

GPU Nuclear Corporation, Parsippany, New Jersey 07054 (the "licensee") is the holder of License No. DPR-16 (the "license") issued by the Nuclear Regulatory Commission (the "Commission") which authorizes the licensee to operate the Oyster Creek Nuclear Generating Station in Ocean County, New Jersey, in accordance with conditions specified therein. The license was issued on August 1, 1969.

II

Inspections of the licensee's activities under the license were conducted between November 3, 1981 and March 17, 1982 at the Oyster Creek Nuclear Generating Station in Ocean County, New Jersey. As a result of these inspections, it appears that the licensee had not conducted its activities in full compliance with the conditions of its license. A written Notice of Violation and Proposed Imposition of Civil Penalties was served upon the licensee by letter dated November 30, 1982. The Notice states the nature of the violations, the provisions of the Nuclear Regulatory Commission license conditions which the licensee had violated, and the amount of civil penalty proposed for each violation. An answer dated December 30, 1982 to the Notice of Violation and Proposed Imposition of Civil Penalties was received from the licensee.

III

Upon consideration of the answers received and the statements of fact, explanation, and argument for remission or mitigation of the proposed civil penalties contained therein, as set forth in the Appendix to this Order, the Director of the Office of Inspection and Enforcement has determined that the penalties proposed for the violations designated in the Notice of Violation and Proposed Imposition of Civil Penalties should be imposed.

IV

In view of the foregoing and pursuant to section 234 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2282, Pub. L. 96-295), and 10 CFR 2.205, it is hereby ordered, That: The licensee pay civil penalties in the amount of Forty Thousand Dollars ($40,000) within thirty days of the date of this Order, by check, draft or money order, payable to the Treasurer of the United States and mailed to the Director of the Office of Inspection and Enforcement.

V

The licensee may within thirty days of the date of this Order request a hearing. A request for a hearing shall be addressed to the Director, Office of Inspection and Enforcement, USNRC, Washington, D.C. 20555. A copy of the hearing request shall also be sent to the Executive Legal Director, USNRC, Washington, D.C. 20555. If a hearing is requested, the Commission will issue an Order designating the time and place of hearing. If the licensee fails to request a hearing within thirty days of the date of this Order, the provisions of this Order shall be effective without further proceedings; if payment has not been made by that time, the matter may be referred to the Attorney General for collection. In the event the licensee requests a hearing as provided above, the issues to be considered at such hearing shall be:

(a) Whether the licensee violated NRC license conditions as set forth in the Notice of Violation and Proposed Imposition of Civil Penalties; and

(b) Whether, on the basis of such violations, this Order should be sustained.

Dated at Bethesda, Maryland this 15th day of February 1983.

For the Nuclear Regulatory Commission.

Richard C. DeYoung,

Director, Office of Inspection and Enforcement.

APPENDIX

Evaluations and Conclusions

For each violation and associated civil penalty identified in the NRC's November 30, 1982 Notice of Violation and Proposed Imposition of Civil Penalties, the original violation and licensee's response are stated and the NRC's evaluation and conclusion regarding the licensee's response are presented. The licensee's response was provided in a letter dated December 30, 1982 from Mr. Peter B. Fiedler, Vice President and Director, Oyster Creek, to the Director, Office of Inspection and Enforcement. The NRC staff evaluations and conclusions are based on the December 30, 1982 letter.

Item A

Statement of Violation. Table 3.1.1, Section H of the Technical Specifications requires that, for each trip function listed in the section, there be a minimum of two operating trip systems capable of isolating the isolation condenser, except for when the reactor temperature is less than 212° F and the vessel head is removed or vented. The system must be capable of automatically closing two redundant valves in the influent steam line and two redundant valves in the condensate return line of an isolation condenser whenever a high flow condition in either the steam or condensate line is detected. If this specification cannot be met, the isolation condenser must be manuallly isolated.

Contrary to the above, between 8:45 p.m. on December 3, 1981 and 11:45 a.m. on December 4, 1981, while the reactor temperature was greater than 212° F, the trip system for the "A" Isolation Condenser was inoperable in that one of the redundant isolation valves, No. V-14-30, in the steam influent line to the "A" Isolation Condenser, would not close automatically and the "A" Isolation Condenser was not manually isolated.

This is a Severity Level III Violation (Supplement I).

(Civil Penalty—$20,000.)

Licensee Response. By letter dated December 30, 1982, the licensee admits Violation A cited in the NRC's November 30, 1982 Notice. The licensee challenges the classification of the violation as Severity Level III, claiming this classification is contrary to the NRC Enforcement Policy. The licensee requests reclassification of the violation as Severity Level IV and total remission of the civil penalty because Severity Level IV violations do not generally result in civil penalties.

The licensee agrees that the decision by shift supervision to declare the isolation condenser operable, considering the results of the surveillance tests, was a judgment error. The licensee claims the violation was an isolated occurrence not indicative of normal performance by supervision, and also claims a knowing violation did not occur. The licensee contends that past experience contributed to the decision to declare the isolation condenser operable. The licensee indicates that knowledge of prior incidents of valve binding due to tight packing, and several instances of torque switches out of adjustment, led the Group Shift Supervisor to conclude that the original failures of the valve to operate were

corrected by cycling. The licensee also implies that the Group Shift Supervisor was hindered from properly evaluating the situation because of other activities in progress at the time. The licensee further states that the decision to declare the valve operable was not made by the Operations Manager.

The licensee disagrees with the Severity Level III classification, and requests reclassification of the violation at Severity Level IV with no civil penalty since a loss of redundancy, and not a loss of function occurred, and since the Operations Manager did not declare the valve operable.

NRC Evaluation of Licensee Response. After reviewing the licensee's response, the NRC staff has concluded that the violation did occur and no mitigation of the civil penalty for Violation A is warranted. The severity level remains as cited because a limiting condition for operation was exceeded, and although a safety function was not lost, a degraded condition existed which should have alerted the licensee to take the required action. However, timely operator action was not taken. Therefore, classification of this violation at Severity Level III is consistent with Supplement I.C.1 of the NRC's Enforcement Policy (10 CFR 2, Appendix C).

The licensee was cited for not manually isolating the "A" isolation condenser after one of the isolation valves in the steam influent line of that isolation condenser would not automatically close as required. The licensee stated that the Group Shift Supervisor, based on his knowledge of recent incidents of valve binding due to tight packing and torque switches out of adjustment, concluded that the original failure of the valve to operate was corrected by cycling this valve. Cycling the valve does not correct torque switch problems and cannot be relied upon to correct "tight packing" problems unless the valve had just been repacked. Action should have been taken to determine the cause of the malfunction rather than relying on an assumption that the symptoms were due to packing problems experienced in the past. The further implication that the extent of activities in progress may have prevented a proper evaluation of the situation is unacceptable. It is clear that the Group Shift Supervisor was aware that it took several attempts to successfully cycle the valve.

The licensee further stated that the Operations Manager did not declare the valve operable. However, the Operations Manager was given the information that it took several attempts to successfully cycle the valve.

Further investigation should have been ordered to confirm the assumption of tight packing/torque switch maladjustment.

The licensee also states in the December 30, 1982 letter that the violation is not similar to Violation B in any meaningful sense. The NRC staff agrees that the two Technical Specifications that were violated are not similar. However, the action that would have prevented both violations from occurring is the same, namely, adequate surveillance testing. It is for this reason that a separate base civil penalty of $40,000 for each violation, which would have resulted in a cumulative penalty of $80,000, was not proposed. Rather, the base civil penalty of $40,000 was assessed for the one problem area, namely inadequate surveillance testing, and the penalty was equally divided between Violations A and B.

NRC Conclusion. This violation did occur as originally stated. The violation is appropriately classified at Severity Level III. Assessment of a $20,000 civil penalty is appropriate because both it and Violation B are examples of the same problem area, namely inadequate surveillance testing. Had this violation been considered separately, a $40,000 penalty could have been assessed for each violation. The information in the licensee's response does not provide a basis for modifying the enforcement action.

Item B

Statement of Violation. Technical Specification 3.5.A.3 requires, in part, that primary containment integrity be maintained whenever the reactor is critical or the reactor water temperature is above 212° F with fuel in the reactor vessel.

Section 1.13 of the Technical Specifications defines primary containment intergrity and requires, in part, that all automatic containment isolation valves specified in Table 3.5.2 be either operable or secured in the closed position. Table 3.5.2 of the Technical Specifications, entitled *Containment Isolation Valves*, lists the reactor building to suppression chamber vacuum breakers as containment isolation valves.

Technical Specification 3.5.A.4.a requires that two reactor building to suppression chamber vacuum breakers in each line shall be operable at all times when primary containment integrity is required. If this condition is not met, the reactor shall be in cold shutdown in 24 hours, subject to the provisions in Technical Specification 3.5.A.4.b.

Technical Specification 3.5.A.4.b permits operation for up to seven days with one operable reactor building to suppression chamber breaker provided the vacuum breaker is locked closed and primary containment is not violated.

Contrary to the above, between May 14, 1980 and February 26, 1982, valve V-26-16, which is both a primary containment isolation valve and a reactor building to suppression chamber vacuum breaker, was inoperable because of incorrect reassembly. As a result: (1) The automatic isolation function of the valve was inoperable and the valve was not secured in the closed position, and (2) only one supression chamber vacuum breaker was operable during all those periods between May 14, 1980 and February 26, 1982 when the reactor was critical or the reactor water temperature was greater than 212° F with fuel in the reactor vessel.

This is a Severity Level III Violation (Supplement I).

(Civil Penalty—$20,000.)

Licensee Response. By letter dated December 30, 1982, the licensee admits Violation B cited in the NRC's November 30, 1982 Notice. The licensee challenges the classification of the violation as Severity Level III, claiming the classification is contrary to the NRC Enforcement Policy. The licensee claims the violation is of minor safety significance and requests reclassification of the violation as Severity Level V. The licensee also requests remission of the civil penalty since Severity Level V violations do not generally result in civil penalties.

The licensee states that the primary cause of the violation was inadequacies in their procedures for inspecting the vacuum breaker and for preforming local leak rate tests. These inadequacies consisted of insufficient maintenance instructions in the inspection procedure and the lack of a requirement in the test procedure for the test engineer to verify the valve position with the control room prior to performing the test. The licensee indicated that a combination of both deficiencies was required to cause the violation.

The licensee suggests that this violation does not fit a Level III as stated in Supplement I.C.1 of the Enforcement Policy because there was no loss of a safety function (only a loss of redundancy for the vacuum breaker function and the isolation function), and although a degraded condition did occur, sufficient information did not exist to alert the operator that the plant was operating in violation of a technical specification limiting condition for

operation action statement. The licensee further contends that the violation is of minor safety significance and should be classified at Severity Level V with no civil penalty.

NRC Evaluation of Licensee Response. After reviewing the licensee's response to Violation B, the NRC staff has concluded that the violation did occur and no mitigation of the civil penalty is warranted. The severity level remains as cited because a limiting condition for operaton was exceeded and although a safety function was not lost, a degraded condition existed due to loss of redundant capabilities.

The licensee was cited for the reactor being critical with a redundant vacuum breaker/isolation valve being inoperable in excess of the time allowed by two technical specification limiting conditions for operation action statements. This violation occurred because of improper reassembly of the valve after maintenance and failure of the leak test to detect the improper assembly. The licensee maintains that sufficient information did not exist to alert them they were in an action statement condition. This was not, however, a situation in which informaton was lacking notwithstanding all reasonable actions by the licensee. The information was unavailable because of the licensee's own actions. The local leak rate test, had it been performed satisfactorily, would have provided information sufficient to alert the licensee that the leak rate was in excess of the technical specification limiting conditions for operation because of the improper valve reassembly. Therefore, classification of this violation at Severity Level III is consistent with the intent of Supplement I.C.1 of the NRC Enforcement Policy. In that regard, the NRC staff notes that the examples of violations in the Supplements are neither controlling nor exhaustive as indicated in Section III of the Enforcement Policy.

NRC Conclusion. This violation did occur as originally stated. The violation is appropriately classified at Severity Level III. Assessment of a $20,000 civil penalty for this violation is appropriate because both it and Violation A are examples of the same problem area, namely inadequate surveillance testing. Had this violation been considered separately, a $40,000 penalty could have been assessed for each violation. The information in the licensee's response does not provide a basis for modifying the enforcement action.

BILLING CODE 7590-01-M

[Docket Nos. 50-315 and 50-316]

Indiana and Michigan Electric Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 70 to Facility Operating License No. DPR-58 and Amendment No. 52 to Facility License No. DPR-74, issued to Indiana and Michigan Electric Company (the licensee), which modify the licenses to include a requirement to maintain a Guard Training and Qualification Plan to be followed in accordance with 10 CFR 73.55(b) and Appendix B to 10 CFR 73. The amendments are effective immediately and must be implemented within 60 days of the date of issuance and are to be implemented in accordance with the provisions of 10 CFR 73.55(b)(4). All security personnel shall be qualified within two years of this approval. The Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2 (the facilities), is located in Berrien County, Michigan.

The filings for the amendments, comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards condition.

The licensee's filings dated September 14, 1981, as revised November 30, 1981, May 27, 1982, July 23, 1982 and December 21, 1982, are being withheld from public disclosure pursuant to 10 CF 73.21.

For further details with respect to this action, see: (1) Amendment Nos. 70 and 52 to License Nos. DPR-58 and DPR-74, and (2) the Commission's related letter to the licensee dated February 22, 1983. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the Maude Reston Palenske Memorial Library, 500 Market Street, St. Joseph, Michigan 49085. A copy of items (1) and (2) may be obtained upon request to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 22nd day of February 1983.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactors Branch No. 1, Division of Licensing.

[FR Doc. 83-6005 Filed 3-3-83; 8:45 am]
BILLING CODE 7590-01-M

[Docket: 50-298; License: DPR-46 EA 82-46]

Nebraska Public Power District, Cooper Nuclear Station; Order Imposing Civil Monetary Penalties

I

Nebraska Public Power District (the "Licensee") is the holder of Operating License No. DPR-46 ("the license") issued by the Nuclear Regulatory Commission ("NRC" or the "Commission"). The license authorizes operation of the Cooper Nuclear Station. The facility is located at the licensee's site in Nemaha County, Nebraska. The license was issued on January 8, 1974.

II

During a telephone conversation in January 1982 between C. A. Hackney, NRC Region IV, NPPD's Manager of Licensing, and a licensing engineer; in a February 8, 1982 letter to NRC Region IV from NPPD's Division Manager of Licensing and Quality Assurance; and during a March 9, 1982 oral briefing to NRC by various NPPD personnel, the licensee stated that the prompt notification system for the Cooper Nuclear Station required by Appendix D to 10 CFR 50 to be installed by February 1, 1982 had been installed and was operational. An NRC special inspection and an NRC investigation conducted during the period of March 11-30, 1982 determined that the prompt notification system was not installed or operational. The NRC served the licensee with a written Notice of Violation and Notice of Proposed Imposition of Civil Penalties by letter dated August 9, 1982. The Notice stated the nature of the violations, the provisions of the Nuclear Regulatory Commission regulations which the licensee had violated, and the amount of the civil penalty proposed. The licensee responded to the Notice of Violation and Proposed Imposition of Civil Penalties by letter dated October 7, 1982.

III

Upon condsideration of Nebraska Public Power District's responses and the statements of fact, explanation, and argument in denial or mitigation contaned therein as set forth in the Appendix to this Order, the Director of the Office of Inspection and

Enforcement has determined that civil penalties should be imposed. However, after consideration of the circumstances surrounding this event, the amount of the civil penalties has been reduced. The August 9, 1982 Notice of Violation and Proposed Imposition of Civil Penalties is hereby amended to provide that in Item I only one material false statement was made. This statement, that the prompt notification system was installed and operational, was first made during the January 1982 telephone call and repeated in the February 8, 1982 letter and the March 9, 1982 briefing. A civil penalty of $100,000 is imposed for that item.

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2282, Pub. L. 96–295, and 10 CFR 2.205, it is hereby ordered, that: The licensee pay civil penalties in the total amount of One Hundred Twelve Thousand Dollars for Items A and B as described in the August 9, 1982 Notice of Violation and Proposed Imposition of Civil Penalties as amended in Section III of this Order within 30 days of the date of this Order, by check, draft, or money order payable to the Treasurer of the United States and mailed to the Director of the Office of Inspection and Enforcement.

V

The licensee may within 30 days of the date of this Order request a hearing. A request for a hearing shall be addressed to the Director, Office of Inspection and Enforcement, USNRC, Washington, D.C. 20555. A copy of the hearing request shall be sent to the Executive Legal Director, USNRC, Washington, D.C. 20555. If a hearing is requested, the Commission will issue an Order designating the time and place of hearing. Should the licensee fail to request a hearing within 30 days of the date of this Order, the provisions of this Order shall be effective without further proceedings and, if payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the licensee requests a hearing as provided above, the issues to be considered at such a hearing shall be:

(a) Whether the licensee was in violataion of the Commission's requirements as set forth in the Notice of Violation and Proposed Imposition of Civil Penalties as amended in section III above, and

(b) Whether on the basis of such violations the Order should be sustained.

Dated at Bethesda, Maryland this 18 day of February 1983.

For the Nuclear Regulatory Commission.

Richard C. DeYoung,

Director, Office of Inspection and Enforcement.

APPENDIX

Evaluation and Conclusions

For each violation and associated civil penalty identified in the Notice of Violation and Proposed Imposition of Civil Penalties (dated August 9, 1982) the original violation is restated and the Office of Inspection and Enforcement's evaluation and conclusion regarding the licensee's response (dated October 7, 1982) to each item is presented.

Item A

Statement of Violation. The Commission's regulations, specifically, 10 CFR 50.54(s)(2)(i) and Section IV.D.3 of Appendix E to 10 CFR Part 50, require that each facility holding an operating license shall by February 1, 1982 demonstrate that administrative and physical means have been established for alerting and providing prompt instructions to the public within the plume exposure pathway emergency planning zone.

Contrary to the above, during an inspection conducted on March 11, 1982, the NRC determined that the licensee had not demonstrated that administrative and physical means had been established for alerting and providing prompt instructions to the public within the plume exposure pathway emergency planning zone. Specifically, five of the mobile sirens identified by the licensee in its Emergency Plan as part of its prompt notification system had not been removed from their shipping containers and a sixth mobile siren had a missing part. Further, during the investigation, statements from representatives of the local volunteer fire fighting organizations who were to use the mobile sirens indicate that they had not received indoctrination or training prior to March 12, 1982 with respect to their role in the operation of the prompt public notification system. As a result, the facility was operated with an inoperable public notification system from February 1, 1982 through March 12, 1982, inclusive, a period of 40 days.

For the first 12 days in March, 1982, each each day of failure to meet the requirements for a prompt public notification system constitutes a separate Severity Level III violation. A daily civil penalty of $1,000 is being proposed for each day for a cumulative civil penalty in the amount of $12,000 for these violations.

Licensee's Response. The licensee asserts that it was not in violation of NRC's emergency planning regulations. It claims that it interpreted the regulations differently than NRC but that the requirements for implementation of the regulations were uncertain at the time and its interpretation was reasonable. The licensee asserts that it viewed compliance with the regulations as complete when the mobile sirens were delivered to the local fire departments because it believed FEMA was responsible for assuring that offsite response systems were adequate and that time would be provided to correct deficiencies following the FEMA review.

Finally, the licensee asserts NRC staff should have indicated NPPD's actions would not result in full compliance. Since they did not, and indeed, since the staff made a statement to the Commission in August 1981 that NPPD was in compliance, NPPD submits it has a reasonable basis for assuming that it was in compliance.

NRC Evaluation. The licensee's arguments here are without merit. The regulations require the licensee, not FEMA, to install and test the prompt notification system by February 1, 1982. 10 CFR 50.54(q), and Appendix E, Section IV.D.3. Although the staff may have concurred in August 1981 in NPPD's proposed approach towards compliance with the regulations, the staff fully expected, and the licensee should have been aware, that the system was to be put in place and made operational. The staff construed the licensee's representations of June 30, 1981 to mean that the system would be completed by July 31, 1981, and on this basis reported to the Commission that NPPD was in compliance. The system could not have been completed if the mobile sirens were not installed. The license's response suggests it was aware of its responsibility to ensure that the system functioned properly. The licensee states it conducted an independent test of the decibel level of the mobile sirens and prepared route maps and coordinated with local fire departments even after it distributed the sirens. Unfortunately, the licensee did not follow through on these actions. It removed the item from its corporate tracking system and, as a result, the job was not adequately completed. The siren system was not made "operational" in that several sirens were still in their cartons on February 1, 1982.

Conclusions. The staff concludes that the licensee failed to comply with the emergency preparedness requirements and the violation stands.

Item B

Statement of Violation. During a telephone conversation in January 1982 between C. A. Hackney, NRC Region IV, and NPPD's Manager of Licensing and a licensing engineer; in a February 8, 1982 letter to NRC Region IV from the NPPD's Division Manager of Licensing and Quality Assurance; and during a March 9, 1982 oral briefing to NRC by various NPPD personnel, the licensee stated that the prompt public notification system for the Cooper Nuclear Station had been installed and was operational.

Contrary to the above, when the statements referred to were made, the NPPD prompt notification system was not installed and operational. Each of the statements made by licensee representatives in January 1982, on February 8, 1982 and on March 9, 1982 concerning the status of the prompt notification system constituted a material false statement within the meaning of Section 186 of the Atomic Energy Act of 1954, as amended. The statements were false in that as of March 9, 1982, the prompt notification system was neither installed nor operational. The false statements were material in that had the NRC known of the true situation, action would have been taken by NRC to assure compliance.

Each material false statement is a Severity Level II violation and is assessed a proposed civil penalty of $96,000. A cumulative civil penalty of $288,000 is proposed for the three material false statements.

Licensee Response. The licensee acknowledges the inaccuracy of the statements but asserts that none of the statements is a material false statement because the statements were not: (1) Necessary to enable NRC to determine whether a license should be modified or revoked; (2) if made "in connection with" a power reactor license, required to have been submitted under oath; or (3) in two out of three of the statements, written and signed by the licensee. Furthermore, the licensee questions whether any of the statements was material because even if NRC had known the actual status of the prompt notification system it would only have proposed a civil penalty for failure to comply. Finally, the licensee asserts that none of the statements was false because the licensee believed that as it interpreted the NRC regulations, it had complied. In particular, with respect to the telephone call, the licensee asserts the statement was not false because: NPPD was simply attempting to say it was in compliance, the NRC charaterized compliance as being installed and operational, and so NPPD adopted those words.

In addition, the licensee asserts: (1) That the violations for the material false statements should not have been charcterized as Severity Level II violations; (2) that the action taken is inconsistent with other enforcement actions, e.g. *Pilgrim;* (3) that the cause of the violation was not management inattention to NRC requirements; (4) that NRC should not penalize public utilities; (5) that the NRC enforcement policy should not be retroactively applied; and (6) that the action should be mitigated because of the licensee's corrective actions, good enforcement history and lack of prior notice of similar events.

NRC Evaluation. The staff believes that a material false statement within the meaning of Section 186 of the Atomic Energy Act 1954, as amended, was made. Section 186 of the Atomic Energy Act provides that "a. Any license may be revoked for any false statement in the application or any statement of fact required under Section 182." In the VEPCO decision, *Virginia Electric and Power Company* (North Anna Power Station, Units 1 and 2), CLI–76–22, 4 NRC 480 (1976), *Affirmed, Virginia Electric and Power Company* v. *U.S. Nuclear Regulatory Commission* 571 F.2d 1289, 1291 (4th Cir. 1978), the Commission has determined that Section 186 is a full disclosure statute and is applicable to omissions as well as affirmative statements. Since an omission is by its very nature unsigned and unsworn, statements need not be singed or sworn to constitute material false statements.

The staff disagrees with the licensee's argument that the statements were not material. When the staff learned on March 11, 1982 that the prompt notification system was not installed, it immediately issued a Confirmatory Action Letter calling for the licensee to take immediate action to put the system in place. Had the staff been informed on February 1, 1982 that the system was not installed and operational, it would have required installation immediately and compliance would have been achieved at that time. The licensee's response could have been used to determine whether the license should be modified or revoked or whether other enforcement action would be appropriate. Contrary to NPPD's suggestion, it is not necessary for the NRC to indicate the full range of potential actions and consequences each time it communicates with a licensee, and failure to do so does not foreclose it from exercising one of those options. Therefore, the statements were clearly material. Finally, the licensee's assertion that the statements were not false because the licensee had reason to believe it was in compliance with the requirements must be rejected because, for the reasons set forth in the discussion of the violation involving noncompliance with the requirements, the system was not installed and operational as required by the regulations. Furthermore, under Commission case law, a statement need not be intentionally false to constitute a material false statement. Finally, the licensee's argument that "operational" did not mean "operational" but rather its own interpretation of compliance is unacceptable. It ignores the plain meaning of operational. As NPPD notes, the NRC often relies on informal communication with licensees. The NRC will obviously assume a licensee intends the common meaning of words absent some qualification. To assume otherwise would be unworkable and make communication impossible.

With regard to the licensee's other arguments: (1) The staff does not agree that these material false statements should be evaluated as Severity Level III violations. These violations fit the example of Supplement VII B.1. (2) Because of the importance which the Commission attributes to the prompt notification system requirements, the staff does not believe that the level of enforcement action proposed in this case is inconsistent with other similar enforcement actions. However, as discussed below, the staff has concluded that certain adjustments in the penalty for other reasons are appropriate. (3) As described more fully in the evaluation of the licensee's response to Item A, NPPD management was responsible for ensuring that the prompt notification system was installed and operational by February 1, 1982. Because management failed to give this matter adequate attention, the system was not installed and operational by that date. (4) Public utilities are held to the same standard of protection of the public health and safety as private utilities and enforcement actions for both types of utilities must be consistent. (5) Under the interim Enforcement Policy and case law, the Commission had discretion to impose civil penalties for material false statements. Further guidance regarding the exercise of this discretion was provided in new Enforcement Policy. The Commission did not retroactively apply the enforcement policy. (6) The staff has recommended a reduction in the civil penalty. The staff does not

believe that any further mitigation of the penalty would be appropriate.

Conclusion. The Commission originally proposed a penalty for three material false statements; each of the three material false statements was categorized as a Severity Level II violation under the Enforcement Policy, 10 CFR Part 2, Appendix C; and the base penalty for each was increased by fifty percent. In light of the licensee's response and further study of the circumstances surrounding the violation, the staff has concluded that a citation for one material false statement is appropriate and that the maximum penalty of $100,000 be imposed for this violation due to the serious breakdown in management control.

BILLING CODE 7590-01-M

[Docket No. 50-423]

Northeast Nuclear Energy Co., et al.[1] (Millstone Nuclear Power Station, Unit 3); Receipt of Application for Facility Operating License; Notice of Availability of Applicants' Environmental Report Notice of Consideration of Issuance of Facility Operating License; and Notice of Opportunity for Hearing

Notice is hereby given that the Nuclear Regulatory Commission (the Commission) has received an application for a facility operating license from the Northeast Nuclear Energy Company, acting as an agent for the fifteen utilities listed below. Northeast Nuclear Energy Company has no ownership interest in the Millstone Nuclear Power Station, Unit 3, but will design, construct, and operate the facility for The Connecticut Light and Power Company and Western Massachusetts Electric Company (lead applicants) and the other applicants. The Millstone Nuclear Power Station, Unit 3 is a pressurized water reactor located in the Town of Waterford, New London County, Connecticut on the north shore of Long Island Sound. The reactor is designed to operate at a core power level of 3411 megawatts thermal, with an equivalent net electrical output of approximately 1156 megawatts.

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, the applicants filed an environmental report as part of the application. The report, which discusses environmental considerations related to the proposed operation of the facility, is being made available at the Office of Policy Management Comprehensive Planning Division, 80 Washington Street, Hartford, Connecticut 06115 and at the Southeastern Connecticut Regional Planning Agency, 139 Boswell Avenue, Norwich, Connecticut 06360.

After the environmental report has been analyzed by the Commission's staff, a draft environmental statement will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the **Federal Register**, a notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The notice will also contain a statement to the effect that any comments of Federal agencies and State and local officials will be made available when received. The draft environmental statement will focus only on matters which differ from those previously discussed in the final environmental statement prepared in connection with the issuance of the construction permit. Upon consideration of comments submitted with respect to the draft environmental statement, the Commission's staff will prepare a final environmental statement, the availability of which will be published in the **Federal Register.**

The Commission will consider the issuance of a facility operating license to the applicants which would authorize the applicants to possess, use and operate the Millstone Nuclear Power Station, Unit 3 in accordance with the provisions of the license and the technical specifications appended thereto, upon: (1) The completion of a favorable safety evaluation of the application by the Commission's staff; (2) the completion of the environmental review required by the Commission's regulations in 10 CFR Part 51; (3) the receipt of a report on the applicants' application for a facility operating license by the Advisory Committee on Reactor Safeguards; and (4) a finding by the Commission that the application for the facility license, as amended, complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commisson's regulations in 10 CFR Chapter I. Construction of the facility was authorized by Construction Permit No. CPPR-113, issued by the Commission on August 9, 1974. The applicants have advised that construction may be completed as early as November 1985.

Prior to issuance of an operating license, the Commission will inspect the facility to determine whether it has been constructed in accordance with the application, as amended, and the provisions of the construction permit. In addition, the license will not be issued until the Commission has made the findings reflecting its review of the application under the Act, which will be set forth in the proposed license, and has concluded that the issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. Upon issuance of the license, the applicants will be required to execute an indemnity agreement as required by Section 170 of the Act and 10 CFR Part 140 of the Commission's regulations.

By March 24, 1983, the applicants may file a request for a hearing with respect to issuance of the facility operating license. By April 4, 1983, any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary of the Commission, or designated Atomic Safety and Licensing Board, will issue a notice of hearing or an appropriate order.
